NEW YEAR FRESH START

With a new year comes resolutions for changes in the coming year. For some, it may be a fitness goal and for others it will be graduating and embarking on a new career or your next degree!

A new year is also a time to make a fresh start. For some it is starting this program. For others that the first semester did not go as planned, it's a chance to change what did not work last semester.

Regardless of your New Years Resolutions, we hope you have a great semester and are happy to see you back!

DATA PRIVACY WEEK

Data Privacy Week
January 22 - 28

Data Privacy Week is an annual effort taking place from January 22 – 28, 2023. The goal is to spread awareness about online privacy among individuals and organizations.

FTCC is championing Data Privacy Week 2023.

This year's theme for individuals is **Data: The Story of You**

For you, this means taking control of your digital life. While you cannot control everything about you online, you have the ability to control some of what is shared.

Visit staysafeonline.org/programs/data-privacy-week/individuals/ to manage your personal information and make informed decisions about who is receiving your data.

UPCOMING EVENTS

USCYBERCOM'S ACADEMIC ENGAGEMENTS
Tech Talk Series

Joseph Billingsley - Director of Strategic Engagement will hold a discussion focused on students who are considering cyber-focused employment within the US Government.

Time: 2:00 - 3:30 pm EST

Register: https://tinyurl.com/mrxnfty8

TECHNET FORT BRAGG
SYMPOSIUM AND EXPOSITION

SCHOLARSHIPS / INTERSHIPS

AFCEA Educational Foundation Scholarships

AFCEA International and its chapters and corporate partners offer a variety of scholarships ranging from ROTC scholarships, diversity and inclusion scholarships and to STEM scholarships (which includes a $5,000 Cyber Security Scholarship).

For a full list of scholarships and eligibility requirements visit: https://www.afcea.org/afcea-educational-foundation/scholarships

Booz |Allen | Hamilton Summer Games Intern 2023

The Summer Games is an internship program that divides interns into teams, each working on a different challenge project. Throughout the Games, interns receive mentorship from senior leaders, solve problems using Booz Allen's products and unique engagement models, and leverage the power of collaboration in a virtual environment.

Requirements:
-Experience with conducting research
-Ability to work independently and in teams
-Ability to work remotely
-Ability to obtain a security clearance
-Scheduled to obtain a Bachelor's degree between Winter 2023 through Spring/Summer 2026

For more information and to apply, visit https://tinyurl.com/yfhhbbtp

CACI Cyber Security Engineer — Intern Summer 2023

CACI is offering an exciting opportunity for academically accomplished and technically oriented individuals who are looking for paid Summer Internships!

As a team member, you will be working with the latest technology to solve real world problems.
You will assist an engineering team to design and support Cyber Security solutions across the project life cycle.
You will monitor and oversee the completion of tasks under the direction of the senior Engineer.
No clearance required.

Apply for this opportunity visit: https://tinyurl.com/y5znu2jj

Student Spotlight

Congratulations to the follow student who has recently passed their exam and now holds the following certification

 Heather Aicher
