THE PRESIDENT’S MESSAGE

Dear Student:

On behalf of the faculty, staff, and board of trustees, I welcome you to Fayetteville Technical Community College and thank you for your smart choice to study here. Whatever your goals are or whatever your personal reasons are for choosing Fayetteville Tech, we are pleased that you chose to become an FTCC Trojan!

We realize students have many options to choose from when deciding on an educational institution. FTCC stands out among others because it functions as an integral pathway to success for every student. If you wish to continue your education after community college, FTCC can help you save money on tuition while building a foundation that will position you competitively at the four-year college and beyond. If you wish to earn the skills to begin a new career and begin working quickly, FTCC can facilitate your pursuit of career goals. FTCC is a friend of veterans and military students and offers transition educational assistance for soldiers whose lifestyles are shifting to civilian life. FTCC opens the door for many students who would never receive the opportunity from other colleges. Perhaps more important, FTCC’s staff and faculty members genuinely care about your experience and your success. With over 250 programs of study affordably and conveniently offered while supported by a caring staff, your journey to success begins here at FTCC.

I encourage you to stay focused, work hard, and take advantage of the many opportunities that await you at Fayetteville Tech. You will soon discover how your education at FTCC will become the jump-start to your dreams and aspirations.

Sincerely,

J. Larry Keen, Ed.D.
President
FAYETTEVILLE TECHNICAL COMMUNITY COLLEGE
BOARD OF TRUSTEES

Mr. Ronald Crosby, Jr., Board Chair
Dr. Linwood Powell, Vice Chair
Mrs. Delores P. Ingram, Secretary

PURPOSE OF THE CATALOG

Fayetteville Technical Community College provides this catalog with information about the College and its programs. Changes subsequent to publication of this catalog are posted to the catalog on our website. For current information, visit our website at www.faytechcc.edu and click on Academics.

The provisions of this catalog are not to be regarded as an irrevocable contract between students and Fayetteville Technical Community College. The College reserves the right to change any provisions, requirements, or schedules at any time or to add or withdraw courses or program offerings. Every effort will be made to minimize the inconvenience such changes create for students.

Students having questions not answered by this catalog may receive additional information from their Department Chair or academic advisor. Applicants are encouraged to contact the Admissions Office, Fayetteville Technical Community College, PO Box 35236, Fayetteville, NC 28303-0236; telephone (910) 678-8473 or E-mail to: prospect@faytechcc.edu.

NONDISCRIMINATION STATEMENT

The Board of Trustees and the administration of Fayetteville Technical Community College are fully committed to the principles and practice of equal employment and educational opportunities. Accordingly, Fayetteville Technical Community College does not practice or condone discrimination, in any form, against students, employees, or applicants on the grounds of race, color, national origin, religion, sex, age, disability or political affiliation. Fayetteville Technical Community College commits itself to positive action to secure equal opportunity regardless of those characteristics.

Fayetteville Technical Community College supports the protection available to members of its community under all applicable Federal Laws, including Title VI and VII of the Civil Rights Act, Title IX of the Education Amendments, Sections 799A and 845 of the Public Health Service Act, the Equal Pay and Age Discrimination Acts, the Rehabilitation Act, the Americans with Disabilities Act, Executive Order 11375, and their amendments.

For information concerning these provisions, contact: Vice President for Human Resources, and Institutional Effectiveness

THE COLLEGE

Fayetteville Technical Community College, as a comprehensive community college, adheres to an “Open Door” admissions policy. High school graduates, persons achieving a North Carolina equivalency certificate (GED), and adults who show potential for post high school education may be admitted to courses which are appropriate to their educational potential. Successful implementation of an “Open Door” admissions policy requires an emphasis on admissions counseling services. As part of the admissions counseling process, Fayetteville Technical Community College utilizes an initial placement assessment and an evaluation of the applicant’s prior school record to determine potential for success. When the admissions counseling process indicates that an applicant lacks sufficient academic background to pursue credit courses, he or she will be directed to the Developmental Studies program prior to entry into a diploma or degree curriculum. If the applicant lacks a high school diploma, he or she will be given the opportunity to pursue studies to achieve an Adult High School Diploma or a North Carolina equivalency certificate (GED) prior to entering a regular curriculum. Admissions to curricula are open to applicants without regard to race, color, national origin, religion, age, sex, disability, or political affiliation.

A BRIEF HISTORY OF FAYETTEVILLE TECHNICAL COMMUNITY COLLEGE

Fayetteville Technical Community College (FTCC) enjoys a rich history that began as a result of a vision shared by concerned business leaders in Cumberland County who recognized the need for a local institution to provide job training for area industries and educational opportunities for high school graduates and adult learners. From that vision and through the perseverance of those leaders, the Fayetteville Area Industrial Education Center (IEC) was established in 1961. In 1963, the North Carolina General Assembly passed a bill creating the statewide Community College System, and from this opportunity in that same year, the Fayetteville Area Industrial Education Center became known as Fayetteville Technical Institute (FTI). In January, 1988, the name of the college changed to Fayetteville Technical Community College to broaden and enhance the public image of technical and vocational postsecondary education.

Fayetteville Tech has enjoyed much success and celebrated its 50th anniversary in 2011 under the leadership of its current President, Dr. J. Larry Keen. From its humble beginnings with two buildings (LaFayette Hall and Horace Sisk) to its current 150-acre Fayetteville campus plus outlying educational centers, Fayetteville Tech has grown not only in numbers of buildings and acreage but also in student enrollment. In addition to the central Fayetteville campus, FTCC offers students the option of being served by the Spring Lake campus, Horticulture Business Center, and offers military students convenient access to classes through its Fort Bragg Center.

FTCC is a proud partner with the North Carolina Military Business Center, whose headquarters is housed on the Fayetteville campus, and is pleased to have been named for several years as a Military-Friendly School®. As part of its mission to plan and apply all operations with sustainability at the forefront, FTCC was named by Sustainable Sandhills of North Carolina as the first college to be certified as green.

Fayetteville Technical Community College serves approximately 42,000 students annually through its various Curriculum and Continuing Education opportunities. What began as a vision over fifty years ago evolved into what is perceived by many as the pillar of the community in Cumberland County. Through the school’s motto, education for life, Fayetteville Technical Community College offers more than value and a good education; it offers hope to all who seek education in response to the changing demands often experienced throughout life.

More detailed, chronological information about the history of Fayetteville Technical Community College can be found in the Board of Trustees Orientation Manual at http://www.faytechcc.edu/handbooksmanualsplans/.

FTCC MISSION STATEMENT

“Serve our community as a learning-centered institution to build a globally competitive workforce that supports economic development.”

Approved by the FTCC Board of Trustees February 16, 2009
Reaffirmed: August 20, 2018

FTCC PURPOSE STATEMENT

The purpose of Fayetteville Technical Community College is to provide affordable vocational-technical, business and industry, general education, college transfer, and continuing education programs, which meet the needs and desires of its diverse students and economic development needs for the community. To improve the educational base of society, FTCC encourages life-long learning and strives to prepare students for further workforce and educational experiences.

FTCC identifies the educational needs of applicants and assists students in satisfying these needs at a minimal expense. Each adult who applies will be admitted to a program appropriate to his/her abilities and interests. The College is in partnership with the public school system through College Technical Education

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu](http://www.faytechcc.edu) and click on Academics.

Curricular programs reflect the changing technical, commercial, industrial, and health needs of Fayetteville, Cumberland County, and surrounding areas. Various curricula offer certificates, diplomas, and associate degrees. As a learning-centered college, FTCC offers courses and programs at times and places convenient to students in a variety of delivery modes. Courses are also available for high school graduates who need additional academic preparation before attempting college work.

FTCC provides instruction in the basic life skills needed to contribute effectively to society. Continuing Education programs are designed to meet specific needs in basic educational competencies, high school completion, upgrading occupational skills, and other avocational or practical skills required for the rapidly changing technological advances in the community.

INSTITUTIONAL CHARTER

AND ACCREDITATIONS

NORTH CAROLINA COMMUNITY COLLEGE SYSTEM

Fayetteville Technical Community College is chartered by the North Carolina State Department of Community Colleges, as specified in Chapter 115D of the General Statutes of North Carolina.

NORTH CAROLINA DEPARTMENT OF PUBLIC INSTRUCTION

Fayetteville Technical Community College’s High School Diploma Program meets the standards required by the North Carolina Department of Public Instruction for the purpose of awarding high school diplomas.

SERVICEMEMBERS OPPORTUNITY COLLEGES (SOC)

Created in 1972 to provide educational opportunities to servicemembers who, because they frequently moved from place to place, had trouble completing college degrees. SOC functions in cooperation with 13 higher education associations, the Department of Defense, and Active and Reserve Components of the Military Services to expand and improve voluntary postsecondary education opportunities for servicemembers worldwide. SOC is funded by the Department of Defense (DoD) through a contract with the American Association of State Colleges and Universities (AASCU). The contract is managed for DoD by the Defense Activity for Non-Traditional Education Support (DANTES).

SOC CONSORTIUM

Consists of approximately 1,900 institutional members that enroll hundreds of thousands of servicemembers, their family members, and veterans annually in associate, bachelor’s, and graduate-level degree programs on school campuses, armories, and military installations within the United States and overseas, and through a variety of distance learning methods.

SOUTHERN ASSOCIATION OF COLLEGES AND SCHOOLS

Fayetteville Technical Community College is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097, telephone 404-679-4500) to award associate degrees, diplomas, and certificates.

UNITED STATES DEPARTMENT OF EDUCATION

Fayetteville Technical Community College is recognized by the U.S. Department of Education as an institution of higher learning and is qualified to receive federal assistance in its higher education programs.

PROGRAM ACCREDITATIONS AND ASSOCIATIONS

ACCREDITATION REVIEW COUNCIL ON EDUCATION IN SURGICAL TECHNOLOGY AND SURGICAL ASSISTING (ARC/STSA)

The Surgical Technology program’s accreditation decision by the Joint Review Commission on Accreditation of Allied Health Education Programs was made upon the recommendation of the Accreditation Review Council on Education in Surgical Technology and Surgical Assisting (ARC/STSA), 6 W. Dry Creek Circle, Suite 110, Littleton, CO 80120, (303) 694-9262 which is sponsored by the American College of Surgeons and the Association of Surgical Technologists.

AMERICAN BAR ASSOCIATION

Fayetteville Technical Community College’s Paralegal Technology program is approved by the American Bar Association.

AMERICAN BOARD OF FUNERAL SERVICE EDUCATION

The Funeral Service Education degree program at Fayetteville Technical Community College is accredited by the American Board of Funeral Service Education (ABFSE), 3414 Ashland Avenue, Suite G, St. Joseph, Missouri 64506 (816) 233-3747.

Web: [www.abfse.org](http://www.abfse.org)
AMERICAN DENTAL ASSOCIATION COMMISSION ON ACCREDITATION
The programs in Dental Assisting and Dental Hygiene are accredited by the Commission on Dental Accreditation and have been granted the accreditation of approval. The Commission is a specialized accrediting body recognized by the United States Department of Education. The Commission on Dental Accreditation can be contacted at (312) 440-4653 or at 211 East Chicago Avenue, Chicago IL, 60611-2678.

COMMISSION ON ACCREDITATION IN PHYSICAL THERAPY EDUCATION (CAPTE)
The Physical Therapist Assistant Program at Fayetteville Technical Community College is accredited by the Commission on Accreditation in Physical Therapy Education, American Physical Therapy Association, 1111 North Fairfax Street, Alexandria, VA 22314, (703) 684-2782 or 1-800-999-2782.

COMMISSION ON ACCREDITATION FOR RESPIRATORY CARE (CoARC)
Fayetteville Technical Community College’s Respiratory Therapy Program is accredited by the Commission on Accreditation for Respiratory Care (CoARC), 1248 Hardwood Road, Bedford, TX 76021, Phone (817) 283-2835, Fax (817) 354-8519.

JOINT REVIEW COMMISSION ON ACCREDITATION OF ALLIED HEALTH EDUCATION PROGRAMS (CAAHEP)
The Surgical Technology Program at Fayetteville Technical Community College is accredited by the commission on Accreditation of Allied Health Education Programs (CAAHEP), 1361 Park Street, Clearwater, FL 33756 (727) 210-2350. This accreditation decision was made upon the recommendation of the Accreditation Review Committee on Education for the Surgical Technologist (ARC-ST), 6 West Dry Creek Circle, Suite 110, Littleton, CO 80120 (313) 694-9262, which is sponsored by the American College of Surgeons and the Association of Surgical Technologists.

JOINT REVIEW COMMITTEE ON EDUCATION IN RADIOLOGIC TECHNOLOGY (JRCERT)
Fayetteville Technical Community College’s Radiography Program is accredited by the Joint Review Committee on Education in Radiologic Technology, 20 North Wacker Drive, Suite 900, Chicago, IL 60606-2901, (312) 704-5300, E-mail: jrcert@mail.idt.net.

NATIONAL ASSOCIATION FOR THE EDUCATION OF YOUNG CHILDREN (NAEYC)
The Early Childhood Education Department of Fayetteville Technical Community College received accreditation from the National Association for the Education of Young Children (NAEYC), 1313 L Street NW, Suite 500, Washington, DC 2005-4101. NAEYC is the world’s largest organization working on behalf of young children with nearly 80,000 members, a national network of more than 300 state and local Affiliates, and a growing global alliance of like-minded organizations. The NAEYC Academy sets and monitors standards for high-quality early childhood education programs and accredits programs that meet these standards.

NATIONAL AUTOMOTIVE TECHNICIANS EDUCATION FOUNDATION
Fayetteville Technical Community College’s Automotive Systems Technology program is accredited by National Automotive Technicians Education Foundation (NATEF) 101 Blue Seal Drive, Suite 101 • Leesburg, Virginia 20175. NATEF was founded as an independent, non-profit organization with a single mission: To evaluate technician training programs against standards developed by the automotive industry and recommend qualifying programs for certification (accreditation) by ASE, the National Institute for Automotive Service Excellence.

ACCREDITATION COMMISSION FOR EDUCATION IN NURSING (ACEN)
The Associate Degree Nursing Program of Fayetteville Technical Community College is accredited by the National League for Nursing Accrediting Commission, 3343 Peachtree Road NE, Suite 850, Atlanta, Georgia 30326. This type of approval is national in scope and voluntary rather than required by law. The standards set by the accrediting body are uniform throughout the United States. The achievement of ACEN accreditation by a program signifies that it has met the national standards of excellence for programs in nursing of its type.

NORTH CAROLINA BOARD OF COSMETIC ART EXAMINERS
Fayetteville Technical Community College’s Cosmetology program is accredited by the North Carolina Board of Cosmetic Art Examiners, 1201 Front Street, Suite 110, Raleigh, NC 27609, (919) 733-4117. Email: nccosmo@ncosmeticarts.com.
NORTH CAROLINA BOARD OF NURSING
Fayetteville Technical Community College is approved by the Board of Nursing to offer a two-year associate degree program with a major in nursing and a one-year diploma practical nursing program. Both programs qualify the graduates to write the National Council Licensure Examination for the respective levels of preparation. Candidates who successfully complete these examinations are licensed to practice nursing.

NORTH CAROLINA DEPARTMENT OF JUSTICE,
CRIMINAL JUSTICE STANDARDS DIVISION
The North Carolina Criminal Justice Education and Training Standards Commission, through N.C.G.S. Chapter 17C, establishes minimum employment, training and retention standards for the State’s criminal justice officers. To ensure a consistent level of competency and professionalism among law enforcement officials, the Criminal Justice Standards Division administers the Commission’s mandatory certification and training programs. Those programs cover all sworn police officers, correctional officers, probation/parole officers, juvenile justice officers and juvenile court counselors. The NC Department of Justice Training Standards Division can be contacted at NC Department of Justice, P.O. Drawer 149, Raleigh, NC 27602-0149 or (919) 716-6470.

NORTH CAROLINA OFFICE OF EMERGENCY MEDICAL SERVICES
Fayetteville Technical Community College’s Emergency Medical Science Program is accredited by the North Carolina Office of Emergency Medical Services, 701 Barbour Drive, Raleigh, North Carolina, 27603-2008, Phone (919) 855-3935, Fax (919) 733-7071.

NORTH CAROLINA STATE BOARD OF FUNERAL SERVICE
Fayetteville Technical Community College’s Funeral Service and NC Funeral Directors programs are approved by the North Carolina Board of Funeral Service.
THE NCCCS’ ACCOUNTABILITY MEASURES

End-of-Year Report
NCCCS Critical Success Factors
Performance Measures and Standards (2013)

A. Basic Skills Student Progress: Percentage of students who progress as defined by an educational functioning level.
FTCC exceeded North Carolina Community College System (NCCCS) Baseline.
NCCCS Standard: At least 20.6% (System Baseline) of Basic Skills students will progress by an educational functioning level. (College Mean: 41.0%/System Goal 51.2%)

B. GED Diploma Passing Rate: Percentage of students taking at least one GED test during a program year who receives a GED diploma during the program year.
FTCC exceeded the NCCCS Goal.
NCCCS Standard: Students taking at least one GED test during a program year, 49.3% (System Baseline) will receive a GED diploma during that year. (College Mean: 71.1%/System Goal 82.0%)

C. Developmental Student Success Rate in College-Level English Courses: Percentage of previous developmental English and/or reading students who successfully complete a credit English course with a grade of “P”, “C” or better upon the first attempt.
FTCC MET exceeded the NCCCS College Mean.
NCCCS Standard: Forty-five point two percent (45.2%/Baseline) of previous developmental English and/or reading students will successfully complete a credit English course with a grade of “P”, “C” or better upon the first attempt. (College Mean: 63.7%/System Goal 74.9%)

D. Developmental Student Success Rate in College-Level Math Courses: Percentage of previous developmental math students who successfully complete a credit math course with a “C” or better upon the first attempt.
FTCC exceeded the NCCCS Baseline, nearing College Mean.
NCCCS Standard: Forty-seven point five percent (47.5%/Baseline) of previous developmental math students will successfully complete a credit math course with a grade of “C” or better upon the first attempt. (College Mean: 64.8%/System Goal 75.4%)

E. First Year Progression: Percentage of first-time fall credential-seeking students attempting at least twelve hours within their first academic year who successfully complete (“P”, “C” or better) at least twelve of those hours.
FTCC exceeded the NCCCS Baseline.
NCCCS Standard: At least 53.2% (Baseline) of first-time fall credential-seeking students who attempt at least twelve hours within their first academic year will successfully complete (“P”, “C” or better) at least twelve of those hours. (College Mean: 67.7%/System Goal 74.6%)

F. Curriculum Completion: Percentage of first-time fall credential-seeking students who graduate, transfer, or are still enrolled with 36 hours after six years.
FTCC exceeded the NCCCS Baseline, nearing NCCCS College Mean.
NCCCS Standard: Twenty-eight point six percent (28.6%/Baseline) of first-time fall credential-seeking students will graduate, transfer, or still be enrolled with 36 hours after six years. (College Mean: 41.6%/System Goal 45.6%)

G. Licensure and Certification Passing Rate: Aggregate institutional passing rate of first time test-takers on licensure and certification exams. Exams included in this measure are state mandated exams which candidates must pass before becoming active practitioners.
FTCC exceeded the NCCCS College Mean, nearing NCCCS Goal.
NCCCS Standard: The aggregate passing rate of first time test-takers on licensure and certification exams will be at least 71.0% (Baseline). (College Mean: 85.0%/System Goal 91.7%)

H. College Transfer Performance: Among community college associate degree completers and those who have completed 30 or more credit hours who transfer to a four-year university or college, the percentage who earn a GPA of 2.00 or better after two consecutive semesters within the academic year at the transfer institution.
FTCC exceeded the NCCCS College Mean.
NCCCS Standard: Seventy-one point two percent (71.2%/Baseline) of associate degree completers and students who have completed 30 or more credit hours and transferred to a four-year university or college will earn a GPA of 2.0 after two consecutive semesters. (College Mean: 86.7%/System Goal 93.6%)

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
ADMISSIONS

ADMISSIONS POLICIES AND PROCEDURES

Fayetteville Technical Community College adheres to an “Open Door” admissions policy. Applicants who are high school graduates or 18 years of age, may take courses as a special credit student providing they meet course pre-requisites. Curriculum degrees, diplomas and certificates may have specific requirements for admission beyond the regular requirements to enter FTCC.

