THE PRESIDENT’S MESSAGE

Dear Student:

Thank you for choosing Fayetteville Technical Community College to meet your educational objectives. FTCC has a wide range of programs offering associate degrees, certificates, and diplomas, and many of our programs are available completely online. Our goal is to deliver high-quality education to you at an affordable price through proficient faculty members and caring staff members dedicated to serving you well during your admission, registration, and learning process.

This catalog has been designed to provide you with program information and course descriptions as well as information about FTCC and the many academic services we offer to help you achieve your goals. As you consider a program that’s right for you, I invite you to visit our campus and our website and talk with academic advisors and counselors who will be happy to answer any questions you may have.

An important piece of advice I can share with you based on my personal experience is that learning truly is a lifelong experience. Enjoy your journey here at FTCC and always give your best effort. With academic success, you can enjoy the personal rewards that come from making positive contributions to the workforce as you share your unique talents and abilities. We at FTCC are proud to be your partner in the journey.

Thank you again for choosing FTCC, and I extend my best wishes to you for success.

Sincerely,

J. Larry Keen
President

PURPOSE OF THE CATALOG

Fayetteville Technical Community College provides this catalog with information about the College and its programs. The information provided is up-to-date as of July 2010. Changes subsequent to publication of this catalog are posted to the catalog on our website. For current information, visit our website at www.faytechcc.edu.

The provisions of this catalog are not to be regarded as an irrevocable contract between students and Fayetteville Technical Community College. The College reserves the right to change any provisions, requirements, or schedules at any time or to add or withdraw courses or program offerings. Every effort will be made to minimize the inconvenience such changes create for students.

Students having questions not answered by this catalog may receive additional information from their Department Chair or academic advisor. Applicants are encouraged to contact the Admissions Office, Fayetteville Technical Community College, PO Box 35236, Fayetteville, NC 28303-0236; telephone (910) 678-8473 or E-mail to: prospect@faytechcc.edu.

NONDISCRIMINATION STATEMENT

The Board of Trustees and the administration of Fayetteville Technical Community College are fully committed to the principles and practice of equal employment and educational opportunities. Accordingly, Fayetteville Technical Community College does not practice or condone discrimination, in any form, against students, employees, or applicants on the grounds of race, color, national origin, religion, sex, age, disability or political affiliation. Fayetteville Technical Community College commits itself to positive action to secure equal opportunity regardless of those characteristics.

Fayetteville Technical Community College supports the protection available to members of its community under all applicable Federal Laws, including Title VI and VII of the Civil Rights Act, Title IX of the Education Amendments, Sections 799A and 845 of the Public Health Service Act, the Equal Pay and Age Discrimination Acts, the Rehabilitation Act, the Americans with Disabilities Act, Executive Order 11375, and their amendments.

For information concerning these provisions, contact: Vice President for Human Resources
Fayetteville Technical Community College

THE COLLEGE

GENERAL INFORMATION

Fayetteville Technical Community College, as a comprehensive community college, adheres to an “Open Door” admissions policy. High school graduates, persons achieving a North Carolina equivalency certificate (GED), and adults who show potential for post high school education may be admitted to courses which are appropriate to their educational potential. Successful implementation of an “Open Door” admissions policy requires an emphasis on admissions counseling services. As part of the admissions counseling process, Fayetteville Technical Community College utilizes an initial placement assessment and an evaluation of the applicant’s prior school record to determine potential for success. When the admissions counseling process indicates that an applicant lacks sufficient academic background to pursue credit courses, he or she will be directed to the Developmental Studies program prior to entry into a diploma or degree curriculum. If the applicant lacks a high school diploma, he or she will be given the opportunity to pursue studies to achieve an Adult High School Diploma or a North Carolina equivalency certificate (GED) prior to entering a regular curriculum. Admissions to curricula are open to applicants without regard to race, color, national origin, religion, age, sex, disability, or political affiliation.

HISTORY OF FAYETTEVILLE TECHNICAL COMMUNITY COLLEGE

Fayetteville Technical Community College (FTCC) enjoys a rich history that started through the vision of concerned business leaders in Cumberland County who recognized the need for a local institution to provide job training for area industries and educational opportunities for high school graduates and adult learners. From that vision and through the perseverance and dedication of those initial leaders, the Fayetteville Area Industrial Education Center (IEC) was established in 1961 at the old Central Elementary School, with John Standridge serving as director. The IEC became an immediate success, attracting industry and providing technical education not only to Cumberland County but also six surrounding counties (Bladen, Harnett, Hoke, Robeson, Sampson, and Scotland) as well as Fort Bragg and Pope Air Force Base.

In 1963, the North Carolina General Assembly passed a bill creating the statewide Community College System. From this opportunity, the Fayetteville Area Industrial Education Center became known as Fayetteville Technical Institute (FTI) in July 1963. Mr. Howard Boudreau became the first president of FTI, leading the school with an enrollment of 2,500 students. During President Boudreau’s leadership, the Southern Association of Colleges and Schools (SACS) awarded accreditation to FTI in 1967. Through this important credentialing, FTI was provided federal government assistance along with the opportunity for reciprocal course credits with other accredited institutions. Throughout President Boudreau’s 20-year reign, the school’s enrollment continuously grew to over 30,000 students. President Boudreau retired in 1983 and was succeeded by Dr. Craig Allen. President Boudreau passed away on March 11, 2008.

Dr. Robert Craig Allen became the second president of FTI in 1983 following the retirement of Howard Boudreau. Before arriving at FTI, Dr. Allen served for eighteen years as president of Robeson Technical Institute (Lumberton, NC). An interesting side note is that Dr. Allen began his teaching career in the community college environment at FTI, the school that he would later represent as its president. During the reign of Dr. Allen and with the direction of the North Carolina Department of Community Colleges and the North Carolina General Assembly, the name of the college changed from Fayetteville Technical Institute to Fayetteville Technical Community College (January 1988). The purpose of the name change was to broaden and enhance the public image of technical and vocational institutions by increasing awareness of the capability of the school in providing postsecondary education and job training opportunities to new and expanding industries. Dr. Allen retired as president of FTCC in 1996 and was succeeded by interim president Dr. Linwood Powell who served from 1996 to 1997.

Dr. Larry B. Norris was named president of FTCC in 1997. Dr. Norris progressed to president of FTCC after having served the college for 28 years in various teaching and administrative positions including professor of English and English department chair as well as Associate Dean of Instruction for General Education, Dean of Curriculum Instruction, and Vice President for Academic Affairs. Dr. Norris served as president for 10 years and continued the ongoing efforts to improve the quality of education and expand the physical facilities of the college to better serve students’ needs. In 2004, FTCC expanded its campus to Spring Lake, providing convenient access to military and civilian citizens in the northern area of Cumberland County. In 2006, FTCC established the Horticulture Educational Center built alongside the prominent Cape Fear River and adjacent to the Cape Fear Botanical Garden in the eastern area of the county. After completing 38 years of service to FTCC, Dr. Norris retired as president on August 1, 2007.

Dr. J. Larry Keen serves as the fourth and current president of FTCC (installed in August 2007). Dr. Keen previously served as vice president for economic and workforce development at the North Carolina Community College System. Dr. Keen brings to the college not only the continued devotion to achieving the mission of FTCC but also an enthusiastic and passionate understanding of the educational needs of Cumberland County through the perspective of workforce development and a strong commitment to providing excellent educational opportunities.

FTCC grew quickly from its humble beginnings of two buildings

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
FTCC also serves the community through its Continuing Education program, the largest program in the state. FTCC’s Center for Business and Industry falls under the umbrella of the Continuing Education program and provides specialized training to area businesses and industries.

The ongoing quest for excellence in service and education for students continues through the leadership of Dr. Larry Keen, with an additional 60 acres of land located off Old Raeford Road. FTCC purchased the land in December 2008 to accommodate a western campus for the citizens of Cumberland County.

What began as a vision nearly fifty years ago by a group of concerned Cumberland County businessmen has evolved into an establishment that represents a pillar of the community, a mainstay providing community support and a wide range of high-quality, affordable services and educational opportunities to meet the ever-changing, ever-demanding needs of a complex and diverse growing community.

**FTCC MISSION STATEMENT**

“Serve our community as a learning-centered institution to build a globally competitive workforce supporting economic development.”

**FTCC PURPOSE STATEMENT**

The purpose of Fayetteville Technical Community College is to provide affordable vocational-technical, business and industry, general education, college transfer, and continuing education programs, which meet the needs and desires of its diverse students and economic development needs for the community. To improve the educational base of society, FTCC encourages life-long learning and strives to prepare students for further workforce and educational experiences.

FTCC identifies the educational needs of applicants and assists students in satisfying these needs at a minimal expense. Each adult who applies will be admitted to a program appropriate to his/her abilities and interests. The College is in partnership with the public school system through College Tech Prep and other programs. Further, agreements with four-year colleges and universities support the educational continuum from high school through the baccalaureate degree.

Curricular programs reflect the changing technical, commercial, industrial, and health needs of Fayetteville, Cumberland County, and surrounding areas. Various curricula offer certificates, diplomas, and associate degrees. As a learning-centered college, FTCC offers courses and programs at times and places convenient to students in a variety of delivery modes. Courses are also available for high school graduates who need additional academic preparation before attempting college work.

FTCC provides instruction in the basic life skills needed to contribute effectively to society. Continuing Education programs are designed to meet specific needs in basic educational competencies, high school completion, upgrading occupational skills, and other avocational or practical skills required for the rapidly changing technological advances in the community.

 adopted: April 27, 1992

Approved: FTCC Board of Trustees, February 16, 2009

Note: The Administrative Procedures Manual publishes the most current official Purpose Statement for FTCC. Any reprint of the FTCC Purpose Statement must use this source, verbatim and in its entirety. It may be found on the FTCC Website at [http://www.faytechcc.edu/research/HM/APM2000.pdf](http://www.faytechcc.edu/research/HM/APM2000.pdf).

**INSTITUTIONAL CHARTER AND ACCREDITATIONS**

**NORTH CAROLINA COMMUNITY COLLEGE SYSTEM**

Fayetteville Technical Community College is chartered by the North Carolina State Department of Community Colleges, as specified in Chapter 115D of the General Statutes of North Carolina.

**NORTH CAROLINA DEPARTMENT OF PUBLIC INSTRUCTION**

Fayetteville Technical Community College’s High School Diploma Program meets the standards required by the North Carolina Department of Public Instruction for the purpose of awarding high school diplomas.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu](http://www.faytechcc.edu) and click on College Catalog.
SERVICEMEMBERS OPPORTUNITY COLLEGES (SOC)
Created in 1972 to provide educational opportunities to servicemembers who, because they frequently moved from place to place, had trouble completing college degrees. SOC functions in cooperation with 15 higher education associations, the Department of Defense, and Active and Reserve Components of the Military Services to expand and improve voluntary postsecondary education opportunities for servicemembers worldwide. SOC is funded by the Department of Defense (DoD) through a contract with the American Association of State Colleges and Universities (AASCU). The contract is managed for DoD by the Defense Activity for Non-Traditional Education Support (DANTES).

SOC CONSORTIUM
Consists of approximately 1,900 institutional members that enroll hundreds of thousands of servicemembers, their family members, and veterans annually in associate, bachelor’s, and graduate-level degree programs on school campuses, armories, and military installations within the United states and overseas, and through a variety of distance learning methods.

SOUTHERN ASSOCIATION OF COLLEGES AND SCHOOLS
Fayetteville Technical Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia30033-4097, telephone 404-679-4501) to award associate degrees, diplomas, and certificates.

UNITED STATES DEPARTMENT OF EDUCATION
Fayetteville Technical Community College is recognized by the U.S. Department of Education as an institution of higher learning and is qualified to receive federal assistance in its higher education programs.

PROGRAM ACCREDITATIONS AND ASSOCIATIONS

AMERICAN BAR ASSOCIATION
Fayetteville Technical Community College’s Paralegal Technology program is approved by the American Bar Association.

AMERICAN BOARD OF FUNERAL SERVICE EDUCATION
Fayetteville Technical Community College’s Funeral Service Associate Degree program is accredited by the American Board of Funeral Service Education, 3432 Ashland Avenue, Suite G, St. Joseph, MO 64506. (816) 233-3747.

AMERICAN DENTAL ASSOCIATION COMMISSION ON ACCREDITATION
The programs in Dental Assisting and Dental Hygiene are accredited by the Commission on Dental Accreditation and have been granted the accreditation of approval. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago IL, 60611-2678.

COMMISSION ON ACCREDITATION IN PHYSICAL THERAPY EDUCATION, AMERICAN PHYSICAL THERAPY ASSOCIATION
The Physical Therapist Assistant Program at Fayetteville Technical Community College is accredited by the Commission on Accreditation in Physical Therapy Education, American Physical Therapy Association, 1111 North Fairfax Street, Alexandria, VA 22314, (703) 684-2782 or 1-800-999-2782.

COMMISSION ON ACCREDITATION FOR RESPIRATORY CARE (CoARC)
Fayetteville Technical Community College’s Respiratory Therapy Program is accredited by the Commission on Accreditation for Respiratory Care (CoARC), 1248 Hardwood Road, Bedford, TX 76021, Phone (817) 283-2835, Fax (817) 354-8519.

JOINT REVIEW COMMISSION ON ACCREDITATION OF ALLIED HEALTH EDUCATION PROGRAMS (CAAHEP)
The Surgical Technology Program at Fayetteville Technical Community College is accredited by the commission on Accreditation of Allied Health Education Programs (CAAHEP), 1261 Park Street, Clearwater, FL 33756 (727) 210-2350. This accreditation decision was made upon the recommendation of the Accreditation Review Committee on Education for the Surgical Technologist (ARC-ST), 6 West Dry Creek Circle, Suite 110, Littleton, CO 80120 (313) 694-9262, which is sponsored by the American College of Surgeons and the Association of Surgical Technologists.

JOINT REVIEW COMMITTEE ON EDUCATION IN RADIOLOGIC TECHNOLOGY
Fayetteville Technical Community College’s Radiography Program is accredited by the Joint Review Committee on Education in Radiologic Technology, 20 North Wacker Drive, Suite 900, Chicago, IL 60606-2901, (312) 704-5300, E-mail: jrcert@mail.idt.net.

NATIONAL ACCREDITING AGENCY FOR CLINICAL LABORATORY SCIENCES (NAACLS)
Fayetteville Technical Community College’s Phlebotomy Program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), 5600 North River Road, Suite 720, Rosemont, IL 60018-5119, (733) 714-8880.

NATIONAL AUTOMOTIVE TECHNICIANS EDUCATION FOUNDATION
Fayetteville Technical Community College’s Automotive Systems Technology program is accredited by National Automotive Technicians Education Foundation (NATEF) 101 Blue Seal Drive, Suite 101 • Leesburg, Virginia 20175. NATEF was founded as an independent, non-profit organization with a single mission: To evaluate technician training programs against standards developed by the automotive industry and recommend qualifying programs for certification (accreditation) by ASE, the National Institute for Automotive Service Excellence.

NATIONAL LEAGUE FOR NURSING ACCREDITING COMMISSION (NLNAC)
The Associate Degree Nursing Program of Fayetteville Technical Community College is accredited by the National League for

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Nursing Accrediting Commission, 3343 Peachtree Road NE, Suite 500, Atlanta, Georgia 30326. This type of approval is national in scope and voluntary rather than required by law. The standards set by the accrediting body are uniform throughout the United States. The achievement of NLN accreditation by a program signifies that it has met the national standards of excellence for programs in nursing of its type.

NORTH CAROLINA APPRAISAL BOARD
The North Carolina Appraisal Board approves and certifies all real estate appraisal instructors and approves the following courses:
1. Introduction to Real Estate Appraisal
2. Valuation Principles and Procedures
3. Application of Residential Property Valuation
4. Introduction to Income Property Appraisal
5. Advanced Income Capitalization Procedures
6. Application of Income Property Valuation

NORTH CAROLINA BOARD OF NURSING
Fayetteville Technical Community College is approved by the Board of Nursing to offer a two-year associate degree program with a major in nursing and a one-year diploma practical nursing program. Both programs qualify the graduates to write the National Council Licensure Examination for the respective levels of preparation. Candidates who successfully complete these examinations are licensed to practice nursing.

NORTH CAROLINA DEPARTMENT OF INSURANCE
Fayetteville Technical Community College is approved by the North Carolina Department of Insurance for the purpose of pre-licensing education.

NORTH CAROLINA DEPARTMENT OF JUSTICE, CRIMINAL JUSTICE STANDARDS DIVISION
The North Carolina Criminal Justice Education and Training Standards Commission, through N.C.G.S. Chapter 17C, establishes minimum employment, training and retention standards for the State’s criminal justice officers. To ensure a consistent level of competency and professionalism among law enforcement officials, the Criminal Justice Standards Division administers the Commission’s mandatory certification and training programs. Those programs cover all sworn police officers, correctional officers, probation/parole officers, juvenile justice officers and juvenile court counselors. The NC Department of Justice Training Standards Division can be contacted at NC Department of Justice, P.O. Drawer 149, Raleigh, NC 27602-0149 or (919) 716-6470.

North Carolina Office of Emergency Medical Services
Fayetteville Technical Community College’s Emergency Medical Science Program is accredited by the North Carolina Office of Emergency Medical Services, 701 Barbour Drive, Raleigh, North Carolina, 27603-2008, Phone (919) 855-3935, Fax (919) 733-7071.

NORTH CAROLINA STATE BOARD OF FUNERAL SERVICE
Fayetteville Technical Community College’s Funeral Service and NC Funeral Directors programs are approved by the North Carolina Board of Funeral Service.

NORTH CAROLINA REAL ESTATE COMMISSION
The North Carolina Real Estate Commission approves and certifies all fundamental and advanced real estate instructors and approves the following courses:
1. Fundamentals of Real Estate
2. Real Estate Law
3. Real Estate Finance
4. Real estate Brokerage

NORTH CAROLINA STATE BOARD OF CERTIFIED PUBLIC ACCOUNTANT EXAMINERS
Fayetteville Technical Community College is approved by the North Carolina State Board of Certified Public Accountant Examiners for the purpose of mandatory Certified Professional Education credits.

THE NCCCS’ ACCOUNTABILITY MEASURES
End-of-Year Report
NCCCS Critical Success Factors
Performance Measures and Standards
Reported June 2009 (for 2007-2008)

A. Progress of Basic Skills Students
FTCC MET this standard.
NCCCS Standard: At least seventy-five percent (75%) of all students will have either, (1) progressed within a level of literacy, (2) completed a level or a predetermined goal, and (3) completed a level and advanced to a higher level. (Continuing Education)

B. Passing Rates on Licensure and Certification Examinations
FTCC MET this standard
NCCCS Standard: The aggregate institutional passing rate for first-time test takers on all licensure and certification exams will be at least eighty percent (80%). To be rated EIP (Exceptional Institutional Performance), exams (for which the college controlled) will be at least seventy percent (70%) or greater. (Curriculum Programs and Continuing Education)

C. Performance of College Transfer Students
FTCC MET this standard.
NCCCS Standard: Eighty-three percent (83%) of students in both associate degrees and students who transferred with 24 or more semester hours must have a GPA equal to or greater than 2.0 after two semesters at a university. To be rated EIP (Exceptional Institutional Performance), the performance of FTCC transfer students must be equivalent to the performance of native UNC sophomores and juniors which was eighty-seven percent (87%). (Curriculum Programs)

D. Passing Rates of Students in Developmental Courses
FTCC did not meet this standard
NCCCS Standard: Seventy-five (75%) of students who
complete a developmental course in English, Reading or Math will have a grade of “C” or better.  *(Curriculum Programs and Student Services)*

E. Success of Developmental Students in Subsequent College Level Courses  
FTCC MET this standard.  
NCCCS Standard: Eighty percent (80%) of students who completed a developmental course in 2006-2007 and completed subsequent college level course in 2007-2008 will have a passing grade for the college level courses. *(Curriculum Programs and Student Services)*

F. Satisfaction of Program Completers and Non-Completers  
FTCC MET this standard.  
NCCCS Standard: At least ninety percent (90%) of responding completers (graduates) and non-completers will indicate satisfaction with the quality of college programs and services. *(Curriculum Programs and Office of Institutional Effectiveness and Assessment)*

G. Curriculum Student Retention, Graduation, and Transfer  
FTCC MET this standard.  
NCCCS Standard: At least sixty-five percent (65%) of the students who enrolled in a curriculum program in the fall of a given year will have completed their program, still be enrolled the following fall, or transferred to another community college or university. *(Curriculum Programs)*

H. Client Satisfaction with Customized Training  
FTCC MET this standard.  
NCCCS Standard: At least ninety percent (90%) of businesses/industries surveyed will report satisfaction with customized training. *(Continuing Education)*

Prepared by Carl Mitchell, July 15, 2009  

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
ADMISSIONS POLICIES AND PROCEDURES

Fayetteville Technical Community College adheres to an “Open Door” admissions policy. For general admission to the College, however, various curricular programs may have specific requirements for admission beyond the regular requirements to enter FTCC.

1. The College accepts only official transcripts, which are received by the Admissions Office in a sealed unopened envelope and bear the sender’s raised seal or printed imbedded watermarks. Official transcripts verifying secondary school completion must be sent to the:
   Admissions Office
   FTCC
   P.O. Box 35236
   Fayetteville, NC 28303

2. Applicants must submit an application form, including a residency statement.

3. Applicants must be high school graduates as indicated on an official high school transcript or meet high school requirements as is evidenced by one of the conditions below.
   a. A state equivalency certificate or GED test results which meet North Carolina equivalency standards are acceptable in lieu of a high school diploma.
   b. An official college/university transcript showing the award of associate’s degree or higher from a regionally accredited institution(s). Exception: For applicants who are seeking admission into programs having prerequisites at the high school level and the prerequisite is not met with collegiate courses, an official high school transcript is required.
   c. An United States Military Issued DD214.
   d. An United States Military Issued Active Military ID.

4. Each applicant is scheduled for the FTCC placement assessment. Previous school records and placement test results will be used in conjunction with the student’s personal aspirations to help plan a workable educational program.

5. Certain programs have prerequisite course requirements. In addition to published program requirements, the College reserves the right to identify and require specific prerequisites before allowing students into certain courses.

6. Students requesting approval for certification of VA Educational Benefits must provide copies of DD/Form(s) 214 for evaluation of military experience.

7. Current High School Students Admissions Requirements
   Huskins and Concurrent Students Transcripts: High school students who are concurrently enrolled in college courses must submit an official, yet partial, high school transcript in lieu of the final high school transcript. Upon high school graduation, an official final high school transcript is required.

8. College/University Transcript Requirements
   Official college/university transcripts are required if an applicant wishes to:
   • Apply for veteran’s benefits
   • Have previous college/university credit(s) evaluated for transfer credit to Fayetteville Technical Community College
   • Be exempt from the College’s mathematics, English, and computer assessment requirements.

Health Division Admissions Requirements

Priority in consideration for admission to Health Programs will be given to individuals completing the following by January 30. Applications who submit applications and related materials received after this date will be considered based on program space availability.

• Submit a completed "Application for Admissions" to the Admissions Office.

• Submit an application to the specific Health Program that you wish to enter by January 30 at the Counseling Information Desk.

• Submit official transcripts from high school and each college/university from which you plan to transfer potential credit.

• Complete all program prerequisites.

• Complete the entrance assessment with the required minimum scores, or achieve a grade of “C” or better in all recommended developmental courses. Developmental courses may be attempted only twice to satisfy the prerequisite requirements. An attempt includes grades of A, B, C, D, F, WF, WP, W, U and I. Exceptions may be approved by the appropriate health program Dean/Chairperson.

• Science courses must have been satisfactorily completed with a grade of “C” or better within five years of entry into a health program. These courses may be attempted only twice. (An attempt includes grades of A, B, C, D, F, WF, WP, W, U and I.) The appropriate health Dean/Chairperson may approve exceptions.

• A minimum GPA of 2.5 is required on all previously completed related classes for all degree programs. A minimum GPA of 2.0 is required on all previously completed related classes for all diploma and certificate programs.
A cumulative GPA of 2.0 is required for all health programs.

Individual program may have further pre-requisites. Please see your Counselor or health program Advisor to determine these pre-requisites.

Selection Criteria

Applications will be ranked and selected on a competitive basis. The criteria will be determined by the process below:

Competitive Points are determined by grades received on courses related to the specific health program. Please see your Counselor or health program Advisor to determine these courses.

In addition, participation in a departmental information session is required. Sessions will be scheduled by the College. A maximum of 15 points may be awarded based on departmental criteria.

ADMISSION OF INTERNATIONAL STUDENTS

International applicants who apply from outside the United States and have not previously attended an American college or university will be processed as entering freshman. If you are a qualified applicant who wishes to attend the College, please apply by sending your request to:

Admissions Office
Fayetteville Technical Community College
P.O. Box 35236
Fayetteville, NC 28303-0236 USA

Applicants are responsible for requesting that the school principal or headmaster send official copies of high school (secondary) transcripts directly to FTCC. If applicants have attended an American or Foreign college/university, applicants must have an official transcript sent directly from that college or university.

Student Visa Applicants

International applicants holding an F-1 or M-1 Visa are ONLY admitted to begin their studies for the fall semester. All paper work must be completed no later than March 1 of the year you plan to begin classes at Fayetteville Technical Community College. Applications will not be considered until all of the following items have been received:

(1) FTCC Application
(2) Preliminary Application (Form A)
(3) Completed financial certificate (Form B)
(4) Test of English as a Foreign Language (TOEFL) results (Only official scores sent from Princeton, New Jersey are acceptable.)
(5) Official high school (secondary) transcript
(6) Official college or university transcripts, if applicable
(7) Completed Pre-entrance Medical Record
(8) Deposit of 5,000 US Dollars in your FTCC Student Account

Student Visa (F-1 or M-1)

In order to apply for an F-1 or M-1 (student visa), applicants must first apply and be admitted to a school in the U.S. After admission to Fayetteville Technical Community College (FTCC), a Form I-20, which authorizes the applicant’s study period, will be issued. A $100.00 Student and Exchange Visitor Information System (SEVIS) I-20 fee must be paid. The Form I-20 must be submitted to the U.S. Consulate in the applicant’s country to apply for a visa. To obtain a non-immigrant, student visa, applicants must be able to prove the following:

(1) That they have strong ties to their home country demonstrating their intention to return home (In other words, applicants do not plan to immigrate permanently to the U.S.)
(2) That they have sufficient funds to pay for their financial needs while studying in the U.S., including tuition, health insurance, housing, travel expenses, etc.
(3) That they have legitimate intentions to study full time and gain education and training which will be useful in their home country. After receiving an F-1or M-1 Visa from the U.S. consulate, applicants are eligible to come to the U.S. and “apply” for entry. An Immigration Inspector at the border (usually the airport) will decide if applicants may enter by looking for proof of the above criteria once again. Therefore, applicants may be asked to show financial documentation again, or to prove study plans. Applicants must show their I-20.

English Proficiency

Proficiency in the use of the English Language and past academic record will be important factors in the admission decision. The Test of English as a Foreign Language (TOEFL) is required of all foreign applicants. To obtain materials and information regarding the TOEFL, write to:

Test of English as a Foreign Language
Box 899
Princeton, New Jersey 08540 USA

Please specify code number 5208 when requesting TOEFL scores to be reported to Fayetteville Technical Community College.
Financial Information

As part of the admission process to Fayetteville Technical Community College and before F-1 or M-1 Visa approval is granted, applicants must show evidence of official financial support (Form B) for each year of study in the United States. The college cannot provide financial aid to students applying from other nations. Applicants must certify their financial support.

Many international students receive financial help from sources outside the United States. Therefore, it is suggest that applicants consult the excellent publications about study abroad, which may be available through local educational institutions or the United States Consulate. Applicants should also investigate financial assistance that may be available through their government or home university.

Fayetteville Technical Community College is tax supported by the people of North Carolina. Legal residents of North Carolina and the United States are given preference in the admission process. Therefore, applications of international students are accepted only on a space availability basis. International students are assessed tuition at the out-of-state rate.

Employment

(1) On-campus. F-1 and M-1 students are allowed to work part-time on the campus of the school they are attending (and whose I-20 they have). They may work up to 20 hours per week while attending full-time classes. They can work full-time during summer vacations and between terms, provided they continue at that school the following term.

(2) Off-campus. Students holding F-1 or M-1 Visas are not authorized to work except under extraordinary circumstances. There are two ways to get permission for off-campus work: practical training and severe economic hardship. The United States Immigration Services must grant permission.

Period of Authorized Stay

Admission to the U.S. on an F-1 or M-1 Visa is for “duration of status” (D/S). This is the time estimated for program completion. During that time, students are required to make satisfactory progress each term, keep a current passport that is valid for at least six months into the future, and maintain a valid I-20.

Housing

Fayetteville Technical Community College serves entirely a commuting student body. Housing is not available on campus. International students must seek housing in the community and commute daily by public transportation. Arrangements for housing must be made between the landlord and the student.

Transportation

International students must provide their own transportation or use public transportation to travel between the campus and their housing accommodations.

Full-time Requirement

International students holding an F-1 or M-1 Visa must enroll as a full-time student. College students must pass a minimum of 12 credits per term. The student should make satisfactory progress in their approved program each term. Otherwise, the continuation of study on a student visa may be jeopardized and the Form I-20 rescinded.

Non-Student Visa and Resident Alien Applicants

Foreign applicants holding either (a) a visa other than an F-1 or M-1 or (b) a Resident Alien card may be admitted on a rolling basis. Your application will not be considered until all of the following items have been received:

(1) FTCC Application
(2) Presentation of either a valid Passport & Visa or a Resident Alien Card
(3) FTCC Entrance Assessment Results
(4) Official high school (secondary) transcript
(5) Official college or university transcripts, if applicable

NOTE: People who hold a visitor’s Visa (B-1) are NOT eligible to enroll in FTCC’s college-level classes.

ADMISSION OF SPECIAL CREDIT STUDENTS

Special Credit (Non-matriculating) Student Admission

Special credit (non-matriculating) students may take 16 semester hours prior to taking the entry assessment test, unless enrolling in a course with a developmental prerequisite. Special credit students must comply with the regular admissions policy if they decide to pursue a degree, certificate, or diploma. Special Credit status for course prerequisites: If approved for Special Credit status, approval to register for classes may be given for courses with prerequisites if appropriate documentation is submitted to determine that the course prerequisites have been met.

ADMISSION OF TRANSFER STUDENTS

Students who have completed course work at other colleges and universities must submit official transcripts of all post-secondary work. Transcripts will be reviewed during the admissions interview and transfer credit awarded according to the following criteria:
(1) Prior course work must correspond in instructional hours and content must be substantially similar to FTCC courses required in the degree or diploma being sought.

(2) Course work must have been completed at a regionally accredited college (i.e., Southern Association of Colleges and Schools or regional counterpart) OR the student may submit the following documentation to be evaluated and a recommendation made by the related department chair:

a. Official transcript from the institution attended.
b. Statement from the institution regarding any professional accreditations or associations.
c. Statement from the institution regarding scheduling system (i.e., semester or quarters).
d. Statement from the institution indicating the faculty who taught the course and the academic/professional credentials of that faculty member.
e. Course description to include number of class, lab, and/or clinical hours, and course content statement.
f. Course syllabus.
g. Reference statement indicating the textbook(s).

(3) Course work must have been completed with a grade of “C” or better.

(4) Major courses with a technical/skill content have time limitations in terms of their relevance to the curriculum program and to the occupational field. Courses in the technical or major area taken more than seven years prior to the current semester, either at other institutions or at FTCC, may not be considered for transfer purposes. Some technology-based programs may have stricter limitations on the transfer of grades, depending on changes in technology and competencies required for jobs in the field. Based on the recommendation of the related Department Chairperson, the final decision of the acceptance of transfer credit for major courses will be made by the Council for Academic and Student Services.

(5) Transfer students must complete a minimum of 25 percent of resident credit at FTCC to be eligible to receive an associate degree. (Note: The A.B.A. requires all paralegal students to complete a minimum of 18 semester hours in legal specialty courses at FTCC.)

(6) Official FTCC transcripts will not be provided until the student has completed the first term of enrollment at the college.

TRANSFER CREDIT APPEAL PROCESS

The Testing/Evaluation Center provides credit evaluation of coursework based on official transcripts from all institutions a student has attended. Also included in the evaluation process are documents that pertain to Credit for Prior Learning. A student may appeal a course transfer decision and request a re-evaluation of any transfer credit by following these steps:

1. Review all transfer credit awarded by FTCC via WebAdvisor account, or with a counselor or advisor.
2. Complete the online Transfer Credit Appeal Form or obtain a copy in the Testing Office.
3. Obtain a copy of the course syllabus, course description, and any documentation that will support your appeal from the originating institution(s).
4. Submit the completed Transfer Credit Appeal form and all supporting documentation to the Testing Office. Retain a copy for your records.

The Testing/Evaluation Center will re-evaluate the requested course(s) for reconsideration through consultation with the appropriate dean, division, or department chair. Once the re-evaluation is complete the decision will be email to the student’s FTCC email account within 30 business days of the receipt of the appeal form, excluding holidays and college closures.

If additional documentation is required from the student for the evaluator or the department chair to make the decision, the student has 2 weeks from the date of the request to supply documentation. Further appeals will be forwarded to the Council for academic and Student Services.

INTERCURRICULAR TRANSFER OF CREDITS

Students who change curriculums may be awarded transfer credit for applicable courses taken and passed in the previous curriculum. All credits considered must be applicable to the instructional field and approved by the Department Chair or appropriate Academic Dean.

CREDIT FOR NON-TRADITIONAL LEARNING

FTCC will evaluate non-traditional educational records for the possible transfer of credits. Full documentation must be provided before an evaluation can be made. Transfer of credit for non-traditional work is limited to no more than 75 percent of the AAS degree or diploma requirements.

Advanced Placement Examinations

Applicants to the college may request transfer credit for subjects covered under advanced placement examinations. CLEP and DANTES General Exams and Subject Area Exams are evaluated for transfer credit. Test scores must meet ACE (American Council on Education) recommendations. Advanced credit awarded at prior colleges must be supported by official test score reports to be considered for transfer credit.

Military Service Training

Military service school records may be submitted for transfer credit evaluations. The service member is encouraged to submit a “Request for Evaluation of Military Experience” (form DD295) or the AARTS (Army/ACE Registry System) transcripts for evaluation purposes. Service school diplomas and MOS (Military
Occupational Specialty) Evaluation Score Reports are acceptable in lieu of the AARTS Transcript. Military service experiences are evaluated using ACE Guide recommendations.

**Industrial and Professional Training**

FTCC will consider the evaluation of credit for documented professional training and certification. Transfer of credits is considered using The National Guide to Educational Credit for Training Programs.

**Experiential Learning**

FTCC does not consider experiential or life experiences for transfer credit evaluation.

**Proficiency Tests**

FTCC students who plan to challenge a curriculum-level course must contact the department chairperson of the appropriate department to request a proficiency examination. Proficiency tests are given under the following conditions.

- Students who have passed a preliminary screening test given by the department chairperson may take a proficiency exam.
- Students must be registered for the course in order to take a proficiency exam.
- Proficiency exams must be taken within the first four class days of the term.
- Students who pass a proficiency exam at the “C” grade level or above will be assigned a “P” grade and will not be required to attend further class sessions.
- Veteran students and other third party recipients may not use courses passed by proficiency for the purposes of educational entitlement. Students who pass a proficiency test are encouraged to add additional curriculum courses in order to maintain full-time status.

*CLEP examinations will be the required proficiency test where available. Students will be referred to area CLEP examination sites for testing when appropriate.

**Tech Prep Advanced Placement**

Cumberland County high school graduates who participated in the Tech Prep Program may be awarded proficiency credit based upon the recommendations of the Cumberland County Tech Prep Curriculum Development Committee.

**SOCAD**

Fayetteville Technical Community College is a Serviceman’s Opportunity College (SOC) and supports the concept that military personnel should be encouraged to begin their post-secondary education while serving their country. FTCC also participates in the SOCAD network with many degree programs available. For further information on SOC/SOCAD policies, contact the FTCC Ft. Bragg Office, 678-1070.

**RE-ADMISSION OF FORMER STUDENTS**

Any student who withholds from the College and wishes to return must contact the Admissions Office to reactivate his/her application for admission.

1. A student who withdrew for unavoidable reasons may be eligible for re-admission at the beginning of the next term.
2. A student who was suspended for unsatisfactory academic progress is required to re-apply for re-entrance through the Director of Admissions. He or she must complete the Admissions Application and the Appeal of Suspension Form. Re-admissions decisions will then be based upon a review of previous grades, consultation with instructors and Department Chairpersons involved, additional achievement and/or interest testing, and interviews to determine the reasons for unsatisfactory progress. In cases where the probable causes of unsatisfactory progress while previously enrolled have not been removed, re-entry to curricular studies may be denied or re-entry approved under specific conditions which can include change of curriculum, remedial course work, and probationary status.
3. A student who was dismissed from the College by disciplinary action may re-enter only upon approval by the Program Area Dean.
4. A student who withdraws from the institution and re-enters at a later term, including students who have completed at least one or more terms, will be subject to curricular requirements in effect at the time of re-entry.
5. Any student indebted to the College is ineligible to re-enter until all financial obligations to the institution have been satisfied.

**NEW STUDENT ORIENTATION**

All students who are admitted to an academic program at Fayetteville Technical Community College are required to attend an orientation session. The purpose of this session is to review the regulations, policies and privileges of the College.
REQUIRED PLACEMENT TEST

ASSESSMENT AND EVALUATION OF STUDENTS
Fayetteville Technical Community College wants each student to be successful in meeting his or her educational goals. To evaluate the level of preparation and to place students in appropriate courses, the College requires assessment in the skill areas of English, reading, and mathematics. To satisfy assessment requirements for most programs, the student needs to take the ACCUPLACER (or other North Carolina Community College System approved assessments) unless eligible for a waiver. Assessment scores will be used for course-level placement. Each of the three skill areas of English, reading and mathematics is independent of each other. A student may place at the college level in one or more areas and at the college preparatory level in other areas(s). The College may limit the student to college preparatory courses and any other instruction for which he or she is adequately prepared.

REQUIREMENTS FOR TAKING ASSESSMENT
Whether the student is seeking full-time or part-time enrollment, unless he or she is qualified for an exception, the student must complete a state-approved assessment as indicated:

1. Prior to participating in registration if the student is seeking degree.
2. Prior to registration for any course which has a specific assessment score as a prerequisite.

Assessment scores may not be more than three years old.

ASSESSMENT EXEMPTIONS
Students will be exempt from taking the assessment for registration in courses for which they are qualified if they provide an official transcript or other written documentation for one of the following exceptions:

1. The student has attended a regionally accredited institution (RAI) in which English was the language of instruction and has successfully completed with a grade of “C” or higher a transferable college-level English and/or mathematics course.
2. The student holds an associate’s or bachelor’s degree from a RAI in which English was the language of instruction and has successfully completed with a grade of “C” or higher a transferable college-level English and/or mathematics course.
3. The student’s official college transcript is evaluated for select courses to substantiate completion of prerequisites when the student is enrolled in another college or university and has applied to Fayetteville Tech for “special credit” status.
4. The student’s official FTCC record indicates that he or she is enrolled for job improvement or in selected courses with no intent for an FTCC degree.
5. The student has taken the SAT with verbal and math scores at or above 500 each or ACT composite score of 20 or higher within the last five years. Based on the score of each SAT or ACT section, specific sections of the Accuplacer may be waived.

Placement Assessment SAT & ACT Waivers

SAT Section Score waived:
- Math 500 Arithmetic & Algebra
- Verbal 500 Reading
- Writing 500 Sentence Skills

ACT Section Score waived:
- Math 20 Arithmetic & Algebra
- Reading 20 Reading
- English 20 Sentence Skills

6. The student chooses to begin with the most basic college preparatory courses: English 70, Math 50 and Reading 70.

Revised 04/08/08

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
NORTH CAROLINA COMMUNITY COLLEGE
SYSTEM APPROVED ASSESSMENTS

ACCUPLACER
FTCC administers the ACCUPLACER Computerized Placement Tests and Companion from the College Board. The assessments are Reading Comprehension, Sentence Skills, Computation/Arithmetic, Elementary Algebra, and College-Level Mathematics.

There is no charge for the ACCUPLACER. The assessment takes approximately two to two and one-half hours and is available days and evenings.

Other Assessments
Other tests approved by the North Carolina Community College System are the ASSET and COMPASS.

Retest Policy
Students may only take the ACCUPLACER twice in a three-year period at Fayetteville Technical Community College.

Students may not retest for a specific content area while enrolled in that content area until after the 90% point of the class.

Competency exams may be available through individual departments for further academic progression at the discretion of the department/division chair.
GRADING PROCEDURES

FTCC grades are based on a 4.0 grading system. Each grade is assigned a “grade-point equivalent” in quality points for each term credit hour scheduled. The scholastic point average is determined by dividing the total of quality points earned by the number of term hours scheduled.

Letter grades are used to indicate the quality of a student’s work.

<table>

</tr>
</tbody>
</table>

AU.... Audit (No Credit) – No effect on grade point average
NS .... No Show – No effect on grade point average
P....... Proficiency – No effect on grade point average
T....... Transfer – No effect on grade point average
W...... Withdrawn from Class(es) - the grade given when a student drops a class after the 10% point in time through the 90% point in time. The grade is not factored into the student’s grade point average. It does not count as an attempt for financial aid and veterans benefits.
I (Incomplete) may be given at the discretion of the instructor when all course requirements have not been met. After eight weeks from the beginning of the next term, an incomplete grade in a sixteen-week class becomes an “F.” After four weeks from the beginning of the next term, an incomplete grade in an eight-week class becomes an “F.”

AU (Audit) requests must be made at the first class session. The intent of the AU is to allow students to take courses for no credit. Forms must be obtained from the Registrar’s Office and be signed by both student and instructor during the first two days of the sixteen-week course and the first day of an eight-week course. Developmental classes may not be audited. To receive the AU, the student must meet all course requirements. This grade is permanent and cannot be converted to a letter grade.

NS (No Show) is administered when a student registers, but fails to attend class(es) prior to the 10% point of the term.
P (Proficiency) by examination may be given after the student has registered for the course and after a preliminary screening test is given by the department chairperson. The grade equates to a “C” or better. This process must be completed within the first four class days of the term.

Students will receive their grades via Web Advisor.

All final course grades will be letter grades in accordance with the adopted grading system. Grade reports are posted via Web Advisor.

All students must have at least a 2.0 grade point average (major and cumulative GPA) and have passed all curricular subjects as listed in the course outline under which they entered to be eligible for graduation. They must also meet the grade level needed in major subjects required to take licensure examinations.

Health occupations curricula, Funeral Service Education, and Paralegal Technology require course grades of C or better in order to progress to the next course/term. Each department area will issue to the student in written form the necessary information to cover such grading policies. Students who request transfers to other degree curricula are expected to have maintained a 2.0 GPA on all courses completed including prerequisite courses.

Developmental Course Grading System

Courses numbered below 100 are developmental courses. The following grades are assigned for developmental courses: A, B, C, or F. Students who receive a grade of “F” (Failure) will be required to re-take the course.

Developmental course grades are not counted as credit towards graduation, nor are they calculated into the student’s cumulative Grade Point Average.

COURSE REPEAT POLICY AND PROCEDURE

Course Repeat

A student may repeat for credit or audit any curriculum course one time in an effort to earn a higher grade and/or to add to his/her mastery of course content. If a student petitions for another attempt through the appropriate Dean, a third and final attempt may be granted based on documented major extenuating circumstances. When a course is repeated, the last grade earned (A, B, C, D, F, and WF) will be counted in determining the hours earned and in determining the grade point average at Fayetteville Technical
Community College. However, all grades will be recorded on the student’s official transcript. Grades of withdrawal passing (WP) and audit (AU) are not calculated in the GPA, but they will be considered as a repeat grade.

Specific program requirements for academic progress are outlined in the College catalog (i.e., health programs curricula, Funeral Service Education, and Paralegal Technology).

The University of North Carolina System and other colleges or universities require that a student earn a grade of “C” or better in each transfer course completed. A student planning to transfer should realize that receiving institutions do not have consistent policies regarding course repeats. Admissions personnel will review the transcripts of transfer applicants and may recompute grade point averages to include the grade originally assigned, or compute all grades assigned at Fayetteville Technical Community College.

Note to students receiving VA assistance: Two attempts will be the maximum allowed for counting a course as part of a student’s credit hour load for determining eligibility. Veterans who wish to repeat courses, for which a passing grade (D or higher) has been earned, will not receive educational benefits for repeating those courses.

Note to students receiving financial aid: All attempted classes will be counted toward academic progress. (Attempted includes a grade of A, B, C, D, F, W, WP, WF, U, I)

Note to students interested in a health program: Previously completed science courses must have been satisfactorily completed with a grade of “C” or better within five years of entry in a health program. These courses may be attempted only twice. The appropriate health department chairperson through the Dean of Health Programs may approve exceptions.

Course Repeat Procedures

The request for course repeat must be initiated by the student and directed to the Registrar. All requests must be initiated prior to the final term of enrollment (i.e., at the end of fall term if graduating at the end of the spring term). Students applying for health programs must make the request prior to the January 30 deadline. The “Class Repeat” form is available in the Registrar’s office. Note to students taking Developmental Courses (courses designated less than the 100 level, i.e., MAT 070): Developmental Courses may be attempted only twice.

Grade Forgiveness Procedures

A student may petition in writing to the Dean of Enrollment Management to have grades which are at least seven years of old forgiven. In order for the request to be considered, the course in question must not have been under a previously granted certificate, diploma, or degree. Prior to making this request, it is the student’s responsibility to review the change with a counselor to make sure that there are no potential program conflicts, Financial Aid issues, Veteran’s Aid issues or third party payment issues. The forgiven grade will remain on the student transcript; however, will no longer be counted in the calculation of the GPA.

The Vice President for Academic and Student Services must approve exceptions to this policy.

Schedule Adjustments and Withdrawals

W (Withdraw) is the grade given when a student withdraws from a course after the 10 percent date of the term, but on or before the 90 percent date of the term. A “W” has no effect on the student’s grade point average.

Withdrawal from Class(es)

Student Withdrawal from Class after the 10 Percent Date.

- A student may withdraw from a class as late as the 90 percent date of the term without penalty. The transcript will indicate a “W”. A “W” grade does not negatively impact the student’s GPA, but will count as an attempt for purposes of veteran’s benefits or financial aid.
- Failure to withdraw properly may result in a failing grade for the course and may jeopardize a student’s right to reenroll at a later date.
- A student who withdraws or drops from any portion of a course (classroom, lab, clinic or shop) will be dropped from the entire course (class and lab).
- A student who receives Financial Aid or VA Educational benefits should confer with personnel in those offices before dropping classes or withdrawing from the College to determine the impact of a withdrawal on those benefits.
- In order to withdraw from class(es) a student must submit the Student Online Withdrawal Form found under Registration info on the FTCC website. If the student does not complete the withdrawal process, he/she will remain enrolled in the course and will receive the grade assigned by the Instructor. The instructor will note the last day of contact with the student, which will impact financial aid owed for repayment.
- Beginning in Fall 2010 faculty will no longer do withdrawals from class for students except when it is an administrative withdrawal by FTCC.

Administrative Withdrawal by Faculty or Administration

- For Curriculum Courses (numbered 100 or higher): Students who are absent for more than 20 percent of scheduled class sessions may be dropped from the class rolls by the instructor. A grade of “W” will be assigned if the student is dropped prior to the 90 percent date.
- For Developmental Courses (numbered below 100): Students who are absent for more than 10 percent of scheduled class sessions may be dropped from the class rolls by the instructor. A grade of “W” will be assigned if the student is dropped prior to the 90 percent date.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
A prerequisite is a course that must be taken prior to another course. A co-requisite is a course that must be taken at the same time as another course or prior to the course to be taken. The college may mandate prerequisites and co-requisites to ensure students are prepared to meet the requirements of the course material. Students who do not have confirmed prior credit, equivalency via placement test scores, or transfer equivalency that satisfies the stated prerequisites and co-requisites may be administratively dropped from the course. Course prerequisites and co-requisites may be found by using WebAdvisor. Academic Deans, Division Chairs, Department Chairs, and Program Coordinators have the authority to waive a prerequisite or co-requisite based upon verified evidence that the student has the necessary prerequisite or co-requisite experience to meet the demands of the higher level course. A Prerequisite Waiver Approval Form will be completed for each waiver granted when the evidence of the prerequisite or co-requisite is not identified in Datatel.

Course Prerequisite and Co-requisite Guidelines

Tuition/Fee Refund Appeals

Students are responsible for charges and payments to their student tuition/fee account.

Appeals for the current and/or immediate prior term only will be considered and reviewed. All other appeals will not be considered. Decisions of the Appeal Committee are final. Book charges may not be appealed.

Certain mitigating circumstances may qualify for a refund of tuition and fees paid to FTCC. Mitigating circumstances may consist of the following:

- Death of an immediate family member. A copy of the death certificate is required.
- Medical emergency which results in the inability to attend class. Medical documentation is required. Medical documentation including the dates of illness or admission to the hospital and/or a signed letter from the doctor is required.
- Unanticipated military service, including TDY, training, activation for deployment and unanticipated reassignment. Proof of orders is required.

For any other mitigating circumstances, documentation and explanation must be submitted with the appeal form. Requests for a tuition refund will be reviewed by the Student Tuition/Fee Appeal committee. Appeals are reviewed monthly on the third week of every month. A letter will be mailed within a week after the Appeals Committee meeting indicating the decision of the Appeals Committee.

Financial Aid Students: A dropped class will result in a change in enrollment credit hours, which could generate a refund or a requirement to repay financial aid. Please contact the Financial Aid Office at 910-678-8242 or finaid@faytechcc.edu with any questions regarding your financial aid prior to submitting this form.
FEDERAL RETURN OF TITLE IV FUNDS FOR COMPLETE WITHDRAWALS

Students receiving Title IV funding (Federal Pell Grant, Supplemental Educational Opportunity Grant or William D. Ford Federal Direct Loans) who completely withdraw from classes are required to have earned aid evaluated through the federal formula established in the 1999 federal financial aid reauthorization. Unearned aid is returned to the federal financial aid programs. Students not receiving federal Title IV financial aid, who paid for all expenses out-of-pocket, will receive a refund based on institutional policy. The amount of federal funds returned to the federal programs will be determined based on the date the withdrawal process begins or the last date of attendance. If the date the withdrawal process begins or last date of attendance is not available or known, the federal refund will be based on the 50 percent point of the semester. Return of Title IV funds will not be computed after the 60 percent point of the semester.

BOOKSTORE REFUNDS

Bookstore refunds are made under the following conditions:

- Students are allowed ten (10) calendar days beginning with the first day of the term to return textbooks for refund or credit.
- Books which have not been used, damaged, or marked in will be accepted for 100 percent refund or credit toward the purchase of additional items. Proof of purchase (cash register receipt) must be shown.
- All refunds will be made by check mailed to the individual student. No cash refunds will be made.
- Military Students. The College shall buy back textbooks through the colleges’ bookstore operations to the extent possible. The College will use distance learning technologies and other educational methodologies to help these students, under the guidance of faculty and administrative staff, complete their course requirements.

TUITION WAIVERS

(Subject to change)

(1) Senior citizens, age 65 or over and who are legal residents of North Carolina, are exempt from:
   a. Up to 6 credit hours of credit instruction per semester; the student activity fee, technology fee, and campus access, parking and Security (CAPS) fee will be charged when total credit hours per semester exceeds 6 credit hours.
   b. Up to 96 contact hours of non-credit instruction per semester

(2) High school students enrolled in a community college curriculum course under the Huskins (T90970) or dual Enrollment (T90980) programs are exempt from tuition when courses are technical, vocational, or begin with the following prefixes: AST, BIO, CHM, CIS, GEL, IMS, MATH, PHS, PHY, and SCI

High school students in these programs are also exempt from the technology fee and CAPS fee. In addition, high school students in these programs are exempt from the activity fee when the course location is the high school. The activity fee is paid by Cumberland County Schools when the activity is charged under the Huskins program.

(3) High school students enrolled in a community college curriculum course as Other Innovative High School students are exempt from tuition, the technology fee, and the CAPS fee. The activity fee is paid by Cumberland County Schools.

(4) High School Students enrolled in a community college curriculum course under the Learn and Earn Online program are exempt from tuition, the student activity fee, and the CAPS fee. The technology fee may be reimbursed to the College by the North Carolina Community College System, subject to the availability of funds.

(5) When an employer, other than the armed services, pays tuition for an employee to attend a community college and when the employee works at a North Carolina business location, the employer is charged the in-state tuition rate.

(6) Certain out-of-state students who are members of families that were transferred to this state by businesses, industries, or civilian families transferred by the military, for employment may be eligible for tuition payment at the in-state rate.

(7) Out-of-state service members and their dependents stationed at a North Carolina base are eligible to be charged the in-state tuition rate. The waiver is for the academic year. Continuing students may re-apply each fall term.

(8) Members of the armed forces that register through the GoArmyEd website are exempt from the activity fee, technology fee, and CAPS fee based on the agreement between the College and contractual agency.

(9) Students enrolled in Internet courses only (taking no traditional face-to-face courses) may request a waiver of the student activity fee and CAPS fee.

(10) Volunteer fireman, local fire department personnel, volunteer rescue and lifesaving department personnel, local rescue and lifesaving department personnel, local law enforcement officers enrolled in training course are exempt from tuition and registration fees.
(11) Students enrolled in Health and Human Services Development programs are exempt from continuing education registration fees.

(12) Elementary and secondary school employees enrolled in courses in first aid or cardiopulmonary resuscitation (CPR) are exempt from continuing education registration fees.

(13) Full-time college staff members are exempt from tuition and registration fees for one curriculum or continuing education course per semester.

(14) Law enforcement officers employed by a municipal, county, state, or federal law enforcement agency and trainees that are sponsored by a state, county, or municipal law enforcement agency taking state-mandated Basic Law Enforcement Training Programs are exempt from tuition.

(15) Tuition/fee waivers are not applicable to courses established on a self-supporting basis.

**ATTENDANCE POLICY**

Because of the nature of the vast majority of the courses at Fayetteville Technical Community College, the administration has established the following policy. The policy has been established for the benefit of the students who are forced, because of reasons beyond their control, to miss classes as well as those who do not miss any classes (both groups of students are involved). Attendance may be taken separately in each portion of a course (i.e., class, lab, clinic, shop). Missing 20% of any portion of a course may result in administrative withdrawal. When enrolled in developmental studies courses missing 10 percent or any portion of the course may result in administrative withdrawal.

(1) Instructors will make every effort to advise students who have missed more than 10% of a course that their standing in class is in jeopardy. Students who add a course after the first day of the class are responsible for all materials covered from the beginning. Instructors are encouraged to refer students with excessive absences to the Counseling Office.

(2) If absences exceed 20% (10 % for developmental studies courses), at any point during the term, the faculty member may: drop the student from the course, or allow the student to continue in the course under conditions set by the instructor.

(3) Tardy students interrupt the beginning of a class meeting. If a student enters the class after the instructor has started the class, the student shall be recorded as being tardy. Three tardies shall be counted as one absence.

(4) No absence, for any reason, shall excuse a student from an announced test, examination, or other assigned activities. Make-up of any tests or work missed shall be at the discretion of the faculty member. The make-up of any test or examination shall be scheduled on the earliest possible date after the student returns to class.

(5) Special attendance policies are in effect for the following programs: Associate Degree Nursing, BLET, Dental Assisting, Dental Hygiene, Early Childhood Education Credential Certificates, Emergency Medical Science, EMT classes (Continuing Education), Fire Academy (Continuing Education), Nursing Assistant, Pharmacy Technology, Phlebotomy, Physical Therapist Assistant, Practical Nursing, Radiography, Respiratory Care, Speech Language Pathology Assistant, and Surgical Technology. No department may impose a different attendance policy unless specifically required for licensure purposes. Requests for a more stringent policy must be submitted in writing to, and approved by, the appropriate Program Area Dean.

(6) Special permission must be obtained from the Registrar/ Curriculum and the faculty member before a friend can sit in on a class. Students are responsible for their guest’s behavior while on campus.

(7) Children are not to be left unattended anywhere on campus. Small children of students are not permitted to sit in classes, labs, or the library.

**ACADEMIC STANDARDS FOR GRADUATION**

The College requires that students maintain a cumulative and major GPA 2.0 or higher in order to meet institutional standards of progress and to be eligible for graduation.

**EARLY ACADEMIC INTERVENTION**

When a student’s GPA (developmental or curricula) falls below 2.25 for any given semester, that student will receive notification of intervention strategies for academic success for the following semester. Advisors and Counseling Services staff will receive notification of all students receiving less than a 2.25 GPA.

During any semester of enrollment, a student will be placed on Academic Intervention status - if the cumulative GPA is less than 2.25 - even though the semester GPA may be above 2.25.

A student on early academic intervention will receive electronic (email/online) correspondence and, upon request, additional academic support through Counseling Services. Additionally, the student will be encouraged to attend an orientation at the Success Center and participate in academic enrichment resources. The student will also be encouraged to meet with his or her faculty advisor (within the first ten days of the following semester)

**STANDARDS OF SATISFACTORY ACADEMIC PROGRESS (SAP)**

To remain eligible for state and federal financial aid programs, students need to make Satisfactory Academic Progress (SAP) toward achieving a degree, diploma, or certificate. Standards of Satisfactory Academic Progress are applied to all students who wish to establish or maintain financial aid eligibility at FTCC, regardless if they have received financial aid funds in the past.

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
The standards are established to encourage students to progress toward an educational objective and complete a degree within a reasonable time frame and with the least amount of loan debt. If the standards are not met, students are not eligible for federal and state financial aid.

**ACADEMIC PROGRESS STANDARDS FOR ALL STUDENTS**

All curriculum students at FTCC are required to meet minimum standards for academic progress. Academic progress is evaluated at the completion of each term by both the Registrar’s Office (for all students) and by the Financial Aid Office (for student’s receiving financial aid).

**Maintain a Minimum Cumulative GPA**
- Maintain a *cumulative* grade point average of at least a 2.0.
- Cumulative GPA is based on all credits attempted since your initial date of attendance at FTCC regardless of program.
- Grade forgiveness and program GPA are not factors in the calculation of cumulative GPA.
- A student’s cumulative grade point average must meet the minimum standards of the institution according to degree intentions. The minimum major and cumulative grade point average for graduation at FTCC is 2.0.

**Maintain a Minimum of Completed Credit Hours for Credits Attempted**
- Complete a minimum of 67% of cumulative credit hours attempted.
- Attempted credits include courses with grades of "A" through "F", "W", A* B* C* U* WP* WF* U, WF, C@, D@, WF, F@, I*, I, T, S WP, B@, U@, A@. An F, W, WF, WP, U, F@, I*, I, IP or IC grade is not considered a completed credit and will count against your attempted credit calculation and GPA.
- All transfer credits accepted by FTCC will count toward the calculation of attempted credits.
- Credit hours taken for a grade of "audit" (AU) do not apply toward an associate degree, diploma, or certificate program. Therefore, credit hours with this designation are not included in determining enrollment status for financial aid disbursements or Satisfactory Academic Progress. Students with changes in grade type of an "audit" (AU) after the disbursement of financial aid will be reviewed for an enrollment status change. This change may result in a reduction of financial aid eligibility and a balance owed to the College.
- Courses with grades of "I" (Incomplete) or I* will be considered as credit hours attempted and not completed. Students who have made arrangements with the instructor to complete required course work are not required to re-register for the same class during a subsequent semester to complete the work. Any course carried forward to the next semester for completion will not be counted as part of the new semester enrollment status. If the “incomplete” grade was instrumental in placing a student on financial aid probation or suspension, once completed, the student may appeal for a re-evaluation of Satisfactory Academic Progress by submitting the Satisfactory Academic Progress Appeal form to the Financial Aid office at FTCC.
- Repeated courses will be counted as hours attempted and also toward maximum credits allowable for each type of program for financial aid.

**Complete A Degree, Diploma Or Certificate Program In No More Than 150% of the Average Length of the Program:**
- Cumulative credit hours attempted are defined as all credit hours attempted at FTCC, and all credit hours transferred to FTCC from other institutions.
- Students will not be eligible to receive financial aid once they have attempted 150 percent of the normal credits required for their approved program of study, i.e., degree, diploma or certificate.
- All attempted credits are counted, including credit for prior learning, and developmental courses; whether or not financial aid was received, or the course work was successfully completed.
- A student who completes an associate degree at FTCC is considered to have reached their maximum program length and is not eligible for financial aid for other programs. Students who have completed a diploma or a certificate may enroll in an associate degree. The course credits obtained toward the diploma/certificate will continue to be calculated as part of the 150% percent of the program length.

**PROCEDURE FOR REVIEW OF SATISFACTORY ACADEMIC PROGRESS (SAP)**

At the conclusion of each term (including summer) and following the posting of grades to the official transcript; the Financial Aid office will review the student academic history and notify students who do not meet the Standards for Satisfactory Academic Progress using the student Gmail system.

The Registrar’s Office will process the Academic Progress review following the posting of grades to the official transcript. Email notifications regarding Academic Warning will be sent at that time and hard copy letters sent to students indicating Academic Suspension.

Students not meeting the Standards for Satisfactory Academic Progress will be placed on SAP Warning/Academic Warning or SAP Suspension/Academic Suspension following the completion of this review process.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
ACADEMIC/SAP WARNING
Academic/SAP Warning means you have one academic term to meet the Standards for Satisfactory Academic Progress to remain eligible for financial aid and for full-time enrollment. **You may continue to receive financial aid while on SAP Warning.** Any student who is placed on SAP Warning is also placed on Academic Warning.

Students on Academic/SAP Warning will be monitored every semester for improvement and/or adherence to the terms of their Academic/SAP Warning. While on Academic/SAP Warning, a student is expected to complete all courses for which they are registered with a course grade of 2.0. A minimum of 6 credit hours must be completed satisfactorily before a student is removed from Warning. Warning will not be extended beyond one additional semester.

REMOVAL FROM ACADEMIC WARNING
Removal from academic warning requires that a student:

1. Attend an orientation session in the Success Center.
2. Complete a minimum of two (2) academic enrichment sessions as prescribed by Counseling Services.
3. Achieve a major GPA of 2.0 while completing 67 percent of the credit hours attempted in the next term.
4. Not enroll in an 8-week session (accelerated) without advisor approval. During an 8-week session, student should take nine (9) or less credit hours and achieve a 2.0 GPA. The Assoc. Vice President for Student Services must approve exceptions to the above policy.
5. Complete developmental sequence(s) before enrolling in additional courses requiring a developmental prerequisite.

A student on Academic/SAP Warning enrolled in developmental coursework must:

1. Enroll in the Success Center.
2. Complete a minimum of four academic enrichment sessions as prescribed by Counseling Services.

ACADEMIC/SAP SUSPENSION
Students not meeting the minimum Academic/SAP Standards for a term in which they were on financial aid Academic/SAP Warning will be placed on Academic/SAP Suspension. Students on suspension are not eligible to receive any federal or state financial aid. **Any financial aid awards for upcoming terms will be cancelled.** Students may appeal the suspension using the Satisfactory Academic Progress Appeal form.

A student will also be placed on SAP suspension when they reach the 150% amount of time it takes to complete a program. The maximum timeframe for completion of a program of study is 150% of the published length of the program (i.e. 71 credits for Accounting is the length of the program. 150% of the length of the program would be 106 credits). A student who is suspended for this reason may not appeal a “Max Credits” suspension.

RESOLVING GPA OR CREDIT HOUR DEFICIENCIES
Financial aid awards may be reinstated if the student completes 100% of credits attempted in the most recent semester with a minimum of 6 credits; with minimum grades of 2.0. Once completed, the student may appeal for financial aid reinstatement and program continuation with the Satisfactory Academic Progress Appeal form.

A student who attempts a minimum of 6 credits and is unsuccessful will be dismissed from their current academic program. After one term students may re-apply for admission to a different program following a meeting with their program counselor.

SATISFACTORY ACADEMIC PROGRESS APPEALS
Satisfactory Academic Progress Appeals are filed are submitted to the One Stop Shop and must be completed at least two weeks prior to the start of the next term.

The Academic Progress Appeals Committee comprised of the Director of Financial Aid, Assistant Director of Financial Aid, the Dean of Enrollment Management and the Director of Counseling will review appeal forms. This committee will meet no later than two weeks prior to the start of a term and all pending academic appeals will be reviewed at decisions rendered at that time. The recommendations of the Academic Progress Appeals Committee will be submitted to department chairs for their review and approval. Decisions of this Committee may be appealed to the Associate Vice President for Student Services whose decision is final and binding on the student.

SATISFACTORY ACADEMIC PROGRESS APPEAL PROCESS
Students placed on SAP Warning/Academic Progress Warning for not meeting the minimum standards for the first time may appeal by filing a Satisfactory Academic Progress Appeal form.

Students placed on SAP suspension/Academic Progress Suspension for not meeting the minimum SAP/Academic Progress standards for a second time may appeal for reinstatement to their program and to access to federal financial aid by completing a Satisfactory Academic Progress Appeal form.

Reinstatement of all aid is subject to submission of proper documentation of the student’s circumstances and availability of funds. The appeal narrative and the documentation must demonstrate how the special circumstances impacted the student’s academic performance. The student also needs to explain how circumstances have changed in the current term as to allow for another successful attempt.

The following special circumstances will be considered when processing an appeal:

1. A significant medical illness or injury that directly affected students’ ability to meet the academic standards.
2. The death of a close relative during the time period that directly affected the students’ ability to meet the academic standards.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
3. The student received an incorrectly reported grade that has been changed and is requesting that a Satisfactory Academic Progress be re-evaluated.

4. The student has completed all credits in the most recent semester, with a minimum of six credit hours, earned a minimum 2.0 for each course, and is requesting that Satisfactory Academic Progress be re-evaluated.

5. The student experienced a significant personal tragedy or event that affected the students’ ability to meet the academic standards.

6. Other significant situation that affected the students’ ability to meet academic standards.

7. Military deployment for active duty or required military training.

DEVELOPMENTAL CLASSES

The federal regulations that govern federal financial aid impose a limit to the total number of developmental courses a student can take and receive federal financial aid (34 CFR 668.20). This regulation states a student may receive federal aid for up to one academic year’s worth of remedial classes (not to exceed 30 credit hours). All hours exceeding this limit, will not be paid using federal financial aid.

DROPPING OR WITHDRAWING FROM CLASSES

Reducing your enrollment during any semester can create serious consequences. Before dropping classes, students should discuss their concerns with their academic advisor and/or the Financial Aid office.

1. Satisfactory Academic Progress will be affected.

2. In cases of complete withdrawals, students may be required to repay a percentage of financial aid received for that semester based on the Title IV Return of Funds calculation. Students who completely withdraw will be placed on Financial Aid Suspension for future semesters. A Financial Aid Appeal may be submitted requesting reinstatement of financial aid.

3. Students receiving William D. Ford Federal Direct Loans may go into repayment if current enrollment drops below six credit hours for a period of time greater than the six month grace period (or you may lose your grace period).

4. Any scheduled future disbursements of loans will also be cancelled once enrollment drops below 6 credit hours.

WITHDRAWALS OR ALL F GRADES/RETURN OF TITLE IV FUNDS

Federal law states that if a student receives federal financial aid and withdraws, quits attending or drops out of all of their classes before completing at least 60% of the semester, the student will have to return a portion of the federal aid that was received.

Withdrawal (W Grade) from a class(es) is a non-punitive grade for cumulative and major GPA. Withdrawal grades are counted as an attempt for financial aid and health program admissions. Withdrawal grades are calculated in the financial aid GPA as a zero grade.

The student will be billed for the amount to be repaid according to this policy. A student must be reported to the Department of Education for repayment and, until the balance is paid, the student’s records will be placed on hold prohibiting a student from receiving any further financial aid funds nationally. If a student has tuition, fees or other outstanding institutional charges; registration, grades and transcripts will be placed on hold at FTCC until the debt is satisfied.

For questions regarding the Financial Aid Satisfactory Academic Progress policy, visit www.faytechcc.edu/financial_aid/Apply.asp email Finaid@Faytechcc.edu, or stop by the Financial Aid Office.

Rev 6/09/10 Effective 10-11 Academic School Year

HONORS AND ACHIEVEMENTS

President’s List

The President’s List is published at the end of each semester to honor students with a perfect grade point average. Students must be approved for a curriculum prior to the start of the semester. The developmental studies curriculum and courses are excluded from this consideration.

Students must make a final grade of “A” on a minimum of 12 credit hours of curricular work during the term of consideration.

Students must earn a 4.00 GPA on a minimum of 12 credit hours. The formula used to calculate this 4.00 GPA excludes the following grades: AU, P, S, T, W, WP, and W*.

Students are NOT eligible for consideration until all course work is completed for the term.

Dean’s List

The Dean’s List is published each semester to honor those students with an outstanding grade point average.

Students must be approved for a curriculum prior to the start of the semester. The developmental studies curriculum and courses are excluded from this consideration.

Students must make a final grade of “A” or “B” on a minimum of 12 credit hours of curricular work during the term of consideration.

Students must earn at least a 3.5 GPA on a minimum of 12 credit hours. The formula used to calculate this minimum 3.5 GPA excludes the following grades: AU, P, S, T, W, WP and W*.

Students are NOT eligible for consideration until all course work is completed for the term.
The President’s Award
The President’s Award is presented to a deserving student at graduation selected by a faculty-staff committee. To be eligible for this award, a student must have a minimum 3.0 GPA and must have been enrolled on a full-time basis during the year of nomination. The student must exhibit and promote good student morale and demonstrate a genuine concern for FTCC and its role in the community.

Who’s Who
Students nominated for Who’s Who are made by faculty members. Students must have at least a 3.0 GPA and have exhibited leadership abilities, moral character, and commitment to their educational goals.

Ambassadors
Each year, Fayetteville Technical Community College chooses eight outstanding students to serve as Ambassadors. The Ambassadors act as official hosts and hostesses for various campus events. Ambassador candidates must have completed 12 semester hours at FTCC, have a minimum 2.5 GPA, and be recommended by three members of the College community.

Graduating With Honors
Any student who has earned a quality point average of 4.0 in his/her program of study at FTCC will be granted a diploma or degree with highest honors. Any student who has earned a quality point average of 3.5 in his/her program of study will be granted a diploma or degree with honors. The student’s transcript will be noted to reflect this achievement.

REQUIREMENTS FOR GRADUATION
To be eligible for graduation, the student must:

1. Successfully complete the curricular requirements in effect at the time the student entered the curriculum. Students who enter a curriculum after the fall term are subject to the curricular requirements in effect at the time of re-entry. A student who withdraws from the College and re-enters at a later semester, including students who have completed at least one or more semesters, will be subject to curricular requirements in effect at the time of re-entry. In cases where students re-enter at the beginning of fall semester, they are subject to the requirements for the curriculum at the fall semester re-entry.

2. Have met all admissions requirements for the program in which the student will graduate, including receipt of high school transcript/GED and transcripts from all colleges/universities that course credit for the certificate, diploma or degree requirements were derived.

3. Have sufficient grade points to average 2.0 major and cumulative GPA.

4. Have passing grades in all required courses (certain curricula, especially in the health area, require that a student make at least a “C” on major subject areas for the student to be eligible to take state and national examinations for licensure.)

5. Must have taken care of ALL financial indebtedness to Fayetteville Technical Community College, including a graduation fee.

6. Applications for degrees or diplomas must be completed by the student and returned no later than the end of the fall semester for the spring graduation and the end of the spring semester for summer graduation from those programs that are completed in sequence during the summer (i.e., Emergency Medical Science, Radiography, and certain vocational curricula). The College assumes no responsibility for making special adjustments for students who fail to file applications by the designated time. A candidate who fails to file an application for graduation or meet graduation requirements by the designated date for each automatically voids his/her candidacy for that particular graduation.

A WORD OF ADVICE: It is important to review your program requirements and your Student Educational Plan two semesters before graduation to be sure you are meeting all requirements. Check with your faculty advisor.

Progress Standards for Select Programs
The following programs require that a student complete the stated course work with a grade of “C” or better in order to progress to the next course/term:

Associate Degree Nursing – A “C” or better in all major and science courses and a satisfactory grade in clinical

Dental Assisting – A “C” or better in all major and science courses and a satisfactory grade in clinical

Dental Hygiene – A “C” or better in all major and science courses and a satisfactory grade in clinical

Emergency Medical Science – A “C” or better in all major science courses and a satisfactory grade in clinical

Funeral Service Education – A “C” or better in all FSE courses and ACC 111, BUS 115, and PSY 141

Healthcare Management Technology – A “C” or better in all HMT courses

Nuclear Medicine Technology – A “C” or better in all major and science courses

Paralegal Technology – A “C” or better in all LEX courses

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Pharmacy Technology – A “C” or better in all major and science courses

Phlebotomy – A “C” or better in all major courses

Physical Therapist Assistant – A “C” or better in all major and science courses

Practical Nursing – A “C” or better in all major and science courses

Radiography – A “C” or better in all major and science courses

Respiratory Care Technology – A “C” or better in all major and science courses

Speech-Language Pathology Assistant – A “C” or better in all major and science courses

Surgical Technology (Degree or Diploma) – A “C” or better in all major and science courses
STUDENT RIGHTS, RESPONSIBILITIES, AND DUE PROCESS

STUDENT RECORDS

Fayetteville Technical Community College is committed to the concern for and protection of students’ rights and privacy of information. The College complies with the provisions of the Federal Family Rights and Privacy Act (FERPA), which is a federal law that governs the maintenance of students’ records. Under law, students have the right to inspect their educational records, correct inaccuracies in the records if warranted, and are protected from release of information without written consent. All student records are open for inspection and review by the student unless he or she waives this right. The parent(s) of a dependent student as defined in Title 26 U.S. C. §152 of the Internal Revenue Code also has this right to inspect records that are maintained by the College on behalf of the student.

