A program to support local employers who are struggling to find skilled workers & expand educational opportunities to individuals with employability barriers

PROGRAM OBJECTIVE:

Support local employers that are challenged to find skilled workers in construction, manufacturing, & maintenance by training long-term unemployed individuals who have faced barriers to obtaining employment due to lack of education, involvement with the justice system and aging out of foster care.

PLAN:

FTCC's plan is to enhance and expand educational opportunities and support services available to formally incarcerated individuals with employability barriers. This will be done by increasing their job-readiness, and connecting students who complete the program with employers seeking skilled workers.

OUTCOMES:

- 1) Prepare students with industry recognized certifications (OSHA 10, forklift driver, and other core industry credentials such as HVAC and NCCER credentials in construction)
- 2) Train students with technical skills that lead to employment.
- 3) Connect students completing the program with employers who are looking to hire individuals skilled in construction trades, infrastructure installation, welding, and landscaping.
- 4) Assist students with (OJT) On the Job Training and placement assistance into employment.
- 5) Improve the social and economic mobility of students in danger of being "left behind" through increased educational attainment.

QUALIFIERS:

- 1) Must be 18 years old and above
- 2) Reside in Cumberland County (Proof of address needed)
- 3) Pass Initial Drug Screen
- 4) State ID/Driver's License

COURSE OUTLINE:

The course will introduce the students to the knowledge and skills of construction trades, safety, tools, carpentry, cabinetry, drywall, building codes, estimations, energy options, and energy efficiency technology.

1. NCCER Core (80hrs.)
2. Forklift (24hrs.)
3. Plumbing (40hrs.)
4. HVAC (40hrs.)
5. Electrical (40hrs.)
6. Carpentry & Cabinetmaking (40hrs.)
7. OSHA (10-14hrs.)
8. HRD (24hrs.)
9. Welding (50 hrs.)

Total Class Hours: 334

(Equivalent to 11 Weeks of Classes)

CEU's: 33.4

Class Schedule: Monday, Tuesday, Wednesday & Thursday's, 8am to 5pm

Case Management Sessions: Every Friday as scheduled