Associate Degree, Diploma, and Certificate Admissions Requirements

1. Applicants must be high school graduates as indicated on an official high school transcript or meet high school requirements as is evidenced by one of the conditions below.
   a. A state equivalency certificate or GED test results which meet North Carolina equivalency standards are acceptable in lieu of a high school diploma.
   b. An official college/university transcript showing the award of associate’s degree or higher from a regionally accredited institution(s). Exception: For applicants who are seeking admission into programs having prerequisites at the high school level and the prerequisite is not met with collegiate courses, an official high school transcript is required.
   c. Exceptions to these requirements can be granted by the Associate Vice President for Student Services.

The College accepts only official transcripts, which are received by the Admissions Office in a sealed unopened envelope and bear the sender’s raised seal or printed imbedded watermarks, or by electronic transfer via E-script. Official transcripts verifying secondary school completion must be sent to the:

Admissions Office
FTCC
P.O. Box 35236
Fayetteville, NC 28303

2. Applicants must complete the Residency Determination System online interview on the FTCC website.

3. Applicants must complete an online Admissions application on the FTCC website.

4. Each applicant is scheduled for the FTCC placement assessment. Previous school records and placement test results will be used in conjunction with the student’s personal aspirations to help plan a workable educational program.

5. Certain programs have prerequisite course requirements. In addition to published program requirements, the College reserves the right to identify and require specific prerequisites before allowing students into certain courses.

6. Students requesting approval for certification of VA Educational Benefits must provide copies of DD/Form(s) 214.

Current High School Students Admissions Requirements

Current high school students participating in programs that involve curriculum courses must submit a partial, high school transcript in lieu of the final high school transcript. In some cases test scores are also required. Upon graduation, if the student chooses to enroll in a FTCC degree, diploma or certificate, an official final high school transcript is required. More information can be found on the High School Connections webpage.

Military Admissions

Service members are advised to contact their Educational Center before being advised or enrolling in classes at FTCC.

As required by the Department of Defense, the College, its agents, and its employees are prohibited from providing anything valued greater than $10.00 to any person being recruited to enroll at Fayetteville Technical Community College. This prohibition shall apply to gratuities, favors, discounts, entertainment, hospitality, loans, transportation, lodging, meals and any other item having a monetary value. This prohibition shall not limit the College’s ability to grant scholarships to its students.

Other Reasons for the Submission of Transcripts

Official high school, college/university transcripts are required if an applicant wishes to:

• Apply for veteran’s benefits
• Have previous college/university credit(s) evaluated for transfer credit to FTCC.
• Be exempt from the College’s mathematics, English, and reading placement exam.
• Apply for a health program
• Apply for financial aid benefits

Program of Study Change

A student may change his or her program of study two times in a calendar year. If a student attempts to change a third time, the request may not be processed and he or she will be referred to a counselor.

Health Division Admissions Requirements

Priority in consideration for admission to Health Programs will be given to individuals completing the following by January 30. Applications and related materials received after this date will be considered based on program space availability.

• Submit a completed “Application for Admissions” to FTCC online.
• Submit official transcripts from high school and each college/university from which you plan to transfer potential credit.
• Submit an application on WebAdvisor by January 30 to the specific Health Program that you wish to enter.
• Complete all program prerequisites.
• Complete the entrance assessment with the required minimum scores, or achieve a grade of “C” or better in all recommended pre-curriculum courses. Pre-curriculum courses may be attempted only twice to satisfy the prerequisite requirements. An attempt includes grades of A, B, C, D, F, W, S, R and I and includes courses with similar

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
content even if named differently (for example, MAT 50 and DMA 10, 20, or 30.) Exceptions may be approved by the appropriate health program Dean/Chairperson.

• Science courses must have been satisfactorily completed with a grade of “B” or better within five years of entry into a health program. These courses may be attempted only twice. (An attempt includes grades of A, B, C, D, F, W, and I.) The appropriate health Dean/Chairperson may approve exceptions. (Effective Fall 2015 Semester)

• A minimum GPA of 2.5 is required on previously completed related classes for degree programs. A minimum GPA of 2.0 is required on previously completed related classes for diploma and certificate programs. Related courses are courses in the program of study that do not have the program prefix.

• A cumulative GPA of 2.0 is required for all health programs.

• Individual programs may have further prerequisites. Prerequisites are noted at the top of each program of study sequencing sheet.

• The Nursing Assistant, Funeral Service Education, and Health and Fitness Science programs do not require separate health admission. Students are accepted on a first come, first served basis.

• Mammography students are accepted on a first come, first served basis after verification of the student having a current American Registry of Radiologic Technologists certification in Radiography.

Selection Criteria

Applicants who meet eligibility requirements will be ranked and selected on a competitive basis.

Grades in designated related courses will be used to determine ranking.

In addition, participation in a departmental information session is required. Sessions will be scheduled by the College. A maximum of 15 additional competitive points may be awarded at that time based on departmental criteria.

Special Credit (Non-matriculating) Student Admission

Special credit status for (non-matriculating) students: This student status is designed to allow any qualified and interested individual to enroll in college credit courses with appropriate documentation without declaring a major or seeking a degree, diploma, or certificate. The appropriate documentation is required to determine that the course prerequisites have been met. When a student wishes to become a matriculated student, they must follow the current admission requirements for academic program approval.

Special credit students are not eligible for financial aid assistance, i.e., federal financial aid, vocational rehabilitation, veteran services. If you are unsure about aid eligibility and the program you are considering, contact the Financial Aid Office for clarification.

ADMISSION OF INTERNATIONAL STUDENTS

International applicants who apply from outside the United States and have not previously attended an American college or university will be processed as entering freshman. If you are a qualified applicant who wishes to attend the College, please apply by sending your request to:

Admissions Office
Fayetteville Technical Community College
P.O. Box 35236
Fayetteville, NC 28303-0236 USA

Applicants are responsible for requesting that the school principal or headmaster send official copies of high school (secondary) transcripts directly to FTCC. If applicants have attended an American or Foreign college/university, applicants must have an official transcript sent directly from that college or university.

Student Visa Applicants

International applicants holding an F-1 or M-1 Visa are admitted on a rolling basis. Applications will not be considered until all of the following items have been received:

1) FTCC Application
2) Preliminary Application (Form A)
3) Completed financial certificate (Form B)
4) Official high school (secondary) transcript
5) Official college or university transcripts, if applicable
6) Completed Pre-entrance Medical Record
Student Visa (F-1 or M-1)
In order to apply for an F-1 or M-1 (student visa), applicants must first apply and be admitted to a school in the U.S. After admission to Fayetteville Technical Community College (FTCC), a Form I-20, which authorizes the applicant’s study period, will be issued. A $200.00 Student and Exchange Visitor Information System (SEVIS) I-20 fee must be paid. The Form I-20 must be submitted to the U.S. Consulate in the applicant’s country to apply for a visa. To obtain a non-immigrant, student visa, applicants must be able to prove the following:
(1) That they have strong ties to their home country demonstrating their intention to return home (In other words, applicants do not plan to immigrate permanently to the U.S.)
(2) That they have sufficient funds to pay for their financial needs while studying in the U.S., including tuition, health insurance, housing, travel expenses, etc.
(3) That they have legitimate intentions to study full-time and gain education and training which will be useful in their home country. After receiving an F-1 or M-1 Visa from the U.S. consulate, applicants are eligible to come to the U.S. and “apply” for entry. An Immigration Inspector at the border (usually the airport) will decide if applicants may enter by looking for proof of the above criteria once again. Therefore, applicants may be asked to show financial documentation again, or to prove study plans. Applicants must show their I-20.

English Proficiency
Proficiency in the use of the English Language and past academic record will be important factors in the admission decision. Students will be required to take the NC DAP once admitted to school.

Financial Information
As part of the admission process to Fayetteville Technical Community College and before F-1 or M-1 Visa approval is granted, applicants must show evidence of official financial support (Form B) for each year of study in the United States. The college cannot provide financial aid to students applying from other nations. Applicants must certify their financial support.

Many international students receive financial help from sources outside the United States. Therefore, it is suggested that applicants consult the excellent publications about study abroad, which may be available through local educational institutions or the United States Consulate. Applicants should also investigate financial assistance that may be available through their government or home university.

Fayetteville Technical Community College is tax supported by the people of North Carolina. Legal residents of North Carolina and the United States are given preference in the admission process. Therefore, applications of international students are accepted only on a space availability basis. Unless some exception applies, international students are assessed tuition at the out-of-state rate.

Employment
(1) On-campus. F-1 and M-1 students are allowed to work part-time on the campus of the school they are attending (and whose I-20 they have). They may work up to 20 hours per week while attending full-time classes. They can work full-time during summer vacations and between terms, provided they continue at that school the following term.

(2) Off-campus. Students holding F-1 or M-1 Visas are not authorized to work except under extraordinary circumstances. There are two ways to get permission for off-campus work: practical training and severe economic hardship. The United States Immigration Services must grant permission.

Period of Authorized Stay
Admission to the U.S. on an F-1 or M-1 Visa is for “duration of status” (D/S). This is the time estimated for program completion. During that time, students are required to make satisfactory progress each term, keep a current passport that is valid for at least six months into the future, and maintain a valid I-20.

Housing
Fayetteville Technical Community College serves an entirely commuting student body. Housing is not available on campus. International students must seek housing in the community and commute daily by public transportation. Arrangements for housing must be made between the landlord and the student.

Transportation
International students must provide their own transportation or use public transportation to travel between the campus and their housing accommodations.

Full-time Requirement
International students holding an F-1 or M-1 Visa must enroll as a full-time student. College students must pass a minimum of 12 credits per term. The student should make satisfactory progress in their approved program each term. Otherwise, the continuation of study on a student visa may be jeopardized and the Form I-20 rescinded.

Non-Student Visa and Resident Alien Applicants
Foreign applicants holding either (a) a visa other than an F-1 or M-1 or (b) a Resident Alien card may be admitted on a rolling basis. Your application will not be considered until all of the following items have been received:
(1) FTCC Application

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
Following the criteria, credit will be awarded only from the originating institution according to the will be reviewed during the admissions process. Credit will be official transcripts of all post-secondary work. Transcripts universities and wish to receive transfer credit should submit Students who have completed course work at other colleges and 

**ADMISSION OF TRANSFER STUDENTS**

Students who have completed course work at other colleges and universities and wish to receive transfer credit should submit official transcripts of all post-secondary work. Transcripts will be reviewed during the admissions process. Credit will be awarded only from the originating institution according to the following criteria:

1. Prior coursework must correspond in instructional hours and content must be substantially similar to FTCC courses required in the degree or diploma being sought.

2. Coursework must have been completed at a regionally accredited college or university (i.e., Southern Association of Colleges and Schools Commission on Colleges, or regional counterpart). Coursework completed at a non-regionally accredited college/university can be submitted for review per the transfer credit appeal process.

3. Course work must have been completed with a grade of “C” or better.

4. Major courses with a technical/skill content have time limitations in terms of their relevance to the curriculum program and to the occupational field. Courses in the technical or major area taken more than seven years prior to the current semester, either at other institutions or at FTCC, may not be considered for transfer purposes. Some technology-based programs may have stricter limitations on the transfer of grades, depending on changes in technology and competencies required for jobs in the field. Based on the recommendation of the related Department Chairperson, the final decision of the acceptance of transfer credit for major courses will be made by the Associate Vice President for Curriculum Programs.

5. Transfer students must complete a minimum of 25 percent of resident credit at FTCC to be eligible to receive an associate degree. (Note: The American Bar Association requires all paralegal students to complete a minimum of 18 semester hours in legal specialty courses at FTCC.)

6. Official FTCC transcripts will not be provided until the student has completed the first term of enrollment at the college.

**TRANSFER CREDIT APPEAL PROCESS**

The evaluators will provide credit evaluation of coursework based on official transcripts from each institution a student has attended and submitted to FTCC. Also included in the evaluation process are documents pertaining to Credit for Prior Learning (CPL) such as professional certifications. A student may appeal a course transfer decision and request a re-evaluation of his or her record. This includes college or university credit or CPL credit. Students must follow these steps:

1. Review all transfer and CPL awarded by FTCC via WebAdvisor, or with a counselor or advisor.
2. Complete the applicable online appeal form (college/university or CPL).
3. For college/university credit, obtain a copy of the course syllabus for each course being appealed.
4. For CPL, follow the steps on the online form.
5. Submit required documentation via the appropriate appeal website on the FTCC webpage.

The evaluators will reevaluate the requested course(s) for reconsideration through consultation with the appropriate dean, division, or department chair. Once the re-evaluation is complete the decision will be emailed to the student’s FTCC email account within 30 business days of the receipt of the appeal form, excluding holidays and college closures.

If additional documentation is required from the student for the evaluator or the department chair to make the decision, the student has 2 weeks from the date of the request to supply documentation. Further appeals will be forwarded to the appropriate dean.

**INTERCURRICULAR TRANSFER OF CREDITS**

Students who change curriculums may be awarded transfer credit for applicable courses taken and passed in the previous curriculum. All credits considered must be applicable to the instructional field and approved by the Department Chair or appropriate Academic Dean.

**CREDIT FOR NONTRADITIONAL LEARNING**

FTCC will evaluate nontraditional educational records for the possible transfer of credits. Full documentation must be provided before an evaluation can be made. Transfer of credit for non-traditional work is limited to no more than 75 percent of the AAS degree or diploma requirements. (See Handbook on FTCC website.)

**Advanced Placement Examinations**

Applicants to the college may request transfer credit for subjects covered under advanced placement examinations.
CLEP and DANTES General Exams and Subject Area Exams are evaluated for transfer credit. Test scores must meet ACE (American Council on Education) recommendations. Advanced credit awarded at prior colleges must be supported by official test score reports to be considered for transfer credit.

Military Service Training

Military service school records may be submitted for transfer credit evaluations. The service member is encouraged to submit a “Request for Evaluation of Military Experience” (form DD295) or the JST Transcripts (Army/ACE Registry System) transcripts for evaluation purposes. Service school diplomas and MOS (Military Occupational Specialty) Evaluation Score Reports are acceptable in lieu of the JST Transcript. Military service experiences are evaluated using ACE Guide recommendations.

Industrial and Professional Training

FTCC will consider the evaluation of credit for documented professional training and certification. Transfer of credits is considered using The National Guide to Educational Credit for Training Programs.

Experiential Learning

FTCC does not consider experiential or life experiences for transfer credit evaluation.

Proficiency Tests

FTCC students who plan to challenge a curriculum-level course must contact the department chairperson of the appropriate department to request a proficiency examination. Proficiency tests may be taken only during the first four class days of the term and are offered only if each of the following conditions are met:

a. Students must pass a preliminary screening test given by the department chairperson.

b. Students must be registered for the course in order to take a proficiency exam.

c. Students who pass a proficiency exam at the “C” grade level or above will be assigned a “P” grade and will not be required to attend further class sessions.

d. Veteran students and other third party recipients may not use courses passed by proficiency for the purposes of educational entitlement. Students who pass a proficiency test are encouraged to add additional curriculum courses in order to maintain full-time status.

*CLEP examinations will be the required proficiency test where available. Students will be referred to area CLEP examination sites for testing when appropriate.

Tech Prep Advanced Placement

Cumberland County high school graduates who participated in the Career Technical Education Program may be awarded proficiency credit based upon the recommendations of the Cumberland County Career Technical Education Curriculum Development Committee.

SOCAD

Fayetteville Technical Community College is a Servicemembers Opportunity College (SOC). SOC functions in cooperation with 13 higher education associations, the Department of Defense, and Active and Reserve Components of the Military Services to expand and improve voluntary postsecondary education opportunities for servicemembers worldwide. FTCC participates in the SOCAD-2 network with eleven degree programs available. For more information contact the FTCC Ft. Bragg Office at 678-1050.

READMISSION OF FORMER STUDENTS

Any student who withdraws from the College and wishes to return must contact the Admissions Office to reactivate his/her application for admission.

1. A student who withdrew for unavoidable reasons may be eligible for readmission at the beginning of the next term.

2. A student who was dismissed from the College by disciplinary action may re-enter only upon approval by the Program Area Dean.

3. A student who withdraws from the institution and re-enters at a later term, including students who have completed at least one or more terms, will be subject to curricular requirements in effect at the time of reentry.

4. Any student indebted to the College is ineligible to re-enter until all financial obligations to the institution have been satisfied.

REQUIRED PLACEMENT TEST

ASSESSMENT AND EVALUATION OF STUDENTS

Fayetteville Technical Community College wants each student to be successful in meeting his or her educational goals. To evaluate the level of preparation and to place students in appropriate courses, the College requires assessment in the skill areas of English, reading, and mathematics. To satisfy assessment requirements for most programs, the student needs to take the NC DAP (or other North Carolina Community College System approved assessments) unless eligible for a waiver. Assessment scores will be used for course level placement. A student may place at the college level in one or more areas and at the college preparatory level in other areas(s). The College may limit the student to college preparatory courses and any other instruction for which he or she is adequately prepared. Students who need testing accommodations due to a documented disability should contact the Disability Support Services office at (910) 678-8349.

REQUIREMENTS FOR TAKING ASSESSMENT

Whether the student is seeking full-time or part-time enrollment, unless he or she is qualified for an exception, the student must complete a NC state approved assessment as indicated:

1. Prior to participating in registration if the student is seeking degree.
2. Prior to registration for any course which has a specific assessment score as a prerequisite. Assessment scores may not be more than five years old from test date.

ASSESSMENT EXEMPTIONS
Students will be exempt by section from taking the entry assessment for registration in courses for which they are qualified if they provide an official transcript or other written documentation for one of the following exceptions:

(1) The student has attended or graduated with an associate’s degree or higher in which English was the language of instruction and has successfully completed, with a grade of “C” or higher, a validated, equivalent college level English and/or mathematics course.

(2) The student has earned SAT scores at or above 500 in Math, Verbal, and/or Writing within the last five years or has earned ACT scores at or above 20 in Math, Reading, and/or English within the last five years.

(3) The student is a recent (within 5 yr) high school graduate with an unweighted GPA of 2.6 or higher and meets high school course sequencing requirements for college preparatory tracks.

(4) The student has earned AP score of 3, 4, 5, in Math and/or in English. Has CLEP score of 420 paper version or 50 in computer version in Math and/or in English. Has earned IB score of 5, 6, 7, in Math and/or English.

NORTH CAROLINA COMMUNITY COLLEGE SYSTEM
APPROVED ASSESSMENTS
NC DAP: FTCC administers the NC DAP Computerized Placement Tests from the College Board. The assessments are Reading Comprehension, Sentence Skills, Computation/Arithmetic and Elementary Algebra.

There is no charge for the NC DAP. The assessment takes approximately two to four hours and is available days and evenings. View the assessment schedule at http://www.faytechcc.edu/campus-life/academic-resources/academic-assessment-and-placement/testing-schedule.

Retest Policy: A student who requests to retest on all or parts of the NC DAP, must demonstrate completion of a pre-curriculum course, completion of a practice test, attendance at a Success Center Workshop.

Students may not retest while enrolled in a DMA or DRE course until after the 90% point of the class.

Students who plan to challenge a curriculum level course must contact the Department Chairperson of the appropriate department to request a Proficiency Exam. Proficiency Exams are given under the following conditions:

• Student passes preliminary screening given by the Department Chairperson

• Student registers for the course in order to take the proficiency exam

• Student completes Proficiency Exam within the first four class days of the semester

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
ACADEMIC INFORMATION

CURRICULUM GRADING PROCEDURES
(Effective Fall 2015 Semester)

FTCC course grades and assignment grades are based on a 10 point scale. Each grade is assigned a “grade-point equivalent” in quality points for each term credit hour scheduled. The grade point average (GPA) is determined by dividing the total of quality points earned by the number of term hours scheduled. Final grades are based on a 4.0 grading system.

Letter grades are used to indicate the quality of a student’s work.