The Registrar is responsible for student records. All students are provided rights under the Family Education Rights and Privacy Act (FERPA).

1. After submitting a written request and within two working days, a student may receive an unofficial copy of his or her transcript. Requests received during the registration period will require 5-10 working days. Upon submitting a written request, official transcripts will be forwarded to other colleges, universities, and agencies. No fee will be charged for records provided and/or forwarded to another institution or agency.

2. State of Rights – Operating under the premise that the educational process is a cooperative venture between the student and FTCC, this policy emphasizes the following rights of students:
   a. to inspect and review their educational records
   b. to exercise limited control over other people’s access to their educational records
   c. to seek to correct their educational records in a hearing if necessary
   d. to report violations of FERPA to the Family Education Rights and Privacy Act Office—Department of Education
   e. to be informed about their FERPA rights

3. FTCC designates the following personally identifiable information contained in student records as Directory Information:
   - name
   - curriculum
   - enrollment status
   - dates of enrollment
   - degree received
   - mailing address
   - e-mail address(es)

4. Students who object to the release of directory information must notify the Registrar/Curriculum in writing within five (5) school days from the first day of the term of the items that the student does not want disclosed. If no objection is received by that date, the information will be classified as directory information until the beginning of the next school year.

5. Students may petition the Registrar to amend or correct any part of the educational record which the student believes is inaccurate, misleading, or in violation of student rights. This includes the right to a hearing to present evidence that the record should be changed if FTCC decides not to alter it according to the student’s requests.

6. Students may file a complaint with the FERPA Office, Department of Education, 330 Independence Avenue, SW, Washington, DC 20201, if FTCC violates the FERPA or this policy.

7. FTCC reserves the right to deny transcripts or copies of records not required by FERPA in any of the following situations:
   a. The student has any unpaid financial or other obligations to the College, including, without limitation, unresolved parking violations, overdue books, or unpaid library fines.
   b. There is unresolved disciplinary action against the student or unresolved litigation between the student and FTCC.

Note: When a student has a name change, the student is responsible for contacting the Registrar’s Office in person, with the necessary documentation, to revise the information (i.e., a social security card). Out-of-town and/or distance learning students may fax or send a copy of the document to the Registrar’s Office.

STUDENT RIGHTS, RESPONSIBILITIES, AND DUE PROCESS

III-6.1 Preamble

Students enrolled at FTCC are encouraged to develop the capacity for critical judgment and to engage in both an instructor led and
an independent search for knowledge. Free inquiry and free expression are essential to developing these skills; however, students should exercise this academic freedom with responsibility. Students are required to follow all College guidelines, including the Student Code of Conduct, and to obey all laws when on any FTCC campus or when participating in any campus sponsored or supported event.

Students who violate College regulations are subject to the disciplinary penalties of the College. If the student’s behavior violates both the law and College regulations, the College may take disciplinary action independent of that taken by legal authorities.

III-6.2 Student Rights

(1) Every student has the right to a learning environment that is free from unreasonable distractions. If a student’s behavior interferes with the educational process, that student will be directed to end the activity causing the disruption. A student who continues to disrupt can be removed immediately from class and/or campus. Within a reasonable time after being removed, the student will be advised of their rights, which are more fully described under the section on Disciplinary Action.

(2) Students have the right to be evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards.

(3) Students have the right to freedom of expression, inquiry and assembly so long as it is not disruptive to a learning environment.

(4) Students have the right to inquire about and propose improvements in policies, regulations and procedures affecting the welfare of students through established student government procedures, campus committees, and College officers.

(5) Students and former students have the right to review their official records. No records shall be made available to unauthorized personnel or groups outside the College without the written consent of the student involved, except under legal compulsion or in accordance with federal law and the announced policies/procedures of the College. Student rights in this area are described more fully in this Handbook under the section on Student Records.

III-6.3 Student Code of Conduct

The following regulations set forth rules of conduct that prohibit certain types of student behavior. Students are expected to act and dress appropriately for a college environment. Neither actions nor dress should distract others from concentrating on their course of study. The College has established the following Code of Conduct to ensure that an appropriate college environment is maintained. Violation of one or more of these regulations may result in disciplinary sanctions. Students are not permitted to engage in any of the following activities while participating in any college course, while on campus, while participating in a College-sponsored event, or while in a College owned vehicle.

(1) Academic dishonesty, including, but not limited to:
   a) Obtaining test information, research papers, notes and other academic material without authorization;
   b) Receiving or giving help on tests, projects, or assignments submitted for a grade unless specifically authorized by the instructor; and,
   c) Plagiarism, which is taking credit for another’s ideas or works as if they were your own.

(2) Theft, vandalism, or misuse of College property wherever it is located.

(3) Possession, use, or distribution alcohol or any illegal drug. In addition, students shall not be under the influence of any such substance while on campus, at College events, or in College owned vehicles.

(4) Using, recording, or disseminating anything which is lewd, offensive, obscene, profane, or vulgar, including, but not limited to, the use of profane or vulgar language.

(5) Physical violence against another person or threaten physical violence against another person.

(6) Harass or intimidate any other person, including but not limited to sexual harassment or intimidation.

(7) Participate in gatherings or demonstrations that interfere with another’s ability to freely access College facilities or property. Students shall not disrupt or interfere with the College’s educational processes or College functions. Student shall comply with any instruction of a College employee to leave the scene of a disruptive gathering or demonstration.

(8) Violate any state law prohibiting the possession of weapons on the campus. Generally, explosives, guns, knives, razors, other sharp instruments, leaded canes, brass knuckles and stun guns are not permitted on campus unless the possession of the weapon is a necessary part of a class in which the student is enrolled and the possession of the weapon is authorized by the student’s instructor. Refer to the detailed policy regarding Weapons on Campus in Section I-26 of the Administrative Procedures Manual.

(9) Tampering with a fire alarm or other safety equipment belonging to the College.

(10) Gambling.

(11) Smoking or using other forms of tobacco in any unauthorized
area including but not limited to classrooms, shops and labs. For areas of the campus where smoking is permitted, refer to the College’s policy on Smoking on Campus on Section I-25.3 of the Administrative Procedures Manual.

(12) Altering or misusing College documents, records or instruments of identification with intent to deceive.

(13) Financial irresponsibility including, but not limited to, failure to pay College fines, failure to repay College funded loans or passing worthless checks to College officials.

(14) Violating the terms of any disciplinary probation or any College regulation during the period of probation.

(15) Failing to follow instructions of College employees.

(16) Participating in conduct that disturbs peace and order of the College. This includes, but is not limited to, yelling, screaming, or talking in an unnecessary or unreasonably loud voice, or using of any device which produces loud and/or disruptive noises.

(17) Unauthorized use of any electronic device, such as cell phones, recorders, cameras, i-pods, MP3 players, computers, and the like, in a virtual or physical classroom, shop, or lab.

(18) Permitting any person under the age of sixteen (16) and who is not a FTCC student to enter any instructional area without prior authorization. Instructional areas include virtual or face-to-face classrooms, labs, libraries, the Success Center, clinical sites, or shops. However, students under the age of sixteen (16) shall be permitted to enter into any instructional area for purposes related to their own education.

(19) Violating any College rule, regulation, policy and/or procedure.

(20) Violating any local, state or federal law or regulation.

(21) This Student Code of Conduct is not all inclusive. Any conduct which is disruptive to the educational environment of the College is prohibited.

III-6.4 Disciplinary Action

III-6.4.1 Immediate Suspension

Disruptive behavior or conduct that is an immediate threat to the health or safety of any member of the academic community requires immediate action. This includes, but is not limited to, obscene and/or disruptive language, threatening acts or blocking or restricting access to College classes, offices and programs. Therefore, the College has established that this behavior will be dealt with in the following manner.

An instructor or administrative officer may direct the student to stop the behavior and advise him or her that failing to do so will result in immediate suspension and/or removal from the campus. If the behavior continues, the instructor may suspend the student from class until further notice. An administrative officer may suspend the student from class or have the student removed from campus until a resolution of the matter can be made.

As soon as possible, but no later than two working days after the incident, the instructor or administrative officer invoking the suspension will notify the program area Dean/ Director in writing of the name of the individual involved, the behavior that resulted in suspension, the time, place and date of the incident, and the names of person(s) directly involved and/or witnesses.

Upon notification, the Dean/Director may make a decision that the student will be allowed to return to class or campus pending the outcome of an inquiry into the allegations made against the student. Any such decision shall be communicated to the student as soon as is reasonably possible.

Within five working days after the Dean/Director’s written notification of the incident, an inquiry into the allegations will be completed by FTCC Security or some other appropriate college official. Upon completion of the appropriate inquiry, the Dean/Director will schedule a conference with the student to discuss the incident. At the conference the Dean/Director will discuss the alleged violation of the Student Code of Conduct and the information used in determining whether the violation occurred. The student will also have the opportunity to present information in his/her favor. The Dean/Director and the student may have witnesses at the conference.

Within five working days after the conference, the decision of the Dean/Director will by presented to the student in writing personally or mailed to the address the student gave at the conference. The Dean’s/Director’s decision may include the following:

a. Dismissal of the charges;

b. Imposition of any of the penalties listed in Sections III-6.4 or III-6.5 below;

c. Referral of the student to a College office or community agency.

In instances where the student cannot be reached to schedule a conference with the Dean/Director or where the student fails to attend the scheduled conference, the Dean/Director will send a certified letter to the student’s last known address stating the alleged violations of the
Student Code of Conduct, the Dean’s/Director’s decision as to whether the student violated the Code of Conduct, the penalties imposed. The written notification will also inform the student of his right to appeal as outlined in subsequent sections of this catalog entitled Right of Appeal found in Section III-7 below.

### III-6.4.2 Violations Not Resulting in Immediate Suspension

Any administrative official, faculty/staff member or student may file charges with the FTCC Security Office or with some other appropriate College official against a student or student organization believed to have violated the Code of Conduct.

The individual making the charge must complete a charge form. This form requires the following information:

a. Name of the student involved;

b. Specific violation of the Code of Conduct claimed to have been committed;

c. Time, place and date of the incident; and

d. Names of person(s) directly involved and/or witnesses to the incident.

The completed form will be forwarded directly to the appropriate Dean/Director while Security or some other appropriate College official conducts an inquiry into the allegations.

Within five working days after the charge has been filed, a conference between the student and the Dean/Director will be scheduled. At the conference the Dean/Director will discuss the violation claimed to have been committed and the information used in determining whether the violation occurred. The student will also have the opportunity to present information in his favor. The Dean/Director and the student may have witnesses at the conference.

Within five working days after the conference, the decision of the Dean/Director will be presented to the student in writing personally or mailed to the address he gave at the conference. The decision may include the following:

a. Dismissal of the charges;

b. Imposition of penalties;

c. Referral of the student to a College office or community agency for services.

In instances where the student cannot be reached to schedule a conference with the Dean/Director or where the student fails to attend the scheduled conference, the Dean/Director will send a certified letter to the student’s last known address stating the alleged violations of the Student Code of Conduct, the Dean’s/Director’s decision as to whether the student violated the Code of Conduct, the penalties imposed. The written notification will also inform the student of his right to appeal as outlined in subsequent sections of this handbook or in Section III-7 in the Academic Procedures Manual.

### Sanctions

1. **Reprimand:** A written communication which gives official notice to the student that any subsequent offense against the Student Code of Conduct will carry heavier penalties because of this prior infraction.

2. **General Probation:** An individual may be placed on General Probation when involved in a minor disciplinary offense; General Probation has two (2) important implications: the individual is given a chance to show capability and willingness to observe the Student Code of Conduct without further penalty; secondly, if the individual errs again, further action will be taken. This probation will be in effect for no more than two (2) semesters.

3. **Restrictive Probation:** Restrictive Probation results in loss of good standing and becomes a matter of record. Restrictive conditions may limit activity in the College community. Generally the individual will not be eligible for initiation into any local or national organization, and may not receive any College award or other honorary recognition. The individual may not occupy a position of leadership with any College or student organization or activity. This probation will be in effect for not less than two (2) terms. Any violation of Restrictive Probation may result in immediate SUSPENSION.

4. **Restitution:** Paying for damaging, misusing, destroying or losing property belonging to the College, College personnel, or students.

5. **Interim Suspension:** Exclusion from class and/or other privileges or activities as set forth in the notice, until a final decision has been made concerning the alleged violation.

6. **Withholding grade reports, diploma, or right to register or participate in graduation ceremonies:** Imposed when financial obligations are not met. (Will not be allowed to register until all financial obligations are met.)

7. **Suspension:** Exclusion from class(es), and/or all other privileges or activities of the College for a specified period of time. This sanction is reserved for those offenses warranting discipline more severe than probation, or for repeated misconduct. Students who receive this sanction must get specific written permission from the Dean before returning to campus.

8. **Expulsion:** Dismissing a student from campus for an indefinite period losing student status. The student may
be readmitted to the College only with the approval of the Vice President for Academic and Student Services.

(9) Group Probation: This is given to a College club or other organized group for a specified period of time. If group violations are repeated during the term of the sentence, the charter may be revoked or activities restricted.

(10) Group Restriction: Removing College recognition during the term in which the offense occurred or for a longer period (usually not more than one other term). While under restriction, the group may not seek or add members, hold or sponsor events in the College community, or engage in other activities as specified.

(11) Group Charter Revocation: Removal of College recognition for a group, club, society, or other organizations for a minimum of two years. Recharter after that time must be approved by the President.

**POSSSESSION OF WEAPONS ON CAMPUS**

Possession of weapons on campus or at any FTCC class, site, activity, or program is a violation of North Carolina State Law (GS 14- 269.2).

The following applies:

1. It shall be a Class I Felony for any person to possess or carry, whether openly or concealed, any gun, rifle, pistol, or other firearm of any kind, or any dynamite cartridge, bomb, grenade, mine or powerful explosive on campus or at any FTCC class, site, activity, or program.

2. It shall be a misdemeanor for any person to possess or carry, whether openly or concealed, any BB gun, air rifle, air pistol, Bowie knife, dirk, dagger, slingshot, leaded cane, switchblade knife, blackjack, metallic knuckles, razors and razor blades, and any sharp-pointed or edged instruments except instructional supplies, unaltered nail files and tools used solely for preparation of food, instruction, and maintenance on campus or at any FTCC class site, activity, or program. Any person found to be in violation of the law will be referred to the local area law enforcement authorities for appropriate legal action.

3. Students who violate the law will be suspended immediately for a minimum of one full term. A student is identified as any person currently enrolled in continuing education or curriculum class (es), whether the person is an adult or a minor.

4. Students in violation of this policy will be placed on permanent expulsion when one of the following occurs:
   a. possession of a firearm on campus
   b. repeat offense on campus or any FTCC class site, activity, or program
   c. subsequent conviction of a violation of the law
   d. use of a weapon to harm or threaten another individual

**SMOKING ON CAMPUS**

All buildings on the FTCC campus are smoke-free. In addition, smoking adjacent to buildings will only be permitted at outdoor areas that have been designated by the President as smoking areas. This policy is implemented to reduce secondhand smoke at building entrances. The designated smoking areas are listed below:

**DISIPLINARY ACTION**

**Immediate Suspension**

If an act of misconduct threatens the health or safety of any member of the academic community or seriously disrupts the function and good order of the College, an instructor or administrative officer may direct the student(s) involved to cease and desist such conduct and advise them that failing to cease and desist will result in immediate suspension. The instructor may suspend the student(s) from the class until further notice. An administrative officer may suspend the student(s) from either the class or the College until a resolution of the matter can be made. Disruptive behavior may include, but not be limited to, obscene and/or disruptive language, threatening actions, and blocking or restricting access to college classes, offices, and programs.

The instructor or administrative officer invoking such suspension shall notify the Program Area Dean or Director in writing of the individual(s) involved and the nature of the infraction as soon as possible but no more than two days following the incident. The Dean or Director shall resolve the matter in a timely fashion utilizing the following steps.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Responsibility for Implementation

The program area Dean is responsible for implementing student discipline procedures.

Disciplinary Procedures

In order to provide an orderly procedure for handling student disciplinary cases in accordance with due process and justice, the following procedures will be followed.

1. Charges: Any administrative official, faculty/staff member, or student may file charges with the FTCC Security Office against any student or student organization for violations of College regulations. The individual(s) making the charge must complete a charge form stating:
   a. name(s) of the student(s) involved
   b. the alleged violation of the specific Code of Conduct
   c. the time, place, and date of the incident
   d. name(s) of the person(s) directly involved or witnesses to the infractions
   e. any action taken that relates to the matter, and
   f. desired solution(s)

   The completed charge form should be forwarded directly to the appropriate Dean or director.

2. Investigation and Decision: Within five (5) working days after the charge is filed, Security shall complete a preliminary investigation of the charge, and the program area Dean shall schedule a meeting with the student. After discussing the alleged infraction with the student, the Dean may act as follows:
   a. drop the charges
   b. impose a sanction consistent with those shown below
   c. refer the student to a College office or community agency for services

3. Notification: The decision of the Dean shall be presented to the student in writing or mailed within five (5) working days. In instances where the student cannot be reached to schedule an appointment with the Dean or where the student refuses to cooperate, the Dean shall send a certified letter to the student’s last known address providing the student with a list of charges, the Dean’s decision, and instructions governing the appeal process.

Sanctions

1. Reprimand: A written communication which gives official notice to the student that any subsequent offense against the Student Code of Conduct will carry heavier penalties because of this prior infraction.

2. General Probation: An individual may be placed on General Probation when involved in a minor disciplinary offense. General Probation has two (2) important implications: the individual is given a chance to show capability and willingness to observe the Student Code of Conduct without further penalty; secondly, if the individual errs again, further action will be taken. This probation will be in effect for no more than two (2) terms.

3. Restrictive Probation: Restrictive Probation results in loss of good standing and becomes a matter of record. Restrictive conditions may limit activity in the College community. Generally, the individual will not be eligible for initiation into any local or national organization and may not receive any College award or honorary recognition. The individual may not occupy a position of leadership with any College or student organization or activity. This probation will be in effect for not less than two (2) terms. Any violation of Restrictive Probation may result in immediate SUSPENSION.

4. Restitution: Paying for the damage, misuse, destruction, or loss of property belonging to the College, College personnel, or students.

5. Interim Suspension: Exclusion from class and/or other privileges or activities as set forth in the notice, until a final decision has been made concerning the alleged violation.

6. Loss of Academic Credit or Grade: Imposed as a result of academic dishonesty.

7. Withholding grade reports, diplomas, or right to register or participate in graduation ceremonies: Imposed when financial obligations are not met.

8. Suspension: Exclusion from class(es) and/or all other privileges or activities of the College for a specified period of time. This sanction is reserved for those offenses warranting discipline more severe than probation or for repeated misconduct. Students who receive this sanction must get specific written permission from the appropriate Dean before returning to the campus.

9. Expulsion: Dismissing a student from campus for an indefinite period losing student status. The student may be readmitted to the College only with the approval of the Vice President for Academic and Student Affairs.

10. Group Probation: This is given to a College club or other organized group for a specific period of time. If group violations are repeated during the term of the sentence, the charter may be revoked or activities restricted.

11. Group Restriction: Removing College recognition during the term in which the offense occurred or for a longer period (usually not more than one other term). While under...
restriction, the group may not seek or add members, hold
or sponsor events in the College community, or engage in
other activities as specified.

12. Group Charter Revocation: Removal of College recogni-
tion for a group, club, society, or other organizations for a
minimum of two years. Recharter after that time must be
approved by the President.

Appeals and Due Process

Students subject to administrative decisions affecting their right to
attend classes are entitled to due process. Due process includes,
but is not limited to, the following considerations:

(1) The student must be informed of any charges made against
him/her that may result in administrative action.

(2) The student must be advised in writing of the administrative
action taken.

(3) The student will be advised of corrective action required.

(4) The student is entitled to an appeal as herein provided. The
appeals process described in the following paragraphs must
be followed.

(5) The student is entitled to appear and present testimony at
any committee meeting scheduled to hear an appeal from
said student.

Appeal of Admissions Decisions

Initial decisions to approve a student or potential student to enter a
program or a student re-entering a program are made by the coun-
selor conducting the admissions interview. Appeals of admissions
decisions are referred to the Director of Admissions. Decisions of
the Director of Admissions may be appealed to the Associate
Vice President for Student Services in writing no later than ten
(10) college days after the date of the Director of Admissions’ let-
ter. The Associate Vice President for Student Services will confer
with the department chairperson and respond to the student within
five (5) working days. Decisions of the Associate Vice President
for Student Services are final.

Appeal of Attendance Problems

The instructor according to guidelines published in the Student
Handbook may drop students with excessive absences.

1. Appeals of attendance decisions should be made first to
the department chairperson and then to the program area
Dean. Further appeals of administrative withdrawal from
class for attendance will be made in writing no later than
five (5) college days to the FTCC Student Appeals Com-
mittee through the Director of Counseling.

2. The decisions of the FTCC Student Appeals Committee
are referred to the Associate Vice President for Student
Services as recommendations. The Associate Vice Presi-
dent for Student Services will review the case, consider the
recommendation, reach a decision, and notify the student
involved of the resulting decision as soon as possible, but
no later than three (3) College days from the receipt of the
recommendation of the Student Appeals Committee.

3. If the student wishes to appeal the decision of the Associate
Vice President for Student Services, the appeal must be in
writing and addressed to the Vice President for Academic
and Student Services. Thereafter, the route of appeal is to
the President and then to the Board of Trustees. Decisions
of the Board of Trustees are final.

4. Students placed on suspension for attendance problems
may be allowed to continue attending class until the appeal
has been resolved.

Appeal of Grades

Grading is the prerogative of the faculty member. Appeals
concerning grades given for a course must be directed to the faculty
member assigning the grade and must be in writing. The faculty
member assigning the grade and the student appealing the grade
shall discuss the circumstances and attempt to resolve the appeal.
Failing to reach a satisfactory resolution, the student may appeal
in accordance with the specific procedures described below. The
appeal of a grade must be initiated no later than the last day of the
fourth full month after the course grade was assigned.

(1) The student shall present the appeal in writing to the
chairperson or coordinator of the department within
which the protested grade was earned. The chairperson or
coordinator shall, by conferring with the student and the
faculty member, seek resolution by mutual agreement. If
applicable, the student should continue to attend classes
throughout the appeals process.

(2) If the student wishes to appeal the final decision of the
chairperson or coordinator, the student must appeal in
writing, to the appropriate Academic Dean or Director.
After conferring with the student, the Instructor, and the
Department Chairperson, the Dean shall convene the
Academic Review Committee, if requested in writing by
the student.

(3) The Academic Review Committee will consist of the
convening Dean or Director and four FTCC faculty
members, at least one of whom, if possible, shall be qualified
to teach the course, appointed by the Dean or Director. The
faculty member assigning the grade shall not be appointed
to the Academic Review Committee. During the appeal
process, the appropriate Department Chairperson and/or
faculty member will provide all relevant information to the
appeal. The student’s written appeal will be provided to

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
the committee and if requested by the student, the student shall be afforded the right to personally appear and provide testimony to the committee and to ask questions of anyone providing evidence to the committee. Upon receiving all relevant evidence presented, the committee shall determine whether the grade assigned by the instructor shall be upheld. If the grade is not upheld, the committee shall make a decision as to how a grade shall be assigned to the student. The Dean will notify in writing, the faculty member, the student, and the Department Chairperson of the committee’s decision within five working days. The resulting grade must be submitted within College guidelines and may not be further appealed.

**Appeal of Academic Probation and Suspension**

Students who fail to meet requirements of academic progress according to guidelines published in the Student Handbook will be placed on Academic Probation or Academic Suspension. These students should be referred to their academic advisor or counselor. The College will assist the student in identifying the probable causes of academic difficulty and will attempt to recommend strategies for change.

Any consideration of academic standing or reinstatement must be approved by the appropriate Department Chairperson and would require assurances that the reasons for academic difficulties have been removed.

Appeals of decisions of the Department Chairperson may be made to the appropriate Program Area Dean. All appeals must be in writing and received no later than five days from the time of notification of the Department Chairperson’s decision. Students placed on Academic Suspension may be allowed to continue attending class until the appeal has been resolved. The decision of the Dean in matters of Academic Probation or Academic Suspension is final and not subject to further appeal.

**Appeal of Disciplinary Sanction**

The Program Area Dean or Director investigates charges of misconduct and determines the action to be taken. The decision of the dean/director is presented to the student in writing within five (5) working days after the charge is filed. If the student is notified that a disciplinary sanction will be imposed, he or she must submit the appeal in writing within five (5) working days to the Associate Vice President for Curriculum Programs or the Associate Vice President for Continuing Education. The Associate Vice President will render a decision and will notify the student of the decision in writing within five (5) working days of the receipt of the appeal.

(1) If the student wishes to appeal the dean’s/director’s decision, he or she must submit the appeal in writing within five (5) working days to the Associate Vice President for Curriculum Programs or the Associate Vice President for Continuing Education. The Associate Vice President will render a decision and will notify the student of the decision in writing within five (5) working days of the receipt of the appeal.

(2) Further appeals of disciplinary sanctions may be made to the FTCC Student Appeals Committee through the Director of Counseling, provided that they are made in writing within five (5) working days of receipt of the Associate Vice President’s decision.

(3) The decisions of the FTCC Student Appeals Committee are referred to the Associate Vice President for Student Services as recommendations. The Associate Vice President for Student Services will review the case, consider the recommendation, reach a decision, and notify the student involved of the resulting decision as soon as possible, but no later than three (3) working days from the receipt of the recommendation of the Student Appeals Committee.

(4) If the student wishes to appeal the decision of the Associate Vice President for Student Services, the appeal must be in writing and addressed to the Vice President for Academic and Student Services. Thereafter, the route of appeal is to the President and then to the Board of Trustees. Decisions of the Board of Trustees are final.

**Financial Obligations**

Initial telephone contacts and certified letters of advisement from the Business Office at FTCC regarding delinquent loans and returned checks are mailed to the student. Unpaid indebtedness to the College will result in suspension from the class(es). A student will not be allowed to register for the next term until the debt is cleared with the Business Office.

For returned checks, students are given 15 days from the date of the certified letter to clear the debt before legal action is taken by FTCC. If after 15 days the debt is not cleared, a warrant is issued by the Cumberland County Magistrates’ Office. After this time, the student must make payment of the returned check plus court costs to the Clerk of Superior Court.

For student loans, the promissory note states that payment in full becomes due immediately upon default of any installment or termination of at least half-time study. If payment is not made, the student’s account is submitted to the Attorney General’s Office for collection. Upon notification of disposition by the Attorney General, the student’s unpaid account is submitted to an outside collection agency.

Monthly, any unpaid student accounts are submitted to the North Carolina Department of Revenue under the Set-Off Debt Collection Act. This entitles FTCC to claim a part or all of the student’s income tax refund to apply against the debt.

Financial indebtedness to FTCC can only be appealed through the Business Office until the matter is submitted to local and state legal authorities.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
**Student Tuition/Fee Appeal**

Students are **responsible** for charges and payments to their student tuition/fee account.

Appeals for the current and/or immediate prior term only will be considered and reviewed. All other appeals will not be considered. Decisions of the Appeal Committee are final. Book charges may not be appealed.

Certain mitigating circumstances may qualify for a refund of tuition and fees paid to FTCC. Mitigating circumstances may consist of the following:

- Death of an **immediate** family member. A copy of the death certificate is **required**.
- Medical emergency which results in the inability to attend class. Medical documentation is **required**. Please attach medical documentation including the dates of illness or admission to the hospital and/or a signed letter from the doctor.
- Unanticipated military service, including TDY, training, activation for deployment and unanticipated reassignment. Proof of orders is **required**.

For any other mitigating circumstances, students should complete and submit this form with all supporting documentation.

Requests for a tuition refund will be reviewed by the Student Tuition/Fee Appeal committee. Appeals are reviewed on the third week of every month. A letter will be mailed within a week after the Appeals Committee meeting.

**Financial Aid Students**

A dropped class will result in a change in enrolled credit hours, which could generate a refund or a requirement to repay financial aid. Please contact the Financial Aid Office with any questions regarding your financial aid prior to submitting this a drop for a class or withdrawal from all classes.

**Dismissal**

Fayetteville Technical Community College reserves the right to dismiss any student when it believes such action is in the best interest of the College, the students, the faculty, the staff, or the student him/herself. In all cases, the right of due process is the student’s prerogative.

**Student Grievance Policy and Procedure**

Fayetteville Technical community College encourages the prompt and fair settlement of grievances. A student may present a grievance without fear of coercion, restraint, interference, penalty, or reprisal.

The purpose of the student grievance policy and procedure is to provide a system to resolve student complaints against faculty, staff, or other students concerning alleged discrimination on the basis of age, sex, race, disability, or other conditions.

**Academic Appeals**

Appeal of admissions decisions, individual grades, academic probation and/or suspensions, attendance problems, disciplinary sanctions, and dismissal shall not be considered under this policy, unless illegal discrimination is alleged. Such appeals shall be considered according to the guidelines set forth in the Catalog.

**Sexual Harassment Complaints**

Sexual harassment complaints shall be directed to the Associate Vice President for Student Services, unless the alleged harasser is the Associate Vice President. In that case, the complaint shall be directed to the Vice President for Academic and Student Services or to the President. Upon receiving the complaint, the Associate Vice President for Student Services shall refer the sexual harassment complaint to the Vice President for Human Resources, who will investigate the complaint following the procedures outlined in the College’s Sexual Harassment Policy and Procedures.

If the student is not satisfied with the outcome of the investigation, he or she may, within ten (10) working days, file the grievance in writing with the President. The chain of appeal goes then from the President to the Board of Trustees. Decisions of the Board of Trustees are final.

**Grievance Procedure**

This procedure applies to all students of FTCC.

**Step 1:**

The student is encouraged to go to the instructor or staff member where the alleged problem originated. An attempt will be made to resolve the matter equitably and informally at this level. The conference must take place within five (5) working days of the incident which generated the complaint.

**Step 2:**

If the grievance is not resolved, the student may file a written grievance. The student must present the written grievance to the appropriate Associate Vice President within thirty (30) days of the incident giving rise to the grievance. The student and the Associate Vice President will meet within three (3) working days following the presentation of the grievance to discuss the grievance fully, and to attempt informal resolution. The Associate Vice President will investigate the grievance and will ask the employee against whom the grievance was filed to respond in writing to the allegation. The Associate Vice President will provide a written decision on the grievance not later that ten (10) working days following this meeting.
Step 3:
If the student is not satisfied with the decision, he or she may, within five (5) working days, file the grievance in writing with the Vice President for Academic and Student Services. The Vice President for Academic and Student Services will notify the President. Depending on the nature of the allegation, the Vice President for Human Resources may be asked to investigate. After reviewing the facts of the case, the Vice President for Academic and Student Services and/or the Vice President for Human Resources will make a recommendation to the President. The student will receive written notification within ten (10) working days of filing the complaint with the Vice President.

Further Appeal Procedure

If the student is not satisfied with the decision, he or she may, within ten (10) working days, file the grievance in writing with the President. The chain of appeal goes then from the President to the Board of Trustees. Decisions of the Board of Trustees are final.

STUDENT EMAIL STANDARDS

There is an expanding reliance on electronic communication among students, faculty, staff, and administration at Fayetteville Technical Community College (FTCC). This is motivated by the convenience, speed, cost-effectiveness, and environmental advantages of using Email rather than printed communication. Because of this increasing reliance and acceptance of electronic communication, Email is considered an official form of communication between the College and its applicants and students. Implementation of these procedures ensures that students have access to this critical form of communication. All applicants or students are assigned an Email account hosted by Google.

College Use of Email
Email is an official form of communication within FTCC. Therefore, the College has the right to send communications to applicants and students via Email and the College has a right to expect that those communications will be received and read in a timely manner.

Assignment of Student Email Addresses
Management Information Services (MIS) will assign all students an official FTCC Email address within a business day of applying to the College. The College will send official Email communications to this address. **Student’s Email accounts will be deleted one year after graduation or one year after academic inactivity at FTCC.**

The Naming Convention for a Student Email Account is:

(a) The first seven characters of your last name, the first letter of your first name, and the last four digits of your Student ID number (not your social security number). Your Student ID number can be found on your ID card, your registration statement or registration mailer.

(b) If your last name is less than seven characters, use your entire last name, the first letter of your first name and the last four digits of your Student ID number.

(c) If your last name is hyphenated or contains another special character, do not include the hyphen or special character.

Expectations Regarding Student Use of Email
Students are expected to check their official student Email address on a frequent and consistent basis in order to stay current with FTCC communications. FTCC recommends checking student Email once a week at a minimum; in recognition that certain communications may be time-sensitive.

Appropriate Use of Student Email
Students should not use their student Email account for personal use. Student Email is not appropriate for transmitting sensitive or confidential information unless its use for such purposes is matched by an appropriate level of security. Email shall not be the sole method for notification of any legal action.

Redirection of Email
A student may have their Email electronically redirected to another email address. If a student wishes to have Email redirected from their official Address to another Email address (e.g., @aol.com, @hotmail.com, or an address on a departmental server), they may do so, but at their own risk. FTCC will not be responsible for the handling of Email by outside vendors. Having email redirected does not release a student from the responsibilities associated with communications sent to their official email address.

Educational Uses of Email
Faculty may determine how Email will be used in their classes. It is highly recommended that if faculty have Email requirements and expectations, they specify these requirements in their course syllabi. Faculty may expect that student’s official Email addresses are being accessed, and faculty may use Email for their courses accordingly.
MANAGEMENT INFORMATION SERVICES

Management Information Services (MIS) maintains the campus local area network. MIS is responsible for the management, administration, and upgrades of the local area network, computer labs, shared applications, and systems.

The Fayetteville Technical Community College (FTCC) network consists of both a wired and wireless local area network. FTCC has guidelines that define roles, responsibilities and acceptable use of the College’s LAN. Users are expected to abide by the following guidelines.

GENERAL USAGE GUIDELINES

College-owned or -operated computing resources are for the use of faculty, students, staff, and other authorized individuals. Users must exercise responsible, ethical behavior when using these resources. Responsible behavior should also be exercised when using one’s own personal computing device connected to the FTCC wireless network. The College does not attempt to articulate all required or unacceptable behavior by its users. To assist in such judgment, the following guidelines have been developed:

1. Computing resources and access accounts are to be used only for the purpose for which they are assigned and are not to be used for commercial purposes or non-college related activities.

2. Users of the network are responsible for any actions taken that cause damages or affect other computers or portable computing devices. Users should not engage in activities/actions which damage or disrupt hardware or communications such as virus creation and propagation, and overloading networks with excessive data.

3. Individuals will not use College computer resources to engage in any illegal activities. Users of the FTCC network must comply with all federal, state, and local laws that apply.

4. All computer software is protected by federal copyright law and most is proprietary and protected by legal licensing agreements in addition to the copyright law. The user is responsible for being aware of the licensing restrictions for the software used on any system. Users must respect the legal protection applied to programs, data, photographs, music, written documents and other material as provided by copyright, trademark, patent, licensure and other proprietary rights mechanisms.

5. Users shall not create, display, advocate, or transmit threatening, racist, sexist, pornographic, obscene, offensive, annoying or harassing language and/or material, including broadcasting unsolicited messages, sending unwanted mail, or accessing websites for these purposes.

6. Users shall not use the FTCC network to intentionally gain unauthorized access to any systems or sensitive information. Users will not gain, or attempt to gain, unauthorized access to other’s files, folders, or storage areas of any kind.

7. Use of content management systems (e.g. BlackBoard) should be for the purposes of communicating and documenting class or educational related activities.

8. Users are discouraged from conducting confidential transactions (e.g. online banking) over FTCC network.

9. Individuals are responsible for the proper use of their accounts, including proper password protection and appropriate use of Internet resources. An access account assigned to an individual must not be used by others. Users are responsible for notifying MIS Help Desk (678-8502) if they find that their account login information has been compromised in any way.

10. Users will refrain from monopolizing systems and services, such as overloading resources, putting excessive demands on disk space, printer paper and supplies.

11. The College’s website, www.faytechcc.edu, will serve as the only official website representing FTCC. Users are not permitted to use the College’s name or any association with the College in web sites that are not owned, created, and/or maintained by FTCC.

12. Fayetteville Technical Community College is in no way liable for any damage, undesired resource usage, or detrimental effects that may occur to the user’s computer or any portable computing device while attached to the wireless network.

13. Individuals connecting to the wireless network are responsible for having current operating system updates and up-to-date antivirus software installed on their computer and any portable electronic devices.

Failure to follow the FTCC General Use Guidelines can result in the suspension of access rights and disciplinary action as deemed appropriate by the College.

Management Information Services office reserves the right to make revisions/updates to these guidelines at any time.

MIS has the responsibility to monitor, filter, log, and block network activities and locations, to include email, as required to ensure that all computer resources perform optimally and are safe from technology threats. MIS reserves the right to restrict access to the FTCC network as deemed necessary to protect the integrity of the network infrastructure, systems, and information.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
FREE SPEECH AND PUBLIC ASSEMBLY
POLICY AND PROCEDURE

Fayetteville Technical Community College recognizes and supports the rights of free speech. This policy informs members of the College community and the public of the manner in which they may engage in constitutionally protected speech and expression at Fayetteville Technical Community College. It is intended to ensure the primary educational purpose of the College.

The College will protect the rights of freedom of speech, petition, and peaceful assembly. The right to regulate reasonable time, location, and restrictions concerning acts of expression and dissent will be maintained by the College. Any acts that are disruptive to normal operations of the College including but not limited to classes, College business, or invades the rights of others will not be tolerated. Faculty, staff, and students engaging in disruptive activity may be subject to disciplinary action. Any participant in a disruptive activity may face criminal charges.

Registration and Use of Designated Free Speech Area

A. Requests for Free Speech. Individuals or groups wishing to exercise their free speech should submit a written request to the Director of Student Activities at least three working days prior to the desired date. The following information must be included in this written request.
   • Name of the person or organization submitting the request
   • Purpose of speech requested
   • Date and times requested
   • List of planned activities (i.e., speech, signs, distribution of literature)
   • Anticipated number of participants and attendance

Approvals are for one day only for a maximum of three continuous hours, between 8:00 a.m. and 10:00 p.m.

B. Designated Free Speech Area. College designated areas for free speech are listed below:
   Main Campus  Student Center Gazebo
   Spring Lake Campus  TBA
   Horticulture Education Center  TBA

College sponsored events have first priority on the use of campus facilities. Requests for the Gazebo will be assigned to the person or organization that requests the area first. The College reserves the right to relocate any assembly to ensure that the activity does not interfere with the normal operation of the College or interfere with the rights of others.

Guidelines for Speech and Public Assembly

(1) Amplification Systems: Public address and amplification systems may not be used. This includes megaphones and PA systems.

(2) The Right to Dissent: The right to dissent is the complement of the right to speak, but these rights need not occupy the same forum at the same time. The speaker is entitled to communicate his or her message to the audience during their allotted time, and the audience is entitled to hear the message and see the speaker during that time. A dissenter must not substantially interfere with the speaker’s ability to communicate or the audiences ability to hear and see the speaker. Likewise the audience must respect the right to dissent.

(3) Picketing and Distribution of Literature: Picketing in an orderly manner or distributing literature within the free speech area is acceptable when approved during the request process as coordinated and approved by the Director of Student Activities. Picketing is not permitted inside College buildings.

(4) Symbolic Protest: During a presentation, displaying a sign, gesturing, wearing symbolic clothing, or otherwise protesting silently is permissible unless it is a disruptive activity or impedes access, such as acts that block the audiences view or prevents the audience from being able to pay attention.

(5) Marches: Campus marches are permitted on campus only with the approval of the Director of Student Activities per Requests for Free Speech.

In order to ensure the safety of participants and bystanders and to minimize the disruption upon College classes and daily operations, this request must specify the desired march route and total/maximum number of participants.

Pickets/marchers must march in single file, not abreast, and may not march closer together than 15 feet, except in passing one another. Pickets not marching shall remain at least 15 feet apart. Minor children, six years of age or younger, may walk abreast or be carried by their parent or guardian.

Pickets shall be restricted to the use of the outermost half of the sidewalk or other public way nearest the street and shall not at any time nor in any way obstruct, interfere with, or block persons entering or existing vehicles; persons crossing streets or otherwise using the public way; the entrance or exit to any building or access to property abutting the street or sidewalk; or pedestrian or vehicular traffic.

Conduct and Manner

(1) Those who exercise free speech as a part of this policy must not
   – Threaten passers-by
   – Interfere with, impede, or cause blockage of the flow of vehicular or pedestrian traffic.
   – Interfere with or disrupt any other lawful activity in the same general location at the same time.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
– Commit any act likely to create an imminent safety or health hazard.
– Post materials on any walls, windows, doors, sidewalks, trees, light poles, etc., or any other College equipment except as approved by the Director of Student Activities.
– Carry signs or placards that exceed two feet by two feet promoting the objective of the activity. They must not contain profane language or words that would tend to incite violence.

(2) Public speech or activities that are likely to incite or produce imminent lawless action or that is, under current legal standards, either defamatory or obscene is prohibited. Violations of the FTCC Student Code of Conduct are prohibited.

(3) Participants in College free speech activities cannot refuse to identify him or herself to College officials when such activities are on College property. A person may identify himself/herself by presenting a student/faculty/or staff ID card, driver’s license, or some other form of government issued identification.

(4) Individuals who damage or destroy College property shall be held responsible for such damage or destruction. This includes lawns, shrubs, trees, etc.

(5) A request for use of free speech areas may be denied if determined that the proposed speech/activity will constitute a clear and present danger to the orderly operation of the College.

(6) All applicable College regulations, state, and federal laws and municipal ordinances apply when engaging in activities on College property. Failure to do so may result in immediate removal from College property and other appropriate action by College officials and/or police.

**Interference with Free Speech or Public Assembly**

Persons shall not physically interfere in the use of the sidewalk or address profane, indecent, abusive, or threatening language to or at individuals to provoke them or lead to a breach of the peace.

Whenever free passage is obstructed by a crowd, the persons composing such crowd shall disperse or move on when directed by College officials, security, police. Failure to do so may result in disciplinary action.

**Intellectual Property Rights**

“Intellectual Property” includes all inventions, improvements, copyright-eligible works, and tangible research materials produced by employees and/or students of FTCC.

(1) All employees and/or students who produce or who anticipate producing Intellectual Property have a duty to promptly disclose their discoveries or invention to the President or his designee in order to prevent the development of a conflict of interest or a conflict of commitment.

(2) The President may appoint an Intellectual Property Committee to process, investigate, and make recommendations to the President when Intellectual Property notifications occur or issues arise.

(3) The College shall own all Intellectual Property that is made, discovered, or created by an employee who is specifically hired or commissioned by the College for that purpose and who receives compensation for those specific services from the College.

(4) The College shall own any Intellectual Property that is made, discovered, or created by an employee within the scope of his or her employment by the College or whose position description may include such duties, unless otherwise provided by written agreement between the individual and the College.

(5) The College shall own all Intellectual Property that is made, discovered, or created by an employee and/or student who uses College resources and time in the development of the Intellectual Property, unless otherwise provided by written agreement between the individual and the College. “College resources” means institutional facilities, staff, and materials.

(6) Intellectual Property created by an employee and/or student entirely on his or her personal time and not involving the use of College facilities or materials shall be the property of the individual. An individual’s “personal time” shall mean time other than that devoted to normal or assigned functions in teaching or College service. The term “College facilities” shall mean any facility, including equipment and material, available to the individual as a direct result of the individual’s affiliation with the College, and which would not be available to a non-College individual on the same basis. An employee and/or student who claims that Intellectual Property is made on personal time has the responsibility to demonstrate that the Property so claimed is created on personal time.

(7) An employee and/or student who anticipates or has already produced Intellectual Property using both his or her own resources and time and the resources and time of the College, will meet with the College President or his Designee to discuss his or her efforts and to agree on a possible division of the value of the rights produced.

(8) The College may release its rights of ownership of Intellectual Property to the individual, if the institution is convinced that no College facilities, time, or materials were used in the development of the Intellectual Property and that it was made on personal time.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
(9) The College retains the rights to all Intellectual Property, which would be owned by the College under this policy created by employees who leave employment with the College. The College may grant the individual non-exclusive use of the Intellectual Property for a specified period of time at another nonprofit educational institution.

(10) Prior to entering any consulting agreement involving Intellectual Property Rights with any third party, where any College time, facilities, materials or other resources are involved, College employees and/or students, must present the proposed agreement to the College President or his designee for review and approval.

(11) The College owns all rights to its logo, seal, and other related materials.

(12) Exceptions to the above policies are authorized if approved by the President of the College following a favorable review and recommendation by the Intellectual Property Committee.
CURRICULUM LIST

Accounting (A25100)
Advertising and Graphic Design (A30100)
Digital Graphics Certificate (C30100C1)
Air Conditioning, Heating and Refrigeration Technology (A35100)
Air Conditioning, Heating and Refrigeration (D35100)
Basic Air Conditioning, Heating and Refrigeration (C35100)
Architectural Technology (A40100)
Architectural Engineering Construction CAD (C40100C1)
Associate Degree Nursing (A45100)
Associate in Arts (A10100)
Associate in Arts Diploma (D10100)
Associate in Fine Arts (A10200)
Associate in General Education (A10300)
Associate in Science (A10400)
Associate in Science Diploma (D10400)
Auto Body Repair (D60100)
Basic Autobody Repair (C60100C1)
Automotive Systems Technology (A60160)
Automotive Suspension, Brakes, and Heating/Air Conditioning Certificate (C60160C1)
Automotive Engine Performance Certificate (C60160C2)
Automotive Power Trains Certificate (C60160C3)
Automotive Electrical/Electronics Systems Certificate (C60160C4)
Medium/Heavy Truck Maintenance Certificate (C60160C5)
Basic Law Enforcement Training (C55120)
Biotechnology (A20100)
Building Construction Technology (A35140)
Business Administration (A25120)
Small Business Startup Certificate (C25120C1)
Small Business Management Certificate (C25120C2)
Entrepreneurship I (C25120C5)
Entrepreneurial Innovation Certificate (C25120C6)
Entrepreneurial Applications Certificate (C25120C7)
Contract Management Certificate (C25120C8)
Business Administration - Banking and Finance (A2512A)
Fundamentals of Banking Certificate (C25120AC1)
Bank Lending Certificate (C25120AC2)
Business Administration - Electronic Commerce (A2512I)
E-Entrepreneurship Certificate (C25121C1)
E-Procurement Certificate (C25121C2)
Business Administration - Human Resources Management (A2512C)

**Consortiums**

**A55300** Interpreter Education (ISA with Blue Ridge Community College)
**ACCOUNTING**  
A25100

The Accounting curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting profession. Using the “language of business,” accountants assemble and analyze, process, and communicate essential information about financial operations.

In addition to course work in accounting principles, theories, and practice, students will study business law, finance, management, and economics. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies. With work experience and additional education, an individual may advance in the accounting profession.

Awards

**Associate Degree:** Accounting (A25100)  
**Length of Program:** 5 Semesters  
**Prerequisite:** 2 units of Algebra

**Diploma:** Not Applicable

ADVERTISING AND GRAPHIC DESIGN  A30100

The Advertising and Graphic Design curriculum is designed to provide students with knowledge and skills necessary for employment in the graphic design profession, which emphasizes design, advertising, illustration, and digital and multimedia preparation of printed and electronic promotional materials.

Students will be trained in the development of concept and design for promotional materials such as newspaper and magazine advertisements, posters, folders, letterheads, corporate symbols, brochures, booklets, preparation of art for printing, lettering and typography, photography, and electronic media.

Graduates should qualify for employment opportunities with graphic design studios, advertising agencies, printing companies, department stores, a wide variety of manufacturing industries, newspapers, and businesses with in-house graphics operations.

A/C, HEATING AND REFRIGERATION TECHNOLOGY A35100
The Air Conditioning, Heating, and Refrigeration Technology curriculum provides the basic knowledge to develop skills necessary to work with residential and light commercial systems.

Topics include mechanical refrigeration, heating and cooling theory, electricity, controls and safety. The diploma program covers air conditioning, furnaces, heat pumps, tools and instruments. In addition, the AAS degree covers residential building codes, residential system sizing, and advanced comfort systems.

Diploma graduates should be able to assist in the start up, preventive maintenance, service, repair, and/or installation of residential and light commercial systems. AAS degree graduates should be able to demonstrate an understanding of system selection and balance and advanced systems.

Awards

ARCHITECTURAL TECHNOLOGY A40100

The Architectural Technology curriculum provides individuals with knowledge and skills that can lead to employment in the field of architecture or one of the associated professions.

Students receive instruction in construction document preparation, materials and methods, environmental and structural systems, building codes and specifications, and computer applications as well as complete a design project. Optional courses may be provided to suit specific career needs.

Upon completion, graduates have career opportunities within the architectural, engineering, and construction professions as well as positions in industry and government.

Awards

## ASSOCIATE DEGREE NURSING A45110

The Associate Degree Nursing curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs which impact health, quality of life, and achievement of potential.

Course work includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes the nurse as a member of the interdisciplinary team providing safe, individualized care while employing evidence-based practice, quality improvement, and informatics.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN). Employment opportunities are vast within the global health care system and may include positions within acute, chronic, extended, industrial, and community health care facilities.

**Awards**

**Associate Degree:** Associate Degree Nursing (A45110)  
**Length of Program:** 5 Semesters  
**Prerequisite:** Must meet College Admission Criteria, current, unrestricted, and on North Carolina Registry CNA I (program must require a combination of clinical/classroom/laboratory hours) and /or LPN. 1 Unit of Biology, Algebra & Chemistry

ASSOCIATE IN ARTS  A10100
The College Transfer program is designed for students who intend to transfer to a four-year college or university to pursue a baccalaureate degree. Students in this program are responsible for examining the requirements of the four-year college or university to which they plan to transfer for completion of their degree. Counselors and advisors are available to assist students in planning their program.

The course work in the program includes humanities/fine arts, social/behavioral sciences, mathematics, physical education, English, communications and the sciences. The Associate in Arts program concentrates heavily on the humanities and social sciences and is recommended for those who plan to continue in a Bachelor of Arts degree program. The Associate in Science program leans more toward mathematics and the physical and life sciences and is intended for those pursuing the Bachelor of Science degree.

Upon completion of the program, the student will receive an associate in arts degree.

Awards

### ASSOCIATE IN FINE ARTS  
**Prefix No.** A10200  

The course work in the Associate in Fine Arts program includes literature, humanities, social/behavioral science, mathematics, and natural science. Graduates should have a sound basic knowledge of the fine arts. The Associate in Fine Arts program concentrates heavily on the fine arts and is recommended for those who plan to continue a Bachelor of Fine Arts degree program. The Associate in Fine Arts program is part of the Comprehensive Articulation Agreement, which allows graduates of this program to transfer to one of the constituent institutions of the University of North Carolina system. Graduates completing the Associate in Fine Arts degree will have demonstrated the ability to achieve academic and other learning goals in their study area enhancing employment opportunities.

Upon completion of the program, the student will receive an Associate in Fine Arts degree.

### Awards

ASSOCIATE IN GENERAL EDUCATION (A10300)
The General Education curriculum program consists of basic course work in English, literature, fine arts, philosophy, social science, science, and mathematics leading to an Associate Degree in General Education (ADGE). It is designed principally for students who desire two years of general education beyond the high school level.

Upon completion of the program, the student will receive an associate in general education degree.

Awards

Associate Degree: Associate in General Education (A10300)
Length of Program: 4 Semesters
Prerequisite: High School Diploma, Algebra I, Algebra II

Diploma: Not Applicable
Length of Program: Not Applicable
Prerequisite: Not Applicable

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: None Required

Program Information Contact:
Curriculum Chairperson: Chris Diorietes
Telephone Number: (910) 678-8443
Office Location: Horace Sisk, Room 618G
Email: diorietc@faytechcc.edu
Department Office: Horace Sisk, Room 618
Telephone: (910) 678-8237

ASSOCIATE IN SCIENCE (A10400)
The College Transfer program is designed for students who intend to transfer to a four-year college or university to pursue a baccalaureate degree. Students in this program are responsible for examining the requirements of the four-year college or university to which they plan to transfer for completion of their degree. Counselors and advisors are available to assist students in planning their program.

The course work in the program includes literature, humanities, mathematics, physical education, and the sciences. The Associate in Science program leans more toward mathematics and the physical and life sciences and is intended for those pursuing the Bachelor of Science degree. The Associate in Arts program concentrates heavily on the humanities and social sciences and is recommended for those who plan to continue in a Bachelor of Arts degree program.

Upon completion of the program, the student will receive an associate in science degree.

Awards

Associate Degree: Associate in Science (A10400)
Length of Program: 4 Semesters
Prerequisite: High School Diploma, Algebra I, Algebra II

Diploma: Associate in Science Diploma (D10400)
Length of Program: 3 Semesters

---

**AUTOBODY REPAIR**

**D60100**

The Autobody Repair curriculum provides training in the use of equipment and materials of the autobody repair trade. The student studies the construction of the automobile body and techniques of autobody repairing, rebuilding, and refinishing.

The course work includes autobody fundamentals, industry overview, and safety. Students will perform hands-on repairs in the areas of non-structural and structural repairs, MIG welding, plastics and adhesives, refinishing, and other related areas.

Graduates of the curriculum should qualify for entry-level employment opportunities in the automotive body and refining industry. Graduates may find employment with franchised independent garages, or they may become self-employed.

**Awards**

- Diploma: Autobody Repair (D60100)
- Length of Program: 3 semesters
- Prerequisite: High School Diploma

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Certificate: Basic Autobody Repair (C60100C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: None Required

BASIC AUTOBODY REPAIR CERTIFICATE (C60100C1)
Evening/Weekend Program
Effective: Fall 2006
Revised: 07/18/06

This evening certificate program is designed to prepare individuals for entry-level positions as helpers in the auto body repair industry. Instruction will include hands-on repairs in the areas of non-structural and structural repairs, plastics and adhesives, refinishing.

Completers will be prepared for employment as entry-level helpers in the auto body repair industry.

Courses in this program can be transferred directly into the Autobody Repair diploma curriculum.

AUTOMOTIVE SYSTEMS TECHNOLOGY A60160
The Automotive Systems Technology program prepares individuals for employment as automotive service technicians. It provides an introduction to automotive careers and increases student awareness of the challenge associated with this fast and ever-changing field.

Classroom and lab experiences integrate technical and academic course work. Emphasis is placed on theory, servicing and operation of brakes, electrical/electronic systems, engine performance, steering/suspension, automatic transmission/transaxles, engine repair, climate control, and manual drive trains.

After completion of this curriculum, students should be prepared to take the ASE exam and be ready for full-time employment in dealerships and repair shops in the automotive service industry.

Awards

Associate Degree: Automotive Systems Technology (A60160)
Length of Program: 5 Semesters

BASIC LAW ENFORCEMENT TRAINING  C55120
Basic Law Enforcement Training (BLET) is designed to give students essential skills required for employment as a law enforcement officer with state, county, or municipal governments, or with private enterprise.

This program utilizes State commission-mandated topics and methods of instruction. General subjects include, but are not limited to, criminal, juvenile, civil, traffic, and alcoholic beverage laws, investigative, patrol, custody, and court procedures, emergency responses, ethics and community relations.

Successful graduates receive a curriculum certificate and are qualified to take the certification examinations mandated by the North Carolina Criminal Justice Education and Training Standards Commission.

*CJC-100 will not transfer to Associate Degree program.

BIOTECHNOLOGY A20100
The Biotechnology curriculum, which has emerged from molecular biology and chemical engineering, is designed to meet the increasing demands for skilled laboratory technicians in various fields of biological and chemical technology.

Course work emphasizes biology, chemistry, mathematics, and technical communications. The curriculum objectives are designed to prepare graduates to serve in three distinct capacities: research assistant to a biologist or chemist; laboratory technician/instrumentation technician; and quality control/quality assurance technician.

Graduates may find employment in various areas of industry and government, including research and development, manufacturing, sales, and customer service.

Awards
Associated Degree: Associate in Applied Science Biotechnology

BUILDING CONSTRUCTION TECHNOLOGY A35140

The Building Construction Technology curriculum is designed to provide students with an overview of the building construction industry. Construction labs/lecture courses and other related classes, provide students with up-to-date knowledge on materials, trends, and techniques of the ever-changing construction industry.

Course work includes basic construction concepts such as general construction, blueprint reading, construction estimating, and project management. Students will also diversify their knowledge of construction in other areas like electrical wiring, construction surveying, plumbing, statics/strength of materials, and HVAC.

Graduates should qualify for entry-level jobs in any general construction setting and be able to advance quickly to management positions such as supervisors, superintendents, project coordinators, project planners, estimators, and inspectors.

Awards

Associate Degree: Building Construction Technology (A35140)

Length of Program: 5 Semesters

Prerequisite: High School Diploma

Diploma: Not Applicable

BUSINESS ADMINISTRATION A25120
The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today’s global economy.

Course work includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team building, and decision making.

Through these skills, students will have a sound business education base for lifelong learning. Graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small businesses or industries.

Awards

Associate Degree: Business Administration (A25120)

BUSINESS ADMINISTRATION/
PUBLIC ADMINISTRATION A2512H
Public Administration is a concentration under the curriculum ti-
tle of Business Administration. This curriculum prepares students
for entry into management positions in state/local governments
and not-for-profit organizations, provides education for current
employees, and informs citizens of governmental functions.

Course work includes study and practical application to personnel
administration, decision-making, ethics, organizational theories,
and budgetary, and other governmental issues. Emphasis is placed
on building analytical skills, stimulating moral imagination, and
recognizing the discretionary power of the administrator’s role.

Through acquisition of knowledge and skills, individuals should
be able to perform governmental activities. By developing per-
sonal competencies and qualities, graduates will be eligible for
employment in the public administration profession.

CENTRAL STERILE PROCESSING (C45180)
The Central Sterile Processing curriculum is designed to prepare
individuals for the field of Sterile Processing and Central Service
Supply.

Students will develop skills necessary to properly disinfect, prepare
process, store, and issue both sterile and nonsterile supplies and equipment for patient care. Also, students will learn to operate
sterilizing units and monitor effectiveness of the sterilization process.

Graduates will receive a certificate and may be eligible to apply
to take the National Institute for Certification of Healthcare Ster-
ile Processing and Distribution Personnel Examination (CBSPD).
Employment opportunities include surgery centers, dialysis facili-
ties, and central processing units in hospitals.

Awards

TOTAL REQUIRED CREDITS... 70

*Co-op Option: Qualified students may elect to take up to six (6) credit hours of Cooperative Education in lieu of a Major elective provided they acquire approval from the Co-op Director and the Department Chairperson.

2+2 Transfer: Students desiring to pursue a Bachelors of Engineering Technology should take a Calculus course (MAT 263/263A or MAT 271) at FTCC.

COMMUNITY SPANISH INTERPRETER A55370
The Community Spanish Interpreter curriculum prepares individuals to work as entry-level bilingual professionals who will provide communication access in interview and interactive settings. In addition, this curriculum provides educational training for working professionals who want to acquire Spanish language skills.

Course work includes the acquisition of Spanish: grammar, structure, and sociolinguistic properties, cognitive processes associated with interpretation between Spanish and English; the structure and character of the Hispanic community; and acquisition of communication skills.

Graduates should qualify for entry-level jobs as para-professional bilingual employees in educational systems or a variety of community settings. Individuals may choose from part-time, full-time, or self-employment/free-lance positions, or apply language skills to other human service related areas.

Awards

Associate Degree: Associate in Applied Science Community Spanish Interpreter (A55370)
Length of Program: 5 Semesters
Prerequisite: High School Diploma

Diploma: Not Applicable
Length of Program: Prerequisite:

Certificate: Community Spanish Interpreter/Facilitator Certificate (C55370C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma. Students must demonstrate language proficiency to the satisfaction of the Department Chair either through appropriate course work or the appropriate level CLEP test. Students are expected to have computer and Internet skills.

Certificate: Community Spanish Interpreter/Spanish Language Certificate (C55370C2)
Length of Program: 2 Semesters
Prerequisite: High School Diploma. Students must demonstrate language proficiency to the satisfaction of the Department Chair either through appropriate course work or the appropriate level CLEP test. Students are expected to have computer and Internet skills.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequeing sheet.

COMMUNITY SPANISH INTERPRETER/ FACILITATOR CERTIFICATE (C55370C1)
Effective: Fall 2010
Revised: 10/20/09

The Community Spanish Interpreter/Facilitator Certificate program prepares students to work as paraprofessional Spanish interpreters who will facilitate oral communication between individuals who do not speak one another’s languages in various community settings such as hospitals, community agencies, and others.

Course work includes grammar, structure, and sociolinguistic properties, cognitive processes associated with translation and interpretation between Spanish and English; and acquisition of oral and written communication skills.

Graduates should qualify for entry-level jobs as paraprofessional bilingual employees in human service, medical, or educational systems, among other community settings. Individuals may choose from part-time, full-time, or self-employment/free-lance positions, or apply their interpretation and translation skills to other human service-related areas.
Length: 2 Semesters
Prerequisite: High School Diploma. Students must demonstrate language proficiency to the satisfaction of the Department Chair either through appropriate course work or the appropriate level CLEP test. Students are expected to have computer and Internet skills. Students are expected to have computer and Internet skills.
Award: Certificate

**COMMUNITY SPANISH INTERPRETER/SPANISH LANGUAGE CERTIFICATE (C55370C2)**

Effective: Fall 2010
Revised: 10/20/09

The Community Spanish Interpreter/ Spanish Language Certificate program prepares students to work as bilingual paraprofessionals in human service, medical, or educational systems, among other community settings.

Course work includes grammar, structure, and sociolinguistic properties, cognitive processes associated with language acquisition; as well as the development of oral and written communication skills.

Graduates should qualify for entry-level jobs as paraprofessional bilingual employees in human service, medical, or educational systems, among other community settings.

**TOTAL REQUIRED CREDITS... 17**

Co-op Option: NA

**COMPUTER INFORMATION TECHNOLOGY A25260**

The Computer Information Technology curriculum is designed to prepare graduates for employment with organizations that use computers to process, manage, and communicate information. This is a flexible curriculum that can be customized to meet community information systems needs.

Course work will develop a student’s ability to communicate complex technical issues related to computer hardware, software, and networks in a manner that computer users can understand. Classes cover computer operations and terminology, operating systems, database, networking, security, and technical support.

Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to manage information. Graduates should be prepared to sit for industry-recognized certification exams.

**Awards**

COMPUTER INFORMATION TECHNOLOGY/COMPUTER TECHNOLOGIES CERTIFICATE (C25260C1)
Effective: Fall 2010
Revised: 12/21/09

The Computer Technologies Certificate will expose the student to a general overview of the computer area. Students will study computers, networks, operating systems and programming. Graduates from this are prepared to work as a Computer Techni-
cian, or to apply these classes to any other degree in the computer division.

**Length:** 2 Semesters  
**Prerequisite:** High School Diploma  
**Award:** Certificate

**COMPUTER INFORMATION TECHNOLOGY/LINUX CERTIFICATE (C25260C2)**  
**Effective:** Fall 2010  
**Revised:** 12/21/09

The Linux Certificate will expose the student to the fundamentals of Linux operating system and will give them the tools to deploy, operate, and troubleshoot a Linux-based network. This program will also cover the core exam objectives of the Linux + Certification exam. Students are prepared to work in the field as operators and network technicians supporting Linux products.

Courses in this program can be transferred directly into the Computer Technologies Applied Science degrees.

**Length:** 3 Semesters  
**Prerequisite:** High School Diploma  
**Award:** Certificate

COMPUTER PROGRAMMING A25130

The Computer Programming curriculum prepares individuals for employment as computer programmers and related positions through study and applications in computer concepts, logic, programming procedures, languages, generators, operating systems, networking, data management, and business operations.

Students will solve business computer problems through programming techniques and procedures, using appropriate languages and software. The primary emphasis of the curriculum is hands-on training in programming and related computer areas that provide the ability to adapt as systems evolve.

Graduates should qualify for employment in business, industry, and government organizations as programmers, programmer trainees, programmer/analysts, software developers, computer operators, systems technicians, database specialist, computer specialist, software specialist, or information systems managers.

Awards

Associate Degree: Computer Programming (A25130)
Length of Program: 5 Semesters
Prerequisite: 2 Units of Algebra

Diploma: Not Applicable
Length of Program:
Prerequisite:

Certificate: Visual Basic Programming (C25130C4)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, 1 Unit of Algebra

Certificate: JAVA Programming (C25130C5)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, 1 Unit of Algebra

Certificate: Database Programming (C25130C6)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, 1 Unit of Algebra

Certificate: C# Programming (C25130C7)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, 1 Unit of Algebra

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: None Required

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Program Information Contact:
Curriculum Chairperson: Jenneth Honeycutt
Telephone Number: (910) 678-7354
Office Location: Advanced Technology Center, Room 113H
Email: honeycu@faytechcc.edu
Department Office: Advanced Technology Center, Room 113
Telephone: (910) 678-8347
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

Scholarship/Financial Aid Information: Scholarships are available. Financial Aid Office, Student Center, Room 126, Telephone: (910) 678-8242

Child Care Financial Assistance Information: Child Care Associate, Student Center, Room 142, Telephone: (910) 678-8486

ATTENTION: If you have missed two (2) consecutive semesters, you must see a counselor to be readmitted into your program.

Revised: 12/21/09

COMPUTER PROGRAMMING/COBOL PROGRAMMING (Certificate) (C25130C1)
Effective: Fall 2009
Revised: 02/17/09

The COBOL programming certificate is designed to prepare individuals for employment as programmers in COBOL through study and applications in computer concepts, logic, and programming procedures using the COBOL programming language.

Students will solve business computer problems through programming techniques and procedures using the COBOL language.

Upon completion of this program, a student will have the necessary COBOL skills for an entry level COBOL programming position in business, industry, and government organizations.

Length: 3 Semesters
Prerequisite: High School Diploma and 1 Unit of Algebra
Award: Certificate

COMPUTER PROGRAMMING/
DATABASE PROGRAMMING (Certificate) (C25130C6)
Effective: Fall 2010
Revised: 12/21/09

The Database Programming certificate is designed to prepare individuals for employment in designing databases, determining information requirements of users; using technology systems and
processes to devise means through which to gather and sort needed information; and implementing effective solutions for reporting necessary information using industry-standard database tools. Certificate holders may qualify for entry level/hands-on positions in this or a related area.

Students will solve business computer problems through database programming techniques and procedures.

Upon completion of this program, a student will have the necessary database skills for an entry-level database programming position in business, industry, and government organizations.

### COSMETOLOGY  A55140

The Cosmetology curriculum is designed to provide competency-based knowledge, scientific/artistic principles, and hands-on fundamentals associated with the cosmetology industry. The curriculum provides a simulated salon environment which enables students to develop manipulative skills.

Course work includes instruction in all phases of professional imaging, hair design, chemical processes, skin care, nail care, multicultural practices, business/computer principles, product knowledge, and other selected topics.

Graduates should qualify to sit for the State Board of Cosmetic Arts examination. Upon successfully passing the State Board exam, graduates will be issued a license. Employment is available in beauty salons and related businesses.

Awards

Associate Degree: Cosmetology (A55140)  
Length of Program: 5 Semesters  
Prerequisite: High School Diploma

Diploma: Cosmetology (D55140)  
Length of Program: 4 Semesters (day program)  6 Semesters (night program)  
Prerequisite: High School Diploma

Certificate: Not Applicable  
Length of Program:  
Prerequisite:
Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: Graduates are eligible to take the North Carolina State Board of Cosmetic Arts exam.

Program Description

CRIMINAL JUSTICE TECHNOLOGY  A55180

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial process, corrections, and security services. The criminal justice system’s role within society will be explored.

Emphasis is on criminal justice systems, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics, and community relations. Additional study may include issues and concepts of government, counseling, communications, computers, and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, correctional officer, and loss prevention specialist.

CRIMINAL JUSTICE TECHNOLOGY
LATENT EVIDENCE CERTIFICATE (C5518AC1)
Effective: Fall 2010
Revised: 12/02/09

The Latent Evidence Certificate Program provides an in-depth study of current crime scene processing techniques and procedures.

Topics include fingerprint classification, identification, and chemical development.

This program prepares the student in the basic skills required for entry-level employment as a crime scene investigator.

Length: 2 Semesters
Prerequisite: High School Diploma

CULINARY TECHNOLOGY A55200

The Culinary Technology curriculum provides specific training required to prepare students to assume positions as trained culinary professionals in a variety of food service settings including full service restaurants, hotels, resorts, clubs, catering operations, contract food service, and health care facilities.

Course offerings emphasize practical application, a strong theoretical knowledge base, and professionalism and provide the critical competencies to successfully meet industry demands. Courses also include sanitation, food/beverage service and control, baking, grade manger, American/international cuisines, food production, and hospitality supervision.

Graduates should qualify for entry-level positions such as line cook, station chef, and assistant pastry chef. American Culinary Federation certification is available to graduates. With experience, graduates may advance to positions such as sous-chef, executive chef, or food service manager.

CULINARY TECHNOLOGY/ PANTRY CHEF CERTIFICATE (GARDE MANGER) (C55200C1)
Effective: Fall 2007
Revised: 04/19/07

The Pantry Chef Certificate (Garde Manger) is designed to prepare students who would like to be employed in the banquet, catering, cold foods and display professions or for those with some culinary experience who want to further their knowledge in this specialized area.

Students will learn to prepare salads, dressings, cold sauces, garnishes, pâtés, terrines, ice carvings, canapes, hor d’oeuvres and other related topics.

The program will enhance the student’s cold food preparation, presentation and display skills.

*Dental Assisting (D45240)

The Dental Assisting curriculum prepares individuals to assist the dentist in the delivery of dental treatment and to function as integral members of the dental team while performing chair side and related office and laboratory procedures.

Course work includes instruction in general studies, biomedical sciences, dental sciences, clinical sciences, and clinical practice. A combination of lecture, laboratory, and clinical experiences provides students with knowledge in infection/hazard control, radiography, dental materials, preventive dentistry, and clinical procedures.

Graduates may be eligible to take the Dental Assisting National Board Examination to become Certified Dental Assistants. As a Dental Assistant II, defined by the Dental Law of North Carolina, graduates work in dental offices and other related areas.

Awards

Associate Degree: Not Applicable
Length of Program:
Prerequisite:
Diploma: Dental Assisting (D45240)
Length of Program: 3 Semesters
Prerequisite: 1 unit Biology

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Certificate: Not Applicable
Length of Program:
Prerequisite:

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: Graduates are eligible to take the Dental Assisting National Board examination.

EARLY CHILDHOOD ASSOCIATE A55220

The Early Childhood Associate curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs to children; care and guidance of children; and communications skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

Awards

Associate Degree: Associate in Applied Science Early Childhood Associate (A55220)
Length of Program: 5 Semesters

### EARLY CHILDHOOD ASSOCIATE/CERTIFICATE IN CHILD CARE ADMINISTRATION (C55220C1)

Effective: Fall 2010  
Revised: 02/03/10

**Length:** 2 Semesters  
**Prerequisite:** High School Diploma  
**Award:** Certificate

This certificate will provide courses needed by the child care professional to obtain the North Carolina Early Childhood Administration Certificate (NCECA). The courses offered in this program prepare the childcare professional to be successful as an administrator in a childcare setting. Students will learn skills such as program development, rules and regulations for the state of North Carolina, staff and organizational management, public relations and community outreach, financial management, and leadership. This certificate also provides an opportunity for the individual to obtain the North Carolina Early Childhood Credential Certificate.

**Length:** 2 Semesters  
**Prerequisite:** High School Diploma  
**Award:** Certificate

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
### EARLY CHILDHOOD ASSOCIATE/CERTIFICATE IN CHILD CARE DEVELOPMENT (C55220C2)

**Effective:** Fall 2010  
**Revised:** 03/18/10

This certificate will provide a background in developmentally appropriate practices for children ages birth through eight years. Emphasis will be placed on age and individual appropriate program planning. Courses in this certificate will also focus on positive guidance techniques and effective communication with parents, children, and the community. This certificate also provides an opportunity for the individual to obtain the North Carolina Early Childhood Credential Certificate.

**Length:** 2 Semesters  
**Prerequisite:** High School Diploma  
**Award:** Certificate

### EARLY CHILDHOOD ASSOCIATE/CERTIFICATE IN CHILD CARE PROFESSIONAL (C55220C3)

**Effective:** Fall 2010  
**Revised:** 03/18/10

This certificate will provide individuals interested in working in childcare programs or with children ranging in age from birth to eight years with a strong foundation of knowledge. Emphasis will be placed on: program development for children birth to eight years; positive guidance techniques; health, safety and nutrition; and effective communication with parents, children, and the community. This certificate also provides an opportunity for the individual to obtain the North Carolina Early Childhood Credential Certificate.

**Length:** 2 Semesters  
**Prerequisite:** High School Diploma  
**Award:** Certificate

ELECTRICAL/ELECTRONICS TECHNOLOGY A35220

The Electrical/Electronics Technology curriculum is designed to provide training for persons interested in the installation and maintenance of electrical/electronic systems found in residential, commercial, and industrial facilities.

Training, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, digital electronics, programmable logic controllers, industrial motor controls, and the National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical/electronic field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical/electronic systems.

