An Equal Opportunity Employer

The IT/Cloud Management associate degree program is designed to provide training for individuals interested in obtaining the ability to understand elements of the information technology domain with an emphasis on cloud technologies.

Participants will perform a variety of hands-on activities including the configuration of various cloud services offered by Amazon Web Services (AWS) and Microsoft Azure.

Upon completion of this program learners should be prepared to take various industry exams that certify competency in AWS, Azure, Red Hat Linux, Python, VMware, and CompTIA Security+. Participants will also gain practical skills that endow them with the ability to implement a variety of services offered by cloud solution providers.

Course Work

Cloud Management is a concentration under the Information Technology program. The curriculum prepares students to configure a variety of services from cloud solution providers. Participants will develop strong analytical skills and computer knowledge. Coursework includes extensive hands-on experience to foster the practical abilities needed to configure a variety of cloud related services such as Amazon Web Services (AWS) and Microsoft Azure.

Career Paths

Graduates should qualify for employment in business, educational systems, and governmental agencies which rely on cloud technologies to manage information. The program will incorporate the competencies of industry-recognized certification exams including Amazon AWS, Microsoft Azure, Red Hat Linux, VMware, CompTIA Security+, and Python.