<table>
<thead>
<tr>
<th>Numerical Grade</th>
<th>Letter Grade</th>
<th>Grade Point Equivalent</th>
</tr>
</thead>
<tbody>
<tr>
<td>90-100</td>
<td>A-Excellent</td>
<td>4 points per credit hour</td>
</tr>
<tr>
<td>80-89</td>
<td>B-Good</td>
<td>3 points per credit hour</td>
</tr>
<tr>
<td>70-79</td>
<td>C-Average</td>
<td>2 points per credit hour</td>
</tr>
<tr>
<td>60-69</td>
<td>D-Below Average</td>
<td>1 point per credit hour</td>
</tr>
<tr>
<td>0-59</td>
<td>F-Failure</td>
<td>0 grade point</td>
</tr>
<tr>
<td></td>
<td>I-Incomplete</td>
<td>After eight (8) weeks for 16 week classes and 2 weeks for 8-week classes, the grade becomes an “F”</td>
</tr>
</tbody>
</table>

AU.... Audit (No Credit) – No effect on grade point average
NS .... No Show – No effect on grade point average
P ....... Proficiency – No effect on grade point average by examination may be given after the student has registered for the course and after a preliminary screening test is given by the department chairperson. The grade equates to a “C” or better. This process must be completed within the first four class days of the term.
T ....... Transfer – No effect on grade point average
W ....... Withdrew from Class(es) - the grade given when a student drops a class after the 10% point in time through the 90% point in time. The grade is not factored into the student’s grade point average.
I ... (Incomplete) may be given at the discretion of the instructor when all course requirements have not been met. After eight weeks from the end of the class, an incomplete grade in a sixteen-week class becomes an “F.” After four weeks from the end of the class, an incomplete grade in an eight-week class becomes an “F.” After 2 weeks from the end of the class, an incomplete grade in a four or five week class becomes an “F.”

AU (Audit) requests must be made at the first class session. The intent of the AU is to allow students to take courses for no credit. Forms must be obtained from the Registrar’s Office and be signed by both student and instructor during the first two days of the sixteen-week course and the first day of an eight-week course.

Developmental classes may not be audited. To receive the AU, the student must meet all course requirements. This grade is permanent and can not be converted to a letter grade.

NS (No Show) is administered when a student registers, but fails to attend face-to-face class(es) or fails to participate in on-line classes by completing an assignment prior to the 10% point of the term.

TA, TB, TC (Transfer) credit is granted for courses completed at other regionally accredited community colleges, colleges, and universities. A, B, C indicates the grade earned at previous institution.

Students will receive their grades via Web Advisor.

All final course grades will be letter grades in accordance with the adopted grading system. Grade reports are posted via Web Advisor.

All students must have at least a 2.0 grade point average (major and cumulative GPA) and have passed all curricular subjects as listed in the course outline under which they entered to be eligible for graduation. They must also meet the grade level needed in major subjects required to take licensure examinations.

Health occupations curricula, Funeral Service Education, and Paralegal Technology require course grades of C or better in order to progress to the next course/term. Each department area will issue to the student in written form the necessary information to cover such grading policies. Students who request transfers to other degree curricula are expected to have maintained a 2.0 GPA on all courses completed including prerequisite courses.

Pre-Curriculum Developmental Course Grading System

Courses numbered below 100 are pre-curriculum developmental courses and are graded on a ten-point grading scale. The following numerical and letter grades are assigned for pre-curriculum developmental courses:

<table>
<thead>
<tr>
<th>Numerical Grade</th>
<th>Letter Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>80-100</td>
<td>P - Passing or</td>
</tr>
<tr>
<td>0-79</td>
<td>S - Satisfactory</td>
</tr>
</tbody>
</table>

Pre-curriculum developmental course grades are not counted as credit towards graduation, and they are not calculated into the student’s cumulative Grade Point Average (GPA).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
COURSE REPEAT POLICY AND PROCEDURE

Course Repeat

A student may repeat for credit or audit any curriculum course one time in an effort to earn a higher grade and/or to add to his/her mastery of course content. If a student petitions for another attempt through the appropriate Dean for their program, a third and final attempt may be granted based on documented major extenuating circumstances. When a course is repeated, the best grade earned (A, B, C, D, F, or W) will be counted in determining the hours earned and in determining the GPA at the College. However, all grades will be recorded on the student’s official transcript. Grades audit (AU) is not calculated in the GPA, but they will be considered as a repeat grade.

A student’s (GPA) is based on the number of credits earned and the grades received. Cumulative GPA reflects all courses taken; major GPA reflects courses in the major.

Specific program requirements for academic progress are outlined in the College Catalog (i.e., health programs curricula, Funeral Service Education, and Paralegal Technology).

The University of North Carolina System and other colleges or universities require that a student earn a grade of “C” or better in each transfer course completed. A student planning to transfer should realize that receiving institutions do not have consistent policies regarding course repeats. Admissions personnel will review the transcripts of transfer applicants and may recompute grade point averages to include the grade originally assigned, or compute all grades assigned at Fayetteville Technical Community College.

Note to students receiving VA assistance: Two attempts will be the maximum allowed for counting a course as part of a student’s credit hour load for determining eligibility. Veterans who wish to repeat courses, for which a passing grade (D or higher) has been earned, will not receive educational benefits for repeating those courses.

Note to students receiving financial aid: All attempted classes will be counted toward academic progress. (Attempted includes a grade of A, B, C, D, F, W, U, I)

Note to students interested in a health program: Previously completed science courses must have been satisfactorily completed with a grade of “B” or better within five years of entry in a health program. These courses may be attempted only twice. The appropriate health department chairperson through the Dean of Health Programs may approve exceptions. (Effective Fall 2015 Semester)

Grade Forgiveness Procedures

Form G-8, Request for Grade Forgiveness

A student may petition in writing to the Dean of Enrollment Management and Financial Aid to have grades which are at least four years old forgiven. In order for the request to be considered, the course in question must not have been under a previously granted certificate, diploma, or degree. Prior to making this request, it is the student’s responsibility to review the change with a counselor to make sure that there are no potential program conflicts, Financial Aid issues, Veteran’s Aid issues or third party payment issues. The forgiven grade will remain on the student transcript; however, will no longer be counted in the calculation of the GPA. A forgiven grade will still be counted in the calculation of the Financial Aid GPA.

The Vice President for Academic and Student Services must approve exceptions to this policy.

SCHEDULE ADJUSTMENTS AND WITHDRAWALS

Withdrawal from Class(es)

Student Withdrawal from Class after the 10 Percent Date.

• A student may withdraw from a class as late as the 90 percent date of the term without penalty. The transcript will indicate a “W”. A “W” grade does not negatively impact the student’s GPA, but will count as an attempt for purposes of veteran’s benefits or financial aid.

• Failure to withdraw properly may result in a failing grade for the course and may jeopardize a student’s right to reenroll at a later date.

• A student who withdraws or drops from any portion of a course (classroom, lab, clinic or shop) will be dropped from the entire course (class and lab).

• A student who receives Financial Aid or VA Educational benefits should confer with personnel in those offices before dropping classes or withdrawing from the College to determine the impact of a withdrawal on those benefits.

• In order to withdraw from class(es) a student must submit the Student Online Withdrawal Form found in WebAdvisor. If the student does not complete the withdrawal process, he/she will remain enrolled in the course and will receive the grade assigned by the Instructor. The instructor will note the last day of contact with the student, which will affect financial aid owed for repayment.

• Faculty will not process withdrawals, except in the case of Administrative Withdrawals described below.
Administrative Withdrawal by Faculty or Administration

- For Curriculum Courses (numbered 100 or higher): Students who are absent for more than 20 percent of scheduled class sessions may be dropped from the class rolls by the instructor. A grade of “W” will be assigned if the student is dropped prior to the 90 percent date.

- For Developmental Courses (numbered below 100): Students who are absent for more than 10 percent of scheduled class sessions may be dropped from the class rolls by the instructor. A grade of “W” will be assigned if the student is dropped prior to the 90 percent date.

- A student who registers for a class and never attends a face-to-face class or fails to participate in an online class by completing an assignment within the first 10% of class meetings is a “No Show.” A “No Show” student will be dropped from the class and a grade of “NS” will be assigned to the student’s record. An “NS” will not count in the student’s GPA or as an attempt for veteran’s benefits or financial aid. Awarded financial aid will be removed from students who withdrew from all classes as a “no show”.

- If a student is suspended from the College during the term, a grade of “W” will be assigned for each class in which the student was enrolled that term.

COURSE PREREQUISITE AND CO-REQUISITE GUIDELINES

A prerequisite is a course that must be taken prior to another course. A co-requisite is a course that must be taken at the same time as another course or prior to the course to be taken. The college may mandate prerequisites and co-requisites to ensure students are prepared to meet the requirements of the course material. Students who do not have confirmed prior credit, equivalency via placement test scores, or transfer equivalency that satisfies the stated prerequisites and co-requisites may be administratively dropped from the course. Course prerequisites and co-requisites may be found by using WebAdvisor. Academic Deans, Division Chairs, Department Chairs, and Program Coordinators have the authority to waive a prerequisite or co-requisite based upon verified evidence that the student has the necessary prerequisite or co-requisite experience to meet the demands of the higher level course. A Prerequisite Waiver Approval Form will be completed for each waiver granted when the evidence of the prerequisite or co-requisite is not identified in Datatel. *The form is located under the Faculty/Staff link on the homepage and a username and password is required to submit the form.

TUITION REFUNDS

1. A 100 percent refund shall be made if the student officially drops prior to the first day of the academic semester/term as noted in the college calendar; or prior to the first day of the class for classes that are not consistent with the academic semester/term. A 100 percent refund shall be made if the college cancels a course.

2. A 75 percent refund shall be made if the student officially drops from a class prior to or on the official 10 percent point of the class.

3. Military Student. A full refund of tuition and fees shall be granted to military reserve and National Guard personnel call to active duty or active duty personnel who have received temporary or permanent reassignments as a result of military operations that make it impossible for them to complete their course requirements.

4. Death of a Student. If a student, having paid the required tuition for a class, dies prior to completing that class, all tuition for that class shall be refunded to the estate of the deceased upon the college becoming aware of the student’s death.

5. To comply with applicable federal regulations regarding refunds, federal regulations supersede the state refund regulations.

Tuition/Fee Refund Appeals

Students are responsible for charges and payments to their student tuition/fee account.

Appeals for the current and/or immediate prior term only will be considered and reviewed. All other appeals will not be considered. Decisions of the Appeal Committee are final. Book charges may not be appealed.

Certain mitigating circumstances may qualify for a refund of tuition and fees paid to FTCC. Mitigating circumstances may consist of the following:

- Death of an immediate family member. A copy of the death certificate is required.
- Medical emergency which results in the inability to attend class. Medical documentation is required.
- Medical
documented the dates of illness or admission to
the hospital and/or a signed letter from the doctor is required.

• Unanticipated military service, including TDY, training,
  activation for deployment and unanticipated reassignment. Proof of orders is required.

For any other mitigating circumstances, documentation and explanation must be submitted with the appeal form.

Requests for a tuition refund will be reviewed by the Student Tuition/Fee Appeal committee. Appeals are reviewed monthly on the third week of every month. A letter will be mailed within a week after the Appeals Committee meeting indicating the decision of the Appeals Committee.

Financial Aid Students: A dropped class will result in a change in enrollment credit hours, which could generate a refund or a requirement to repay financial aid. Please contact the Financial Aid Office at 910-678-8242 or finaid@faytechcc.edu with any questions regarding your financial aid prior to submitting this form.

RETURN OF FEDERAL TITLE IV FUNDS, MILITARY TUITION ASSISTANCE, AND VETERAN ADMINISTRATION SPONSORED TUITION PROGRAMS FOR COMPLETE WITHDRAWALS

Students receiving Federal Title IV funding (Pell Grant, Supplemental educational Opportunity Grant, or William D. Ford Direct Loans) and active duty military or veteran students receiving tuition sponsorship through the Military Tuition Assistance Program or Veteran’s Administration, who completely withdraw from classes, are required to have aid evaluated to determine amount earned. Unearned aid is returned to the federal programs. The amount of federal funds returned to the federal programs will be determined based on the date the withdrawal process begins or the date of attendance. If the date the withdrawal process begins or the last date of attendance is not available or known, the federal refund will be based on the 50 percent point of the semester. Title IV funds, military tuition assistance, or Veteran Administration funds will not be returned after the 60 percent point of the semester.

BOOKSTORE REFUNDS

Bookstore refunds are made under the following conditions:

• Students are allowed ten (10) calendar days beginning with the first day of the class to return textbooks for refund or credit. After the initial return period ends, students are allowed 3 business days from the date of purchase for returns.

• Books which have not been used, damaged, or marked in will be accepted for 100 percent refund or credit toward the purchase of additional items. Proof of purchase (cash register receipt) must be shown.

• Books containing access codes of CDs are not returnable if the access coder or CD has been opened.

• Bookstore purchases made using a MasterCard or VISA will be refunded back to the same credit card if the book(s) are returned with the original sales receipt and credit card.

• Bookstore purchases made with Personal Check and returned with original sales receipt will be held for 10 business days after date of purchase to ensure the check clears. The refund voucher will be processed by the Office of Business and Finance and the refund will be issued to the student per refund preference submitted via WebAdvisor approximately two weeks later.

• Bookstore purchases made with Cash and returned with original sales receipt will be processed by the Office of Business and Finance and the refund will be issued to the student per refund preference submitted via WebAdvisor approximately two weeks later.

• No cash refunds will be made.

• Military Students: The College shall buy back textbooks through the colleges’ bookstore operations to the extent possible. The College will use distance learning technologies and other educational methodologies to help these students, under the guidance of faculty and administrative staff, complete their course requirements.

TUITION WAIVERS

(Subject to change)

(1) High school students enrolled in a community college curriculum course under the High School Connections program are exempt from tuition.

High school students in the High School Connections program are also exempt from the CAPS fee. In addition, high school students in these programs are exempt from the activity fee and technology fee when the course location is the high school. The activity fee and technology fee is paid by Cumberland County Schools when the student attends high school in the public school system. Private and home school students pay the activity fee and technology fee under the High School Connections program.

(2) When an employer, other than the Armed Forces, pays tuition for an employee to attend a community college and when the employee works at a North Carolina business location, the employer is charged the in-state tuition rate.

(3) Certain out-of-state students who are members of families that were transferred to this state by businesses, industries, or civilian families transferred by the Armed Forces, for employment may be eligible for tuition payment at the in-state rate.

(4) Out-of-state active duty Armed Forces members and their dependents stationed at a North Carolina base
are eligible to be charged the in-state tuition rate. The waiver is for the academic year. Continuing students may re-apply each fall term.

(5) Members of the Armed Forces that register through the GoArmyEd website are exempt from the activity fee, technology fee, and CAPS fee based on the agreement between the College and contractual agency.

(6) Students enrolled in Internet courses only (taking no traditional face-to-face courses) may request a waiver of the student activity fee.

(7) Volunteer fireman; municipal, county or state fire department personnel; volunteer EMS or rescue and life saving department personnel; municipal, county or State EMS or rescue and life saving department personnel; and municipal, county or State law enforcement officers are exempt from tuition and registration fees when enrolled in courses requested by their organization in support of that organization’s training needs.

(8) Students enrolled in Human Resources Development programs are exempt from continuing education registration fees.

(9) Elementary and secondary school employees enrolled in courses in first aid or cardiopulmonary resuscitation (CPR) are exempt from continuing education registration fees.

(10) Law enforcement officers employed by a municipal, county, state agency and trainees that are sponsored by a state, county, or municipal law enforcement agency taking state-mandated Basic Law Enforcement Training Programs are exempt from tuition.

(11) Eligible survivors of a law enforcement officer, firefighter, volunteer firefighter, or rescue squad worker killed in the line of duty, are exempt from tuition and registration fees.

(12) An eligible spouse or child of a law enforcement officer, firefighter, volunteer firefighter, or rescue squad worker who is totally and permanently disabled, as a result of an injury sustained in the line of duty, is exempt from tuition and registration fees.

(13) An eligible ward of the state is exempt from tuition and registration fees not covered by other financial aid.

(14) Certain veterans shall be granted in-state tuition rates so long as they live in North Carolina, enroll at FTCC within 3 years of leaving active duty, and meet other criteria as described in G.S. § 116-143.3A.

(15) Students participating in an apprenticeship program that meets all of the following criteria: (a) is a registered apprenticeship program recognized by the United States Department of Labor; (b) has a documented plan of study with courses relating to a job-specific occupational or technical skill; (c) the students is a high school student when entering the program.

(16) Tuition/fee waivers are not applicable to courses established on a self-supporting basis.

ATTENDANCE POLICY

Because of the nature of the vast majority of the courses at Fayetteville Technical Community College, the administration has established the following policy. The policy has been established for the benefit of the students who are forced, because of reasons beyond their control, to miss classes as well as those who do not miss any classes (both groups of students are involved). Attendance may be taken separately in each portion of a course (i.e., class, lab, clinic, shop). Missing 20% of any portion of a course may result in administrative withdrawal. When enrolled in developmental studies courses missing 10 percent or any portion of the course may result in administrative withdrawal. A student who registers for a class and never attends a face-to-face class or fails to participate in an online class by completing an assignment within the first 10% of class meetings is a “No Show.”

(1) Instructors will make every effort to advise students who have missed more than 10% of a course that their standing in class is in jeopardy. Students who add a course after the first day of the class are responsible for all materials covered from the beginning. Instructors are encouraged to refer students with excessive absences to the Counseling Office.

(2) If absences exceed 20% (10 % for developmental studies courses), at any point during the term, the faculty member may: withdraw the student from the course, or allow the student to continue in the course under conditions set by the instructor. If the student has not met the conditions set by the instructor within fifteen (15) working days of the 20% point, the student will be withdrawn from the course.

(3) Tardy students interrupt the beginning of a class meeting. If a student enters the class after the instructor has started the class, the student shall be recorded as being tardy. Three tardies shall be counted as one absence.

(4) No absence, for any reason, shall excuse a student from an announced test, examination, or other assigned activities. Except in the instance of an excused absence for Religious or solemn observances, make-up of any tests or work missed shall be at the discretion of the faculty member. Students shall be permitted to make-up tests or missed assignments as the result of a religious or solemn observance, so long as notice of the observance was given to the college in writing within two weeks of the first meeting of the class. The make-up of any test or examination shall be scheduled on the earliest possible date after the student returns to class.

(5) Special attendance policies are in effect for the following programs: Associate Degree Nursing, BLET, Dental Assisting, Dental Hygiene, Central Sterile Processing, Early Childhood Education Credential Certificates, Emergency Medical Science, EMT classes, Fire Academy (Continuing Education), Mammography, Nursing Assistant, Pharmacy Technology, Physical Therapist Assistant, Practical Nursing, Radiography, Respiratory Care, Speech Language Pathology Assistant, and Surgical Technology. No department may impose a different attendance policy unless

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
specifically required for licensure purposes. Requests for a more stringent policy must be submitted in writing to, and approved by, the appropriate Program Area Dean.

(6) Special permission must be obtained from the Registrar/Curriculum and the faculty member before a friend can sit in on a class. Students are responsible for their guest’s behavior while on campus.

(7) Children are not to be left unattended anywhere on campus. Small children of students are not permitted to sit in classes or labs.

FINANCIAL AID STANDARDS

How to Apply for Student Financial Assistance

Students can submit the Free Application for Federal Student Aid using the following methods:

1. Internet filing at web site www.fafsa.gov. You must attain an FSA ID prior to submission of the FAFSA that will serve as your electronic signature.

2. Paper FAFSA – students must request a paper FAFSA from the Department of Education by calling 1-800-433-3243.

Filing a FAFSA via the Internet is the preferred and quickest method to submit an application.

The process for requesting financial aid through the College is the same for all types of need-based assistance.

1. The student should file the Free Application for Federal Student Aid (FAFSA)

2. The application cannot be filed before October for the upcoming Fall semester. Applications must be received no later than June 30.

3. Students should complete the federal tax return before filing an application for financial aid in order to provide accurate information.

4. The College will receive your FAFSA about a week after it is submitted with all required signatures. Some students will be requested to submit federal income tax transcripts and other documentation before an award will be made. All requests for information are sent to the student’s Fayetteville Technical Community College (FTCC) email address and are viewable on WebAdvisor.

Preferred Deadlines for Financial Aid Applications at FTCC

Fall Semester ...................March 15
Spring Semester..................November 1
Summer Semester ..............May 1

Terms and Conditions of Financial Aid

Financial aid awards are subject to the following stipulations:

1. The student must be a citizen or permanent resident of the United States.

2. Students must be enrolled in a minimum of twelve (12) credit hours to be considered full time for the federal pell grant regardless of the semester. Federal pell will be adjusted accordingly for students enrolled in less than twelve credits. Students must register for a minimum of six (6) credit hours per semester to be eligible for federal loans and the federal supplemental educational opportunity grant. If the student drops or cancels classes after initial registration, the financial aid package may be adjusted.

3. Students must register for courses that are part of their academic program in order to qualify for financial aid assistance. Financial Aid will not pay for classes outside of the student’s program.

4. If the student drops or cancels classes, decreases or cancels eligibility for financial aid, any balance owed to the College is the STUDENT’S RESPONSIBILITY.