Awards

Associate Degree: Electrical/Electronics Technology (A35220)
Length of Program: 4 Semesters
Prerequisite: High School Diploma & 1 Unit of Algebra

Diploma: Electrical/Electronics Technology (D35220)
Length of Program: 3 Semesters
Prerequisite: High School Diploma

Certificate: Basic Electricity, Motors and Controls, and PLC (C35220C1)
Length of Program: 2 Semesters
Prerequisite: None

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: None Required

Program Information Contact:
Curriculum Chairperson: John Philligin
Telephone Number: (910) 678-8326
Office Location: Cumberland Hall Room 334
Email: philligi@faytechcc.edu
Department Office: Cumberland Hall Room 334
Telephone: (910) 678-8357
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall or spring semesters. A Student may enter at other times with approval of the Department Chairperson.

Scholarship/Financial Aid Information: Scholarships are available. Financial Aid Office, Student Center, Room 126; Telephone: (910) 678-8242

Child Care Financial Assistance Information: See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

ATTENTION: If you have missed two (2) consecutive semesters, you must see a counselor to be readmitted into your program.

Revised: 12/02/09

ELECTRICAL/ELECTRONICS TECHNOLOGY (A35220)

Effective: Fall 2010
Revised: 12/02/09

Length: 4 Semesters
Prerequisite: High School Diploma & 1 Unit of Algebra
Award: Associate in Applied Science

Program Descriptions

ELECTRONICS ENGINEERING TECHNOLOGY

The Electronics Engineering Technology curriculum prepares individuals to become technicians who design, build, install, test, troubleshoot, repair, and modify developmental and production electronic components, equipment, and systems such as industrial/computer controls, manufacturing systems, communication systems, and power electronic systems.

A broad-based core of courses, including basic electricity, solid-state fundamentals, digital concepts, and microprocessors, ensures the student will develop the skills necessary to perform entry-level tasks. Emphasis is placed on developing the student’s ability to analyze and troubleshoot electronic systems.

Graduates should qualify for employment as engineering assistants or electronic technicians with job titles such as electronics engineering technician, field service technician, maintenance technician, electronic tester, electronic systems integrator, bench technician, and production control technician.

Awards

Associate Degree: Electronics Engineering Technology (A40200)

Length of Program: 5 Semesters

Prerequisite: 2 Units of Algebra

EMERGENCY MEDICAL SCIENCE  A45340
The Emergency Medical Science curriculum is designed to prepare graduates to enter the workforce as paramedics. Additionally, the program can provide an Associate Degree for individuals desiring an opportunity for career enhancement.

The course of study provides the student an opportunity to acquire basic and advanced life support knowledge and skills by utilizing classroom instruction, practical laboratory sessions, hospital clinical experience, and field internships with emergency medical service agencies.

Student progressing through the program may be eligible to apply for both state and national certification exams. Employment opportunities include ambulance services, fire and rescue agencies, air medical services, specialty areas of hospitals, industry, educational institutions, and governmental agencies.

Awards

Associate Degree: Emergency Medical Science  (A45340)
Length of Program: 5 Semesters
Prerequisite: High School Diploma or GED, 1 Unit of Algebra, 1 Unit of Biology

Diploma: Emergency Medical Science  (D45340)
Length of Program: 3 Semesters
Prerequisite: High School Diploma or GED, 1 Unit of Biology

Certificate: Emergency Medical Science  (C45340)
Length of Program: 1 Semester
Prerequisite: High School Diploma or GED

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
**Program Descriptions**

**EMS Bridge:** Emergency Medical Science (A45340B)

**Length of Program:** 2 Semesters

**Prerequisite:** 1 Unit of Algebra & Biology; Current North Carolina or National Registry EMT-Paramedic; Current Healthcare Provider Level CPR; Current Advanced Cardiac Life Support Provider; Current Pediatric Advanced Life Support; Current Basic Trauma Life Support or Pre-Hospital Trauma Life Support; Two Thousand (2000) documented hours of Paramedic Level Work Experience; Two Letters of Recommendation: One from the Medical Director; One from the Training Officer or Supervisor.

**Program Information Contact:**
Curriculum Chairperson: Rick Criste
Telephone Number: (910) 678-8515
Office Location: Health Technology Center, Room 169M
Email: crister@faytechcc.edu
Department Office: Health Technology Center, Room 169 Telephone: (910) 678-8264
FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th. Specific health program admission requirements must be met before a student is eligible for admission.

**Scholarship/Financial Aid Information:** Scholarships are available. Financial Aid Office, Student Center, Room 126; Telephone: (910) 678-8242

**Child Care Financial Assistance Information:** See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

**ATTENTION:** If you have missed two (2) consecutive semesters, you must see a counselor to be readmitted into your program.

**EMERGENCY MEDICAL SCIENCE (A45340)**
Effective: Fall 2010
Revised: 12/15/09

**Length:** 5 Semesters

**Prerequisites:** 1 Unit Biology & Algebra

**Award:** Associate in Applied Science

EMERGENCY MEDICAL SCIENCE (A45340B)
Effective: Fall 2010
Revised: 12/15/09

Length: 3 Semesters

Prerequisites: 1 Unit of Algebra & Biology, National Registry Certification, Current North Carolina or National Registry EMT-Paramedic, Current Healthcare Provider Level CPR Card, Current Advanced Cardiac Life Support, Current Pediatric Advanced Life Support, Current Basic Trauma Life Support or Pre-Hospital Trauma Life Support, Two Thousand (2000) documented hours of Paramedic Level Work Experience, Two Letters of Recommendation: One from the Medical Director, One from the Training Officer or Supervisor.

Award: Associate in Applied Science

Passing the National Registry Certification will give you credit for the following courses:

- EMS-110 EMT Basic 7
- EMS-210 Adv Patient Assess 2
- EMS-241 Clinical Practicum IV 3
- EMS-120 Intermediate Interventions 3
- EMS-220 Cardiology 4
- EMS-250 Adv Medical Emerg 3
- EMS-121 EMS Clinical Practicum I 2
- EMS-221 Clinical Practicum II 3
- EMS-260 Adv Trauma Emerg 2
- EMS-130 Pharmacology I for EMS 2
- EMS-231 Clinical Practicum III 3
- EMS-270 Life Span Emerg 3
- EMS-131 Adv Airway Management 2
- EMS-240 Special Needs Pts 2
- EMS-150 Emerg Veh & EMS Comm 2

Total Transfer Hours: 43

In addition the following courses are required:

EMERGENCY MEDICAL SCIENCE (Diploma) (D45340)
Effective: Fall 2010
Revised: 12/15/09

The Emergency Medical Science diploma program is designed to prepare students with the entry-level skills as a Paramedic.

The course of study allows students the flexibility and opportunity to acquire basic and advanced life support knowledge and skills through classroom instruction, practical laboratory sessions, hospital clinical experience and field internships with emergency medical service agencies.

Students progressing through the program may be eligible to apply for both state and national certification exams. Employment opportunities include ambulance services, fire and rescue agencies, air medical services, specialty areas of hospitals, industry, educational institutions, and government agencies.

Length: 3 Semesters

Prerequisites: 1 Unit Biology

Award: Diploma

TOTAL REQUIRED CREDITS... 69

Students with a felony conviction may have limited Emergency Preparedness employment opportunities.

Co-op Option: Qualified students may elect to take up to three (3) credit hours of Cooperative Education provided they acquire approval from the Co-op director and the Department Chairperson.

ESTHETICS TECHNOLOGY C55230

The Esthetics Technology curriculum provides competency-based knowledge, scientific/artistic principles and hands-on fundamentals associated with the art of skin care. The curriculum provides a simulated salon environment, which enables students to develop manipulative skills.

Course work includes instruction in all phases of professional Esthetics Technology, business/human relations, product knowledge and other selected topics.

Graduates should be prepared to take the North Carolina Cosmetology State Board Licensing Exam and upon passing be licensed and qualify for employment in beauty and cosmetic/skin care salons, as a platform artist, and in related businesses.

FIRE PROTECTION TECHNOLOGY A55240
The Fire Protection Technology curriculum is designed to provide individuals with technical and professional knowledge to make decisions regarding fire protection for both public and private sectors. It also provides a sound foundation for continuous higher learning in fire protection, administration, and management.

Course work includes classroom and laboratory exercises to introduce the student to various aspects of fire protection. Students will learn technical and administrative skills such as hydraulics, hazardous materials, arson investigation, fire protection safety, fire suppression management, law, and codes.

Graduates should qualify for employment or advancement in governmental agencies, industrial firms, insurance rating organizations, educational organizations, and municipal fire departments. Employed persons should have opportunities for skilled and supervisory-level positions within their current organizations.

**TOTAL REQUIRED CREDITS... 76**

*Co-op Option:* Qualified students may elect to take up to three (3) credit hours of Cooperative Education in lieu of a Major elective provided they acquire approval from Co-op Director and the Department Chairperson.

Students with felony convictions may have limited employment opportunities in fire services careers.

---

**FUNERAL SERVICE EDUCATION A55260**

The Funeral Service Education curriculum provides students with the opportunity to become proficient in basic funeral service skills.

In addition to the general education courses offered in the curriculum, technical courses such as human anatomy, embalming theory and practice, embalming chemistry, restorative arts, funeral law, and funeral home operations are taught.

Graduates of the curriculum, upon passing the state or national exam and completing an internship in a funeral home, will be qualified for employment as embalmers and/or funeral directors.

The specific aims and purposes of the Department of Funeral Service Education are:
1. To give students the knowledge, principles, techniques and skills which are the basis of the funeral service profession.
2. To provide for education and professional advancement of student whether they choose to follow the funeral service profession or whether they decide to use their specialized education in other general or technical fields.
3. To educate and prepare individuals to contribute to the service and welfare of the community.
4. To become a major provider of continuing education programs meeting mandatory re-licensure requirements for the licensed funeral service personnel in the state, and to encourage research in the field of funeral service.

**Awards**

**Associate Degree:** Associate in Applied Science Funeral Service Education (A55260)

**Length of Program:** 6 Semesters

**Prerequisite:** High School Diploma, 1 unit of Biology & CHM-081

**Diploma:** N. C. Funeral Director (D55260)

**Length of Program:** 3 Semesters

**Prerequisite:** High School Diploma

**Certificate:** Not Applicable

**Length of Program:** Prerequisite:

**Cooperative Education Requirements/Opportunities:** For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

**Note:** Cooperative Education not available in diploma program.

**License or Certification Information for Associate Degree:** Students who complete the AAS degree program are required to take the National Board Exam for Funeral Service as a condition for graduation.

**Programmatic Accreditation:**

Accredited By: American Board of Funeral Service Education
3414 Ashland Avenue, Suite G
St. Joseph, MO 64506
Telephone (816) 223-3747

**License or Certification Information for N.C. Funeral Director Diploma:** Graduates are eligible to take the North Carolina State Board Exam for Funeral Directing. This academic program is designed to meet specific state or professional needs. It is not accredited by the American Board of Funeral Service Education. Students graduating from this program are not eligible to take the National Board Examination or any State board examination for which graduation from an ABFSE program is required.

Co-op Option: NA

This academic program is designed to meet specific state or professional needs. It is not accredited by the American Board of Funeral Service Education owing to the fact that it does not include instruction in the following areas: Anatomy, Chemistry, Embalming, Microbiology, and Restorative Arts. Students graduating from this program are not eligible to take the National Board Examination or any state board examination for which graduation from an ABFSE accredited program is required.

GENERAL OCCUPATIONAL TECHNOLOGY (A55280)

The General Occupational Technology curriculum provides individuals with an opportunity to upgrade their skills and to earn an associate degree by taking courses suited for their occupational interests and/or needs.

The curriculum content will be individualized for students according to their occupational interests and needs. A program of study for each student will be selected from the associate degree-level courses offered by the College.

Graduates will become more effective workers, better qualified for advancements within their field of employment, and become qualified for a wide range of entry-level employment opportunities.

HEALTHCARE MANAGEMENT TECHNOLOGY A25200
The Healthcare Management Technology curriculum is designed to prepare students for employment in healthcare business and financial operations. Students will gain a comprehensive understanding of the application of management principles in the healthcare environment.

The curriculum places emphasis on planning, organizing, directing, and controlling tasks related to healthcare organizational objectives including the legal and ethical environment. Emphasis is placed on the development of effective communication, managerial, and supervisory skills.

Graduates may find employment in healthcare settings including hospitals, medical offices, clinics, long-term care facilities, and insurance companies. Graduates are eligible to sit for the Certified Patient Account Manager (CPAM) and the Certified Manager of Patient Accounts (CMPA) examinations.

HORTICULTURE TECHNOLOGY/MANAGEMENT/  
BASIC LANDSCAPE MAINTENANCE (C1524A)  
Effective: Fall 2004  
Revised: 05/04/04

This certificate program is designed to prepare individuals for entry-level positions in the installation and maintenance of landscapes. Instruction in plant identification, plant installation, care and pruning, and pest identification and control is emphasized in the course work.

Completers will be prepared for employment as entry-level maintenance staff.

Courses in this program can be transferred directly into the Horticulture Technology/Management associate degree curriculum.

HORTICULTURE TECHNOLOGY/MANAGEMENT/  
HORTICULTURE SCIENCE CERTIFICATE (C1524AC2)  
Effective: Fall 2006  
Revised: 11/22/05

The Horticulture Science certificate program is designed to prepare individuals for entry-level positions in the installation, garden centers and nursery operations. Instruction in plant science, soil science and nursery operations. Instruction in plant science, soil science, greenhouse operations, plant identification and maintenance are emphasized in the course work. Upon completion individuals will be prepared to take the North Carolina Certified Plant Professional exam. Employment opportunities in entry lev-
el positions in garden centers, nurseries and landscape installation businesses would be possible. Courses in this certificate program can be transferred directly into the Horticulture Technology Associate degree program.

### INFANT/TODDLER CARE (C55290)

The curriculum prepares individuals to work with children from infancy to three years of age in diverse learning environments. Students will combine learned theories, competency-based knowledge, and practice in actual settings with infants and toddlers.

Course work includes infant/toddler growth and development: physical/nutritional needs of infants and toddlers; safety issues in the care of infants and toddlers; care and guidance; communication skills with families and children; design an implementation of appropriate curriculum; and other related topics.

Graduates should be prepared to plan and implement developmentally appropriate infant/toddler programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Early Head Start Programs, and other infant/toddler programs.

**Awards**

**Associate Degree:** Not Applicable

**Diploma:** Not Applicable

MACHINING TECHNOLOGY  A50300
The Machining Technology curriculum is designed to develop skills in the theory and safe use of hand tools, power machinery, computerized equipment, and sophisticated precision inspection instruments.

Students will learn to interpret blueprints, set up manual and CNC machines, perform basic and advanced machining operation, and make decisions to insure that work quality is maintained.

Employment opportunities for machining technicians exist in manufacturing industries, public institutions, governmental agencies, and in a wide range of specialty machining job shops.

Awards

Associate Degree: Machining Technology (A50300)
Length of Program: 5 Semesters
Prerequisite: High School Diploma

Diploma: Not Applicable
Length of Program:
Prerequisite:

Certificate: Basic Machining Technology Certificate (C50300C1)

License or Certification Information: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

### MACHINING TECHNOLOGY/BASIC MACHINING TECHNOLOGY CERTIFICATE (C50300C1)

**Evening/Weekend Program**

**Effective:** Spring 2009  
**Revised:** 12/18/08

This evening certificate program is designed to develop fundamental skills in the operation of machine tools including drilling, turning, milling, and grinding. Training in basic measuring, layout, and blueprint reading is also provided.

Completers will be prepared for employment as entry-level machine operators or machinist apprentices in area manufacturing firms.

Courses in this program can be transferred directly into the Machining Technology associate degree curriculum.

**Length:** 2 Semesters  
**Prerequisite:** High School Diploma  
**Award:** Certificate

---

### MANICURING/NAIL TECHNOLOGY (C55400)

The Manicuring/Nail Technology curriculum provides competency-based knowledge, scientific/artistic principles, and hands-on fundamentals associated with the nail technology industry. The curriculum provides a simulated salon environment which enables students to develop manipulative skills.

Course work includes instruction in all phases of professional nail technology, business/computer principles, product knowledge, and other related topics.

Graduates should be prepared to take the North Carolina Cosmetology State Board Licensing Exam and upon passing be licensed and qualify for employment in beauty and nail salons, as a platform artist, and in related businesses.

**Awards**

**Associate Degree:** Not Applicable  
**Length of Program:**

MEDICAL OFFICE  
ADMINISTRATION  
A25310

This curriculum prepares individuals for employment in medical and other health-care related offices.

Course work will include medical terminology, information systems, office management, medical coding, billing and insurance, legal and ethical issues, and formatting and word processing. Students will learn administrative and support functions and develop skills applicable in medical environments.

Employment opportunities are available in medical and dental offices, hospitals, insurance companies, laboratories, medical supply companies, and other health-care related organizations.

**Awards**

Prerequisite: High School Diploma

Certificate: Dental Office Specialist Certificate (C25310C3)  
Length of Program: 3 Semesters  
Prerequisite: High School Diploma

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: None Required

**Program Information Contact:**  
Curriculum Chairperson: Denise DeDeaux  
Telephone Number: (910) 678-8343  
Office Location: Advanced Technology Center, Room 154A  
Email: dedeauxd@faytechcc.edu  
Department Office: Advanced Technology Center, Room 154  
Telephone: (910) 678-8347  
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

Scholarship/Financial Aid Information: Scholarships are available. Financial Aid Office, Student Center, Room 126; Telephone: (910) 678-8242

Child Care Financial Assistance Information: See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

**ATTENTION:** If you have missed two (2) consecutive semesters,
you must see a counselor to be readmitted into your program.

**MEDICAL OFFICE ADMINISTRATION (A25310)**

Effective Date: Fall 2009  
Revised: 02/20/09

**Length:** 5 Semesters  
**Prerequisite:** High School Diploma and 1 unit of Algebra  
**Award:** Associate in Applied Science

**TOTAL REQUIRED CREDITS... 68**

**Co-op Option:** One (1) credit hour is required. Qualified students may elect to take one (1) additional credit hour of Cooperative Education in lieu of a Major elective provided they acquire approval from the Co-op Director and the Department Chairperson.

**MEDICAL OFFICE ADMINISTRATION (C25310C1)**

Effective Date: Fall 2009  
Revised: 02/20/09  
Day and Evening

The Medical Office Administration certificate is designed to prepare individuals for employment in a medical office or other health-care related business.

The certificate program covers medical terminology; legal and ethical issues; medical coding, billing, and insurance; as well as, basic keyboarding and word processing.

Upon completion of this program, students would be able to perform the necessary skills required in today’s medical office or transfer the course credits to the Medical Office Administration program for an Associate of Applied Science degree.

**Length:** 2 Semesters  
**Prerequisite:** High School Diploma  
**Award:** Certificate

**TOTAL REQUIRED CREDITS... 18**

**Co-op Option:** NA

**MEDICAL OFFICE ADMINISTRATION/MEDICAL CODING SPECIALIST (C25310C2)**

Effective Date: Fall 2009  
Revised: 02/20/09  
Day and Evening

The Medical Coding Specialist certificate is designed to prepare individuals for employment in a medical office or other health-care related business.
The certificate program covers medical terminology; medical coding, billing and insurance; procedure and diagnostic coding and CPC coding certification. Students will learn accurate coding processes and develop skills applicable in the medical coding and billing field.

Upon completion of this program, students would be able to perform the necessary coding skills required in today’s medical office or transfer the course credits to the Medical Office Administration program for an Associate of Applied Science degree.

Length: 3 Semesters
Prerequisite: High School Diploma
Award: Certificate

MEDICAL OFFICE ADMINISTRATION/DENTAL OFFICE SPECIALIST CERTIFICATE (C25310C3)

Effective Date: Fall 2009
Revised: 02/20/09
Day and Evening

The Dental Office Specialist certificate is designed to prepare individuals for employment in a dental office or other dental-care related business.

The certificate program covers dental terminology; dental billing and coding; legal and ethical issues; and dental office management and simulation. Students will learn administrative and support functions and develop skills applicable in dental environments.

Upon completion of this program, students would be able to perform the necessary skills required in today’s dental office or transfer the course credits to the Medical Office Administration program for an Associate of Applied Science degree.

Length: 2 Semesters
Prerequisite: High School Diploma

NETWORKING TECHNOLOGY A25340

The Networking Technology curriculum prepares students to install and support networks and develops strong analytical skills and extensive computer knowledge.

Course work includes extensive hands-on experience with networks. Classes cover media types, topologies, and protocols with installation and support of hardware and software, troubleshooting network and computer problems, and administrative responsibilities.

Graduates should qualify for positions such as: LAN/PC administrator, microcomputer support specialist, networks control operator, communications technician/analyst, network/computer consultant, and information systems specialist. Graduates should be prepared to sit for certification exams, which can result in industry-recognized credentials.

Awards

Associate Degree: Networking Technology (A25340)
Length of Program: 5 Semesters
Prerequisite: 2 Units of Algebra

Diploma: Not Applicable
Length of Program: Not Applicable
Prerequisite: None

Certificate: Cisco Networking (C25340C3)
Length of Program: 2 Semesters
Prerequisite: High School Diploma

NETWORKING TECHNOLOGY/ CISCO NETWORKING CERTIFICATE (C25340C3)
Effective: Fall 2010
Revised: 01/22/10

The Cisco Networking Certificate will expose the student to fundamentals of networking and will give them the tools to deploy, operate, and troubleshoot Cisco products and solutions. This program will also cover the core exam objectives of the Cisco Certified Network Administrator (CCNA) exam. Students are prepared to work in the field as network technicians supporting Cisco products.

Courses in this program can be transferred directly into Networking Technology for an Associate in Applied Science degree.

Length: 2 Semesters
Prerequisite: High School Diploma
Award: Certificate

NUCLEAR MEDICINE TECHNOLOGY  A45460

The Nuclear Medicine Technology curriculum provides the clinical and didactic experience necessary to prepare students to qualify as entry-level Nuclear Medicine Technologists.

Students will acquire the knowledge and skills necessary to properly perform clinical procedures. These skills include patient care, use of radioactive materials, operation of imaging and counting instrumentation and laboratory procedures.

Graduates may be eligible to apply for certification/registration examinations given by the Nuclear Medicine Technology Certification Board and the American Registry of Radiologic Technologists.

Awards

Associate Degree: Nuclear Medicine Technology (A45460)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, 1 Unit of Algebra, 1 Unit of Biology, 1 Unit of Chemistry

Diploma: Nuclear Medicine Technology (D45460)
Length of Program: 4 Semesters
Prerequisite: Applicants must: (1) be currently enrolled as a second level Radiography student in the FTCC Radiography program. Radiography students must graduate spring semester and obtain AART certification by the end of the fall semester of the Nuclear Medicine Program or (2) have graduated from an accredited Radiography program with a minimum of a 2.5 GPA and be currently AART certified. Or (3) Currently certified Allied Health professionals* with an Associate or Bachelor Degree are not required to complete an Associate Degree in Nuclear Medicine Technology. Allied Health professionals* must be currently certified by their certifying agency prior to registration in the Nuclear Medicine Technology Program. Associate or Bachelor Degree patient care-related Allied Health professions accepted include: Nursing, Radiography, Respiratory Therapy, Physical Therapy, Medical or Cardiac Vascular Sonography Medical Assisting and Emergency Medicine (Paramedic). The following courses will be used to determine eligibility in the competitive process and must be completed in order to enter into the Nuclear Medicine Program: BIO 168 and 169, PSY-150, and a Humanities or Fine Arts elective.

Certificate: Not Applicable
Length of Program:
Prerequisite:

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: Graduates are eligible to take the Nuclear Medicine Technology Certification Exam.

Program Information Contact:
Curriculum Chairperson: Tony Harris
Telephone Number: (919) 209-2185, (910) 678-8264

Students with a felony conviction may have limited certification and employment opportunities.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
NURSING ASSISTANT C45480

The Nursing Assistant curriculum prepares individuals to work under the supervision of licensed health care professionals in performing nursing care and services for persons of all ages.

Course work emphasizes personal care, vital signs, communication, nutrition, medical asepsis, safety, catheterization, tracheostomy care, dressing changes, oxygen therapy, and legal scope of practice of the Nursing Assistants.

Graduates of this curriculum may be eligible to be listed on the registry as a Nursing Assistant I and Nursing Assistant II. They may be employed in home health agencies, hospitals, clinics, nursing homes, extended care facilities, and doctors’ offices.

Awards

Certificate: Nursing Assistant (C45480)
Length of Program: 1 Semester
Prerequisite: CPR Certification, TB Screening, and Vaccinations required a week prior to first day of class

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: Students completing NAS 101 successfully are eligible for certification through the N.C. Division of Facility Services as a Nursing Assistant I. Those completing NAS 102 are eligible for Nursing Assistant II Certification through the North Carolina Board of Nursing.

Program Information Contact:
C.N.A. Coordinator: Denise Pate, RN

Students with a felony conviction may have limited certification and employment opportunities.

OFFICE ADMINISTRATION A25370

The Office Systems Technology curriculum prepares individuals for positions in administrative support careers. It equips office professionals to respond to the demands of a dynamic computerized workplace.

Students will complete courses designed to develop proficiency in the use of integrated software, oral and written communications, analysis and coordination of office duties and systems, and
other support topics. Emphasis is placed on nontechnical as well as technical skills.

Graduates should qualify for employment in a variety of positions in business, government, and industry. Job classifications range from entry-level to supervisory to middle management positions.

**TOTAL REQUIRED CREDITS.... 67**

**Co-op Option:** Qualified students may elect to take up to one (1) credit hour of Cooperative Education in lieu of a Major elective provided they acquire approval from the Co-op Director and the Department Chairperson.
This degree should prepare graduates for the Microsoft Certified Application Specialist Exam Series in Access, Excel, PowerPoint, and Word.

**OFFICE ADMINISTRATION/BASIC OFFICE ADMINISTRATION CERTIFICATE (C25370C1)**

Effective: Fall 2010
Revised: 01/22/10

The Basic Office Administration certificate is designed to give individuals the opportunity to acquire basic skills necessary for entry-level employment in today’s modern office.

This certificate program covers keyboarding, office computations, records management, word processing, and office software applications.

Upon completion of this program, students should be able to use these basic skills for entry-level employment or transfer the course credits to the Office Administration program for an Associate of Applied Science degree.

**PARALEGAL TECHNOLOGY** **A25380**

The Paralegal Technology curriculum prepares individuals to work under the supervision of attorneys by performing routine legal tasks and assisting with substantive legal work. A paralegal/legal assistant may not practice law, give legal advice, or represent clients in a court of law.

Course work includes substantive and procedural legal knowledge in the areas of civil litigation, legal research and writing, real estate, family law, wills, estates, trusts, and commercial law. Required courses also include subjects such as English, mathematics, and computer utilization.

Graduates are trained to assist attorneys in probate work, investigations, public records search, drafting and filing legal documents, research, and office management. Employment opportunities are available in private law firms, governmental agencies, banks, insurance agencies, and other business organizations.

**Awards**

**Associate Degree:** Paralegal Technology (A25380)

PARALEGAL (D25380)  
Effective: Fall 2010  
Revised Date: 12/21/09

The Paralegal Diploma is a one-year program of study for those who already have a Bachelor’s degree. The diploma program provides intensive practical training in a variety of areas of law. Students who desire to refine the skills acquired through a Bachelor’s degree into marketable job competencies in the legal field will find this to be an excellent opportunity. A Paralegal/Legal Assistant may not practice law, give legal advice, or represent clients in a court of law.

Length: 3 Semesters
Prerequisite:  BA Degree
Award:  Diploma

PHARMACY TECHNOLOGY D45580

The Pharmacy Technology curriculum prepares individuals to assist the pharmacist in duties that a technician can legally perform and to function within the boundaries prescribed by the pharmacist and the employment agency.

Graduates will maintain patient’s records; fill prescriptions; maintain inventories, setup, package, and label medication doses; prepare solutions and intravenous additives; perform clerical duties, including insurance forms and forms required by third-party payers.

Graduates may be employed in hospitals, nursing homes, private and chain drug stores, research laboratories, wholesale drug companies, and pharmaceutical manufacturing facilities. Graduates will qualify to take the National Certification Examination developed by the Pharmacy Technician Certification Board.

PHYSICAL THERAPIST ASSISTANT (A45620)  
The Physical Therapist Assistant curriculum prepares graduates to work in direct patient care settings under supervision of physical therapists. Assistants work to improve or restore function by alleviation or prevention of physical impairment and perform other essential activities in a physical therapy department.

Course work includes normal human anatomy and physiology, the consequences of disease or injury, and physical therapy treatment of a variety of patient conditions affecting humans throughout the life span.

Graduates may be eligible to take the licensure examination administered by the NC Board of Physical Therapy Examiners. Employment is available in general hospitals, rehabilitation centers, extended care facilities, specialty hospitals, home health agencies, private clinics, and public school systems.

Awards

Associate Degree: Physical Therapist Assistant (A45620)
Length of Program: 5 Semesters
Prerequisite: High School Diploma: satisfactory completion of 2 units of algebra, 1 unit of biology and chemistry

Diploma: None

### PLUMBING D35300

**PLUMBING (D35300)**

The Plumbing curriculum is designed to give individuals the opportunity to acquire basic skills to assist with the installation and repair of plumbing systems in residential and small buildings.

Course work includes sketching diagrams, interpretation of blueprints, and practices in plumbing assembly. Students will gain knowledge of state codes and requirements.

Graduates should qualify for employment at parts supply houses, maintenance companies, and plumbing contractors to assist with various plumbing applications.

---

**Awards**

- **Diploma:** Plumbing (D35300)
- **Length of Program:** 3 Semesters
- **Prerequisite:** High School Diploma
- **Certificate:** Basic Plumbing Certificate (C35300C1)
- **Length of Program:** 2 Semesters
- **Prerequisite:** High School Diploma

**Cooperative Education Requirements/Opportunities:** For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

Office Location: Health Technologies Center, Room 201-H  
Telephone: (910) 678-8264  
FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th. Specific health program admission requirements must be met before a student is eligible for admission.

**Scholarship/Financial Aid Information:** Scholarships are available. Financial Aid Office, Student Center, Room 126; Telephone: (910) 678-8242

**Child Care Financial Assistance Information:** See Child Care Associate, Student Center, Room 142; Telephone: (910) 678-8486

**ATTENTION:** If you have missed two (2) consecutive semesters, you must see a counselor to be readmitted into your program.

**Revised:** 02/04/10

**RESPIRATORY THERAPY (A45720)**  
**Effective:** Fall 2010  
**Revised:** 02/04/10

**Length:** 5 Semesters  
**Prerequisites:** 1 Unit Algebra, 1 Unit Biology, and Chemistry  
**Award:** Associate in Applied Science

**TOTAL REQUIRED CREDITS... 69**

Co-Op Option: NA

Students with a felony conviction may have limited certification and employment opportunities.

**SCHOOL-AGE EDUCATION A55440**

This curriculum prepares individuals to work with children in elementary through middle grades in diverse learning environments. Students will combine learned theories with practice in actual settings with school-age children under the supervision of qualified teachers.

Course work includes child growth/development; computer technology in education; physical/nutritional needs of school-age children; care and guidance of school-age children; and communication skills with families and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of school-age populations.

Graduates are prepared to plan and implement developmentally appropriate programs in school-aged environments. Employment opportunities include school-age teachers in child care programs; before/after-school programs; paraprofessional positions in public/private schools; recreational centers; and other programs that work with school-age populations.

**Awards**

**Associate Degree:** School-Age Education (A55440)

**Length of Program:** 5 Semesters

**Prerequisite:** High School Diploma & Algebra I

**Diploma:** School-Age Education Diploma (D55440)

**Length of Program:** 5 Semesters

**Prerequisite:** High School Diploma, Algebra I, & Placement Test Credit Equivalent

Co-Op and Certification: Not Applicable

**SIMULATION AND GAME DEVELOPMENT A25450**

The Simulation and Game Development Curriculum provides a broad background in simulation and game development with practical applications in creative arts, visual arts, audio/video technology, creative writing, modeling, design, programming and management.

Students will receive hands-on training in design, 3D modeling, software engineering, database administration and programming for the purpose of creating simulations and games.

Graduates should qualify for employment as designers, artists, animators, programmers, database administrators, testers, quality assurance analysts, engineers and administrators in the entertainment industry, the health care industry, engineering, forensics, education, NASA and government agencies.

**Awards**

**Associate Degree:** Simulation and Game Development (A25450)

**Length of Program:** 5 Semesters

**Prerequisite:** High School Diploma and Algebra I
Diploma: Simulation Modeling Technician Diploma (D25450)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Algebra I, and Placement Test Credit Equivalent

Certificate: SGD Basics Certificate (C25450C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma

Certificate: Interactive 3D Certificate (C25450C2)
Length of Program: 2 Semesters
Prerequisite: High School Diploma

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: None Required

SPEECH-LANGUAGE PATHOLOGY ASSISTANT A45730

The Speech-Language Pathology Assistant curriculum prepares graduates to work under the supervision of a licensed Speech-Language Pathologist, who evaluates, diagnosis, and treats individuals with various communication disorders.

Courses provide instruction in methods of screening for speech, language, and hearing disorders and in following written protocols designed to remediate individual communication problems. Supervised field experience includes working with patients of various ages and various disorders.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Graduates may be eligible for registration with the North Carolina Board of Examiners for Speech-Language Pathologist and Audiologist and must be supervised by a licensed Speech-Language Pathologist. They may be employed in healthcare or education settings.

**Awards**

**Associate Degree:** Associate in Applied Science (A45730)

**Co-Op Option:** NA

Students with a felony conviction may have limited licensure and employment opportunities.

Revised: 10/15/09

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
SURGICAL TECHNOLOGY  A45740
The Surgical Technology curriculum prepares individuals to assist in the care of the surgical patient in the operating room and to function as a member of the surgical team.

Students will apply theoretical knowledge to the care of patients undergoing surgery and develop skills necessary to prepare supplies, equipment, and instruments; maintain aseptic conditions; prepare patients for surgery; and assist surgeons during operations.

Graduates of this program will be eligible to apply to take the NBSTSA (National Board of Surgical Technology and Surgical Assisting) Certification Examination for Surgical Technologists. Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians’ offices, and central supply processing units. Completion of the degree is recommended since it prepares the graduate for advanced placement in the Surgical Environment.

Awards

Associate Degree: Associate in Applied Science (A45740)
Length of Program: 5 Semesters
Prerequisite: 1 Unit of Biology and 1 Unit Algebra

Diploma: Surgical Technology (D45740)
Length of Program: 3 Semesters
Prerequisite: 1 Unit of Biology and 1 Unit Algebra

Diploma: Surgical Technology AAD Bridge Program (D45740B)
Length of Program: 2 Semesters
Prerequisite: 1 Unit of Biology and 1 Unit Algebra, Current Surgical Technologist, Documented 1000 hrs. or more working experience, Documentation of having independently scrubbed on 125 cases, 2 letters of recommendation from former and/or current supervisors

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

Programmatic Accreditation: Accredited by:
Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC/STSA)

Students with a felony conviction may have limited certification and employment opportunities.

It is strongly recommended that students take the ACA 111 College Student Success course either before starting the program or as an excess elective course. ACA 111 is required for the AAS in Surgical Technology.

SURGICAL TECHNOLOGY AAD BRIDGE PROGRAM (D45740B)
Effective: Fall 2008
Revised: 10/22/07

The Accelerated Alternate Delivery (AAD) Program was developed to assist non-certified currently practicing Surgical Technologists obtain the educational background required to sit for the Certification Examination with the NBSTSA (National Board of Surgical Technology and Surgical Assisting).

Surgical Technologists interested in this program must fit into one of the following categories:
3. Formerly trained Surgical Technologists who completed their education from a non-Commission on Accreditation of the Allied Health Programs (CAAHEP) accredited program in Surgical Technology.

Graduates of this program will be eligible to apply to take the NBSTSA (National Board of Surgical Technology and Surgical Assisting) Certification Examination for Surgical Technologists. Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians’ offices, and central supply processing units.
Length: 2 Semesters
Prerequisite: Unit of Biology and 1 Unit of Algebra, Current Surgical Technologist, Documented 1000 hours working experience as a Surgical Technologist, Documentation of having independently scrubbed on 125 surgical cases, 2 Letters of Recommendation from former and/or current supervisors

**All surgical courses (SUR) are taught online.

Students with a felony conviction may have limited certification and employment opportunities.

SURVEYING TECHNOLOGY A40380
The Surveying Technology curriculum provides training for technicians in the many areas of surveying. Surveyors are involved in land surveying, route surveying, construction surveying, photogrammetry, mapping, global positioning systems, geographical information systems, and other areas of property description and measurements.

Course work includes the communication and computational skills required for boundary, construction, route, and control surveying, photogrammetry, topography, drainage, surveying law, and subdivision design, with emphasis upon applications of electronic data collection and related software including CAD.

Graduates should qualify for jobs as survey party chief, instrumentation person, surveying technician, highway surveyor, mapper, GPS technician, and CAD operator. Graduates will be prepared to pursue the requirements necessary to become a Registered Land Surveyor in North Carolina.

Awards

Associate Degree: Surveying Technology (A40380)

WEB TECHNOLOGIES A25290
The Web Technologies curriculum prepares graduates for careers in the information technology arena using computers and distributed computing to disseminate and collect information via the web.

Course work in this program covers the terminology and use of computers, network devices, networks, servers, databases, applications, programming languages, as well as web applications, site development and design. Studies will provide opportunity for students to learn related industry standards.

Graduates should qualify for career opportunities as designers, administrators, or developers in the areas of web applications, websites, web services, and related areas of distributed computing.

Co-op Option: NA

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
WEB TECHNOLOGIES/
WEB PROGRAMMING CERTIFICATE (C25290C2)
Effective: Fall 2010
Revised: 01/22/10

Students are introduced to the basics of programming for the Internet. Emphasis is given to JavaScript.

Length: 2 Semesters
Prerequisite: High School Diploma and Algebra 1 or Placement Test Equivalent
Award: Certificate

SPRING SEMESTER 1
 Prefix No. Title Class Lab Clinical Credit
NOS110 Operating System Concepts 2 3 0 3
SEC110 Security concepts 3 0 0 3
WEB230 Implementing Web Serv 2 2 0 3
Totals 7 5 0 9

TOTAL REQUIRED CREDITS.... 18
Co-op Option: NA

WEB TECHNOLOGIES/ WEB MANAGEMENT CERTIFICATE (C25290C3)
Effective: Fall 2010
Revised: 01/22/10

Students are introduced to the basics of the Internet. Students are taught the basics of web site management, allowing transfer of websites from one server to another, with minimal changes required by the site. Students are taught how to set up web servers, ftp servers, email servers, etc.

Length: 2 Semesters
Prerequisite: High School Diploma and Algebra 1 or Placement Test Equivalent
Award: Certificate

WEB TECHNOLOGIES/ SERVER SIDE WEB PROGRAMMING CERTIFICATE (C25290C5)
Effective: Fall 2010
Revised: 01/22/10

Students are exposed to server-based programming languages. Emphasis is placed on those languages that enhance or add functionality to the website.

Length: 3 Semesters
Prerequisite: High School Diploma and Algebra 1 or Placement Test Equivalent
Award: Certificate
FALL SEMESTER 1

WELDING TECHNOLOGY D50420
The Welding Technology curriculum provides students with a sound understanding of the science, technology and applications essential for successful employment in the welding and metal industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses in math, blueprint reading, metallurgy, welding inspection, and destructive and non-destructive testing provide the student with industry-standard skills developed through classroom training and practical application.

Successful graduates of the Welding Technology curriculum may be employed as entry-level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.

Awards
Associate Degree: Not Applicable
Length of Program:
Prerequisite:

Diploma: Welding Technology (D50420)
Length of Program: 3 Semesters
Prerequisite: High School Diploma

Certificate: Basic Welding Technology Certificate (C50420C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma

Cooperative Education Requirements/Opportunities: For cooperative education requirements/opportunities please see the appropriate Program Edplan and/or Sequencing sheet.

License or Certification Information: None Required

Program Information Contact:
Curriculum Chairperson: TBA
Telephone Number: (910) 678-1031
Office Location: Lafayette Hall, Room 149A
Email: canadyr@faytechcc.edu
Department Office: Lafayette Hall, Room 120
Telephone: (910) 678-8383
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

Scholarship/Financial Aid Information: Scholarships are available. Financial Aid Office, Student Center, Room 126; Telephone: (910) 678-8242

Child Care Financial Assistance Information: See Child Care

WELDING TECHNOLOGY/ BASIC WELDING TECHNOLOGY (C50420C1)
Evening/Weekend Program
Effective: Fall 2006
Revised: 07/18/06

This evening certificate program is designed to give individuals the opportunity to acquire fundamental skills in welding. Coursework includes electrode welding and cutting processes and welding symbols and specifications.

Excellent employment opportunities as entry-level welding apprentices in industry, manufacturing and construction exist throughout the region.

Courses in this program can be transferred directly into the Welding Technology diploma program.

ACA 111 College Student Success  
Prequisites: None  
Corequisites: None  
Component: None  
This course introduces the college’s physical, academic, and social environment and promotes the personal development essential for success. Topics include campus facilities and resources; policies, procedures, and programs; study skills; and life management issues such as health, self-esteem, motivation, goal-setting, diversity, and communication. Upon completion, students should be able to function effectively within the college environment to meet their educational objectives.

ACA 115 Success & Study Skills  
Prequisites: None  
Corequisites: None  
Component: None  
This course provides an orientation to the campus resources and academic skills necessary to achieve educational objectives. Emphasis is placed on an exploration of facilities and services, study skills, library skills, self-assessment, wellness, goal-setting, and critical thinking. Upon completion, students should be able to manage their learning experiences to successfully meet educational goals.

ACC 111 Financial Accounting  
Prequisites: ENG 090, RED 090, MAT 070 or Placement Test Credit Equivalent.  
Corequisites: None  
Component: None  
This course introduces the basic framework of accounting. Emphasis is placed on the accounting cycle and financial statement preparation and analysis. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

ACC 120 Prin of Financial Acct  
Prequisites: ENG-090, RED-090, MAT-070 or Placement Test Credit Equivalent.  
Corequisites: None  
Component: None  
This course introduces business decision-making accounting information systems. Emphasis is placed on analyzing, summarizing, reporting, and interpreting financial information. Upon completion, students should be able to prepare financial statements, understand the role of financial information in decision-making and address ethical considerations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

ACC 121 Prin of Managerial Acct  
Prequisites: ACC 120  
Corequisites: None  
Component: None  
This course covers federal and state laws pertaining to wages,
payroll taxes, payroll tax forms, and journal and general ledger transactions. Emphasis is placed on computing wages; calculating social security, income, and unemployment taxes; preparing appropriate payroll tax forms; and journalizing/posting transactions. Upon completion, students should be able to analyze data, make appropriate computations, complete forms, and prepare accounting entries using appropriate technology. This course is also available through the Virtual Learning Community (VLC).

**ACC 150 Acct Software Appl**  01 02 00 02  
Prerequisites: ACC 115 or ACC 120  
Corequisites: None  
Component: None  
This course introduces microcomputer applications related to accounting systems. Topics include general ledger, accounts receivable, accounts payable, inventory, payroll, and correcting, adjusting, and closing entries. Upon completion, students should be able to use a computer accounting package to solve accounting problems. This course is also available through the Virtual Learning Community (VLC).

**ACC 220 Intermediate Accounting I**  03 02 00 04  
Prerequisites: ACC 120 and ACC 121  
Corequisites: None  
Component: None  
This course is a continuation of the study of accounting principles with in-depth coverage of theoretical concepts and financial statements. Topics include generally accepted accounting principles and an extensive analyses of financial statements. Upon completion, students should be able to demonstrate competence in the conceptual framework underlying financial accounting, including the application of financial standards. This course is also available through the Virtual Learning Community (VLC).

**ACC 221 Intermediate Accounting II**  03 02 00 04  
Prerequisites: ACC 220  
Corequisites: None  
Component: None  
This course is a continuation of ACC 220. Emphasis is placed on special problems which may include leases, bonds, investments, ratio analyses, present value applications, accounting changes, and corrections. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

**ACC 225 Cost Accounting**  03 00 00 03  
Prerequisites: ACC 121  
Corequisites: None  
Component: None  
This course introduces the nature and purposes of cost accounting as an information system for planning and control. Topics include direct materials, direct labor, factory overhead, process, job order, and standard cost systems. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

**ACC 226 Adv Managerial Acct**  03 00 00 03  
Prerequisites: ACC 121 and ACC 225  
Corequisites: None  
Component: None  
This course is designed to develop an appreciation for the uses of cost information in the administration and control of business organizations. Emphasis is placed on how accounting data can be interpreted and used by management in planning and controlling business activities. Upon completion, students should be able to analyze and interpret cost information and present this information in a form that is usable by management.

**ACC 227 Practices in Accounting**  03 00 00 03  
Prerequisites: ACC 220  
Corequisites: None  
Component: None  
This course provides an advanced in-depth study of selected topics in accounting using case studies and individual and group problem solving. Topics include cash flow, financial statement analysis, individual and group problem solving, practical approaches to dealing with clients, ethics, and critical thinking. Upon completion, students should be able to demonstrate competent analytical skills and effective communication of their analysis in written and/or oral presentations.

**ACC 240 Governmental & Not-for-Profit Accounting**  03 00 00 03  
Prerequisites: ACC 121  
Corequisites: None  
Component: None  
This course introduces principles and procedures applicable to governmental and not-for-profit organizations. Emphasis is placed on various budgetary accounting procedures and fund accounting. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

**ACC 250 Advanced Accounting**  03 00 00 03  
Prerequisites: ACC 220  
Corequisites: None  
Component: None  
This course is designed to analyze special accounting issues, which may include business combinations, partnerships, international accounting, estates, and trusts. Emphasis is placed on analyzing transactions and preparing working papers and financial statements. Upon completion, students should be able to solve a wide variety of problems by advanced application of accounting principles and procedures.
ACC 269 Audit & Assurance Services 03 00 00 03
Prerequisites: ACC 220
Corequisites: None
Component: None
This course introduces selected topics pertaining to the objectives, theory and practices in engagements providing auditing and other assurance services. Topics will include planning, conducting and reporting, with emphasis on the related professional ethics and standards. Upon completion, students should be able to demonstrate an understanding of the types of professional services, the related professional standards, and engagement methodology.

AHR 110 Introduction to Refrigeration 02 06 00 05
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic refrigeration process used in mechanical refrigeration and air conditioning systems. Topics include terminology, safety, and identification and function of components; refrigeration cycle; and tools and instrumentation used in mechanical refrigeration systems. Upon completion, students should be able to identify refrigeration systems and components, explain the refrigeration process, and use the tools and instrumentation of the trade.

AHR 111 HVACR Electricity 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces electricity as it applies to HVACR equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.

AHR 112 Heating Technology 02 04 00 04
Prerequisites: AHR 110
Corequisites: None
Component: None
This course covers the fundamentals of heating including oil, gas, and electric heating systems. Topics include safety, tools and instrumentation, system operating characteristics, installation techniques, efficiency testing, electrical power, and control systems. Upon completion, students should be able to explain the basic oil, gas, and electrical heating systems and describe the major components of a heating system.

AHR 113 Comfort Cooling 02 04 00 04
Prerequisites: None
Corequisites: None
Component: None
This course covers the installation procedures, system operations, and maintenance of residential and light commercial comfort cooling systems. Topics include terminology, component operation, and testing and repair of equipment used to control and produce assured comfort levels. Upon completion, students should be able to use psychometrics, manufacturer specifications, and test instruments to determine proper system operation.

AHR 114 Heat Pump Technology 02 04 00 04
Prerequisites: AHR 110 or AHR 113
Corequisites: None
Component: None
This course covers the principles of air source and water source heat pumps. Emphasis is placed on safety, modes of operation, defrost systems, refrigerant charging, and system performance. Upon completion, students should be able to understand and analyze system performance and perform routine service procedures.

AHR 115 Refrigeration Systems 01 03 00 02
Prerequisites: All courses required: AHR 110, AHR 130
Corequisites: None
Component: None
This course introduces refrigeration systems and applications. Topics include defrost methods, safety and operational control, refrigerant piping, refrigerant recovery and charging, and leak testing. Upon completion, students should be able to assist in installing and testing refrigeration systems and perform simple repairs.

AHR 120 HVACR Maintenance 01 03 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic principles of industrial air conditioning and heating systems. Emphasis is placed on preventive maintenance procedures for heating and cooling equipment and related components. Upon completion, students should be able to perform routine preventive maintenance tasks, maintain records, and assist in routine equipment repairs.

AHR 130 HVAC Controls 02 02 00 03
Prerequisites: AHR 111 or ELC 111
Corequisites: None
Component: None
This course covers the types of controls found in residential and commercial comfort systems. Topics include electrical and electronic controls, control schematics and diagrams, test instruments, and analysis and troubleshooting of electrical systems. Upon completion, students should be able to diagnose and repair common residential and commercial comfort system controls.

AHR 133 HVAC Servicing 02 06 00 04
Prerequisites: AHR 112 or AHR 113
Corequisites: None
Component: None
The course covers the maintenance and servicing of HVAC
equipment. Topics include testing, adjusting, maintaining, and troubleshooting HVAC equipment and record keeping. Upon completion, students should be able to adjust, maintain, and service HVAC equipment.

**AHR 151 HVAC Duct Systems I** 01 03 00 02
Prerequisites: AHR 112
Corequisites: None
Component: None
This course introduces the techniques used to lay out and fabricate duct work commonly found in HVAC systems. Emphasis is placed on the skills required to fabricate duct work. Upon completion, students should be able to lay out and fabricate simple duct work.

**AHR 160 Refrigerant Certification** 01 00 00 01
Prerequisites: None
Corequisites: None
Component: None
This course covers the requirements for the EPA certification examinations. Topics include small appliances, high pressure systems, and low pressure systems. Upon completion, students should be able to demonstrate knowledge of refrigerants and be prepared for the EPA certification examinations.

**AHR 180 HVACR Customer Relations** 01 00 00 01
Prerequisites: AHR 114
Corequisites: None
Component: None
This course introduces common business and customer relation practices that may be encountered in HVACR. Topics include business practices, appearance of self and vehicle, ways of handling customer complaints, invoices, telephone communications, and warranties. Upon completion, students should be able to present themselves to customers in a professional manner, understand how the business operates, complete invoices, and handle complaints.

**AHR 210 Residential Building Code** 01 02 00 02
Prerequisites: AHR 151
Corequisites: None
Component: None
This course covers the residential building codes that are applicable to the design and installation of HVAC systems. Topics include current residential codes as applied to HVAC design, service, and installation. Upon completion, students should be able to demonstrate the correct usage of residential building codes that apply to specific areas of the HVAC trade.

**AHR 211 Residential System Design** 02 02 00 03
Prerequisites: AHR 151
Corequisites: None
Component: None
This course introduces the principles and concepts of conventional residential heating and cooling system design. Topics include heating and cooling load estimating, basic psychometrics, equipment selection, duct system selection, and system design. Upon completion, students should be able to design a basic residential heating and cooling system.

**AHR 212 Advanced Comfort Systems** 02 06 00 04
Prerequisites: All courses required: AHR 114, AHR 115
Corequisites: None
Component: None
This course covers water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pump systems including variable speed drives and controls. Emphasis is placed on the application, installation, and servicing of water-source systems and the mechanical and electronic control components of advanced comfort systems. Upon completion, students should be able to test, analyze, and troubleshoot water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pumps.

**AHR 215 Commercial HVAC Controls** 01 03 00 02
Prerequisites: AHR 111
Corequisites: None
Component: None
This course introduces HVAC control systems used in commercial applications. Topics include electric/electronic control systems, pneumatic control systems, DDC temperature sensors, humidity sensors, pressure sensors, wiring, controllers, actuators, and controlled devices. Upon completion, students should be able to verify or correct the performance of common control systems with regard to sequence of operation and safety.

**AHR 240 Hydronic Heating** 01 03 00 02
Prerequisites: AHR 112
Corequisites: None
Component: None
This course covers the accepted procedures for proper design, installation, and balance of hydronic heating systems for residential or commercial buildings. Topics include heating equipment; pump, terminal unit, and accessory selection; piping system selection and design; and pipe sizing and troubleshooting. Upon completion, students should be able to assist with the proper design, installation, and balance of typical hydronic systems.

**AHR 245 Chiller Systems** 01 03 00 02
Prerequisites: AHR 110
Corequisites: None
Component: None
This course introduces the fundamentals of liquid chilling equipment. Topics include characteristics of water, principles of water chilling, the chiller, the refrigerant, water and piping circuits, freeze prevention, purging, and equipment flexibility. Upon completion, students should be able to describe the components, controls, and overall operation of liquid chilling equipment and perform basic maintenance tasks.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
AHR 250 HVAC System Diagnostics 00 04 00 02
Prerequisites: AHR 112
Corequisites: AHR 212
Component: None
This course is a comprehensive study of air conditioning, heating, and refrigeration system diagnostics and corrective measures. Topics include advanced system analysis, measurement of operating efficiency, and inspection and correction of all major system components. Upon completion, students should be able to restore a residential or commercial AHR system so that it operates at or near manufacturers’ specifications.

ANT 210 General Anthropology 03 00 00 03
Prerequisites: ENG-111
Corequisites: None
Component: None
This course introduces the physical, archaeological, linguistic, and ethnological fields of anthropology. Topics include human origins, genetic variations, archaeology, linguistics, primatology, and contemporary cultures. Upon completion, students should be able to demonstrate an understanding of the four major fields of anthropology. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ANT 220 Cultural Anthropology 03 00 00 03
Prerequisites: ENG-111
Corequisites: None
Component: None
This course introduces the nature of human culture. Emphasis is placed on cultural theory, methods of fieldwork, and cross-cultural comparisons in the areas of ethnology, language, and the cultural past. Upon completion, students should be able to demonstrate an understanding of basic cultural processes and how cultural data are collected and analyzed. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ANT 221 Comparative Cultures 03 00 00 03
Prerequisites: ENG-111
Corequisites: None
Component: None
This course provides an ethnographic survey of societies around the world covering their distinctive cultural characteristics and how these relate to cultural change. Emphasis is placed on the similarities and differences in social institutions such as family, economics, politics, education, and religion. Upon completion, students should be able to demonstrate knowledge of a variety of cultural adaptive strategies. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ANT 230 Physical Anthropology 03 00 00 03
Prerequisites: ENG-111
Corequisites: None
Component: None
This course introduces the scientific study of human evolution and adaptation. Emphasis is placed on evolutionary theory, population genetics, biocultural adaptation and human variation, as well as non-human primate evolution, morphology, and behavior. Upon completion, students should be able to demonstrate an understanding of the biological and cultural processes which have resulted in the formation of the human species. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ANT 230A Physical Anthropology Lab 00 02 00 01
Prerequisites: ENG-111
Corequisites: ANT 230
Component: None
This course provides laboratory work that reinforces the material presented in ANT 230. Emphasis is placed on laboratory exercises which may include fossil identification, genetic analysis, skeletal comparisons, forensics, computer simulations, and field observations. Upon completion, students should be able to demonstrate an understanding of the analytical skills employed by anthropologists in the study of primate evolution and variation. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ANT 240 Archaeology 03 00 00 03
Prerequisites: ENG-111
Corequisites: None
Component: None
This course introduces the scientific study of the unwritten record of the human past. Emphasis is placed on the process of human cultural evolution as revealed through archaeological methods of excavation and interpretation. Upon completion, students should be able to demonstrate an understanding of how archaeologists reconstruct the past and describe the variety of past human cultures. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

ARC 111 Introduction to Architectural Technology 01 06 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic architectural drafting techniques, lettering, use of architectural and engineer scales, and sketching. Topics include orthographic, axonometric, and oblique drawing techniques using architectural plans, elevations, sections, and details; reprographic techniques; and other related topics. Upon completion, students should be able to prepare and print scaled drawings within minimum architectural standards.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
ARC 112 Construction Materials & Methods  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces construction materials and their methodologies. Topics include construction terminology, materials and their properties, manufacturing processes, construction techniques, and other related topics. Upon completion, students should be able to detail construction assemblies and identify construction materials and properties.

ARC 113 Residential Architectural Tech  
Prerequisites: ARC 111  
Corequisites: ARC 112  
Component: None  
This course covers intermediate residential working drawings. Topics include residential plans, elevations, sections, details, schedules, and other related topics. Upon completion, students should be able to prepare a set of residential working drawings that are within accepted architectural standards.

ARC 114 Architectural CAD  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces basic architectural CAD techniques. Topics include basic commands and system hardware and software. Upon completion, students should be able to prepare and plot architectural drawings to scale within accepted architectural standards.

ARC 114A Architectural CAD Lab  
Prerequisites: None  
Corequisites: ARC 114  
Component: None  
This course provides a laboratory setting to enhance architectural CAD skills. Emphasis is placed on further development of commands and system operation. Upon completion, students should be able to prepare and plot scaled architectural drawings.

ARC 131 Building Codes  
Prerequisites: ARC 112 or CAR 111  
Corequisites: None  
Component: None  
This course covers the methods of researching building codes for specific projects. Topics include residential and commercial building codes. Upon completion, students should be able to determine the code constraints governing residential and commercial projects.

ARC 211 Light Construction Technology  
Prerequisites: ARC 111  
Corequisites: ARC 112  
Component: None  
This course covers working drawings for light construction. Topics include plans, elevations, sections, and details; schedules; and other related topics. Upon completion, students should be able to prepare a set of working drawings which are within accepted architectural standards.

ARC 213 Design Project  
Prerequisites: All courses required: ARC 111, ARC 112 and ARC 114  
Corequisites: None  
Component: None  
This course provides the opportunity to design and prepare a set of contract documents within an architectural setting. Topics include schematic design, design development, construction documents, and other related topics. Upon completion, students should be able to prepare a set of commercial contract documents.

ARC 220 Advanced Architect CAD  
Prerequisites: ARC 114  
Corequisites: None  
Component: None  
This course provides file management, productivity, and CAD customization skills. Emphasis is placed on developing advanced proficiency techniques. Upon completion, students should be able to create prototype drawings and symbol libraries, compose sheets with multiple details, and use advanced drawing and editing commands.

ARC 221 Architectural 3-D CAD  
Prerequisites: ARC 114  
Corequisites: None  
Component: None  
This course introduces architectural three-dimensional CAD applications. Topics include three-dimensional drawing, coordinate systems, viewing, rendering, modeling, and output options. Upon completion, students should be able to prepare architectural three-dimensional drawings and renderings.

ARC 230 Environmental Systems  
Prerequisites: ARC 111 and MAT 121, MAT 151, MAT 161, MAT 171, or MAT 175

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course introduces plumbing, mechanical (HVAC), and electrical systems for the architectural environment. Topics include basic plumbing, mechanical, and electrical systems for residential and/or commercial buildings with an introduction to selected code requirements. Upon completion, students should be able to develop schematic drawings for plumbing, mechanical, and electrical systems and perform related calculations.

**ARC 231 Architectural Presentations**  
**02 04 00 04**  
Prerequisites: ARC 111  
Corequisites: None  
Component: None  
This course introduces architectural presentation techniques. Topics include perspective drawing, shadow projection, texturization, rendered plans, elevations, and other related topics. Upon completion, students should be able to present ideas graphically and do rendered presentation drawings.

**ARC 235 Architectural Portfolio**  
**02 03 00 03**  
Prerequisites: ARC 221  
Corequisites: None  
Component: None  
This course covers the methodology for the creation of an architectural portfolio. Topics include preparation of marketing materials and a presentation strategy using conventional and/or digital design media. Upon completion, students should be able to produce an architectural portfolio of selected projects.

**ARC 240 Site Planning**  
**02 02 00 03**  
Prerequisites: ARC 111  
Corequisites: None  
Component: None  
This course introduces the principles of site planning, grading plans, and earthwork calculations. Topics include site analysis, site work, site utilities, cut and fill, soil erosion control, and other related topics. Upon completion, students should be able to prepare site development plans and details and perform cut and fill calculations.

**ARC 250 Survey of Architecture**  
**03 00 00 03**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the historical trends in architectural form. Topics include historical and current trends in architecture. Upon completion, students should be able to demonstrate an understanding of significant historical and current architectural styles.

**ARC 261 Solar Technology**  
**01 02 00 02**  
Prerequisites: ARC 111  
Corequisites: None  
Component: None  
This course introduces passive and active solar design theory and application. Topics include passive solar design, active solar theory, heat loss analysis, and other related topics. Upon completion, students should be able to design a passive solar system.

**ARC 264 Digital Architecture**  
**01 03 00 02**  
Prerequisites: ARC 114 and ARC 114A OR DFT 151 AND DFT 152  
Corequisites: None  
Component: None  
This course covers multiple digital architectural techniques. Topics include spreadsheets and word processing procedures, online resources, modems, e-mail, image capture, multimedia, and other related topics. Upon completion, students should be able to transmit/receive electronic data, create multimedia presentations, and produce a desktop publishing document.

**ART 111 Art Appreciation**  
**03 00 00 03**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms including but not limited to sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ART 113 Art Methods and Materials**  
**02 02 00 03**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an overview of media and techniques. Emphasis is placed on exploration and manipulation of materials. Upon completion, students should be able to demonstrate familiarity with a variety of methods, materials, and processes. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**ART 114 Art History Survey I**  
**03 00 00 03**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the development of art forms from ancient times to the Renaissance. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.
ART 115 Art History Survey II
Prerequisites: None
Corequisites: None
Component: None
This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community VLC.

ART 116 Survey of American Art
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the development of American art forms from colonial times to the present. Emphasis is placed on architecture, painting, sculpture, graphics, and the decorative arts. Upon completion, students should be able to demonstrate understanding of the history of the American creative experience. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ART 117 Non-Western Art History
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces non-Western cultural perspectives. Emphasis is placed on, but not limited to, African, Oriental, and Oceanic art forms throughout history. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of non-Western social and cultural development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ART 118 Art by Women
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an analytical study of the works of representative female artists. Emphasis is placed on the historical and cultural contexts, themes, and aesthetic features of individual works. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 121 Design I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the elements and principles of design as applied to two-dimensional art. Emphasis is placed on the structural elements, the principles of visual organization, and the theories of color mixing and interaction. Upon completion, students should be able to understand and use critical and analytical approaches as they apply to two-dimensional visual art. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 122 Design II
Prerequisites: ART 121
Corequisites: None
Component: None
This course introduces basic studio problems in three-dimensional visual design. Emphasis is placed on the structural elements and organizational principles as applied to mass and space. Upon completion, students should be able to apply three-dimensional design concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 131 Drawing I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the language of drawing and the use of various drawing materials. Emphasis is placed on drawing techniques, media, and graphic principles. Upon completion, students should be able to demonstrate competence in the use of graphic form and various drawing processes. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 132 Drawing II
Prerequisites: ART 131
Corequisites: None
Component: None
This course continues instruction in the language of drawing and the use of various materials. Emphasis is placed on experimentation in the use of drawing techniques, media, and graphic materials. Upon completion, students should be able to demonstrate increased competence in the expressive use of graphic form and techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 135 Figure Drawing I
Prerequisites: ART 131
Corequisites: None
Component: None
This course continues instruction in the language of drawing and the use of various materials. Emphasis is placed on experimentation in the use of drawing techniques, media, and graphic materials. Upon completion, students should be able to demonstrate increased competence in the expressive use of graphic form and techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.
This course introduces rendering the human figure with various drawing materials. Emphasis is placed on the use of the visual elements, anatomy, and proportion in the representation of the draped and undraped figure. Upon completion, students should be able to demonstrate competence in drawing the human figure. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 171 Computer Art I 00 06 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the use of the computer as a tool for solving visual problems. Emphasis is placed on fundamentals of computer literacy and design through bit-mapped image manipulation. Upon completion, students should be able to demonstrate an understanding of paint programs, printers, and scanners to capture, manipulate, and output images. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 212 Gallery Assistantship I 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 213 Gallery Assistantship II 00 02 00 01
Prerequisites: ART 212
Corequisites: None
Component: None
This course provides additional experience in display techniques. Emphasis is placed on preparation of artwork for exhibition, alternative methods of installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate independent decision-making and exhibition expertise. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 214 Portfolio and Résumé 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course covers résumé writing, interview skills, and the preparation and presentation of an art portfolio. Emphasis is placed on the preparation of a portfolio of original artwork, the preparation of a photographic portfolio, approaches to résumé writing, and interview techniques. Upon completion, students should be able to mount original art for portfolio presentation, photograph and display a professional slide portfolio, and write an effective résumé. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 222 Wood Design I 00 06 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the historical and contemporary design concepts and their application to the construction of functional and sculptural wood forms. Emphasis is placed on the mastery of hand and power tools. Upon completion, students should be able to demonstrate appropriate use of tools to create unique designs. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 223 Wood Design II 00 06 00 03
Prerequisites: ART 222
Corequisites: None
Component: None
This course provides a continuation of the skills and techniques used in ART 222. Emphasis is placed on woodcarving and other processes. Upon completion, students should be able to use original designs in the creation of functional and sculptural forms. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 231 Printmaking I 00 06 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces printmaking: its history, development processes. Emphasis is placed on basic applications with investigation into image source and development. Upon completion, students should be able to produce printed images utilizing a variety of methods. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 232 Printmaking II 00 06 00 03
Prerequisites: ART 231
Corequisites: None
Component: None
This course includes additional methods and printmaking processes. Emphasis is placed on the printed image as related to method, source, and concept. Upon completion, students should be able to produce expressive images utilizing both traditional and innovative methods. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.
ART 235 Figure Drawing II
Prerequisites: ART 135
Corequisites: None
Component: None
This course extends the study and rendering of the draped and undraped human figure. Emphasis is placed on the exploration of materials and approaches to drawing. Upon completion, students should be able to demonstrate creativity in the representation of the figure. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 240 Painting I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the language of painting and the use of various painting materials. Emphasis is placed on the understanding and use of various painting techniques, media, and color principles. Upon completion, students should be able to demonstrate competence in the use of creative processes directed toward the development of expressive form. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 241 Painting II
Prerequisites: ART 240
Corequisites: None
Component: None
This course provides a continuing investigation of the materials, processes, and techniques of painting. Emphasis is placed on the exploration of expressive content using a variety of creative processes. Upon completion, students should be able to demonstrate competence in the expanded use of form and variety. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ART 242 Landscape Painting
Prerequisites: ART 240
Corequisites: None
Component: None
This course introduces and practices the skills and techniques of open-air painting. Emphasis is placed on techniques of painting summer foliage, skies, and mountains, and the elements of aerial perspective. Upon completion, students should be able to complete an open-air landscape painting employing brush, knife, scumbling, and glazing techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 244 Watercolor
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic methods and techniques used in watercolor. Emphasis is placed on application, materials, content, and individual expression. Upon completion, students should be able to demonstrate a variety of traditional and nontraditional concepts used in watercolor media. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 245 Metals I
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic metal design in traditional and contemporary art forms using brass, copper, and silver. Emphasis is placed on designing and fabricating jewelry, small sculptures, and utilitarian objects. Upon completion, students should be able to design and produce small art objects. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 246 Metals II
Prerequisites: ART 245
Corequisites: None
Component: None
This course provides a continuation of metal design utilizing basic methods of casting and other processes. Emphasis is placed on individualized design. Upon completion, students should be able to design and produce expressive forms. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 250 Surface Design: Textiles
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic principles and elements of art as applied to textile surfaces. Emphasis is placed on direct, top-dyed processes that utilize both synthetic and natural dyes, and techniques such as batiking, stenciling, and stamping. Upon completion, students should be able to demonstrate a basic understanding of appropriate materials and techniques as they apply to original design on a variety of textile surfaces. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 260 Photography Appreciation
Prerequisites: None
Corequisites: None
Component: None
This course introduces the origins and historical development of photography. Emphasis is placed on the study of composition and history of photography as an art form. Upon completion, students should be able to recognize and produce, using color transparencies, properly exposed, well-composed photographs.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 261 Photography I  00 06 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces photographic equipment, theory, and processes. Emphasis is placed on camera operation, composition, darkroom technique, and creative expression. Upon completion, students should be able to successfully expose, develop, and print a well-conceived composition. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 262 Photography II  00 06 00 03
Prerequisites: ART 261
Corequisites: None
Component: None
This course introduces the creative manipulation of alternative photographic materials and processes such as toning, hand coloring, infrared, and multiple exposure. Emphasis is placed on personal vision and modes of seeing. Upon completion, students should be able to create properly exposed images using a variety of photographic materials and processes. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 263 Color Photography  00 06 00 03
Prerequisites: ART 262
Corequisites: None
Component: None
This course provides an introduction to the procedures and processes involved in color photography. Emphasis is placed on the study of light, filtration, exposure, and films along with the processing and printing of color negative materials. Upon completion, students should be able to demonstrate an understanding of color principles, theories, and processes by using them creatively in the production of color prints. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 264 Digital Photography I  01 04 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces digital photographic equipment, theory and processes. Emphasis is placed on camera operation, composition, computer photo manipulation and creative expression. Upon completion, students should be able to successfully expose, digitally manipulate, and print a well-conceived composition. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 265 Digital Photography II  01 04 00 03
Prerequisites: ART 264
Corequisites: None
Component: None
This course provides exploration of the concepts and processes of photo manipulation through complex composite images, special effects, color balancing and image/text integration. Emphasis is placed on creating a personal vision and style. Upon completion, students should be able to produce well-executed images using a variety of photographic and photo manipulative approaches. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 267 Videography II  00 06 00 03
Prerequisites: ART 266
Corequisites: None
Component: None
This course is designed to provide a framework for the production of a long-term video project. Emphasis is placed on realization of the unique creative vision. Upon completion, students should be able to produce a thematically coherent, edited video with sound and titling. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 281 Sculpture I  00 06 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an exploration of the creative and technical methods of sculpture with focus on the traditional processes. Emphasis is placed on developing basic skills as they pertain to three-dimensional expression in various media. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 282 Sculpture II  00 06 00 03
Prerequisites: ART 281
Corequisites: None
Component: None
This course builds on the visual and technical skills learned in ART 281. Emphasis is placed on developing original solutions to sculptural problems in a variety of media. Upon completion, students should be able to express individual ideas using the techniques and materials of sculpture. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

ART 283 Ceramics I  00 06 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to three-dimensional design principles using the medium of clay. Emphasis is placed on fundamentals of forming, surface design, glaze application, and firing. Upon completion, students should be able to demonstrate skills in slab and coil construction, simple wheel forms, glaze technique, and creative expression. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ART 284 Ceramics II**  00 06 00 03
Prerequisites: ART 283
Corequisites: None
Component: None
This course covers advanced hand building and wheel techniques. Emphasis is placed on creative expression, surface design, sculptural quality, and glaze effect. Upon completion, students should be able to demonstrate a high level of technical competence in forming and glazing with a development of three-dimensional awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ART 285 Ceramics III**  00 06 00 03
Prerequisites: ART 284
Corequisites: None
Component: None
This course provides the opportunity for advanced self-determined work in sculptural and functional ceramics. Emphasis is placed on developing the technical awareness of clay bodies, slips, engobes, and firing procedures necessary to fulfill the student’s artistic goals. Upon completion, students should be able to demonstrate a knowledge of materials and techniques necessary to successfully create original projects in the clay medium. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**ART 286 Ceramics IV**  00 06 00 03
Prerequisites: ART 285
Corequisites: None
Component: None
This course provides the opportunity for self-determined work in sculptural and functional ceramics. Emphasis is placed on developing the technical awareness of glaze materials, glaze formulation, and firing techniques necessary to fulfill the student’s artistic goals. Upon completion, students should be able to demonstrate knowledge of materials and techniques necessary to successfully create original projects in the clay medium. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

---

**ART 288 Studio**
Prerequisites: None
Corequisites: None
Component: None
This course provides the opportunity for advanced self-determined work beyond the limits of regular studio course sequences. Emphasis is placed on creative self-expression and in-depth exploration of techniques and materials. Upon completion, students should be able to create original projects specific to media, materials, and techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ASL 111 Elementary ASL I**  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of American Sign Language within a cultural context. Emphasis is placed on the development of basic expressive and receptive skills. Upon completion, students will be able to comprehend and respond with grammatical accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ASL 112 Elementary ASL II**  03 00 00 03
Prerequisites: ASL 111
Corequisites: None
Component: None
This course is a continuation of ASL 111 focusing on the fundamental elements of American Sign Language in a cultural context. Emphasis is placed on the progressive development of expressive and receptive skills. Upon completion, the students should be able to comprehend and respond with increasing accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ASL 181 ASL Lab 1**  00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of American Sign Language. Emphasis is placed on the progressive development of basic expressive and receptive skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive articulation Agreement for transferability as a premajor and/or elective course requirement.

