PROGRAM FACT SHEET ASSOCIATE IN SCIENCE (A10400)

The College Transfer program is designed for students who intend to transfer to a four-year college or university to pursue a baccalaureate degree. Students in this program are responsible

for examining the requirements of the four-year college or university to which they plan to transfer for completion of their degree. Counselors and advisors are available to assist students in planning their program.

The course work in the program includes literature, humanities, mathematics, physical education, and the sciences. The Associate in Science program leans more toward

mathematics and the physical and life sciences and is intended for those pursuing the Bachelor of Science degree. The Associate in Arts program concentrates heavily on the humanities and social sciences and is recommended for those who plan to continue in a Bachelor of Arts degree program.

Upon completion of the program, the student will receive an associate in science degree.

FAYETTEVILLE TECHNICAL COMMUNITY COLLEGE ASSOCIATE IN SCIENCE (A10400)

TOTAL REQUIRED CREDITS.... 60

***Note:** Students must meet the receiving university's foreign language and/or health and physical education requirements, if applicable, prior to or after transfer. While completing General Education Elective courses at FTCC, it is recommended that students select appropriate foreign language courses if required by the four-year college/university.

****Note:** Other Elective courses should be selected based on the intended major and transfer university requirements.

Work Based Learning Option: Qualified students may elect to take one (1) credit hour of Work Based Learning under Major Other Required Courses provided they acquire approval from the Co-op/Work Based Learning Coordinator and the Department Chairperson.