5. Students who completely withdraw from all classes will have their earned aid amount evaluated through the federal formula. Complete withdrawals will affect the student’s Satisfactory Academic Progress status. If the student loses financial aid eligibility due to financial aid suspension or termination, the student will have to submit a Satisfactory Academic Appeal Request to have their financial aid considered for reinstatement.

6. The student must inform the Financial Aid Office of aid received from sources outside FTCC (i.e. scholarships).

7. If additional financial aid is received after the award letter is issued, the award package may be adjusted or cancelled.

8. The student must meet FTCC’s Satisfactory Academic Progress policy standards and attend all courses for which they have registered.

9. Adjustments to the award package may be required for changes in the family’s financial situation, additional available funding, errors in calculations, or clerical errors.

10. The student will be notified of all adjustments to the financial aid award package.

11. Financial aid received for the current award year cannot be used to pay indebtedness from a previous award year.

12. All funds received are to be used for education-related expenses while attending FTCC. Federal funds are applied to all charges on the student accounts.
13. All funds are to be used responsibly when purchasing books and supplies at the bookstore. Funds are to be used only for the aid recipient for classes registered and not used to purchase books and supplies for family and friends.

14. In cases of enrollment at more than one institution for the same period of time, federal and state funding may only be received at one institution.

15. Financial aid is contingent upon the continuation of the current aid programs and sufficient appropriations.

General Award Information

The academic year includes the fall, spring, and summer semesters. Students will be awarded initially for the fall and spring semesters assuming full-time enrollment. Adjustments will be made if actual enrollment is less than full time at the end of the drop/add period for each semester. Adjustments for dropped classes may result in charges to the student’s account.

Federal Pell Grants will be awarded for the summer semester based on remaining eligibility for the academic year. Students applying for a summer William D. Ford Federal Direct Loan must submit a separate request no earlier than April 1. Additional program funds for summer will be awarded based on availability of funds. Summer awards are typically made during the spring semester.

Satisfactory Academic Progress (SAP)

Once each year following the posting of grades to the official transcript, the Financial Aid Office will review the student’s academic history and notify students who are being placed on financial aid suspension or termination, and student who have reached the maximum time frame for their program of study (150%). Students enrolled in certificate programs only will be reached the maximum time frame for their program of study financial aid suspension or termination, and student who have academic history and notify students who are being placed on transcript, the Financial Aid Office will review the student’s academic progress each academic year (May). Students not meeting the minimum standard after an academic year will be placed on financial aid suspension or termination. Students on suspension or termination are not eligible to receive any federal or state financial aid. Financial aid awards for upcoming semesters will be cancelled and students will receive a Financial Aid suspension or termination letter by mail.

Students may submit an appeal using the Satisfactory Academic Appeal Form and attaching appropriate documentation to explain extenuating circumstances which prevented them from maintaining Satisfactory Academic Progress. Appeals will be reviewed by a Satisfactory Academic Progress Committee. The Senior Vice President for Academic and Student Services and/or the Associate Vice President for Student Services may make professional judgement calls regarding all appeals. The full Satisfactory Academic Progress Policy is available on the FTCC website at www.faytechcc.edu.

Any student returning to FTCC after an absence of one or more semesters and having lost eligibility for financial aid or having been placed in financial aid warning status, shall have his/her eligibility recalculated upon return based upon the College’s current Academic Progress standards. Also, the recalculation shall consider any changes in the interim period to the student’s academic record made by the appropriate academic office, including grade forgiveness in accordance with the College’s Academic Policies.

Developmental Classes

The federal regulations that govern federal financial aid impose a limit to the total number of developmental courses a student can take and receive federal financial aid (34 CFR 668.20). This regulation states a student may receive Federal aid for up to one academic year’s worth of remedial classes (not to exceed 30 credit hours). All hours exceeding this limit, will not be paid using federal financial aid.

Withdrawals or All F Grades/Return of Title IV Funds

Federal law states that if a student receives federal financial aid and withdraws, quits attending or drops out of all of their classes before completing at least 60% of the semester, the student will have to return a portion of the federal aid that was received.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
Withdrawal (W Grade) from a class(es) is a non-punitive grade for cumulative and major GPA. Withdrawal grades are counted as an attempt for financial aid and health program admissions.

The student will be billed for the amount to be repaid according to this policy. A student must be reported to the Department of Education for repayment and, until the balance is paid, the student’s records will be placed on hold prohibiting a student from receiving any further financial aid funds nationally. If a student has tuition, fees or other outstanding institutional charges; registration, grades and transcripts will be placed on hold at FTCC until the debt is satisfied. Complete withdrawals will affect the student’s Satisfactory Academic Progress status. If the student loses financial aid eligibility due to financial aid termination, the student will have to submit a Satisfactory Academic Appeal Request to have their financial aid considered for reinstatement.

The full Satisfactory Academic Progress Policy is available on the FTCC website at www.faytechcc.edu.

STUDENT LOAN REPAYMENT AND DEFAULT

If you decide that you need a student loan, remember that you are responsible for repaying your loans with any interest that accrues. If you find that your student loan payments are more than you can afford, contact your servicer(s) to ask about different repayment plans and the possibility of delaying your loan payments for a time. You can find a list of your federal student loans and servicer information at www.nslds.ed.gov.

Remember, student loan default has consequences that could impact you in a very negative way, including wage garnishment, income tax returns being taken, and damage to your credit score. To learn more about the possible effects of student loan default, visit https://studentaid.ed.gov/repay-loans/default.

ACADEMIC STANDARDS FOR GRADUATION

The College requires that students maintain a cumulative and major GPA 2.0 or higher in order to meet institutional standards of progress and to be eligible for graduation.

ACADEMIC PROGRESS STANDARDS FOR ALL STUDENTS

All curriculum students at FTCC are required to meet minimum standards for academic progress. Academic progress is evaluated at the completion of each term by both the Registrar’s Office (for all students) and by the Financial Aid Office (for student’s receiving financial aid).

Maintain a Minimum Cumulative GPA

- Maintain a cumulative grade point average of at least a 2.0.
- Cumulative GPA is based on all credits attempted since your initial date of attendance at FTCC regardless of program.
- Grade forgiveness and program GPA are not factors in the calculation of cumulative GPA.
- A student’s cumulative grade point average must meet the minimum standards of the institution according to degree intentions. The minimum cumulative and major grade point average for graduation at FTCC is 2.0.

STUDENT ACADEMIC STANDING PROCEDURES FOR ALL STUDENTS

All curriculum students at FTCC are required to meet minimum standards for academic progress. Academic progress is evaluated at the completion of each term by the Registrar’s and Records Office. This procedure involves reviewing each student’s cumulative grade point average (GPA) to evaluate his or her academic progress and academic standing.

Students are encouraged to review the online College Catalog for details of how a student’s academic progress may affect his or her continued enrollment. Please keep in mind that Financial Aid and Veterans Services may have more restrictive academic progress and academic standing requirements as conditions of his or her continued funding.

GOOD STANDING

A student is considered to be in good academic standing when he or she earns a cumulative GPA or 2.0 or above.

ACADEMIC WARNING

A student is considered to be on academic warning when his or her cumulative GPA is below 2.0 at the end of the semester. This warning is an indication of potential academic problems and is communicated to the student and the student’s advisor and major department(s). A letter is sent via email encouraging attendance in interactive seminars facilitated by Counseling Services and an orientation of the Student Learning Center.

ACADEMIC PROBATION

A student is considered to be on academic probation when the student is already on academic warning and his or her cumulative GPA is still below 2.0 at the end of a semester. The student is placed on academic probation and this is noted on the student’s permanent record.

ACADEMIC SUSPENSION

A student is considered to be on academic suspension when the student is already on academic warning and his or her cumulative GPA is still below 2.0 at the end of a semester. The student is placed on academic suspension and this is noted on the student’s permanent record.

HONORS AND ACHIEVEMENTS

President’s List

The President’s List is generated at the end of each semester for students with a perfect grade point average. This honor is
reflected on students’ transcripts. Students must be approved for a curriculum prior to the start of the semester. The developmental studies curriculum and courses are excluded from consideration.

Students must make a final grade of “A” on a minimum of 12 credit hours of curricular work during the term of consideration.

Students must earn a 4.00 GPA on a minimum of 12 credit hours. The formula used to calculate this 4.00 GPA excludes the following grades: AU, P, S, T, W, WP, and W*. Students are NOT eligible for consideration until all course work is completed for the term.

**Dean’s List**
The Dean’s List is generated each semester for students with an outstanding grade point average. This honor is reflected on students’ transcripts.

Students must be approved for a curriculum prior to the start of the semester. The developmental studies curriculum and courses are excluded from this consideration.

Students must make a final grade of “A” or “B” on a minimum of 12 credit hours of curricular work during the term of consideration.

Students must earn at least a 3.5 GPA on a minimum of 12 credit hours. The formula used to calculate this minimum 3.5 GPA excludes the following grades: AU, P, S, T, W, WP and W*. Students are NOT eligible for consideration until all course work is completed for the term.

**The President’s Award**
The President’s Award is presented to a deserving graduating student at graduation selected by a faculty-staff committee. To be eligible for this award, a student must have a minimum 3.0 GPA and must have been enrolled on a full-time basis during the year of nomination. The student must exhibit and promote good student morale and demonstrate a genuine concern for FTCC and its role in the community.

**Ambassadors**
Each year, Fayetteville Technical Community College chooses eight outstanding students to serve as Ambassadors. The Ambassadors act as official hosts and hostesses for various campus events. Ambassador candidates must have completed 12 semester hours at FTCC, have a minimum 2.5 GPA, and be recommended by three members of the College community.

**Graduating With Honors**
Any student who has earned a GPA of 4.0 in his/her program of study at FTCC will be granted a diploma or degree with highest honors. Any student who has earned a GPA of 3.5 to 3.99 in his/her program of study will be granted a diploma or degree with honors. The student’s transcript will be noted to reflect this achievement.

**Requirements for Graduation**

To be eligible for graduation, the student must:

1. Successfully complete the curricular requirements in effect at the time the student entered the curriculum. Students who enter a curriculum after the fall term are subject to the curricular requirements in effect at the time of reentry. A student who withdraws from the College and reenters at a later semester, including students who have completed at least one or more semesters, will be subject to curricular requirements in effect at the time of reentry. In cases where students reenter at the beginning of fall semester, they are subject to the requirements for the curriculum at the fall semester re-entry.

2. Have met all admissions requirements for the program in which the student will graduate, including receipt of high school transcript/GED and transcripts from all colleges/universities that course credit for the certificate, diploma or degree requirements were derived. Students must complete a minimum of 25% of resident credit at FTCC to be able to receive an associate degree.

3. Have sufficient grade points to average 2.0 major and cumulative GPA.

4. Have passing grades in all required courses (certain curricula, especially in the health area, require that a student make at least a “C” on major subject areas for the student to be eligible to take state and national examinations for licensure.)

5. Must have taken care of ALL financial indebtedness to Fayetteville Technical Community College, including a graduation fee.

6. Applications for degrees or diplomas must be completed by the student and returned no later than the end of the fall semester for the spring graduation and the end of the spring semester for summer graduation from those programs that are completed in sequence during the summer (i.e., Emergency Medical Science, Radiography, and certain vocational curricula). The College assumes no responsibility for making special adjustments for students who fail to file applications by the designated time. A candidate who fails to file an application for graduation or meet graduation requirements by the designated date automatically voids his/her candidacy for that particular graduation.

7. Final, official high school transcripts are required for all associates, diplomas, and certificates to satisfy graduation requirements.
A WORD OF ADVICE: It is important to review your program requirements and your EVAL two semesters before graduation to be sure you are meeting all requirements. Check with your faculty advisor.

Progress Standards for Select Programs
(Effective Fall 2015 Semester)
In addition to a “C” or higher in related courses, the following programs require that a student complete the stated course work with a grade of “B” or better in order to progress to the next course/term/graduation:

Associate Degree Nursing – A “B” or better in all NUR and science courses and a satisfactory grade in clinical.

Central Sterile Processing – A “B” or better in all STP courses.

Dental Assisting – A “B” or better in all DEN and science courses and a satisfactory grade in clinical.

Dental Hygiene – A “B” or better in all DEN and science courses and a satisfactory grade in clinical.

Emergency Medical Science – A “B” or better in all EMS and science courses and a satisfactory grade in clinical.

Funeral Service Education – A “B” or better in all FSE courses and BUS 115, and PSY 141.

Health and Fitness Science – A “B” or better in all PSF and science courses.

Mammography – A “B” or better in all MAM courses.

Nursing Assistant – A “B” or better in all NAS courses.

Pharmacy Technology – A “B” or better in all PHM and science courses.

Physical Therapist Assistant – A “B” or better in all PTA and science courses.

Practical Nursing – A “B” or better in all NUR and science courses and a satisfactory grade in clinical.

Radiography – A “B” or better in all RAD and science courses.

Respiratory Therapy – A “B” or better in all RCP and science courses.

Speech-Language Pathology Assistant – A “B” or better in all SLP and science courses.

Surgical Technology (Degree or Diploma) – A “B” or better in all SUR and science courses.

The following programs require that a student complete the stated course work with a grade of “C” or better in order to progress to the next course/term:

a. Healthcare Management Technology – A “C” or better in all HMT courses.

b. Paralegal Technology – A “C” or better in all LEX courses.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
STUDENT RIGHTS, RESPONSIBILITIES, AND JUDICIAL PROCESS

**Illegal Discrimination (Title IX Reporting)**
Thomas R. McLean Administration Building, Rooms 162-A or B
Phone: 910-678-8373 or 8246
Title IX Administrator/Coordinator:
Carl Mitchell, mitchelc@faytechcc.edu
Alternate/Deputy Title IX Coordinator:
Barbara Driscoll, driscolb@faytechcc.edu
Hours: Monday to Friday, 8 AM to 5 PM
FTCC prohibits sex discrimination, including sexual harassment, sexual violence, sexual assault, stalking, or intimate partner violence that interferes with or limits a student’s ability to participate in or benefit from an educational program. The College will take necessary steps to stop such conduct using appropriate sanctions and remedies. Students that are experiencing any form of sexual discrimination at FTCC should report such activities to the Vice President for Human Resources, Workforce Development, and Institutional Effectiveness (Mr. Carl Mitchell) or the Personnel Manager (Ms. Barbara Driscoll) using the above telephone number or email addresses. In the event that students need to report sex discrimination activities hours the Human Resources Office may be closed, they can report the sex discrimination at the Office of Security and Public Safety located at the:
General Classroom Building, Room 102
Phone: 910-678-8433
24 hours per day

**MISREPRESENTATION STATEMENT**
Fayetteville Technical Community College (FTCC) is prohibited, by federal law, from making false, erroneous, or misleading statements, directly or indirectly, to a student, prospective student, member of the public, accrediting agency, state agency, or to the U.S. Department of Education. Misleading statements are those that have the likelihood or a tendency to deceive or confuse the person to whom they are made. A statement is any communication whether it is made in writing, visually, orally, or through any other means of communication. Substantial misrepresentation is misrepresentation on which a person could reasonably be expected to rely, or has reasonably relied, to that person’s detriment.

Statements specifically include, but are not limited to: a) The nature of education programs offered through the College; b) The nature of financial charges, tuition, fees, and other costs; c) The employability of graduates of the College; and d) The relationship of the College with the U.S. Department of Education. A Title IV eligible school may not describe its participation in a way that suggests approval or endorsement by the Department of Education of the quality of its educational programs.

**STUDENT RECORDS**
Fayetteville Technical Community College is committed to the concern for and protection of students’ rights and privacy of information. The College complies with the provisions of the Federal Family Rights and Privacy Act (FERPA), which is a federal law that governs the maintenance of students’ records. Under law, students have the right to inspect their educational records, correct inaccuracies in the records if warranted, and the records are protected from release of information without written consent. Most student records are open for inspection and review by the student. The parent(s) of a dependent student as defined in Title 26 U.S. C.s152 of the Internal Revenue Code also has this right to inspect records that are maintained by the College on behalf of the student.

The Registrar is responsible for student records. All students are provided rights under the Family Education Rights and Privacy Act (FERPA).

1. After submitting a written request and within two working days, a student may receive an unofficial copy of his or her transcript. Requests received during the registration period will be processed upon request. There is a $5.00 fee for each official transcript. Order transcripts online via the National Student Clearinghouse link.

2. State of Rights – Operating under the premise that the educational process is a cooperative venture between the student and FTCC, this policy emphasizes the following rights of students:
   a. to inspect and review their educational records
   b. to exercise limited control over other people’s access to their educational records
   c. to seek to correct their educational records in a hearing if necessary
   d. to report violations of FERPA to the Family Education Rights and Privacy Act Office—Department of Education
   e. to be informed about their FERPA rights

3. We cannot provide any contact information for our students, as that information is confidential under FERPA because of a change the Trustees of FTCC made last year. Specifically, the Board’s policy says that directory information is now limited to the following:
   1. Name
   2. Curriculum
   3. Enrollment Status
   4. Dates of Enrollment
   5. Degree Received

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
Students who object to the release of directory information must notify the Registrar/Curriculum in writing within five (5) school days from the first day of the term of the items that the student does not want disclosed. If no objection is received by that date, the information will be classified as directory information until the beginning of the next school year.

4. Students may petition the Registrar to amend or correct any part of the educational record which the student believes is inaccurate, misleading, or in violation of student rights. This includes the right to a hearing to present evidence that the record should be changed if FTCC decides not to alter it according to the student’s requests.

5. Students may file a complaint with the FERPA Office, Department of Education, 330 Independence Avenue, SW, Washington, DC 20201, if FTCC violates the FERPA laws or this policy.

6. Students may obtain copies of FERPA rights by making a request to the U. S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-4605, or by accessing the following websites: http://www.ed.gov/policy/gen/guid/fpco/ferpa/index.html

7. FTCC reserves the right to deny official transcripts or copies of records not required by FERPA in any of the following situations:
   a. The student has any unpaid financial or other obligations to the College, including, without limitation, unresolved parking violations, overdue books, or unpaid library fines.
   b. There is unresolved disciplinary action against the student or unresolved litigation between the student and FTCC.

Note: When a student has a name change, the student is responsible for contacting the Registrar’s Office in person, with the necessary documentation, to revise the information (i.e., a social security card). Out-of-town and/or distance learning students may fax or send a copy of the document to the Registrar’s Office.

STUDENT RIGHTS, RESPONSIBILITIES, AND JUDICIAL PROCESS

Student Rights

Students enrolled at FTCC are encouraged to develop the capacity for critical judgment and to engage in both an instructor led and an independent search for knowledge. Free inquiry and free expression are essential to developing these skills; however, students should exercise this academic freedom with responsibility. Students are required to follow all College guidelines, including the Student Code of Conduct, and to obey all laws when on any FTCC campus or when participating in any campus sponsored or supported event.

(1) Every student has the right to a learning environment that is free from unreasonable distractions. If a student’s behavior interferes with the educational process, that student will be directed to end the activity causing the disruption. A student who continues to disrupt can be removed immediately from class and/or campus. Within a reasonable time after being removed, the student will be advised of his/her options, which are more fully described under the section on Disciplinary Action.

(2) Students have the right to be evaluated solely on an academic basis, not on opinions or conduct in matters unrelated to academic standards.

(3) Students have the right to freedom of expression, inquiry and assembly so long as it is not disruptive to a learning environment.

(4) Students have the right to inquire about and propose improvements in policies, regulations and procedures affecting the welfare of students through established student government procedures, campus committees, and College officers.

(5) Students and former students have the right to review their official records. No records shall be made available to unauthorized personnel or groups outside the College without the written consent of the student involved, except under legal compulsion or in accordance with federal law and the announced policies/procedures of the College. Student rights in this area are more fully described in the following section.

Student Code of Conduct

The following regulations set forth rules of conduct that prohibit certain types of student behavior. Students are expected to act and dress appropriately for a college environment. Neither actions nor dress should distract others from concentrating on their course of study. The College has established the following Code of Conduct to ensure that an appropriate college environment is maintained. Violation of one or more of these regulations may result in disciplinary sanctions. Students are not permitted to engage in any of the following activities while participating in any college course, while on campus, while participating in a College-sponsored event, or while in a College owned vehicle.

(1) Academic dishonesty, including, but not limited to:
   a. Obtaining test information, research papers, notes and other academic material without authorization;
   b. Receiving or giving help on tests, projects, or assignments submitted for a grade unless specifically authorized by the instructor; and,
   c. Plagiarism, which is taking credit for another’s ideas or works as if they were your own.

(2) Theft, vandalism, or misuse of College property wherever it is located.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
(3) Possession, use, or distribution of alcohol or any illegal drug. In addition, students shall not be under the influence of any such substance while on campus, at College events, or in College owned vehicles.