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course provides an opportunity to enhance acquisition of the fundamental elements of American Sign Language. Emphasis is placed on the progressive development of basic expressive and receptive skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**ASL 211 Intermediate ASL I**

**Prerequisites:** ASL 112

**Corequisites:** None

**Component:** None

This course provides a review and expansion of the essential skills of American Sign Language. Emphasis is placed on the progressive development of expressive and receptive skills, study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively using American Sign Language about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ASL 212 Intermediate ASL II**

**Prerequisites:** ASL 211

**Corequisites:** None

**Component:** None

This course provides a continuation of ASL 211. Emphasis is placed on the continuing development of expressive and receptive skills, study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**AST 111 Descriptive Astronomy**

**Prerequisites:** None

**Corequisites:** None

**Component:** None

This course introduces an overall view of modern astronomy. Topics include an overview of the solar system, the sun, stars, galaxies, and the larger universe. Upon completion, students should be able to demonstrate an understanding of the universe around them. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**AST 111A Descriptive Astronomy Lab**

**Prerequisites:** None

**Corequisites:** AST 111

**Component:** None

The course is a laboratory to accompany AST 111. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 111 and which provide practical experience. Upon completion, students should be able to demonstrate an understanding of the universe around them. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**AST 151 General Astronomy I**

**Prerequisites:** None

**Corequisites:** AST 151A

**Component:** None

This course introduces the science of modern astronomy with a concentration on the solar system. Emphasis is placed on the history and physics of astronomy and an introduction to the solar system, including the planets, comets, and meteors. Upon completion, students should be able to demonstrate a general understanding of the solar system. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
AST 151A General Astronomy I Lab 00 02 00 01
Prerequisites: None
Corequisites: AST 151
Component: None
The course is a laboratory to accompany AST 151. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 151 and which provide practical experience. Upon completion, students should be able to demonstrate a general understanding of the solar system. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

AST 152 General Astronomy II 03 00 00 03
Prerequisites: AST 151
Corequisites: AST 152A
Component: None
This course is a continuation of AST 151 with primary emphasis beyond the solar system. Topics include the sun, stars, galaxies, and the larger universe, including cosmology. Upon completion, students should be able to demonstrate a working knowledge of astronomy. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

AST 152A General Astronomy II Lab 00 02 00 01
Prerequisites: AST 151
Corequisites: AST 152
Component: None
The course is a laboratory to accompany AST 152. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 152 and which provide practical experience. Upon completion, students should be able to demonstrate a working knowledge of astronomy. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

ATR 211 Robot Programming 02 03 00 03
Prerequisites: ELN 131 and ELN 233
Corequisites: None
Component: None
This course provides the operational characteristics of industrial robots and programming in their respective languages. Topics include robot programming utilizing teach pendants, PLCs, and personal computers; and the interaction of external sensors, machine vision, network systems, and other related devices. Upon completion, students should be able to program and demonstrate the operation of various robots.

ATR 212 Industrial Robots 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the operation of advanced industrial robots. Topics include the classification of robots, activators, grippers, work envelopes, computer interfaces, overlapping work envelopes, installation, and programming. Upon completion, students should be able to install, program, and troubleshoot industrial robots.

AUB 111 Painting & Refinishing I 02 06 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces the proper procedures for using automotive refinishing equipment and materials in surface preparation and application. Topics include federal, state, and local regulations, personal safety, refinishing equipment and materials, surface preparation, masking, application techniques, and other related topics. Upon completion, students should be able to identify and use proper equipment and materials in refinishing following accepted industry standards.

AUB 112 Painting & Refinishing II 02 06 00 04
Prerequisites: AUB 111
Corequisites: None
Component: None
This course covers advanced painting techniques and technologies with an emphasis on identifying problems encountered by the refinishing technician. Topics include materials application, color matching, correction of refinishing problems, and other related topics. Upon completion, students should be able to perform spot, panel, and overall refinishing repairs and identify and correct refinish problems.

AUB 114 Special Finishes 01 02 00 02
Prerequisites: AUB 111
Corequisites: None
Component: None
This course introduces multistage finishes, custom painting, and protective coatings. Topics include base coats, advanced intermediate coats, clear coats, and other related topics. Upon completion, students should be able to identify and apply specialized finishes based on accepted industry standards.

AUB 121 Non-Structural Damage I 01 04 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces safety, tools, and the basic fundamentals of body repair. Topics include shop safety, damage analysis, tools and equipment, repair techniques, materials selection, materials usage, and other related topics. Upon completion, students should be able to identify and repair minor direct and indirect damage including removal/repairing/ replacing of body panels to accepted standards.

AUB 122 Non-Structural Damage II 02 06 00 04
Prerequisites: AUB 121
Corequisites: None
Component: None
This course covers safety, tools, and advanced body repair. Topics include shop safety, damage analysis, tools and equipment, advanced repair techniques, materials selection, materials usage, movable glass, and other related topics. Upon completion, students should be able to identify and repair or replace direct and indirect damage to accepted standards including movable glass and hardware.

AUB 131 Structural Damage I 02 04 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces safety, equipment, structural damage analysis, and damage repairs. Topics include shop safety, design and construction, structural analysis and measurement, equipment, structural glass, repair techniques, and other related topics. Upon completion, students should be able to analyze and perform repairs to a vehicle which has received light/moderate structural damage.

AUB 132 Structural Damage II 02 06 00 04
Prerequisites: AUB 131
Corequisites: None
Component: None
This course provides an in-depth study of structural damage analysis and repairs to vehicles that have received moderate to heavy structural damage. Topics include shop safety, structural analysis and measurement, equipment, structural glass, advanced repair techniques, structural component replacement and alignment, and other related topics. Upon completion, students should be able to analyze and perform repairs according to industry standards.

AUB 134 Autobody MIG Welding 01 04 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the terms and procedures for welding the various metals found in today's autobody repair industry with an emphasis on personal/environmental safety. Topics include safety and precautionary measures, setup/operation of MIG equipment, metal identification methods, types of welds/joints, techniques, inspection methods, and other related topics. Upon completion, students should be able to demonstrate a basic knowledge of welding operations and safety procedures according to industry standards.

AUB 136 Plastics & Adhesives 01 04 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers safety, plastic and adhesive identification, and the various repair methods of automotive plastic components. Topics include safety, identification, preparation, material selection, and the various repair procedures including refinishing. Upon completion, students should be able to identify, remove, repair, and/or replace automotive plastic components in accordance with industry standards.

AUB 141 Mech & Elec Components I 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the basic principles of automotive mechanical and electrical components. Topics include personal and environmental safety and suspension and steering, electrical, brake, heating and air-conditioning, cooling, drive train, and restraint systems. Upon completion, students should be able to identify system components and perform basic system diagnostic checks and/or repairs according to industry standards.

AUB 142 Autobody Estimating 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course provides a comprehensive study of autobody estimating. Topics include collision damage analysis, industry regulations, flat-rate and estimated time, and collision estimating manuals. Upon completion, students should be able to prepare and interpret a damage report.

AUT 113 Automotive Servicing 1 00 06 00 02
Prerequisites: AUT 151, AUT 163, AUT 183, AUT 211, AUT 231
Corequisites: None
Component: None
This course is a lab used as an alternative to co-op placement. Emphasis is placed on shop operations, troubleshooting, testing, adjusting, repairing, and replacing components using appropriate test equipment and service information. Upon completion, students should be able to perform a variety of automotive repairs using proper service procedures and to operate appropriate equipment.

AUT 115 Engine Fundamentals 02 03 00 03
Prerequisites: None
Corequisites: AUT 116
Component: None
This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis/repair of automotive engines using appropriate tools, equipment, procedures, and service information. This course will become obsolete effective Fall 2008.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.

| This course covers electrical/electronic diagnosis/repair, including wiring diagrams, instrumentation, and electronic/computer-controlled devices and accessories. Topics include interpreting wiring diagrams and diagnosis and repair of chassis electrical and electronic systems. Upon completion, students should be able to read and interpret wiring diagrams and determine/perform needed
This course will become obsolete effective Fall 2008.

**AUT 163 Adv Auto Electricity Lab**

Prerequisites: None
Corequisites: AUT 163
Component: None
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, troubleshooting and emerging electrical/electronic systems technologies. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

**AUT 163A Chassis Electrical & Electronics Lab**

Prerequisites: AUT 161
Corequisites: AUT 163A
Component: None
This course covers electronic theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of electronics, lighting, gauges, horn, wiper, accessories, and body modules. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, and troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

**AUT 164 Automotive Electronics**

Prerequisites: AUT 161
Corequisites: None
Component: None
This course covers fundamentals of electrical/electronic circuitry, semi-conductors, and microprocessors. Topics include Ohm’s law, circuits, AC/DC current, solid state components, digital applications, and the use of digital multimeters. Upon completion, students should be able to apply Ohm’s law to diagnose and repair electrical/electronic circuits using digital multimeters and appropriate service information.

This course will become obsolete effective Fall 2008.

**AUT 171 Auto Climate Control**

Prerequisites: None
Corequisites: None
Component: None
This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis/repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
AUT 184 Engine Performance- Fuels Lab
Prerequisites: None
Corequisites: AUT 183
Component: None
This course provides a laboratory setting to enhance the skills for diagnosing and repairing fuel delivery/management and emission systems. Emphasis is placed on practical experiences that enhance the topics presented in AUT 183. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 183. This course will become obsolete effective Fall 2008.

AUT 211 Automotive Machining 02 06 00 04
Prerequisites: AUT 116 and AUT 116A
Corequisites: None
Component: None
This course covers engine machining processes for remanufacturing automotive engines. Emphasis is placed on cylinder head service, machining block surfaces, reconditioning connecting rod assemblies, camshafts, flywheels, and precision measurement. Upon completion, students should be able to explain the operation and proper use of automotive machining equipment.

AUT 221 Auto Transm/Transaxles 02 03 00 03
Prerequisites: None
Corequisites: AUT 221A
Component: None
This course covers operation, diagnosis, service, and repair of automatic transmissions/transaxles. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to explain operational theory, diagnose and repair automatic drive trains.

AUT 221A Auto Transm/Transax/ Drtrains Lab 00 03 00 01
Prerequisites: None
Corequisites: AUT 221
Component: None
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF hour standards for total hours. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to diagnose and repair automatic drive trains.

AUT 231 Manual Drive Trains/ Axles Lab 00 03 00 01
Prerequisites: None
Corequisites: AUT 231
Component: None
This course provides a laboratory setting to enhance the skills for diagnosing and repairing manual transmissions/transaxles, clutches, driveshafts, axles, and final drives. Emphasis is placed on practical experiences that enhance the topics presented in AUT 231. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in AUT 231. This course will become obsolete effective Fall 2008.

AUT 281 Adv Engine Performance 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course utilizes service information and specialized test equipment to diagnose and repair power train control systems. Topics include computerized ignition, fuel and emission systems, related diagnostic tools and equipment, data communication networks, and service information. Upon completion, students should be able to perform diagnosis and repair.

BAF 110 Principles of Banking 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamentals of bank functions in a descriptive fashion. Topics include banks and the monetary system, the relationship of banks to depositors, the payment functions, bank loans and accounting, regulations, and examinations. Upon completion, students should be able to demonstrate an understanding of the business of banking from a broad perspective.

BAF 111 Teller Training 03 00 00 03
Prerequisites: None
BAF 131 Fund of Bank Lending 03 00 00 03
Prerequisites: ACC 120
Corequisites: None
Component: None
This course provides an overview of the types of credit arrangements in which a finance charge is paid for the privilege of repaying debt in delayed payments. Topics include consumer credit policy, the loan process, servicing and collecting loans, consumer compliance, and evaluating credit risks. Upon completion, students should be able to identify collection policies and procedures, explain principles of credit evaluation, define open-end credit, and describe indirect lending.

BAF 141 Law & Banking: Principles 03 00 00 03
Prerequisites: RED-080
Corequisites: None
Component: None
This course provides an overview of the legal aspects of banking and the legal framework within which banks function. Topics include the court system, consumer protection, tangible and intangible property ownership, and the legalities and regulations of bank transactions. Upon completion, students should be able to discuss the non-technical aspects of the legal system and how these affect the bank’s organization and operation. This course is a unique concentration requirement of the Banking and Finance concentration in the Business Administration program.

BAF 222 Money and Banking 03 00 00 03
Prerequisites: RED-080
Corequisites: None
Component: None
This course provides a fundamental treatment of how money and banks function in the US and world economies. Topics include the roles of money in the US economy, the functions of the Federal Reserve Board, and the workings of monetary and fiscal policies. Upon completion, students should be able to explain how the monetary economy functions, how banks are creators of money, and the impact of the Federal Reserve. This course is a unique concentration requirement of the Banking and Finance concentration in the Business Administration program.

BAF 232 Consumer Lending 03 00 00 03
Prerequisites: RED-080
Corequisites: None
Component: None
This course provides an overview of banking teller operations, bank security, and customer relations in preparation for work as a bank teller. Topics include bank profitability, cash and cash handling, checks and other transactions, balancing and setting, and security threats and their detection. Upon completion, students should be able to discuss the components of teller performance and perform effectively as a teller after minimal on-the-job training.
Articulation Agreement general education core requirement in natural sciences/mathematics. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

Component: None
This course focuses on fundamental concepts of human biology. Topics include terminology, biochemistry, cell biology, tissues, and human organ systems, and an overview of microbiology, epidemiology, and control of microorganisms. Upon completion, students should be able to identify structures and functions of the human body and describe microorganisms and their significance in health and disease. This course is intended for certificate and diploma programs.

Component: None
This course provides an introduction to the classification, relationships, structure, and function of plants. Topics include reproduction and development of seed and non-seed plants, levels of organization, form and function of systems, and a survey of major taxa. Upon completion, students should be able to demonstrate comprehension of plant form and function, including selected taxa of both seed and non-seed plants. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

Component: None
This course introduces the principles and concepts of biology. Emphasis is placed on basic biological chemistry, cell structure and function, metabolism and energy transformation, genetics, evolution, classification, and other related topics. Upon completion, students should be able to demonstrate understanding of life at the molecular and cellular levels. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

Component: None
This course introduces environmental processes and the influence of human activities upon them. Topics include ecological concepts, population growth, natural resources, and a focus on current environmental problems from scientific, social, political, and economic perspectives. Upon completion, students should be able to demonstrate an understanding of environmental interrelationships and of contemporary environmental issues. This course is also available through the Virtual Learning Community (VLC).

This course provides a laboratory component to complement BIO 140. Emphasis is placed on laboratory and field experience. Upon completion, students should be able to demonstrate a practical understanding of environmental interrelationships and of contemporary environmental issues. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

This course provides a basic survey of human biology. Emphasis is placed on the basic structure and function of body systems and the medical terminology used to describe normal and pathological states. Upon completion, students should be able to demonstrate an understanding of normal anatomy and physiology and the appropriate use of medical terminology.

This course provides a basic study of the structure and function of the human body. Topics include a basic study of the body systems as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology and their interrelationships. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

This course is the first of a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

This course is the second in a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and the interrelationships of all body systems. This course has been Approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).
resistance, and immunity. Upon completion, students should be able to demonstrate knowledge of microorganisms and the disease process as well as aseptic and sterile techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**BIO 180 Biological Chemistry**  
**CLASS HRS** | **LAB HRS** | **CLINIC HRS** | **CREDIT HRS**  
--- | --- | --- | ---  
02 | 02 | 00 | 03

Prerequisites: None  
Corequisites: None  
Component: None

This course provides an introduction to basic biochemical processes in living systems. Topics include properties of carbohydrates, lipids, proteins, nucleic acids, vitamins, and buffers, with emphasis on biosynthesis, degradation, function, and equilibrium. Upon completion, students should be able to demonstrate an understanding of fundamental biochemical concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**BIO 221 Botany I**  
**CLASS HRS** | **LAB HRS** | **CLINIC HRS** | **CREDIT HRS**  
--- | --- | --- | ---  
03 | 03 | 00 | 04

Prerequisites: BIO 112  
Corequisites: None  
Component: None

This course provides an introduction to the higher vascular plants. Topics include the structure, function, growth, life cycles, reproduction, and economic importance. Upon completion, students should be able to describe the biology and value of the higher vascular plants. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**BIO 222 Botany II**  
**CLASS HRS** | **LAB HRS** | **CLINIC HRS** | **CREDIT HRS**  
--- | --- | --- | ---  
03 | 03 | 00 | 04

Prerequisites: BIO 112  
Corequisites: None  
Component: None

This course includes a survey of the plant kingdom complete with a plant collection and field work. Emphasis is placed on ecology and the taxonomy of higher plants. Upon completion, students should be able to classify common plants. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**BIO 223 Field Botany**  
**CLASS HRS** | **LAB HRS** | **CLINIC HRS** | **CREDIT HRS**  
--- | --- | --- | ---  
02 | 03 | 00 | 03

Prerequisites: BIO 112  
Corequisites: None  
Component: None

This course provides a field and laboratory study of local flora. Emphasis is placed on local flora classification, identification, and ecology by the use of keys and field studies. Upon completion, students should be able to use keys for the classification and identification of local flora and to demonstrate an understanding of plant ecology. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**BIO 230 Entomology**  
**CLASS HRS** | **LAB HRS** | **CLINIC HRS** | **CREDIT HRS**  
--- | --- | --- | ---  
03 | 03 | 00 | 04

Prerequisites: BIO 112  
Corequisites: None  
Component: None

This course covers the biology of insects. Topics include harmful and beneficial insects, their identification, classification, life cycles, behavior, distribution, economic importance, and the methods involved in collection and preservation. Upon completion, students should be able to identify common insects and describe their biology and ecology. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**BIO 232 Vertebrate Zoology**  
**CLASS HRS** | **LAB HRS** | **CLINIC HRS** | **CREDIT HRS**  
--- | --- | --- | ---  
03 | 03 | 00 | 04

Prerequisites: BIO 112  
Corequisites: None  
Component: None

This course introduces the principles of animal biology of the chordate phylum. Emphasis is placed on the diversity, morphology, reproduction, development, behavior, ecology, evolution, and importance of the chordates. Upon completion, students should be able to demonstrate increased knowledge and comprehension of zoology as it applies to life. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**BIO 240 Waste Management**  
**CLASS HRS** | **LAB HRS** | **CLINIC HRS** | **CREDIT HRS**  
--- | --- | --- | ---  
03 | 00 | 00 | 03

Prerequisites: BIO 110 or BIO 111 or BIO 140 and BIO 140A  
Corequisites: None  
Component: None

This course is a study of human use of and impact on the environment. Topics include how human activities can negatively affect the land and water and how to avoid and cope with waste problems. Upon completion, students should be able to identify both hazardous and nonhazardous waste products and solutions for their management. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**BIO 250 Genetics**  
**CLASS HRS** | **LAB HRS** | **CLINIC HRS** | **CREDIT HRS**  
--- | --- | --- | ---  
03 | 03 | 00 | 04

Prerequisites: BIO 112  
Corequisites: None  
Component: None

This course covers principles of prokaryotic and eukaryotic cell genetics. Emphasis is placed on the molecular basis of heredity, chromosome structure, patterns of Mendelian and non-Mendelian inheritance, evolution, and biotechnological applications. Upon completion, students should be able to recognize and describe genetic phenomena and demonstrate knowledge of important genetic principles. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course covers the interpretation of blueprints and specifications component. Corequisites: None

Prerequisites:

BIO 110, BIO 111, BIO 163, BIO 165, or BIO 168

Upon completion, students should be able to demonstrate knowledge and skills including microscopy, aseptic technique, staining, culture methods, and identification of microorganisms. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**BIO 280 Biotechnology**

Prerequisites: BIO 112 and CHM 132

Corequisites: None

Component: None

This course provides an intensive laboratory experience with an investigative approach. Emphasis is placed on the use of various laboratory equipment and field techniques to enhance research and measurement competencies in ecology, natural resources, and other related topics. Upon completion, students should be able to demonstrate competencies with laboratory equipment and prepare a presentation of a selected research topic. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Prerequisites: BTC 285

Corequisites: None

Component: None

This course covers the principles and practices of modern immunology, including the interactions between the various cellular and chemical components of the immune response. Topics include antigens, humoral immunity, cellular immunity, complement, immunological assays, and hybridoma use and production. Upon completion, students should be able to discuss the immune response, perform immunological assays, and make monoclonal antibody-producing hybridomas.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
BUS 121 Business Math  02 02 00 03
Prerequisites: MAT 070 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course covers fundamental mathematical operations and their application to business problems. Topics include payroll, pricing, interest and discount, commission, taxes, and other pertinent uses of mathematics in the field of business. Upon completion, students should be able to apply mathematical concepts to business.

BUS 125 Personal Finance  03 00 00 03
Prerequisites: MAT-060 RED-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers a study of individual and family financial decisions. Emphasis is placed on building useful skills in buying, managing finances, increasing resources, and coping with current economic conditions. Upon completion, students should be able to develop a personal financial plan.

BUS 135 Principles of Supervision  03 00 00 03
Prerequisites: RED-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the basic responsibilities and duties of the supervisor and his/her relationship to higher-level supervisors, subordinates, and associates. Emphasis is placed on effective utilization of the work force and understanding the role of the supervisor. Upon completion, students should be able to apply supervisory principles in the work place. This course is also available through the Virtual Learning Community (VLC).

BUS 137 Principles of Management  03 00 00 03
Prerequisites: ENG-080 RED-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to be an overview of the major functions of management. Emphasis is placed on planning, organizing, controlling, directing, and communicating. Upon completion, students should be able to work as contributing members of a team utilizing these functions of management. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

BUS 139 Entrepreneurship I  03 00 00 03
Prerequisites: BUS-110 and ENG-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an introduction to the principles of entrepreneurship. Topics include self-analysis of entrepreneurship readiness, the role of entrepreneur in economic development, legal problems, organizational structure, sources of financing, budgeting, and cash flow. Upon completion, students should have an understanding of the entrepreneurial process and issues faced by entrepreneurs.

BUS 153 Human Resource Management  03 00 00 03
Prerequisites: RED-070 or Placement Test Credit Equivalent
Corequisites: None

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course introduces the functions of personnel/human resource management within an organization. Topics include equal opportunity and the legal environment, recruitment and selection, performance appraisal, employee development, compensation planning, and employee relations. Upon completion, students should be able to anticipate and resolve human resource concerns.

**BUS 171 Government Contracts** 03 00 00 03
Prerequisites: ENG-080, MAT-060, and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an introduction to the procurement process, concepts, policies and procedures associated with government contracting. Topics include procurement requirements, work specifications, procurement requests, and acquisition work planning. Upon completion, students should be able to demonstrate an understanding of the acquisition and contract management functions.

**BUS 173 Procurement Management** 03 00 00 03
Prerequisites: ENG-080, MAT-070, and RED-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course examines purchasing and materials management including function, organization, quality and quantity considerations, pricing policies, supplier selection, and ethical and legal implications. Topics include purchasing procedures, value analysis, inventory control, logistics, capital equipment, budgets, and institutional and governmental purchasing practices. Upon completion, students should be able to demonstrate an understanding of the concepts and techniques of purchasing and materials management.

**BUS 175 Contract Negotiations** 03 00 00 03
Prerequisites: ENG-080 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers theory, strategies, techniques and tactics for negotiating contracts, and principles and practices of negotiations for government, corporate or institutional procurements. Topics include preparation and conduct of negotiations and methods of dealing with situations under different types of negotiations. Upon completion, students should be able to effectively negotiate contracts.

**BUS 217 Employment Law and Regulations** 03 00 00 03
Prerequisites: BUS 115
Corequisites: None
Component: None
This course introduces the principle laws and regulations affecting public and private organizations and their employees or prospective employees. Topics include fair employment practices, EEO, affirmative action, and employee rights and protections. Upon completion, students should be able to evaluate organization policy for compliance and assure that decisions are not contrary to law. This course is also available through the Virtual Learning Community (VLC).

**BUS 225 Business Finance** 02 02 00 03
Prerequisites: ACC 120 and CIS-110, CIS-111, or OST-137
Corequisites: None
Component: None
This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management.

**BUS 228 Business Statistics** 02 02 00 03
Prerequisites: Take MAT 115, MAT 140 or MAT 161, and CIS-110 or CIS-111 and RED-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the use of statistical methods and tools in evaluating research data for business applications. Emphasis is placed on basic probability, measures of spread and dispersion, central tendency, sampling, regression analysis, and inductive inference. Upon completion, students should be able to apply statistical problem solving to business. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**BUS 230 Small Business Management** 03 00 00 03
Prerequisites: ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the challenges of entrepreneurship including the startup and operation of a small business. Topics include market research techniques, feasibility studies, site analysis, financing alternatives, and managerial decision making. Upon completion, students should be able to develop a small business plan.

**BUS 234 Training and Development** 03 00 00 03
Prerequisites: ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers developing, conducting, and evaluating employee training with attention to adult learning principles. Emphasis is placed on conducting a needs assessment, using various instructional approaches, designing the learning environment, and locating learning resources. Upon completion, students should be...
BUS 236 Adv Training & Dev  
03 00 00 03
Prerequisites: BUS 234
Corequisites: None
Component: None
This course covers the skills necessary for presenting active training programs applying the principles learned in BUS 234. Emphasis is placed on the equipment and materials employed by various media techniques. Upon completion, students should be able to make a variety of presentations based on audience, purpose of presentation, and presentation objectives.

BUS 240 Business Ethics  
03 00 00 03
Prerequisites: RED-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces contemporary and controversial ethical issues that face the business community. Topics include moral reasoning, moral dilemmas, law and morality, equity, justice and fairness, ethical standards, and moral development. Upon completion, students should be able to demonstrate an understanding of their moral responsibilities and obligations as members of the workforce and society.

BUS 252 Labor Relations  
03 00 00 03
Prerequisites: ENG-080 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the history of the organized labor movement and the contractual relationship between corporate management and employees represented by a union. Topics include labor laws and unfair labor practices, the role of the NLRB, organizational campaigns, certification/decertification elections, and grievance procedures. Upon completion, students should be able to act in a proactive and collaborative manner in an environment where union representation exists. This course is also available through the Virtual Learning Community (VLC).

BUS 253 Leadership and Management Skills  
03 00 00 03
Prerequisites: ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course includes a study of the qualities, behaviors, and personal styles exhibited by leaders. Emphasis is placed on coaching, counseling, team building, and employee involvement. Upon completion, students should be able to identify and exhibit the behaviors needed for organizational effectiveness.

BUS 255 Org Behavior in Business  
03 00 00 03
Prerequisites: RED-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides students in the Human Resource Management concentration the opportunity to reinforce their learning experiences from preceding HRM courses. Emphasis is placed on application of day-to-day HRM functions by completing in-basket exercises and through simulations. Upon completion, students should be able to determine the appropriate actions called for by typical events that affect the status of people at work. This course is a unique concentration requirement of the Human Resource Management concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

BUS 256 Recruiting & Selection  
03 00 00 03
Prerequisites: ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides students in the Human Resource Management concentration the opportunity to reinforce their learning experiences from preceding HRM courses. Emphasis is placed on application of day-to-day HRM functions by completing in-basket exercises and through simulations. Upon completion, students should be able to determine the appropriate actions called for by typical events that affect the status of people at work. This course is a unique concentration requirement of the Human Resource Management concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

BUS 258 Compensation and Benefits  
03 00 00 03
Prerequisites: ENG-080 and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the basic principles involved in managing the employment process. Topics include personnel planning, recruiting, interviewing and screening techniques, maintaining employee records; and voluntary and involuntary separations. Upon completion, students should be able to acquire and retain employees who match position requirements and fulfill organizational objectives. This course is a unique concentration requirement of the Human Resource Management concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

BUS 259 HRM Applications  
03 00 00 03
Prerequisites: All courses required: BUS 217, BUS 234, BUS 256, BUS 258
Corequisites: None
Component: None
This course provides students in the Human Resource Management concentration the opportunity to reinforce their learning experiences from preceding HRM courses. Emphasis is placed on application of day-to-day HRM functions by completing in-basket exercises and through simulations. Upon completion, students should be able to determine the appropriate actions called for by typical events that affect the status of people at work. This course is a unique concentration requirement of
the Human Resource Management concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

**BUS 260 Business Communication** 03 00 00 03
Prerequisites: ENG 111 and CIS 110, CIS 111, CIS 113, or OST 137
Corequisites: None
Component: None
This course is designed to develop skills in writing business communications. Emphasis is placed on business reports, correspondence, and professional presentations. Upon completion, students should be able to communicate effectively in the workplace.

**BUS 261 Diversity in Management** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is designed to help managers recognize the need to incorporate diversity into all phases of organizational management. Topics include self-evaluation, management, sexual harassment, workforce diversity, dual careers, role conflict, and communication issues. Upon completion, students should be able to implement solutions that minimize policies, attitudes, and stereotypical behaviors that block effective team building.

**BUS 274 Contract Administration** 03 00 00 03
Prerequisites: ENG-080, MAT-070, and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the technical and fundamental procedures of contract management. Topics include contract oversight, quality assurance, compliance, financing, cost controls, documentation, terminations and disputes, subcontract management, and audit. Upon completion, students should be able to apply the principles of administering contracts.

**BUS 276 Government Contract Law** 03 00 00 03
Prerequisites: BUS 115
Corequisites: None
Component: None
This course provides an introduction to government contract law, contract clauses and provisions, and legal aspects associated with contracting. Topics include contractual relationships with the federal government, state and municipal agencies, contract formation, governmental liability, and the dispute process. Upon completion, students should be able to apply ethical issues and laws covered to procurement and contract management decisions.

**BUS 278 Contract Cost and Pricing** 03 00 00 03
Prerequisites: BUS 121, ENG-080, and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the establishment and administration of equitable costing and pricing systems in contracting for goods and services. Emphasis is placed on determining total price and estimating the elements of cost including labor, materials, indirect costs, and profit. Upon completion, students should be able to apply cost and pricing techniques to procurement and contracting issues.

**BUS 285 Business Management Issues** 02 00 00 03
Prerequisites: ACC 120, BUS 110, BUS 115, BUS 137, MKT 120, and ECO 251 or ECO 252
Corequisites: None
Component: None
This course covers contemporary issues that affect successful businesses and their managers and employees. Emphasis is placed on using case studies and exercises to develop analytical and problem-solving skills, ethics, quality management concepts, team skills, and effective communication. Upon completion, students should be able to apply the specific knowledge and skills covered to become more effective managers and employees.

**CAR 110 Introduction to Carpentry** 02 00 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the student to the carpentry trade. Topics include duties of a carpenter, hand and power tools, building materials, construction methods, and safety. Upon completion, students should be able to identify hand and power tools, common building materials, and basic construction methods.

**CAR 111 Carpentry I** 03 15 00 08
Prerequisites: None
Corequisites: None
Component: CAR 111AA, CAR 111BB
This course introduces the theory and construction methods associated with the building industry, including framing, materials, tools, and equipment. Topics include safety, hand/power tool use, site preparation, measurement and layout, footings and foundations, construction framing, and other related topics. Upon completion, students should be able to safely lay out and perform basic framing skills with supervision.

**CAR 112 Carpentry II** 03 15 00 08
Prerequisites: A set of courses is required: CAR 111 or CAR111AA and CAR 111BB
Corequisites: None
Component: CAR 112AA, CAR112BB
This course covers the advanced theory and construction methods associated with the building industry including framing and exterior finishes. Topics include safety, hand/power tool use, measurement and layout, construction framing, exterior trim and finish, and other related topics. Upon completion, students should be able to safely frame and apply exterior finishes to a residential building with supervision.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
CAR 113 Carpentry III  03 09 00 06
Prerequisites: A set of courses is required: CAR 111 or CAR 111AA and CAR 111BB
Corequisites: None
Component: None
This course covers interior trim and finishes. Topics include safety, hand/power tool use, measurement and layout, specialty framing, interior trim and finishes, cabinetry, and other related topics. Upon completion, students should be able to safely install various interior trim and finishes in a residential building with supervision.

CAR 114 Residential Building Codes  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers building codes and the requirements of state and local construction regulations. Emphasis is placed on the minimum requirements of the North Carolina building codes related to residential structures. Upon completion, students should be able to determine if a structure is in compliance with North Carolina building codes.

CAR 115 Residential Planning/Estimating  03 00 00 03
Prerequisites: All Courses Required: BPR 130
Corequisites: None
Component: None
This course covers project planning, management, and estimating for residential or light commercial buildings. Topics include planning and scheduling, interpretation of working drawings and specifications, estimating practices, and other related topics. Upon completion, students should be able to perform quantity take-offs and cost estimates.

CCT 112 Ethics & High Technology  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers ethical considerations and accepted standard practices applicable to technological investigations and computer privacy issues relative to the cyber crime investigator. Topics include illegal and unethical investigative activities, end-justifying-the-means issues, and privacy issues of massive personal database information gathered by governmental sources. Upon completion, students should be able to examine their own value system and apply ethical considerations in identifiable cyber crime investigations.

CCT 231 Technology Crimes & Law  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the applicable technological laws dealing with the regulation of cyber security and criminal activity. Topics include an examination of state, federal and international laws regarding cyber crime with an emphasis on both general and North Carolina statutes. Upon completion, students should be able to identify the elements of cyber crime activity and discuss the trends of evolving laws.

CCT 240 Data Recovery Techniques  02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the unique skills and methodologies necessary to assist in the investigation and prosecution of cyber crimes. Topics include hardware and software issues, recovering erased files, overcoming encryption, advanced imaging, transient data, Internet issues and testimony considerations. Upon completion, students should be able to recover digital evidence, extract information for criminal investigation and legally seize criminal evidence.

CHM 081 Basic Chemistry I  03 02 00 04
Prerequisites: None
Corequisites: MAT 070
Component: None
This course covers basic fundamental principles and laws of chemistry. Topics include matter, energy, atomic structure, periodic classification, nomenclature, bonding, molecular geometry, measurement, chemical reactions, stoichiometry, and gas laws. Upon completion, students should be able to explain and apply the chemical concepts and laboratory skills needed for success in college-level chemistry courses.

CHM 082 Basic Chemistry II  03 02 00 04
Prerequisites: CHM 081
Corequisites: None
Component: None
This course provides a continuation of the study of basic fundamental principles and laws of chemistry. Topics include intermolecular forces, solutions, acids and bases, redox reactions, chemical equilibrium, with elements of organic and nuclear chemistry. Upon completion, students should be able to explain and apply basic chemical concepts and laboratory skills needed for success in college-level chemistry courses.

CHM 090 Chemistry Concepts  04 00 00 04
Prerequisites: None
Corequisites: None
Component: None
This course provides a non-laboratory based introduction to basic concepts of chemistry. Topics include measurements, matter, energy, atomic theory, bonding, molecular structure, nomenclature, balancing equations, stoichiometry, solutions, acids and bases, gases, and basic organic chemistry. Upon completion, students should be able to understand and apply basic chemical concepts necessary for success in college-level science courses.
Course Descriptions

CHM 092 Fundamentals of Chemistry 03 02 00 04
Prerequisites: None
Corequisites: None
Component: None
This course covers fundamentals of chemistry with laboratory applications. Topics include measurements, matter, energy, atomic theory, bonding, molecular structure, nomenclature, balancing equations, stoichiometry, solutions, acids and bases, gases, and basic organic chemistry. Upon completion, students should be able to understand and apply basic chemical concepts and demonstrate basic laboratory skills necessary for success in college-level science courses.

CHM 094 Basic Biological Chemistry 03 02 00 04
Prerequisites: Take 1 course: MAT 060, MAT 070, MAT 080, MAT 090, MAT 120, MAT 121, MAT 161, MAT 171 OR MAT 175
Corequisites: MAT 070
Component: None
This course introduces the chemistry important to biological processes. Emphasis is placed on the aspects of general, organic, and biological chemistry that apply to biological systems and processes. Upon completion, students should be able to demonstrate an understanding of the basic biological chemistry necessary for success in college-level biology courses.

CHM 115 Concepts in Chemistry 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic chemical concepts and their applications to daily life for non-science majors. Topics include air pollution, global warming, energy, world of polymers, water and its importance to a technological society, food, drugs, and nuclear chemistry. Upon completion, students should be able to discuss, apply, and appreciate the impact of chemistry on modern society. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 115A Concepts in Chemistry Lab 00 02 00 01
Prerequisites: None
Corequisites: CHM 115
Component: None
This course is a laboratory for CHM 115. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 115. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical concepts presented in CHM 115. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 130A General, Organic, & Biochemistry Lab 00 02 00 01
Prerequisites: None
Corequisites: CHM 130
Component: None
This course is a laboratory for CHM 130. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 130. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 130. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 131 Introduction to Chemistry 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental concepts of inorganic chemistry. Topics include measurement, matter and energy, atomic and molecular structure, nuclear chemistry, stoichiometry, chemical formulas and reactions, chemical bonding, gas laws, solutions, and acids and bases. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 131A Introduction to Chemistry Lab 00 03 00 01
Prerequisites: None
Corequisites: CHM 131
Component: None
This course is a laboratory to accompany CHM 131. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 131. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 131. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 132 Organic and Biochemistry 03 03 00 04
Prerequisites: CHM 131 and CHM 131A or CHM 151
Corequisites: None
Component: None
This course provides a survey of major functional classes of compounds in organic and biochemistry. Topics include structure, properties, and reactions of the major organic and biological molecules and basic principles of metabolism. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts needed to pursue studies in related professional fields. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 135 Survey of Chemistry I 03 02 00 04
Prerequisites: MAT 070
Corequisites: None
Component: None
This course provides an introduction to inorganic chemistry. Emphasis is placed on measurement, atomic structure, bonding, molecular geometry, nomenclature, reactions, the mole concept, stoichiometric calculations, states of matter, and the gas laws. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 136 Survey of Chemistry II 03 02 00 04
Prerequisites: CHM 135
Corequisites: None
Component: None
This course is a continuation of CHM 135 with further study of inorganic reactions and an introduction to organic, biological, and nuclear chemistry. Topics include solutions, acid-base theory, redox reactions, chemical kinetics, organic chemistry, biochemistry, and nuclear chemistry. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 151 General Chemistry I 03 03 00 04
Prerequisites: MAT 161
Corequisites: None
Component: None
This course covers fundamental principles and laws of chemistry. Topics include measurement, atomic and molecular structure, periodicity, chemical reactions, chemical bonding, stoichiometry, thermochemistry, gas laws, and solutions. Upon completion, students should be able to demonstrate an understanding of fundamental chemical laws and concepts as needed in CHM 152. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 152 General Chemistry II 03 03 00 04
Prerequisites: CHM 151
Corequisites: None
Component: None
This course provides a continuation of the study of the fundamental principles and laws of chemistry. Topics include kinetics, equilibrium, ionic and redox equations, acid-base theory, electrochemistry, thermodynamics, introduction to nuclear and organic chemistry, and complex ions. Upon completion, students should be able to demonstrate an understanding of chemical concepts as needed to pursue further study in chemistry and related professional fields. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

CHM 251 Organic Chemistry I 03 03 00 04
Prerequisites: CHM 152
Corequisites: None
Component: None
This course provides a systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of hydrocarbons, alkyl halides, alcohols, and ethers; further topics include isomerization, stereochemistry, and spectroscopy. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of covered organic topics as needed in CHM 252. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CHM 252 Organic Chemistry II 03 03 00 04
Prerequisites: CHM 251
Corequisites: None
Component: None
This course provides continuation of the systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of aromatics, aldehydes, ketones, carboxylic acids and derivatives, amines and heterocyclics; multi-step synthesis will be emphasized. Upon completion, students should be able to demonstrate an understanding of organic concepts as needed to pursue further study in chemistry and related professional fields. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CIS 070 Fundamentals of Computing 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course covers fundamental functions and operations of the computer. Topics include identification of components, overview of operating systems, and other basic computer operations. Upon completion, students should be able to operate computers, access files, print documents and perform basic applications operations.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
CIS 110 Introduction to Computers  02  02  00  03
Prerequisites:  RED-070 or Placement Test Credit Equivalent
Corequisites:  None
Component:  None
This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option). This course is also available through the Virtual Learning Community (VLC).

CIS 111 Basic PC Literacy  01  02  00  02
Prerequisites:  RED-070 or Placement Test Credit Equivalent
Corequisites:  None
Component:  None
This course provides an overview of computer concepts. Emphasis is placed on the use of personal computers and software applications for personal and fundamental workplace use. Upon completion, students should be able to demonstrate basic personal computer skills. This course is also available through the Virtual Learning Community (VLC).

CIS 113 Computer Basics  00  02  00  01
Prerequisites:  None
Corequisites:  None
Component:  None
This course introduces basic computer usage for non-computer majors. Emphasis is placed on developing basic personal computer skills. Upon completion, students should be able to demonstrate competence in basic computer applications. This course is also available through the Virtual Learning Community (VLC).

CIS 115 Intro to Prog & Logic  02  03  00  03
Prerequisites:  Take 1 course: MAT 070, MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, or MAT 175
Corequisites:  None
Component:  None
This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem solving methods, algorithm design, and logic control structures. Upon completion, students should be able to manage files with operating system commands, use top-down algorithm design, and implement algorithmic solutions in a programming language. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option). This course is also available through the Virtual Learning Community (VLC).

CIS 162 Multimedia Presentation Software  02  02  00  03
Prerequisites:  CIS 110 or CIS 111
Corequisites:  None
Component:  None
This course is designed to integrate visual and audio resources using presentation software in a simple interactive multimedia project. Emphasis is placed upon design and audience considerations, general prototyping, and handling of media resources. Upon completion, students should be able to demonstrate an original interactive multimedia presentation implementing all of these resources in a professional manner.

CIV 110 Statics/Strength of Materials  02  06  00  04
Prerequisites:  MAT 121, MAT 161, MAT 171, or MAT 175
Corequisites:  None
Component:  None
This course includes vector analysis, equilibrium of force systems, friction, sectional properties, stress/strain, and deformation. Topics include resultants and components of forces, moments and couples, free-body diagrams, shear and moment diagrams, trusses, frames, beams, columns, connections, and combined stresses. Upon completion, students should be able to analyze simple structures.

CIV 111 Soils and Foundations  02  03  00  03
Prerequisites:  CIV 110
Corequisites:  None
Component:  None
This course presents an overview of soil as a construction material using both analysis and testing procedures. Topics include index properties, classification, stress analysis, compressibility, compaction, dewatering, excavation, stabilization, settlement, and foundations. Upon completion, students should be able to perform basic soil tests and analyze engineering properties of soil.

CIV 125 Civil/Surveying CAD  01  06  00  03
Prerequisites:  None
Corequisites:  None
Component:  None
This course introduces civil/surveying computer-aided drafting (CAD) software. Topics include drawing, editing, and dimensioning commands; plotting; and other related civil/surveying topics. Upon completion, students should be able to produce civil/surveying drawings using CAD software.

CIV 210 Engineering Materials  01  03  00  02
Prerequisites:  None
Corequisites:  None
Component:  None
This course covers the behavior and properties of Portland cement and asphaltic concretes and laboratory and field testing. Topics include cementing agents and aggregates; water and admixtures; proportioning, production, placing, consolidation, and curing; and inspection methods. Upon completion, students should be able to...
proportion concrete mixes to attain predetermined strengths and other properties and perform standard control tests.

CIV 211 Hydraulics and Hydrology 02 03 00 03
Prerequisites: CIV 110 or MEC 250
Corequisites: None
Component: None
This course introduces the basic engineering principles and characteristics of hydraulics and hydrology. Topics include precipitation and runoff, fluid statics and dynamics, flow measurement, and pipe and open channel flow. Upon completion, students should be able to analyze and size drainage structures.

CIV 212 Environmental Planning 02 03 00 03
Prerequisites: CIV 211
Corequisites: None
Component: None
This course covers water and wastewater technology, erosion and sedimentation control, and other related topics. Topics include collection, treatment, and distribution of water and wastewater and erosion and sedimentation control law. Upon completion, students should be able to demonstrate knowledge of water and wastewater systems and prepare erosion and sedimentation control plans.

CIV 222 Reinforced Concrete 02 03 00 03
Prerequisites: CIV 110
Corequisites: None
Component: None
This course introduces the basic elements of reinforced concrete and masonry structures. Topics include analysis and design of reinforced concrete beams, slabs, columns, footings, and retaining walls; load-bearing masonry walls; and ACI manuals and codes. Upon completion, students should be able to analyze and design components of a structure using reinforced concrete and masonry elements and utilize appropriate ACI publications.

CIV 230 Construction Estimating 02 03 00 03
Prerequisites: One course required: CIS 110, CIS 111 or ERG 115
Corequisites: None
Component: None
This course covers quantity take-offs of labor, materials, and equipment and calculation of direct and overhead costs for a construction project. Topics include the interpretation of working drawings and specifications, types of contracts and estimates, building codes, bidding techniques and procedures, and estimating software. Upon completion, students should be able to prepare a detailed cost estimate and bid documents for a construction project.

CIV 240 Project Management 02 03 00 03
Prerequisites: CIV 210 and EGR 115
Corequisites: None
Component: None
This course introduces construction planning and scheduling techniques and project management software. Topics include construction safety, operation analysis, construction scheduling, construction control systems, claims and dispute resolutions, project records, and documentation. Upon completion, students should be able to demonstrate an understanding of the roles of construction project participants, maintain construction records, and prepare construction schedules.

CIV 250 Civil Eng Technology Project 01 03 00 02
Prerequisites: Departmental approval
Corequisites: None
Component: None
This course includes an integrated team approach to civil engineering technology projects. Emphasis is placed on project proposal, site selection, analysis/design of structures, construction material selection, time and cost estimating, planning, and management of a project. Upon completion, students should be able to apply team concepts, prepare estimates, submit bid proposals, and manage projects.

CJC 100 Basic Law Enforcement Training 09 30 00 19
Prerequisites: None
Corequisites: None
Component: None
This course covers the skills and knowledge needed for entry-level employment as a law enforcement officer in North Carolina. Topics are divided into general units of study: legal, patrol duties, law enforcement communications, investigations, practical application and sheriff-specific. Upon successful completion, the student will be able to demonstrate competence in topics and areas required for the state comprehensive certification examination. This is a certificate-level course.

CJC 111 Introduction to Criminal Justice 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, students should be able to define and describe the major system components and their interrelationships and evaluate career options. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CJC 112 Criminology 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analysis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion,
students should be able to explain and discuss various theories of crime causation and societal response.

CJC 113 Juvenile Justice 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court structure/procedures, function and jurisdiction of juvenile agencies, processing/detention of juveniles, and case disposition. This course is also available through the Virtual Learning Community (VLC).

CJC 114 Investigative Photography 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course covers the operation of digital photographic equipment and its application to criminal justice. Topics include the use of digital cameras, storage of digital images, the retrieval of digital images and preparation of digital images as evidence. Upon completion, students should be able to demonstrate and explain the role and use of digital photography, image storage and retrieval in criminal investigations.

CJC 116 Introduction to Information Security 03 00 00 03
Prerequisites: CIS 110 or CIS 111
Corequisites: None
Component: None
This course introduces the students to undercover techniques necessary to identify information security breaches and establish, maintain and monitor information security systems. Emphasis will be placed on the investigative tools used to collect evidence in cases of illegal activity. Upon completion students should be able to evaluate information systems, identify security problems and provide procedures to guard against security breaches. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

CJC 121 Law Enforcement Operations 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces fundamental law enforcement operations. Topics include the contemporary evolution of law enforcement operations and related issues. Upon completion, students should be able to explain theories, practices, and issues related to law enforcement operations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CJC 122 Community Policing 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the historical, philosophical, and practical dimensions of community policing. Emphasis is placed on the empowerment of police and the community to find solutions to problems by forming partnerships. Upon completion, students should be able to define community policing, describe how community policing strategies solve problems, and compare community policing to traditional policing.

CJC 131 Criminal Law 03 00 00 03
Prerequisites: ENG 090 ENG 090A RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the history/evolution/principles and contemporary applications of criminal law. Topics include sources of substantive law, classification of crimes, parties to crime, elements of crimes, matters of criminal responsibility, and other related topics. Upon completion, students should be able to discuss the sources of law and identify, interpret, and apply the appropriate statutes/elements.

CJC 132 Court Procedure & Evidence 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers judicial structure/process/procedure from incident to disposition, kinds and degrees of evidence, and the rules governing admissibility of evidence in court. Topics include consideration of state and federal courts, arrest, search and seizure laws, exclusionary and statutory rules of evidence, and other related issues. Upon completion, students should be able to identify and discuss procedures necessary to establish a lawful arrest/search, proper judicial procedures, and the admissibility of evidence. This course is also available through the Virtual Learning Community (VLC).

CJC 141 Corrections 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the history, major philosophies, components, and current practices and problems of the field of corrections. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, students should be able to explain the various components, processes, and functions of the correctional system. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Course Descriptions

CJC 144 Crime Scene Processing 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theories and practices of crime scene processing and investigating. Topics include legal considerations at the crime scene, processing indoor and outdoor scenes, recording, note taking, collection and preservation of evidence and submission to the crime laboratory. Upon completion, the student should be able to evaluate and search various crime scenes and demonstrate the appropriate techniques.

CJC 145 Crime Scene CAD 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the student to CAD software for crime scenes. Topics include drawing, editing, file management and drafting theory and practices. Upon completion, students should be able to produce and plot a crime scene drawing.

CJC 146 Trace Evidence 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of trace evidence as it relates to forensic science. Topics include collection, packaging, and preservation of trace evidence from crime scenes such as bombings, fires and other scenes. Upon completion, students should be able to demonstrate the fundamental concepts of trace evidence collection, preservation and submission to the crime laboratory.

CJC 151 Introduction to Loss Prevention 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the concepts and methods related to commercial and private security systems. Topics include the historical, philosophical, and legal basis of security, with emphasis on security surveys, risk analysis, and associated functions. Upon completion, students should be able to demonstrate and understand security systems, risk management, and the laws relative to loss prevention.

CJC 193 Selected Topics in Criminal Justice 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline.

CJC 211 Counseling 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic elements of counseling and specific techniques applicable to the criminal justice setting. Topics include observation, listening, recording, interviewing, and problem exploration necessary to form effective helping relationships. Upon completion, students should be able to discuss and demonstrate the basic techniques of counseling.

CJC 212 Ethics & Comm Relations 03 00 00 03
Prerequisites: ENG 090 ENG 090A RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations. This course is also available through the Virtual Learning Community (VLC).

CJC 213 Substance Abuse 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is a study of substance abuse in our society. Topics include the history and classifications of drug abuse and the social, physical, and psychological impact of drug abuse. Upon completion, students should be able to identify various types of drugs, their effects on human behavior and society, and treatment modalities.

CJC 214 Victimology 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the study of victims. Emphasis is placed on roles/characteristics of victims, victim interaction with the criminal justice system and society, current victim assistance programs, and other related topics. Upon completion, students should be able to discuss and identify victims, the uniqueness of victims’ roles, and current victim assistance programs.

CJC 215 Organization & Administration 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course introduces the components and functions of organization and administration as it applies to the agencies of the criminal justice system. Topics include operations/functions of organizations; recruiting, training, and retention of personnel; funding and budgeting; communications; span of control and discretion; and other related topics. Upon completion, students should be able to identify and discuss the basic components and functions of a criminal justice organization and its administrative operations.

CJC 216 Computer System Security Investigation 03 00 00 03
Prerequisites: CJC 116
Corequisites: None
Component: None
This course covers the investigation of illegal activity affecting computer systems and security. Emphasis will be placed on design techniques, security architecture, discretionary and mandatory controls, memory protection, distributed systems and legal issues pertaining to computer operations security. Upon completion, students should be able to recognize and identify potential problem areas in computer systems and provide assistance in solving security problems. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

CJC 217 Net Security Troubleshooting 03 00 00 03
Prerequisites: CJC 216
Corequisites: None
Component: None
This course enables students to apply the investigative skills they have learned to operating systems and networks. Topics will include security technologies for multiple platforms, encryption techniques and authentication and key distribution systems. Upon completion, students will be able to contrast competing schemes and describe mistakes made in design, which could lead to criminal activity. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

CJC 221 Investigative Principles 03 02 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report preparation, and courtroom presentation. This course is also available through the Virtual Learning Community (VLC).

CJC 222 Criminalistics 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the functions of the forensic laboratory and its relationship to successful criminal investigations and prosecutions. Topics include advanced crime scene processing, investigative techniques, current forensic technologies, and other related topics. Upon completion, students should be able to identify and collect relevant evidence at simulated crime scenes and request appropriate laboratory analysis of submitted evidence.

CJC 225 Crisis Intervention 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces critical incident intervention and management techniques as they apply to operational criminal justice practitioners. Emphasis is placed on the victim/offender situation as well as job-related high stress, dangerous or problem-solving citizen contacts. Upon completion, students should be able to provide insightful analysis of emotional, violent, drug-induced, and other critical and/or stressful incidents that require field analysis and/or resolution.

CJC 223 Organized Crime 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the evolution of traditional and non-traditional organized crime and its effect on society and the criminal justice system. Topics include identifying individuals and groups involved in organized crime, areas of criminal activity, legal and political responses to organized crime, and other related topics. Upon completion, students should be able to identify the groups and activities involved in organized crime and the responses of the criminal justice system.

CJC 231 Constitutional Law 03 00 00 03
Prerequisites: ENG 090 ENG 090A RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
The course covers the impact of the Constitution of the United States and its amendments on the criminal justice system. Topics include the structure of the Constitution and its amendments, court decisions pertinent to contemporary criminal justice issues, and other related topics. Upon completion, students should be able to identify/discuss the basic structure of the United States Constitution and the rights/procedures as interpreted by the courts. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
CJC 232 Civil Liability
Prerequisites: None
Corequisites: None
Component: None
This course covers liability issues for the criminal justice professional. Topics include civil rights violations, tort liability, employment issues, and other related topics. Upon completion, students should be able to explain civil trial procedures and discuss contemporary liability issues.

CJC 233 Correctional Law
Prerequisites: None
Corequisites: None
Component: None
This course introduces statutory/case law pertinent to correctional concepts, facilities, and related practices. Topics include examination of major legal issues encompassing incarceration, probation, parole, restitution, pardon, restoration of rights, and other related topics. Upon completion, students should be able to identify/discuss legal issues which directly affect correctional systems and personnel.

CJC 241 Community-Based Correction
Prerequisites: None
Corequisites: None
Component: None
This course covers programs for convicted offenders that are used both as alternatives to incarceration and in post-incarceration situations. Topics include offenders, diversion, house arrest, restitution, community service, probation and parole, including both public and private participation, and other related topics. Upon completion, students should be able to identify/discuss the various programs from the perspective of the criminal justice professional, the offender, and the community.

CJC 244 Footwear and Tire Imprints
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of the fundamental concepts of footwear and tire imprint evidence as related to forensic science. Topics include proper photographic recording, casting, recognition of wear patterns and imprint identification. Upon completion, the student should be able to recognize, record, photograph, and identify footwear and tire imprints.

CJC 245 Friction Ridge Analysis
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic elements of fingerprint technology and techniques applicable to the criminal justice field. Topics include the history and meaning of fingerprints, pattern types and classification, filing sequence, searching and referencing. Upon completion, students should be able to discuss and demonstrate the fundamental techniques of basic fingerprint technology.

CJC 246 Adv Friction Ridge Analys
Prerequisites: CJC 245
Corequisites: None
Component: None
This course introduces the theories and processes of advanced friction ridge analysis. Topics include evaluation of friction ridges, chart preparation, comparative analysis for valued determination rendering proper identification, chemical enhancement and AFIS preparation and usage. Upon completion, students must show an understanding of proper procedures for friction ridge analysis through written testing and practical exercises.

CJC 249 Forensic Accounting
Prerequisites: ACC 220
Corequisites: None
Component: None
This course introduces students to theoretical and practical aspects of asset and cash control investigations through internal audit and fraud investigation procedure used in corporate investigation. The emphasis is placed on procedures used to identify the absence of proper controls or the existence of improper activity, which creates illegal activity. Upon completion, students will be able to conduct fraud investigations including the collection of evidence and preparation of the case for criminal prosecution. This course is a unique concentration requirement in the Financial Crime/Computer Fraud concentration in the Criminal Justice Technology Program.

CJC 250 Forensic Biology I
Prerequisites: None
Corequisites: BIO 110 or BIO 111
Component: None
This course covers important biological principles that are applied in the crime laboratory. Topics include forensic toxicology, forensic serology, microscopy, and DNA typing analysis, with an overview of organic and inorganic analysis. Upon completion, students should be able to articulate how a crime laboratory processes physical evidence submitted by law enforcement agencies.

CJC 251 Forensic Chemistry I
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of the fundamental concepts of chemistry as it relates to forensic science. Topics include physical and chemical properties of substances, metric measurements, chemical changes, elements, compounds, gases, and atomic structure. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of forensic chemistry.
CJC 252 Forensic Chemistry II  
Prerequisites:  CJC 251  
Corequisites:  None  
Component:  None  
This course provides a study of specialized areas of chemistry specifically related to forensic science. Topics include properties of light, emission and absorption spectra, spectrophotometry, gas and liquid chromatography, and related topics in organic and biochemistry. Upon completion, students should be able to demonstrate an understanding of specialized concepts in forensic chemistry.

COE 111 Co-op Work Experience I  
Prerequisites:  None  
Corequisites:  None  
Component:  None  
This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies. This course is also available through the Virtual Learning Community (VLC).

COE 112 Co-op Work Experience I  
Prerequisites:  None  
Corequisites:  None  
Component:  None  
This course provides work experience with a college approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 113 Co-op Work Experience I  
Prerequisites:  None  
Corequisites:  None  
Component:  None  
This course provides work experience with a college approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 115 Work Exp Seminar I  
Prerequisites:  None  
Corequisites:  One course required:  COE 111, COE 112, COE 113 or COE 114  
Component:  None  
This course description may be written by the individual colleges.

COE 121 Co-op Work Experience II  
Prerequisites:  COE 111 COE 112 or COE 113  
Corequisites:  None  
Component:  None  
This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 122 Co-op Work Experience II  
Prerequisites:  COE 111 COE 112 or COE 113  
Corequisites:  None  
Component:  None  
This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 123 Co-op Work Experience II  
Prerequisites:  One course required: COE 111, COE 112 or COE 113  
Corequisites:  None  
Component:  None  
This course provides work experience with a college-approved employer in an area related to the students program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 125 Work Exp Seminar II  
Prerequisites:  None  
Corequisites:  COE 121, COE 122, COE-123, or COE-124  
Component:  None  
This course description may be written by the individual colleges.

COE 131 Co-op Work Experience III  
Prerequisites:  One course required: COE 121, COE 122 or COE 123  
Corequisites:  None  
Component:  None  
This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

COE 132 Co-op Work Experience III  
Prerequisites:  One course required: COE 121, COE 122 or COE 123  
Corequisites:  None  
Component:  None  
This course provides work experience with a college-approved employer in an area related to the student’s program of study.
Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

**COE 133 Co-op Work Experience III** 00 00 30 03  
Prerequisites: One course required: COE 121, COE 122, or COE 123  
Corequisites: None  
Component: None  
This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

**COE 211 Co-op Work Experience IV** 00 00 10 01  
Prerequisites: One course required: COE 131 or COE 132 or COE 133  
Corequisites: None  
Component: None  
This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

**COE 212 Co-op Work Experience IV** 00 00 20 02  
Prerequisites: One course required: COE 131, COE 132 or COE 133  
Corequisites: None  
Component: None  
This course provides work experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

**COM 120 Intro Interpersonal Com** 03 00 00 03  
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces the practices and principles of interpersonal communication in both dyadic and group settings. Emphasis is placed on the communication process, perception, listening, self-disclosure, speech apprehension, ethics, nonverbal communication, conflict, power, and dysfunctional communication relationships. Upon completion, students should be able to demonstrate interpersonal communication skills, apply basic principles of group discussion, and manage conflict in interpersonal communication situations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**COM 231 Public Speaking** 03 00 00 03  
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course provides instruction and experience in preparation and delivery of speeches within a public setting and group discussion. Emphasis is placed on research, preparation, delivery, and evaluation of informative, persuasive, and special occasion public speaking. Upon completion, students should be able to prepare and deliver well-organized speeches and participate in group discussion with appropriate audiovisual support. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

**COM 232 Election Rhetoric** 03 00 00 03  
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course provides an overview of communication styles and topics characteristic of election campaigns. Topics include election speeches, techniques used in election campaigns, and election speech topics. Upon completion, students should be able to identify and analyze techniques and styles typically used in election campaigns. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**COM 233 Persuasive Speaking** 03 00 00 03  
Prerequisites: ENG 112 or ENG 113  
Corequisites: None  
Component: None  
This course introduces theory and history of persuasive speaking, covering critical thinking skills in analyzing problems, assessing solutions, and communicating the information to an audience. Emphasis is placed on analysis, evidence, reasoning, and library and field research used to enhance persuasive public speaking skills. Upon completion, students should be able to apply the principles of persuasive speaking in a public setting. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**COM 251 Debate I** 03 00 00 03  
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces the principles of debate. Emphasis is placed on argument, refutation, research, and logic. Upon completion, students should be able to use research skills and logic in the presentation of ideas within the context of formal debate. This

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**COM 252 Debate II**

Prerequisites: COM 251  
Corequisites: None  
Component: None  

This course continues the study of debate begun in COM 251. Emphasis is placed on argument, refutation, research, and logic. Upon completion, students should be able to demonstrate proficiency in research skills, logic, and presentation of ideas within the context of formal debate. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**COS 111 Cosmetology Concepts I**

Prerequisites: None  
Corequisites: COS 112  
Component: None  

This course introduces basic cosmetology concepts. Topics include safety, first aid, sanitation, bacteriology, anatomy, diseases and disorders, hygiene, product knowledge, chemistry, ethics, manicures, and other related topics. Upon completion, students should be able to safely and competently apply cosmetology concepts in the salon setting.

**COS 112 Salon I**

Prerequisites: None  
Corequisites: COS 111  
Component: None  

This course introduces basic salon services. Topics include scalp treatments, shampooing, rinsing, hair color, design, haircutting, permanent waving, pressing, relaxing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate salon services.

**COS 113 Cosmetology Concepts II**

Prerequisites: None  
Corequisites: COS 114  
Component: None  

This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, chemistry, manicuring, chemical restructuring, and hair coloring. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

**COS 114 Salon II**

Prerequisites: None  
Corequisites: COS 113  
Component: COS 114AA and COS 114BB  

This course provides experience in a simulated salon setting. Topics include basic skin care, manicuring, nail application, scalp treatments, shampooing, rinsing, hair color, design, haircutting, chemical restructuring, pressing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

**COS 115 Cosmetology Concepts III**

Prerequisites: None  
Corequisites: COS 116  
Component: COS 115AA, COS 115BB  

This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, salon management, salesmanship, skin care, electricity/light therapy, wigs, thermal hair styling, lash and brow tinting, superfluous hair removal, and other related topics. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

**COS 116 Salon III**

Prerequisites: None  
Corequisites: COS 115  
Component: COS 116AA, COS 116BB  

This course provides comprehensive experience in a simulated salon setting. Emphasis is placed on intermediate-level of skin care, manicuring, scalp treatments, shampooing, hair color, design, haircutting, chemical restructuring, pressing, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

**COS 117 Cosmetology Concepts IV**

Prerequisites: None  
Corequisites: COS 118  
Component: None  

This course covers advanced cosmetology concepts. Topics include chemistry and hair structure, advanced cutting and design, and an overview of all cosmetology concepts in preparation for the licensing examination. Upon completion, students should be able to demonstrate an understanding of these cosmetology concepts and meet program completion requirements.

**COS 118 Salon IV**

Prerequisites: COS 114  
Corequisites: COS 117  
Component: None  

This course provides advanced experience in a simulated salon setting. Emphasis is placed on efficient and competent delivery of all salon services in preparation for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination and meet entry-level employment requirements.

**COS 119 Esthetics Concepts I**

Prerequisites: None  
Corequisites: None  
Component: None  

This course covers the concepts of esthetics. Topics include
orientation, anatomy, physiology, hygiene, sterilization, first
aid, chemistry, basic dermatology, and professional ethics.
Upon completion, students should be able to demonstrate an
understanding of the concepts of esthetics and meet course
requirements.

COS 120 Esthetics Salon I 00 18 00 06
Prerequisites: None
Corequisites: None
Component: None
This course covers the techniques of esthetics in a comprehensive
experience in a simulated salon setting. Topics include client
consultation, facials, body treatments, hair removal, make-up
applications, and color analysis. Upon completion, students
should be able to safely and competently demonstrate esthetic
services on clients in a salon setting.

COS 121 Manicure/Nail Technology I 04 06 00 06
Prerequisites: None
Corequisites: None
Component: None
This course covers techniques of nail technology, hand and
arm massage, and recognition of nail diseases and disorders.
Topics include OSHA/safety, sanitation, bacteriology, product
knowledge, salesmanship, manicures, artificial applications,
pedicures, massage, and other related topics. Upon completion,
students should be able to demonstrate competence necessary for
the licensing examination, including advanced nail care, artificial
enhancements, and decals.

COS 222 Contemp Hair Coloring 01 03 00 02
Prerequisites: COS 111 and COS 112
Corequisites: None
Component: None
This course covers basic color concepts, hair coloring problems,
and application techniques. Topics include color theory,
terminology, contemporary techniques, product knowledge, and
other related topics. Upon completion, students should be able to
identify a client’s color needs and safely and competently perform
color applications and correct problems.

COS 224 Trichology & Chemistry 01 03 00 02
Prerequisites: COS 111 and COS 112
Corequisites: None
Component: None
This course covers advanced techniques of nail technology
and hand and arm massage. Topics include OSHA/safety,
product knowledge, customer service, salesmanship, artificial
applications, nail art, and other related topics. Upon completion,
students should be able to demonstrate competence necessary for
the licensing examination, including advanced nail care, artificial
enhancements, and decorations.

CSC 133 C Programming 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces computer programming using the C
programming language with structured programming principles.
Topics include input/output operations, iteration, arithmetic
operations, arrays, pointers, filters, and other related topics. Upon
completion, students should be able to design, code, test, and
debug at a beginning level.

CSC 134 C++ Programming 02 03 00 03
Prerequisites: CIS 115
Corequisites: None
Component: None
This course introduces computer programming using the C++
programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

CSC 135 COBOL Programming 02 03 00 03
Prerequisites: CIS 115
Corequisites: None
Component: None
This course introduces computer programming using the COBOL programming language with structured programming principles. Topics include input/output operations, iteration, arithmetic operations, arrays, pointers, filters, and other related topics. Upon completion, students should be able to design, code, test and debug at a beginning level.

CSC 139 Visual BASIC Prog 02 03 00 03
Prerequisites: CIS 115
Corequisites: None
Component: None
This course introduces computer programming using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

CSC 141 Visual C++ Prog 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces computer programming using the Visual C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment at a beginning level.

CSC 151 JAVA Programming 02 03 00 03
Prerequisites: CIS 115
Corequisites: None
Component: None
This course introduces computer programming using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

CSC 153 C# Programming 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces computer programming using the C# programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment at the beginning level.

CSC 191 Selected Topics in Computer Programming 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

CSC 234 Advanced C++ 02 03 00 03
Prerequisites: CSC 134
Corequisites: None
Component: None
This course is a continuation of CSC 134 using the C++ programming language with standard programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.

CSC 235 Advanced COBOL 02 03 00 03
Prerequisites: CSC 135
Corequisites: None
Component: None
This course is a continuation of CSC 135 using the COBOL programming language with structured programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.
**CSC 239 Advanced Visual BASIC**  
Prerequisites: CSC 139  
Corequisites: None  
Component: None  
This course is a continuation of CSC 139 using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**CSC 258 JAVA Enterprise Programs**  
Prerequisites: CSC 151  
Corequisites: None  
Component: None  
This course provides a continuation to CSC 151 using the Java Enterprise Edition (JEE) programming architecture. Topics include distributed network applications, database connectivity, Enterprise Java Beans, servlets, collection frameworks, JNDI, RMI, JSP, multithreading XML and multimedia development. Upon completion, students should be able to program a client/server enterprise application using the JEE framework.

**CSC 289 Programming Capstone Proj**  
Prerequisites: CTS 285  
Corequisites: None  
Component: None  
This course provides an opportunity to complete a significant programming project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, testing, presentation, and implementation. Upon completion, students should be able to complete a project from the definition phase through implementation.

**CST 131 OSHA/Safety/Certification**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the concepts of work site safety. Topics include OSHA regulations, tool safety, and certifications which relate to the construction industry. Upon completion, students should be able to identify and maintain a safe working environment based on OSHA regulations and maintain proper records and certifications.

**CST 211 Construction Surveying**  
Prerequisites: Take 1 course: MAT 120, MAT 121, MAT 161, MAT 171, OR MAT 175  
Corequisites: None  
Component: None  
This course covers field surveying applications for residential and commercial construction. Topics include building layout and leveling, linear measurement and turning angles, plumbing vertical members, and topographic and utilities surveys. Upon completion, students should be able to properly and accurately use surveying equipment to lay out residential and commercial buildings.

**CST 221 Statics/Structures**  
Prerequisites: MAT 120, MAT 121, MAT 161, MAT 171, OR MAT 175 and ARC 112, CAR 112, or CST 112  
Corequisites: None  
Component: None  
This course covers the principles of statics and strength of materials as applied to structural building components. Topics include forces on columns, beams, girders, and footings and connection points when timber, steel, and concrete members are used. Upon completion, students should be able to accurately analyze load conditions present in structural members.

**CST 241 Planning/Estimating I**  
Prerequisites: BPR 130 or MAT 120, MAT 121, MAT 161, MAT 171 OR MAT 175  
Corequisites: None  
Component: None  
This course covers the procedures involved in planning and estimating a residential structure. Topics include labor and equipment with emphasis placed on quantity take-off of materials necessary to construct a residential structure. Upon completion, students should be able to accurately complete a take-off of materials and equipment needs and plan the labor to construct a residential structure.

**CTS 115 Info Sys Business Concept**  
Prerequisites: RED-070 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
The course introduces the role of IT in managing business processes and the need for business process and IT alignment. Emphasis is placed on industry need for understanding business challenges and developing/managing information systems to contribute to the decision making process based on these challenges. Upon completion, students should be able to demonstrate knowledge of the ‘hybrid business manager’ and the potential offered by new technology and systems. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**CTS 120 Hardware/Software Support**  
Prerequisites: CIS 110 or CIS 111  
Corequisites: None  
Component: None  
This course covers the basic hardware of a personal computer, including installation, operations and interactions with software.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Topics include component identification, memory-system, peripheral installation and configuration, preventive maintenance, hardware diagnostics/repair, installation and optimization of system software, commercial programs, system configuration, and device-drivers. Upon completion, students should be able to select appropriate computer equipment and software, upgrade/maintain existing equipment and software, and troubleshoot/repair non-functioning personal computers.

**CTS 130 Spreadsheet**  
**Prerequisites:** CIS 110 or CIS 111 or OST 137  
**Corequisites:** None  
**Component:** None  
This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts.

**CTS 191 Selected Topics in Information Systems**  
**Prerequisites:** Enrollment in the program  
**Corequisites:** None  
**Component:** None  
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

**CTS 220 Adv Hard/Software Support**  
**Prerequisites:** CTS 120  
**Corequisites:** None  
**Component:** None  
This course provides advanced knowledge and competencies in hardware and operating system technologies for computer technicians to support personal computers. Emphasis is placed on: configuring and upgrading; diagnosis and troubleshooting; as well as preventive maintenance of hardware and system software. Upon completion, students should be able to install, configure, diagnose, perform preventive maintenance, and maintain basic networking on personal computers.

**CTS 230 Advanced Spreadsheet**  
**Prerequisites:** CTS 130  
**Corequisites:** None  
**Component:** None  
This course covers advanced spreadsheet design and development. Topics include advanced functions and statistics, charting, macros, databases, and linking. Upon completion, students should be able to demonstrate competence in designing complex spreadsheets.

**CTS 285 Systems Analysis & Design**  
**Prerequisites:** CIS 115  
**Corequisites:** None  
**Component:** None  
This course introduces established and evolving methodologies for the analysis, design, and development of an information system. Emphasis is placed on system characteristics, managing projects, prototyping, CASE/OOM tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using a combination of tools and techniques.

**CTS 289 System Support Project**  
**Prerequisites:** CTS 285  
**Corequisites:** None  
**Component:** None  
This course provides an opportunity to complete a significant support project with minimal instructor assistance. Emphasis is placed on written and oral communication skills, project definition, documentation, installation, testing, presentation, and user training. Upon completion, students should be able to complete a project from the definition phase through implementation.

**CUL 110 Sanitation & Safety**  
**Prerequisites:** RED-070 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course introduces the basic principles of sanitation and safety and their relationship to the hospitality industry. Topics include personal hygiene, sanitation and safety regulations, use and care of equipment, the principles of food-borne illness, and other related topics. Upon completion, students should be able to demonstrate an understanding of sanitation and safety procedures in the hospitality industry.

**CUL 120 Purchasing**  
**Prerequisites:** ENG-080, MAT-060, and RED-080 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course covers purchasing for hotels and restaurants. Emphasis is placed on procurement, yield tests, inventory control, specification, planning, forecasting, market trends, terminology, cost controls, pricing, and foodservice ethics. Upon completion, students should be able to apply effective purchasing techniques based on the end-use of the product.

**CUL 125 Hospitality Information Systems**  
**Prerequisites:** MAT-060 and RED-080 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course introduces hospitality and food service information systems. Topics include planning, cost controls, forecasting, inventory control, recipe control, production control, and nutritional analysis. Upon completion, students should be able to demonstrate competence in utilizing contemporary information application systems in a hospitality setting.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
CUL 130 Menu Design  
**Prerequisites:** ENG-080, MAT-060, RED-070 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course introduces menu design. Topics include development of standardized recipes, layout, nutritional concerns, product utilization, demographics, and customer needs. Upon completion, students should be able to write, lay out, and produce effective menus for a variety of hospitality settings.

CUL 135 Food & Beverage Service  
**Prerequisites:** None  
**Corequisites:** CUL 135A  
**Component:** None  
This course covers the practical skills and knowledge for effective food and beverage service in a variety of settings. Topics include reservations, greeting and service of guests, styles of service, handling complaints, and sales and merchandising. Upon completion, students should be able to demonstrate competence in human relations and technical skills required in the service of foods and beverages.

CUL 135A Food & Beverage Service Lab  
**Prerequisites:** None  
**Corequisites:** CUL 135  
**Component:** None  
This course is a laboratory to accompany CUL 135. Emphasis is placed on practical experiences that enhance the materials presented in CUL 135. Upon completion, students should be able to demonstrate practical applications of skills required in the service of foods and beverages.