(4) Using, recording, or disseminating anything which is lewd, obscene, or which substantially and materially disrupts or threatens to disrupt the operation of the College.

(5) Physical violence against another person or threatening physical violence against another person.

(6) Harassment or intimidation of any other person which is defined as verbal or physical conduct that is severe, pervasive, and objectively offensive such that it substantially interferes with an individual’s academic or work performance or creates and intimidating, hostile offensive or demeaning academic or work environment. Sexual Harassment, as defined by the College’s policy prohibiting sexual harassment, is a form of prohibited harassment.

(7) Participation in gatherings or demonstrations that interfere with another’s ability to freely access College facilities or property. Students shall not disrupt or interfere with the College’s educational processes or College functions. Student shall comply with any instruction of a College employee to leave the scene of a disruptive gathering or demonstration.

(8) Violation of any college policy or any state or federal law prohibiting the possession of weapons on any FTCC campus.

(9) Tampering with a fire alarm or other safety equipment belonging to the College.

(10) Illegal Gambling.

(11) Smoking or using other forms of tobacco in any unauthorized area including but not limited to classrooms, shops and labs. For areas of the campus where smoking is permitted, refer to the College’s policy on Smoking on Campus which is described more fully later in this section.

(12) Altering or misusing College documents, records or instruments of identification with intent to deceive.

(13) Financial irresponsibility including, but not limited to, failure to pay College fines, failure to repay College funded loans or passing worthless checks to College officials.

(14) Violating the terms of any disciplinary probation or any College regulation during the period of probation.

(15) Failing to follow instructions of College employees.

(16) Participating in conduct that disturbs peace and order of the College. This includes, but is not limited to, yelling, screaming, or talking in an unnecessary or unreasonably loud voice, or using any device which produces loud and/or disruptive noises.

(17) Unauthorized use of any electronic device, such as cell phones, recorders, cameras, I-pods, MP3 players, computers, and the like, in a virtual or physical classroom, shop, or lab.

(18) Permitting any person who is under the age of sixteen (16) and who is not an FTCC student to enter any instructional area without prior authorization. Instructional areas include virtual or face-to-face classrooms, labs, libraries, the Success Center, clinical sites, or shops. However, students under the age of sixteen (16) shall be permitted to enter into any instructional area for purposes related to their own education.

(19) Violating any College rule, regulation, policy and/or procedure.

(20) Violating any local, state or federal law or regulation.

(21) This Student Code of Conduct is not all inclusive. Any conduct which is disruptive to the educational environment of the College is prohibited.

**Disciplinary Action**

Students who violate College regulations are subject to the disciplinary penalties of the College. If the student’s behavior violates both the law and College regulations, the College may take disciplinary action independent of that taken by legal authorities.

1. If an act of misconduct threatens the health or safety of any member of the academic community or seriously disrupts the function and good order of the College, an instructor or administrative officer may direct the student(s) involved to cease and desist such conduct and advise them that failing to cease and desist will result in immediate suspension. The instructor may suspend the student(s) from the class until further notice. An administrative officer may suspend the student(s) from either the class or the College until a resolution of the matter can be made. Disruptive behavior may include, but is not be limited to, obscene and/or disruptive language, threatening actions, and blocking or restricting access to college classes, offices, and programs. The instructor or administrative officer invoking such suspension shall notify the Academic Dean or Designee (for curriculum students) or the Associate Vice President for Continuing Education (for continuing education students) in writing of the individual(s) involved and the nature of the infraction as soon as possible but no more than two days following the incident. The Academic Dean or Designee shall resolve the matter in a timely fashion.

2. A violation, or possible violation, of the Weapons on Campus policy shall be reported to campus security immediately by phone, 678-8433, Emergency Call-box, or in person. The Director of Public Safety and Security, or designated representative, shall cause a full inquiry to be conducted and notification of civilian police if deemed necessary. An incident report shall be filed on all violations of this policy. Violations shall be reported in the Annual

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
Within five (5) working days after the charge is filed, Security shall complete a preliminary investigation of the charge, and the Dean or Designee or Associate Vice President shall schedule a meeting with the student. After discussing the alleged infraction with the student, the Dean or Designee or Associate Vice President may act as follows:

a. Drop the charges
b. Impose a sanction
c. Refer the student to a College office or community agency for services

The decision of the Dean/Associate Vice President shall be presented to the student in writing or mailed within five (5) working days. In instances where the student cannot be reached to schedule an appointment or where the student refuses to cooperate, the Dean or Designee or Associate Vice President shall send a certified letter to the student’s last known address providing the student with a list of charges, the decision, and instructions governing the appeal process.

(4) Violations of the Code of Conduct related to academic issues, for example, cheating, plagiarism or classroom disruption will be addressed through the chain of command within the academic area.

The penalty for academic offenses is imposed or recommended by the instructor teaching the course. Ignorance of the rules or carelessness about plagiarism or cheating is no excuse.

Penalties for plagiarism and cheating that may be imposed by the instructor include but are not limited to the following:

- re-writing the assignment
- receiving a "0" on the assignment
- failing the course in which the assignment was submitted

Penalties for plagiarism and cheating that may be recommended include but are not limited to the following:

- academic probation
- academic suspension
- expulsion from the college

When probation, suspension, or expulsion is recommended, the recommendation must be submitted to the appropriate Academic Dean within five (5) working days of the discovery of the incident. Within five (5) working days after the recommendation is made, the appropriate Dean/Associate Vice President shall complete a preliminary investigation of the charge and shall schedule a meeting with the student. After discussing the alleged infraction with the student, the administrative official may act as follows:

a. Drop the charges
b. Impose a sanction
c. Refer the student to a College office or community agency for services

The decision of the Dean/Associate Vice President shall be presented to the student in writing or mailed within five (5) working days. In instances where the student cannot be reached to schedule an appointment with the Dean/Associate Vice President, or where the student refuses to cooperate, the Dean/Associate Vice President shall send a

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
(5) Fayetteville Technical Community College reserves the right to dismiss any student when it believes such action is in the best interest of the College, the students, the faculty, the staff, or the student him/herself. In all cases, the right of due process is the student's prerogative.

Sanctions
The following sanctions are examples of those that may be imposed for discipline:

(1) Reprimand: A written communication which gives official notice to the student that any subsequent offense against the Student Code of Conduct will carry heavier penalties because of this prior infraction.

(2) General Probation: An individual may be placed on General Probation when involved in a minor disciplinary offense. General Probation has two (2) important implications: the individual is given a chance to show capability and willingness to observe the Student Code of Conduct without further penalty; secondly, if the individual errs again, further action will be taken. This probation will be in effect for no more than two (2) terms.

(3) Restrictive Probation: Restrictive Probation results in loss of good standing and becomes a matter of record. Restrictive conditions may limit activity in the College community. Generally, the individual will not be eligible for initiation into any local or national organization and may not receive any college award or honorary recognition. The individual may not occupy a position of leadership with any College or student organization or activity. This probation will be in effect for no less than two (2) terms. Any violation of Restrictive Probation may result in immediate SUSPENSION.

(4) Restitution: Paying for the damage, misuse, destruction, or loss of property belonging to the College, College personnel, or students.

(5) Interim Suspension: Exclusion from class and/or other privileges or activities as set forth in the notice, until a final decision has been made concerning the alleged violation.

(6) Loss of Academic Credit or Grade: Imposed as a result of academic dishonesty.

(7) Withholding grade reports, diplomas, or right to register or participate in graduation ceremonies: imposed when financial obligations are not met. (Will not be allowed to register until all financial obligations are met).

(8) Suspension: Exclusion from class (es) and/or all other privileges or activities of the College for a specified period of time. This sanction is reserved for those offenses warranting discipline more severe than probation or for repeated misconduct. Students who receive this sanction must get specific written permission from the Vice President for Administrative Services before returning to the campus.

(9) Expulsion: Dismissing a student from campus for an indefinite period losing student status. The student may be readmitted to the College only with the approval of the Vice President for Academic and Student Affairs.

(10) Group Probation: This is given to a College club or other organized group for a specific period of time. If group violations are repeated during the term of the sentence, the charter may be revoked or activities restricted.

(11) Group Restriction: Removing College recognition during the term in which the offense occurred or for a longer period (usually not more than one other term). While under restriction, the group may not seek or add members, hold or sponsor events in the College community, or engage in other activities as specified.

(12) Group Charter Revocation: Removal of College recognition for a group, club, society, or other organizations for a minimum of two years. Re-charter after that time must be approved by the President.

Student Dress Code
The Trustees of Fayetteville Technical Community College recognize the importance of maintaining an education environment which promotes rigorous academic studies, encourages critical thinking, and teaches students skills necessary to be successful in the workplace. The Trustees authorize individual educational programs to implement and enforce dress codes when required to protect the health and safety of students. Additionally, the Trustees hereby determine that all students not in such a program should be encouraged to dress, while on campus, in a manner appropriate for an educational environment.

Effective June 1, 2011

Appeals and Due Process
Students subject to administrative decisions affecting their right to attend classes are entitled to due process. Due process includes, but is not limited to, the following considerations:

(1) The student must be informed of any charges made against him/her that may result in administrative action.

(2) The student must be advised in writing of the administrative action taken.

(3) The student will be advised of corrective action required.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
Handbook, may drop students who have excessive absences. The instructor, according to guidelines published in the Student Appeal of Attendance Problems, will be imposed, he or she may appeal the decision. If the student is notified that a disciplinary charge is filed. If the student is notified that a disciplinary misconduct and determines the action to be taken. The decision of the Dean or Designee or Associate Vice President is presented to the student in writing within five (5) working days after the charge is filed. If the student is notified that a disciplinary sanction will be imposed, he or she may appeal the decision.

(1) If a student wished to appeal the decision, he or she must submit the appeal in writing within five (5) working days of receipt of the Dean’s or Vice President’s decision to the Student Appeals Committee through the Associate Vice President for Academic Support.

The decisions of the FTCC Student Appeals Committee are referred to the Associate Vice President for Student Services as recommendations. The Associate Vice President for Student Services will review the case, consider the recommendation, reach a decision, and notify the student involved of the resulting decision as soon as possible, but no later than three (3) working days from the receipt of the recommendation of the Student Appeals Committee.

(2) If the student wished to appeal the decision of the Associate Vice President for Student Services, the appeal must be in writing and addressed to the Vice President for Academic and Student Services. Thereafter, the route of appeal is to the President and then to the Board of Trustees. Decisions of the Board of Trustees are final.

(3) If the student wishes to appeal the decision of the Associate Vice President for Student Services, the appeal must be in writing and addressed to the Vice President for Academic and Student Services. Thereafter, the route of appeal is to the President and then to the Board of Trustees. Decisions of the Board of Trustees are final.

(4) If the student wishes to appeal the decision of the Associate Vice President for Student Services, the appeal must be in writing and addressed to the Vice President for Academic and Student Services. Thereafter, the route of appeal is to the President and then to the Board of Trustees. Decisions of the Board of Trustees are final.

Appeal of Grades

Grading is the prerogative of the faculty member. Appeals concerning grades given for a course must be directed to the faculty member assigning the grade and must be in writing. The faculty member assigning the grade and the student appealing the grade shall discuss the circumstances and attempt to resolve the appeal. Failing to reach a satisfactory resolution, the student may appeal in accordance with the specific procedures described below. The appeal of a grade must be initiated no later than the last day of the fourth full month after the course grade was assigned.

(1) The student shall present the appeal in writing to the chairperson or coordinator of the department within which the protested grade was earned. The chairperson or coordinator shall, by conferring with the student and the faculty member, seek resolution by mutual agreement. If applicable, the student should continue to attend classes throughout the appeals process.

(2) If the student wishes to appeal the final decision of the chairperson or coordinator, the student must appeal in writing to the appropriate Academic Dean or Director. If, after conferring with the student, the Instructor, and the Department Chairperson, the matter remains unresolved, the Dean shall convene with the Academic Review Committee.

(3) The Academic Review Committee will consist of the convening Dean or Director and four FTCC faculty members, at least one of whom, if possible, shall be qualified to teach the course. The committee will be appointed by the Dean or Director. The faculty member assigning the grade shall not be appointed to the Academic Review Committee. During the appeal process, the appropriate Department Chairperson and/or faculty member will provide all relevant information to the appeal committee. The student’s written appeal will be provided to the committee and, if requested by the student, the student shall be afforded the right to personally appear and provide testimony to the committee and to ask questions of anyone providing evidence to the committee. Upon receiving all relevant evidence presented, the committee shall determine whether...
the grade assigned by the instructor shall be upheld. If the grade is not upheld, the committee shall make a decision as to how a grade shall be assigned to the student. The Dean will notify, in writing, the faculty member, the student, and the Department Chairperson of the committee’s decision within five working days. The resulting grade must be submitted within College guidelines and may not be further appealed.

Financial Obligations
The Business Office uses telephone, email and/or letters to make contact with students regarding their financial obligations. When students register for classes, their registration statement serves as their notice of tuition/fees due. If a student registers online via WebAdvisor, they can also view their account in WebAdvisor for the tuition/fees due. As payment deadlines approach for the upcoming semester, the Business Office sends email notices to remind students of the deadline to pay. After the semester begins, if a student incurs a debt related to tuition/fees or repayment of financial aid, the Business Office will send an email and letters to notify the student of the debt.

For returned checks, the Business Office will call the student and/or check maker, then follow-up with a certified letter giving 10 days to clear the returned check. If after 15 days the check in not cleared, the debt is submitted to the Cumberland County District Attorney’s Office Worthless Check Program. The debt may also be submitted for other collection action.

For student loans, the promissory note states payment is due in three (3) installments beginning thirty (30) days after the start of the semester and then each thirty (30) days thereafter. If the student fails to make payments as scheduled, the Business Office will send a letter advising of the past due payment. Unpaid loans will be submitted for collection action.

Debts owed to FTCC may result in the student being dropped from classes that have not started within the same semester and will prevent the student from registering for any future semesters. Transcripts and diplomas/certificates/degrees will not be released until the debt is paid.

Debts owed to FTCC are required to be submitted to the North Carolina Department of Revenue’s Setoff Debt Collection Program per the Debt Collection Act. This allows FTCC to claim a part or all of a student’s income tax refund to apply against the debt. Debts owed FTCC may also be submitted to an outside collection agency.

Financial indebtedness to FTCC may be appealed through the Appeal of Student Tuition/Fees process. This allows the student to submit an appeal for the current term and/or immediate prior term only.

Appeal of Student Tuition/Fees
Students are responsible for charges and payments to their student tuition/fee account.

A dropped class will result in a change in enrolled credit hours, which could generate a refund or a requirement to repay financial aid. Please contact the Financial Aid Office with any questions regarding your financial aid prior to submitting a drop for a class or withdrawal from all classes.

Certain mitigating circumstances may qualify for a refund of tuition and fees paid to FTCC. Mitigating circumstances may consist of the following:

- Death of an immediate family member. A copy of the death certificate is required.
- Medical emergency which results in the inability to attend class. Medical documentation is required. Please attach medical documentation including the dates of illness or admission to the hospital and/or a signed letter from the doctor.
- Unanticipated military service, including TDY, training, activation for deployment and unanticipated reassignment. Proof of orders is required.

For mitigating circumstances, students should complete and submit the Student Tuition/Fee Appeal form with all supporting documentation. Requests for a tuition refund will be reviewed by the Student Tuition/Fee Appeal committee. Appeals are reviewed on the third week of every month. A letter will be mailed within a week after the Appeals Committee meeting.

Appeals for the current and/or immediate prior term only will be considered and reviewed. No other appeals will be considered. Decisions of the Appeal Committee are final. Book charges may not be appealed.

Admissions Decisions
Initial decisions to approve a student or potential student to enter a program or a student re-entering a program are made by the counselor conducting the admissions interview. Appeals of admissions decisions are referred to the Director of Admissions. Decisions of the Director of Admissions may be initially appealed in writing no later than ten (10) College days after the date of the Director of Admissions’ letter to the Associate Vice President for Student Services. The Associate Vice President for Student Services will confer with the Department Chairperson and respond to the student within five (5) working days. Decisions of the Associate Vice President for Student Services are final.

Financial Aid Students
A dropped class will result in a change in enrolled credit hours, which could generate a refund or a requirement to repay financial aid. Please contact the Financial Aid Office with any questions regarding your financial aid prior to submitting a drop for a class or withdrawal from all classes.

Dismissal
Fayetteville Technical Community College reserves the right to dismiss any student when it believes such action is in the best interest of the College, the students, the faculty, the staff, or the student him/herself. In all cases, the right of due process is the student’s prerogative.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
**Student Grievance Policy and Procedure**

Fayetteville Technical Community College encourages the prompt and fair settlement of grievances. A student may present a grievance without fear of coercion, restraint, interference, penalty, or reprisal.

The purpose of the student grievance policy and procedure is to provide a system to resolve student complaints against faculty, staff, or other students. Listed below are the steps to filing a grievance.

**Grievance Procedure**

This procedure applies to all students of FTCC.

**Step 1:**

The student is encouraged to go to the instructor or staff member where the alleged problem originated. An attempt will be made to resolve the matter equitably and informally at this level. The conference must take place within five (5) working days of the incident which generated the complaint.

**Step 2:**

If the grievance is not resolved, the student may file a written grievance. The student must present the written grievance to the appropriate Associate Vice President within thirty (30) days of the incident giving rise to the grievance. The student and the Associate Vice President will meet within three (3) working days following the presentation of the grievance to discuss the grievance fully, and to attempt informal resolution. The Associate Vice President will investigate the grievance and will ask the employee against whom the grievance was filed to respond in writing to the allegation. The Associate Vice President will provide a written decision on the grievance not later than ten (10) working days following this meeting.

**Step 3:**

If the student is not satisfied with the decision, he or she may, within five (5) working days, file the grievance in writing with the Vice President for Academic and Student Services. The Vice President for Academic and Student Services will notify the President. Depending on the nature of the allegation, the Vice President for Human Resources and Institutional Effectiveness, may be asked to investigate. After reviewing the facts of the case, the Vice President for Academic and Student Services and/or the Vice President for Human Resources and Institutional Effectiveness, will make a recommendation to the President. The student will receive written notification within ten (10) working days of filing the complaint with the Vice President.

**Further Appeal Procedure**

If the student is not satisfied with the decision, he or she may, within ten (10) working days, file the grievance in writing with the President. The chain of appeal goes then from the President to the Board of Trustees. Decisions of the Board of Trustees are final. There is an expanding reliance on electronic communication among students, faculty, staff, and administration at Fayetteville Technical Community College (FTCC). This is motivated by the convenience, speed, cost-effectiveness, and environmental advantages of using Email rather than printed communication. Because of this increasing reliance and acceptance of electronic communication, Email is considered an official form of communication between the College and its applicants and students. Students should maintain the confidentiality of their email account as the college sends confidential information to students by email. Implementation of these procedures ensures that students have access to this critical form of communication. All applicants or students are assigned an Email account hosted by Google.

**State Student Complaint Process**

All institutions, except tribal and Federal Institutions, are required to provide a process for students to initiate a complaint against a post-secondary institution offering programs in the state of North Carolina after all other forums at the institutional level have been exhausted.

Students may utilize the application form provided by the UNC General Administration Office of Post-Secondary Education Complaints (http://www.faytechcc.edu/student-complaints/) to submit these complaints for processing. Submit all relevant information and supporting documentation regarding your complaint to the University of North Carolina General Administration, 910 Raleigh Rd, Chapel Hill, NC 27515 or email to studentcomplaint@northcarolina.edu. Once received by the UNC General Administration office, complaints against any of the 58 community colleges will be forwarded to the North Carolina Community College System.

**WEAPONS ON CAMPUS POLICY**

**Possession of Weapons on Campus**

Illegal possession of weapons on campus or at any FTCC class, site, activity, or program is a violation of College policy.

1. It shall be a violation of college policy for any person to illegally possess, whether openly or concealed, any of the following items while on FTCC campus or at the site of any FTCC class, activity or program:
   a. Any gun or firearm, including, but not limited to a rifle, pistol, BB gun, air pistol, or air rifle;
   b. Any powerful explosive device, including, but not limited to, dynamite cartridge, bomb, grenade, or mine;
   c. Any knife or other sharp-pointed or edged instrument, such as, but not limited to, a bowie knife, dirk, dagger, switchblade knife, razor, or razor blade; or
   d. Any slingshot, leaded cane, blackjack, or metallic knuckles.

2. The possession of any item listed above shall not be in violation of College policy if the possession is permitted by law. Current law permits those who have valid concealed weapon permits and those exempt from obtaining such permits to have handguns secured, as described by law, in their vehicles. The law also permits weapons on campus solely for uses associated with approved educational programs.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
3. Instructional supplies, unaltered nail files and clips and tools used solely for preparation of food, instruction, and maintenance on campus are exempted from this policy.

4. Any person, other than an FTCC student, found to violate this policy shall be removed from campus and shall not be permitted to return to campus for 120 calendar days.

5. Students in violation of this policy shall be suspended for a minimum of 120 days and shall not be permitted on any property owned or used by the College. A student is identified as any person currently enrolled in continuing education class(es) or curriculum class(es), whether the person is an adult or minor.

6. Students in violation of this policy may be placed on a permanent expulsion when one of the following occurs:
   a. Illegal possession of a firearm on campus;
   b. Repeat offense on campus or any FTCC class site, activity or program;
   c. Subsequent conviction of a violation of the law; or,
   d. Use of weapon to harm or threaten another individual.

Procedures
A violation of this policy or possible violations shall be reported to campus security immediately by phone, 678-8433, Emergency Callbox, or in person. The Director of Public Safety and Security, or designated representative, shall cause a full inquiry to be conducted and notification of civilian police if deemed necessary. An incident report shall be filed on all violations of this policy. Violations shall be reported in the Annual Crime Statistics published by campus security as requested by the Campus Security Act of 1990.

1. The appropriate Associate Vice President or Dean shall be notified by the Director of Public Safety and Security, or designated representative, immediately when any student is believed to have violated the Weapons on Campus policy. In the absence of the Associate Vice President or Dean, the next available Dean/administrator/director/supervisor should be notified.

2. Upon notification by the Director of Public Safety and Security, the Associate Vice President or Dean shall temporarily suspend any student being investigated for a violation of this policy. The temporary suspension shall be imposed until the inquiry into the alleged violation is complete, but under no circumstances shall the temporary suspension exceed five weekdays.

3. Upon completion of the inquire, the Associate Vice President or Dean shall determine whether a violation of this policy occurred. If the Associate Vice President or Dean determines a student did violate this policy, the Associate Vice President or Dean shall suspend the student for a minimum of 120 days and shall notify the student of any right to appeal the decision. If it is determined the student did not violate this policy, the student shall be immediately allowed to return to class and shall be given every reasonable opportunity to complete any missed coursework.

Precautions
If a violation is observed, the following actions should be taken:
1. Do not approach the individual. Stay calm.
2. Either notify campus security or have someone else do it.
3. Monitor individual from a safe distance or take cover if necessary.
4. Notify other persons in the area.
5. If possible, get a good description of the individual, vehicle, or weapon.
7. If necessary, get away from the affected area.
8. Do not take chances.

TOBACCO AND NICOTINE VAPOR FREE BUILDINGS
The use of cigarettes, cigars, smokeless tobacco, and electronic (vapor) cigarettes is strictly prohibited inside any FTCC building. In addition, smoking adjacent to buildings will only be permitted at outdoor areas that have been designated by the President as smoking areas. This policy is implemented to reduce secondhand smoke at building entrances. The designated smoking areas are listed below:

STUDENT EMAIL STANDARDS

College Use of Email
Email is an official form of communication within FTCC. Therefore, the College has the right to send communications to applicants and students via Email and the College has a right to expect that those communications will be received and read in a timely manner.

Appropriate Use of Student Email
Students should not use their student Email account for personal use. Student Email is not appropriate for transmitting sensitive or confidential information unless its use for such purposes is matched by an appropriate level of security. Email shall not be the sole method for notification of any legal action.

Redirection of Email
A student may have their Email electronically redirected to another email address. If a student wishes to have Email redirected from their official Address to another Email address (e.g., @aol.com, @hotmail.com, or an address on a departmental server), they may do so, but at their own risk. FTCC will not be responsible for the handling of Email by outside vendors. Having email redirected does not release a student from the responsibilities associated with communications sent to their official email address.

Educational Uses of Email
Faculty may determine how Email will be used in their classes. It is highly recommended that if faculty have Email requirements and expectations, they specify these requirements in their course syllabi. Faculty may expect that student’s official Email addresses are being accessed, and faculty may use Email for their courses accordingly.

GENERAL USAGE GUIDELINES
College-owned or -operated computing resources are for the use of faculty, students, staff, and other authorized individuals. Users must exercise responsible, ethical behavior when using these resources. Responsible behavior should also be exercised when using one’s own personal computing device connected to the FTCC wireless network. The College does not attempt to articulate all required or unacceptable behavior by its users. To assist in such judgment, the following guidelines have been developed:

1. Computing resources and access accounts are to be used only for the purpose for which they are assigned and are not to be used for commercial purposes or non-college related activities.

2. Users of the network are responsible for any actions taken that cause damages or affect other computers or portable computing devices. Users should not engage in activities/actions which damage or disrupt hardware or communications such as virus creation and propagation, and overloading networks with excessive data.

3. Individuals will not use College computer resources to engage in any illegal activities. Users of the FTCC network must comply with all federal, state, and local laws that apply.

4. All computer software is protected by federal copyright law and most is proprietary and protected by legal licensing agreements in addition to the copyright law. The user is responsible for being aware of the licensing restrictions for the software used on any system. Users must respect the legal protection applied to programs, data, photographs, music, written documents and other material as provided by copyright, trademark, patent, licensure and other proprietary rights mechanisms.

5. Users shall not create, display, advocate, or transmit threatening, racist, sexist, pornographic, obscene, offensive, annoying or harassing language and/or material, including broadcasting unsolicited messages, sending unwanted mail, or accessing websites for these purposes.

6. Users shall not use the FTCC network to intentionally gain unauthorized access to any systems or sensitive information. Users will not gain, or attempt to gain, unauthorized access to other’s files, folders, or storage areas of any kind.

7. Use of content management systems (e.g. BlackBoard) should be for the purposes of communicating and documenting class or educational related activities.

MANAGEMENT INFORMATION SERVICES
Management Information Services (MIS) maintains the campus local area network. MIS is responsible for the management, administration, and upgrades of the local area network, computer labs, shared applications, and systems.

The Fayetteville Technical Community College (FTCC) network consists of both a wired and wireless local area network. FTCC has guidelines that define roles, responsibilities and acceptable use of the College’s LAN. Users are expected to abide by the following guidelines.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
8. Users are discouraged from conducting confidential transactions (e.g. online banking) over FTCC network.

9. Individuals are responsible for the proper use of their accounts, including proper password protection and appropriate use of Internet resources. An access account assigned to an individual must not be used by others. Users are responsible for notifying MIS Help Desk (678-8502) if they find that their account login information has been compromised in any way.

10. Users will refrain from monopolizing systems and services, such as overloading resources, putting excessive demands on disk space, printer paper and supplies.

11. The College’s website, www.faytechcc.edu, will serve as the only official website representing FTCC. Users are not permitted to use the College’s name or any association with the College in web sites that are not owned, created, and/or maintained by FTCC.

12. Fayetteville Technical Community College is in no way liable for any damage, undesired resource usage, or detrimental effects that may occur to the user’s computer or any portable computing device while attached to the wireless network.

13. Individuals connecting to the wireless network are responsible for having current operating system updates and up-to-date antivirus software installed on their computer and any portable electronic devices.

Failure to follow the FTCC General Use Guidelines can result in the suspension of access rights and disciplinary action as deemed appropriate by the College.

Management Information Services office reserves the right to make revisions/updates to these guidelines at any time.

MIS has the responsibility to monitor, filter, log, and block network activities and locations, to include email, as required to ensure that all computer resources perform optimally and are safe from technology threats. MIS reserves the right to restrict access to the FTCC network as deemed necessary to protect the integrity of the network infrastructure, systems, and information.

**ELECTRONIC SIGNATURE POLICY**

Fayetteville Technical Community College (FTCC) recognizes an electronic signature as a valid signature from faculty, staff, and students subject to Conditions 1 and 2 below.

An electronic signature is defined as any electronic process signifying an approval to terms, and/or ensuring the integrity of the document, presented in electronic format.

Students use electronic signatures to register, check financial aid awards, pay student bills, obtain unofficial transcripts, update contract information, log into campus computers, complete forms, submission of class work, tests, etc.

Faculty and staff use electronic signatures for submitting grades, viewing personal payroll data, logging into campus computers, accessing protected data through the administrative computing system and custom web applications provided by the College, etc.

An electronic signature is considered valid when on of the following conditions is met:

**Condition 1: Student/Employee Login ID and Personal Identification Number (PIN)**

- Institution provides student or employee with a unique PIN
- Student or employee sets his or her own PIN
- Student or employee logs into a secure site using both the Login ID and PIN

**Condition 2: Campus Network Username and Password**

- Institution provides student or employee with a unique username
- Student or employee sets his or her own password
- Student or employee logs into the campus network and secure site using both the username and the password

It is the responsibility and obligation of each individual to keep their PIN and their password private so others cannot use their credentials. This is further explained in Section I-23.10 Access Account Guidelines of the Administrative Procedures Manual.

Once logged in, the student or employee is responsible for any information they provide, update, or remove. FTCC will take steps to ensure both the PIN and password are protected and kept confidential. Furthermore, users are responsible for logging out of all systems and exercising the necessary precautions when using publicly accessible computers.

This policy is in addition to all applicable federal and state statutes, policies, guidelines, and standards.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu and click on Academics.
Fayetteville Technical Community College encourages its community to exercise the right to freedom of speech granted by the First Amendment to the Constitution of the United States of America. This policy informs members of the College community and the public of the manner in which they may engage in constitutionally protected speech and expression at Fayetteville Technical Community College. It is intended to protect one’s right to freedom of speech without interfering with the primary educational purpose of the College.

The College will protect the rights of freedom of speech, petition, and peaceful assembly. The right to restrict the time, place, and manner of expression is specifically reserved for the College. Any acts that are disruptive to normal operations of the College including but not limited to instruction, College business, or actions which interfere with the rights of others will not be tolerated. Faculty, staff, and students engaging in disruptive activity may be subject to disciplinary action. Any participant in a disruptive activity may face criminal charges.

Registration and Use of Designated Free Speech Area

The College hereby designates the following areas as Free Speech/Expression areas:

<table>
<thead>
<tr>
<th>Main Campus</th>
<th>Student Center Gazebo</th>
</tr>
</thead>
<tbody>
<tr>
<td>Spring Lake Campus</td>
<td>Grass Area on end of Western</td>
</tr>
<tr>
<td>Horticulture Education Center</td>
<td>Wing of Bldg</td>
</tr>
<tr>
<td></td>
<td>Grass Area on Eastern end of Parking Lot</td>
</tr>
</tbody>
</table>

These areas shall be available for use by both members of the College community and members of the general public. However, events sponsored by members of the College community shall have first priority in using the Free Speech/Expression areas except requests for the Gazebo will be assigned to the person or organization that requests the area first. The College reserves the right to relocate any assembly to ensure that the activity does not interfere with the normal operation of the College or interfere with the rights of others.

Requests for Free Speech

Individuals or groups wishing to exercise their free speech should submit a written and signed request to the Director of Student Activities at least three working days prior to the desired date. The following information must be included in this written request.

- Name of the person or organization submitting the request
- Address, email, and phone number

- Date and times requested
- List of planned activities (i.e., speech, signs, distribution of literature)
- Anticipated number of participants and attendance
- Signature of requestor

Approvals are for one day only for a maximum of three continuous hours, between 8:00 a.m. and 10:00 p.m. The Director of Student Activities will notify the Director of Public Safety and Security of any approved Free Speech event.

Guidelines for Speech and Public Assembly

1. Amplification Systems: Because amplification systems pose a significant potential for disruption of College operation, public address and amplification systems may not be used. This includes, but is not limited to, megaphones and PA systems.

2. The Right to Dissent: The right to dissent is the complement of the right to speak, but these rights need not occupy the same forum at the same time. The speaker is entitled to communicate his or her message to the audience during their allotted time, and the audience is entitled to hear the message and see the speaker during that time.

   A dissenter must not substantially interfere with the speaker’s ability to communicate or the audiences’ ability to hear and see the speaker. Likewise the audience must respect the right to dissent.

3. Picketing and Distribution of Literature: Picketing in an orderly manner or distributing literature within the free speech area is acceptable when approved during the request process as coordinated and approved by the Director of Student Activities.

   Picketing is not permitted inside College buildings.

4. Symbolic Protest: During a presentation, displaying a sign, gesturing, wearing symbolic clothing, or otherwise protesting silently is permissible so long as the symbolic protest does not unduly interfere with the ability of the person or entity reserving an area for free speech/ expression to express themselves.

5. Marches: Campus marches are permitted on campus only with the approval of the Director of Student Activities per coordination with the Director of Public Safety and Security.
In order to ensure the safety of participants and bystanders and to minimize the disruption upon College classes and daily operations, this request must specify the desired march route and total/maximum number of participants.

Pickets/marchers must march in single file, not abreast. Minor children, six years of age or younger, may walk abreast or be carried by their parent or guardian.

Pickets shall not at any time nor in any way obstruct, interfere with, or block persons entering or existing vehicles; persons crossing streets or otherwise using the public way; the entrance or exit to any building or access to property abutting the street or sidewalk; or pedestrian or vehicular traffic.

**Conduct and Manner**

(1) Those who exercise free speech as a part of this policy must not:

- Threaten passers-by
- Interfere with, impede, or cause blockage of the flow of vehicular or pedestrian traffic.
- Interfere with or disrupt any other lawful activity in the same general location at the same time.
- Commit any act likely to create an imminent safety or health hazard.
- Post materials on any walls, windows, doors, sidewalks, trees, light poles, etc., or any other College equipment except in areas designated by the Director of Student Activities.
- Carry signs or placards that exceed three feet by three feet promoting the objective of the activity. They must not contain obscene language or words that would tend to incite violence.

(2) Public speech or activities likely to incite or produce imminent lawless action or that is, under current legal standards, either defamatory or obscene are prohibited. Violations of the FTCC Student Code of Conduct are prohibited.

(3) Individuals who damage or destroy College property shall be held responsible for such damage or destruction. This includes lawns, shrubs, trees, etc.

(4) A request for use of free speech areas may be denied if determined that the proposed speech/activity will constitute a clear and present danger to the orderly operation of the College.

(5) All applicable College regulations, state, and federal laws and municipal ordinances apply when engaging in activities on College property. Failure to do so may result in immediate removal from College property and other appropriate action by College officials and/or police.

**Interference with Free Speech or Public Assembly**

Persons shall not physically interfere in the use of the sidewalk or address obscene, indecent, or threatening language to or at individuals to provoke them or lead to a breach of the peace.

Whenever free passage is obstructed by a crowd, the persons composing such crowd shall disperse when directed by College officials, security, or police. Failure to do so may result in disciplinary action and/or criminal prosecution.

**Intellectual Property Rights**

“Intellectual Property” includes all inventions, improvements, copyright eligible works, and tangible research materials produced by employees and/or students of FTCC.

(1) All employees and/or students who produce or who anticipate producing Intellectual Property have a duty to promptly disclose their discoveries or invention to the President or his designee in order to prevent the development of a conflict of interest or a conflict of commitment.

(2) The President may appoint an Intellectual Property Committee to process, investigate, and make recommendations to the President when Intellectual Property notifications occur or issues arise.

(3) The College shall own all Intellectual Property that is made, discovered, or created by an employee who is specifically hired or commissioned by the College for that purpose and who receives compensation for those specific services from the College.

(4) The College shall own any Intellectual Property that is made, discovered, or created by an employee within the scope of his or her employment by the College or whose position description may include such duties, unless otherwise provided by written agreement between the individual and the College.

(5) The College shall own all Intellectual Property that is made, discovered, or created by an employee and/or student who uses College resources and time in the development of the Intellectual Property, unless otherwise provided by written agreement between the individual and the College. “College resources” means institutional facilities, staff, and materials.

(6) Intellectual Property created by an employee and/or student entirely on his or her personal time and not involv-
The use of College facilities or materials shall be the property of the individual. An individual’s “personal time” shall mean time other than that devoted to normal or assigned functions in teaching or College service. The term “College facilities” shall mean any facility, including equipment and material, available to the individual as a direct result of the individual’s affiliation with the College, and which would not be available to a non-College individual on the same basis. The term “College facilities” shall mean any facility, including equipment and materials, available to the individual as a direct result of the individual’s affiliation with the College, and which would not be available to a non-College individual on the same basis. An employee and/or student who claims that Intellectual Property is made on personal time has the responsibility to demonstrate that the Property so claimed is created on personal time.

(7) An employee and/or student who anticipates or has already produced Intellectual Property using both his or her own resources and time and the resources and time of the College, will meet with the College President or his Designee to discuss his or her efforts and to agree on a possible division of the value of the rights produced.

(8) The College may release its rights of ownership of Intellectual Property to the individual, if the institution is convinced that no College facilities, time, or materials were used in the development of the Intellectual Property and that it was made on personal time.

(9) The College retains the rights to all Intellectual Property, which would be owned by the College under this policy created by employees who leave employment with the College. The College may grant the individual non-exclusive use of the Intellectual Property for a specified period of time at another nonprofit educational institution.

(10) Prior to entering any consulting agreement involving Intellectual Property Rights with any third party, where any College time, facilities, materials or other resources are involved, College employees and/or students, must present the proposed agreement to the College President or his designee for review and approval.

(11) The College owns all rights to its logo, seal, and other related materials.

(12) Exceptions to the above policies are authorized if approved by the President of the College following a favorable review and recommendation by the Intellectual Property Committee.

Refer to the Annual Security Report for information on campus crime statistics. Current policies are implemented from the FTCC Board of Trustees. The Annual Security Report contains three years of campus crime statistics and campus security policy statements. The Annual Security Report can be obtained, upon request, from the Security Department, General Classroom Building, Room 102, or through the FTCC website at [http://www.faytechcc.edu/public-safety-security/](http://www.faytechcc.edu/public-safety-security/).

*The above statistics are the most current statistics at time of printing.*
**DRUG AND ALCOHOL POLICY**

**Drug and Alcohol Prevention Program**
The use and abuse of drugs and alcohol are subjects of immediate concern in our society. These problems are extremely complex and ones for which there are no easy solutions. From a safety perspective, the users and/or abusers of drugs or alcohol may impair the well-being of all employees, students, the public at large, and result in damage to College property. Therefore, in compliance with the Federal Drug-Free Workplace and Drug-Free Schools and Campuses Regulations, it is the policy of this College that the unlawful use, possession, manufacture, distribution, or dispensation of a controlled substance or alcohol, is prohibited while in the College workplace, on College premises, or as part of any college-sponsored activities. Any employee or student violating this policy will be subject to disciplinary action up to and including termination or expulsion and referral for prosecution. The specifics of this policy are as follows:

I-27.1 FTCC does not differentiate among unlawful users, pushers or sellers of drugs or alcohol. Any employee or student who unlawfully possesses, uses, sells, gives or transfers a controlled substance or alcoholic beverage to another person while in the College workplace, on College premises, or as part of any college-sponsored activity, will be subject to disciplinary action up to and including termination or expulsion, and referral for prosecution.

I-27.2 The term “controlled substance” means any drug listed in 21 CFR part 1308 and other federal regulations, as well as those listed in Article V, Chapter 90 of North Carolina General Statutes. Generally, these are drugs which have a high potential for abuse. Such drugs include, but are not limited to: heroin, PCP, cocaine, “crack”, and marijuana. They also include “legal drugs” which are not prescribed by a licensed physician. The term alcoholic beverage includes beer, wine, whiskey and any other beverage listed in Chapter 18B of the General Statutes of North Carolina.

I-27.3 If any employee or student is convicted of violating any criminal drug or alcoholic beverage control statute while in the College workplace, on college premises, or as part of any college-sponsored activity, he or she will be subject to disciplinary action up to and including termination or expulsion. Specifically, any such person who is convicted of a felony, or of a misdemeanor which results in an active prison sentence will, if a student, be expelled, or if an employee, be terminated from employment (subject to existing disciplinary policies applicable to employees and State or Federal law which may apply). Other misdemeanor convictions will be evaluated on a case-by-case basis, and the penalties to be imposed may range from written warnings or mandatory counseling or rehabilitation to expulsion from enrollment or discharge from employment. Any such person charged with a violation of these policies concerning illegal drugs may be suspended from enrollment or employment before initiation or completion of disciplinary proceedings if the Office of Human Resources determines that the continued presence of such person within the College community would constitute a clear and immediate danger to the health or welfare of other members of the community after an appropriate predetermination inquiry. All employees and students of the College are currently eligible and are encouraged to participate without cost in an employee assistance program which offers among its many services, drug and alcohol abuse counseling.