CUL 140 Basic Culinary Skills  
**Prerequisites:** MAT-060, RED-070, or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course introduces the fundamental concepts, skills, and techniques involved in basic cookery. Emphasis is placed on recipe conversion, measurements, terminology, knife skills, safe food handling, cooking methods, flavorings, seasonings, stocks/sauces/soups, and other related topics. Upon completion, students should be able to exhibit the basic cooking skills used in the food service industry.

CUL 150 Food Science  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers the chemical and physical changes in foods that occur with cooking, handling, and processing. Topics include heat transfer and its effect on color, flavor, and texture; and emulsification, protein coagulation, leavening agents, viscosity, and gel formation. Upon completion, students should be able to demonstrate an understanding of the principles covered as they apply to food preparation in an experimental setting.

CUL 160 Baking I  
**Prerequisites:** MAT 060 and RED 070  
**Corequisites:** None  
**Component:** None  
This course covers basic ingredients, weights and measures, baking terminology, and formula calculations. Topics include yeast-raised products, quick breads, pastry dough, various cakes and cookies, and appropriate filling and finishing techniques. Upon completion, students should be able to prepare and evaluate baked products.

CUL 170 Garde Manger I  
**Prerequisites:** MAT 060 and RED 070, or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course introduces basic cold food preparation techniques and pantry production. Topics include salads, sandwiches, appetizers, dressings, basic garnishes, cheeses, cold sauces, and related food items. Upon completion, students should be able to lay out a basic cold food display and exhibit an understanding of the cold kitchen and its related terminology.

CUL 180 International & American Reg Cuisine  
**Prerequisites:** CUL 140  
**Corequisites:** None  
**Component:** None  
This course provides practical experience in the planning, preparation, and service of representative foods from different countries and regions of America. Emphasis is placed on eating habits, indigenous foods and customs, nutritional concerns, and traditional equipment. Upon completion, students should be able to research and execute international and domestic menus.

CUL 214 Wine Appreciation  
**Prerequisites:** RED 070 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course provides comprehensive and detailed information about wine from all the major wine producing countries. Emphasis is placed on the history of wine, production characteristics, laws, and purchasing and storing requirements. Upon completion, students should be able to determine what wines complement various cuisines and particular tastes.

CUL 240 Advanced Culinary Skills  
**Prerequisites:** CUL 140  
**Corequisites:** None  
**Component:** None
This course is a continuation of CUL 140. Emphasis is placed on meat fabrication and butchery; vegetable, starch, and protein cookery; compound sauces; plate presentation; breakfast cookery; and quantity food preparation. Upon completion, students should be able to plan, execute, and successfully serve entrees with complementary side items.

CUL 250 Classical Cuisine 01 08 00 05
Prerequisites: CUL 140 and CUL 240
Corequisites: None
Component: None
This course reinforces the classical culinary kitchen as established by Escoffier. Topics include the working Grand Brigade of the kitchen, table d’hôte menus, signature dishes, and classical banquets. Upon completion, students should be able to demonstrate competence in food preparation in a classical/upscale restaurant or banquet setting.

CUL 250A Classical Cuisine Lab 00 03 00 01
Prerequisites: CUL 140 and CUL 240
Corequisites: CUL 250
Component: None
This is a laboratory course to accompany CUL 250. Emphasis is placed on the practical experiences that enhance the materials and skills presented in CUL 250. Upon completion, students should be able to exhibit culinary skills and techniques as they pertain to classical/upscale kitchens and banquet settings.

CUL 260 Baking II 01 04 00 03
Prerequisites: CUL 160
Corequisites: CUL 260A
Component: None
This course is a continuation of CUL 160. Topics include specialty breads, understanding, development and maintaining of natural sourdough, classical desserts, laminated pastry dough, cake and torte decorating and dessert plating and presentation. Upon completion, students should be able to demonstrate pastry preparation and plating, specialty sourdough production, cake decorating, and dessert buffet production skills.

CUL 260A Baking II Lab 00 03 00 01
Prerequisites: CUL 160
Corequisites: CUL 260
Component: None
This is a laboratory course to accompany CUL 260. Emphasis is placed on the practical experiences that enhance the materials and skills presented in CUL 260. Upon completion, students should be able to perform cake-decorating techniques, produce pastry showpieces, and prepare and plate assorted pastries.

CUL 270 Garde Manager II 01 04 00 03
Prerequisites: CUL 170
Corequisites: None
Component: None
This course is a continuation of CUL 170. Topics include pates, terrines, galantines, ice and tallow carving, chaud-froid/aspic work, charcuterie, smoking, canapes, hors d’oeuvres, and related food items. Upon completion, students should be able to design, set up, and evaluate a catering function to include a classical cold buffet with appropriate show pieces.

CUL 270A Garde Manger II Lab 00 03 00 01
Prerequisites: CUL 170
Corequisites: CUL 270
Component: None
This is a laboratory course to accompany CUL 270. Emphasis is placed on the practical experiences that enhance the materials and skills presented in CUL 270. Upon completion, students should be able to demonstrate proficiency in the design and technical applications of advanced gardemanger work including classical cold buffets with appropriate showpieces.

CUL 280 Pastry & Confections 01 04 00 03
Prerequisites: CUL 160 and CUL 260
Corequisites: None
Component: None
This course is a continuation of CUL 260. Topics include confections and candy, chocolate tempering and molding, transfer sheets, pulled and blown sugar (basic pulling and ribboning), pastillage, marzipan and custom silicon molding. Upon completion, students should be able to design and produce centerpieces and showpieces made from tempered chocolate, pulled sugar, pastillage and marzipan, as produced through custom molding, pre-set molding, stencil cut-outs, pattern tracing and/or free-hand shaping.

CUL 280A Pastry & Confections Lab 00 03 00 01
Prerequisites: CUL 160
Corequisites: CUL 280
Component: None
This is a laboratory course to accompany CUL 280. Emphasis is placed on the practical experiences that enhance the materials and skills presented in CUL 280. Upon completion, students should be able to demonstrate proficiency in the execution of plated desserts, dessert platters and showpieces.

DAN 110 Dance Appreciation 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course for non-dance majors surveys diverse dance forms and the religious and cultural values that shape them. Topics include dances from Europe, Africa, Asia, and America. Upon completion, students should be able to demonstrate an understanding of the diverse forms and values that dance embraces. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.
DAN 211 Dance History I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an in-depth study of world dance from pre-history to 1800. Emphasis is placed on examining the dance and dancers of diverse cultures including Africa, Asia, and Europe. Upon completion, students should be able to analyze the common need to dance and the forms, religions, and cultural values it embodies. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DAN 212 Dance History II  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an in-depth study of world dance from 1800 to the present. Emphasis is placed on Western theatrical dance (ballet, modern dance, tap, and jazz) and the personalities that shaped it. Upon completion, students should be able to analyze culturally diverse dance forms and their cross-pollenation which have produced the “pan world dance of today”. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DBA 110 Database Concepts  
Prerequisites: CIS 110 or CIS 111  
Corequisites: None  
Component: None  
This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms.

DBA 120 Database Programming I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is designed to develop SQL programming proficiency. Emphasis is placed on data definition, data manipulation, and data control statements as well as on report generation. Upon completion, students should be able to write programs which create, update, and produce reports.

DBA 220 Oracle DB Programming II  
Prerequisites: DBA 120  
Corequisites: None  
Component: None  
This course is designed to enhance programming skills developed in DBA 120. Topics include application development with GUI front-ends and embedded programming. Upon completion, students should be able to develop an Oracle DBMS application which includes a GUI front-end and report generation.

DEN 100 Basic Orofacial Anatomy  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides a basic introduction to the structures of the head, neck, and oral cavity. Topics include tooth morphology, head and neck anatomy, histology, and embryology. Upon completion, students should be able to demonstrate knowledge of normal structures and development and how they relate to the practice of dental assisting. This course is intended for certificate and diploma programs.

DEN 101 Preclinical Procedures  
Prerequisites: Department Approval  
Corequisites: DEN 102 and DEN 111  
Component: None  
This course provides instruction in procedures for the clinical dental assistant as specified by the North Carolina Dental Practice Act. Emphasis is placed on orientation to the profession, infection control techniques, instruments, related expanded functions, and diagnostic, operative, and specialty procedures. Upon completion, students should be able to demonstrate proficiency in clinical dental assisting procedures. This course is intended for certificate and diploma programs.

DEN 102 Dental Materials  
Prerequisites: Department Approval  
Corequisites: DEN 101  
Component: None  
This course provides instruction in identification, properties, evaluation of quality, principles, and procedures related to manipulation and storage of operative and specialty dental materials. Emphasis is placed on the understanding and safe application of materials used in the dental office and laboratory. Upon completion, students should be able to demonstrate proficiency in the laboratory and clinical application of routinely used dental materials. This course is intended for certificate and diploma programs.

DEN 103 Dental Sciences  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is a study of oral pathology, pharmacology, and dental office emergencies. Topics include oral pathological conditions, dental therapeutics, and management of emergency situations. Upon completion, students should be able to recognize abnormal oral conditions, identify classifications, describe actions and effects of commonly prescribed drugs, and respond to medical emergencies. This course is intended for certificate and diploma programs.
DEN 104 Dental Health Education 02 02 00 03
Prerequisites: A set of courses is required: DEN 101 and DEN 111
Corequisites: DEN 106
Component: None
This course covers the study of preventive dentistry to prepare dental assisting students for the role of dental health educator. Topics include etiology of dental diseases, preventive procedures, and patient education theory and practice. Upon completion, students should be able to demonstrate proficiency in patient counseling and oral health instruction in private practice or public health settings. This course is intended for certificate and diploma programs.

DEN 105 Practice Management 02 00 00 02
Prerequisites: None
Corequisites: DEN 106
Component: None
This course provides a study of principles and procedures related to management of the dental practice. Emphasis is placed on maintaining clinical and financial records, patient scheduling, and supply and inventory control. Upon completion, students should be able to demonstrate fundamental skills in dental practice management. This course is intended for certificate and diploma programs.

DEN 106 Clinical Practice I 01 00 12 05
Prerequisites: All courses required: DEN 101, DEN 102 and DEN 111
Corequisites: All courses required: DEN 104, DEN 105 and DEN 112
Component: None
This course is designed to provide experience assisting in a clinical setting. Emphasis is placed on the application of principles and procedures of four-handed dentistry and laboratory and clinical support functions. Upon completion, students should be able to utilize classroom theory and laboratory and clinical skills in a dental setting. This course is intended for certificate and diploma programs.

DEN 107 Clinical Practice II 01 00 12 05
Prerequisites: DEN 106
Corequisites: None
Component: None
This course is designed to increase the level of proficiency in assisting in a clinical setting. Emphasis is placed on the application of principles and procedures of four-handed dentistry and laboratory and clinical support functions. Upon completion, students should be able to combine theoretical and ethical principles necessary to perform entry-level skills including functions delegable to a DA II.
This course is intended for certificate and diploma programs.

DEN 110 Orofacial Anatomy 02 02 00 03
Prerequisites: Requires enrollment in the Dental Assisting or Dental Hygiene program.
Corequisites: BIO 163
Component: None
This course introduces the structures of the head, neck, and oral cavity. Topics include tooth morphology, head and neck anatomy, histology, and embryology. Upon completion, students should be able to relate the identification of normal structures and development to the practice of dental assisting and dental hygiene.

DEN 111 Infection/Hazard Control 02 00 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the infection and hazard control procedures necessary for the safe practice of dentistry. Topics include microbiology, practical infection control, sterilization and monitoring, chemical disinfectants, aseptic technique, infectious diseases, OSHA standards, and applicable North Carolina laws. Upon completion, students should be able to understand infectious diseases, disease transmission, infection control procedures, biohazard management, OSHA standards, and applicable North Carolina laws.

DEN 112 Dental Radiography 02 03 00 03
Prerequisites: Enrollment in Dental Assisting or Dental Hygiene Program
Corequisites: DEN 100 or DEN 110 and DEN 111
Component: None
This course provides a comprehensive view of the principles and procedures of radiology as they apply to dentistry. Topics include techniques in exposing, processing, and evaluating radiographs, as well as radiation safety, quality assurance, and legal issues. Upon completion, students should be able to demonstrate proficiency in the production of diagnostically acceptable radiographs using appropriate safety precautions.

DEN 120 Dental Hygiene Preclinical Lecture 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 121
Component: None
This course introduces preoperative and clinical dental hygiene concepts. Emphasis is placed on the assessment phase of patient care as well as the theory of basic dental hygiene instrumentation. Upon completion, students should be able to collect and evaluate patient data at a basic level and demonstrate knowledge of dental hygiene instrumentation.

DEN 121 Dental Hygiene Preclinical Lab 00 06 00 02
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 120
Component: None
This course provides the opportunity to perform clinical dental hygiene procedures discussed in DEN 120. Emphasis is placed on clinical skills in patient assessment and instrumentation techniques.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Upon completion, students should be able to demonstrate the ability to perform specific preclinical procedures.

DEN 123 Nutrition/Dental Health 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 220
Component: None
This course introduces basic principles of nutrition with emphasis on nutritional requirements and their application to individual patient needs. Topics include the study of the food pyramid, nutrient functions, Recommended Daily Allowances, and related psychological principles. Upon completion, students should be able to recommend and counsel individuals on their food intake as related to their dental health.

DEN 124 Periodontology 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene Program and DEN 110
Corequisites: DEN 130
Component: None
This course provides an in-depth study of the periodontium, periodontal pathology, periodontal monitoring, and the principles of periodontal therapy. Topics include periodontal anatomy and a study of the etiology, classification, and treatment modalities of periodontal diseases. Upon completion, students should be able to describe, compare, and contrast techniques involved in periodontal maintenance therapy, as well as patient care management.

DEN 125 Dental Office Emergencies 00 02 00 01
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 140
Component: None
This course provides a study of the management of dental office emergencies. Topics include methods of prevention, necessary equipment/drugs, medicolegal considerations, recognition and effective initial management of a variety of emergencies. Upon completion, the student should be able to recognize, assess and manage various dental office emergencies and activate advanced medical support when indicated.

DEN 130 Dental Hygiene Theory I 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene and DEN 120
Corequisites: DEN 131
Component: None
This course is a continuation of the didactic dental hygiene concepts necessary for providing an oral prophylaxis. Topics include deposits/removal, instrument sharpening, patient education, fluorides, planning for dental hygiene treatment, charting, and clinical records and procedures. Upon completion, students should be able to demonstrate knowledge needed to complete a thorough oral prophylaxis.

DEN 131 Dental Hygiene Clinic I 00 00 09 03
Prerequisites: Enrollment in Dental Hygiene Program and DEN 121
Corequisites: DEN 130
Component: None
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of the recall patients with gingivitis or light deposits. Upon completion, students should be able to assess these patients’ needs and complete the necessary dental hygiene treatment.

DEN 120 Dental Hygiene Theory II 01 00 00 01
Prerequisites: Enrollment in Dental Hygiene and DEN 130
Corequisites: DEN 141
Component: None
This course provides a continuation of the development, theory, and practice of patient care. Topics include modification of treatment for special needs patients, advanced radiographic interpretation, and ergonomics. Upon completion, students should be able to differentiate necessary treatment modifications, effective ergonomic principles, and radiographic abnormalities.

DEN 141 Dental Hygiene Clinic II 00 00 06 02
Prerequisites: Enrollment in Dental Hygiene and DEN 131
Corequisites: DEN 140
Component: None
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with early periodontal disease and subgingival deposits. Upon completion, students should be able to assess these patients’ needs and complete the necessary dental hygiene treatment.

DEN 220 Dental Hygiene Theory III 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene and DEN 140
Corequisites: DEN 221
Component: None
This course provides a continuation of developing the theories and practices of patient care. Topics include periodontal debridement, pain control, subgingival irrigation, air polishing, and case presentations. Upon completion, students should be able to demonstrate knowledge of methods of treatment and management of periodontally compromised patients.

DEN 221 Dental Hygiene Clinic III 00 00 12 04
Prerequisites: Enrollment in Dental Hygiene Program and DEN 141
Corequisites: DEN 220
Component: None
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with moderate to advanced periodontal involvement and moderate deposits. Upon completion, students should be able to assess these patients’ needs and complete the necessary dental hygiene treatment.

DEN 222 General & Oral Pathology 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene Program and BIO 163 or BIO 163C and BIO 163L
Corequisites: DEN 130
Component: None
This course provides a general knowledge of oral pathological
manifestations associated with selected systemic and oral diseases. Topics include developmental and degenerative diseases, selected microbial diseases, specific and nonspecific immune and inflammatory responses with emphasis on recognizing abnormalities. Upon completion, students should be able to differentiate between normal and abnormal tissues and refer unusual findings to the dentist for diagnosis.

DEN 223 Dental Pharmacology 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: A set of courses is required: DEN 220 and BIO 163 or BIO 163C and BIO 163L
Component: None
This course provides basic drug terminology, general principles of drug actions, dosages, routes of administration, adverse reactions, and basic principles of anesthesiology. Emphasis is placed on knowledge of drugs in overall understanding of patient histories and health status. Upon completion, students should be able to recognize that each patient’s general health or drug usage may require modification of the treatment procedures.

DEN 224 Materials and Procedures 01 03 00 02
Prerequisites: Enrollment in Dental Hygiene Program and DEN 111
Corequisites: DEN 231
Component: None
This course introduces the physical properties of materials and related procedures used in dentistry. Topics include restorative and preventive materials, fabrication of casts and appliances, and chairside functions of the dental hygienist. Upon completion, students should be able to demonstrate proficiency in the laboratory and/or clinical application of routinely used dental materials and chairside functions.

DEN 230 Dental Hygiene Theory IV 01 00 00 01
Prerequisites: Enrollment in Dental Hygiene Program and DEN 220
Corequisites: DEN 231
Component: None
This course provides an opportunity to increase knowledge of the profession. Emphasis is placed on dental specialties and completion of a case presentation. Upon completion, students should be able to demonstrate knowledge of various disciplines of dentistry and principles of case presentations.

DEN 231 Dental Hygiene Clinic IV 00 00 12 04
Prerequisites: Enrollment in Dental Hygiene Program and DEN 221
Corequisites: DEN 230
Component: None
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on periodontal maintenance and on treating patients with moderate to advanced/refractory periodontal disease. Upon completion, students should be able to assess these patients’ needs and complete the necessary dental hygiene treatment.

DEN 232 Community Dental Health 02 00 03 03
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 220
Component: None
This course provides a study of the principles and methods used in assessing, planning, implementing, and evaluating community dental health programs. Topics include epidemiology, research methodology, biostatistics, preventive dental care, dental health education, program planning, and financing and utilization of dental services. Upon completion, students should be able to assess, plan, implement, and evaluate a community dental health program.

DEN 233 Professional Development 02 00 00 02
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: DEN 230
Component: None
This course includes professional development, ethics, and jurisprudence with applications to practice management. Topics include conflict management, state laws, resumes, interviews, and legal liabilities as health care professionals. Upon completion, students should be able to demonstrate the ability to practice dental hygiene within established ethical standards and state laws.

DFT 119 Basic CAD 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces computer-aided drafting software for specific technologies to non-drafting majors. Emphasis is placed on understanding the software command structure and drafting standards for specific technical fields. Upon completion, students should be able to create and plot basic drawings.

DFT 151 CAD I 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces CAD software as a drawing tool. Topics include drawing, editing, file management, and plotting. Upon completion, students should be able to produce and plot a CAD drawing.

DFT 152 CAD II 02 03 00 03
Prerequisites: DFT-151
Corequisites: None
Component: None
This course introduces extended CAD applications. Emphasis is placed upon intermediate applications of CAD skills. Upon completion, students should be able to use extended CAD applications to generate and manage drawings.

DRA 111 Theater Appreciation 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course provides a study of the art, craft, and business of the theater. Emphasis is placed on the audiences appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theater terms and to recognize the contributions of various theater artists. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 112 Literature of the Theater 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides a survey of dramatic works from the classical Greek through the present. Emphasis is placed on the language of drama, critical theory, and background as well as on play reading and analysis. Upon completion, students should be able to articulate, orally and in writing, their appreciation and understanding of dramatic works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 115 Theater Criticism 03 00 00 03
Prerequisites: DRA 111
Corequisites: None
Component: None
This course is designed to develop a critical appreciation of the theater from the viewpoint of the audience/consumer. Emphasis is placed on viewing, discussing, and evaluating selected theater performance, either live or on film/video. Upon completion, students should be able to express their critical judgments both orally and in writing. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 120 Voice for Performance 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides guided practice in the proper production of speech for the theatre. Emphasis is placed on improving speech, including breathing, articulation, pronunciation, and other vocal variables. Upon completion, students should be able to demonstrate effective theatrical speech. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 122 Oral Interpretation 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the dramatistic study of literature through performance. Emphasis is placed on analysis and performance of poetry, drama, and prose fiction. Upon completion, students should be able to embody and discuss critically the speakers inherent in literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 124 Readers Theatre 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides a theoretical and applied introduction to the medium of readers theatre. Emphasis is placed on the group performance considerations posed by various genres of literature. Upon completion, students should be able to adapt and present a literary script following the conventions of readers theatre. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 126 Storytelling 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the art of storytelling and the oral traditions of folk literature. Topics include the history of storytelling, its value and purpose, and methods of collecting verbal art. Upon completion, students should be able to present and discuss critically stories from the world’s repertory of traditional lore. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

DRA 128 Children’s Theatre 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the philosophy and practice involved in producing plays for young audiences. Topics include the selection of age-appropriate scripts and the special demands placed on directors, actors, designers, and educators in meeting the needs of young audiences. Upon completion, students should be able to present and critically discuss productions for children. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 130 Acting I 00 06 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an applied study of the actor’s craft. Topics include role analysis, training the voice, and body concentration, discipline, and self-evaluation. Upon completion, students should be able to explore their creativity in an acting ensemble. This course has been approved to satisfy the Comprehensive

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 131 Acting II  
00 06 00 03  
Prerequisites: DRA 130  
Corequisites: None  
Component: None  
This course provides additional hands-on practice in the actor’s craft. Emphasis is placed on further analysis, characterization, growth, and training for acting competence. Upon completion, students should be able to explore their creativity in an acting ensemble. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 132 Stage Movement  
02 02 00 03  
Prerequisites: None  
Corequisites: DRA 111  
Component: None  
This course provides an applied study of selected principles of stage movement for actors. Topics include improvisation, mime, stage combat, clowning, choreography, and masks. Upon completion, students should be able to focus properly on stage, to create characters, and to improvise scenes, perform mimes, fight, clown, juggle, and waltz. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 135 Acting for the Camera I  
01 04 00 03  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an applied study of the camera actor’s craft. Topics include commercial, dramatic, and print performance styles. Upon completion, students should be able to explore their creativity in on-camera performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 136 Acting for the Camera II  
01 04 00 03  
Prerequisites: DRA 135  
Corequisites: None  
Component: None  
This course provides additional hands-on study of the camera actor’s craft. Emphasis is placed on more advanced camera acting theories, auditioning techniques, daytime drama, feature film, and print advertisement performance styles. Upon completion, students should be able to explore their creativity in on-camera performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 140 Stagecraft I  
00 06 00 03  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the theory and basic construction of stage scenery and properties. Topics include stage carpentry, scene painting, stage electrics, properties, and backstage organization. Upon completion, students should be able to pursue vocational and avocational roles in technical theatre. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 141 Stagecraft II  
00 06 00 03  
Prerequisites: DRA 140  
Corequisites: None  
Component: None  
This course provides additional hands-on practice in the elements of stagecraft. Emphasis is placed on the design and implementation of the arts and crafts of technical theatre. Upon completion, students should be able to pursue vocational or avocational roles in technical theatre. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 144 Stage Make-up  
01 02 00 02  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the research, design, selection of materials, and application of stage make-up, prosthetics, wigs, and hairpieces. Emphasis is placed on the development of techniques, style, and presentation of the finished make-up. Upon completion, students should be able to create and apply make-up, prosthetics, and hairpieces. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 170 Play Production I  
00 09 00 03  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 171 Play Production II  
00 09 00 03  
Prerequisites: DRA 170  
Corequisites: None  
Component: None  
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental...
practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**DRA 175 Teleplay Production I**  
00 09 00 03  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an applied laboratory study of the processes involved in production of a dramatic television program. Emphasis is placed on the fundamental practices, principles, and techniques associated with producing dramatic television programming. Upon completion, students should be able to participate in an assigned position with a college dramatic television production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**DRA 176 Teleplay Production II**  
00 09 00 03  
Prerequisites: DRA 175  
Corequisites: None  
Component: None  
This course provides an applied laboratory study of the processes involved in production of a sit-com television program. Emphasis is placed on the fundamental practices, principles, and techniques associated with producing sit-com television programming. Upon completion, students should be able to participate in an assigned position with a college sit-com television production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**DRA 211 Theatre History I**  
03 00 00 03  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the development of theater from its origin to the closing of the British theater in 1642. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theater and recognize the styles and types of world drama. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**DRA 212 Theatre History II**  
03 00 00 03  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the development of theater from 1660 through the diverse influences which shaped the theater of the twentieth century. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theater and recognize the styles and types of world drama. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**DRA 243 Scene Design**  
02 02 00 03  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the analysis, research, design, and problem solving related to scene design. Emphasis is placed on director/designer communication, concepting, researching, rendering, and modeling of designs. Upon completion, students should be able to demonstrate skills in communication, design process, rendering, and modeling. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**DRA 260 Directing**  
00 06 00 03  
Prerequisites: DRA 130  
Corequisites: DRA 140  
Component: None  
This course provides an analysis and application of the techniques of theatrical directing. Topics include script selection, analysis, casting, rehearsal planning, blocking, stage business, tempo, and technical considerations. Upon completion, students should be able to plan, execute, and critically discuss a student-directed production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**ECM 168 Electronic Business**  
02 02 00 03  
Prerequisites: ENG 080 and RED 080, or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course provides a survey of the world of electronic business. Topics include the definition of electronic business, current practices as they evolve using Internet strategy in business, and application of basic business principles to the world of Electronic Commerce. Upon completion, students should be able to define electronic business and demonstrate an understanding of the benefits of Electronic Commerce as a foundation for developing plans leading to electronic business implementation. This course is a unique concentration requirement of the E-Commerce concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

**ECM 210 Intro. to E-Commerce**  
02 02 00 03  
Prerequisites: ENG 080 and RED 080, or Placement Test Credit Equivalent  
Corequisites: None  
Component: None

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course introduces the concepts and tools to implement electronic commerce via the Internet. Topics include application and server software selection, securing transactions, use and verification of credit cards, publishing of catalogs, and site administration. Upon completion, students should be able to setup a working e-commerce Internet web site. This course is also available through the Virtual Learning Community (VLC).

**ECM 220 E-Commerce Plan. & Implem.** 02 02 00 03  
Prerequisites: ENG 090, ENG 090A, RED 090, or Placement Test Credit Equivalent and must be an E-Commerce major.  
Corequisites: None  
Component: None  
This course builds on currently accepted business practices to develop a business plan and implementation model for e-commerce. Topics include analysis and synthesis of the planning cycle, cost/benefit analysis, technical systems, marketing, security, financial support, Internet strategies, website design, customer support and feedback and assessment. Upon completion, students should be able to develop a plan for e-commerce in a small to medium size business. This course is a unique concentration requirement of the E-Commerce concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

**ECM 230 Capstone Project** 01 06 00 03  
Prerequisites: ECM 220, ENG 090, ENG 090A, RED-090, or Placement Test Credit Equivalent, and CIS 110, CIS 111, or WEB 110  
Corequisites: None  
Component: None  
This course provides experience in Electronic Commerce. Emphasis is placed on the implementation of an e-commerce model for an existing business. Upon completion, students should be able to successfully develop and implement a plan for e-commerce in a small to medium size business.

**ECO 151 Survey of Economics** 03 00 00 03  
Prerequisites: MAT 060 and RED 080, or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course, for those who have not received credit for ECO 251 or 252, introduces basic concepts of micro- and macroeconomics. Topics include supply and demand, optimizing economic behavior, prices and wages, money, interest rates, banking system, unemployment, inflation, taxes, government spending, and international trade. Upon completion, students should be able to explain alternative solutions for economic problems faced by private and government sectors. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**ECO 251 Principles of Microeconomics** 03 00 00 03  
Prerequisites: ENG 080, MAT 070, and RED 090, or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces economic analysis of individual, business, and industry in the market economy. Topics include the price mechanism, supply and demand, optimizing economic behavior, costs and revenue, market structures, factor markets, income distribution, market failure, and government intervention. Upon completion, students should be able to identify and evaluate consumer and business alternatives in order to efficiently achieve economic objectives. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**ECO 252 Principles of Macroeconomics** 03 00 00 03  
Prerequisites: ENG 080, MAT 070, and RED 090, or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces economic analysis of aggregate employment, income, and prices. Topics include major schools of economic thought; aggregate supply and demand; economic measures, fluctuations, and growth; money and banking; stabilization techniques; and international trade. Upon completion, students should be able to evaluate national economic components, conditions, and alternatives for achieving socioeconomic goals. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**EDU 118 Princ & Prac of Inst Asst** 03 00 00 03  
Prerequisites: ENG 080, RED 080  
Corequisites: None  
Component: None  
This course covers the instructional assistant’s role in the educational system. Topics include history of education, professional responsibilities and ethics, cultural diversity, communication skills, and identification of the optimal learning environment. Upon completion, students should be able to describe the supporting role of the instructional assistant, demonstrate positive communication skills, and discuss educational philosophy.

**EDU 119 Intro to Early Childhood Education** 04 00 00 04  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the foundations of the education profession, the diverse educational settings for young children, professionalism and planning developmentally appropriate programs for all children. Topics include historical foundations, program
types, career options, professionalism and creating inclusive environments and curriculum responsive to the needs of all children and families. Upon completion, students should be able to design career plans and develop schedules, environments and activity plans appropriate for all children. This course is also available through the Virtual Learning Community (VLC).

EDU 131 Child, Family, & Communications 03 00 00 03
Prerequisites: Take ENG 080 and RED 080
Corequisites: None
Component: None
This course covers the development of partnerships between culturally and linguistically diverse families, children, schools and communities. Emphasis is placed on developing skills and identifying benefits for establishing, supporting, and maintaining respectful, collaborative relationships between diverse families, programs/schools, and community agencies/resources. Upon completion, students should be able to explain appropriate relationships between families, educators, and professionals that enhance development and educational experiences of all children. This course is also available through the Virtual Learning Community (VLC).

EDU 144 Child Development I 03 00 00 03
Prerequisites: ENG 080 and RED 080
Corequisites: None
Component: None
This course includes the theories of child development, needs, milestones, and factors that influence development, from conception through approximately 36 months. Emphasis is placed on developmental sequences in physical/motor, emotional/social, cognitive, and language domains and the impact of multiple influences on development and learning. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain environmental factors that impact development, and identify strategies for enhancing development. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

EDU 146 Child Guidance 03 00 00 03
Prerequisites: Take ENG 080 and RED 080
Corequisites: None
Component: None
This course introduces principles and practical techniques including the design of learning environments for providing developmentally appropriate guidance for all children, including those at risk. Emphasis is placed on observation skills, cultural influences, underlying causes of behavior, appropriate expectations, development of self control and the role of communication and guidance. Upon completion, students should be able to demonstrate direct/indirect strategies for preventing problem behaviors, teaching appropriate/acceptable behaviors, negotiation, setting limits and recognizing at risk behaviors. This course is also available through the Virtual Learning Community (VLC). This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

EDU 147 Behavior Disorders 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is a comprehensive study of behavior disorders encompassing characteristics, assessments, and placement alternatives. Topics include legislation, appropriate management interventions, and placement options for children with behavior disorders. Upon completion, students should be able to identify, develop, and utilize appropriate behavior management applications. This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Associate program.

EDU 148 Learning Disabilities 04 02 00 05
Prerequisites: None
Corequisites: None
Component: None
This course is a comprehensive study of the characteristics, teaching strategies, assessment tools, and placement alternatives for children with learning disabilities. Topics include characteristics, causes, assessment instruments, learning strategies, and collaborative methods for children with learning disabilities. Upon completion, students should be able to assist in identifying, assessing, and providing educational interventions for children with learning disabilities. This course is a unique concentration requirement in the Special Education concentration in the Early Childhood Associate program.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
EDU 151 Creative Activities

- **Prerequisites:** Take ENG 080 and RED 080
- **Corequisites:** None
- **Component:** None

This course covers planning, creation and adaptation of developmentally supportive learning environments with attention to curriculum, interactions, teaching practices and learning materials. Emphasis is placed on creating and adapting integrated, meaningful, challenging and engaging developmentally supportive learning experiences in art, music, movement and dramatics for all children. Upon completion, students should be able to create, adapt, implement and evaluate developmentally supportive learning materials, experiences and environments. This course is also available through the Virtual Learning Community (VLC).

EDU 151A Creative Activities Lab

- **Prerequisites:** Take ENG 080 and RED 080
- **Corequisites:** EDU 151
- **Component:** None

This course provides a laboratory component to complement EDU 151. Emphasis is placed on practical experiences that enhance concepts introduced in the classroom. Upon completion, students should be able to demonstrate a practical understanding of the development and implementation of appropriate creative activities.

EDU 153 Health, Safety, & Nutrition

- **Prerequisites:** Take ENG 080 and RED 080
- **Corequisites:** None
- **Component:** None

This course covers promoting and maintaining the health and well-being of all children. Topics include health and nutritional guidelines, common childhood illnesses, maintaining safe and healthy learning environments, recognition and reporting of abuse and neglect and state regulations. Upon completion, students should be able to demonstrate knowledge of health, safety, and nutritional needs, safe learning environments, and adhere to state regulations. This course is also available through the Virtual Learning Community (VLC).

EDU 157 Active Play

- **Prerequisites:** ENG 080 and RED 080
- **Corequisites:** None
- **Component:** None

This course introduces the use of indoor and outdoor physical activities to promote the physical, cognitive, and social/emotional development of children. Topics include the role of active play, development of play skills, playground design, selection of safe equipment, and materials and surfacing for active play. Upon completion, students should be able to discuss the stages of play, the role of teachers in play, and the design of appropriate active play areas and activities.

EDU 162 Observe & Assess in ECE

- **Prerequisites:** ENG 080 and RED 080

Corequisites: None

Component: None

This course introduces the research, benefits, goals, and ethical considerations associated with observation and assessment in Early Childhood environments. Emphasis is placed on the implementation of multiple observation/assessment strategies including anecdotal records, event samples, rating scales, and portfolios to create appropriate learning experiences. Upon completion, students should be able to practice responsible assessment and use assessments to enhance programming and collaboration for children and families.

EDU 163 Classroom Mgt & Instruct

- **Prerequisites:** ENG 080 and RED 080
- **Corequisites:** None
- **Component:** None

This course covers management and instructional techniques with school-age populations. Topics include classroom management and organization, teaching strategies, individual student differences and learning styles, and developmentally appropriate classroom guidance techniques. Upon completion, students should be able to utilize developmentally appropriate behavior management and instructional strategies that enhance the teaching/learning process and promote students’ academic success.

EDU 184 Early Child Intro Pract

- **Prerequisites:** ENG 080, RED 080, and EDU 119
- **Corequisites:** None
- **Component:** None

This course introduces students to early childhood settings and applying skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on observing children and assisting in the implementation of developmentally appropriate activities/environments for all children; and modeling reflective/professional practices. Upon completion, students should be able to demonstrate developmentally appropriate interactions with children and ethical/professional behaviors as indicated by assignments and onsite faculty visits.

EDU 186 Reading & Writing Methods

- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course covers concepts, resources, and methods for teaching reading and writing to school-age children. Topics include the importance of literacy, learning styles, skills assessment, various reading and writing approaches, and instructional strategies. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate reading and writing experiences. This course is a unique concentration requirement in the Teacher Associate concentration in the Early Childhood Associate program. This course is also available through the Virtual Learning Community (VLC).

| This course provides a comprehensive study of characteristics, alternative assessments, teaching strategies, placement options, inclusion, and family intervention for children with specific learning disabilities. Topics include causes, assessment instruments, learning strategies, and collaborative/inclusion methods for children with specific learning disabilities. Upon completion, students should be able to assist in identifying, assessing, and providing educational interventions for children with specific learning disabilities and their families. |

| EDU 234     | Infants, Toddlers, & Twos                        | 03      | 00        | 00      | 03         |           |
| Prerequisites: ENG 090, RED 090, and EDU 119 | Corequisites: None | Component: None |
| This course covers the unique needs and rapid changes that occur in the first three years of life and the inter-related factors that influence development. Emphasis is placed on recognizing and supporting developmental milestones through purposeful strategies, responsive care routines and identifying elements of quality, inclusive early care and education. Upon completion, students should be able to demonstrate respectful relationships that provide a foundation for healthy infant/toddler/twos development, plan/select activities/materials, and partner with diverse families. |

| EDU 234A    | Infants/Toddlers/Twos Lab                         | 00      | 02        | 00      | 01         |           |
| Prerequisites: ENG 090 and RED 090 | Corequisites: EDU 234 | Component: None |
| This course focuses on practical applications that support the healthy development of very young children by applying principles of quality inclusive early care and education. Emphasis is placed on recognizing the interrelated factors that impact children’s development through planning, evaluating and adapting quality environments, including activities and adult/child interactions. Upon completion, students should be able to demonstrate the ability to engage in respectful, responsive care that meets the unique needs of individual children/families. |

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
EDU 235 School-Age Development & Program  02 00 00 02
Prerequisites: ENG 090 and RED 090
Corequisites: None
Component: None
This course includes developmentally appropriate practices in group settings for school-age children. Emphasis is placed on principles of development, environmental planning, and positive guidance techniques. Upon completion, students should be able to discuss developmental principles for all children ages five to twelve and plan and implement developmentally-appropriate activities.

EDU 243 Learning Theory  03 00 00 03
Prerequisites: ENG 090 and RED 090
Corequisites: None
Component: None
This course provides lateral entry teachers an introduction to learning theory, various styles of learning, and motivational factors involved in the learning process. Emphasis is placed on the development of cognitive skills using the eight types of intelligence and applying these to practical classroom situations. Upon completion, students should be able to describe theories and styles of learning and discuss the relationship between different types of intelligence to learning motivation.

EDU 245 Policies and Procedures  03 00 00 03
Prerequisites: ENG 090 and RED 090
Corequisites: None
Component: None
This course is designed to introduce new lateral entry teachers to the policies and procedures established by the local education agency. Topics include emergency situation procedures, acceptable discipline, chain of command, role of mentors, evaluation procedures, employment requirements, dress codes, and other policies and procedures. Upon completion, students should be able to explain the policies and procedures to students, parents, or others and discuss the purpose of each policy category.

EDU 247 Sensory & Physical Disab  03 00 00 03
Prerequisites: ENG 090, RED 090, EDU 144, and EDU 145
Corequisites: None
Component: None
This course covers characteristics, intervention strategies, assistive technologies, and inclusive practices for children with sensory and physical disabilities. Topics include inclusive placement options, utilization of support services, other health impairments and family involvement for children with sensory and physical disabilities. Upon completion, students should be able to identify and utilize intervention strategies and service delivery options for those specific disabilities.

EDU 248 Developmental Delays  03 00 00 03
Prerequisites: ENG 090, RED 090, EDU 144, and EDU 145
Corequisites: None
Component: None
This course covers the causes and assessment of developmental delays and individualized instruction and curriculum for children with developmental delays. Emphasis is placed on definition, characteristics, assessment, educational strategies, inclusion, family involvement, and services for children with developmental delays. Upon completion, students should be able to identify, assess, and plan educational intervention strategies for children with developmental delays and their families.

EDU 250 PRAXIS I Preparation  01 00 00 01
Prerequisites: ENG 090 and RED 090
Corequisites: None
Component: None
This course is designed to prepare potential teachers for the PRAXIS I exam that is necessary to enter the field of education. Emphasis is placed on content specifications of the PRAXIS I exam, study skills and simulated examinations. Upon completion, students should be able demonstrate an understanding of the content necessary for successful completion of the PRAXIS I exam.

EDU 256 Inst Strat/Social Studies  02 02 00 03
Prerequisites: ENG 090, RED 090
Corequisites: None
Component: None
This course covers objectives, content, materials, and instructional approaches to social studies. Topics include the integration of history, geography, economics, and government materials; research/study techniques; and critical thinking. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate experiences as it relates to the NC Standard Course of Study.

EDU 257 Inst Strat/Math  02 02 00 03
Prerequisites: ENG 090, RED 090, MAT 060
Corequisites: None
Component: None
This course covers concepts, activities, methods, and materials for teaching mathematics in elementary through middle school grades. Topics include individual instruction, developmental skill building, manipulatives, problem solving, critical thinking and numerical concepts. Upon completion, students should be able to assess, plan, implement and evaluate developmentally appropriate math experiences relating to the NC Standard Course of Study.

EDU 258 Inst Strategies/Science  02 02 00 03
Prerequisites: ENG 090, RED 090
Corequisites: None
Component: None
This course covers objectives, content, materials, and instructional approaches to natural sciences for elementary through middle grades. Topics include classroom and laboratory science experiences, research/study techniques, and critical thinking. Upon completion, students should be able to assess/
plan/implement/evaluate developmentally appropriate learning experiences in science as related to the North Carolina Standard Course of Study.

**EDU 259 Curriculum Planning** 03 00 00 03
Prerequisites: ENG 090, RED 090, and EDU 119  
Corequisites: None  
Component: None  
This course is designed to focus on curriculum planning for three to five year olds. Topics include philosophy, curriculum models, indoor and outdoor environments, scheduling, authentic assessment, and planning developmentally appropriate experiences. Upon completion, students should be able to evaluate children’s development, critique curriculum, plan for individual and group needs, and assess and create quality environments.

**EDU 261 Early Childhood Administration I** 03 00 00 03
Prerequisites: ENG 090 and RED 090  
Corequisites: None  
Component: None  
This course introduces principles of basic programming and staffing, budgeting/financial management and marketing, and rules and regulations of diverse early childhood programs. Topics include program structure and philosophy, standards of NC child care programs, finance, funding resources, and staff and organizational management. Upon completion, students should be able to develop components of program/personnel handbooks, a program budget, and demonstrate knowledge of fundamental marketing strategies and NC standards. This course is also available through the Virtual Learning Community (VLC).

**EDU 262 Early Childhood Administration II** 03 00 00 03
Prerequisites: ENG 090, RED 090, and EDU 261  
Corequisites: EDU 119  
Component: None  
This course focuses on advocacy/leadership, public relations/ community outreach and program quality/evaluation for diverse early childhood programs. Topics include program evaluation/accreditation, involvement in early childhood professional organizations, leadership/mentoring, family, volunteer and community involvement and early childhood advocacy. Upon completion, students should be able to define and evaluate all components of early childhood programs, develop strategies for advocacy and integrate community into programs. This course is also available through the Virtual Learning Community (VLC).

**EDU 263 School-Age Program Admin** 02 00 00 02
Prerequisites: ENG 090 and RED 090  
Corequisites: None  
Component: None  
This course introduces the methods and procedures for development and administration of school-age programs in the public or proprietary setting. Emphasis is placed on the construction and organization of the physical environment. Upon completion, students should be able to plan, develop and administer a quality school-age program.

**EDU 271 Educational Technology** 02 02 00 03
Prerequisites: ENG 090 and RED 090  
Corequisites: None  
Component: None  
This course introduces the use of technology to enhance teaching and learning in all educational settings. Topics include technology concepts, instructional strategies, materials and adaptive technology for children with exceptionalities, facilitation of assessment/evaluation, and ethical issues surrounding the use of technology. This course is also available through the Virtual Learning Community (VLC).

**EDU 275 Effective Teacher Training** 02 00 00 02
Prerequisites: ENG 090, RED 090  
Corequisites: None  
Component: None  
This course provides specialized training using an experienced-based approach to learning. Topics include instructional preparation and presentation, student interaction, time management, learning expectations, evaluation, and curriculum principles and planning. Upon completion, students should be able to prepare and present a six-step lesson plan and demonstrate ways to improve students’ time-on-task.

**EDU 280 Language & Literacy Exp** 03 00 00 03
Prerequisites: ENG 090 and RED 090  
Corequisites: None  
Component: None  
This course is designed to expand students’ understanding of children’s language and literacy development and provides strategies for enhancing language/literacy experiences in an enriched environment. Topics include selection of diverse literature and interactive media, the integration of literacy concepts throughout the curriculum, appropriate observations/assessments and inclusive practices. Upon completion, students should be able to select, plan, implement and evaluate developmentally appropriate and diverse language/literacy experiences. This course is also available through the Virtual Learning Community (VLC).

**EDU 281 Instruc Strat/Read & Writ** 02 02 00 03
Prerequisites: ENG 090 and RED 090  
Corequisites: None  
Component: None  
This course covers concepts, resources, and methods for teaching reading and writing to elementary through middle-grade children. Topics include the importance of literacy, learning styles, skills assessment, various reading and writing approaches and instructional strategies. Upon completion, students should be able to assess, plan, implement and evaluate school-age literacy
EDU 282 Early Childhood Literature  03  00  00  03
Prerequisites:  ENG 090 and RED 090
Corequisites:  None
Component:  None
This course covers the history, selection, and integration of literature and language in the early childhood curriculum. Topics include the history and selection of developmentally appropriate children’s literature and the use of books and other media to enhance language and literacy in the classroom. Upon completion, students should be able to select appropriate books for storytelling, reading aloud, puppetry, flannel board use, and other techniques.

EDU 284 Early Child Capstone Prac  01  09  00  04
Prerequisites:  ENG 090, RED 090, EDU 119, EDU 144, EDU 145, EDU 146, and EDU 151
Corequisites:  None
Component:  None
This course is designed to allow students to apply skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/involving families; and modeling reflective and professional practices. Upon completion, students should be able to demonstrate developmentally appropriate plans/assessments, appropriate guidance techniques and ethical/professional behaviors as indicated by assignments and onsite faculty visits.

EDU 285 Internship Exp-School Age  01  09  00  04
Prerequisites:  ENG 090, RED 090, EDU 144, EDU 145, EDU 118, EDU 163
Corequisites:  None
Component:  None
This course is designed to allow students to apply skills in a quality public or private school environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/involving families; and modeling reflective and professional practices. Upon completion, students should be able to demonstrate developmentally appropriate lesson plans/assessments, appropriate guidance techniques, ethical/professional behaviors as indicated by assignments and onsite faculty visits.

EDU 289 Adv Issues/School Age  02  00  00  02
Prerequisites:  ENG 090, RED 090
Corequisites:  None
Component:  None
This course covers advanced topics and issues that relate to school-age programs. Emphasis is placed on current advocacy issues, emerging technology, professional growth, ethics, and organizations for providers/teachers working with school-age populations. Upon completion, students should be able to list, discuss, and explain advanced current topics and issues surrounding school-aged populations.

EDU 298 Seminar in Early Childhood  03  00  00  03
Prerequisites:  Enrollment in program
Corequisites:  None
Component:  None
This course provides an opportunity to explore topics of current interest. Emphasis is placed on the development of critical listening skills and the presentation of seminar topics. Upon completion, students should be able to critically analyze issues and establish informed opinions.

EFL 083 Grammar III  05  00  00  05
Prerequisites:  EFL 082
Corequisites:  None
Component:  None
This course is designed to provide high-intermediate non-native speakers of English with a knowledge of grammatical structures that improves academic communication. Emphasis is placed on using high-intermediate grammatical structures in meaningful contexts through exercised integrating the use of newly acquired structures with previously learned structures. Upon completion, students should be able to demonstrate improved proficiency, comprehension, and grammatical accuracy.

EFL 084 Grammar IV  05  00  00  05
Prerequisites:  EFL 083
Corequisites:  None
Component:  None
This course is designed to give non-native speakers of English a full understanding of advanced grammatical structures and techniques. Emphasis is placed on oral and written communicative fluency through the study of advanced grammatical forms. Upon completion, students should be able to incorporate the structures covered in both spoken and written form, demonstrating improved proficiency, comprehension, and grammatical accuracy.

EFL 091 Composition I  05  00  00  05
Prerequisites:  None
Corequisites:  None
Component:  None
This course introduces basic sentence structure and writing paragraphs. Emphasis is placed on word order, verb tense-aspect system, auxiliaries, word forms, and simple organization and basic transitions in writing paragraphs. Upon completion, students should be able to demonstrate a basic understanding of grammar and ability to write English paragraphs using appropriate vocabulary, organization, and transitions.

Course Descriptions

ELC 114 Basic Wiring II
Prerequisites: None
Corequisites: None
Component: None
This course provides instruction in the application of electrical tools, materials, and test equipment associated with electrical installations. Topics include the NEC; safety; electrical blueprints; planning, layout, and installation of equipment and conduits; and wiring devices such as panels and overcurrent devices. Upon completion, students should be able to properly install equipment and conduit associated with electrical installations.

ELC 115 Industrial Wiring
Prerequisites: ELC 113
Corequisites: None
Component: None
This course covers layout, planning, and installation of wiring systems in industrial facilities. Emphasis is placed on industrial wiring methods and materials. Upon completion, students should be able to install industrial systems and equipment.

ELC 117 Motors and Controls
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental concepts of motors and motor controls. Topics include ladder diagrams, pilot devices, contactors, motor starters, motors, and other control devices. Upon completion, students should be able to properly select, connect, and troubleshoot motors and control circuits.

ELC 118 National Electrical Code
Prerequisites: None
Corequisites: None
Component: None
This course covers the use of the current National Electrical Code. Topics include the NEC history, wiring methods, overcurrent protection, materials, and other related topics. Upon completion, students should be able to effectively use the NEC.

ELC 119 NEC Calculations
Prerequisites: None
Corequisites: None
Component: None
This course covers branch circuit, feeder, and service calculations. Emphasis is placed on sections of the National Electrical Code related to calculations. Upon completion, students should be able to use appropriate code sections to size wire, conduit, and overcurrent devices for branch circuits, feeders, and service.

ELC 121 Electrical Estimating
Prerequisites: None
Corequisites: None
Component: None
This course covers the principles involved in estimating electrical projects. Topics include take-offs of materials and equipment, labor, overhead, and profit. Upon completion, students should be able to estimate simple electrical projects.

ELC 128 Intro to PLC
Prerequisites: None
Corequisites: None
Component: None
This course introduces the programmable logic controller (PLC) and its associated applications. Topics include ladder logic diagrams, input/output modules, power supplies, surge protection, selection/installation of controllers, and interfacing of controllers with equipment. Upon completion, students should be able to install PLCs and create simple programs. This course is also available through the Virtual Learning Community (VLC).

ELC 131 DC/AC Circuit Analysis
Prerequisites: One course required: MAT 080, MAT 090, MAT 095 or MAT 161 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces DC and AC electricity with an emphasis on circuit analysis, measurements, and operation of test equipment. Topics include DC and AC principles, circuit analysis laws and theorems, components, test equipment operation, circuit simulation, and other related topics. Upon completion, students should be able to interpret circuit schematics; design, construct, verify, and analyze DC/AC circuits; and properly use test equipment.

ELC 131A DC/AC Circuit Analysis Lab
Prerequisites: None
Corequisites: ELC 131
Component: None
This course introduces provides laboratory assignments as applied to fundamental principles of DC/AC electricity. Emphasis is placed on measurements and evaluation of electrical components, devices and circuits. Upon completion, students should have gained hands-on experience by measuring voltage, current, and opposition to current flow utilizing various meters and test equipment.

ELC 229 Applications Project
Prerequisites: None
Corequisites: None
Component: None
This course provides an individual and/or integrated team approach to a practical project as approved by the instructor. Topics include project selection and planning, implementation and testing, and a final presentation. Upon completion, students should be able to plan and implement an applications-oriented project.

ELN 131 Semiconductor Applications
Prerequisites: ELC 131

**Course Descriptions**

**Corequisites:** None  
**Component:** None

This course introduces the characteristics and applications of semiconductor devices and circuits. Emphasis is placed on analysis, selection, biasing, and applications. Upon completion, students should be able to construct, analyze, verify, and troubleshoot discrete component circuits using appropriate techniques and test equipment.

**ELN 132 Linear IC Applications**  
Prerequisites: ELN 131  
Corequisites: None  
Component: None

This course introduces the characteristics and applications of linear integrated circuits. Topics include op-amp circuits, waveform generators, active filters, IC voltage regulators, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot linear integrated circuits using appropriate techniques and test equipment.

**ELN 133 Digital Electronics**  
Prerequisites: ELC 131  
Corequisites: None  
Component: None

This course covers combinational and sequential logic circuits. Topics include number systems, Boolean algebra, logic families, MSI and LSI circuits, AD/DA conversion, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot digital circuits using appropriate techniques and test equipment. This course is also available through the Virtual Learning Community (VLC).

**ELN 150 CAD for Electronics**  
Prerequisites: CIS 111 or CIS 110  
Corequisites: None  
Component: None

This course introduces computer-aided drafting (CAD) with an emphasis on applications in the electronics field. Topics include electronics industry standards (symbols, schematic diagrams, layouts); drawing electronic circuit diagrams; and specialized electronic drafting practices and components such as resistors, capacitors, and ICs. Upon completion, students should be able to prepare electronic drawings with CAD software.

**ELN 229 Industrial Electronics**  
Prerequisites: None  
Corequisites: None  
Component: None

This course covers semiconductor devices used in industrial applications. Topics include the basic theory, application, and operating characteristics of semiconductor devices. Upon completion, students should be able to install and/or troubleshoot these devices for proper operation in an industrial electronic circuit.

**ELN 231 Industrial Controls**  
Prerequisites: ELN 131 and ELN 232  
Corequisites: None  
Component: None

This course introduces the fundamental concepts of control of rotating machinery and associated peripheral devices. Topics include rotating machine theory, ladder logic, electromechanical and solid state relays, motor controls, pilot devices, three-phase power systems, and other related topics. Upon completion, students should be able to interpret schematics and demonstrate an understanding of electromechanical and electronic control of rotating machinery.

**ELN 232 Intro to Microprocessors**  
Prerequisites: ELN 133  
Corequisites: None  
Component: None

This course introduces microprocessor architecture and microcomputer systems including memory and input/output interfacing. Topics include low-level language programming, bus architecture, I/O systems, memory systems, interrupts, and other related topics. Upon completion, students should be able to interpret, analyze, verify, and troubleshoot fundamental microprocessor circuits and programs using appropriate techniques and test equipment.

**ELN 233 Microprocessor Systems**  
Prerequisites: ELN 232  
Corequisites: None  
Component: None

This course covers the application and design of microprocessor control systems. Topics include control and interfacing of systems using AD/DA, serial/parallel I/O, communication protocols, and other related applications. Upon completion, students should be able to design, construct, program, verify, analyze, and troubleshoot fundamental microprocessor interface and control circuits using related equipment.

**ELN 234 Communication Systems**  
Prerequisites: ELN 131 and ELN 133  
Corequisites: None  
Component: None

This course introduces the fundamentals of electronic communication systems. Topics include the frequency spectrum, electrical noise, modulation techniques, characteristics of transmitters and receivers, and digital communications. Upon completion, students should be able to interpret analog and digital communication circuit diagrams, analyze transmitter and receiver circuits, and use appropriate communication test equipment.

**ELN 247 Electronic App Project**  
Prerequisites: ELN 232 and ELN 234  
Corequisites: None  
Component: None
This course provides a structured approach to an application-oriented electronics project. Emphasis is placed on selecting, planning, implementing, testing, and presenting an application-oriented project. Upon completion, students should be able to present and demonstrate an electronics application-oriented project.

**ELN 249 Digital Communication** 02 03 00 03  
**Prerequisites:** ELN 232 and ELN 234  
**Corequisites:** None  
**Component:** None  
This course covers the core processes and applications associated with digital communication techniques. Topics include the characteristics of RF circuits, modulation, transmitters and receivers, electromagnetic transmission, antennas, and related applications. Upon completion, students should be able to demonstrate knowledge of the concepts associated with digital communication systems.

**ELN 275 Troubleshooting** 01 03 00 02  
**Prerequisites:** ELN 131 and ELN 133  
**Corequisites:** ELN 232  
**Component:** None  
This course covers techniques of analyzing and repairing failures in electronic equipment. Topics include safety, signal tracing, use of service manuals, and specific troubleshooting methods for analog, digital, and other electronics-based circuits and systems. Upon completion, students should be able to logically diagnose and isolate faults and perform necessary repairs to meet manufacturers’ specifications.

**EMS 110 EMT-Basic** 05 06 00 07  
**Prerequisites:** Departmental Approval  
**Corequisites:** None  
**Component:** EMS 110AA & EMS 110BB  
This course introduces basic emergency medical care. Topics include preparatory, airway, patient assessment, medical emergencies, trauma, infants and children, and operations. Upon completion, students should be able to demonstrate the knowledge and skills necessary to achieve North Carolina State or National Registry EMT-Basic certification.

**EMS 115 Defense Tactics for EMS** 01 03 00 02  
**Prerequisites:** Department Approval  
**Corequisites:** None  
**Component:** None  
This course is designed to provide tactics that can be used for self-protection in dangerous and violent situations. Emphasis is placed on prediction, recognition, and response to dangerous and violent situations. Upon completion, students should be able to recognize potentially hostile situations and protect themselves during a confrontation.

**EMS 120 Intermediate Interventions** 02 03 00 03  
**Prerequisites:** EMS 110  
**Corequisites:** EMS 121, EMS 130 and EMS 131  
**Component:** None  
This course is designed to provide the necessary information for interventions appropriate to the EMT-Intermediate and is required for intermediate certification. Topics include automated external defibrillation, basic cardiac electrophysiology, intravenous therapy, venipuncture, acid-base balance, and fluids and electrolytes. Upon completion, students should be able to properly establish an IV line, obtain venous blood, utilize AEDs, and correctly interpret arterial blood gases.

**EMS 121 EMS Clinical Practicum I** 00 00 06 02  
**Prerequisites:** EMS 110  
**Corequisites:** EMS 120, EMS 130 and EMS 131  
**Component:** None  
This course is the initial hospital and field internship and is required for intermediate and paramedic certification. Emphasis is placed on intermediate-level care. Upon completion, students should be able to demonstrate competence with intermediate-level skills.

**EMS 125 EMS Instructor Methodology** 01 02 00 02  
**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  
This course covers the information needed to develop and instruct EMS courses. Topics include instructional methods, lesson plan development, time management skills, and theories of adult learning. Upon completion, students should be able to teach EMS courses and meet the North Carolina EMS requirements for instructor methodology.

**EMS 130 Pharmacology I for EMS** 01 03 00 02  
**Prerequisites:** EMS 110  
**Corequisites:** EMS 120 and EMS 131  
**Component:** None  
This course introduces the fundamental principles of pharmacology and medication administration and is required for intermediate and paramedic certification. Topics include terminology, pharmacokinetics, pharmacodynamics, weights, measures, drug calculations, legislation, and administration routes. Upon completion, students should be able to accurately calculate drug dosages, properly administer medications, and demonstrate general knowledge of pharmacology.

**EMS 131 Advanced Airway Management** 01 02 00 02  
**Prerequisites:** EMS 110  
**Corequisites:** EMS 120 and EMS 130  
**Component:** None  
This course is designed to provide advanced airway management techniques and is required for intermediate and paramedic certification. Topics include respiratory anatomy and physiology, airway, ventilation, adjuncts, surgical intervention, and rapid
sequence intubation. Upon completion, students should be able to properly utilize all airway adjuncts and pharmacology associated with airway control and maintenance.

**EMS 140 Rescue Scene Management** 01 03 00 02
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course introduces rescue scene management and is required for paramedic certification. Topics include response to hazardous material conditions, medical incident command, and extrication of patients from a variety of situations. Upon completion, students should be able to recognize and manage rescue operations based upon initial and follow-up scene assessment.

**EMS 150 Emergency Vehicles & EMS Communication** 01 03 00 02
Prerequisites: None
Corequisites: None
Component: None
This course examines the principles governing emergency vehicles, maintenance of emergency vehicles, and EMS communication equipment and is required for paramedic certification. Topics include applicable motor vehicle laws affecting emergency vehicle operation, defensive driving, collision avoidance techniques, communication systems, and information management systems. Upon completion, students should have a basic knowledge of emergency vehicles, maintenance, and communication needs.

**EMS 210 Advanced Patient Assessment** 01 03 00 02
Prerequisites: EMS 120, EMS 121, EMS 130 and EMS 131
Corequisites: None
Component: None
This course covers advanced patient assessment techniques and is required for paramedic certification. Topics include initial assessment, medical-trauma history, field impression, complete physical exam process, on-going assessment, and documentation skills. Upon completion, students should be able to utilize basic communication skills and record and report collected patient data.

**EMS 220 Cardiology** 02 06 00 04
Prerequisites: All courses required: EMS 120, EMS 121, EMS 130 and EMS 131
Corequisites: None
Component: None
This course provides an in-depth study of cardiovascular emergencies and is required for paramedic certification. Topics include anatomy and physiology, pathophysiology, rhythm interpretation, cardiac pharmacology, and patient treatment. Upon completion, students should be able to certify at the Advanced Cardiac Life Support Provider level utilizing American Heart Association guidelines.
This course is designed to bridge the knowledge gained in a continuing education paramedic program with the knowledge gained in an EMS curriculum program. Topics include patient assessment, documentation, twelve-lead ECG analysis, thrombolytic agents, cardiac pacing, and advanced pharmacology. Upon completion, students should be able to perform advanced patient assessment documentation using the problem-oriented medical record format and manage complicated patients.

EMS 285 EMS Capstone 01 03 00 02
Prerequisites: All courses required: EMS 220, EMS 250 and EMS 260
Corequisites: None
Component: None
This course provides an opportunity to demonstrate problem-solving skills as a team leader in simulated patient scenarios and is required for paramedic certification. Emphasis is placed on critical thinking, integration of didactic and psychomotor skills, and effective performance in simulated emergency situations. Upon completion, students should be able to recognize and appropriately respond to a variety of EMS-related events.

ENG 070 Basic Language Skills 02 02 00 03
Prerequisites: Placement
Corequisites: No Corequisites
Component: None
This course introduces the fundamentals of standard written English. Emphasis is placed on effective word choice, recognition of sentences and sentence parts, and basic usage. Upon completion, students should be able to generate a variety of sentence types that clearly express ideas. This course does not satisfy the developmental reading and writing prerequisite for ENG 111 or ENG 111A.

ENG 080 Writing Foundations 03 02 00 04
Prerequisites: ENG 070 or Placement Test Credit Equivalent.
Corequisites: RED 080 Placement Test Credit Equivalent.
Component: None
This course introduces the writing process and stresses effective sentences. Emphasis is placed on applying the conventions of written English, reflecting standard usage and mechanics in structuring a variety of sentences. Upon completion, students should be able to write correct sentences and a unified, coherent paragraph.

ENG 090 Composition Strategies 03 00 00 03
Prerequisites: ENG 080 or Placement Test Credit Equivalent.
Corequisites: ENG 090A and RED 90 or Placement Test Credit Equivalent.
Component: None
This course provides practice in the writing process and stresses effective paragraphs. Emphasis is placed on learning and applying the conventions of standard written English in developing paragraphs within the essay. Upon completion, students should be able to compose a variety of paragraphs and a unified, coherent essay. This course satisfies the developmental writing requirement for ENG 111 and ENG 111A.
ENG 090A Composition Strategies Lab 00 02 00 01
Prerequisites: None
Corequisites: ENG 090
Component: None
This writing lab is designed to practice the skills introduced in ENG 090. Emphasis is placed on learning and applying the conventions of standard written English in developing paragraphs within the essay. Upon completion, students should be able to compose a variety of paragraphs and a unified, coherent essay.

ENG 095 Reading & Comp Strategies 05 00 00 05
Prerequisites: ENG 085 or ENG 080 and RED 080 or Placement Test Credit Equivalent
Corequisites: ENG 095A
Component: None
This course uses whole language to strengthen proficiency in reading and writing for college. Emphasis is placed on applying critical reading skills to narrative and expository texts and on using the writing process. Upon completion, students should be able to comprehend, analyze, and evaluate college texts and to compose essays in preparation for college writing.

ENG 095A Reading & Comp Strat Lab 00 02 00 01
Prerequisites: ENG 085 or ENG 080 and RED 080 or Placement Test Credit Equivalent
Corequisites: ENG 095
Component: None
This laboratory provides the opportunity to practice the skills introduced in ENG 095. Emphasis is placed on practical skills for applying critical reading skills to narrative and expository texts and on the writing process. Upon completion, students should be able to apply those skills in the production of effective essays in preparation for college writing.

ENG 101 Applied Communications I 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is designed to enhance reading and writing skills for the workplace. Emphasis is placed on technical reading, job-related vocabulary, sentence writing, punctuation, and spelling. Upon completion, students should be able to identify main ideas with supporting details and produce mechanically correct short writings appropriate to the workplace. This course is intended for certificate and diploma programs.

ENG 102 Applied Communications II 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is designed to enhance writing and speaking skills for the workplace. Emphasis is placed on generating short writings such as job application documents, memoranda, and reports and developing interpersonal communication skills with employees and the public. Upon completion, students should be able to prepare effective, short, and job-related written and oral communications.

ENG 111 Expository Writing 03 00 00 03
Prerequisites: ENG-090 and RED 090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course is the required first course in a series of two designed to develop the ability to produce clear expository prose. Emphasis is placed on the writing process including audience analysis, topic selection, thesis support and development, editing, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

ENG 112 Argument-Based Research 03 00 00 03
Prerequisites: ENG 111
Corequisites: None
Component: None
This course, the second in a series of two, introduces research techniques, documentation styles, and argumentative strategies. Emphasis is placed on analyzing information and ideas and incorporating research findings into documented argumentative essays and research projects. Upon completion, students should be able to summarize, paraphrase, interpret, and synthesize information from primary and secondary sources using standard research format and style. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

ENG 113 Literature-Based Research 03 00 00 03
Prerequisites: ENG 111
Corequisites: None
Component: None
This course, the second in a series of two, expands the concepts developed in ENG 111 by focusing on writing that involves literature-based research and documentation. Emphasis is placed on critical reading and thinking and the analysis and interpretation of prose, poetry, and drama: plot, characterization, theme, cultural context, etc. Upon completion, students should be able to construct mechanically-sound, documented essays and research papers that analyze and respond to literary works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

ENG 114 Professional Research & Reporting 03 00 00 03
Prerequisites: ENG 111
Corequisites: None
Component: None
This course, the second in a series of two, is designed to teach
professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-designed business and professional written and oral presentations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in English composition.

ENG 115 Oral Communication  
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement 
Corequisites: None 
Component: None 
This course introduces the basic principles of oral communication in both small group and public settings. Emphasis is placed on the components of the communication process, group decision-making, and public address. Upon completion, students should be able to demonstrate the principles of effective oral communication in small group and public settings.

ENG 125 Creative Writing I  
Prerequisites: ENG 111 
Corequisites: None 
Component: None 
This course is designed to provide students with the opportunity to practice the art of creative writing. Emphasis is placed on writing, fiction, poetry, and sketches. Upon completion, students should be able to craft and critique their own writing and critique the writing of others. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 126 Creative Writing II  
Prerequisites: ENG 125 
Corequisites: None 
Component: None 
This course is designed as a workshop approach for advancing imaginative and literary skills. Emphasis is placed on the discussion of style, techniques, and challenges for first publications. Upon completion, students should be able to submit a piece of their writing for publication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 131 Introduction to Literature  
Prerequisites: ENG 111 
Corequisites: One course required: ENG 112, ENG 113, or ENG 114 
Component: None 
This course introduces the principal genres of literature. Emphasis is placed on literary terminology, devices, structure, and interpretation. Upon completion, students should be able to analyze and respond to literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 132 Introduction to Drama  
Prerequisites: ENG 111 
Corequisites: None 
Component: None 
This course provides intensive study of drama as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of drama. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of drama. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 133 Introduction to the Novel  
Prerequisites: ENG 111 
Corequisites: None 
Component: None 
This course provides intensive study of the novel as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of the novel. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of the novel. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 134 Introduction to Poetry  
Prerequisites: ENG 111 
Corequisites: None 
Component: None 
This course provides intensive study of the poem as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of poetry. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of poetry. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 135 Introduction to Short Fiction  
Prerequisites: ENG 111 
Corequisites: None 
Component: None 
This course provides intensive study of short fiction as a literary form, based on close reading of representative texts. Emphasis is placed on the development and analysis of short fiction. Upon completion, students should be able to interpret, analyze, and discuss the distinguishing features of short fiction. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 231 American Literature I  
Prerequisites: None 
Corequisites: None 
Component: None 
This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry,
This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

**ENG 232 American Literature II** 03 00 00 03  
**Prerequisites:** One course required: ENG 112, ENG 113 or ENG 114  
**Corequisites:** None  
**Component:** None  
This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

**ENG 233 Major American Writers** 03 00 00 03  
**Prerequisites:** One course required: ENG 112, ENG 113 or ENG 114  
**Corequisites:** None  
**Component:** None  
This course provides an intensive study of the works of several major American authors. Emphasis is placed on American history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ENG 234 Modern American Poets** 03 00 00 03  
**Prerequisites:** One course required: ENG 112, ENG 113 or ENG 114  
**Corequisites:** None  
**Component:** None  
This course covers the works of selected major modern American poets. Topics include each poet’s theory and practice of poetry and the historical and literary traditions which influenced or were influenced by the poets. Upon completion, students should be able to read poetry with more comprehension and explicate selected poems in light of technique, theory, and poetic traditions. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ENG 241 British Literature I** 03 00 00 03  
**Prerequisites:** One course required: ENG 112, ENG 113 or ENG 114  
**Corequisites:** None  
**Component:** None  
This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

**ENG 242 British Literature II** 03 00 00 03  
**Prerequisites:** One course required: ENG 112, ENG 113 or ENG 114  
**Corequisites:** None  
**Component:** None  
This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

**ENG 243 Major British Writers** 03 00 00 03  
**Prerequisites:** One course required: ENG 112, ENG 113 or ENG 114  
**Corequisites:** None  
**Component:** None  
This course provides an intensive study of the works of several major British authors. Emphasis is placed on British history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ENG 244 Western World Literature I** 03 00 00 03  
**Prerequisites:** One course required: ENG 112, ENG 113 or ENG 114  
**Corequisites:** None  
**Component:** None  
This course provides a survey of selected European works from the Classical period through the Renaissance. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ENG 245 Western World Literature II** 03 00 00 03  
**Prerequisites:** One course required: ENG 112, ENG 113 or ENG 114  
**Corequisites:** None  
**Component:** None  
This course provides a survey of selected European works from the Neoclassical period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
ENG 253 The Bible as Literature  03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course introduces the Hebrew Old Testament and the Christian New Testament as works of literary art. Emphasis is placed on the Bible’s literary aspects including history, composition, structure, and cultural contexts. Upon completion, students should be able to identify and analyze selected books and passages using appropriate literary conventions. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 261 World Literature I  03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from their literary beginnings through the seventeenth century. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

ENG 262 World Literature II  03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from the eighteenth century to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

ENG 264 Contemporary Literature  03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course includes a study of contemporary literature. Emphasis is placed on literary and cultural trends of selected texts. Upon completion, students should be able to interpret, analyze, and respond to the literature. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 267 Southern Literature  03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides an analytical study of the works of several Southern authors. Emphasis is placed on the historical and cultural contexts, themes, aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 270 African-American Literature  03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides a survey of the development of African-American literature from its beginnings to the present. Emphasis is placed on historical and cultural context, themes, literary traditions, and backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and respond to selected texts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

ENG 271 Literature by Women  03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course provides an analytical study of the works of several women authors. Emphasis is placed on the historical and cultural contexts, themes and aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

ENG 272 Science Fiction  03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course covers the relationships between science and literature through analysis of short stories and novels. Emphasis is placed on scientific discoveries that shaped Western culture and our changing view of the universe as reflected in science fiction literature. Upon completion, students should be able to trace major themes and ideas and illustrate relationships between science, world view, and science fiction literature. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

EPT 120 Sociology of Disaster  03 00 00 03
Prerequisites: None

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Corequisites: None
Component: None
This course is designed to overview sociological disaster research, disaster systems, and alternative research approaches. Topics include human and organizational behaviors, long term disaster impact on communities, disaster warning, and evacuation considerations. Upon completion, students should be able to assess and predict the impact of disaster-related human behavior.

EPT 150 EMS Incident Management 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the fully integrated incident management system for EMS response to high impact incidents. Topics include mass casualty incidents, terrorists events, communications, training, triage, law and fire incident command. Upon completion, students should be able to implement and operate within the National Incident Management System.

EPT 210 Response & Recovery 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic concepts, operational procedures, and authorities involved in response and recovery efforts to major disasters. Topics include federal, state, and local roles and responsibilities in major disaster response and recovery work, with an emphasis on governmental coordination. Upon completion, students should be able to implement a disaster response plan and assess the needs of those involved in a major disaster.

EPT 220 Terrorism and Emer. Mgt. 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers preparing for, responding to, and safely mitigating terrorism incidents. Topic include the history of terrorism, scene hazards, evidence preservation, risk assessment, roles and responsibilities, explosive recognition, and terrorism planning. Upon completion, students should be able to recognize the threat of terrorism and operate within the emergency management framework at a terrorism incident.

EPT 275 Emergency OPS Center Mgt 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides students with the knowledge and skills to effectively manage and operate an EOC during crisis situations. Topics include properly locating and designing an EOC, staffing, training and briefing EOC personnel, and how to operate an EOC. Upon completion, students should be able to demonstrate how to set up and operate an effective emergency operations center.