I-27.4 Each employee or student is required to inform the Office of the Vice President for Human Resources and Institutional Effectiveness, at the College, in writing, within five (5) days after he or she is convicted of violation of any federal, state, or local criminal drug or alcoholic beverage control statute where such violation occurred while in the College workplace, on College premises, or as part of any College-sponsored activity. A conviction means a plea of or a finding of guilt (including a plea of nolo contendere) and the imposition of a judgment by a judge sitting with or without a jury in any federal or state court. As a condition of further employment on any federal government grant, the law requires all employees to abide by this policy.

I-27.5 The Office of the Vice President for Human Resources and Institutional Effectiveness, must notify the U.S. governmental agency from which a grant was made within ten (10) days after receiving notice from the grant employee or otherwise receiving actual notice of a drug conviction. Disciplinary action against the convicted employee must be undertaken by the College within 30 days.

I-27.6 A description of applicable state sanctions and the health risks associated with the use of both illicit drugs and alcohol is available in the offices of the Vice President for Human Resources and Institutional Effectiveness, and the Vice President for Legal Services and Risk Management.

(Excerpt taken from FTCC Administrative Procedures Manual, February 16, 2009)

</table>

*Schedule I and II drugs have a high potential for abuse. They require greater storage security and have a quota on manufacturing, among other restrictions. Schedule I drugs are available for research only and have no approved medical use; Schedule II drugs are available only by prescription and require a form for ordering. Schedule III and IV drugs are available by prescription, may have five refills in 6 months, and may be ordered orally. Some Schedule V drugs are available over the counter. **Some of the health risks are directly related to the route of drug administration. For example, injection drug use can increase the risk of infection through needle contamination with staphylococci, HIV, hepatitis, and other organisms. ***Associated with sexual assaults.

Resource from National Institute on Drug Abuse, August 2016
For further information link to: [www.drugabuse.gov](http://www.drugabuse.gov)

**Psychological signals**
- Use of drugs or alcohol as a way to forget problems or to relax
- Withdrawal or keeping secrets from family and friends
- Loss of interest in activities that used to be important
- Problems with schoolwork, such as slipping grades or absences
- Changes in friendships, such as hanging out only with friends who use drugs
- Spending a lot of time figuring out how to get drugs
- Stealing or selling belongings to be able to afford drugs
- Failed attempts to stop taking drugs or drinking
- Anxiety, anger, or depression
- Mood swings

**Physical signals**
- Changes in sleeping habits
- Feeling shaky or sick when trying to stop
- Needing to take more of the substance to get the same effect
- Changes in eating habits, including weight loss or gain

ACCOUNTING AND FINANCE A25800

The Accounting and Finance curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting and finance profession. Accountants and finance professionals assemble and analyze, process, and communicate essential information about financial operations.

Course work may include accounting, finance, ethics, business law, computer applications, financial planning, insurance, marketing, real estate, selling, and taxation. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting and finance positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, school systems, and governmental agencies.

Awards

Associate Degree: Accounting (A25800A)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: Not Applicable
Length of Program: 2 Semesters
Prerequisite: Placement Test Equivalent

Certificate: Payroll Accounting Certificate (C25800C1)
Length of Program: 2 Semesters
Prerequisite: Placement Test Equivalent

Certificate: Tax Preparer Certificate (C25800C2)
Length of Program: 2 Semesters
Prerequisite: Placement Test Equivalent

Certificate: Computerized Accounting Certificate (C25800C3)
Length of Program: 3 Semesters
Prerequisite: Placement Test Equivalent

Certificate: Small Business Accounting Certificate (C25800C4)
Length of Program: 2 Semesters
Prerequisite: Placement Test Equivalent

Certificate: Cost/Managerial Accounting Certificate (C25800C5)
Length of Program: 3 Semesters
Prerequisite: Placement Test Equivalent

Certificate: Accounting Foundations Certificate (C25800H1)
Length of Program: 2 Semesters
Prerequisite: Placement Test Equivalent

Work-Based Learning Requirements/Opportunities: For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

ADVERTISING & GRAPHIC DESIGN (A30100)

The Advertising and Graphic Design curriculum is designed to provide students with knowledge and skills necessary for employment in the graphic design profession, which emphasizes design, advertising, illustration, and digital and multimedia preparation of printed and electronic promotional materials.

Students will be trained in the development of concept and design for promotional materials such as newspaper and magazine advertisements, posters, folders, letterheads, corporate symbols, brochures, booklets, preparation of art for printing, lettering and typography, photography, and electronic media.

Graduates should qualify for employment opportunities with graphic design studios, advertising agencies, printing companies, department stores, a wide variety of manufacturing industries, newspapers, and businesses with in-house graphics operations.

A/C, HEATING AND REFRIGERATION TECHNOLOGY (A35100)
The Air Conditioning, Heating, and Refrigeration Technology curriculum provides the basic knowledge to develop skills necessary to work with residential and light commercial systems.

Topics include mechanical refrigeration, heating and cooling theory, electricity, controls, and safety. The diploma program covers air conditioning, furnaces, heat pumps, tools and instruments. In addition, the AAS degree covers residential building codes, residential system sizing, and advanced comfort systems.

Diploma graduates should be able to assist in the start up, preventive maintenance, service, repair, and/or installation of residential and light commercial systems. AAS degree graduates should be able to demonstrate an understanding of system selection and balance and advanced systems.

Awards

ASSOCIATE DEGREE NURSING  A45110
The Associate Degree Nursing curriculum provides knowledge, skills, and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs which impact health, quality of life, and achievement of potential.

Course work includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes the nurse as a member of the interdisciplinary team providing safe, individualized care while employing evidence-based practice, quality improvement, and informatics.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN). Employment opportunities are vast within the global health care system and may include positions within acute, chronic, extended, industrial, and community health care facilities.

Awards

Associate Degree:  Associate Degree Nursing  (A45110)
Length of Program:  4 Semesters
Prerequisite:  Must meet College Admission Criteria; TEAS Test score proficient or higher.  1 Unit of Biology & Chemistry
Diploma:  Not Applicable
Length of Program:
Prerequisite:

Certificate:  Not Applicable
Length of Program:
Prerequisite:

Work-Based Learning Requirements/Opportunities:  For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information:  Graduates are eligible to apply to take the National Council Licensure Examination (NCLEX-RN), which is required to practice as a Registered Nurse.

Programmatic Accreditation:  Accredited by: Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, Ph# (404) 975-5000

ASSOCIATE IN ARTS

ASSOCIATE IN ARTS (A10100)
The College Transfer program is designed for students who intend to transfer to a four-year college or university to pursue a baccalaureate degree. Students in this program are responsible for examining the requirements of the four-year college or university to which they plan to transfer for completion of their degree. Counselors and advisors are available to assist students in planning their program.

The course work in the program includes humanities/fine arts, social/behavioral sciences, mathematics, physical education, English, communications and the sciences. The Associate in Arts program concentrates heavily on the humanities and social sciences and is recommended for those who plan to continue in a Bachelor of Arts degree program. The Associate in Science program leans more toward mathematics and the physical and life sciences and is intended for those pursuing the Bachelor of Science degree.

Upon completion of the program, the student will receive an associate in arts degree.

ASSOCIATE IN ENGINEERING  

The Associate in Engineering (AE) degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit (SHC) of courses. Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

The degree plan includes required general education and prerequisite courses that are acceptable to all state funded Bachelor of Engineering programs. Students who follow the degree progression plan will meet the entrance requirements at all of the North Carolina public Bachelor of Science Engineering programs. Associate in Engineering graduates may then apply to any of these programs without taking additional and sometimes duplicative courses. Admission to Engineering programs is highly competitive and admission is not guaranteed.

To be eligible for the transfer of credits under the AE to the Bachelor of Science in Engineering Articulation Agreement, community college graduates must obtain a grade of “C” or better in each course and an overall GPA of at least 2.5 on a 4.0 scale.

**Work-Based Learning Option:** Qualified students may elect to take one (1) credit hour of Work-Based Learning under Major Other Required Courses provided they acquire approval from the Work-Based Learning Coordinator and the Department Chairperson.

TOTAL REQUIRED CREDITS......60

*Note: Students must meet the receiving university’s foreign language and/or health and physical education requirements, if applicable, prior to or after transfer. While completing General Education Elective courses at FTCC, it is recommended that students select appropriate foreign language courses if required by the four-year college/university.

**Note: Other Elective courses should be selected based on the intended major and transfer university requirements.

TOTAL REQUIRED CREDITS.... 60

**Work-Based Learning Option:** NA

*Note: Suggested electives. Students must select 15 SCH from the courses listed below. See your advisor for assistance in selecting courses appropriate to the specific university and engineering major requirements.

**Elective options:**

**Note:** The acceptance of transfer credit is ultimately up to the receiving institution. Where choices are available it is best to contact the institution you plan to attend to maximize your selection.

**ASSOCIATE IN FINE ARTS IN MUSIC**  A10700

The Associate in Fine Arts in Music curriculum provides the basic course work in humanities/fine arts, English, mathematics, and social sciences with additional concentration in Music and Music Education. Graduates should have a sound basic knowledge of Music and Music Education. Upon successful completion of a college transfer degree option, students are prepared to continue their education as juniors in their field of study. The Associate in Fine Arts program is part of the Comprehensive Articulation Agreement which allows graduates of this program to transfer to one of the constituent institutions of the University of North Carolina System. ASSOCIATE IN GENERAL EDUCATION A10300

The Associate in General Education curriculum is designed for the academic enrichment of students who wish to broaden their education, with emphasis on personal interest, growth and development.

Course work includes study in the areas of humanities and fine arts, social and behavioral sciences, natural science and mathematics, and English composition. Opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and the basic use of computers will be provided.

Through these skills, students will have a sound base for lifelong learning. Graduates are prepared for advancements within their field of interest and become better qualified for a wide range of employment opportunities.

TOTAL REQUIRED CREDITS: 64

Work-Based Learning Option: Qualified students may elect to take one (1) credit hour of Work-Based Learning under Major Other Required Courses provided they acquire approval from the Work-Based Learning Coordinator and the Division Chairperson.

Note: A maximum of seven (7) credits between health and physical education may be included as other required hours. No more than one (1) hour may be taken from WBL. Courses selected must be numbered 110 or higher.

ASSOCIATE IN GENERAL EDUCATION - NURSING

The Associate in General Education (AGE)-Nursing is designed for students who wish to begin their study toward the Associate in Nursing degree and a Baccalaureate degree in Nursing as based on Blocks 1 through 3 of the Uniform Articulation Agreement between the University of North Carolina's Registered Nurse (RN) to Bachelor of Science in Nursing (BSN) programs and the North Carolina Community College Associate Degree Nursing Programs which was approved by the State Board of Community Colleges and the UNC Board of Governors in February 2015. The AGE-Nursing shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit (SHC) of courses.

A student who completes an Associate in Applied Science (AAS) in Nursing with a GPA of at least 2.0 and a grade of C or better in the AGE-Nursing courses listed below and who holds a current unrestricted license as a Registered Nurse in North Carolina will have fulfilled the UNC institutions lower-division general education requirements as well as nursing program entry requirements. However, because nursing program admissions are competitive, no student is guaranteed admission to the program of his or her choice.

**ASSOCIATE IN SCIENCE - A10400**

The College Transfer program is designed for students who intend to transfer to a four-year college or university to pursue a baccalaureate degree. Students in this program are responsible for examining the requirements of the four-year college or university to which they plan to transfer for completion of their degree. Counselors and advisors are available to assist students in planning their program.

The course work in the program includes literature, humanities, mathematics, and the sciences. The Associate in Science program leans more toward mathematics and the physical and life sciences and is intended for those pursuing the Bachelor of Science degree. The Associate in Arts program concentrates heavily on the humanities and social sciences and is recommended for those who plan to continue in a Bachelor of Arts degree program.

Upon completion of the program, the student will receive an associate in science degree.

**Awards**

**Associate Degree:** Associate in Science (A10400)

**Length of Program:** 4 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Diploma:** Not Applicable

**Length of Program:**

**Prerequisite:**

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
Certificate: Not Applicable  
Length of Program: 
Prerequisite: 

Work-Based Learning Requirements/Opportunities: For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

TOTAL REQUIRED CREDITS.... 60

Work-Based Learning Option: Qualified students may elect to take one (1) credit hour of Work-Based Learning under Other Required Courses provided they acquire approval from the Work-Based Learning Coordinator and the Department Chairperson.

*Note: The acceptance of transfer credit is ultimately up to the receiving institution. Where choices are available, it is best to contact the institution you plan to attend to maximize your selection.

AUTOMOTIVE SYSTEMS TECHNOLOGY

A60160  
The Automotive Systems Technology program prepares individuals for employment as automotive service technicians. It provides an introduction to automotive careers and increases student awareness of the challenge associated with this fast and ever-changing field. Classroom and lab experiences integrate technical and academic course work. Emphasis is placed on theory, servicing and operation of brakes, electrical/electronic systems, engine performance, steering/suspension, automatic transmission/transaxles, engine repair, climate control, and manual drive trains.

After completion of this curriculum, students should be prepared to take the ASE exam and be ready for full-time employment in dealerships and repair shops in the automotive service industry.

Awards  
Associate Degree: Automotive Systems Technology (A60160)  
Length of Program: 5 Semesters  
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: Automotive Systems Technology (D60160)  
Length of Program: 3 Semesters  
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Medium/Heavy Truck Maintenance Certificate (C60160C5)  
Length of Program: 3 Semesters  
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Maintenance and Light Repair I Certificate (C60160C6)  
Length of Program: 1 Semesters  
Prerequisite: High School Diploma, Placement Test Equivalent

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.

PROGRAM FACT SHEET
BUILDING CONSTRUCTION TECHNOLOGY A35140

These curriculums are designed to prepare individuals to apply technical knowledge and skills to the fields of architecture, construction, construction management, and other associated professions.

Course work includes instruction in sustainable building and design, print reading, building codes, estimating, construction materials and methods, and other topics related to design and construction occupations.

Graduates of this pathway should qualify for entry-level jobs in architectural, engineering, construction and trades professions as well as positions in industry and government.

Building Construction Technology:
A program that prepares individuals to apply technical knowledge and skills to residential and commercial building construction and remodeling. Includes instruction in construction equipment and safety; site preparation and layout; construction estimating; print reading; building codes; framing; masonry; heating, ventilation, and air conditioning; electrical and mechanical systems; interior and exterior finishing; and plumbing.

Awards

Associate Degree: Building Construction Technology (A35140)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

### BUSINESS ADMINISTRATION A25120

The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today's global economy.

Course work includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team building, and decision making. Through these skills, students will have a sound business education base for lifelong learning.

Graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small business or industry.

**Awards**

**Associate Degree:** General Business Administration (A25120G)  
**Length of Program:** 5 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Associate Degree:** Human Resources Administration (A25120H)  
**Length of Program:** 5 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Associate Degree:** Marketing (A25120M)  
**Length of Program:** 5 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**CARPENTRY**

These curriculums are designed to prepare individuals to apply technical knowledge and skills to the fields of architecture, construction, construction management, and other associated professions.

Course work includes instruction in sustainable building and design, print reading, building codes, estimating, construction materials and methods, and other topics related to design and construction occupations.

Graduates of this pathway should qualify for entry-level jobs in architectural, engineering, construction and trades professions as well as positions in industry and government.

**Carpentry:**

A program that prepares individuals to apply technical knowledge and skills to lay out, cut, fabricate, erect, install, and repair wooden structures and fixtures, using hand and power tools. Includes instruction in technical mathematics, framing, construction materials and selection, job estimating, print reading, foundations and roughing-in, finish carpentry techniques, and applicable codes and standards.

**Awards**

**Diploma:** Carpentry (D35180)

**Length of Programs: 3 Semesters**

**Prerequisite: High School Diploma, Placement Test Equivalent**

**Certificate:** General Contractor’s License Preparation (C35180C1)

**Length of Program: 2 Semesters**

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Work-Based Learning Requirements/Opportunities:** For Work-Based Learning requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

**Program Information Contact:**

Curriculum Chairperson: Keith Carter
Telephone Number: (910) 678-8475
Office Location: Cumberland Hall Room 319
Email: carterk@faytechcc.edu
Department Office: Cumberland Hall Room 334
Telephone: (910) 678-8357
FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall or spring semester. A Student may enter at other times with approval of the Department Chairperson.

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 2; Telephone (910) 678-8242. Veterans Services, General Classroom Building, Room 202, (910) 678-8580.

**Child Care Financial Assistance Information:**

See Child Care Associate, Early Childhood Center, Room 210, Telephone: (910) 678-8486

**Ref**: 12/07/17

CENTRAL STERILE PROCESSING C45180

The Central Sterile Processing curriculum is designed to prepare individuals for the field of Sterile Processing and Central Service Supply.

Students will develop skills necessary to properly disinfect, prepare, process, store, and issue both sterile and nonsterile supplies, instrumentation, and equipment for patient care. Additionally, students will learn to operate sterilizing units and monitor effectiveness of the sterilization process.

Graduates will be eligible to take the Certification Board for Sterile Processing and Distribution, Inc. “Sterile Processing and Distribution (SPD) Technician Exam”, earning the title of Central Sterile Processing and Distribution Technician (CSPDT). Employment opportunities include surgery centers, central sterile processing departments in hospitals, and traveling consultation services.

Awards

Associate Degree: N/A
Length of Program: 1 Semester
Prerequisite: High School Diploma or GED

Work-Based Learning Requirements/Opportunities: For Work-Based Learning requirements/opportunities please see the appropriate Program Sequencing sheet.

Certification Information: Graduates will be eligible to sit for the SPD Technician certification examination of the Certification Board for Sterile Processing and Distribution (CBSPD).

CIVIL ENGINEERING TECHNOLOGY A40140

A course of study that prepares students to use basic engineering principles and technical skills to carry out planning, documenting and supervising tasks in sustainable land development and public works and facilities projects. Includes instruction in the communication and computational skills required for materials testing, structural testing, field and laboratory testing, site analysis, estimating, project management, plan preparation, hydraulics, environmental technology, and surveying.

Graduates should qualify for technician-level jobs with both public and private engineering, construction, and surveying agencies.

Awards

Associate Degree: Civil Engineering Technology (A40140)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: Civil Engineering Technology Diploma (D40140)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Civil Engineering Technology Certificate (C40140C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Civil Engineering Technology Certificate (C40140H1)
Length of Program: 2 Semesters
Prerequisite: Placement Test Equivalent

Work-Based Learning Requirements/Opportunities: For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

CIVIL ENGINEERING TECHNOLOGY (A60130)

The Collision Repair and Refinishing Technology program prepares individuals to apply technical knowledge and skills to repair, reconstruct and finish automobile bodies, fenders, and external features. Includes instruction in structure analysis, damage repair, non-structural analysis, mechanical and electrical components, plastics and adhesives, painting and refinishing techniques, and damage analysis and estimating.

Curriculums in the Mobile Equipment Maintenance and Repair pathway prepare individuals for employment as entry-level transportation service technicians. The program provides an introduction to transportation industry careers and increases student awareness of the diverse technologies associated with this dynamic and challenging field.

Mobile Equipment Maintenance and Repair pathway course work may include transportation systems theory, braking systems, climate control, design parameters, drive trains, electrical/electronic systems, engine repair, engine performance, environmental regulations, materials, product finish, safety, steering/suspension, transmission/transaxles, and sustainable transportation, depending on the program major area chosen.

Graduates of the Collision Repair and Refinishing Technology program should earn multiple I-CAR (Inter-Industry Conference on Auto Collision Repair) certifications and be qualified for entry-level employment in automotive dealerships, independent repair shops, or through self-employment, as collision repair and refinishing technicians.

Certifications include: ALLDATA Certified Automotive Information Specialist, I-CAR Non-Structural and Refinish ProLevels 1,2, & 3, I-CAR Estimator ProLevel 1, I-CAR Steel Structural ProLevel 1, and I-CAR Steel and Aluminum Welding. Additionally, students may earn a PPG Waterborne Refinishing Certification.

Awards
Associate Degree: Collision Repair and Refinishing Technology (A60130)

COLLISION REPAIR AND REFINISHING TECHNOLOGY/ESTIMATING CERTIFICATE (C60130C2)
Evening/Weekend Program
Effective: Fall 2018
Revised: 01/29/18

This certificate program is designed to prepare individuals for entry-level positions as estimators in the auto body repair or insurance industries. Instruction will include vehicle analysis, computerized estimating, utilization of manufacturer’s repair procedures, estimating process and collision repair management.