ETR 220 Innovation and Creativity 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of developing and enhancing individual and organizational creativity and innovation. Topics include that innovation needs to be applied to products, services, and processes to increase competitive advantages and add value to businesses. Upon completion, students should be able to apply innovation and creativity principles in the work place.

ETR 240 Funding for Entrepreneurs 03 00 00 03
Prerequisites: ACC 120
Corequisites: None
Component: None
This course provides a focus on the financial issues and needs confronting entrepreneurs attempting to grow their businesses by attracting startup and growth capital. Topics include sources of funding including: angel investors, venture capital, IPO’s, private placement, banks, suppliers, buyers, partners, and the government. Upon completion, students should be able to demonstrate an understanding of how to effectively finance a business venture.

FIP 120 Intro to Fire Protection 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of the history, development, methods, systems, and regulations as they apply to the fire protection field. Topics include history, evolution, statistics, suppression, organizations, careers, curriculum, and other related topics. Upon completion, students should be able to demonstrate a broad understanding of the fire protection field.

FIP 124 Fire Prevention & Public Ed 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces fire prevention concepts as they relate to community and industrial operations. Topics include the development and maintenance of fire prevention programs, educational programs, and inspection programs. Upon completion, students should be able to research, develop, and present a fire safety program to a citizens or industrial group, meeting NFPA 1021. This course is also available through the Virtual Learning Community (VLC).

FIP 128 Detection & Investigation 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers procedures for determining the origin and cause of accidental and incendiary fires. Topics include collection and preservation of evidence, detection and determination of accelerants, courtroom procedure and testimony, and

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
documentation of the fire scene. Upon completion, students should be able to conduct a competent fire investigation and present those findings to appropriate officials or equivalent, meeting NFPA 1021. This course is also available through the Virtual Learning Community (VLC).

**FIP 132 Building Construction** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the principles and practices related to various types of building construction, including residential and commercial, as impacted by fire conditions. Topics include types of construction and related elements, fire resistive aspects of construction materials, building codes, collapse, and other related topics. Upon completion, students should be able to understand and recognize various types of construction as related to fire conditions MEETING NFPA 1021.

**FIP 136 Inspections & Codes** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamentals of fire and building codes and procedures to conduct an inspection. Topics include review of fire and building codes, writing inspection reports, identifying hazards, plan reviews, site sketches, and other related topics. Upon completion, students should be able to conduct a fire code compliance inspection and produce a written report, meeting NFPA 1021.

**FIP 140 Industrial Fire Protect** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers fire protection systems in industrial facilities. Topics include applicable health and safety standards, insurance carrier regulations, other regulatory agencies, hazards of local industries, fire brigade operation, and loss prevention programs. Upon completion, students should be able to plan, organize, and evaluate an industrial facility’s fire protection, which meet elements of NFPA 1021 for Fire Officer I and II.

**FIP 152 Fire Protection Law** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers fire protection law. Topics include torts, legal terms, contracts, liability, review of case histories, and other related topics. Upon completion, students should be able to discuss laws, codes, and ordinances as they relate to fire protection. This course is also available through the Virtual Learning Community (VLC).

**FIP 164 OSHA Standards** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers public and private sector OSHA work site requirements. Emphasis is placed on accident prevention and reporting, personal safety, machine operation, and hazardous material handling. Upon completion, students should be able to analyze and interpret specific OSHA regulations and write workplace policies designed to achieve compliance.

**FIP 180 Wildland Fire Behavior** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the principles of wildland fire behavior and meteorology. Emphasis is placed on fire calculations, fuels, and related weather effects. Upon completion, students should be able to demonstrate and apply fire behavior theories through written and performance evaluations.

**FIP 184 Wildland Fire Safety** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers safety principles used when working in the wildland fire environment. Emphasis is placed on personal safety and working with equipment, aircraft, and fire-ground operations. Upon completion, students should be able to demonstrate wildland fire safety procedures through written and performance evaluations.

**FIP 220 Fire Fighting Strategies** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides preparation for command of initial incident operations involving emergencies within both the public and private sector. Topics include incident management, fire-ground tactics and strategies, incident safety, and command/control of emergency operations. Upon completion, students should be able to describe the initial incident system related to operations involving various emergencies in fire/non-fire situations, meeting NFPA 1021.

**FIP 221 Adv Fire Fighting Strat** 03 00 00 03
Prerequisites: FIP 220
Corequisites: None
Component: None
This course covers command-level operations for multi-company/agency operations involving fire and non-fire emergencies. Topics include advanced ICS, advanced incident analysis, command-level fire operations, and control of both man made and natural major disasters. Upon completion, students should be able to describe proper and accepted systems for the mitigation of emergencies at the level of overall scene command.
FIP 224 Instructional Methodology
Prerequisites: None
Corequisites: None
Component: None
This course covers the knowledge, skills, and abilities needed to train others in fire service operations. Topics include planning, presenting, and evaluating lesson plans, learning styles, use of media, communication, and other related topics. Upon completion, students should be able to meet all requirements of NFPA 1041 and NFPA 1021.

FIP 228 Local Govt Finance
Prerequisites: None
Corequisites: None
Component: None
This course introduces local governmental financial principles and practices. Topics include budget preparation and justification, revenue policies, statutory requirements, taxation, audits, and the economic climate. Upon completion, students should be able to comprehend the importance of finance as it applies to the operation of a department.

FIP 229 Fire Dynamics and Combust
Prerequisites: None
Corequisites: None
Component: None
This course covers the theories and fundamentals of how and why fires start and spread, and how they are safely controlled. Topics include components of fire, fire sources, fire behavior, properties of combustible solids, classification of hazards, and the use of fire extinguishing agents. Upon completion, students should be able to describe the properties of matter and dynamics of fire, identify fuel sources, and compare suppressants and extinguishment techniques.

FIP 230 Chem of Hazardous Mat I
Prerequisites: None
Corequisites: None
Component: None
This course covers the evaluation of hazardous materials. Topics include use of the periodic table, hydrocarbon derivatives, placards and labels, parameters of combustion, and spill and leak mitigation. Upon completion, students should be able to demonstrate knowledge of the chemical behavior of hazardous materials.

FIP 232 Hydraulics & Water Dist
Prerequisites: MAT 115, MAT 120, MAT 121, MAT 140, MAT 151, MAT 161, MAT 171, or MAT 175
Corequisites: None
Component: None
This course covers the flow of fluids through fire hoses, nozzles, appliances, pumps, standpipes, water mains, and other devices. Emphasis is placed on supply and delivery systems, fire flow testing, hydraulic calculations, and other related topics. Upon completion, students should be able to perform hydraulic calculations, conduct water availability tests, and demonstrate knowledge of water distribution systems.

FIP 236 Emergency Management
Prerequisites: None
Corequisites: None
Component: None
This course covers the four phases of emergency management: mitigation, preparedness, response, and recovery. Topics include organizing for emergency management, coordinating for community resources, public sector liability, and the roles of government agencies at all levels. Upon completion, students should be able to demonstrate a knowledge of comprehensive emergency management and the integrated emergency management system.

FIP 240 Fire Service Supervision
Prerequisites: None
Corequisites: None
Component: None
This course covers supervisory skills and practices in the fire protection field. Topics include the supervisor’s job, supervision skills, the changing work environment, managing change, organizing for results, discipline and grievances, and safety. Upon completion, students should be able to demonstrate an understanding of the roles and responsibilities of the effective fire service supervisor, meeting elements of NFPA 1021.

FIP 248 Fire Svc Personnel Adm
Prerequisites: None
Corequisites: None
Component: None
This course covers the basics of setting up and administering the personnel functions of fire protection organizations. Emphasis is placed on human resource planning, classification and job analysis, equal opportunity employment, affirmative action, recruitment, retention, development, performance evaluation, and assessment centers. Upon completion, students should be able to demonstrate knowledge of the personnel function as it relates to managing fire protection.

FIP 256 Munic Public Relations
Prerequisites: None
Corequisites: None
Component: None
This course is a general survey of municipal public relations and their effect on the governmental process. Topics include principles of public relations, press releases, press conferences, public information officers, image surveys, and the effects of perceived service on fire protection delivery. Upon completion, students should be able to manage the public relations functions of a fire service organization, which meet elements of NFPA 1021 for Fire Officer I and II.
FIP 276 Managing Fire Services  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an overview of fire department operative services. Topics include finance, staffing, equipment, code enforcement, management information, specialized services, legal issues, planning, and other related topics. Upon completion, students should be able to understand concepts and apply fire department management and operations principles, meeting NFPA 1021.

FIP 277 Fire and Social Behavior  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers fire-related aspects of human behavior, with an emphasis on research and a systems approach to human-behavior analysis. Topics include identification of populations and structures at high risk, evaluation of systems models, and use of computer models to predict human behavior during fires. Upon completion, students should be able to identify and anticipate human behavior in response to various residential, commercial, board-and-care facility, and wildland/rural fire events.

FLO 189 Basic Floral Design  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides general knowledge of floral design on a non-commercial level. Topics include simple corsage work, vase arrangements, and holiday novelty items. Upon completion, students should be able to tie a bow and construct simple corsages, bud vases, and holiday items.

FRE 111 Elementary French I  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the fundamental elements of the French language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written French and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

FRE 112 Elementary French II  
Prerequisites: FRE 111  
Corequisites: None  
Component: None  
This course is a continuation of FRE 111 focusing on the fundamental elements of the French language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written French and demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

FRE 181 French Lab 1  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an opportunity to enhance acquisition of the fundamental elements of the French language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written French and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

FRE 182 French Lab 2  
Prerequisites: FRE 181  
Corequisites: None  
Component: None  
This course provides an opportunity to enhance acquisition of the fundamental elements of the French language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written French and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

FRE 211 Intermediate French I  
Prerequisites: FRE 112  
Corequisites: None  
Component: None  
This course provides a review and expansion of the essential skills of the French language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

FRE 212 Intermediate French II  
Prerequisites: FRE 211  
Corequisites: None  
Component: None  
This course is a continuation of FRE 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing...
FRE 221 French Conversation  03  00  00  03
Prerequisites:  FRE 212
Corequisites:  None
Component:  None
This course provides an opportunity for intensive communication in spoken French. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

FRE 281 French Lab 3  00  02  00  01
Prerequisites:  FRE 182
Corequisites:  None
Component:  None
This course provides an opportunity to enhance the review and expansion of the essential skills of the French language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

FRE 282 French Lab 4  00  02  00  01
Prerequisites:  FRE 281
Corequisites:  None
Component:  None
This course provides an opportunity to enhance the review and expansion of the essential skills of the French language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

FSE 210 Embalming Theory I  03  00  00  03
Prerequisites:  FSE 118
Corequisites:  None
Component:  None
This course is a survey of the basic principles of microbiology and related funeral service considerations. Emphasis is placed on sanitation, disinfection, public health, and embalming practices as it relates to various microorganisms. Upon completion, students should be able to characterize various microbial agents and discuss topical, chemical, and biological methods of control.
This course introduces various embalming procedures and the purpose, history, and need for embalming. Emphasis is placed on laboratory equipment, post mortem changes, and the proper use of embalming chemicals. Upon completion, students should be able to identify various instruments and relate theoretical case analysis to embalming procedures used in the funeral home.

**FSE 211 Embalming Lab I**

**Prerequisites:** None  
**Corequisites:** FSE 210  
**Component:** None  

This course provides hands-on experience with general embalming techniques. Emphasis is placed on preparation of human remains in the embalming laboratory. Upon completion, students should be able to demonstrate knowledge of embalming theory and sanitation to protect the public health.

**FSE 212 Embalming Theory II**

**Prerequisites:** A course from each set: FSE 210 and FSE 211 or COE112F  
**Corequisites:** FSE 213 or COE 122F  
**Component:** None  

This course is a continuation of FSE 210 and covers more detailed embalming procedures. Topics include anatomical consideration for embalming, case analysis, positioning features, arterial injection, cavity treatment, autopsies, and other post mortem conditions. Upon completion, students should be able to demonstrate knowledge of embalming theory and sanitation to protect the public health.

**FSE 213 Embalming Lab II**

**Prerequisites:** FSE 210 and FSE 211  
**Corequisites:** FSE 212  
**Component:** None  

This course provides hands-on experience in more advanced embalming skills. Emphasis is placed on preparation of human remains in the embalming laboratory. Upon completion, students should be able to determine the proper techniques to be utilized in each particular embalming situation.

**FSE 214 Pathology**

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course is a general survey of the disease process. Topics include pathological terminology, basic body functions, trauma, disease process, and etiology. Upon completion, students should be able to recognize medical terminology used in completing death certificates and understand the disease process.

**FSE 215 Funeral Home Operations**

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course covers funeral home operations, including business techniques and effective counseling skills. Topics include establishing a funeral home, choosing and financing a location, building, merchandising, caskets, vaults, planning, and counseling techniques and philosophies. Upon completion, students should be able to understand the proper procedures for operating a funeral home and relate more effectively to those experiencing grief.

**FSE 216 Restorative Arts**

**Prerequisites:** FSE 118  
**Corequisites:** None  
**Component:** None  

This course covers the terminology used and pathological conditions observed during the restoration process. Topics include basic restoration, anatomical modeling, expression, use of photographs, legal aspects, pathological discoloration, cosmetics, and solvents. Upon completion, students should be able to utilize materials and techniques in the restoration of human remains.

**FSE 217 Funeral Service Projects**

**Prerequisites:** FSE 212, FSE 216 and Department Chairperson approval  
**Corequisites:** None  
**Component:** None  

This course provides an overview of funeral service practices and procedures, including computer software used in the funeral service profession. Emphasis is placed on utilizing funeral service software and on topics required for licensure. Upon completion, students should be able to enter information, generate documents, and demonstrate knowledge of the topics covered on state or national licensure exams.

**GEL 111 Introductory Geology**

**Prerequisites:** ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  

This course introduces basic landforms and geological processes. Topics include rocks, minerals, volcanoes, fluvial processes, geological history, plate tectonics, glaciers, and coastal dynamics. Upon completion, students should be able to describe basic geological processes that shape the earth. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**GEL 113 Historical Geology**

**Prerequisites:** GEL 111 or GEL 120  
**Corequisites:** None  
**Component:** None  

This course covers the geological history of the earth and its life forms. Emphasis is placed on the study of rock strata, fossil groups, and geological time. Upon completion, students should be able to identify major fossil groups and associated rock strata and approximate ages of geological formations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
GEL 120 Physical Geology  03 02 00 04
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of the structure and composition of the earth’s crust. Emphasis is placed on weathering, erosional and depositional processes, mountain building forces, rocks and minerals, and structural changes. Upon completion, students should be able to explain the structure, composition, and formation of the earth’s crust. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

GEL 220 Marine Geology  03 02 00 04
Prerequisites: GEL 120
Corequisites: None
Component: None
This course presents a detailed examination of coastal and sea floor geology. Emphasis is placed on coastal and sea floor landforms and processes that shape these features. Upon completion, students should be able to describe the origin and evolution of both coastal and sea floor landforms. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

GEL 230 Environmental Geology  03 02 00 04
Prerequisites: GEL 111, GEL 120 or PHS 130
Corequisites: None
Component: None
This course provides insights into geologic forces that cause environmental changes influencing man’s activities. Emphasis is placed on natural hazards and disasters caused by geologic forces. Upon completion, students should be able to relate major hazards and disasters to the geologic forces responsible for their occurrence. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

GEO 110 Introduction to Geography  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces map reading skills and the physical and cultural features of different areas of the earth. Topics include spatial association, the importance of location, physical characteristics of the earth, and the impact of humans on the environment. Upon completion, students should be able to demonstrate an ability to read a map and describe physical and cultural features of different regions. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement

GEO 111 World Regional Geography  03 00 00 03
Prerequisites: None
Corequisites: None

Component: None
This course introduces the regional concept which emphasizes the spatial association of people and their environment. Emphasis is placed on the physical, cultural, and economic systems that interact to produce the distinct regions of the earth. Upon completion, students should be able to describe variations in physical and cultural features of a region and demonstrate an understanding of their functional relationships. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences. This course is also available through the Virtual Learning Community (VLC).

GEO 112 Cultural Geography  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is designed to explore the diversity of human cultures and to describe their shared characteristics. Emphasis is placed on the characteristics, distribution, and complexity of earth’s cultural patterns. Upon completion, students should be able to demonstrate an understanding of the differences and similarities in human cultural groups. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

GEO 113 Economic Geography  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the patterns and networks of economic interdependence and how they affect human populations. Emphasis is placed on the economic aspects of the production and distribution of goods and services and their impact on the quality of human life. Upon completion, students should be able to describe different economic systems and demonstrate an understanding of the variables that influence economic development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

GEO 121 North Carolina Geography  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is a survey of the physical and cultural landscapes of North Carolina. Topics include physical characteristics of North Carolina, settlement patterns, resource use, and cultural variations. Upon completion, students should be able to demonstrate knowledge of the distinct physical and cultural features of North Carolina. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course introduces both the basic physical components that help shape the earth and the study of minerals, rocks, and evolution of landforms. Emphasis is placed on the geographic grid, cartography, weather, climate, mineral composition, fluvial processes, and erosion and deposition. Upon completion, students should be able to identify these components and processes and explain how they interact. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

GER 132 Physical Geography II  03 02 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces the study of minerals, rocks, evolution of landforms, and consequences of landscape change. Emphasis is placed on mineral composition, fluvial processes, erosion and deposition, glaciers, and coastal processes. Upon completion, students should be able to identify these components and processes and to explain how they interact. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

GER 111 Elementary German I  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of the German language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written German and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

GER 112 Elementary German II  03 00 00 03
Prerequisites: GER 111
Corequisites: None

GER 211 Intermediate German I  03 00 00 03
Prerequisites: GER 112
Corequisites: None
Component: None
This course provides a review and expansion of the essential skills of the German language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

GER 212 Intermediate German II  03 00 00 03
Prerequisites: GER 211
Corequisites: None

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Component: None
This course provides a continuation of GER 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

GER 221 German Conversation 03 00 00 03
Prerequisites: GER 212
Corequisites: None
Component: None
This course provides an opportunity for intensive communication in spoken German. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

GER 281 German Lab 3 00 02 00 01
Prerequisites: GER 182
Corequisites: None
Component: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the German language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

GER 282 German Lab 4 00 02 00 01
Prerequisites: GER 281
Corequisites: None
Component: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the German language. Emphasis is placed on hands-on experience with software. Upon completion, students should be able to utilize and depict calculations, decision-making and branching and looping functions processing, and top-down programming methodology.

GIS 111 Introduction to GIS 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the hardware and software components of a Geographic Information System and reviews GIS applications. Topics include data structures and basic functions, methods of data capture and sources of data, and the nature and characteristics of spatial data and objects. Upon completion, students should be able to identify GIS hardware components, typical operations, products/applications, and differences between database models and between raster and vector systems. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

GIS 112 Introduction to GPS 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of Global Positioning Systems (GPS). Topics include the theory, implementation, and operations of GPS, as well as alternate data source remote sensing. Upon completion, students should be able to demonstrate an understanding of the fundamentals of GPS.

GIS 161 Intro to Comp/BASIC & C++ 01 04 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the electronic computer and includes a general description of computer design and operation, associated vocabulary, and most widely used applications. Emphasis is placed on hands-on experience with software. Upon completion, students should be able to utilize and depict calculations, decision-making and branching and looping functions processing, and top-down programming methodology.

GRD 110 Typography I 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the history and mechanics of type and its application to layout and design. Topics include typographic fundamentals, anatomy, measurements, composition, identification, and terminology. Upon completion, students should be able to demonstrate proficiency in design application, analysis, specification, and creation of typographic elements.

GRD 117 Design Career Exploration 02 00 00 02
Prerequisites: None
Corequisites: None
Component: None
This course covers opportunities in the graphic design field and employment requirements. Topics include evaluation of career choices, operations, structure of advertising and graphic design businesses, and related business issues. Upon completion, students should be able to demonstrate an understanding of the graphic design field and consider an appropriate personal direction of career specialization.

GRD 220 Calligraphy  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers calligraphy as a design element. Emphasis is placed on the history, methods, materials, tools, and techniques of hand lettering. Upon completion, students should be able to use a variety of pens, brushes, inks, paint, and surfaces to produce several finished calligraphic works.

GRD 241 Graphic Design III  
Prerequisites: GRD 142 and GRD 152  
Corequisites: None  
Component: None  
This course is an advanced exploration of various techniques and media for advertising and graphic design. Emphasis is placed on advanced concepts and solutions to complex and challenging graphic design problems. Upon completion, students should be able to demonstrate competence and professionalism in visual problem solving.

GRD 242 Graphic Design IV  
Prerequisites: GRD 241 and GRD 153  
Corequisites: None  
Component: None  
This course is a continuation of GRD 241. Emphasis is placed on using advanced media techniques, concepts, strategies, and professionalism in all aspects of design. Upon completion, students should be able to conceptualize, create, and produce designs for reproduction.

GRD 247 Design Applications IV  
Prerequisites: None  
Corequisites: GRD 242  
Component: None  
This course is designed to provide additional hands-on training in graphic design. Emphasis is placed on producing sophisticated design projects utilizing concepts and techniques covered in GRD 242. Upon completion, students should be able to solve complex design problems by producing projects to meet client specifications for reproduction.

GRD 265 Digital Print Production  
Prerequisites: GRD 151 or GRA 151  
Corequisites: None  
Component: None  
This course covers preparation of digital files for output and reproduction. Emphasis is placed on output options, separations, color proofing, and cost and design considerations. Upon completion, students should be able to prepare files and select appropriate output methods for design solutions.

GRD 271 Multimedia Design I  
Prerequisites: GRD 151 and GRD 152  
Corequisites: None  
Component: None  
This course introduces the fundamentals of multimedia design and production for computer-related presentations. Topics include interface design, typography, storyboarding, scripting, simple animation, graphics, digital audio/video, and copyright issues. Upon completion, students should be able to design and produce multimedia presentations.

GRD 272 Multimedia Design II  
Prerequisites: GRD 271  
Corequisites: None  
Component: None  
This course is a continuation of GRD 271. Emphasis is placed on advanced animation, specialized software, quality control, and cross-platform delivery, as well as problems associated with delivery media and interactivity. Upon completion, students should be able to produce multimedia presentations and determine and adapt to technical specifications for delivery.

GRD 280 Portfolio Design  
Prerequisites: COM 231 or ENG 115, and GRD 142, GRD 153, GRD 241, and GRD 152 or GRA 152  
Corequisites: None  
Component: None  
This course covers the organization and presentation of a design/advertising or graphic art portfolio and appropriate related materials. Emphasis is placed on development and evaluation of the portfolio, design and production of a resume and self-promotional materials, and interview techniques. Upon completion, students should be able to prepare and professionally present an effective portfolio and related self-promotional materials.

GRD 282 Advertising Copywriting  
Prerequisites: ENG 111  
Corequisites: None  
Component: None  
This course covers copywriting for print, electronic, and broadcast advertising and promotion. Topics include advertising strategies, proposals, headlines, slogans, and text copy for various types of advertising. Upon completion, students should be able to write and articulate advertising proposals and understand the ethical and regulatory environment for advertising.
Course Descriptions 235

GRD 285 Client/Media Relations  01 02 00 02
Prerequisites: ENG 111, GRD 142, and GRA 121 or GRA 152 or GRD 152
Corequisites: None
Component: None
This course introduces media pricing, scheduling, and business ethics. Emphasis is placed on communication with clients and determination of clients’ advertising needs. Upon completion, students should be able to use professional communication skills to effectively orchestrate client/media relationships.

HEA 110 Personal Health/Wellness  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to basic personal health and wellness. Emphasis is placed on current health issues such as nutrition, mental health, and fitness. Upon completion, students should be able to demonstrate an understanding of the factors necessary to the maintenance of health and wellness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HEA 112 First Aid & CPR  01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basics of emergency first aid treatment. Topics include rescue breathing, CPR, first aid for choking and bleeding, and other first aid procedures. Upon completion, students should be able to demonstrate skills in providing emergency care for the sick and injured until medical help can be obtained. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HEA 120 Community Health  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides information about contemporary community health and school hygiene issues. Topics include health education and current information about health trends. Upon completion, students should be able to recognize and devise strategies to prevent today’s community health problems. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HET 125 Preventive Maintenance  01 03 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces preventive maintenance practices used on medium and heavy duty vehicles and rolling assemblies. Topics include preventive maintenance schedules, services, DOT rules and regulations, and roadability. Upon completion, students should be able to set up and follow a preventive maintenance schedule as directed by manufacturers.

HET 126 Prevent Maintenance Lab  00 03 00 01
Prerequisites: None
Corequisites: HET 125
Component: None
This course provides a laboratory setting to enhance preventive maintenance practices used on medium and heavy duty vehicles and rolling assemblies. Emphasis is placed on practical experiences that enhance the topics presented in HET 125. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in HET 125.

HET 231 Med/Heavy Duty Brake Sys  01 03 00 02
Prerequisites: None
Corequisites: None
Component: None
This course covers the theory and repair of braking systems used in medium and heavy duty vehicles. Topics include air, hydraulic, and ABS system diagnosis and repair. Upon completion, students should be able to troubleshoot, adjust, and repair braking systems on medium and heavy duty vehicles.

HET 232 Med/Hvy Duty Brake Sys Lab  00 03 00 01
Prerequisites: None
Corequisites: None
Component: HET 231
This course provides a laboratory setting to enhance the skills for troubleshooting, adjusting, and repairing brake systems on medium and heavy duty vehicles. Topics include air, hydraulic, and ABS system diagnosis and repair. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in HET 231.

HET 233 Suspension and Steering  02 04 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and principles of medium and heavy duty steering and suspension systems. Topics include wheel and tire problems, frame members, fifth wheel, bearings, and coupling systems. Upon completion, students should be able to troubleshoot, adjust, and repair suspension and steering components on medium and heavy duty vehicles.
HIS 111 World Civilizations I  03 00 00 03
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement
Test Credit Equivalent
Corequisites:  None
Component:  None
This course introduces world history from the dawn of civilization to the early modern era. Topics include Eurasian, African, American, and Greco-Roman civilizations and Christian, Islamic and Byzantine cultures. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in pre-modern world civilizations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

HIS 112 World Civilizations II  03 00 00 03
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement
Test Credit Equivalent
Corequisites:  None
Component:  None
This course introduces world history from the early modern era to the present. Topics include the cultures of Africa, Europe, India, China, Japan, and the Americas. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern world civilizations. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

HIS 114 Comparative World History  03 00 00 03
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement
Test Credit Equivalent
Corequisites:  None
Component:  None
This course provides a comparison of western and non-western cultures. Emphasis is placed on historical developments and their impact on the modern world through religion, politics, economics, and social developments. Upon completion, students should be able to compare and contrast western and non-western cultures. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

HIS 115 Introduction to Global History  03 00 00 03
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement
Test Credit Equivalent
Corequisites:  None
Component:  None
This course introduces the study of global history. Emphasis is placed on topics such as colonialism, industrialism, and nationalism. Upon completion, students should be able to analyze significant global historical issues. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

HIS 116 Current World Problems  03 00 00 03
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement
Test Credit Equivalent
Corequisites:  None
Component:  None
This course covers current world events from a historical perspective. Topics include regional problems as well as international concerns. Upon completion, students should be able to analyze significant current world problems from a historical perspective. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HIS 121 Western Civilization I  03 00 00 03
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement
Test Credit Equivalent
Corequisites:  None
Component:  None
This course introduces western civilization from pre-history to the early modern era. Topics include ancient Greece, Rome, and Christian institutions of the Middle Ages and the emergence of national monarchies in western Europe. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early western civilization. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

HIS 122 Western Civilization II  03 00 00 03
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement
Test Credit Equivalent
Corequisites:  None
Component:  None
This course introduces western civilization from pre-history to the modern era to the present. Topics include the religious wars, the Industrial Revolution, World Wars I and II, and the Cold War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern western civilization. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

HIS 131 American History I  03 00 00 03
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement
Test Credit Equivalent
Corequisites:  None
Component:  None
This course is a survey of American history from pre-history through the Civil War era. Topics include the migrations to the Americas, the colonial and revolutionary periods, the development of the Republic, and the Civil War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early American history. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.
HIS 132 American History II 03 00 00 03
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a survey of American history from the Civil War era to the present. Topics include industrialization, immigration, the Great Depression, the major American wars, the Cold War, and social conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in American history since the Civil War. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

HIS 141 Genealogy & Local History 03 00 00 03
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course explores the role of the local or family historian. Emphasis is placed on historical or genealogical research techniques including a survey of local, state, and national archival resources. Upon completion, students should be able to conduct genealogical research and do a major research project on local or family history. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

HIS 162 Women and History 03 00 00 03
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course surveys the experience of women in historical perspective. Topics include the experiences and contributions of women in culture, politics, economics, science, and religion. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural contributions of women in history. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

HIS 167 The Vietnam War 03 00 00 03
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the American political and military involvement in Vietnam from 1944 to 1975. Topics include the French colonial policy, Vietnamese nationalism, the war with France, American involvement, and resolution of the conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments that influenced the Vietnam War. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HIS 212 Medieval History 03 00 00 03
Prerequisites: ENG-111
Corequisites: None
Component: None
This course traces the cultural, political, economic, social, religious, and intellectual history of Europe during the Middle Ages. Topics include the decline of the Roman Empire, the Frankish Kingdoms, the medieval church, feudalism, the rise of national monarchies, urbanization, and the rise of universities. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in medieval Europe. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

HIS 221 African-American History 03 00 00 03
Prerequisites: ENG-111
Corequisites: None
Component: None
This course covers African-American history from the Colonial period to the present. Topics include African origins, the slave trade, the Civil War, Reconstruction, the Jim Crow era, the civil rights movement, and contributions of African Americans. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the history of African Americans. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

HIS 222 African-American History I 03 00 00 03
Prerequisites: ENG-111
Corequisites: None
Component: None
This course covers African American history through the Civil War period. Topics include African origins, the nature of slavery, African-American participation in the American Revolution, abolitionism, and the emergence of a distinct African-American culture. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early African-American history. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

HIS 223 African-American History II 03 00 00 03
Prerequisites: ENG-111
Corequisites: None
Component: None
This course covers African American history from the Civil War to the present. Topics include Reconstruction, the Jim Crow era, urbanization, the Harlem Renaissance, the Civil Rights movement, and the philosophies of major African-American leaders. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in African-American history since the Civil War. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

**HIS 224 US Diplomatic History**  
**Prerequisites:** ENG-111  
**Corequisites:** None  
**Component:** None  
This course examines American diplomacy from the Colonial period to the present. Topics include the Monroe Doctrine, expansionism and imperialism, the world wars, the Cold War, and America’s role in a changing world. Upon completion, students should be able to analyze significant developments and trends in the diplomatic history of the United States. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**HIS 226 The Civil War**  
**Prerequisites:** ENG-111  
**Corequisites:** None  
**Component:** None  
This course examines the social, political, economic, and ideological forces that led to the Civil War and Reconstruction. Topics include regional conflicts and sectionalism, dissolution of the Union, military campaigns, and the War’s socioeconomic impact, aftermath, and consequences. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the United States during the era of the Civil War. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**HIS 227 Native American History**  
**Prerequisites:** ENG-111  
**Corequisites:** None  
**Component:** None  
This course surveys the history and cultures of Native Americans from pre-history to the present. Topics include Native American civilizations, relations with Europeans, and the continuing evolution of Native American cultures. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments among Native Americans. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**HIS 236 North Carolina History**  
**Prerequisites:** ENG-111  
**Corequisites:** None  
**Component:** None  
This course is a study of geographical, political, economic, and social conditions existing in North Carolina from America’s discovery to the present. Topics include native and immigrant backgrounds; colonial, antebellum, and Reconstruction periods; party politics; race relations; and the transition from an agrarian to an industrial economy. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in North Carolina. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**HIS 260 History of Africa**  
**Prerequisites:** ENG-111  
**Corequisites:** None  
**Component:** None  
This course surveys the history of Africa from pre-history to the present. Emphasis is placed on the evolution of social, political, economic, and governmental structures in Africa. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in Africa. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

**HIS 271 The French Revolution Era**  
**Prerequisites:** ENG-111  
**Corequisites:** None  
**Component:** None  
This course traces the causes and effects of the French Revolution. Topics include the Enlightenment; Jacobins; Reign of Terror; Napoleon’s republic, empire, and wars; and the French Revolution’s impact upon world history. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments during the French revolutionary era. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**HMT 110 Intro to Healthcare Mgt**  
**Prerequisites:** ENG 070 and RED 070, or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  
This course introduces the functions, practices, organizational structures, and professional issues in healthcare management. Emphasis is placed on planning, controlling, directing, and communicating within health and human services organizations. Upon completion, students should be able to apply the concepts of management within a healthcare service environment.

**HMT 210 Medical Insurance**  
**Prerequisites:** MED 122 or OST 142  
**Corequisites:** None  
**Component:** None  
This course introduces the concepts of medical insurance. Topics include types and characteristics of third-party payers, coding concepts, payment systems, and manual/electronic claims form preparation. Upon completion, students should be able to process third-party claims forms.

**HMT 211 Long-Term Care Admin**  
**Prerequisites:** HMT 110  
**Corequisites:** None  
**Component:** None

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course introduces the administration of long-term care facilities and services. Emphasis is placed on nursing home care, home health care, hospice, skilled nursing facilities, and other long-term care services. Upon completion, students should be able to administer state and national standards and regulations as they apply to long-term care. None

**HMT 212 Mgt of Healthcare Org**  
03 00 00 03  
Prerequisites: HMT 110  
Corequisites: None  
Component: None  

This course examines current issues affecting the management of healthcare delivery systems. Topics include current problems, changes, and challenges in the healthcare environment. Upon completion, students should be able to identify current health care issues and their impact on healthcare management.

**HMT 220 Healthcare Financial Mgmt** 04 00 00 04  
Prerequisites: HMT 110 and ACC 225  
Corequisites: None  
Component: None  

This course covers the methods and techniques utilized in the financial management of healthcare programs. Topics include cost determination, pricing of services, financial statement analysis, forecasting/projections, third-party billing, reimbursement, Medicare, Medicaid, and budgeting. Upon completion, students should be able to interpret and apply the principles of financial management in a healthcare environment.

**HOR 110 Introduction to Landscaping** 01 02 00 02  
Prerequisites: None  
Corequisites: None  
Component: None  

This course introduces the basic skills and concepts of drafting and surveying necessary to complete landscape site analysis and topographical drawings. Emphasis is placed on proper use of drafting and survey equipment. Upon completion, students should be able to draw a site analysis drawing with topographical lines.

**HOR 112 Landscape Design I** 02 03 00 03  
Prerequisites: HOR 170  
Corequisites: None  
Component: None  

This course covers landscape principles and practices for residential and commercial sites. Emphasis is placed on drafting, site analysis, and common elements of good design, plant material selection, and proper plant utilization. Upon completion, students should be able to read, plan, and draft a landscape design.

**HOR 114 Landscape Construction** 02 02 00 03  
Prerequisites: None  
Corequisites: None  
Component: None  

This course introduces the design and fabrication of landscape structures/features. Emphasis is placed on safety, tool identification and use, material selection, construction techniques, and fabrication. Upon completion, students should be able to design and construct common landscape structures/features.

**HOR 116 Landscape Management I** 02 02 00 03  
Prerequisites: None  
Corequisites: None  
Component: None  

This course covers information and skills necessary to analyze a property and develop a management schedule. Emphasis is placed on property measurement, plant condition, analysis of client needs, and plant culture needs. Upon completion, students should be able to analyze a property, develop management schedules, and implement practices based on client needs.

**HOR 118 Equipment Operation & Maintenance** 01 03 00 02  
Prerequisites: None  
Corequisites: None  
Component: None  

This course covers the proper operation and maintenance of selected equipment used in horticulture. Emphasis is placed on the maintenance, minor repairs, safety devices, and actual operation of selected equipment. Upon completion, students should be able to design a maintenance schedule, service equipment, and demonstrate safe operation of selected equipment.

**HOR 134 Greenhouse Operations** 02 02 00 03  
Prerequisites: None  
Corequisites: None  
Component: None  

This course covers the principles and procedures involved in the operation and maintenance of greenhouse facilities. Emphasis is placed on the operation of greenhouse systems, including the environmental control, record keeping, scheduling, and production practices. Upon completion, students should be able to demonstrate the ability to operate greenhouse systems and facilities to produce greenhouse crops.

**HOR 142 Fruit & Vegetable Production** 01 02 00 02  
Prerequisites: None  
Corequisites: None  
Component: None  

This course introduces the principles and techniques of growing fruits and field-grown vegetables. Topics include site selection, proper varietal selection, nutritional values, cultural techniques, harvesting and marketing, and insect and disease control. Upon completion, students should be able to demonstrate an understanding of the principles related to the production of selected fruits and vegetables.

**HOR 150 Introduction to Horticulture** 02 00 00 02  
Prerequisites: None  
Corequisites: None  
Component: None  

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course covers the history, development, and basic techniques of horticulture. Topics include propagation techniques, planting procedures, watering and fertility, plant growth, pest and disease control, and garden design and history. Upon completion, students should be able to demonstrate an understanding of the basic principles of horticulture.

HOR 152 Horticultural Practices 00 03 00 01
Prerequisites: None
Corequisites: None
Component: None
This course covers the maintenance of ornamental plantings and production areas. Topics include maintenance of flower beds, vegetable gardens, greenhouses, and container and field nursery stock using sound horticultural practices. Upon completion, students should be able to apply the principles and practices of maintaining ornamental landscape plantings.

HOR 160 Plant Materials I 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers identification, culture, characteristics, and use of plants. Emphasis is placed on nomenclature, identification, growth requirements, cultural requirements, soil preferences, and landscape applications. Upon completion, students should be able to demonstrate knowledge of the proper selection and utilization of plant materials. This course is also available through the Virtual Learning Community (VLC).

HOR 162 Applied Plant Science 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic concepts of botany as they apply to horticulture. Topics include nomenclature, physiology, morphology, and anatomy as they apply to plant culture. Upon completion, students should be able to apply the basic principles of botany to horticulture.

HOR 164 Horticultural Pest Management 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the identification and control of plant pests including insects, diseases, and weeds. Topics include pest identification and chemical regulations, safety, and pesticide application. Upon completion, students should be able to meet the requirements for North Carolina Commercial Pesticide Ground Applicators license.

HOR 166 Soils & Fertilizers 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the physical and chemical properties of soils and soil fertility and management. Topics include soil formation, classification, physical and chemical properties, testing, fertilizer application, and other amendments. Upon completion, students should be able to analyze, evaluate, and properly amend soils/media.

HOR 168 Plant Propagation 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is a study of sexual and asexual reproduction of plants. Emphasis is placed on seed propagation, grafting, stem and root propagation, micro-propagation, and other propagation techniques. Upon completion, students should be able to successfully propagate ornamental plants.

HOR 170 Horticultural Computer Apps 01 03 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces computer programs as they apply to the horticulture industry. Emphasis is placed on applications of software for plant identification, design, and irrigation. Upon completion, students should be able to use computer programs in horticultural situations.

HOR 215 Landscape Irrigation 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic irrigation design, layout, and installation. Topics include site analysis, components of irrigation systems, safety, types of irrigation systems, and installation techniques. Upon completion, students should be able to design and install basic landscape irrigation systems.

HOR 251 Insects & Diseases 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces insects and diseases of economic importance to horticultural crops. Topics include insect life cycles and identifying characteristics; plant diseases, including their signs and symptoms; control methods; and insect scouting for IPM. Upon completion, students should be able to demonstrate an understanding of insect and disease identification, collection, and control.

HOR 253 Horticulture Turfgrass 02 02 00 03
Prerequisites: HOR 162 or HOR 166
Corequisites: None
Component: None
This course covers information and skill development necessary to establish and manage landscape turfgrasses. Topics include grass
identification, establishment, cultural requirements, application of control products, fertilization, and overseeding techniques. Upon completion, students should be able to analyze a landscape site and determine those cultural and physical activities needed to establish or manage a quality turf.

**HOR 257 Arboriculture Practices** 01 03 00 02
Prerequisites: HOR 160 or LSG 111
Corequisites: None
Component: None
This course covers the culture and maintenance of trees and shrubs. Topics include fertilization, pruning, approved climbing techniques, pest control, and equipment use and safety. Upon completion, students should be able to properly prune trees and shrubs and perform arboricultural practices.

**HOR 260 Plant Materials II** 02 02 00 03
Prerequisites: HOR 160
Corequisites: None
Component: None
This course is a continuation of HOR 160 and covers additional plants. Emphasis is placed on reinforcement of skills and the introduction of additional plants. Upon completion, students should be able to demonstrate knowledge of the proper selection and utilization of plant materials.

**HOR 275 Horticulture Production Management** 03 02 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces starting and/or managing a horticulture production operation. Emphasis is placed on types of horticulture production businesses, production management practices and skills, and appropriate safety measures for equipment, personnel, and facilities. Upon completion, students should be able to identify various types of production businesses, prepare appropriate schedules and inventories, and manage personnel/facilities for safe crop production.

**HOR 277 Horticulture Sales & Services** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces various strategies for marketing horticulture products and services. Topics include wholesale, retail, and consignment sales; advertising media; costing products and services; preparing estimates, bids, and proposals; and consumer relations. Upon completion, students should be able to develop a marketing strategy for various horticulture products and services.

**HOR 278 Horticulture Business Entrepreneurship** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces starting and/or managing a horticulture business operation. Emphasis is placed on types of business ownership, legal aspects of licenses, worker safety and facility criteria, and creating inventories, schedules, and financial statements. Upon completion, students should be able to prepare appropriate schedules and financial statements and demonstrate knowledge of legal standards for equipment and personnel.

**HRM 110 Introduction to Hospitality** 02 00 00 02
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the growth and progress of the hospitality industry. Topics include financing, hotels, restaurants, and clubs. Upon completion, students should be able to demonstrate an understanding of the background, context, and career opportunities that exist in the hospitality industry.

**HRM 120 Front Office Procedures** 03 00 00 03
Prerequisites: MAT 050 and RED 070, or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a systematic approach to hotel front office procedures. Topics include reservations, registration, guest satisfaction, occupancy and rate management, security, interdepartmental communications, and related guest services. Upon completion, students should be able to demonstrate a basic understanding of current front office operating systems, including efficient and courteous guest services.

**HRM 125 Hospitality Etiquette** 01 00 00 01
Prerequisites: None
Corequisites: None
Component: None
This course covers social skills needed to effectively interact within organizational and customer situations. Topics include general social manners, personal appearance, table manners, restaurant and meeting etiquette, and business interaction. Upon completion, students should be able to function with confidence in various social, cultural, and professional situations.

**HRM 140 Hospitality Tourism Law** 03 00 00 03
Prerequisites: RED 080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the rights and responsibilities that the law grants to or imposes upon the hospitality industry. Topics include federal and state regulations, historical and current practices, safety and security, risk management, loss prevention, torts, and contracts. Upon completion, students should be able to demonstrate an understanding of the legal system to prevent or minimize organizational liability.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
HRM 145 Hospitality Supervision  03 00 00 03
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers principles of supervision as they apply to the hospitality industry. Topics include recruitment, selection, orientation, training, evaluation, and leadership skills. Upon completion, students should be able to understand and apply basic supervisory skills unique to the hospitality and service industry. Supervisory skills unique to the hospitality and service industry.

HRM 210 Meetings and Conventions  03 00 00 03
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces organization, arrangement, and operation of conventions, trade shows, professional meetings, and food functions. Emphasis is placed on the methods of marketing, selling, and servicing conventions and trade shows and the division of administrative responsibilities in their operation. Upon completion, students should be able to describe and apply the principles of management of multifunction, multi-day conference and events.

HRM 215 Restaurant Management  03 00 00 03
Prerequisites: CUL 135, ENG 070, MAT 050, RED 070, or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of the various challenges and responsibilities encountered in managing a food and beverage operation. Topics include planning, administration, organization, accounting, marketing, and human resources from an integrated managerial viewpoint. Upon completion, students should be able to demonstrate an understanding of the operation of a restaurant.

HRM 220 Food & Beverage Controls  03 00 00 03
Prerequisites: Take MAT-115, MAT-140, OR MAT-161 AND CIS-110 OR CIS-111
Corequisites: None
Component: None
This course introduces controls and accounting procedures used in the hospitality industry. Topics include analysis of financial statements, reports, and costs. Upon completion, students should be able to understand and apply food, beverage, and labor cost control systems.

HRM 220A Food & Beverage Controls Lab  00 02 00 01
Prerequisites: Take MAT-115, MAT-140, OR MAT-161 AND CIS-110 OR CIS-111
Corequisites: HRM 220
Component: None
This course is a laboratory to accompany HRM 220. Emphasis is placed on practical computer applications of food and beverage control procedures. Upon completion, students should be able to demonstrate proficiency in computer-based control applications.

HRM 240 Hospitality Marketing  03 00 00 03
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers planning, organizing, directing, and analyzing the results of marketing programs in the hospitality industry. Emphasis is placed on market segmentation and analysis, product and image development, sales planning, advertising, public relations, and collateral materials. Upon completion, students should be able to prepare a marketing plan applicable to the hospitality industry.

HRM 280 Hospitality Management Problems  03 00 00 03
Prerequisites: HRM 110, ENG 080, or Placement Test Credit Equivalent, and BUS 137 or HRM 215
Corequisites: None
Component: None
This course addresses current global, national, and local concerns and issues in the hospitality industry. Emphasis is placed on problem-solving skills using currently available resources. Upon completion, students should be able to apply hospitality management principles to real challenges facing industry managers.

HUM 110 Technology and Society  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course considers technological change from historical, artistic, and philosophical perspectives and its effect on human needs and concerns. Emphasis is placed on the causes and consequences of technological change. Upon completion, students should be able to critically evaluate the implications of technology. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 115 Critical Thinking  03 00 00 03
Prerequisites: RED 090 and ENG 090 or ENG 111 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the use of critical thinking skills in the context of human conflict. Emphasis is placed on evaluating information, problem solving, approaching cross-cultural perspectives, and resolving controversies and dilemmas. Upon completion, students should be able to demonstrate orally and in writing the use of critical thinking skills in the analysis of appropriate texts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course may meet the SACS humanities requirement for AAS degree programs. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.

This course provides an interdisciplinary study of the history, literature, and social roles of American women from Colonial times to the present. Emphasis is placed on women's roles as reflected in American language usage, education, law, the workplace, and mainstream culture. Upon completion, students should be able to identify and analyze the roles of women as reflected in various cultural forms. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 160 Introduction to Film

Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of film art and production. Topics include film styles, history, and production techniques, as well as the social values reflected in film art. Upon completion, students should be able to critically analyze the elements covered in relation to selected films. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

HUM 161 Advanced Film Studies

Prerequisites: HUM 160
Corequisites: None
Component: None
This course provides an advanced study of film art and production, building on skills learned in HUM 160. Topics include film production techniques, film genres, examination of master directors' styles, and the relation of film to culture. Upon completion, students should be able to recognize and critically analyze advanced elements of film production. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 170 The Holocaust

Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a survey of the destruction of European Jewry by the Nazis during World War II. Topics include the anti-Semitic ideology, bureaucratic structures, and varying conditions of European occupation and domination under the Third Reich. Upon completion, students should be able to demonstrate an understanding of the historical, social, religious, political, and economic factors which cumulatively resulted in the Holocaust. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
HUM 211 Humanities I
Prerequisites: ENG 111
Corequisites: None
Component: None
This course introduces the humanities as a record in literature, music, art, history, religion, and philosophy of humankind’s answers to the fundamental questions of existence. Emphasis is placed on the interconnectedness of various aspects of cultures from ancient through early modern times. Upon completion, students should be able to identify significant figures and cultural contributions of the periods studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 212 Humanities II
Prerequisites: ENG 111
Corequisites: None
Component: None
This course introduces the humanities as a record in literature, music, art, history, religion, and philosophy of humankind’s answers to the fundamental questions of existence. Emphasis is placed on the interconnectedness of various aspects of cultures from early modern times to the present. Upon completion, students should be able to identify significant figures and cultural contributions of the periods studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 220 Human Values and Meaning
Prerequisites: ENG 111
Corequisites: None
Component: None
This course presents some major dimensions of human experience as reflected in art, music, literature, philosophy, and history. Topics include the search for identity, the quest for knowledge, the need for love, the individual and society, and the meaning of life. Upon completion, students should be able to recognize interdisciplinary connections and distinguish between open and closed questions and between narrative and scientific models of understanding. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

HUM 230 Leadership Development
Prerequisites: ENG 111
Corequisites: None
Component: None
This course explores the theories and techniques of leadership and group process. Emphasis is placed on leadership styles, theories of group dynamics, and the moral and ethical responsibilities of leadership. Upon completion, students should be able to identify and analyze a personal philosophy and style of leadership and integrate these concepts in various practical situations. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. (TAC 11/16/05)

HYD 110 Hydraulics/Pneumatics I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic components and functions of hydraulic and pneumatic systems. Topics include standard symbols, pumps, control valves, control assemblies, actuators, FRL, maintenance procedures, and switching and control devices. Upon completion, students should be able to understand the operation of a fluid power system, including design, application, and troubleshooting.

INT 110 International Business
Prerequisites: RED 080 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of the environment, concepts, and basic differences involved in international business. Topics include forms of foreign involvement, international trade theory, governmental influences on trade and strategies, international organizations, multinational corporations, personnel management, and international marketing. Upon completion, students should be able to describe the foundation of international business.

ISC 112 Industrial Safety
Prerequisites: None
Corequisites: None
Component: None
This course introduces the principles of industrial safety. Emphasis is placed on industrial safety, OSHA, and environmental regulations. Upon completion, students should be able to demonstrate knowledge of a safe working environment and OSHA compliance. This course is also available through the Virtual Learning Community (VLC).

ISC 115 Construction Safety
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic concepts of construction site safety. Topics include ladders, lifting, lock-out/tag-out, personal protective devices, scaffolds, and above/below ground work based on OSHA regulations. Upon completion, students should be able to demonstrate knowledge of applicable safety regulations and safely participate in construction projects.

ISC 121 Envir Health & Safety
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers workplace environmental, health, and safety issues. Emphasis is placed on managing the implementation and
enforcement of environmental health and safety regulations and on preventing accidents, injuries, and illnesses. Upon completion, students should be able to demonstrate an understanding of basic concepts of environmental, health, and safety issues.

**ISC 131 Quality Management** 03 00 00 03  
Prerequisites: RED 070 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course provides a study and analysis of the aspects and implications of quality management that lead to customer satisfaction through continuous quality improvement. Topics include Total Quality Management, ISO 9000, organizing for quality, supplier/vendor relationships, and the role of leadership in quality management. Upon completion, students should be able to demonstrate an understanding of quality management concepts and techniques.

**ISC 210 Oper & Prod Planning** 03 00 00 03  
Prerequisites: MAT 070 RED 080 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course includes the fundamentals of operations and production planning, forecasting, and scheduling. Topics include demand management, production planning and control, scheduling, and budgeting. Upon completion, students should be able to demonstrate an understanding of the concepts and techniques involved in operations and production planning.

**ITA 111 Elementary Italian I** 03 00 00 03  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the fundamental elements of the Italian language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Italian and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ITA 112 Elementary Italian II** 03 00 00 03  
Prerequisites: ITA 111  
Corequisites: None  
Component: None  
This course is a continuation of ITA 111 focusing on the fundamental elements of the Italian language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Italian and demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ITA 181 Italian Lab 1** 00 02 00 01  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an opportunity to enhance acquisition of the fundamental elements of the Italian language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Italian and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ITA 182 Italian Lab 2** 00 02 00 01  
Prerequisites: ITA 181  
Corequisites: None  
Component: None  
This course provides an opportunity to enhance acquisition of the fundamental elements of the Italian language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Italian and demonstrate cultural awareness. This course as been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**ITA 211 Intermediate Italian I** 03 00 00 03  
Prerequisites: ITA 112  
Corequisites: None  
Component: None  
This course provides a review and expansion of the essential skills of the Italian language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**ITA 212 Intermediate Italian II** 03 00 00 03  
Prerequisites: ITA 211  
Corequisites: None  
Component: None  
This course provides a continuation of ITA 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**LAT 181 Latin Lab I** 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of Latin. Emphasis is placed on the progressive development of basic reading and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to written Latin and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**LAT 182 Latin Lab II** 00 02 00 01
Prerequisites: LAT 181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of Latin. Emphasis is placed on the progressive development of basic reading and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to demonstrate increasing proficiency in reading and writing Latin and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**LAT 211 Intermediate Latin I** 03 00 00 03
Prerequisites: LAT 112
Corequisites: None
Component: None
This course provides a review and expansion of the essential skills of Latin. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to accurately read and comprehend Latin. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**LAT 212 Intermediate Latin II** 03 00 00 03
Prerequisites: LAT 211
Corequisites: None
Component: None
This course provides a continuation of LAT 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should...
be able to demonstrate increased accuracy in reading and comprehension of Latin. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**LAT 231 Reading and Composition** 03 02 00 04
Prerequisites: LAT 142
Corequisites: None
Component: None
This course provides an opportunity for intensive reading and composition in Latin with emphasis on original authors to enhance and expand Latin reading and writing skills. Topics include original works such as selected Eclogues and Georgics from Vergil. Upon completion, students should be able to demonstrate in writing an in-depth understanding of the reading. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**LAT 232 Imperial Literature** 03 02 00 04
Prerequisites: LAT 231
Corequisites: None
Component: None
This course provides an opportunity to refine and expand additional skills in Latin with emphasis on the study of selected books from the Aeneid by Vergil. Emphasis is placed on a critical appreciation of the Aeneid as poetry by demonstrating the ability to translate literally, to analyze and interpret, and to understand dactylic hexameter, scansion and figures of speech in Vergil’s verse. This course introduces the structure of the legal system and the rules governing civil litigation. Topics include jurisdiction and the state and federal rules of civil procedure and evidence. Upon completion, students should be able to assist an attorney in pre-litigation matters and preparation of pleadings and motions. This course is also available through the Virtual Learning Community (VLC).

LEX 141 Civil Litigation II 02 02 00 03
Prerequisites: LEX 140
Corequisites: None
Component: None
This course covers advanced topics in the civil litigation process. Topics include motions, discovery, and trial and appellate procedures. Upon completion, students should be able to assist an attorney in preparing and organizing documents for trial, settlement and post-trial practice.

LEX 150 Commercial Law I 02 02 00 03
Prerequisites: ENG 090 ENG 090A RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers legally enforceable agreements, forms of organization, and selected portions of the Uniform Commercial Code. Topics include drafting and enforcement of contracts, leases, and related documents and selection and implementation of business organization forms, sales, and commercial papers. Upon completion, students should be able to apply the elements of a contract, prepare various business documents, and understand the role of commercial paper. This course is also available through the Virtual Learning Community (VLC).

LEX 160 Criminal Law & Procedure 02 02 00 03
Prerequisites: ENG 090 ENG 090A RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces substantive criminal law and procedural rights of the accused. Topics include elements of state/federal crimes, defenses, constitutional issues, pre-trial and trial process, and other related topics. Upon completion, students should be able to explain elements of specific crimes and assist an attorney in preparing a criminal case.
LEX 250 Wills, Estates, & Trusts  
Prerequisites: ENG 090 ENG 090A MAT 060 RED 090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course covers various types of wills, trusts, probate, estate administration, and intestacy. Topics include types of wills and execution requirements, caveats and dissents, intestate succession, inventories and accountings, distribution and settlement, and other related topics. Upon completion, students should be able to draft simple wills, prepare estate forms, understand administration of estates including taxation, and explain terms regarding trusts. This course is also available through the Virtual Learning Community (VLC).

LEX 260 Bankruptcy & Collections  
Prerequisites: ENG 090 ENG 090A MAT 060 RED 090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course provides an overview of the laws of bankruptcy and the rights of creditors and debtors. Topics include bankruptcy procedures and estate management, attachment, claim and delivery, repossession, foreclosure, collection, garnishment, and post-judgment collection procedure. Upon completion, students should be able to prepare and file bankruptcy forms, collection letters, statutory liens, and collection of judgments.

LEX 270 Law Office Management/Technology  
Prerequisites: ENG 090 ENG 090A RED 090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course provides an overview of law office management and organization. Topics include office forms, filing systems, billing/time keeping, computer systems, calendar systems, library administration, case management, office/personnel procedures, ethics, and technology. Upon completion, students should be able to establish and maintain various law office systems, monitor case progress, and supervise non-lawyer personnel.

LEX 285 Workers’ Comp Law  
Prerequisites: ENG 090 ENG 090A MAT 060 RED 090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course covers the process of initiating and handling workers’ compensation claims. Emphasis is placed on reviewing and drafting relevant Industrial Commission forms. Upon completion, students should be able to interview clients, gather information, and draft documents related to workers’ compensation claims.

LOG 110 Introduction to Logistics  
Prerequisites: MAT 070 RED 080 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course provides an overview of logistics. Topics include traffic management, warehousing, inventory control, material handling, global logistics, and the movement and storage of goods from raw materials sources to end consumers. Upon completion, students should be able to identify the different segments of logistics and use the terminology of the industry. This course is also available through the Virtual Learning Community (VLC).

LSG 111 Basic Landscape Technology  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces basic principles essential to landscape gardening. Topics include soils, propagation, watering, fertilizing, pruning, pest control, and planting. Upon completion, students should be able to perform basic gardening techniques essential to maintaining a landscape.

LSG 121 Fall Gardening Lab  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides basic hands-on experience in fall gardening techniques. Emphasis is placed on pruning, irrigation, planting, fertilizing, pest control, equipment operation, and turf maintenance. Upon completion, students should be able to perform various techniques essential to maintaining the fall landscape.

LSG 122 Spring Gardening Lab  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides familiarization with basic gardening techniques by performing practical hands-on exercises required for the spring season. Emphasis is placed on pruning, irrigation, planting, fertilizing, pest control, equipment operation, turf maintenance, and landscape construction. Upon completion, students should be able to satisfactorily perform various practices essential to maintaining the landscape in the spring season.
LSG 123 Summer Gardening Lab 00 06 00 02
Prerequisites: None
Corequisites: None
Component: None
This course provides basic hands-on experience in summer gardening techniques. Emphasis is placed on pruning, irrigation, planting, fertilizing, pest control, equipment operation, turf maintenance, landscape construction, and maintaining fruits and vegetables. Upon completion, students should be able to perform various techniques essential to maintaining the summer landscape.

LSG 231 Landscape Supervision 02 06 00 04
Prerequisites: LSG 123 and HOR 260
Corequisites: None
Component: None
This course provides experience in planning, implementing, and supervising various landscape management projects. Emphasis is placed on supervisory skills, organizing, and scheduling. Upon completion, students should be able to supervise employees in various landscape management jobs.

LSG 232 Garden Management 01 02 00 02
Prerequisites: LSG 123 and HOR 260
Corequisites: None
Component: None
This course covers the implementation of knowledge gained in previous landscape gardening courses. Emphasis is placed on scheduling, designing, renovation, and plant management. Upon completion, students should be able to collate the material learned in the Landscape Gardening curriculum and apply it to various landscape gardening situations.

MAC 111 Machining Technology I 02 12 00 06
Prerequisites: None
Corequisites: None
Component: None
This course introduces machining operations as they relate to the metalworking industry. Topics include machine shop safety, measuring tools, lathes, drilling machines, saws, milling machines, bench grinders, and layout instruments. Upon completion, students should be able to perform basic operations of measuring, layout, drilling, sawing, turning, and milling.

MAC 112 Machining Technology II 02 12 00 06
Prerequisites: MAC 111
Corequisites: None
Component: None
This course provides additional instruction and practice in the use of precision measuring tools, lathes, milling machines, and grinders. Emphasis is placed on setup and operation of machine tools including the selection and use of work holding devices, speeds, feeds, cutting tools, and coolants. Upon completion, students should be able to perform basic procedures on precision grinders and advanced operations of measuring, layout, drilling, sawing, turning, and milling.

MAC 113 Machining Technology III 02 12 00 06
Prerequisites: MAC 112
Corequisites: None
Component: None
This course provides an introduction to advanced and special machining operations. Emphasis is placed on working to specified tolerances with special and advanced setups. Upon completion, students should be able to produce a part to specifications.

MAC 114 Introduction to Metrology 02 00 00 02
Prerequisites: None
Corequisites: MAC 111
Component: None
This course introduces the care and use of precision measuring instruments. Emphasis is placed on the inspection of machine parts and use of a wide variety of measuring instruments. Upon completion, students should be able to demonstrate the correct use of measuring instruments.

MAC 121 Introduction to CNC 02 00 00 02
Prerequisites: MAC 111
Corequisites: None
Component: None
This course introduces the concepts and capabilities of computer numerical control machine tools. Topics include setup, operation, and basic applications. Upon completion, students should be able to explain operator safety, machine protection, data input, program preparation, and program storage.

MAC 122 CNC Turning 01 03 00 02
Prerequisites: MAC 121
Corequisites: None
Component: None
This course introduces the programming, setup, and operation of CNC turning centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC turning centers.

MAC 124 CNC Milling 01 03 00 02
Prerequisites: MAC 121
Corequisites: None
Component: None
This course introduces the manual programming, setup, and operation of CNC machining centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC machining centers.

MAC 131 Blueprint Reading/Mach I 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course covers the basic principles of blueprint reading and sketching. Topics include multi-view drawings; interpretation of
conventional lines; and dimensions, notes, and thread notations. Upon completion, students should be able to interpret basic drawings, visualize parts, and make pictorial sketches.

MAC 132 Blueprint Reading/Mach II 01 02 00 02
Prerequisites: MAC 131
Corequisites: None
Component: None
This course introduces more complex industrial blueprints. Emphasis is placed on auxiliary views, section views, violations of true project, special views, applications of GD & T, and interpretation of complex parts. Upon completion, students should be able to read and interpret complex industrial blueprints.

MAC 151 Machining Calculations 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic calculations as they relate to machining occupations. Emphasis is placed on basic calculations and their applications in the machine shop. Upon completion, students should be able to perform basic shop calculations.

MAC 152 Adv Machining Calc 01 02 00 02
Prerequisites: MAC 151
Corequisites: None
Component: None
This course combines mathematical functions with practical machine shop applications and problems. Emphasis is placed on gear ratios, lead screws, indexing problems, and their applications in the machine shop. Upon completion, students should be able to calculate solutions to machining problems.

MAC 226 CNC EDM Machining 01 03 00 02
Prerequisites: MAC 121
Corequisites: None
Component: None
This course introduces the programming, setup, and operation of CNC electrical discharge machines. Topics include programming formats, control functions, program editing, production of parts, and inspection. Upon completion, students should be able to manufacture simple parts using CNC electrical discharge machines.

MAC 229 CNC Programming 02 00 00 02
Prerequisites: MAC 121, MAC 122, MAC 124, or MAC 226
Corequisites: None
Component: None
This course provides concentrated study in advanced programming techniques for working with modern CNC machine tools. Topics include custom macros and subroutines, canned cycles, and automatic machining cycles currently employed by the machine tool industry. Upon completion, students should be able to program advanced CNC functions while conserving machine memory.

MAC 233 Appl in CNC Machining 02 12 00 06
Prerequisites: MAC 121
Corequisites: None
Component: None
This capstone course provides students the opportunity to apply skills learned throughout the curriculum. Emphasis is placed on production of parts and assemblies using modern CNC machine tools. Upon completion, students should be able to manufacture complex parts using a variety of CNC machine tools.

MAC 241 Jigs & Fixtures I 02 06 00 04
Prerequisites: MAC 112
Corequisites: None
Component: None
This course introduces the application and use of jigs and fixtures. Emphasis is placed on design and manufacture of simple jigs and fixtures. Upon completion, students should be able to design and build simple jigs and fixtures.

MAC 243 Die Making I 02 06 00 04
Prerequisites: MAC 112
Corequisites: None
Component: None
This course introduces the principles and applications of die making. Topics include types, construction, and application of dies. Upon completion, students should be able to design and build simple dies.

MAC 245 Mold Construction I 02 06 00 04
Prerequisites: MAC 112
Corequisites: None
Component: None
This course introduces the principles of mold making. Topics include types, construction, and application of molds. Upon completion, students should be able to design and build simple molds.

MAT 050 Basic Math Skills 03 02 00 04
Prerequisites: Placement
Corequisites: None
Component: None
This course is designed to strengthen basic math skills. Topics include properties, rounding, estimating, comparing, converting, and computing whole numbers, fractions, and decimals. Upon completion, students should be able to perform basic computations and solve relevant mathematical problems.

MAT 060 Essential Mathematics 03 02 00 04
Prerequisites: MAT 050 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course is a comprehensive study of mathematical skills which should provide a strong mathematical foundation to pursue further study. Topics include principles and applications of decimals, fractions, percents, ratio and proportion, order of operations, geometry, measurement, and elements of algebra and
statistics. Upon completion, students should be able to perform basic computations and solve relevant, multi-step mathematical problems using technology where appropriate.

**MAT 070 Introductory Algebra** 03 02 00 04
Prerequisites: MAT 060 or Placement Test Credit Equivalent.
Corequisites: RED 080 or Placement Test Credit Equivalent.
Component: None
This course establishes a foundation in algebraic concepts and problem solving. Topics include signed numbers, exponents, order of operations, simplifying expressions, solving linear equations and inequalities, graphing, formulas, polynomials, factoring, and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology. This course is also available through the Virtual Learning Community (VLC).

**MAT 080 Intermediate Algebra** 03 02 00 04
Prerequisites: MAT070 or Placement Test Credit Equivalent.
Corequisites: RED 080
Component: None
This course continues the study of algebraic concepts with emphasis on applications. Topics include factoring; rational expressions; rational exponents; rational, radical, and quadratic equations; systems of equations; inequalities; graphing; functions; variations; complex numbers; and elements of geometry. Upon completion, students should be able to apply the above concepts in problem solving using appropriate technology.

**MAT 090 Accelerated Algebra** 03 02 00 04
Prerequisites: HS Alg I and Alg II or Placement Test Credit Equivalent.
Corequisites: RED 080 or Placement Test Credit Equivalent.
Component: None
This course covers algebraic concepts with emphasis on applications. Topics include those covered in MAT 070 and MAT 080. Upon completion, students should be able to apply algebraic concepts in problem solving using appropriate technology.

**MAT 095 Algebraic Concepts** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers algebraic concepts with an emphasis on applications. Topics include linear, quadratic, absolute value, rational and radical equations, sets, real and complex numbers, exponents, graphing, formulas, polynomials, systems of equations, inequalities, and functions. Upon completion, students should be able to apply the above topics in problem solving using appropriate technology.

**MAT 101 Applied Mathematics I** 02 02 00 03
Prerequisites: MAT 060, MAT 070, MAT 080, MAT 090, or MAT 095
Corequisites: None
Component: None
This course is a comprehensive review of arithmetic with basic algebra designed to meet the needs of certificate and diploma programs. Topics include arithmetic and geometric skills used in measurement, ratio and proportion, exponents and roots, applications of percent, linear equations, formulas, and statistics. Upon completion, students should be able to solve practical problems in their specific areas of study. This course is intended for diploma programs.

**MAT 115 Mathematical Models** 02 02 00 03
Prerequisites: One Course Required: MAT 070, MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, or MAT 175 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course develops the ability to utilize mathematical skills and technology to solve problems at a level found in non-mathematics-intensive programs. Topics include application to percent, ratio and proportion, formulas, statistics, functional notation, linear functions and their groups, probability, sampling techniques, scatter plots, and modeling. Upon completion, students should be able to solve practical problems, reason and communicate with mathematics, and work confidently, collaboratively, and independently.

**MAT 120 Geometry and Trigonometry** 02 02 00 03
Prerequisites: One Course Required: Mat 070, MAT 080, MAT 090, MAT 095, MAT 121, MAT 161, MAT 171, OR MAT 175 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces the concepts of plane trigonometry and geometry with emphasis on applications to problem solving. Topics include the basic definitions and properties of plane and solid geometry, area and volume, right triangle trigonometry, and oblique triangles. Upon completion, students should be able to solve applied problems both independently and collaboratively using technology.

**MAT 121 Algebra/Trigonometry I** 02 02 00 03
Prerequisites: One course required: MAT 070, MAT 080, MAT 090, OR MAT 095 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an integrated approach to technology and the skills required to manipulate, display, and interpret mathematical functions and formulas used in problem solving. Topics include simplification, evaluation, and solving of algebraic and radical functions; complex numbers; right triangle trigonometry; systems of equations; and the use of technology. Upon completion, students should be able to demonstrate an understanding of the use of mathematics and technology to solve problems and analyze and communicate results.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
MAT 122 Algebra/Trigonometry II 02 02 00 03
Prerequisites: One Course Required: MAT121, MAT 161, MAT 171 OR MAT 175
Corequisites: None
Component: None
This course extends the concepts covered in MAT 121 to include additional topics in algebra, function analysis, and trigonometry. Topics include exponential and logarithmic functions, translation and scaling of functions, Sine Law, Cosine Law, vectors and statistics. Upon completion, students should be able to demonstrate an understanding of the use of technology to solve problems and to analyze and communicate results.

MAT 140 Survey of Mathematics 03 00 00 03
Prerequisites: One Course Required: MAT 070, MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, OR MAT 175 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an introduction in a non-technical setting to selected topics in mathematics. Topics may include, but are not limited to, sets, logic, probability, statistics, matrices, mathematical systems, geometry, topology, mathematics of finance, and modeling. Upon completion, students should be able to understand a variety of mathematical applications, think logically, and be able to work collaboratively and independently. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 141 Mathematical Concepts I 03 00 00 03
Prerequisites: MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, or MAT 175
Corequisites: None
Component: None
This course is the first of a two-course sequence that develops a deeper understanding and appreciation of the basic concepts of mathematics. Emphasis is placed on sets, logic, number bases, elementary number theory, introductory algebra, measurement including metrics, and problem solving. Upon completion, students should be able to communicate orally and in writing these basic mathematical concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 142 Mathematical Concepts II 03 00 00 03
Prerequisites: MAT-141
Corequisites: None
Component: None
This course is the second of a two-course sequence that develops a deeper understanding and appreciation of the basic concepts of mathematics. Emphasis is placed on probability, statistics, functions, introductory geometry, and mathematics of finance. Upon completion, students should be able to communicate orally and in writing these basic mathematical concepts and utilize technology as a mathematical tool. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 151 Statistics I 03 00 00 03
Prerequisites: One course required: MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 140, MAT 161, MAT 171, or MAT 175 or Placement Test Equivalent.
Corequisites: None
Component: None
This course provides a project-based approach to the study of basic probability, descriptive and inferential statistics, and decision making. Emphasis is placed on measures of central tendency and dispersion, correlation, regression, discrete and continuous probability distributions, quality control, population parameter estimation, and hypothesis testing. Upon completion, students should be able to describe important characteristics of a set of data and draw inferences about a population from sample data. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics (Quantitative Option).

MAT 151A Statistics I Lab 00 02 00 01
Prerequisites: One Course Required: MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 140, MAT 161, MAT 171, OR MAT 175 or Placement Test Equivalent.
Corequisites: MAT 151
Component: None
This course is a laboratory for MAT 151. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MAT 155 Statistical Analysis 03 00 00 03
Prerequisites: One course required: MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, OR MAT 175 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course is an introduction to descriptive and inferential statistics. Topics include sampling, distributions, plotting data, central tendency, dispersion, Central Limits Theorem, confidence intervals, hypothesis testing, correlations, regressions, and multinomial experiments. Upon completion, students should be able to describe data and test inferences about populations using sample data. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics (Quantitative Option).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
MAT 155A Statistics Analysis Lab 00 02 00 01  
Prerequisites: MAT 080, MAT 090, MAT 095, MAT 120, MAT 121, MAT 161, MAT 171, or MAT 175 or Placement Test Credit Equivalent.  
Corequisites: MAT 155  
Component: None  
This course is a laboratory for MAT 155. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.  

MAT 161 College Algebra 03 00 00 03  
Prerequisites: One course required: MAT 080, MAT 090, or MAT 095 or Placement Test Credit Equivalent.  
Corequisites: MAT 161A  
Component: None  
This course provides an integrated technological approach to algebraic topics used in problem solving. Emphasis is placed on applications involving equations and inequalities; polynomial, rational, exponential and logarithmic functions; and graphing and data analysis/modeling. Upon completion, students should be able to choose an appropriate model to fit a data set and use the model for analysis and prediction. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics for the Associate in Arts Degree. This course is also available through the Virtual Learning Community (VLC).  

MAT 161A College Algebra Lab 00 02 00 01  
Prerequisites: One course required: MAT 080, MAT 090, or MAT 095 or Placement Test Credit Equivalent.  
Corequisites: MAT 161  
Component: None  
This course is a laboratory for MAT 161. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.  

MAT 162 College Trigonometry 03 00 00 03  
Prerequisites: MAT 161  
Corequisites: None  
Component: None  
This course provides an integrated technological approach to trigonometric applications used in problem solving. Emphasis is placed on applications involving trigonometric ratios, right triangles, oblique triangles, trigonometric functions, graphing, vectors, and complex numbers. Upon completion, students should be able to apply the above principles of trigonometry to problem solving and communication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics for the Associate in Arts Degree.  

MAT 162A College Trig Lab 00 02 00 01  
Prerequisites: MAT 161  
Corequisites: MAT 162  
Component: None  
This course is a laboratory for MAT 162. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.  

MAT 165 Finite Mathematics 03 00 00 03  
Prerequisites: One course required: MAT 161, MAT 171, or MAT 175  
Corequisites: MAT 165A  
Component: None  
This course provides topics used to formulate models and to solve and interpret solutions using an algorithmic approach. Topics include linear algebra, linear programming, simplex method, sets and counting, probability, mathematics of finance, and logic. Upon completion, students should be able to demonstrate both an understanding of the theoretical concepts of finite mathematics and the ability to solve related problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.  

MAT 165A Finite Math Lab 00 02 00 01  
Prerequisites: One course required: MAT 161, MAT 171, or MAT 175  
Corequisites: MAT 165  
Component: None  
This course is a laboratory for MAT 165. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.  

MAT 167 Discrete Mathematics 03 00 00 03  
Prerequisites: MAT 121  
Corequisites: None  
Component: None  
This course is a study of discrete mathematics with emphasis on applications. Topics include number systems, combinations/permutations, mathematical logic/proofs, sets/counting, Boolean algebra, mathematical induction, trees/graphs, and algorithms. Upon completion, students should be able to demonstrate competence in the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.  

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
MAT 172A Precalculus Trig Lab
Prerequisites: MAT 171
Corequisites: MAT 172
Component: None
This course is a laboratory for MAT 172. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MAT 175 Precalculus
Prerequisites: Placement Test Credit
Corequisites: MAT 175A
Component: None
This course provides an intense study of the topics which are fundamental to the study of calculus. Emphasis is placed on functions and their graphs with special attention to polynomial, rational, exponential, logarithmic and trigonometric functions, and analytic trigonometry. Upon completion, students should be able to solve practical problems and use appropriate models for analysis and prediction. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics. This course is also available through the Virtual Learning Community (VLC).

MAT 175A Precalculus Lab
Prerequisites: None
Corequisites: MAT 175
Component: None
This course is a laboratory for MAT 175. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement. This course is also available through the Virtual Learning Community (VLC).

MAT 167A Discrete Mathematics Lab
Prerequisites: MAT 121
Corequisites: MAT 167
Component: None
This course is a laboratory for MAT 167. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

MAT 210 Logic
Prerequisites: One course required: MAT 161, MAT 171, or MAT 175
Corequisites: MAT 210A
Component: None
This course introduces the concept of deductive logic with emphasis on the use of formal logic in analysis. Topics include traditional logic, propositional logic, and determination of validity including truth tables, Venn diagrams, and translational exercises. Upon completion, students should be able to analyze data based on formal logic or ordinary language discourse. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**Prerequisites:** One course required: MAT 161, MAT 171, or MAT 175  
**Corequisites:** MAT 210  
**Component:** None  

This course is a laboratory for MAT 210. Emphasis is placed on experiences that enhance the materials presented in the class. Upon completion, students should be able to solve problems, apply critical thinking, work in teams, and communicate effectively. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**Prerequisites:** MAT 122  
**Corequisites:** None  
**Component:** None  

This course provides an introduction to the calculus concepts of differentiation and integration by way of application and is designed for engineering technology students. Topics include limits, slope, derivatives, related rates, areas, integrals, and applications. Upon completion, students should be able to demonstrate an understanding of the use of calculus and technology to solve problems and to analyze and communicate results.

**Prerequisites:** A set of courses required: MAT 151 and either MAT 121 or MAT 161  
**Corequisites:** None  
**Component:** None  

This course provides a technology-based treatment of multiple sample inferential statistics. Emphasis is placed on two sample hypothesis tests and confidence intervals, linear and multiple regression, analysis of variance, experimental design, and non-parametric techniques. Upon completion, students should be able to draw statistical inferences on multiple sample data taken from business and health, and social, natural, and applied sciences. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

### MAT 252A Statistics II Lab

**Prerequisites:** One course required: MAT 161, MAT 171, or MAT 175  
**Corequisites:** None  
**Component:** None  

This course is designed for students needing only one semester of calculus. Topics include functions, graphing, differentiation, and integration with emphasis on applications drawn from business, economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

### MAT 263A Brief Calculus Lab

**Prerequisites:** One course required: MAT 172, MAT 175 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None  

This course covers in depth the differential calculus portion of a three-course calculus sequence. Topics include limits, continuity, derivatives, and integrals of algebraic and transcendental functions of one variable, with applications. Upon completion, students should be able to apply differentiation and integration techniques to algebraic and transcendental functions. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

### MAT 272 Calculus II

</table>

**Prerequisites:** MAT 271  
**Corequisites:** None  
**Component:** None  

This course provides a rigorous treatment of integration and is the second calculus course in a three-course sequence. Topics include applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to use integration and approximation techniques to solve application problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
MAT 273 Calculus III
Prerequisites: MAT 272
Corequisites: None
Component: None
This course covers the calculus of several variables and is the third calculus course in a three-course sequence. Topics include functions of several variables, partial derivatives, multiple integrals, solid analytical geometry, vector-valued functions, and line and surface integrals. Upon completion, students should be able to solve problems involving vectors and functions of several variables. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

MAT 280 Linear Algebra 03 00 00 03
Prerequisites: MAT 271
Corequisites: None
Component: None
This course provides a study of linear algebra topics with emphasis on the development of both abstract concepts and applications. Topics include vectors, systems of equations, matrices, determinants, vector spaces, linear transformations in two or three dimensions, eigenvalues, diagonalization and orthogonality. Upon completion, students should be able to demonstrate both an understanding of the theoretical concepts and appropriate use of linear algebra models to solve application problems. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

MAT 285 Differential Equations 03 00 00 03
Prerequisites: MAT 272
Corequisites: None
Component: None
This course provides an introduction to ordinary differential equations with an emphasis on applications. Topics include first-order, linear higher-order, and systems of differential equations; numerical methods; series solutions; eigenvalues and eigenvectors; Laplace transforms; and Fourier series. Upon completion, students should be able to use differential equations to model physical phenomena, solve the equations, and use the solutions to analyze the phenomena. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

MKT 120 Principles of Marketing 03 00 00 03
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making.

MKT 121 Retailing 03 00 00 03
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course examines the role of retailing in the economy. Topics include the development of present retail structure, functions performed, effective operations, and managerial problems resulting from current economic and social trends. Upon completion, students should be able to demonstrate an understanding of the basic principles of retailing.

MKT 122 Visual Merchandising 03 00 00 03
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces basic layout design and commercial display in retail and service organizations. Topics include an analysis of display as a visual merchandising medium and an examination of the principles and applications of display and design. Upon completion, students should be able to plan, build, and evaluate designs and displays. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program.

MKT 123 Fundamentals of Selling 03 00 00 03
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to emphasize the necessity of selling skills in a modern business environment. Emphasis is placed on sales techniques involved in various types of selling situations. Upon completion, students should be able to demonstrate an understanding of the techniques covered.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
### Course Descriptions

#### MKT 220 Advertising and Sales Promotion

</tbody>
</table>

**Prerequisites:** RED 070 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None

This course covers the elements of advertising and sales promotion in the business environment. Topics include advertising and sales promotion appeals, selection of media, use of advertising and sales promotion as a marketing tool, and means of testing effectiveness. Upon completion, students should be able to demonstrate an understanding of the concepts covered through application.

#### MKT 221 Consumer Behavior

</table>

**Prerequisites:** RED 070 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None

This course is designed to describe consumer behavior as applied to the exchange processes involved in acquiring, consuming, and disposing of goods and services. Topics include an analysis of basic and environmental determinants of consumer behavior with emphasis on the decision-making process. Upon completion, students should be able to analyze concepts related to the study of the individual consumer.

#### MKT 223 Customer Service

**Prerequisites:** RED 070 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None

This course stresses the importance of customer relations in the business world. Emphasis is placed on learning how to respond to complex customer requirements and to efficiently handle stressful situations. Upon completion, students should be able to demonstrate the ability to handle customer relations. This course is also available through the Virtual Learning Community (VLC).

#### MKT 225 Marketing Research

<table>

</table>

**Prerequisites:** MKT 120 ENG 090 ENG 090A MAT 060 or Placement Test Credit Equivalent  
**Corequisites:** None  
**Component:** None

This course provides information for decision making by providing guidance in developing, analyzing, and using data. Emphasis is placed on marketing research as a tool in decision making. Upon completion, students should be able to design and conduct a marketing research project and interpret the results. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

#### MKT 227 Marketing Applications

**Corequisites:** None  
**Component:** None

This course introduces the origins and musical components of jazz and the contributions of its major artists. Emphasis is placed on the development of discriminating listening habits, as well as the investigation of the styles and structural forms of the jazz idiom. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
be able to demonstrate skills in basic listening and understanding of American music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**MUS 114 Non-Western Music**
Prerequisites: None
Corequisites: None
Component: None
This course provides a basic survey of the music of the non-Western world. Emphasis is placed on non-traditional instruments, sources, and performing practices. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of non-Western music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. (TAC – 11/16/05)

**MUS 115 Orchestral Music**
Prerequisites: None
Corequisites: None
Component: None
This course covers representational orchestral and chamber works from the Baroque period to the present. Emphasis is placed on the characteristics of important orchestral forms and styles. Upon completion, students should be able to demonstrate skills in listening to and analyzing orchestral music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**MUS 121 Music Theory I**
Prerequisites: None
Corequisites: None
Component: None
This course provides an in-depth introduction to melody, rhythm, and harmony. Emphasis is placed on fundamental melodic, rhythmic, and harmonic analysis, introduction to part writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MUS 131 Chorus I**
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to gain experience singing in a chorus. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MUS 132 Chorus II**
Prerequisites: MUS-131
Corequisites: None
Component: None
This course provides a continuation of studies begun in MUS 131. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MUS 141 Ensemble I**
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to perform in any combination of instrumental, vocal, or keyboard groups of two or more. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MUS 142 Ensemble II**
Prerequisites: MUS-141
Corequisites: None
Component: None
This course is a continuation of MUS 141. Emphasis is placed on the development of performance skills and the study of a variety of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**MUS 181 Show Choir I**
Prerequisites: None
Corequisites: None
Component: None
This course provides students the initial training in basic competencies of dance/voice-based performances and to the nuances of preparation for such pop/jazz/theatre performances. Emphasis is placed on the introduction to, and subsequent development of, basic performance skills necessary for choreographed performance. Upon completion, students should be able to demonstrate the foundation competencies necessary to perform the assigned literature in various venues and under various professional conditions. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
MUS 182 Show Choir II
Prerequisites: MUS-181
Corequisites: None
Component: None
This course provides intermediate training in dance/voice-based performances and in the nuances of preparation for such pop/jazz/theatre performances. Emphasis is placed on continued development of skills necessary for professional group choral preparation and performance, as well as effective social interaction with a performance troupe. Upon completion, students should be able to demonstrate the intermediate competencies necessary to perform the assigned literature in various venues and under various professional conditions. This course has been approved to satisfy the Comprehensive Articulation Agreement core requirement in humanities/fine arts. (TAC – 11/16/05)

MUS 210 History of Rock Music
Prerequisites: None
Corequisites: None
Component: None
This course is a survey of Rock music from the early 1950’s to the present. Emphasis is placed on musical groups, soloists, and styles related to the evolution of this idiom and on related historical and social events. Upon completion, students should be able to identify specific styles and to explain the influence of selected performers within their respective eras. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. (TAC – 11/16/05)

MUS 211 History of Country Music
Prerequisites: None
Corequisites: None
Component: None
This course introduces the varied origins of country music and the commercialization of this art form. Emphasis is placed on historical, sociocultural, and stylistic factors related to country music and musicians. Upon completion, students should be able to identify specific styles and explain the influence of pop culture on the development of country music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. (TAC – 11/16/05)

MUS 212 American Musical Theatre
Prerequisites: None
Corequisites: None
Component: None
This course covers the origins and development of the musical from Show Boat to the present. Emphasis is placed on the investigation of the structure of the musical and its components through listening and analysis. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. (TAC – 11/16/05)

NET 110 Networking Concepts
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces students to the networking field. Topics include network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols. This course is also available through the Virtual Learning Community (VLC).

NET 125 Networking Basics
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the networking field. Emphasis is placed on network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols.

NET 126 Routing Basics
Prerequisites: NET 125
Corequisites: None
Component: None
This course focuses on initial router configuration, router software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). Emphasis will be placed on the fundamentals of router configuration, managing router software, routing protocol, and access lists. Upon completion, students should have an understanding of routers and their role in WANs, router configuration, routing protocols, TCP/IP, troubleshooting, and ACLs.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
NET 175 Wireless Technology  02 02 00 03
Prerequisites: NET 110 or NET 125
Corequisites: None
Component: None
This course introduces the student to wireless technology and interoperability with different communication protocols. Topics include Wireless Application Protocol (WAP), Wireless Markup language (WML), link manager, service discovery protocol, transport layer and frequency band. Upon completion, students should be able to discuss in written and oral form protocols and procedures required for different wireless applications.

NET 225 Routing & Switching I  01 04 00 03
Prerequisites: NET 126
Corequisites: None
Component: None
This course focuses on advanced IP addressing techniques, intermediate routing protocols, command-line interface configuration of switches, Ethernet switching, VLANs, STP, and VTP. Emphasis will be placed on application and demonstration of skills acquired in pre-requisite courses. Upon completion, students should be able to perform tasks related to VLSM, routing protocols, switching concepts and configuration, STP, VLANs, and VTP.

NET 226 Routing & Switching II  01 04 00 03
Prerequisites: NET 225
Corequisites: None
Component: None
This course introduces WAN theory and design, WAN technology, PPP, Frame Relay, ISDN, and additional case studies. Topics include network congestion problems, TCP/IP transport and network layer protocols, advanced routing and switching configuration, ISDN protocols, PPP encapsulation operations on a router. Upon completion, students should be able to provide solutions for network routing problems, identify ISDN protocols, and describe the Spanning Tree protocol.

NET 260 Internet Dev & Support  03 00 00 03
Prerequisites: NET 110
Corequisites: None
Component: None
This course covers issues relating to the development and implementation of Internet related tools and services. Topics include Internet organization, site registration, e-mail servers, Web servers, Web page development, legal issues, firewalls, multimedia, TCP/IP, service providers, FTP, list servers, and gateways. Upon completion, students should be able to develop and support the Internet services needed within an organization.

NET 289 Networking Project  01 04 00 03
Prerequisites: None
Corequisites: NET 226
Component: None
This course provides an opportunity to complete a significant networking project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete a project from the definition phase through implementation.

NMT 110 Intro to Nuclear Medicine  02 00 00 02
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course provides a comprehensive introduction to the field of nuclear medicine. Topics include overview of school, program, and profession; medical terminology and ethics; medical legal issues; general patient care and radiation safety practices; and departmental organization. Upon completion, students should be able to utilize various learning resources and demonstrate understanding of radiation safety standards and ethical, professional conduct.

NMT 126 Nuclear Physics  02 00 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental principles of the physics that underlie nuclear medicine. Topics include atomic structure, electromagnetic and particulate radiation, decay schemes, production of radionuclides with emphasis on radionuclide generators, and decay calculations. Upon completion, students should be able to demonstrate an understanding of the physical concepts covered in the course.

NMT 132 Overview-Clinical Nuc Med  02 00 06 04
Prerequisites: NMT 110
Corequisites: None
Component: None
This course is designed to familiarize students with the clinical practice of nuclear medicine. Emphasis is placed on the routine clinical procedures, radiopharmaceuticals and dosage, equipment manipulation, and basic patient care. Upon completion, students should be able to demonstrate integration of the principles covered in the classroom with the clinical experience.

NMT 134 Nuclear Pharmacy  02 00 00 02
Prerequisites: NMT 110
Corequisites: None
Component: None
This course covers the formulation and application of radiopharmaceuticals. Topics include the preparation, handling, disposition, and quality control of clinically useful radiopharmaceuticals. Upon completion, students should be able to discuss the appropriate use and disposition of radiopharmaceuticals currently used in clinical nuclear medicine.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.

NOS 220 Linux/UNIX Admin I  
Prerequisites: NOS 120
Corequisites: None
Component: None
This course introduces the Linux file system, group administration, and system hardware controls. Topics include installation, creation and maintaining file systems, NIS, client and DHCP client configuration, NFS, SMB/Samba, Configure X, Gnome, KDE, basic memory, processes, and security. Upon completion, students should be able to perform system administration tasks including installation, configuring and attaching a new Linux workstation to an existing network.

NOS 230 Windows Admin I  
Prerequisites: NOS 130
Corequisites: None
Component: None
This course covers the installation and administration of a Windows Server network operating system. Topics include managing and maintaining physical and logical devices, access to resources, the server environment, managing users, computers, and groups, and Managing/Implementing Disaster Recovery. Upon completion, students should be able to manage and maintain a Windows Server environment.

NOS 240 Novell Admin I  
Prerequisites: NOS 110
Corequisites: None
Component: None
This course will introduce students to the Novell network operating system. Topics include installing and using NetWare, managing printing, storage space, implementing internet services, and managing security. Upon completion, students should have basic knowledge about implementing NetWare and using its management tools.

NUR 101 Practical Nursing I  
Prerequisites: Departmental Approval
Corequisites: BIO 163 and NUR 102AA
Component: None
This course introduces concepts as related to the practical nurse’s caregiver and discipline-specific roles. Emphasis is placed on the nursing process, legal/ethical/professional issues, and wellness/illness patterns. Upon completion, students should be able to demonstrate beginning understanding of nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. This course must be completed satisfactorily to progress to Nursing 102B and Nursing 103A. This course is intended for certificate and diploma programs.

NUR 102AA Practical Nursing II  
Prerequisites: Departmental Approval
Corequisites: BIO 163 and NUR 101
Component: None
This course includes more advanced concepts as related to the practical nurse’s caregiver and discipline-specific roles. Emphasis is placed on the nursing process, delegation, cost effectiveness, legal/ethical/professional issues, and wellness/illness patterns. Upon completion, students should be able to begin participating in the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. The focus will be on vocational and personal adjustments inherent in the development of practical nurses which must be completed satisfactorily to progress to Nursing 102B and Nursing 103A. This course is intended for certificate and diploma programs.

NUR 102BB Practical Nursing II  
Prerequisites: NUR 101 and NUR 102AA
Corequisites: CIS 113, NUR 103AA and PSY 110
Component: None
This course includes more advanced concepts as related to the practical nurse’s caregiver and discipline-specific roles. Emphasis is placed on the nursing process, delegation, cost effectiveness, legal/ethical/professional issues, and wellness/illness patterns. Upon completion, students should be able to begin participating in the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. The focus will be on nursing care of patients with illnesses and disorders of various body systems, child-bearing family and the pediatric patient which must be completed satisfactorily to progress to Nursing 103B. This course is intended for certificate and diploma programs.

NUR 103AA Practical Nursing III  
Prerequisites: NUR 101 and NUR 102AA
Corequisites: CIS 113, NUR 102BB and PSY 110
Component: None
This course focuses on use of nursing/related concepts by practical nurses as providers of care/members of discipline in collaboration with health team members. Emphasis is placed on the nursing process, wellness/illness patterns, entry-level issues, accountability, advocacy, professional development, evolving technology, and changing health care delivery systems. Upon completion, students should be able to use the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. The focus will be on reproductive diseases, mental health disorders and parenteral medication administration which must be completed satisfactorily to progress to Nursing 103B. This course is intended for certificate and diploma programs.

NUR 103BB Practical Nursing III  
Prerequisites: NUR 102BB and NUR 103AA
Corequisites: ENG 111
Component: None
This course focuses on use of nursing/related concepts by practical nurses as providers of care/members of discipline in collaboration with health team members. Emphasis is placed on the nursing process, wellness/illness patterns, entry-level issues, accountability, advocacy, professional development, evolving technology, and changing health care delivery systems. Upon completion, students should be able to use the nursing process to promote/maintain/restore optimum health for diverse clients throughout the life span. The focus will be on reproductive diseases, mental health disorders and parenteral medication administration which must be completed satisfactorily to progress to Nursing 103B. This course is intended for certificate and diploma programs.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course introduces concepts basic to beginning nursing practice. Emphasis is placed on introducing the nurse’s role as provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to demonstrate beginning competence in caring for individuals with common alterations in health.

NUR 110 Nursing I  
Prerequisites: Departmental Approval  
Corequisites: BIO 168, PSY 150 and ACA 111  
Component: None  
This course introduces concepts basic to beginning nursing practice. Emphasis is placed on introducing the nurse’s role as provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to demonstrate beginning competence in caring for individuals with common alterations in health.

NUR 111 Intro to Health Concepts  
Prerequisites: None  
Corequisites: BIO 168, ENG 111, PSY 150 & ACA 111 or ACA 115  
Component: None  
This course introduces the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts within each domain including medication administration, assessment, nutrition, ethics, interdisciplinary teams, informatics, evidence-based practice, individual-centered care, and quality improvement. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 112 Health-Illness Concepts  
Prerequisites: NUR 111  
Corequisites: BIO 169 and PSY-241  
Component: None  
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of acid-base, metabolism, cellular regulation, oxygenation, infection, stress/coping, health-wellness-illness, communication, caring interventions, managing care, safety, quality improvement, and informatics. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 113 Family Health Concepts  
Prerequisites: NUR 111, NUR-112, & NUR-114  
Corequisites: CIS 110 or CIS 113  
Component: None  
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of oxygenation, sexuality, reproduction, grief/loss, mood/affect, behaviors, development, family, health-wellness-illness, communication, caring interventions, managing care, safety, and advocacy. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 114 Holistic Health Concepts  
Prerequisites: NUR 111  
Corequisites: BIO-169 and PSY-241  
Component: None  
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, inflammation, sensory perception, stress/coping, mood/affect, cognition, self, violence, health-wellness-illness, professional behaviors, caring interventions, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 120 Nursing II  
Prerequisites: NUR 110  
Corequisites: BIO 169 and PSY 241  
Component: None  
This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on developing the nurse’s role as provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to participate in the delivery of nursing care for individuals with common alterations in health. The focus will be on integumentary, immune, musculoskeletal, gastrointestinal and endocrine functioning.

NUR 130 Nursing III  
Prerequisites: NUR 120  
Corequisites: CIS 113  
Component: None  
This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on expanding the nurse’s role as provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to deliver nursing care to individuals with common alterations in health. The focus will be on reproductive health, intrapartal, newborn, and postpartal nursing.

NUR 189 Nursing Transition  
Prerequisites: Departmental Approval  
Corequisites: None  
Component: None  
This course is designed to assist the licensed practical nurse in transition to the role of the associate degree nurse. Topics include the role of the registered nurse, nursing process, homeostasis, and validation of selected nursing skills and physical assessment. Upon completion, students should be able to articulate into the ADN program at the level of the generic student.

NUR 210 Nursing IV  
Prerequisites: NUR 130  
Corequisites: BIO 275 and ENG 111  
Component: None  
This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed...
on using collaboration as a provider of care, manager of care, and member of the discipline of nursing. Upon completion, students should be able to modify nursing care for individuals with common alterations in health. The focus will be on psychiatric concepts, community based approaches, renal, cardiovascular, and respiratory functioning.

**NUR 211 Health Care Concepts** 03 00 06 05  
Prerequisites: NUR-111, NUR-112, NUR-113, and NUR-114  
Corequisites: None  
Component: None  
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, infection, immunity, mobility, comfort, behaviors, health-wellness-illness, clinical decision-making, caring interventions, managing care, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

**NUR 212 Health System Concepts** 03 00 06 05  
Prerequisites: NUR-111, NUR-112, NUR-113, and NUR-114  
Corequisites: None  
Component: None  
This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of grief/loss, violence, health-wellness-illness, collaboration, managing care, safety, advocacy, legal issues, policy, healthcare systems, ethics, accountability, and evidence-based practice. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

**NUR 213 Complex Health Concepts** 04 03 15 10  
Prerequisites: NUR 111, NUR 112, NUR 113, NUR 114, NUR 211, and NUR 212  
Corequisites: COM-231 or ENG-115  
Component: None  
This course is designed to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of fluid/electrolytes, metabolism, perfusion, mobility, stress/coping, violence, health-wellness-illness, professional behaviors, caring interventions, managing care, healthcare systems, and quality improvement. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry level nursing care.

**NUR 220 Nursing V** 04 03 15 10  
Prerequisites: NUR 210  
Corequisites: ENG 115 or COM 231 and Humanities/Fine Arts Elective  
Component: None  
This course provides an expanded knowledge base for delivering nursing care to individuals of various ages. Emphasis is placed on the nurse’s role as an independent provider and manager of care for a group of individuals and member of a multi-disciplinary team. Upon completion, students should be able to provide comprehensive nursing care to a group of individuals with common complex health alterations. The focus will be on neurologic and neurosensory functioning, mental health, multisystem trauma and leadership skills.

**NUT 110 Nutrition** 03 00 00 03  
Prerequisites: ENG 080 RED 080 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course covers basic principles of nutrition and their relationship to human health. Topics include meeting nutritional needs of healthy people, menu modification based on special dietary needs, food habits, and contemporary problems associated with food selection. Upon completion, students should be able to apply basic nutritional concepts as they relate to health and well-being. This course is also available through the Virtual Learning Community (VLC).

**OMT 110 Introduction to Operations Management** 03 00 00 03  
Prerequisites: MAT-070 RED 080 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course provides an overview of the operations management field. Topics include production and operations planning, materials management, environmental health and safety, and quality management. Upon completion, students should be able to demonstrate an understanding of the operations management functions.

**OMT 112 Materials Management** 03 00 00 03  
Prerequisites: MAT-070 RED 080 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course covers the basic principles of materials management. Emphasis is placed on the planning, procurement, movement, and storage of materials. Upon completion, students should be able to demonstrate an understanding of the concepts and techniques related to materials management.

**OMT 153 Motivation and Evaluation** 02 00 00 02  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides skills for motivation and evaluation of individuals in a workplace setting. Topics include establishing performance expectations, developing techniques for the development of job skills, coaching for optimal performance, and taking corrective actions. Upon completion, students should be able to demonstrate the skills necessary for successful job performance.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Course Descriptions 267

OMT 156 Problem-Solving Skills 03 00 00 03
Prerequisites:  RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides a foundation for creating constructive relationships and presents the processes behind problem solving for groups and individuals. Emphasis is placed on building constructive relationships, confronting issues, winning support, and the basic processes of problem solving. Upon completion, students should be able to enhance relationships with others and apply a systematic approach to problem solving.

OMT 260 Issues in Operations Mgt. 03 00 00 03
Prerequisites: ISC 121, ISC 210, OMT 112 and ISC 130 OR ISC 131 OR ISC 132 OR ISC 221
Corequisites: None
Component: None
This course presents a variety of topics that highlight contemporary problems and issues related to operations management. Emphasis is placed on production and operations planning, environmental health and safety, materials management, and quality systems. Upon completion, students should be able to demonstrate the ability to make decisions and resolve problems in an operations management environment.

OST 080 Keyboarding Literacy 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course is designed to develop elementary keyboarding skills. Emphasis is placed on mastery of the keyboard. Upon completion, students should be able to demonstrate basic proficiency in keyboarding.

OST 122 Office Computations 01 02 00 02
Prerequisites: MAT 070 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces the keypad and the touch method using the electronic calculator. Topics include mathematical functions in business applications. Upon completion, students should be able to use the electronic calculator to solve a wide variety of problems commonly encountered in business.

OST 130 Comprehensive Keyboarding 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is designed to develop keyboarding skills and introductory document formatting. Emphasis is placed on keyboarding techniques and formatting basic business documents. Upon completion, students should be able to create documents in an ever-changing workplace.

OST 131 Keyboarding 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course covers basic keyboarding skills. Emphasis is placed on the touch system, correct techniques, and development of speed and accuracy. Upon completion, students should be able to key at an acceptable speed and accuracy level using the touch system.

OST 132 Keyboard Skill Building 01 02 00 02
Prerequisites: OST 130
Corequisites: None
Component: None
This course is designed to increase speed and improve accuracy in keyboarding. Emphasis is placed on diagnostic tests to identify accuracy and speed deficiencies followed by corrective drills. Upon completion, students should be able to keyboard rhythmically with greater accuracy and speed.

OST 133 Advanced Keyboard Skill Building 01 02 00 02
Prerequisites: OST 130 and OST 134
Corequisites: None
Component: None
This course is designed to increase speed and improve accuracy to meet employment tests and job requirements. Emphasis is placed on individualized diagnostic and prescriptive drills. Upon completion, students should be able to keyboard with greater speed and accuracy as measured by five-minute timed writings and skill-development paragraphs.

OST 134 Text Entry & Formatting 02 02 00 03
Prerequisites: OST 132 and OST 136
Corequisites: None
Component: None
This course is designed to provide skills needed to increase speed, improve accuracy, and format documents. Topics include letters, memos, tables, and business reports. Upon completion, students should be able to produce documents and key timed writings at speeds commensurate with employability. This course is also available through the Virtual Learning Community (VLC).

OST 135 Advanced Text Entry & Formatting 03 02 00 04
Prerequisites: All courses required: OST 133, OST 134, OST 164 and OST 236
Corequisites: None
Component: None
This course is designed to incorporate computer application skills in the generation of office documents. Emphasis is placed on advanced document production. Upon completion, students should be able to make independent decisions regarding planning, style, and method of presentation.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
OST 136 Word Processing 02 02 00 03
Prerequisites: OST 130
Corequisites: None
Component: None
This course is designed to introduce word processing concepts and applications. Topics include preparation of a variety of documents and mastery of specialized software functions. Upon completion, students should be able to work effectively in a computerized word processing environment. This course is also available through the Virtual Learning Community (VLC).

OST 137 Office Software Applications 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the concepts and functions of software that meets the changing needs of the community. Emphasis is placed on the terminology and use of software through a hands-on approach. Upon completion, students should be able to use software in a business environment. This course is also available through the Virtual Learning Community (VLC).

OST 138 Advanced Software Appl 02 02 00 03
Prerequisites: OST 137 or CIS 111 or CIS 110
Corequisites: None
Component: None
This course is designed to improve the proficiency in the utilization of software applications used in business offices through a hands-on approach. Emphasis is placed on in-depth usage of software to create a variety of documents applicable to current business environments. Upon completion, students should be able to master the skills required to design documents that can be customized using the latest software applications. This course is also available through the Virtual Learning Community (VLC).

OST 141 Medical Terms I-Medical Office 03 00 00 03
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course uses a language-structure approach to present the terminology and vocabulary. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in the remaining systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.

OST 142 Medical Terms II-Medical Office 03 00 00 03
Prerequisites: OST 141
Corequisites: None
Component: None
This course is a continuation of OST 141 and continues the study, using a language-structure approach, of medical office terminology and vocabulary. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in the remaining systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.

OST 143 Dental Office Terminology 03 00 00 03
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces prefixes, suffixes, and word roots used in the dental office. Topics include dental anatomy and oral structures, tooth origin and formation, examination and prevention, tooth restorations, radiography, pain management and pharmacology. Upon completion, students should be able to pronounce, spell, and define dental terms as related to a dental practice.

OST 147 Dental Billing and Coding 03 00 00 03
Prerequisites: OST 143
Corequisites: None
Component: None
This course introduces Current Procedural Terminology, International Classification of Diseases, and Healthcare Common Procedural Coding System coding as they apply to dental insurance and billing. Topics include Current Dental Terminology-2 Dental Codes, office collections, American Dental Association Dental Claim Form, and insurance coverage. Upon completion, students should be able to describe the steps of the total billing/collections cycle for a dental office.

OST 148 Medical Coding Billing & Insurance 03 00 00 03
Prerequisites: OST 141
Corequisites: None
Component: None
This course introduces fundamentals of medical coding, billing, and insurance. Emphasis is placed on the medical billing cycle to include third party payers, coding concepts, and form preparation. Upon completion, students should be able to explain the life cycle of and accurately complete a medical insurance claim. This course is also available through the Virtual Learning Community (VLC).

OST 149 Medical Legal Issues 03 00 00 03
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the complex legal, moral, and ethical issues involved in providing health-care services. Emphasis is placed on the legal requirements of medical practices; the relationship of physician, patient, and office personnel; professional liabilities; and medical practice liability. Upon completion, students should be able to demonstrate a working knowledge of current medical law and accepted ethical behavior. This course is also available through the Virtual Learning Community (VLC).
OST 153 Office Finance Solutions 01 02 00 02
Prerequisites: OST 122
Corequisites: None
Component: None
This course introduces basic bookkeeping concepts. Topics include entering data in accounts payable and receivable, keeping petty cash records, maintaining inventory, reconciling bank statements, running payroll, and generating simple financial reports. Upon completion, students should be able to demonstrate competence in the entry and manipulation of data to provide financial solutions for the office.

OST 162 Executive Terminology 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is designed to increase and improve proficiency in word usage. Topics include root words, prefixes, suffixes, homonyms, synonyms, and specialized vocabularies. Upon completion, students should be able to use acquired vocabulary skills in the global workplace.

OST 164 Text Editing Applications 03 00 00 03
Prerequisites: ENG 111
Corequisites: None
Component: None
This course provides a comprehensive study of editing skills needed in the workplace. Emphasis is placed on grammar, punctuation, sentence structure, proofreading, and editing. Upon completion, students should be able to use reference materials to compose and edit text. This course is also available through the Virtual Learning Community (VLC).

OST 181 Introduction to Office Systems 02 02 00 03
Prerequisites: OST 131 or equivalent
Corequisites: None
Component: None
This course introduces the skills and abilities needed in today’s office. Topics include effectively interacting with co-workers and the public, processing simple financial and informational documents, and performing functions typical of today’s offices. Upon completion, students should be able to display skills and decision-making abilities essential for functioning in the total office context.

OST 184 Records Management 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course includes the creation, maintenance, protection, security, and disposition of records stored in a variety of media forms. Topics include alphabetic, geographic, subject, and numeric filing methods. Upon completion, students should be able to set up and maintain a records management system. This course is also available through the Virtual Learning Community (VLC).

OST 165 Adv Text Editing Apps 02 02 00 03
Prerequisites: OST 134 and OST 164
Corequisites: None
Component: None
This course is designed to develop proficiency in advanced editing skills needed in the office environment. Emphasis is placed on the application of creating effective electronic office documents. Upon completion, students should be able to apply advanced editing skills to compose text. This course emphasizes the development of skills in composing and editing business communications that will exemplify the students ability to communicate effectively in an office environment.

OST 184 Records Management 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is designed to improve proficiency in the creation and management of records stored in a variety of media forms. Topics include alphabetic, geographic, subject, and numeric filing methods. Upon completion, students should be able to set up and maintain a records management system. This course is also available through the Virtual Learning Community (VLC).

OST 223 Admin Office Transcript I 02 02 00 02
Prerequisites: OST 164 and OST 134 or OST 136
Corequisites: None
Component: None
This course provides experience in transcribing documents. Emphasis is placed on appropriate formatting, advanced text editing skills, and transcription techniques. Upon completion, students should be able to transcribe office documents.

OST 224 Admin. Ofc Transcript II 01 02 00 02
Prerequisites: OST 223
Corequisites: None
Component: None
This course provides instruction and practice in advanced transcription skills. Emphasis is placed on specialized transcription features. Upon completion, students should be able to transcribe complex business documents.

OST 233 Office Publications Design 02 02 00 03
Prerequisites: OST 134, OST 136, and OST 137
Corequisites: None
Component: None
This course provides entry-level skills in using software with desktop publishing capabilities. Topics include principles of page layout, desktop publishing terminology and applications, and legal and ethical considerations of software use. Upon completion, students should be able to design and produce professional business documents and publications.

OST 236 Advanced Word/Information Processing 02 02 00 03
Prerequisites: OST 136
Corequisites: None
Component: None
This course develops proficiency in the utilization of advanced word/information processing functions. Emphasis is placed on advanced word processing features. Upon completion, students should be able to produce a variety of complex business documents. This course is also available through the Virtual Learning Community (VLC).

understand the importance of keeping abreast of technological changes that affect the office professional.

**OST 285 Adv Emerg Issu in Med Ofc**
- **03 00 00 03**
- **Prerequisites:** OST 281
- **Corequisites:** None
- **Component:** None

This course provides an advanced comprehensive discussion of topics familiar to the health care setting. Topics include advanced emerging issues in the health care setting. Upon completion, students should be able to demonstrate an understanding of advanced medical office procedures and treatments.

**OST 286 Professional Development**
- **03 00 00 03**
- **Prerequisites:** OST 134
- **Corequisites:** None
- **Component:** None

This course covers the personal competencies and qualities needed to project a professional image in the office. Topics include interpersonal skills, health lifestyles, appearance, attitude, personal and professional growth, multi-cultural awareness, and professional etiquette. Upon completion, students should be able to demonstrate these attributes in the classroom, office, and society.

**OST 289 Office Systems Management**
- **02 02 00 03**
- **Prerequisites:** OST 134, OST 136, OST 137, and OST 164
- **Corequisites:** None
- **Component:** None

This course is designed to be a capstone course for the office professional and provides a working knowledge of modern office procedures. Emphasis is placed on scheduling, telephone procedures, travel arrangements, event planning, office design, and ergonomics. Upon completion, students should be able to adapt in an office environment.

**PAD 151 Introduction to Public Administration**
- **03 00 00 03**
- **Prerequisites:** RED 080 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None

This course includes an overview of the role of the public administrator in government and an examination of the development and implementation of public policy. Topics include public personnel administration and management, decision making, public affairs, ethics, organizational theories, budgetary functions within governmental agencies, and other governmental issues. Upon completion, students should be able to explain the functions of government in society and in the lives of people composing that society. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.

**PAD 152 Ethics in Government**
- **03 00 00 03**
- **Prerequisites:** RED 080 or Placement Test Credit Equivalent
- **Corequisites:** None

Component: None

This course introduces the ethical issues and problems within the public administration field. Emphasis is placed on building analytical skills, stimulating moral imagination, and recognizing the discretionary power of the administrator’s role. Upon completion, students should be able to understand the moral dimensions of public administrative decision making. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.

**PAD 251 Public Finance & Budgeting**
- **03 00 00 03**
- **Prerequisites:** MAT 070 RED 090 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None

This course provides an overview of the public finance and budgeting processes used in the allocation of public resources to meet differing public interests. Topics include the political environment, government expenditures, revenues, taxation, budgetary process theories and techniques, and the relation of government finance to the economy. Upon completion, students should be able to recognize impacts of government revenue and expenditure policies and understand the role of budgeting in executing governmental policy. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.

**PAD 252 Public Policy Analysis**
- **03 00 00 03**
- **Prerequisites:** RED 090 or Placement Test Credit Equivalent
- **Corequisites:** None
- **Component:** None

This course is a study of methods and techniques used to determine the effectiveness of public programs. Emphasis is placed on the concept of ecology and environmental impact, informal groups and information networks, and the relationship between public and private sectors. Upon completion, students should be able to analyze case studies with the use of political analysis techniques. This course is a unique concentration requirement of the Public Administration concentration in the Business Administration program.

**PAD 253 Introduction to Urban Planning**
- **03 00 00 03**
- **Prerequisites:** PAD 251
- **Corequisites:** None
- **Component:** None

This course includes an analysis of current urban problems and the forces responsible for urban and regional growth. Topics include historical perspectives on the planning approach to urban phenomena and the evaluation of current proposals dealing with aspects of the urban situation. Upon completion, students should be able to evaluate urban and regional growth problems through case study analysis.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
PBT 100 Phlebotomy Technology
Prerequisites: None
Corequisites: PBT 101
Component: None
This course provides instruction in the skills needed for the proper collection of blood and other specimens used for diagnostic testing. Emphasis is placed on ethics, legalities, medical terminology, safety and universal precautions, health care delivery systems, patient relations, anatomy and physiology, and specimen collection. Upon completion, students should be able to demonstrate competence in the theoretical comprehension of phlebotomy techniques. This is a certificate-level course.

PBT 101 Phlebotomy Practicum
Prerequisites: None
Corequisites: PBT 100
Component: None
This course provides supervised experience in the performance of venipuncture and microcollection techniques in a clinical facility. Emphasis is placed on patient interaction and application of universal precautions, proper collection techniques, special procedures, specimen handling, and data management. Upon completion, students should be able to safely perform procedures necessary for specimen collections on patients in various health care settings. This is a certificate-level course.

PED 110 Fit and Well for Life
Prerequisites: None
Corequisites: None
Component: None
This course is an intermediate-level fitness class. Topics include specific exercises contributing to fitness and the role exercise plays in developing body systems. Upon completion, students should be able to implement and evaluate an individualized physical fitness program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 111 Physical Fitness I
Prerequisites: None
Corequisites: None
Component: None
This course provides an individualized approach to physical fitness utilizing the five major components. Emphasis is placed on the scientific basis for setting up and engaging in personalized physical fitness programs. Upon completion, students should be able to set up and implement an individualized physical fitness program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 112 Physical Fitness II
Prerequisites: PED 111
Corequisites: None
Component: None
This course is an intermediate-level fitness class. Topics include...
Course Descriptions

PED 117 Weight Training I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basics of weight training. Emphasis is placed on developing muscular strength, muscular endurance, and muscle tone. Upon completion, students should be able to establish and implement a personal weight training program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 118 Weight Training II
Prerequisites: PED 117
Corequisites: None
Component: None
This course covers advanced levels of weight training. Emphasis is placed on meeting individual training goals and addressing weight training needs and interests. Upon completion, students should be able to establish and implement an individualized advanced weight training program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 119 Circuit Training
Prerequisites: None
Corequisites: None
Component: None
This course covers the skills necessary to participate in a developmental fitness program. Emphasis is placed on the circuit training method which involves a series of conditioning timed stations arranged for maximum benefit and variety. Upon completion, students should be able to understand and appreciate the role of circuit training as a means to develop fitness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 120 Walking for Fitness
Prerequisites: None
Corequisites: None
Component: None
This course introduces fitness through walking. Emphasis is placed on stretching, conditioning exercises, proper clothing, fluid needs, and injury prevention. Upon completion, students should be able to participate in a recreational walking program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 121 Walk, Jog, Run
Prerequisites: None
Corequisites: None
Component: None
This course covers the basic concepts involved in safely and effectively improving cardiovascular fitness. Emphasis is placed on walking, jogging, or running as a means of achieving fitness. Upon completion, students should be able to understand and appreciate the benefits derived from these activities. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 122 Yoga I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic discipline of yoga. Topics include proper breathing, relaxation techniques, and correct body positions. Upon completion, students should be able to demonstrate the procedures of yoga. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 123 Yoga II
Prerequisites: PED 122
Corequisites: None
Component: None
This course introduces more detailed aspects of the discipline of yoga. Topics include breathing and physical postures, relaxation, and mental concentration. Upon completion, students should be able to demonstrate advanced procedures of yoga. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 124 Run, Swim, Cycle
Prerequisites: None
Corequisites: None
Component: None
This course introduces the sport of the triathlon. Topics include the rules, equipment, and skills necessary for the triathlon. Upon completion, students should be able to participate in a triathlon competition. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 125 Self-Defense-Beginning
Prerequisites: None
Corequisites: None
Component: None
This course is designed to aid students in developing rudimentary skills in self-defense. Emphasis is placed on stances, blocks, punches, and kicks as well as non-physical means of self-defense. Upon completion, students should be able to demonstrate basic self-defense techniques of a physical and non-physical nature. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 126 Self-Defense-Intermediate
Prerequisites: PED 125
Corequisites: None
Component: None
This course is designed to aid students in building on the techniques and skills developed in PED 125. Emphasis is placed...
on the appropriate psychological and physiological responses to various encounters. Upon completion, students should be able to demonstrate intermediate skills in self-defense stances, blocks, punches, and kick combinations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 128 Golf-Beginning 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course emphasizes the fundamentals of golf. Topics include the proper grips, stance, alignment, swings for the short and long game, putting, and the rules and etiquette of golf. Upon completion, students should be able to perform the basic golf shots and demonstrate a knowledge of the rules and etiquette of golf. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 129 Golf-Intermediate 00 02 00 01
Prerequisites: PED 128
Corequisites: None
Component: None
This course covers the more advanced phases of golf. Emphasis is placed on refining the fundamental skills and learning more advanced phases of the games such as club selection, trouble shots, and course management. Upon completion, students should be able to demonstrate the knowledge and ability to play a recreational round of golf. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 130 Tennis-Beginning 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course emphasizes the fundamentals of tennis. Topics include basic strokes, rules, etiquette, and court play. Upon completion, students should be able to play recreational tennis. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 131 Tennis-Intermediate 00 02 00 01
Prerequisites: PED 130
Corequisites: None
Component: None
This course emphasizes the refinement of playing skills. Topics include continuing the development of fundamentals, learning advanced serves, and strokes and pace and strategies in singles and doubles play. Upon completion, students should be able to play competitive tennis. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 132 Racquetball-Beginning 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of racquetball. Emphasis is placed on rules, fundamentals, and strategies of beginning racquetball. Upon completion, students should be able to play recreational racquetball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 133 Racquetball-Intermediate 00 02 00 01
Prerequisites: PED 132
Corequisites: None
Component: None
This course covers more advanced racquetball techniques. Emphasis is placed on refining basic skills, performing advanced shots, and playing strategies for singles and doubles. Upon completion, students should be able to play competitive racquetball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 135 Fencing-Beginning 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of fencing. Emphasis is placed on grip, stance, and establishment of good techniques for attacks and parries. Upon completion, students should be able to perform elementary foil techniques and demonstrate the basic skills of fencing. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 136 Fencing-Intermediate 00 02 00 01
Prerequisites: PED 135
Corequisites: None
Component: None
This course covers more advanced fencing techniques. Topics include advanced foil techniques and elementary sabre techniques. Upon completion, students should be able to participate in competitive fencing. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 137 Badminton 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamentals of badminton. Emphasis is placed on the basics of serving, clears, drops, drives, smashes, and the rules and strategies of singles and doubles. Upon completion, students should be able to apply these skills in playing situations.
This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 138 Archery**
- **HRS** 00 02 00 01
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course introduces basic archery safety and skills. Topics include proper techniques of stance, bracing, drawing, and releasing as well as terminology and scoring. Upon completion, students should be able to participate safely in target archery. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 139 Bowling-Beginning**
- **HRS** 00 02 00 01
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course introduces the fundamentals of bowling. Emphasis is placed on ball selection, grips, stance, and delivery along with rules and etiquette. Upon completion, students should be able to participate in recreational bowling. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 140 Bowling-Intermediate**
- **HRS** 00 02 00 01
- **Prerequisites:** PED 139
- **Corequisites:** None
- **Component:** None

This course covers more advanced bowling techniques. Emphasis is placed on refining basic skills and performing advanced shots, spins, pace, and strategy. Upon completion, students should be able to participate in competitive bowling. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 141 Tumbling and Gymnastics**
- **HRS** 00 02 00 01
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course introduces basic tumbling and gymnastic techniques. Topics include the safe use of gymnastic apparatus such as uneven bars, parallel bars, pommel horse, and balance beam. Upon completion, students should be able to demonstrate skills on selected pieces of apparatus. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 142 Lifetime Sports**
- **HRS** 00 02 00 01
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course is designed to give an overview of a variety of sports activities. Emphasis is placed on the skills and rules necessary to participate in a variety of lifetime sports. Upon completion, students should be able to demonstrate an awareness of the importance of participating in lifetime sports activities. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 143 Volleyball-Beginning**
- **HRS** 00 02 00 01
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course covers the fundamentals of volleyball. Emphasis is placed on the basics of serving, passing, setting, spiking, blocking, and the rules and etiquette of volleyball. Upon completion, students should be able to participate in recreational volleyball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 144 Volleyball-Intermediate**
- **HRS** 00 02 00 01
- **Prerequisites:** PED 143
- **Corequisites:** None
- **Component:** None

This course covers more advanced volleyball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to participate in competitive volleyball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 145 Basketball-Beginning**
- **HRS** 00 02 00 01
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course covers the fundamentals of basketball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon completion, students should be able to participate in recreational basketball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 146 Basketball-Intermediate**
- **HRS** 00 02 00 01
- **Prerequisites:** PED 145
- **Corequisites:** None
- **Component:** None

This course covers more advanced basketball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to play basketball at a competitive level. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 147 Soccer**
- **HRS** 00 02 00 01
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course introduces the basics of soccer. Emphasis is placed on rules, strategies, and fundamental skills. Upon completion, students should be able to participate in recreational soccer. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 148 Softball**

Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental skills and rules of softball. Emphasis is placed on proper techniques and strategies for playing softball. Upon completion, students should be able to participate in recreational softball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 149 Flag Football**

Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals and rules of flag football. Emphasis is placed on proper techniques and strategies for playing in game situations. Upon completion, students should be able to participate in recreational flag football. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 150 Baseball/Beginning**

Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamentals of baseball. Emphasis is placed on skill development, knowledge of the rules, and basic game strategy. Upon completion, students should be able to participate in recreational baseball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 151 Baseball/Intermediate**

Prerequisites: PED 150
Corequisites: None
Component: None
This course covers more advanced baseball techniques. Emphasis is placed on refining skills and developing more advanced strategies and techniques. Upon completion, students should be able to play baseball at a competitive level. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 152 Swimming-Beginning**

Prerequisites: None
Corequisites: None
Component: None
This course is designed for non-swimmers and beginners. Emphasis is placed on developing confidence in the water, learning water safety, acquiring skills in floating, and learning elementary strokes. Upon completion, students should be able to demonstrate safety skills and be able to tread water, back float, and use the crawl stroke for 20 yards. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 153 Swimming-Intermediate**

Prerequisites: PED 152
Corequisites: None
Component: None
This course is designed for those who have mastered basic swimming skills. Emphasis is placed on refining basic skills and learning new swim strokes. Upon completion, students should be able to demonstrate the four basic strokes, the scissors kick, the underwater swim, and other related skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 154 Swimming for Fitness**

Prerequisites: PED 152
Corequisites: None
Component: None
This course introduces lap swimming, aquacises, water activities, and games. Emphasis is placed on increasing cardiovascular efficiency through aquatic exercise. Upon completion, students should be able to develop an individualized aquatic fitness program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 155 Water Aerobics**

Prerequisites: None
Corequisites: None
Component: None
This course introduces rhythmic aerobic activities performed in water. Emphasis is placed on increasing cardiovascular fitness levels, muscular strength, muscular endurance, and flexibility. Upon completion, students should be able to participate in an individually-paced exercise program. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 156 Scuba Diving**

Prerequisites: PED 153
Corequisites: None
Component: None
This course provides basic instruction in fundamental skills and safety procedures for scuba diving. Emphasis is placed on the history, theory, and principles of diving; development of diving skills; safety; and care and maintenance of equipment. Upon completion, students should be able to demonstrate skills,
knowledge, and techniques of scuba diving in preparation for diver certification. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 158 Whitewater Rafting  00 02 00 01
Prerequisites: PED 152
Corequisites: None
Component: None
This course covers the skills necessary to safely participate in whitewater rafting. Topics include raft guiding, paddling skills, scouting rapids, and rigging boats. Upon completion, students should be able to successfully complete a whitewater rafting experience. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 160 Canoeing-Basic  00 02 00 01
Prerequisites: PED 152
Corequisites: None
Component: None
This course provides basic instruction for the beginning canoeist. Emphasis is placed on safe and correct handling of the canoe and rescue skills. Upon completion, students should be able to demonstrate basic canoeing, safe-handling, and self-rescue skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 161 Canoeing-Rivers  00 02 00 01
Prerequisites: PED 160
Corequisites: None
Component: None
This course provides practice in the basic skills of river and whitewater canoeing. Emphasis is placed on river running, safety, and care of equipment. Upon completion, students should be able to demonstrate navigation in a moving current, canoe safety, and self-rescue skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 163 Kayaking-Basic  00 02 00 01
Prerequisites: PED 152
Corequisites: None
Component: None
This course is designed to teach the basic skills of kayaking. Topics include forward and reverse strokes, sweeps, Eskimo roll, and self-rescue skills. Upon completion, students should be able to maneuver and demonstrate safe kayaking practices. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 164 Kayaking-Whitewater  00 02 00 01
Prerequisites: PED 163
Corequisites: None
Component: None
This course covers the skills necessary to safely negotiate Class II and some Class III rapids. Topics include execution of a river roll, maneuvering, rescuing and retrieving kayaker and equipment. Upon completion, students should be able to safely negotiate Class II and some Class III rapids and perform all rescue skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Course Descriptions  277

PED 165 Sport Science as a Career  03 00 00 03
Prerequisites: ENG 090 and RED 090
Corequisites: None
Component: None
This course provides students with foundational knowledge about the study of physical activity and career opportunities within the discipline. Emphasis will be placed on the role of physical activity, the subdisciplines of the field, and possible career choices. Upon completion, students should have an understanding of the subdisciplines and employment opportunities within an Exercise and Sport Science Program. This course has been approved by the Transfer Advisory Committee to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

PED 169 Orienteering  00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course introduces the various types of orienteering and proper orienteering techniques. Emphasis is placed on defining various types of orienteering and recognizing and drawing topographic map symbols. Upon completion, students should be able to draw topographic map symbols and negotiate a 3-5 km cross-country orienteering course in a specified time period. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 170 Backpacking  00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course covers the proper techniques for establishing a campsite, navigating in the wilderness, and planning for an overnight trip. Topics include planning for meals, proper use of maps and compass, and packing and dressing for extended periods in the outdoors. Upon completion, students should be able to identify quality backpacking equipment, identify the principles of no-trace camping, and successfully complete a backpacking experience. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.
Course Descriptions

PED 171 Nature Hiking
Prerequisites: None
Corequisites: None
Component: None
This course provides instruction on how to equip and care for oneself on the trail. Topics include clothing, hygiene, trail ethics, and necessary equipment. Upon completion, students should be able to successfully participate in nature trail hikes. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 172 Outdoor Living
Prerequisites: None
Corequisites: None
Component: None
This course is designed to acquaint the beginning camper with outdoor skills. Topics include cooking and preserving food, safety, and setting up camp. Upon completion, students should be able to set up camp sites in field experiences using proper procedures. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 173 Rock Climbing
Prerequisites: None
Corequisites: None
Component: None
This course teaches the fundamental skills and safety of rock climbing. Topics include rock climbing, bouldering, rappelling, the correct method of belaying for climbing and rappelling, and knowledge of equipment. Upon completion, students should be able to demonstrate strong and skillful techniques in climbing and rappelling. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 175 Horseback Riding I
Prerequisites: None
Corequisites: None
Component: None
This course introduces beginning and non-riders to recreational horseback riding. Topics include riding skills, equipment, handling of horses, mounting, care of the horse, and coordinated horse-rider balance. Upon completion, students should be able to demonstrate riding, safety, and horse management skills. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 176 Horseback Riding II
Prerequisites: PED 175
Corequisites: None
Component: None
This course is designed to give advanced riding experiences in a variety of specialized situations. Emphasis is placed on the development of skills such as jumping, rodeo games, and trail riding. Upon completion, students should be able to demonstrate control and management of the horse and perform various riding techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 181 Snow Skiing-Beginning
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of snow skiing. Topics include basic techniques, safety, and equipment involved in snow skiing. Upon completion, students should be able to ski a down slope, enter and exit a ski lift, and perform basic maneuvers on skis. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 182 Snow Skiing Intermediate
Prerequisites: PED 181
Corequisites: None
Component: None
This course is designed to further develop snow skiing skills. Topics include selection and care of equipment, parallel skiing and turns, christies, advanced jumps, trail skiing, and slalom racing. Upon completion, students should be able to ski on varying terrains and snow conditions with control and safety. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 183 Folk Dancing
Prerequisites: None
Corequisites: None
Component: None
This course teaches the fundamental folk dance movements along with cultural traditions from various countries. Emphasis is placed on the history and traditions of the folk dance as well as the movements and the dances themselves. Upon completion, students should be able to demonstrate folk dances as well as knowledge of their origins and cultural traditions. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 184 Square Dancing I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the terminology and skills necessary to perform square dancing. Topics include working from squared sets-squared circles to squared throughs, right and left throughs, and Dixie Chains. Upon completion, students should be able to perform square dance routines and recognize the calls made for all formations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.
**PED 185 Square Dancing II**

**Prerequisites:** PED 184

**Corequisites:** None

**Component:** None

This course includes additional variations and forms of square dancing. Topics include such routines as turns, grand swing, triple trades, wheel and deal, T-cup chain, and arky change. Upon completion, students should be able to demonstrate and perform country and western square dance routines. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 186 Dancing for Fitness**

**Prerequisites:** None

**Corequisites:** None

**Component:** None

This course is designed to develop movement and recreational dance skills, safety, fitness, coordination, and techniques used to teach various groups. Emphasis is placed on participation and practice with adapting dances for ages and ability levels. Upon completion, students should be able to demonstrate knowledge of fitness through social, folk, and square dance participation and instruction. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 187 Social Dance-Beginning**

**Prerequisites:** None

**Corequisites:** None

**Component:** None

This course introduces the fundamentals of popular social dances. Emphasis is placed on basic social dance techniques, dances, and a brief history of social dance. Upon completion, students should be able to demonstrate specific dance skills and perform some dances. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 188 Social Dance-Intermediate**

**Prerequisites:** PED 187

**Corequisites:** None

**Component:** None

This course covers advanced fundamentals of social dancing. Topics include rhythm, appearance, and routine sequence. Upon completion, students should be able to perform more difficult steps and types of dances. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 210 Team Sports**

**Prerequisites:** None

**Corequisites:** None

**Component:** None

This course introduces the fundamentals of popular American team sports. Emphasis is placed on rules, equipment, and motor skills used in various sports. Upon completion, students should be able to demonstrate knowledge of the sports covered. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 211 New Games**

**Prerequisites:** None

**Corequisites:** None

**Component:** None

This course includes explanation, demonstration, and participation in games that provide an alternative to traditional sports. Emphasis is placed on playing for pleasure rather than for competitive purposes. Upon completion, students should be able to participate and lead others in participating in non-competitive games. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 217 Pilates I**

**Prerequisites:** None

**Corequisites:** None

**Component:** None

This course provides an introduction to the pilates method of body conditioning exercise. Topics include instruction in beginning and intermediate pilates exercises using a mat or equipment, history of the pilates method, and relevant anatomy and physiology. Upon completion, students should be able to perform beginning and intermediate exercises, and possess an understanding of the benefits of conditioning the body’s core muscles. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**PED 218 Pilates II**

**Prerequisites:** PED 217

**Corequisites:** None

**Component:** None

This course provides continued instruction in the pilates method of body conditioning exercise. Topics include instruction in intermediate and advanced pilates exercises using a mat or equipment, relevant anatomy and physiology, and further discussion of related concepts. Upon completion, students should be able to perform intermediate and advanced exercises, and possess the autonomy to maintain their own personal pilates practice. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**PED 220 Exercise for Physically Challenged**

**Prerequisites:** None

**Corequisites:** None

**Component:** None

This course is designed to improve physical strength, endurance, and range of motion while focusing on individual needs. Emphasis is placed on exercises which are designed and adapted to serve

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
those with special needs. Upon completion, students should be able to show improved physical fitness, body awareness, and an appreciation for their physical well-being. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 240 Advanced PE Skills 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course provides those who have mastered skills in a particular physical education area the opportunity to assist with instruction. Emphasis is placed on methods of instruction, class organization, and progressive skill development. Upon completion, students should be able to design, develop, and implement a unit lesson plan for a skill they have mastered. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 250 Officiating/Basketball/Volleyball 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the rules and techniques for sports officiating in basketball and volleyball. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in basketball and volleyball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 251 Officiating/Football/Soccer 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the rules and techniques for sports officiating in football and soccer. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in football and soccer. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 252 Officiating/Baseball/Softball 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the rules and techniques for sports officiating in baseball and softball. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in baseball and softball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 254 Coaching Basketball 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and methods of coaching basketball. Emphasis is placed on rules, game strategies, and selected techniques of coaching basketball. Upon completion, students should be able to demonstrate competent coaching skills in basketball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 255 Coaching Football 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and methods of coaching football. Emphasis is placed on rules, game strategies, and selected techniques of coaching football. Upon completion, students should be able to demonstrate competent coaching skills in football. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 256 Coaching Baseball 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and methods of coaching baseball. Emphasis is placed on rules, game strategies, and selected techniques of coaching baseball. Upon completion, students should be able to demonstrate competent coaching skills in baseball. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 257 Coaching Soccer 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and methods of coaching soccer. Emphasis is placed on rules, game strategies, and selected techniques of coaching soccer. Upon completion, students should be able to demonstrate competent coaching skills in soccer. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PED 259 Prevention & Care of Athletic Injuries 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course provides information on the prevention and care of athletic injuries. Topics include safety devices, taping, therapeutic techniques, and conditioning exercises. Upon completion, students should be able to demonstrate proper preventive measures and skills in caring for athletic injuries. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PED 260 Lifeguard Training**

Prerequisites: PED 153  
Corequisites: None  
Component: None  
This course introduces the skills, knowledge, and techniques of lifesaving and lifeguarding. Topics include identifying and minimizing aquatic hazards, recognizing and effectively rescuing people in distress, and developing safety skills. Upon completion, students should be able to demonstrate skills, knowledge, and techniques of lifesaving and lifeguarding to pass American Red Cross lifeguarding certification. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**PET 110 Introduction to PET**

Prerequisites: Departmental Approval  
Corequisites: None  
Component: None  
This course introduces the students to the Positron Emission Tomography profession. Topics include the history of the profession and the role of the PET technologist, medical ethics and legal issues, and department organizations. Upon completion, students should be able to demonstrate a basic understanding of the PET profession through computerized exams and projects.

**PET 112 PET Procedures**

Prerequisites: Departmental Approval  
Corequisites: None  
Component: None  
This course covers the procedures of Positron Emission Tomography. Topics include all relevant procedures related to PET imaging with an emphasis placed on oncology, neurology and cardiology. Upon completion, students should be able to demonstrate competence in PET procedures through computerized exams and projects.

**PHI 210 History of Philosophy**

Prerequisites: ENG 111  
Corequisites: None  
Component: None  
This course introduces fundamental philosophical issues through an historical perspective. Emphasis is placed on such figures as Plato, Aristotle, Lao-Tzu, Confucius, Augustine, Aquinas, Descartes, Locke, Kant, Wollstonecraft, Nietzsche, and Sartre. Upon completion, students should be able to identify and distinguish among the key positions of the philosophers studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**PHI 215 Philosophical Issues**

Prerequisites: ENG 111  
Corequisites: None  
Component: None  
This course introduces fundamental issues in philosophy considering the views of classical and contemporary philosophers. Emphasis is placed on knowledge and belief, appearance and reality, determinism and free will, faith and reason, and justice and inequality. Upon completion, students should be able to identify, analyze, and critique the philosophical components of an issue. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**PHI 220 Western Philosophy I**

Prerequisites: ENG 111  
Corequisites: None  
Component: None  
This course covers Western intellectual and philosophic thought from the early Greeks through the medievalists. Emphasis is placed on such figures as the pre-Socratics, Plato, Aristotle, Epicurus, Epictetus, Augustine, Suarez, Anselm, and Aquinas. Upon completion, students should be able to trace the development of leading ideas regarding reality, knowledge, reason, and faith. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**PHI 221 Western Philosophy II**

Prerequisites: ENG 111  
Corequisites: None  
Component: None  
This course covers Western intellectual and philosophic thought from post-medievalists through recent thinkers. Emphasis is placed on such figures as Descartes, Spinoza, Leibnitz, Locke, Berkeley, Hume, Kant, Hegel, Marx, Mill, and representatives of pragmatism, logical positivism, and existentialism. Upon completion, students should be able to trace the development of leading ideas concerning knowledge, reality, science, society, and the limits of reason. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**PHI 230 Introduction to Logic**

Prerequisites: ENG 111  
Corequisites: None  
Component: None  
This course introduces basic concepts and techniques for distinguishing between good and bad reasoning. Emphasis is placed on deduction, induction, validity, soundness, syllogisms, truth functions, predicate logic, analogical inference, common fallacies, and scientific methods. Upon completion, students should be able to analyze arguments, distinguish between deductive and inductive arguments, test validity, and appraise

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
inductive reasoning. This course has been approved to satisfy the Comprehensive Articulation general education core requirement in humanities/fine arts.

PHI 240 Introduction to Ethics 03 00 00 03
Prerequisites: ENG 111
Corequisites: None
Component: None
This course introduces theories about the nature and foundations of moral judgments and applications to contemporary moral issues. Emphasis is placed on utilitarianism, rule-based ethics, existentialism, relativism versus objectivism, and egoism. Upon completion, students should be able to apply various ethical theories to individual moral issues such as euthanasia, abortion, crime and punishment, and justice. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

PHM 110 Introduction to Pharmacy 03 00 00 03
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course introduces pharmacy practice and the technician’s role in a variety of pharmacy settings. Topics include medical terminology and abbreviations, drug delivery systems, law and ethics, prescription and medication orders, and the health care system. Upon completion, students should be able to explain the role of pharmacy technicians, read and interpret drug orders, describe quality assurance, and utilize pharmacy references.

PHM 111 Pharmacy Practice I 03 03 00 04
Prerequisites: Departmental Approval
Corequisites: PHM 110 and PHM 115
Component: None
This course provides instruction in the technical procedures for preparing and dispensing drugs in the hospital and retail settings under supervision of a registered pharmacist. Topics include drug packaging and labeling, out-patient dispensing, hospital dispensing procedures, controlled substance procedures, inventory control, and non-sterile compounding. Upon completion, students should be able to perform basic supervised dispensing techniques in a variety of pharmacy settings.

PHM 115 Pharmacy Calculations 03 00 00 03
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course provides an introduction to the metric, avoirdupois, and apothecary systems of measurement and the calculations used in pharmacy practice. Topics include ratio and proportion, dosage determinations, percentage preparations, reducing and enlarging formulas, dilution and concentration, aliquots, specific gravity and density, and flow rates. Upon completion, students should be able to correctly perform calculations required to properly prepare a medication order.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
under a pharmacist’s supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers.

**PHM 136 Pharmacy Clinical** 00 00 18 06
Prerequisites: PHM 110, PHM 111 and PHM 115
Corequisites: PHM 118, PHM 120 and PHM 155
Component: None
This course provides an opportunity to work in pharmacy settings under a pharmacist’s supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers.

**PHM 140 Trends in Pharmacy** 02 00 00 02
Prerequisites: PHM 136
Corequisites: PHM 125
Component: None
This course covers the major issues, trends, and concepts in contemporary pharmacy practice. Topics include professional ethics, continuing education, job placement, and the latest developments in pharmacy technician practice. Upon completion, students should be able to demonstrate a basic knowledge of the topics discussed.

**PHM 155 Community Pharmacy** 02 02 00 03
Prerequisites: PHM 110, PHM 111 and PHM 115
Corequisites: PHM 118, PHM 120, and PHM 136
Component: None
This course covers the operational procedures relating to retail pharmacy. Emphasis is placed on a general knowledge of over-the-counter products, prescription processing, business/inventory management, and specialty patient services. Upon completion, students should be able to provide technical assistance and support to the retail pharmacist.

**PHM 165 Pharmacy Prof Practice** 02 00 00 02
Prerequisites: None
Corequisites: None
Component: None
This course provides a general overview of all aspects of pharmacy technician practice. Emphasis is placed on pharmacy law, calculations, compounding, pharmacology, and pharmacy operations. Upon completion, students should be able to demonstrate competence in the areas required for the Pharmacy Technician Certification Examination.

**PHS 110 Survey of Phys Science** 03 02 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces the physical environment with emphasis on the laws and physical concepts that impact the world and universe. Topics include astronomy, geology, meteorology, general chemistry, and general physics. Upon completion, students should be able to describe the forces and composition of the earth and universe. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PHS 121 Applied Physical Science I** 03 02 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces the general principles of physics and chemistry. Topics include measurement, motion, Newton’s laws of motion, momentum, energy, work, power, heat, thermodynamics, waves, sound, light, electricity, magnetism, and chemical principles. Upon completion, students should be able to demonstrate an understanding of the physical environment and be able to apply the scientific principles to observations experienced. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PHS 122 Applied Physical Science II** 03 02 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces the principles of nuclear energy, modern physics, geology, oceanography, meteorology, and astronomy. Topics include nuclear chemistry, relativity, composition of the earth, geologic processes and time, ocean currents and tides, eroding beaches, climate, weather, atmospheric influences, and the solar system. Upon completion, students should be able to demonstrate an understanding of the physical environment and be able to apply the scientific principles to observations experienced. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PHS 130 Earth Science** 03 02 00 04
Prerequisites: None
Corequisites: None
Component: None
This course is a survey of the forces that impact the earth. Topics include geology, oceanography, and meteorology. Upon completion, students should be able to explain and identify the forces within, on, and around the earth as they influence the earth’s dynamics. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**PHS 140 Weather and Climate** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course introduces the nature, origin, processes, and dynamics of the earth’s atmospheric environment. Topics include general weather patterns, climate, and ecological influences on the atmosphere. Upon completion, students should be able to demonstrate an understanding of weather formation, precipitation, storm patterns, and processes of atmospheric pollution. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PHY 110 Conceptual Physics**
Prequisites: None
Corequisites: None
Component: None
This course provides a conceptually-based exposure to the fundamental principles and processes of the physical world. Topics include basic concepts of motion, forces, energy, heat, electricity, magnetism, and the structure of matter and the universe. Upon completion, students should be able to describe examples and applications of the principles studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**PHY 110A Conceptual Physics Lab**
Prequisites: None
Corequisites: PHY 110
Component: None
This course is a laboratory for PHY 110. Emphasis is placed on laboratory experiences that enhance materials presented in PHY 110. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in PHY 110. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**PHY 121 Applied Physics I**
Prequisites: None
Corequisites: None
Component: None
This algebra-based course introduces fundamental physical concepts as applied to industrial and service technology fields. Topics include systems of units, problem-solving methods, graphical analysis, vectors, motion, forces, Newton’s laws of motion, work, energy, power, momentum, and properties of matter. Upon completion, students should be able to demonstrate an understanding of the principles studied as applied in industrial and service fields.

**PHY 122 Applied Physics II**
Prequisites: None
Corequisites: None
Component: None
This algebra-based course introduces fundamental physical concepts as applied to industrial and service technology fields. Emphasis is placed on systems of units, problem-solving methods, graphical analysis, static electricity, AC and DC circuits, magnetism, transformers, AC and DC motors, and generators. Upon completion, students should be able to demonstrate an understanding of the principles studied as applied in industrial and service fields.

**PHY 125 Health Sciences Physics**
Prequisites: None
Corequisites: None
Component: None
This course introduces fundamental physical principles as they apply to health technologies. Topics include motion, force, work, power, simple machines, and other topics as required by the students’ area of study. Upon completion, students should be able to demonstrate an understanding of the fundamental principles covered as they relate to practical applications in the health sciences.

**PHY 131 Physics-Mechanics**
Prequisites: MAT 121, MAT 161, MAT 171 OR MAT 175
Corequisites: None
Component: None
This algebra/trigonometry-based course introduces fundamental physical concepts as applied to engineering technology fields. Topics include systems of units, problem-solving methods, graphical analysis, vectors, motion, forces, Newton’s laws of motion, work, energy, power, momentum, and properties of matter. Upon completion, students should be able to apply the principles studied to applications in engineering technology fields.

**PHY 132 Physics-Electricity & Magnetism**
Prequisites: PHY 131
Corequisites: None
Component: None
This algebra/trigonometry-based course is a study of fundamental physical concepts as applied to engineering technology fields. Topics include systems of units, problem-solving methods, graphical analysis, waves, electricity, magnetism, circuits, transformers, motors, and generators. Upon completion, students should be able to apply the principles studied to applications in engineering technology fields.

**PHY 151 College Physics I**
Prequisites: MAT 161, MAT 171 OR MAT 175
Corequisites: None
Component: None
This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vectors, linear kinematics and dynamics, energy, power, momentum, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Articulation Agreement general education core requirement in natural sciences/mathematics.

**PHY 152 College Physics II**

Prerequisites: PHY 151
Corequisites: None
Component: None

This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**PHY 153 Modern Topics in Physics**

Prerequisites: PHY 151
Corequisites: None
Component: None

This course uses algebra- and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include atomic structure, nuclear processes, natural and artificial radioactivity, basic quantum theory, and special relativity. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**PHY 251 General Physics I**

Prerequisites: MAT 271
Corequisites: MAT 272
Component: None

This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vector operations, linear kinematics and dynamics, energy, power, momentum, rotational mechanics, periodic motion, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**PHY 252 General Physics II**

Prerequisites: MAT 272 and PHY 251
Corequisites: None
Component: None

This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**PHY 253 Modern Physics**

Prerequisites: PHY 251
Corequisites: None
Component: None

This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include atomic structure, nuclear processes, natural and artificial radioactivity, quantum theory, and special relativity. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
problems related to water, drain and vent lines, water heaters, and plumbing fixtures. Upon completion, students should be able to identify and diagnose needed repairs to the plumbing system.

**PLU 140 Introduction to Plumbing Codes**
Prerequisites: None
Corequisites: None
Component: None
This course covers plumbing industry codes and regulations. Emphasis is placed on North Carolina regulations and the minimum requirements for plumbing materials and design. Upon completion, students should be able to research and interpret North Carolina plumbing codes.

**PLU 150 Plumbing Diagrams**
Prerequisites: PLU 110
Corequisites: None
Component: None
This course introduces sketching diagrams and interpretation of blueprints applicable to the plumbing trades. Emphasis is placed on plumbing plans for domestic and/or commercial buildings. Upon completion, students should be able to sketch plumbing diagrams applicable to the plumbing trades.

**POL 110 Introduction to Political Science**
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces basic political concepts used by governments and addresses a wide range of political issues. Topics include political theory, ideologies, legitimacy, and sovereignty in democratic and non-democratic systems. Upon completion, students should be able to discuss a variety of issues inherent in all political systems and draw logical conclusions in evaluating these systems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**POL 120 American Government**
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a study of the origins, development, structure, and functions of American national government. Topics include the constitutional framework, federalism, the three branches of government including the bureaucracy, civil rights and liberties, political participation and behavior, and policy formation. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**POL 130 State & Local Government**
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers state and local political institutions and practices in the context of American federalism. Emphasis is placed on procedural and policy differences as well as political issues in state, regional, and local governments of North Carolina. Upon completion, students should be able to identify and discuss various problems associated with intergovernmental politics and their effect on the community and the individual. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**POL 210 Comparative Government**
Prerequisites: ENG-111
Corequisites: None
Component: None
This course provides a cross-national perspective on the government and politics of contemporary nations such as Great Britain, France, Germany, and Russia. Topics include each country’s historical uniqueness, key institutions, attitudes and ideologies, patterns of interaction, and current political problems. Upon completion, students should be able to identify and compare various nations’ governmental structures, processes, ideologies, and capacity to resolve major problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**POL 220 International Relations**
Prerequisites: ENG-111
Corequisites: None
Component: None
This course provides a study of the effects of ideologies, trade, armaments, and alliances on relations among nation-states. Emphasis is placed on regional and global cooperation and conflict, economic development, trade, non-governmental organizations, and international institutions such as the World Court and UN. Upon completion, students should be able to identify and discuss major international relationships, institutions, and problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**POR 111 Elementary Portuguese I**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of the Portuguese language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written
Portuguese and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**POR 112 Elementary Portuguese II**  
**Class:** 03  
**Lab:** 00  
**Clinic:** 00  
**Credit:** 03  

**Prerequisites:** POR 111  
**Corequisites:** None  
**Component:** None  

This course is a continuation of POR 111 focusing on the fundamental elements of the Portuguese language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Portuguese and demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**POR 211 Intermediate Portuguese I**  
**Class:** 03  
**Lab:** 00  
**Clinic:** 00  
**Credit:** 03  

**Prerequisites:** POR 112  
**Corequisites:** None  
**Component:** None  

This course provides a review and expansion of the essential skills of the Portuguese language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**POR 212 Intermediate Portuguese II**  
**Class:** 03  
**Lab:** 00  
**Clinic:** 00  
**Credit:** 03  

**Prerequisites:** POR 211  
**Corequisites:** None  
**Component:** None  

This course provides a continuation of POR 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**POS 115 Processing and Distribution**  
**Class:** 03  
**Lab:** 00  
**Clinic:** 00  
**Credit:** 03  

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course covers the steps involved in reviewing, processing, and dispatching all classes and types of mail. Topics include quality control, platform operation, dispatch discipline, automation and mechanization, mail flow, manual operations, mail preparation, and premium service. Upon completion, students should be able to explain the flow of mail from sender to receiver and the importance of service standards.

**POS 120 Postal Operations Support**  
**Class:** 03  
**Lab:** 00  
**Clinic:** 00  
**Credit:** 03  

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course covers in-plant support and customer services operations programs support. Topics include quality improvement, address management systems, transportation and networks, delivery services, mail processing, bar coding, and automation sort plans. Upon completion, students should be able to explain postal mechanization, machine distribution, operational planning, budgeting, and functional coordination with customer services.

**POS 125 Postal Delivery/Collection**  
**Class:** 03  
**Lab:** 00  
**Clinic:** 00  
**Credit:** 03  

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course is an in-depth study of delivery, collection, and Function-Four review. Topics include carrier responsibilities, delivery and collection rules, time keeping, equipment and supplies, mail count and route inspection, parcel post, and Function-Four review. Upon completion, students should be able to explain the duties and skills required in the carrier crafts, the management of delivery services, and staffing and scheduling audits.

**POS 130 POS Support &Finance**  
**Class:** 03  
**Lab:** 00  
**Clinic:** 00  
**Credit:** 03  

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course covers information and procedures necessary to administer financial control of post offices. Topics include protecting funds and accountable paper, recording receipts and disbursements, verifying accountability, postal service reports, and controlling receipts and receipt forms. Upon completion, students should be able to explain postal revenue receipt and control, budgeting, financial accounting/reporting, time keeping, travel regulations, and administrative services.

**POS 135 Officer-in-Charge Training**  
**Class:** 03  
**Lab:** 00  
**Clinic:** 00  
**Credit:** 03  

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course covers the duties of a window clerk. Topics include
window services, image and customer relations, one-on-one selling, postage meters, mail classifications, claims and inquiry, and daily financial reporting. Upon completion, students should be able to explain effective customer relations, retailing postal products, professional window service operations, and the duties of customer service representatives.

**PSY 101 Applied Psychology** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic principles of psychology as they apply to daily life. Topics include perception, emotions, motivation, adjustment, behavior management, communication, and related topics that promote growth and development on the job and in one’s personal life. Upon completion, students should be able to apply the principles learned in this class to everyday living. This course is intended for certificate and diploma programs.

**PSY 110 Life Span Development** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to the study of human growth and development. Emphasis is placed on the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span and apply this knowledge to their specific field of study.

**PSY 118 Interpersonal Psychology** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic principles of psychology as they relate to personal and professional development. Emphasis is placed on personality traits, communication/leadership styles, effective problem solving, and cultural diversity as they apply to personal and work environments. Upon completion, students should be able to demonstrate an understanding of these principles of psychology as they apply to personal and professional development.

**PSY 141 Psychology of Death and Dying** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course presents psychological perspectives on death and dying. Topics include the culturally diverse aspects of death and the grieving process, adjustment mechanisms, interventions, and the psychological and ethical dimensions of death and dying. Upon completion, students should be able to demonstrate an understanding of the psychosocial aspects of death and dying.

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
PSY 241 Developmental Psychology 03 00 00 03
Prerequisites: PSY 150
Corequisites: None
Component: None
This course is a study of human growth and development. Emphasis is placed on major theories and perspectives as they relate to the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

PSY 243 Child Psychology 03 00 00 03
Prerequisites: PSY 150
Corequisites: None
Component: None
This course provides an overview of physical, cognitive, and psychosocial development from conception through adolescence. Topics include theories and research, interaction of biological and environmental factors, language development, learning and cognitive processes, social relations, and moral development. Upon completion, students should be able to identify typical and atypical childhood behavior patterns as well as appropriate strategies for interacting with children. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 246 Adolescent Psychology 03 00 00 03
Prerequisites: PSY 150
Corequisites: None
Component: None
This course provides an overview of the behavior patterns, life changes, and social issues that accompany the developmental stage of adolescence. Topics include developmental theories; physical, cognitive, and psychosocial growth; transitions to young adulthood; and sociocultural factors that influence adolescent roles in home, school and community. Upon completion, students should be able to identify typical and atypical adolescent behavior patterns as well as appropriate strategies for interacting with adolescents. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 247 Psychology of Adulthood 03 00 00 03
Prerequisites: PSY 150
Corequisites: None
Component: None
This course examines the major theories and patterns of adult development from young adulthood to late adulthood. Topics include physical, cognitive, and psychosocial changes with an emphasis on relationships, family patterns, work roles, community interactions, and the challenges of each stage of adulthood. Upon completion, students should be able to demonstrate a knowledge of adult development and an ability to apply this knowledge to their own lives. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 249 Psychology of Aging 03 00 00 03
Prerequisites: PSY 150
Corequisites: None
Component: None
This course covers the particular needs and behaviors of the maturing adult. Emphasis is placed on psychosocial processes; biological and intellectual aspects of aging; adjustments to retirement, dying, bereavement; and the stereotypes and misconceptions concerning the elderly. Upon completion, students should be able to show an understanding of the psychological factors related to the aging process. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 255 Introduction to Exceptionality 03 00 00 03
Prerequisites: PSY 150
Corequisites: None
Component: None
This course introduces the psychology of the exceptional person. Topics include theoretical perspectives, terminology, and interventions pertaining to various handicapping conditions as well as the resulting psychosocial adjustments. Upon completion, students should be able to demonstrate a basic understanding of the potentials and limitations of the exceptional person.

PSY 259 Human Sexuality 03 00 00 03
Prerequisites: PSY 150
Corequisites: None
Component: None
This course provides the biological, psychological, and sociocultural aspects of human sexuality and related research. Topics include reproductive biology, sexual and psychosexual development, sexual orientation, contraception, sexually transmitted diseases, sexual disorders, theories of sexuality, and related issues. Upon completion, students should be able to demonstrate an overall knowledge and understanding of human sexuality. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

PSY 263 Educational Psychology 03 00 00 03
Prerequisites: PSY 150
Corequisites: None
Component: None
This course examines the application of psychological theories and principles to the educational process and setting. Topics include learning and cognitive theories, achievement motivation, teaching and learning styles, teacher and learner roles, assessment, and developmental issues. Upon completion, students should be able to demonstrate an understanding of the application of psychological theory to educational practice. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
**Course Descriptions**

**PSY 265 Behavioral Modification**
Prerequisites: PSY 150
Corequisites: None
Component: None
This course is an applied study of factors influencing human behavior and strategies for behavioral change. Emphasis is placed on cognitive-behavioral theory, behavioral assessment, practical applications of conditioning techniques, and maintenance of adaptive behavior patterns. Upon completion, students should be able to implement basic learning principles to effect behavioral changes in self and others.

**PSY 271 Sports Psychology**
Prerequisites: PSY 150
Corequisites: None
Component: None
This course provides an overview of the field of sports and exercise psychology. Topics include concentration, goal setting, arousal level, exercise psychology, mental imagery, confidence, and other issues related to sport and exercise performance. Upon completion, students should be able to demonstrate a knowledge of psychological factors involved in sport and exercise. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PSY 275 Health Psychology**
Prerequisites: PSY 150
Corequisites: None
Component: None
This course covers the biopsychosocial dynamics of stress and the maintenance of good health. Topics include enhancing health and well-being, stress management, lifestyle choices and attitudes, the mind-body relationship, nutrition, exercise, and fitness. Upon completion, students should be able to demonstrate an understanding of the psychological factors related to health and well-being. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**PSY 281 Abnormal Psychology**
Prerequisites: PSY 150
Corequisites: None
Component: None
This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**PTA 110 Introduction to Physical Therapy**
Prerequisites: Departmental Approval
Corequisites: PHY 125 and PTA 130
Component: None
This course introduces the field of physical therapy including the history and standards of practice for the physical therapist assistant and basic treatment techniques. Emphasis is placed on ethical and legal considerations, universal precautions, vital signs, documentation, basic patient preparation and treatment skills, and architectural barrier screening. Upon completion, students should be able to explain the role of the physical therapist assistant and demonstrate competence in basic techniques of patient care.

**PTA 120 Functional Anatomy**
Prerequisites: PTA 110
Corequisites: PTA 140 and PTA 150
Component: None
This course provides an organized study of anatomy and kinesiology. Emphasis is placed on the integration of structure and function of the skeletal, articular, muscular, nervous, and circulatory systems to include gait analysis. Upon completion, students should be able to describe the components and demonstrate function of these systems as applied to physical therapy.

**PTA 130 Physical Therapy Procedures I**
Prerequisites: None
Corequisites: PHY 125 and PTA 110
Component: None
This course includes concepts of injury and repair and documentation methods. Emphasis is placed on physiological effects, indications, contraindications, and skilled applications of selected therapeutic modalities. Upon completion, students should be able to safely, correctly, and effectively apply the emphasized techniques and procedures with understanding of correct documentation.

**PTA 140 Therapeutic Exercise**
Prerequisites: PTA 110
Corequisites: PTA 120 and PTA 150
Component: None
This course covers muscle physiology, exercise concepts, testing, and applications to the spine and extremities. Topics include strength, endurance, flexibility, and exercise protocols and progressions. Upon completion, students should be able to demonstrate skill in applying therapeutic exercise principles for non-neurological conditions in a safe and appropriate manner.

**PTA 150 Physical Therapy Procedures II**
Prerequisites: PTA 130
Corequisites: PTA 120 and PTA 140
Component: None
This course is designed to include the theory and practice of additional therapeutic interventions. Topics include but are not limited to electrotherapy, burn and wound care, biofeedback, and

---

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
selected data collection methods. Upon completion, students should be able to apply these modalities and treatment techniques effectively and safely and demonstrate knowledge of physiological principles involved.

PTA 160 Physical Therapy Procedures III 02 03 00 03  
Prerequisites: PTA 150  
Corequisites: PTA 170 and PTA 180AA  
Component: None  
This course introduces treatment and measurement techniques and discusses treatment programs for selected neuromusculoskeletal dysfunction and injuries. Topics include soft tissue and joint dysfunction, selected assessment techniques, and various exercise programs. Upon completion, students should be able to demonstrate the application of selected data collection methods and functional interventions.

PTA 170 Pathophysiology 03 00 00 03  
Prerequisites: None  
Corequisites: PTA 160 and PTA 180AA  
Component: None  
This course is a survey of basic pathology with emphasis on conditions most frequently observed and treated in physical therapy. Topics include etiology, pathology, manifestation, treatment, and prognosis. Upon completion, students should be able to explain repair processes, categorize diseases, define pathology, identify organ/body systems involved, and discuss treatment and prognosis.

PTA 180 PTA Clinical Education  
Introduction 00 00 09 03  
Prerequisites: Departmental Approval  
Corequisites: None  
Component: PTA 180AA, PTA 180BB  
This course introduces the physical therapy clinic in planned learning experiences and practice under supervision. Emphasis is placed on reinforcement of learned skills in direct patient care and communication. Upon completion, students should be able to demonstrate satisfactory performance in learned patient care skills, communication activities, and professional behaviors. PTA 180A must be completed satisfactorily before registering for PTA 180B.

PTA 212 Health Care/Resources 02 00 00 02  
Prerequisites: PTA 222  
Corequisites: PTA 260  
Component: None  
This course provides an overview of various aspects of health care delivery systems and the interrelationships of health care team members. Topics include health agencies and their functions, health care team member roles, management, and other health care issues. Upon completion, students should be able to discuss the functions of health organizations and team members and aspects of health care affecting physical therapy delivery.

PTA 222 Professional Interactions  
02 00 00 02  
Prerequisites: PTA 160  
Corequisites: None  
Component: None  
This course is designed to assist in the development of effective interpersonal skills in the physical therapist assistant setting. Topics include reactions to disability, the grieving process, methods of communication, motivation, health promotion, disease prevention, and aging. Upon completion, students should be able to discuss and demonstrate methods for achieving effective interaction with patients, families, the public, and other health care providers.

PTA 240 Physical Therapy Procedures IV 03 06 00 05  
Prerequisites: PTA 160  
Corequisites: None  
Component: None  
This course covers normal development, adult and pediatric/CNS dysfunction, spinal cord injuries, amputee rehabilitation techniques, and cardiopulmonary rehabilitation. Topics include neurology review, selected rehabilitation techniques, ADL and functional training, prosthetic and orthotic training, and environmental access. Upon completion, students should be able to demonstrate safe and correct application of selected rehabilitation techniques for neurological dysfunction, cardiopulmonary conditions, and amputations.

PTA 260 Advanced PTA Clinical Education 00 00 30 10  
Prerequisites: PTA 180AA and PTA 180BB  
Corequisites: PTA 212  
Component: None  
This course provides full-time clinical affiliations for planned learning experiences and practice under supervision. Emphasis is placed on reinforcement of learned skills in direct patient care, communications, and professional behaviors. Upon completion, students should be able to demonstrate satisfactory performance as an entry-level physical therapist assistant and as a member of the physical therapy team.

RAD 110 RAD Introduction & Patient Care 02 03 00 03  
Prerequisites: Departmental Approval  
Corequisites: RAD 111 and RAD 151  
Component: None  
This course provides an overview of the radiography profession and student responsibilities. Emphasis is placed on basic principles of patient care, radiation protection, technical factors, and medical terminology. Upon completion, students should be able to demonstrate basic skills in these areas.

RAD 111 RAD Procedures I 03 03 00 04  
Prerequisites: Departmental Approval  
Corequisites: All courses required: RAD 110 and RAD 151  
Component: None  
This course provides the knowledge and skills necessary to...
perform standard radiographic procedures. Emphasis is placed on radiography of the chest, abdomen, extremities, spine, and pelvis. Upon completion, students should be able to demonstrate competence in these areas.

**RAD 112 RAD Procedures II**

03 03 00 04
Prerequisites: All courses required: RAD 110, RAD 111 and RAD 151
Corequisites: RAD 121 and RAD 161
Component: None
This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the chest, abdomen, extremities, spine, and pelvis. Upon completion, students should be able to demonstrate competence in these areas.

**RAD 121 Radiographic Imaging I**

02 03 00 03
Prerequisites: All courses required: RAD 110, RAD 111 and RAD 151
Corequisites: None
Component: None
This course provides the principles of conventional film-screen radiography. Emphasis is placed on the factors that impact density, contrast, recorded detail, and distortion. Upon completion, students should be able to demonstrate an understanding of conventional film-screen radiographic imaging.

**RAD 122 Radiographic Imaging II**

01 03 00 02
Prerequisites: All courses required: RAD 112, RAD 121 and RAD 161
Corequisites: RAD 131 and RAD 171
Component: None
This course provides advanced principles of imaging including digital radiography. Emphasis is placed on the factors that impact brightness, contrast, recorded detail, and distortion. Upon completion, students should be able to demonstrate an understanding of advanced principles of imaging.

**RAD 131 Radiographic Physics I**

01 03 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the principles of radiation characteristics and production. Emphasis is placed on imaging equipment. Upon completion, students should be able to demonstrate a basic understanding of radiation characteristics and production.

**RAD 151 RAD Clinical Ed I**

00 00 06 02
Prerequisites: Departmental Approval
Corequisites: All courses required: RAD 110 and RAD 111
Component: None
This course introduces patient management and basic radiographic procedures in the clinical setting. Emphasis is placed on mastering positioning of the chest and extremities, manipulating equipment, and applying principles of ALARA. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

**RAD 161 RAD Clinical Ed II**

00 00 15 05
Prerequisites: All courses required: RAD 110, RAD 111 and RAD 151
Corequisites: RAD 112 and RAD 121
Component: None
This course provides additional experience in patient management and in more complex radiographic procedures. Emphasis is placed on mastering positioning of the spine, pelvis, head and neck, and thorax and adapting procedures to meet patient variations. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

**RAD 171 RAD Clinical Ed III**

00 00 12 04
Prerequisites: All courses required: RAD 112, RAD 121 and RAD 161
Corequisites: RAD 122 and RAD 131
Component: None
This course provides experience in patient management specific to fluoroscopic and advanced radiographic procedures. Emphasis is placed on applying appropriate technical factors to all studies and mastering positioning of gastrointestinal and urological studies. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

**RAD 211 RAD Procedures III**

02 03 00 03
Prerequisites: RAD 122
Corequisites: All courses required: RAD 231, RAD 241 and RAD 251
Component: None
This course provides the knowledge and skills necessary to perform standard and specialty radiographic procedures. Emphasis is placed on radiographic specialty procedures, sectional anatomy, and advanced imaging. Upon completion, students should be able to demonstrate an understanding of these areas.

**RAD 231 Radiographic Physics II**

01 03 00 02
Prerequisites: RAD 171 or RAD 131
Corequisites: None
Component: None
This course provides advanced principles of radiation characteristics and production including digital imaging and Computed Tomography (CT). Emphasis is placed on imaging equipment. Upon completion, students should be able to demonstrate an understanding of radiation characteristics and production.

**RAD 241 Radiation Protection**

02 00 00 02
Prerequisites: All courses required: RAD 122, RAD 131 and RAD 171
Corequisites: All courses required: RAD 211, RAD 231 and RAD 251
Component: None
This course covers the principles of radiation protection and...
Radiobiology. Topics include the effects of ionizing radiation on body tissues, protective measures for limiting exposure to the patient and personnel, and radiation monitoring devices. Upon completion, students should be able to demonstrate an understanding of the effects and uses of radiation in diagnostic radiology.

**RAD 245 Radiographic Analysis** 01 03 00 02  
Prerequisites: RAD 211, RAD 231, RAD 241, and RAD 251  
Corequisites: RAD 261  
Component: None  
This course provides an overview of image analysis and introduces methods of quality management. Topics include image evaluation, pathology, quality control, and quality assurance. Upon completion, students should be able to demonstrate a basic knowledge of image analysis and quality management.

**RAD 251 RAD Clinical Ed IV** 00 00 21 07  
Prerequisites: All courses required: AD 122, RAD 131, RAD 171  
Corequisites: All courses required: RAD 211, RAD 231, RAD 241  
Component: None  
This course provides the opportunity to continue mastering all basic radiographic procedures and to attain experience in advanced areas. Emphasis is placed on equipment operation, pathological recognition, pediatric and geriatric variations, and a further awareness of radiation protection requirements. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

**RAD 261 RAD Clinical Ed V** 00 00 21 07  
Prerequisites: RAD 251  
Corequisites: All courses required: RAD 245, RAD 281  
Component: None  
This course is designed to enhance expertise in all radiographic procedures, patient management, radiation protection, and image production and evaluation. Emphasis is placed on developing an autonomous approach to the diversity of clinical situations and successfully adapting to those procedures. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

**RAD 271 Radiography Capstone** 00 03 00 01  
Prerequisites: RAD 211, RAD 231, RAD 241, RAD 251  
Corequisites: RAD 245, RAD 261  
Component: None  
This course provides an opportunity to exhibit problem-solving skills required for certification. Emphasis is placed on critical thinking and integration of didactic and clinical components. Upon completion, students should be able to demonstrate the knowledge required of any entry-level radiographer.

**RAD 281 RAD Clinical Elective** 00 00 03 01  
Prerequisites: Department Approval  
Corequisites: All courses required: RAD 245, RAD 261  
Component: None

This course provides advanced knowledge of clinical applications. Emphasis is placed on enhancing clinical skills. Upon completion, students should be able to successfully complete the clinical course objectives.

**RCP 110 Introduction to Respiratory Care** 03 03 00 04  
Prerequisites: Departmental Approval  
Corequisites: None  
Component: None  
This course introduces the respiratory care profession. Topics include the role of the respiratory care practitioner, medical gas administration, basic patient assessment, infection control, and medical terminology. Upon completion, students should be able to demonstrate competence in concepts and procedures through written and laboratory evaluations.

**RCP 111 Therapeutics/Diagnostics** 04 03 00 05  
Prerequisites: RCP 110  
Corequisites: None  
Component: None  
This course is a continuation of RCP 110. Emphasis is placed on entry-level therapeutic and diagnostic procedures used in respiratory care. Upon completion, students should be able to demonstrate competence in concepts and procedures through written and laboratory evaluations.

**RCP 113 RCP Pharmacology** 02 00 00 02  
Prerequisites: None  
Corequisites: RCP 110  
Component: None  
This course covers the drugs used in the treatment of cardiopulmonary diseases. Emphasis is placed on the uses, actions, indications, administration, and hazards of pharmacological agents. Upon completion, students should be able to demonstrate competence though written evaluations.

**RCP 114 C-P Anatomy & Physiology** 03 00 00 03  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides a concentrated study of cardiopulmonary anatomy and physiology essential to the practice of respiratory care. Emphasis is placed on cardiovascular and pulmonary physiology, acid/base balance, and blood gas interpretation. Upon completion, students should be able to demonstrate competence in these concepts through written evaluation.

**RCP 115 C-P Pathophysiology** 02 00 00 02  
Prerequisites: BIO 163  
Corequisites: None  
Component: None  
This course introduces the etiology, pathogenesis, and physiology of cardiopulmonary diseases and disorders. Emphasis is placed on clinical signs and symptoms along with diagnoses, complications,
prognoses, and management. Upon completion, students should be able to demonstrate competence in these concepts through written evaluations.

RCP 132 RCP Clinical Practice I 00 00 06 02
Prerequisites: None
Corequisites: RCP 110
Component: None
This course provides entry-level clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

RCP 143 RCP Clinical Practice II 00 00 09 03
Prerequisites: RCP 110
Corequisites: RCP 111
Component: None
This course provides entry-level clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

RCP 152 RCP Clinical Practice III 00 00 06 02
Prerequisites: RCP-111
Corequisites: None
Component: None
This course provides entry-level clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

RCP 153 RCP Clinical Practice III 00 00 09 03
Prerequisites: RCP 111
Corequisites: None
Component: None
This course provides entry-level clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

RCP 210 Critical Care Concepts 03 03 00 04
Prerequisites: RCP 223
Corequisites: None
Component: None
This course provides further refinement of acute patient care and underlying pathophysiology. Topics include a continuation in the study of mechanical ventilation, underlying pathophysiology, and introduction of critical care monitoring. Upon completion, students should be able to demonstrate competence in concepts and procedures through written and laboratory evaluations.

RCP 211 Advanced Monitoring/Procedures 03 03 00 04
Prerequisites: RCP 210
Corequisites: None
Component: None
This course includes advanced information gathering and decision making for the respiratory care professional. Topics include advanced cardiac monitoring and special procedures. Upon completion, students should be able to evaluate, design, and recommend appropriate care plans through written and laboratory evaluations.

RCP 214 Neonatal/Pediatric RC 01 03 00 02
Prerequisites: RCP 111
Corequisites: None
Component: None
This course provides in-depth coverage of the concepts of neonatal and pediatric respiratory care. Emphasis is placed on neonatal and pediatric pathophysiology and on the special therapeutic needs of neonates and children. Upon completion, students should be able to demonstrate competence in these concepts through written and laboratory evaluations.

RCP 215 Career Prep-Adv Level 00 03 00 01
Prerequisites: None
Corequisites: None
Component: None
This course provides preparation for employment and the advanced-level practitioner credentialing exam. Emphasis is placed on review of the NBRC Advanced-Level Practitioner Exam and supervision and management. Upon completion, students should be able to successfully complete the appropriate self-assessment examinations and meet the requirements for employment.

RCP 223 Special Practice Lab 00 03 00 01
Prerequisites: RCP 111
Corequisites: None
Component: None
This course provides additional laboratory learning opportunities in respiratory care. Emphasis is placed on therapeutic procedures and equipment management. Upon completion, students should be able to demonstrate competence in concepts and procedures through laboratory evaluations. This course provides entry level skills in adult mechanical ventilation.

RCP 236 RCP Clinical Practice IV 00 00 18 06
Prerequisites: RCP-111
Corequisites: RCP-210
Component: None
This course provides advanced practitioner clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

RCP 238 RCP Clinical Practice IV 00 00 24 08
Prerequisites: RCP 111
Corequisites: RCP 210
Component: None
This course provides advanced practitioner clinical experience. Emphasis is placed on therapeutic and diagnostic patient care.
Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

**RCP 248 RCP Clinical Practice V**  00 00 24 08  
Prerequisites: RCP 210  
Corequisites: RCP 211  
Component: None  
This course provides advanced practitioner clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

**RED 070 Essential Reading Skills**  03 02 00 04  
Prerequisites: Placement  
Corequisites: None  
Component: None  
This course is designed for those with limited reading skills. Emphasis is placed on basic word attack skills, vocabulary, transitional words, paragraph organization, basic comprehension skills, and learning strategies. Upon completion, students should be able to demonstrate competence in the skills required for RED 080. This course does not satisfy the developmental reading and writing prerequisite for ENG 111 or ENG 111A.

**RED 080 Introduction to College Reading**  03 02 00 04  
Prerequisites: RED 070 or Placement Test Credit Equivalent.  
Corequisites: None  
Component: None  
This course introduces effective reading and inferential thinking skills in preparation for RED 090. Emphasis is placed on vocabulary, comprehension, and reading strategies. Upon completion, students should be able to determine main ideas and supporting details, recognize basic patterns of organization, draw conclusions, and understand vocabulary in context.

**RED 090 Improved College Reading**  03 02 00 04  
Prerequisites: RED 080 or Placement Test Credit Equivalent.  
Corequisites: None  
Component: None  
This course is designed to improve reading and critical thinking skills. Topics include vocabulary enhancement; extracting implied meaning; analyzing author’s purpose, tone, and style; and drawing conclusions and responding to written material. Upon completion, students should be able to comprehend and analyze college-level reading material.

**REL 110 World Religions**  03 00 00 03  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the world’s major religious traditions. Topics include Primal religions, Hinduism, Buddhism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts. This course is also available through the Virtual Learning Community (VLC).

**REL 111 Eastern Religions**  03 00 00 03  
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces the major Asian religious traditions. Topics include Hinduism, Buddhism, Taoism, Confucianism, and Shinto. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**REL 112 Western Religions**  03 00 00 03  
Prerequisites: ENG-090, ENG-090A, RED-090 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces the major western religious traditions. Topics include Zoroastrianism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**REL 211 Introduction to Old Testament**  03 00 00 03  
Prerequisites: ENG-111  
Corequisites: None  
Component: None  
This course is a survey of the literature of the Hebrews with readings from the law, prophets, and other writings. Emphasis is placed on the use of literary, historical, archeological, and cultural analysis. Upon completion, students should be able to use the tools of critical analysis to read and understand Old Testament literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

**REL 212 Introduction to New Testament**  03 00 00 03  
Prerequisites: ENG-111  
Corequisites: None  
Component: None  
This course is a survey of the literature of first-century Christianity with readings from the gospels, Acts, and the Pauline and pastoral letters. Topics include the literary structure, audience, and religious perspective of the writings, as well as the historical and cultural context of the early Christian community. Upon completion, students should be able to use the tools of critical analysis to read and understand New Testament literature. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
REL 221 Religion in America
Prerequisites: ENG-111
Corequisites: None
Component: None
This course is an examination of religious beliefs and practice in the United States. Emphasis is placed on mainstream religious traditions and non-traditional religious movements from the Colonial period to the present. Upon completion, students should be able to recognize and appreciate the diversity of religious traditions in America. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 111 Elementary Russian I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of the Russian language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to recognize and appreciate the diversity of religious traditions in America. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 112 Elementary Russian II
Prerequisites: RUS 111
Corequisites: None
Component: None
This course is a continuation of RUS 111 focusing on the fundamental elements of the Russian language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Russian and to demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 181 Russian Lab 1
Prerequisites: None
Corequisites: None
Component: None
This course is a continuation of RUS 111 focusing on the fundamental elements of the Russian language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Russian and to demonstrate further cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 182 Russian Lab 2
Prerequisites: RUS 181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the Russian language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Russian and to demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

RUS 211 Intermediate Russian I
Prerequisites: RUS 112
Corequisites: None
Component: None
This course provides a review and expansion of the essential skills of the Russian language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 212 Intermediate Russian II
Prerequisites: RUS 211
Corequisites: None
Component: None
This course provides a continuation of RUS 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

RUS 221 Russian Conversation
Prerequisites: RUS 212
Corequisites: None
Component: None
This course provides an opportunity for intensive communication in spoken Russian. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, to express ideas and opinions clearly, and to engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course provides an overview of security administration and fundamentals of designing security architectures. Topics include networking technologies, TCP/IP concepts, protocols, network traffic analysis, monitoring, and security best practices. Upon completion, students should be able to identify normal network traffic using network analysis tools and design basic security defenses.

**SEC 210 Intrusion Detection**  
Prerequisites: SEC 160  
Corequisites: None  
Component: None  
This course introduces the student to intrusion detection methods in use today. Topics include the types of intrusion detection products, traffic analysis, and planning and placement of intrusion detection solutions. Upon completion, students should be able to plan and implement intrusion detection solution for networks and host based systems.

**SEC 220 Defense-In-Depth**  
Prerequisites: None  
Corequisites: SEC 160  
Component: None  
This course introduces students to the concepts of defense in-depth, a security industry best practice. Topics include firewalls, backup systems, redundant systems, disaster recovery, and incident handling. Upon completion, students should be able to plan effective information security defenses, backup systems, and disaster recovery procedures. This course is restricted to the Information Systems Security, the Information Systems Security/Operating Systems, and the Information Systems Security/Security Hardware curriculums.

**SEC 240 Wireless Security**  
Prerequisites: SEC 110 and NET 175  
Corequisites: None  
Component: None  
This course introduces security principles and topics related to the wireless networking environment. Topics include network topologies, network protocols, security issues, and best practices for wireless environments. Upon completion, students should be able to design, setup, manage, and secure a wireless network.

**SEC 289 Security Capstone Project**  
Prerequisites: SEC 220  
Corequisites: None  
Component: None  
This course provides the student the opportunity to put into practice all the skills learned to this point. Emphasis is placed on security policy, process planning, procedure definition, business continuity, and systems security architecture. Upon completion, students should be able to design and implement comprehensive information security architecture from the planning and design phase through implementation. This course is restricted to the Information Systems Security, the Information Systems Security/

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.

SEL 191 Selected Topics in Security  00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

SGD 111 Introduction to SGD  02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides students with an introduction to simulation and game development. Topics include setting, storytelling, narrative, character design, interface design, game play, internal economy, core mechanics, game genres, AI, the psychology of game design and professionalism. Upon completion, students should be able to demonstrate knowledge of the major aspects of simulation and game design and development.

SGD 112 SGD Design  02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of simulation and game design. Topics include industry standards and design elements for simulations and games. Upon completion, students should be able to design simple simulations and/or games.

SGD 113 SGD Programming  02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of programming languages and tools employed in simulation and game development. Emphasis is placed on programming concepts used to create simulations and games. Upon completion, students should be able to program simple games and/or simulations.

SGD 114 3D Modeling  02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the tools required to create three dimensional (3D) models. Emphasis is placed on exploring tools used to create 3D models. Upon completion, students should be able to create and animate 3D models using 3D modeling tools.

SGD 124 MMO Programming  02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the concepts of Massive Multiplayer On-line Programming for simulations and games. Emphasis is on learning Massive Multiplayer On-line simulation and game programming techniques. Upon completion, students should be able to create a Massive Multiplayer On-line simulation or game.

SGD 125 SG Artificial Intellig  02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the artificial intelligence concepts related to simulation and game development. Emphasis is placed on expert systems. Upon completion, students should be able to describe the basic concepts and procedures related to the development of artificial intelligence systems used in simulations and games.

SGD 158 SGD Business Management  03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the business side of the interactive game industry. Emphasis will be placed on licenses, serious games, psychological profiling, publisher/developer relations, and contract negotiation skills. Upon completion, students should be able to understand how a game evolves from concept to the customer.

SGD 161 SG Animation  02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental principles of animation used in simulation and game development. Emphasis is placed on a historical survey of animation, aspects of the animation process and animation techniques. Upon completion, students should be able to produce character sketches, morph simple objects, create walk and run cycles and develop professional storyboards.

This course introduces the fundamental principles of 3D animation used in simulation and game development. Emphasis is placed on a historical survey of 3D animation, aspects of the 3D animation process and 3D animation techniques. Upon completion, students should be able to produce 3D character sketches, morph simple objects, create walk and run cycles and develop professional storyboards.

This course introduces the techniques and methods used to create simulation and game production and design documents. Emphasis is placed on the design document to include scheduling, production plans, marketing and budgeting. Upon completion, students should be able to create design and produce documents for any simulation or game.

This course introduces various aspects of audio and video and their application in simulations and games. Topics include techniques for producing and editing audio and video for multiple digital mediums. Upon completion, students should be able to produce and edit audio and video for simulations and games.

This course introduces the Flash programming environment for use in simulation and game development. Topics include timeline effects, extensibility layers, alias text, globalization tools, ActionScript and lingo programming. Upon completion, students should be able to create a simple simulation or game using Flash.

This course covers the use of virtual reality tools and techniques in simulation and game development. Emphasis is placed on acquiring the skills necessary to create scalable virtual characters and environments for use in simulations and games. Upon completion, students should be able to create a simple game or simulation in a virtual environment.

This course introduces the tools used to create levels for real-time simulations and games. Topics include level design, architecture theory, modeling for 3D engines and texturing methods. Upon completion, students should be able to design simple levels using industry standard tools.

This course covers machinima techniques in the simulation and game industry. Emphasis is placed on developing movies and animations within industry-standard game engines for simulations and games. Upon completion, students should be able to demonstrate a basic understanding of in-game cinematic creation.

This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study. Capstone course where students working in teams will use the skills learned in the first four courses to build an interactive 3-D object.

This course introduces students to the tools used to capture data in a 3D environment. Emphasis is placed on capturing data from motion capture and/or 3D scanning devices for use in 3D models and animations. Upon completion, students should be able to capture data from a 3D environment and import for use in 3D models, simulations, and animations.

The course covers the advanced principles of simulation and game design. Topics include advanced design concepts in simulation and game development. Upon completion, students should be able to design an advanced simulation or game.
SGD 213 SGD Programming II 02 03 00 03
Prerequisites: SGD 113
Corequisites: None
Component: None
The course covers advanced programming concepts used to create simulations and games. Emphasis is placed on acquiring advanced programming skills for use in creating simulations and games. Upon completion, students should be able to program an advanced simulation or game.

SGD 214 3D Modeling II 02 03 00 03
Prerequisites: SGD 114
Corequisites: None
Component: None
This course introduces the tools used to create and animate advanced 3 dimensional models. Emphasis is placed on identifying and utilizing the tools required to create and animate advanced 3D models. Upon completion, students should be able to create and animate advanced 3D models using 3D modeling tools.

SGD 274 SG Level Design II 02 03 00 03
Prerequisites: SGD 174
Corequisites: None
Component: None
This course introduces the advanced tools used to create levels for real-time simulations and games. Topics include advanced level design and architecture theory, concepts related to “critical path” and “flow,” game balancing, playtesting and storytelling. Upon completion, students should be able to design complex levels using industry standard tools.

SGD 289 SGD Project 02 03 00 03
Prerequisites: SGD 212, SGD 213, SGD 214, or SGD 285
Corequisites: None
Component: None
This course provides students with the opportunity to create a functional simulation or game with minimal instructor support. Emphasis is placed upon verbal and written communication, skill documentation, professional presentation and user training. Upon completion, students should be able to create and professionally present a fully functional simulation or game.

SLP 111 Ethics and Standards for SLPA’s 03 00 00 03
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course provides an overview of the theory, practice, and philosophy of speech-language pathology assisting. Topics include legal and ethical issues, scope of practice, multiculturalism, and diversity. Upon completion, students should be able to describe characteristics of the profession and identify components of safe and ethical practice.

SLP 112 SLP Anatomy & Physiology 03 00 00 03
Prerequisites: Departmental approval and a set of courses is required:BIO 163 or BIO 169
Corequisites: SLP 130 and SLP 140
Component: None
This course introduces the basic pathophysiology of the orofacial and thoracic structures of the human body. Emphasis is placed on the most commonly treated speech, language, and hearing disorders. Upon completion, students should be able to identify and describe basic pathophysiology related to the production of speech and hearing.

SLP 120 SLPA Administrative Procedures and Management 02 00 00 02
Prerequisites: None
Corequisites: None
Component: None
This course covers organizational and functional skills appropriate to the speech-language pathology workplace. Emphasis is placed on scheduling, office etiquette, operation of office equipment, time management, and quality issues. Upon completion, students should be able to demonstrate correct operation of office equipment and work cooperatively and effectively within the speech-language pathology professional environment.

SLP 130 Phonetics/Speech Patterns 02 02 00 03
Prerequisites: Department Approval
Corequisites: SLP 112 and SLP 140
Component: None
This course introduces the International Phonetic Alphabet and the categories of speech sounds, including voice, place, and manner of production. Emphasis is placed on the accurate transcription of normal and abnormal speech samples using the IPA and on the production of effective natural speech. Upon completion, students should be able to transcribe and categorize speech sounds and produce natural speech using appropriate breathing, articulation, and pronunciation.

SLP 140 Normal Communication 03 00 00 03
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course introduces normal verbal and non-verbal communications across the life span, including appropriate social interaction with diverse populations. Topics include normal speech, language, and hearing in a multicultural society and an introduction to screening for normality and abnormality. Upon completion, students should be able to identify normal speech, language, and hearing patterns.

SLP 211 Developmental Disorders 03 02 00 04
Prerequisites: All courses required: SLP 111, SLP 130 and SLP 140
Corequisites: All courses required: ASL 111, SLP 120 and SLP 212
Component: None
This course introduces normal verbal and non-verbal communications across the life span, including appropriate social interaction with diverse populations. Topics include normal speech, language, and hearing in a multicultural society and an introduction to screening for normality and abnormality. Upon completion, students should be able to identify normal speech, language, and hearing patterns.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course covers screening for speech, language, and hearing disorders; use of observational checklists; and administration of therapeutic protocols. Emphasis is placed on conditions commonly treated in speech-language pathology. Upon completion, students should be able to accurately administer screening tests and therapeutic protocols and identify characteristics of developmental speech, language, and hearing disorders.

**SLP 212 Acquired Disorders** 03 02 03 05
Prerequisites: SLP 111, SLP 112, SLP 130, and SLP 140
Corequisites: SLP 120 and ASL 111
Component: None
This course is a continuation of SLP 211 and includes an introduction to clinical settings. Emphasis is placed on acquired conditions commonly treated in speech-language pathology. Upon completion, students should be able to accurately administer screening tests and therapeutic protocols and identify characteristics of acquired speech, language, and hearing disorders.

**SLP 220 Assistive Technology** 01 02 00 02
Prerequisites: All courses required: SLP 111, SLP 130 and SLP 140
Corequisites: SLP 211 and SLP 212
Component: None
This course introduces the preparation, use, and maintenance of selected communication equipment in the treatment of respective disorders. Emphasis is placed on the collaborative use of assistive equipment for speech, language, and hearing disorders. Upon completion, students should be able to instruct the patient and caregiver in the use and maintenance of assistive communication equipment.

**SLP 230 SLP Fieldwork** 00 00 12 04
Prerequisites: SLP 211 and SLP 212
Corequisites: SLP 231
Component: None
This course provides supervised fieldwork experience in speech-language pathology assisting in a minimum of two diverse sites. Emphasis is placed on the use of written protocols in providing patient care. Upon completion, students should be able to integrate ethical concepts into safe and effective clinical practice.

**SLP 231 SLP Fieldwork Seminar** 03 00 00 03
Prerequisites: SLP 211 and SLP 212
Corequisites: SLP 230
Component: None
This course provides an opportunity to discuss fieldwork experiences with peers and faculty. Emphasis is placed on management of clinical problems, conflict resolution, and job seeking and retention skills. Upon completion, students should be able to meet entry-level requirements for speech-language pathology assistants.

**SOC 210 Introduction to Sociology** 03 00 00 03
Prerequisites: ENG 090, ENG 090A, and RED 090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an introduction to the scientific study of human society, culture, and social interactions. Topics include socialization, research methods, diversity and inequality, cooperation and conflict, social change, social institutions, and organizations. Upon completion, students should be able to demonstrate knowledge of sociological concepts as they apply to the interplay among individuals, groups, and societies. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**SOC 213 Sociology of the Family** 03 00 00 03
Prerequisites: ENG 090, ENG 090A and RED 090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course covers the institution of the family and other intimate relationships. Emphasis is placed on mate selection, gender roles, sexuality, communication, power and conflict, parenthood, diverse lifestyles, divorce and remarriage, and economic issues. Upon completion, students should be able to analyze the family as a social institution and the social forces which influence its development and change. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

**SOC 220 Social Problems** 03 00 00 03
Prerequisites: ENG 090, ENG 090A and RED 090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an in-depth study of current social problems. Emphasis is placed on causes, consequences, and possible solutions to problems associated with families, schools, workplaces, communities, and the environment. Upon completion, students should be able to recognize, define, analyze, and propose solutions to these problems. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences. This course is also available through the Virtual Learning Community (VLC).

**SOC 225 Social Diversity** 03 00 00 03
Prerequisites: ENG 090, ENG 090A and RED 090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides a comparison of diverse roles, interests, opportunities, contributions, and experiences in social life. Topics include race, ethnicity, gender, sexual orientation, class, and religion. Upon completion, students should be able to analyze how cultural and ethnic differences evolve and how they affect personality development, values, and tolerance. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
SOC 230 Race and Ethnic Relations 03 00 00 03
Prerequisites: ENG 090, ENG 090A and RED 090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course includes an examination of the various aspects of race and ethnicity and how these lead to different experiences, opportunities, problems, and contributions. Topics include prejudice, discrimination, perceptions, myths, stereotypes, and intergroup relationships. Upon completion, students should be able to identify and analyze relationships among racial and ethnic groups within the larger society. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

SOC 232 Social Context of Aging 03 00 00 03
Prerequisites: ENG 090, ENG 090A and RED 090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an overview of the social implications of the aging process. Emphasis is placed on the roles of older adults within families, work and economics, politics, religion, education, and health care. Upon completion, students should be able to identify and analyze changing perceptions, diverse lifestyles, and social and cultural realities of older adults. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SOC 240 Social Psychology 03 00 00 03
Prerequisites: ENG 090, ENG 090A and RED 090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course examines the influence of culture and social groups on individual behavior and personality. Emphasis is placed on the process of socialization, communication, conformity, deviance, interpersonal attraction, intimacy, race and ethnicity, small group experiences, and social movements. Upon completion, students should be able to identify and analyze cultural and social forces that influence the individual in a society. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

SOC 244 Sociology of Death & Dying 03 00 00 03
Prerequisites: ENG 090, ENG 090A and RED 090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course presents sociological perspectives on death and dying. Emphasis is placed on analyzing the different death rates among various groups, races, and societies, as well as various types of death. Upon completion, students should be able to discuss the rituals of death, both cultural and religious, and examine current issues relating to death and dying. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SOC 250 Sociology of Religion 03 00 00 03
Prerequisites: ENG 090, ENG 090A and RED 090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course examines religion from a sociological perspective as part and product of human society. Topics include the origins, development, and functions of belief systems; religious organizations; conversion; and interactions with politics, the economy, science, and the class system. Upon completion, students should be able to describe and analyze religious systems. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SOC 252 Sociology of Work 03 00 00 03
Prerequisites: ENG 090, ENG 090A and RED 090 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an understanding of the work experience in terms of rewards, satisfaction, exploitation, alienation, and institutional function and structure. Topics include an examination of industrial, professional, office, and executive work settings in relation to technology, management, and career opportunities. Upon completion, students should be able to understand work in its changing roles, institutions, and economic impact. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

SPA 111 Elementary Spanish I 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

SPA 112 Elementary Spanish II 03 00 00 03
Prerequisites: SPA 111
Corequisites: None
Component: None
This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
This course offers applied Spanish for the workplace to facilitate basic communication with people whose native language is Spanish. Emphasis is placed on oral communication and career-specific vocabulary that targets health, business, and/or public service professions. Upon completion, students should be able to communicate at a functional level with native speakers and demonstrate cultural sensitivity.

This course provides an opportunity to explore issues related to the Hispanic world. Topics include historical and current events, geography, and customs. Upon completion, students should be able to identify and discuss selected topics and cultural differences related to the Hispanic world. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

This course explores Hispanic culture through intensive study on campus and field experience in a host country or area. Topics include an overview of linguistic, historical, geographical, sociopolitical, economic, and/or artistic concerns of the area visited. Upon completion, students should be able to exhibit first-hand knowledge of issues pertinent to the host area and demonstrate understanding of cultural differences. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a pre-major and/or elective course requirement.

This course provides an opportunity to enhance acquisition of the fundamental elements of the Spanish language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

This course provides a review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

This course is designed to improve the understanding of Spanish phonetics and the structure of the Spanish language. Topics include the structure of the Spanish language, phonology, morphology, and syntax. Upon completion, students should have an understanding of the phonetics and structure of the Spanish language and be able to contrast the structure of the Spanish and English languages.

This course provides an opportunity to enhance acquisition of the fundamental elements of the Spanish language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Spanish and demonstrate cultural awareness. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

This course provides a continuation of SPA 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in humanities/fine arts.

This course is designed to improve the understanding of Spanish phonetics and the structure of the Spanish language. Topics include the structure of the Spanish language, phonology, morphology, and syntax. Upon completion, students should have an understanding of the phonetics and structure of the Spanish language and be able to contrast the structure of the Spanish and English languages.
This course provides an opportunity for intensive communication in spoken Spanish. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**SPA 231 Reading and Composition** 03 00 00 03  
Prerequisites: SPA 212  
Corequisites: None  
Component: None  
This course provides an opportunity for intensive reading and composition in Spanish. Emphasis is placed on the use of literary and cultural materials to enhance and expand reading and writing skills. Upon completion, students should be able to demonstrate in writing an in-depth understanding of assigned readings. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

**SPA 281 Spanish Lab 3** 00 02 00 01  
Prerequisites: SPA 182  
Corequisites: None  
Component: None  
This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**SPA 282 Spanish Lab 4** 00 02 00 01  
Prerequisites: SPA 281  
Corequisites: None  
Component: None  
This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

**SPI 113 Intro. to Spanish Inter.** 03 00 00 03  
Prerequisites: SPA-211 and ENG-111  
Corequisites: None  
Component: None  
This course is designed to improve the quality of Spanish to English and English to Spanish translation. Emphasis is placed on the practice of Spanish to English and English to Spanish translation in a variety of prose styles. Upon completion, students should be able to use/care for surveying instruments, demonstrate field note techniques, and apply the theory and practice of plane surveying.

**SRV 110 Surveying I** 02 06 00 04  
Prerequisites: None  
Corequisites: Take one course: MAT 121, MAT 161, MAT 171, or MAT 175  
Component: None  
This course introduces the theory and practice of plane surveying. Topics include measuring distances and angles, differential and profile leveling, compass applications, topography, and mapping. Upon completion, students should be able to explain the rationale for placement of interpreters and apply ethical standards to a variety of working situations.
SRV 111 Surveying II
Prerequisites: SRV 110
Corequisites: None
Component: None
This course introduces route surveying and roadway planning and layout. Topics include simple, compound, reverse, spiral, and vertical curves; geometric design and layout; planning of cross-section and grade line; drainage; earthwork calculations; and mass diagrams. Upon completion, students should be able to calculate and lay out highway curves; prepare roadway plans, profiles, and sections; and perform slope staking.

SRV 210 Surveying III
Prerequisites: SRV 110
Corequisites: None
Component: None
This course introduces boundary surveying, land partitioning, and calculations of areas. Topics include advanced traverses and adjustments, preparation of survey documents, and other related topics. Upon completion, students should be able to research, survey, and map a boundary.

SRV 220 Surveying Law
Prerequisites: SRV 110
Corequisites: None
Component: None
This course introduces the law as related to the practice of surveying. Topics include surveyors’ responsibilities, deed descriptions, title searches, eminent domain, easements, weight of evidence, riparian rights, and other related topics. Upon completion, students should be able to identify and apply the basic legal aspects associated with the practice of land surveying.

SRV 230 Subdivision Planning
Prerequisites: All courses required: CIV 211, SRV 111 and SRV 210
Corequisites: None
Component: None
This course covers the planning aspects of residential subdivisions from analysis of owner and municipal requirements to plat layout and design. Topics include municipal codes, lot sizing, roads, incidental drainage, aesthetic considerations, and other related topics. Upon completion, students should be able to prepare a set of subdivision plans.

SRV 240 Topo/Site Surveying
Prerequisites: SRV 110
Corequisites: None
Component: None
This course covers topographic, site, and construction surveying. Topics include topographic mapping, earthwork, site planning, construction staking, and other related topics. Upon completion, students should be able to prepare topographic maps and site plans and locate and stake out construction projects.

STP 101 Intro Sterile Processing
Prerequisites: None
Corequisites: STP 102 and STP 103
Component: None
This course is designed to introduce the primary responsibilities of a central sterile technician. Emphasis is placed on preparation, storage, and distribution of instruments, supplies and equipment, quality assurance, and inventory management. Upon completion, students should be able to demonstrate competence in sterile processing techniques.

STP 102 STP Clinical Practice
Prerequisites: None
Corequisites: STP 101 and STP 103
Component: None
This course provides supervised experience in sterile processing techniques in a clinical facility. Emphasis is placed on preparation, storage, and distribution of instruments, supplies and equipment, quality assurance, and inventory management. Upon completion, students should be able to demonstrate competence in sterile processing techniques.

STP 103 Prof Success Prep
Prerequisites: None
Corequisites: STP 101 and STP 102
Component: None
This course provides job-seeking skills and an overview of theoretical knowledge in preparation for certification. Topics include test taking strategies, résumé preparation, and interviewing techniques. Upon completion, students should be able to prepare a résumé, demonstrate appropriate interview techniques, and identify strengths and weaknesses in preparation for certification. This is a diploma-level course.

SUR 110 Introduction to Surgical Technology
Prerequisites: Departmental Approval
Corequisites: SUR 111
Component: None
This course provides a comprehensive study of the operative environment, professional roles, moral/legal/ethical responsibilities, and medical communications used in surgical technology. Topics include: professional behaviors, medical terminology, interdepartmental/peer/relationships, operating room environment/safety, pharmacology, anesthesia, incision sites, physiology of wound healing, and biomedical sciences. Upon completion, students should be able to apply theoretical knowledge of the course topics to the operative environment.

SUR 111 Periop Patient Care
Prerequisites: Department Approval
Corequisites: SUR 110
Component: None
This course provides theoretical knowledge for the application of essential operative skills during the perioperative phase. Topics
include surgical asepsis, sterilization/disinfection, and perioperative patient care. Upon completion, students should be able to demonstrate the principles and practices of aseptic technique, sterile attire, basic case preparation, and other relevant skills.

**SUR 122 Surgical Procedures I** 05 03 00 06
Prerequisites: SUR 110 and SUR 111
Corequisites: SUR 123 or STP 101
Component: None
This course provides an introduction to selected basic and intermediate surgical specialties that students are exposed to in the first clinical rotation. Emphasis is placed on related surgical anatomy, pathology, and procedures that enhance theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics to the clinical operative environment.

**SUR 123 SUR Clinical Practice I** 00 00 21 07
Prerequisites: All courses required: SUR 110, SUR 111
Corequisites: SUR 122
Component: None
This course provides clinical experience with a variety of perioperative assignments to build upon skills learned in SUR 111. Emphasis is placed on the scrub and circulating roles of the surgical technologist including aseptic technique and basic case preparation for selected surgical procedures. Upon completion, students should be able to prepare, assist with, and dismantle basic surgical cases in both the scrub and circulating roles.

**SUR 134 Surgical Procedures II** 05 00 00 05
Prerequisites: SUR 123 or STP 101
Corequisites: None
Component: None
This course provides a comprehensive study of intermediate and advanced surgical specialties that students are exposed to in the second clinical rotation. Emphasis is placed on related surgical anatomy, pathology, and procedures that enhance theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics to the clinical operative environment.

**SUR 135 SUR Clinical Practice II** 00 00 12 04
Prerequisites: SUR 123
Corequisites: SUR 134 and SUR 137
Component: None
This course provides clinical experience with a variety of perioperative assignments to build skills required for complex perioperative patient care. Emphasis is placed on greater technical skills, critical thinking, speed, efficiency, and autonomy in the operative setting. Upon completion, students should be able to function in the role of an entry-level surgical technologist.

**SUR 137 Prof Success Preparation**
Prerequisites: SUR 123
Corequisites: SUR 134 and SUR 135
Component: None
This course provides job-seeking skills and an overview of theoretical knowledge in preparation for certification. Topics include test-taking strategies, resume preparation, and interviewing techniques. Upon completion, students should be able to prepare a resume, demonstrate appropriate interview techniques, and identify strengths and weaknesses in preparation for certification.

**SUR 210 Advanced SUR Clinical Practice** 00 00 06 02
Prerequisites: SUR 137 and Departmental Approval
Corequisites: SUR 211
Component: None
This course is designed to provide individualized experience in advanced practice, education, circulating, and managerial skills. Emphasis is placed on developing and demonstrating proficiency in skills necessary for advanced practice. Upon completion, students should be able to assume leadership roles in a chosen specialty area.

**SUR 211 Advanced Theoretical Concepts** 02 00 00 02
Prerequisites: SUR 137 and Departmental Approval
Corequisites: SUR 210
Component: None
This course covers theoretical knowledge required for extension of the surgical technologist role. Emphasis is placed on advanced practice in complex surgical specialties, educational methodologies, and managerial skills. Upon completion, students should be able to assume leadership roles in a chosen specialty area.

**TRF 110 Intro Turfgrass Cult & ID** 03 02 00 04
Prerequisites: None
Corequisites: None
Component: None
This course provides an in-depth study of turfgrass. Topics include principles of reproduction, growth development, species characteristics, establishment and maintenance of golf courses and sports fields, and lawn applications. Upon completion, students should be able to identify turfgrass species through characteristics and reproductive stages and develop an establishment and maintenance plan for high quality turf areas.

**WEB 110 Internet/Web Fundamentals** 02 02 00 03
Prerequisites: RED 070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces World Wide Web Consortium (W3C) standard markup language and services of the Internet. Topics include creating web pages, search engines, FTP, and other related topics. Upon completion, students should be able to deploy a hand-coded website created with mark-up language, and effectively use and understand the function of search engines. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
WEB 111 Intro to Web Graphics  
Prerequisites: None  
Corequisites: None  
Component: None  
This course is the first of two courses covering the creation of web graphics, addressing problems peculiar to WWW display using appropriate software. Topics include web graphics file types, type conversion, RGB color, the browser-safe palette, elementary special effects, image maps, and other related topics. Upon completion, students should be able to create graphics such as banners buttons, backgrounds, and other graphics for Web pages.

WEB 115 Web Markup and Scripting  
Prerequisites: WEB-110  
Corequisites: None  
Component: None  
This course introduces Worldwide Web Consortium (W3C) standard client-side Internet programming using industry-established practices. Topics include JavaScript, markup elements, stylesheets, validation, accessibility, standards, and browsers. Upon completion, students should be able to develop hand-coded web pages using current markup standards. This course is also available through the Virtual Learning Community (VLC).

WEB 120 Intro Internet Multimedia  
Prerequisites: None  
Corequisites: None  
Component: None  
This is the first of two courses covering the creation of Internet Multimedia. Topics include Internet multimedia file types, file type conversion, acquisition of digital audio/video, streaming audio/video and graphics animation plug-in programs and other related topics. Upon completion, students should be able to create Internet multimedia presentations utilizing a variety of methods and applications.

WEB 140 Web Development Tools  
Prerequisites: WEB-120  
Corequisites: None  
Component: None  
This course provides an introduction to web development software suites. Topics include the creation of web sites and applets using web development software. Upon completion, students should be able to create entire web sites and supporting applets.

WEB 180 Active Server Pages  
Prerequisites: CIS 115  
Corequisites: None  
Component: None  
This course introduces active server programming. Topics include HTML forms processing and other issues related to developing active web applications. Upon completion, students should be able to create and maintain a dynamic website.

WEB 182 PHP Programming  
Prerequisites: CIS 115 and WEB 120  
Corequisites: None  
Component: None  
This course introduces students to the server-side, HTML-embedded scripting language PHP. Emphasis is placed on programming techniques required to create dynamic web pages using PHP scripting language features. Upon completion, students should be able to design, code, test, debug, and create a dynamic web site using the PHP scripting language.

WEB 183 Perl Programming  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces students to the Perl Programming language. Topics include programming techniques using CGI script, input/output operations, sequence, iteration, selection, arithmetic operations, subroutines, modules, integrating database, pattern matching and other related topics. Upon completion, students should be able to design, code, test, and debug Perl language programs.

WEB 191 Selected Topics in Web Tech.  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

WEB 210 Web Design  
Prerequisites: WEB-110  
Corequisites: None  
Component: None  
This course introduces intermediate to advanced web design techniques. Topics include customer expectations, advanced markup language, multimedia technologies, usability and accessibility practices, and techniques for the evaluation of web design. Upon completion, students should be able to employ advanced design techniques to create high impact and highly functional web sites. This course is also available through the Virtual Learning Community (VLC).

WEB 220 Advanced Multimedia  
Prerequisites: WEB 120 and WEB 140  
Corequisites: None  
Component: None  
This is the second of two courses covering Internet multimedia. Topics include use of advanced Internet multimedia applications. Upon completion, students should be able to create interactive Internet multimedia presentations.
WEB 230 Implementing Web Serv 02 02 00 03
Prerequisites: NET 110 or NET 125
Corequisites: None
Component: None
This course covers website and web server architecture. Topics include installation, configuration, administration, and security of web servers, services and sites. Upon completion, students should be able to effectively manage the web services deployment lifecycle according to industry standards.

WEB 240 Internet Security 02 02 00 03
Prerequisites: WEB 110 and SEC 110 and CIS 110 or CIS 111
Corequisites: None
Component: None
This course covers security issues related to Internet services. Topics include the operating system and the Internet service security mechanisms. Upon completion, students should be able to implement security procedures for operating system level and server level alerts.

WEB 250 Database Driven Websites 02 02 00 03
Prerequisites: DBA 110
Corequisites: None
Component: None
This course introduces dynamic (database-driven) website development. Topics include the use of basic database CRUD statements (create, read, update and delete) incorporated into web applications, as well as in software architecture principles. Upon completion, students should be able to design and develop database driven web applications according to industry standards.

WLD 110 Cutting Processes 01 03 00 02
Prerequisites: None
Corequisites: WLD 115
Component: None
This course introduces oxy-fuel and plasma-arc cutting systems. Topics include safety, proper equipment setup, and operation of oxy-fuel and plasma-arc cutting equipment with emphasis on straight line, curve and bevel cutting. Upon completion, students should be able to oxy-fuel and plasma-arc cut metals of varying thickness.

WLD 112 Basic Welding Processes 01 03 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic welding and cutting. Emphasis is placed on beads applied with gases, mild steel fillers, and electrodes and the capillary action of solder. Upon completion, students should be able to set up welding and oxy-fuel equipment and perform welding, brazing, and soldering processes.

WLD 115 SMAW (Stick) Plate 02 09 00 05
Prerequisites: None
Corequisites: WLD 110
Component: None
This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, students should be able to perform SMAW fillet and groove welds on carbon plate with prescribed electrodes.

WLD 116 SMAW (Stick) Plate/Pipe 01 09 00 04
Prerequisites: WLD 115
Corequisites: None
Component: None
This course is designed to enhance skills with the shielded metal arc (stick) welding process. Emphasis is placed on advancing manipulative skills with SMAW electrodes on varying joint geometry. Upon completion, students should be able to perform groove welds on carbon steel with prescribed electrodes in the flat, horizontal, vertical, and overhead positions.

WLD 121 GMAW (MIG) FCAW/Plate 02 06 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces metal arc welding and flux core arc welding processes. Topics include equipment setup and fillet and groove welds with emphasis on application of GMAW and FCAW electrodes on carbon steel plate. Upon completion, students should be able to perform fillet welds on carbon steel with prescribed electrodes in the flat, horizontal, and overhead positions.

WLD 131 GTAW (TIG) Plate 02 06 00 04
Prerequisites: None
Corequisites: None
Component: None
This course introduces the gas tungsten arc (TIG) welding process. Topics include correct selection of tungsten, polarity, gas, and proper filler rod with emphasis placed on safety, equipment setup, and welding techniques. Upon completion, students should be able to perform GTAW fillet and groove welds with various electrodes and filler materials.

WLD 141 Symbols & Specifications 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding.

WLD 143 Welding Metallurgy 01 02 00 02
Prerequisites: None
Corequisites: WLD 115
Component: None
This course introduces the concepts of welding metallurgy. Emphasis is placed on basic metallurgy, effects of welding
on various metals, and metal classification and identification. Upon completion, students should be able to understand basic metallurgy, materials designation, and classification systems used in welding.

**WLD 261 Certification Practices**  01  03  00  02
Prerequisites: All courses required: WLD 115, WLD 121 and WLD 131
Corequisites: None
Component: None
This course covers certification requirements for industrial welding processes. Topics include techniques and certification requirements for prequalified joint geometry. Upon completion, students should be able to perform welds on carbon steel plate and/or pipe according to applicable codes.

**WLD 262 Inspection & Testing**  02  02  00  03
Prerequisites: All courses required: WLD 115, WLD 121 and WLD 131
Corequisites: WLD 261
Component: None
This course introduces destructive and non-destructive testing methods. Emphasis is placed on safety, types and methods of testing, and the use of testing equipment and materials. Upon completion, students should be able to understand and/or perform a variety of destructive and non-destructive testing processes.

Charles Bureau
Welding Instructor Program Coordinator
Diploma, Fayetteville Technical Community College
A.A.S., Fayetteville Technical Community College

Carol Conklin
Developmental Math Instructor
B.S., University of Maryland

Cynthia Burns
Business Management Division Chair
B.A., North Carolina State University
M. of Economics, North Carolina State University

William Conklin
Success Center Instructor
A.A.S., Fayetteville Technical Community College
A.A.S., Mt. Hood Community College
B.A., Wartburg College
M.P.A., University of North Carolina at Pembroke

Larzaris Butler
Health & Physical Education Instructor
B.S., Fayetteville State University

Leslie Corpening
Speech Communication Instructor
M.A., University of North Carolina at Greensboro

Olga Butorina-Langdon
Biology Instructor
B.S., Kazan V.I. Lenin State University-Russia
Ph.D., Ulyanov-Lenin State University

Aaron Cox
Public Service Division Chair
A.A.S., Bladen Community College
B.S., Mount Olive College
M.S., Central Missouri State University

Anthony Cameron
Computer Programming Instructor
A.A.S., Fayetteville Technical Community College
B.S., University of North Carolina at Chapel Hill
M.S., East Carolina University

Melinda Creech
Dental Hygiene Instructor
A.A.S., Fayetteville Technical Community College
B.S., University of North Carolina at Chapel Hill

Cheryl Campbell
Business Administration/Public Administration Program Coordinator
B.S., University of North Carolina at Pembroke
M.B.A., Fayetteville State University

David Creedon
Accounting Instructor
M. of Accounting, University of North Carolina at Chapel Hill

Barbara Carman
Basic Skills Instructor
B.A., University of Hawaii at Manoa

Richard Criste
Emergency Medical Science Department Chair
B.H.S., Campbell University

Donald Carter
Carpentry/Building Construction Technology Department Chair
Diploma, Fayetteville Technical Community College
A.A.S., Fayetteville Technical Community College

Sandra Cromsun
Chemistry Instructor
B.S., Appalachian State University
Ph.D., The University of Tennessee

Marie Cash
Mathematics Instructor
B.S., Methodist College
M.Ed., Campbell University

Jose Cruz
Humanities/Foreign Language Department Chair
B.A., Queens College City of NY
M.A., Queens College City of NY

Donal Chavis
AC, Heating & Refrigeration Technology Department Chair
Diploma, Fayetteville Technical Community College
A.A.S., Fayetteville Technical Community College

Jaime Cruz Figueroa
Electrical/Electronics Technology Instructor
Diploma, Fayetteville Technical Community College
A.A., Campbell University
A.A.S., Fayetteville Technical Community College
B.B.A., Campbell University

Kathryn Chavis
Biological Instructor
B.S., Pembroke State University
M.A., University of North Carolina at Pembroke

Danny Cunningham
Biology Department Chair
B.S., University of North Carolina at Chapel Hill
M.A., Fayetteville State University

Peter Chiodo
English Instructor
B.A., Edinboro University
M.A., Slippery Rock University

Annette Dammer
Developmental English Instructor
B.S., Towson University
M.A., East Carolina University

Tere Chipman
Criminal Justice Technology Instructor
B.A., Eastern Kentucky University
M.A., Webster University

Lisa Daniels
Sociology Instructor
B.A., University of Colorado
M.A., University of Colorado

David Dauria
A/C, Heating & Refrigeration Instructor
A.A.S., Fayetteville Technical Community College

Denise Dedouex
Medical Office Administration Department Chair
A.A.S., Tomlinson College
B.S., Barton College
M.B.A., Campbell University

Donna DeVault
Business Administration Instructor
B.S., Methodist College
M.B.A., Fayetteville State University

Socorro Diaz
Success Center Facilitator/Instructor
A.A., Taylor Business Institute
B.S., American University of Puerto Rico

Jane Dickerhoff
Practical Nursing Instructor
B.S.N., University of Maryland
M.S., Central Michigan University

Carol Dickey
Paralegal Technology Instructor
B.A., University of North Carolina at Chapel Hill
J.D., University of North Carolina at Chapel Hill

Robert Diggs
Fort Bragg Extension Education Instructor

Christos Diorietes
College Transfer English & Mathematics Division Chair
B.S., Campbell University
M.Ed., University of North Carolina at Pembroke

Stewart Ditch
Plumbing Department Chair
Diploma, Fayetteville Technical Community College
A.A.S., Fayetteville Technical Community College

Vernetha Doctor
Biology Instructor
B.S., Coastal Carolina University
M.A., University of North Carolina at Pembroke

David Dominic
Autobody Program Coordinator
Diploma, Fayetteville Technical Community College
A.A., Fayetteville Technical Community College
B.A., Fayetteville State University
M.A., Fayetteville State University

Janis Donaldson
English Instructor
M. Ed., University of Maryland
M.F.A., University of North Carolina at Wilmington

Shahpour Dowlatshahi
Bus Adm/Economics/Banking & Finance Instructor
B.A., Kingston Poly
M.S., University of Surrey

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on College Catalog.
Karen
Industry Training Instructor
M.B.A.
B.A., Ladycliff College
Mathematics Instructor

Moira
B.S.B.A.-E, Colorado Technical University
Accounting Instructor
M.A.Ed.
Dental Hygiene Department Chair
M.S.N.
Nursing Lab Instructor
M.A., Nursing
Practical Nursing Instructor
Diploma, Fayetteville Technical Institute
Associate Degree Nursing Instructor

William Eanes
Physical Education Instructor
B.S., Appalachian State University
M.A.Ed, East Carolina University

John Edwards
Speech Communication Instructor
B.A., University of North Carolina at Charlotte
M.A., Murray State University

John Ellinwood
Basic Law Enforcement Training Instructor/Program Coordinator
A.A., Methodist College
B.S., Methodist College
M.C.J., Boston University

Janice Elliott
Associate Degree Nursing Instructor
Diploma, Fayetteville Technical Institute
A.A.S., Johnston Community College
B.S., Fayetteville State University
M.S.N., University of Phoenix

Renee Ellis
Practical Nursing Instructor
B.S.N., Hampton University
M.S.N., East Carolina University

Sharon Ellis
Nursing Lab Instructor
B.S.N., East Carolina University
M.S.N., East Carolina University

Susan Ellis
Dental Hygiene Department Chair
B.S., University of North Carolina at Chapel Hill
M.A.Ed., University of Phoenix

Karen Elsom
Accounting Instructor
A.A.S., Fayetteville Technical Community College
B.S., University of North Carolina at Chapel Hill
M.B.A., University of North Carolina at Chapel Hill

Stephen Emery
Chemistry Instructor
B.S., Clemson University
M.S., Clemson University
Ph.D., Clemson University

William Evert
Industry Training Instructor
B.S.B.A.-E, Colorado Technical University

Moira Fescina
Mathematics Instructor
B.A., Ladycliff College
M.B.A., Campbell University

John Fields
Chemistry Instructor
B.S., King College
Ph.D., University of North Carolina at Chapel Hill

Garrett Flagg
English/Communications Instructor
A.A., Pima Community College
B.A., De La Salle College
M.A., University of Arizona
M.A., University of Florida

Victor Forrester
Advertising & Graphic Design & Support Department Chair
A.C.A., Chowan College
B.F.A., East Carolina University

Daisy Foxx
Business Admin/Economics/Banking & Finance Program Coordinator
B.S., University of North Carolina at Greensboro
M.B.A., University of North Carolina at Greensboro

Marty Fulton
Automotive System Technology Instructor
A.A.S., Community College of the Air Force
A.A.S., Fayetteville Technical Community College
B.A.S., Campbell University
M.Ed., AIU - Hoffman Estates

Frank Galluccio
Advertising & Graphic Design Instructor
A.A., Brookdale Community College
B.S., Utah State University
M.Ed., Utah State University

Laura Galvan
Computer Information Technology Instructor
A.A.S., Del Mar Junior College
B.S., Corpus Christi State University
M.B.A., Liberty University

David Gardner
Ft. Bragg Occupational Extension Continuing Education Instructor
A.G.S., Central Texas College

Heather Gardner
Health/Physical Education Program Coordinator
B.S., Troy University
M.S., Troy University

Mike Gaster
Industry Training Instructor

Kay Gilbert
Culinary Technology Department Chair
B.S., East Carolina University
M.Ed., University of North Carolina at Greensboro

Arthur Goodman
Unit Movement Course Instructor
B.S., Methodist University
M.A., Webster University

Brad Goodrum
Horticulture Education Technology Instructor
A.A.S., Sandhills Community College
B.A., Furman University

Judy Graham
Cosmetology Instructor
Diploma, Fayetteville Technical Community College
A.A.S., Fayetteville Technical Community College

Anne Greene
Psychology & Sociology Program Coordinator
B.A., Methodist College
M.A., Fayetteville State University

Lonnie Griffin
Sociology Instructor
A.A., Florida Community College
B.A., University of North Florida
M.A., University of South Florida

Lisa Grundy
English/Communication Instructor
B.A., Methodist University
M.A., University of North Carolina at Wilmington

Frank Guzman
Electrical/Electronics Instructor
Diploma, Fayetteville Technical Community College
A.A., Saint Leo College
A.A.S., Fayetteville Technical Community College

Beverly Hall
Developmental Mathematics Program Coordinator
B.S., Texas A & M University
M.Ed., Campbell University

David Hall
Funeral Service Education Department Chair
A.A.S., Fayetteville Technical Community College
B.A.S., Methodist College
M.A., Webster University

Cameron Harmon
Biology Instructor
B.S., University of South Carolina
M.S., Georgia Southern University

Michael Hawkins
Criminal Justice - Latent Evidence Program Coordinator
B.S., Mountain State University
M.P.A., University of North Carolina at Pembroke

Susan Hawkins
Bus Administration/E-Commerce Program Coordinator
M.S., University of Maryland
M.B.A., University of Maryland

Belva Hawley-Demendoza
Early Childhood Associate Department Chair
B.S., Fayetteville State University
M.A., Fayetteville State University

Joanne Hayes, Basic Skills Instructor
B.A., North Carolina State University
M.Ed., North Carolina State University