Upon completion, students will be eligible to take the North Carolina Adjuster License class and exam.

Courses in this program can be transferred directly into the Collision Repair and Refinishing associate degree.

Length: 2 Semesters

NOTE: This is a stackable certificate. C60130C3 Non-Structural & Refinishing Certificate must be taken prior to taking this certificate.
COLLISION REPAIR AND REFINISHING TECHNOLOGY/ NON-STRUCTURAL AND REFINISHING CERTIFICATE (C60130C3)
Evening/Weekend Program
Effective: Fall 2018
Revised: 01/29/18

This certificate program is designed to prepare individuals for entry-level positions as non-structural and refinishing technicians in the auto body repair industry. Instruction will include hands-on repair in the areas of non-structural repair, painting and refinishing.

Upon completion, students will be prepared for employment as non-structural and refinishing technicians in the auto body repair industry.

Courses in this program can be transferred directly into the Collision Repair and Refinishing associate degree.

Length: 2 Semesters
Prerequisite: AUB-111, AUB-121, High School Diploma, Placement Test Equivalent
Award: Certificate

**Fall Semester 1**

COMPUTER-INTEGRATED MACHINING  

A50210

The Computer-Integrated Machining curriculum prepares students with the analytical, creative and innovative skills necessary to take a production idea from an initial concept through design, development and production, resulting in a finished product.

Coursework may include manual machining, computer applications, engineering design, computer-aided drafting (CAD), computer-aided machining (CAM), blueprint interpretation, advanced computerized numeric control (CNC) equipment, basic and advanced machining operations, precision measurement and high-speed multi-axis machining.

Graduates should qualify for employment as machining technicians in high-tech manufacturing, rapid-prototyping and rapid-manufacturing industries, specialty machine shops, fabrication industries, and high-tech or emerging industries such as aerospace, aviation, medical, and renewable energy, and to sit for machining certification examinations.

Awards

**Associate Degree:** Computer-Integrated Machining (A50210)  
**Length of Program:** 5 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Diploma:** Manual Machining (D50210)  
**Length of Program:** 3 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Computer-Integrated Machining Certificate (C50210C1)  
**Length of Program:** 4 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Manual Machining Certificate (C50210C2)  
**Length of Program:** 2 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Computer-Integrated Machining Certificate (C50210H1)  
**Length of Program:** 4 Semesters  
**Prerequisite:** Placement Test Equivalent

**Work-Based Learning Requirements/Opportunities:** For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

**Program Information Contact:**  
Curriculum Chairperson: Gary Smith  
Telephone Number: (910) 678-8375  
Office Location: Lafayette Hall, Room 137A  
Email: smithga@faytechcc.edu  
Department Office: Cumberland Hall, Room 334  
Telephone: (910) 678-8357  
FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 2; Telephone (910) 678-8242. Veterans Services, General Classroom Building, Room 202, (910) 678-8580.

**Child Care Financial Assistance Information:** See Child Care Associate, Early Childhood Center, Room 210, Telephone: (910) 678-8486

COMPUTER-INTEGRATED MACHINING TECHNOLOGY/ BASIC COMPUTER-INTEGRATED MACHINING CERTIFICATE (C50210C1)
Evening/Weekend Program
Effective: Fall 2017
Revised: 01/18/17

This evening certificate program is designed to develop fundamental skills in the operation of machine tools including drilling, turning, milling, and grinding. Training in basic measuring, layout, and blueprint reading is also provided.

Completers will be prepared for employment as entry-level machine operators or machinist apprentices in area manufacturing firms.

Courses in this program can be transferred directly into the Machining Technology associate degree curriculum.

COSMETOLOGY INSTRUCTOR

C55160
The Cosmetology Instructor curriculum provides a course of study for learning the skills needed to teach the theory and practice of cosmetology as required by the North Carolina Board of Cosmestic Arts.

Course work includes requirements for becoming an instructor, introduction to teaching theory, methods and aids, practice teaching, and development of evaluation instruments.

Graduates of the program may be employed as cosmetology instructors in public or private education and business.

Awards

CRIMINAL JUSTICE TECHNOLOGY  A55180

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial process, corrections, and security services. The criminal justice system’s role within society will be explored.

Emphasis is on criminal justice systems, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics, and community relations. Additional study may include issues and concepts of government, counseling, communications, computers, and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, correctional officer, and loss prevention specialist.

Awards

Associate Degree: Criminal Justice Technology (A55180)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Policing Diploma (D55180)
Length of Program: 4 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Essential Law Enforcement Operations Certificate (C55180C4)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Courts and the Law Certificate (C55180C5)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Principles of Corrections Certificate (C55180C6)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Criminal Investigations Certificate (C55180C7)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Private Investigations/Loss Prevention Certificate (C55180C8)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Homeland Security Certificate (C55180C9)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Criminal Justice Fundamentals Certificate (C55180C10)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Contemporary Policing Studies Certificate (C55180C11)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Terrorism Studies Certificate (C55180C12)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Criminal Justice Societal Topics Certificate (C55180C13)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Introductory Criminal Justice Certificate (C55180H1)
Length of Program: 2 Semesters
Prerequisite: Placement Test Equivalent

Certificate: Private Investigations/Loss Prevention Certificate (C55180H3)
Length of Program: 2 Semesters
Prerequisite: Placement Test Equivalent

Certificate: Criminal Justice Societal Topics Certificate (C55180H4)
Length of Program: 2 Semesters
Prerequisite: Placement Test Equivalent

Work-Based Learning Requirements/Opportunities: For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

CRIMINAL JUSTICE TECHNOLOGY /
FORENSIC SCIENCE A5518C

Forensic Science is a concentration under the curriculum of Criminal Justice Technology, which focuses on the application of the physical, biomedical, and social sciences to the analysis and evaluation of physical evidence, human testimony and criminal suspects. Study will focus on local, state, and federal law enforcement, evidence processing and procedures.

Students will learn both theory and hands-on analysis of latent evidence. They will learn fingerprint classification, identification, and chemical development. Students will record, cast, and recognize footwear and tire-tracks; and process crime scenes. Issues and concepts of communications and the use of computers and computer assisted design programs in crime scene technology will be discussed.

Graduates should qualify for employment in a variety of criminal justice organizations especially in local, state, and federal law enforcement, and correctional agencies.

Awards

Associate Degree: Criminal Justice Technology/Latent Evidence (A5518C)
Length of Program: 5 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

CRIMINAL JUSTICE TECHNOLOGY
CRIME SCENE INVESTIGATION CERTIFICATE (C5518CC2)
Effective: Fall 2018
Revised: 04/02/18

The Crime Scene Investigation Certificate Program introduces students to techniques, skills, and knowledge in forensic sciences, evidence and lab technologies, and crime scene processing.

Topics include crime scene processing and analysis, forensic science, criminal investigations, and photography.

This program prepares the student for additional instruction in forensic sciences or entry level employment in the fields of crime scene processing, evidence management and technology, death investigations, and forensic science.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

CULINARY ARTS A55150
This curriculum provides specific training required to prepare students to assume positions as trained culinary professionals in a variety of foodservice settings including full service restaurants, hotels, resorts, clubs, catering operations, contract foodservice and health care facilities.

Students will be provided theoretical knowledge/practical applications that provide critical competencies to meet industry demands, including environmental stewardship, operational efficiencies and professionalism. Courses include sanitation/safety, baking, garde manger, culinary fundamentals/production skills, nutrition, customer service, purchasing/cost control, and human resource management.

Graduates should qualify for entry-level opportunities including prep cook, line cook, and station chef. American Culinary Federation certification may be available to graduates. With experience, graduates may advance to positions including sous chef, pastry chef, executive chef, or foodservice manager.

Awards
Associate Degree: Culinary Arts (A55150)
Length of Program: 5 Semesters
Prerequisite: High School Diploma & 1 Unit of Algebra, Placement Test Equivalent
Diploma: Not Applicable
Length of Program:
Prerequisite:
Certificate: Pantry Chef (C55150C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Certificate: Baking (C55150C2)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Certificate: Demi-Chef (C55150C3)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Food Service Fundamentals (C55150C4)
Length of Program: 1 Semester
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Demi-Chef (C55150H1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Work-Based Learning Requirements/Opportunities: For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequecing sheet.

License or Certification Information: None Required

Program Information Contact:
Curriculum Chairperson: Carl Miller
Telephone Number: (910) 678-9810

CULINARY ARTS/
PANTRY CHEF CERTIFICATE (GARDE MANGER)
(C55150C1)
Effective: Fall 2018
Revised: 02/09/18

The Pantry Chef Certificate (Garde Manger) is designed to prepare students who would like to be employed in the banquet, catering, cold foods and display professions or for those with some culinary experience who want to further their knowledge in this specialized area.

Students will learn to prepare salads, dressings, cold sauces, garnishes, pâtés, terrines, ice carvings, canapés, hor d’oeuvres and other related topics.

The program will enhance the student’s cold food preparation, presentation and display skills.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

Work-Based Learning Option: NA

The Demi-Chef Certificate is designed to prepare students for an entry-level position in the culinary field. The program will give the students the basic culinary skills necessary to be an assistant to a chef otherwise known in the Classical Brigade as a Demi-Chef. Students will learn to prepare both hot and cold foods including but not limited to salads, dressings, canapés, hor d’oeuvres, cold and hot sauces, garnishes, vegetables, meats and other food items using a variety of cooking methods. Students will learn to operate commercial kitchen equipment, use correct sanitation and safety procedures in the kitchen, and correct purchasing procedures.

The program will enhance the student’s food preparation, presentation and display skills.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
DENTAL ASSISTING  

Dental Assisting prepares individuals to assist the dentist in the delivery of dental treatment and to function as integral members of the dental team while performing chair side and related office and laboratory procedures.

Course work includes instruction in general studies, biomedical sciences, dental sciences, clinical sciences, and clinical practice. A combination of lecture, laboratory, and clinical experiences provides students with knowledge in infection/hazard control, radiography, dental materials, preventive dentistry, and clinical procedures.

As a Dental Assistant II, defined by the Dental Law of North Carolina, graduates work in dental offices and other related areas.

*DEN-100, DEN-101, DEN-102, DEN-103, DEN-104, DEN-105, DEN-106, and DEN-107 will not transfer to Associate Degree program.

Students with a felony conviction may have limited certification and employment opportunities.

DENTAL HYGIENE  
A45260

The Dental Hygiene curriculum prepares individuals with the knowledge and skills to assess, plan, implement, and evaluate dental hygiene care for the individual and the community.

Students will learn to prepare the operatory, take patient histories, note abnormalities, plan care, teach oral hygiene, clean teeth, take x-rays, apply preventive agents, complete necessary chart entries, and perform other procedures related to dental hygiene care.

Graduates of this program may be eligible to take national and state/regional examinations for licensure, which are required to practice dental hygiene. Employment opportunities include dental offices, clinics, schools, public health agencies, industry, and professional education.

Awards

Associate Degree: Dental Hygiene (A45260)

Students with a felony conviction may have limited licensure and employment opportunities.

*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

Dental hygiene students will not discriminate against patients on the grounds of race, color, national origin, religion, sex, age, disability, or political affiliation. No student will be allowed to deliver patient services in any setting until s/he has been instructed in infection control (as per OSHA guidelines) and has mastered material on safety/universal precautions with satisfactory accuracy. Following mastery of infection control skills and under faculty supervision, each student will be expected to provide services for patients with health deviations, including patients with HIV/HBV and other blood borne/infectious diseases, as part of routine Clinical/ lab curriculum experiences.

### EARLY CHILDHOOD ADMINISTRATION

C55850

This curriculum prepares individuals pursuing administrating roles in diverse child care settings to effectively work with children, families and teachers. The certificate is composed of learning opportunities in developmental theories, competency and evidence-based professional knowledge, administrative skills and leadership qualities.

Course work includes foundations in early childhood education, physical/nutritional needs of young children, safety issues in the care of young children; communication and leadership skills with teachers, families and children; programming and staffing, Budgeting/financial management and marketing, and rules and regulations of early childhood programs.

Employment opportunities include entrepreneurship and/or management of child development and child care programs, preschools, public and private schools, recreational centers, Early Head Start and Head Start programs, and other programs.

EARLY CHILDHOOD ASSOCIATE A55220
The Early Childhood Associate curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs to children; care and guidance of children; and communications skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school-age programs.

Awards

**ELECTRICAL SYSTEMS TECHNOLOGY A35130**

This curriculum is designed to provide training for persons interested in the installation and maintenance of electrical systems found in residential, commercial, and industrial facilities.

Coursework, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, programmable logic controllers, industrial motor controls, applications of the National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical systems.

**Awards**

**Associate Degree:** Electrical Systems Technology (A35130)

**Length of Program:** 5 Semesters

**Prerequisite:** High School Diploma & 1 Unit of Algebra, Placement Test Equivalent

**Diploma:** Electrical Systems Technology (D35130)

**Length of Program:** 3 Semesters

**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Basic Electricity, Motors and Controls, and PLC (C35130C1)

**Length of Program:** 2 Semesters

**Prerequisite:** Placement Test Equivalent

**Certificate:** Basic Electricity, Motors and Controls, and PLC (C35130H1)

TOTAL REQUIRED CREDITS.... 65

Work-Based Learning Option: Qualified students may elect to take up to three (3) credit hours of Work-Based Learning in lieu of a Major elective provided they acquire approval from the Work-Based Learning Coordinator and the Department Chairperson.

Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

*Note: ENG-110 is not transferable

Effective: Fall 2017

Revised: 01/18/17

This curriculum is designed to provide training for persons interested in the installation and maintenance of electrical systems found in residential, commercial, and industrial facilities.

Coursework, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, programmable logic controllers, industrial motor controls, applications of the National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical systems.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.

**ELECTRONICS ENGINEERING TECHNOLOGY**  
A40200

The Electronics Engineering Technology curriculum prepares students to apply basic engineering principles and technical skills to become technicians who design, build, install, test, troubleshoot, repair, and modify developmental and production electronic components, equipment, and systems such as industrial/computer controls, manufacturing systems, communication systems, and power electronic systems. Includes instruction in mathematics, basic electricity, solid-state fundamentals, digital concepts, and microprocessors or programmable logic controllers.

In the FTCC Electronics Engineering Technology Program, students learn C/C++ programming with applications related to electronics, Internet programming, and interactive 3D gaming. Students learn to program the Robotis Bioloid robots with algorithms such as finite state machines, fuzzy logic and neural networks that make them seem intelligent (AI). Students learn to program programmable application controllers (PAC) in ladder logic, structured text, sequential function charts and function blocks to sense operating states and generation, including topics on photovoltaic devices in addition to wind- and hydro-powered electrical systems.

Graduates should qualify for employment as electronics engineering technician, field service technician, instrumentation technician, maintenance technician, electronic tester, electronic systems integrator, bench technician, and production control technician. Graduates may also continue their studies in technology at a university and upon completion obtain a Bachelor in Engineering Technology.

**Awards**

**Associate Degree:** Electronics Engineering Technology (A40200)  
**Length of Program:** 5 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
Diploma: Electronics Engineering Technology (D40200)

**Emergency Management A55460**

The Emergency Management curriculum is designed to provide students with a foundation of technical and professional knowledge needed for emergency services delivery in local and state government agencies. Study involves both management and technical aspects of law enforcement, fire protection, emergency medical services, and emergency planning.

Course work includes classroom and laboratory exercises to introduce the student to various aspects of emergency preparedness, protection, and enforcement. Students will learn technical and administrative skills such as investigative principles, hazardous materials, codes, standards, emergency agency operations, and finance.

Employment opportunities include ambulance services, fire/rescue agencies, law enforcement agencies, fire marshal offices, industrial firms, educational institutions, emergency management offices, and other government agencies. Employed persons should have opportunities for skilled and supervisory-level positions.

**Awards**

Associate Degree: Emergency Management (A55460)  
Length of Program: 5 Semesters  
Prerequisite: High School Diploma & Algebra I, Placement Test Equivalent

Diploma: Not Applicable  
Length of Program:  
Prerequisite:

**Certificate**: Emergency Management Certificate (C55460C1)  
**Length of Program**: 2 Semesters

Students with a felony conviction may have limited Emergency Preparedness employment opportunities.

Work-Based Learning Option: Qualified students may elect to take up to three (3) credit hours of Work-Based Learning in lieu of a Major elective provided they acquire approval from the Work-Based Learning Coordinator and the Department Chairperson.

See program chair for information on transfer credits from the Fire Protection Technology program.

Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

*Note: The acceptance of transfer credit is ultimately up to the receiving institution. Where choices are available it is best to contact the institution you plan to attend to maximize your selection. See your advisor for assistance in selecting courses.

EMERGENCY MANAGEMENT CERTIFICATE (C55460C1)
Effective: Spring 2016
Revised: 11/24/15

The Emergency Management Certificate program provides students with a foundation to build upon within emergency services delivery programs.

Topics include Sociology of Disaster, Mitigation & Preparedness, Response & Recovery, and Terrorism and Emergency Management.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This program will prepare students for entry level knowledge required for employment in the Emergency Management Industry.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

EMERGENCY MANAGEMENT/INCIDENT MANAGEMENT CERTIFICATE (C55460C2)

Effective: Spring 2016
Revised: 11/24/15

The Incident Management Certificate program provides students with a foundation to build upon within emergency services delivery programs.

Topics include Emergency Services Law and Ethics, Terrorism and Emergency Management, and Intro to Personal Communications.

This program will prepare students for entry level knowledge required for Incident Management within the Emergency Services Industry.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

EMERGENCY MEDICAL SCIENCE A45340

The Emergency Medical Science curriculum is designed to prepare graduates to enter the workforce as paramedics. Additionally, the program can provide an Associate Degree for individuals desiring an opportunity for career enhancement.

The course of study provides the student an opportunity to acquire basic and advanced life support knowledge and skills by utilizing classroom instruction, practical laboratory sessions, hospital clinical experience, and field internships with emergency medical service agencies.

Student progressing through the program may be eligible to apply for both state and national certification exams. Employment opportunities include ambulance services, fire and rescue agencies, air medical services, specialty areas of hospitals, industry, educational institutions, and governmental agencies.

Awards

Associate Degree: Emergency Medical Science (A45340)
Length of Program: 5 Semesters
Prerequisite: High School Diploma or GED, DMA-025 or DMA-010–030 and DRE-096–098 or Placement Test Equivalent

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/)
Diploma: Not Applicable
Length of Program: 2 Semesters
Prerequisite: High School Diploma or GED, 1 Unit Biology, DMA-025 or DMA-010–030 and DRE-096–098 or Placement Test Equivalent

Certificate: Emergency Medical Science (C45340B)
Length of Program: 2 Semesters
Prerequisite: High School Diploma or GED, 1 Unit Biology, DMA-025 or DMA-010–030 and DRE-096–098 or Placement Test Equivalent

License or Certification Information:
North Carolina Office of EMS
1201 Umstead Dr.
Raleigh, NC 27603
National Registry of Emergency Medical Technicians
P. O. Box 29233
Columbus, OH 43229

Program Information Contact:
Curriculum Chairperson: Mary Kaylor, MA, Paramedic
Telephone Number: (910) 678-9863
Office Location: Health Technology Center, Room 169M
Email: kaylorm@faytechcc.edu
Department Office: Health Technology Center, Room 169
Telephone: (910) 678-8264
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th. Specific health program admission requirements must be met before a student is eligible for admission.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 2; Telephone (910) 678-8242. Veterans Services, General Classroom Building, Room 202, (910) 678-8580.

Child Care Financial Assistance Information:
See Child Care Associate, Early Childhood Center, Room 210, Telephone: (910) 678-8486

Work-Based Learning Option: NA

### FIRE PROTECTION TECHNOLOGY (A55240)

The Fire Protection Technology curriculum is designed to provide individuals with technical and professional knowledge to make decisions regarding fire protection for both public and private sectors. It also provides a sound foundation for continuous higher learning in fire protection, administration, and management.

Course work includes classroom and laboratory exercises to introduce the student to various aspects of fire protection. Students will learn technical and administrative skills such as hydraulics, hazardous materials, arson investigation, fire protection safety, fire suppression management, law, and codes.

Graduates should qualify for employment or advancement in governmental agencies, industrial firms, insurance rating organizations, educational organizations, and municipal fire departments. Employed persons should have opportunities for skilled and supervisory-level positions within their current organizations.

Awards

**Associate Degree:** Fire Protection Technology (A55240)
**Length of Program:** 5 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Diploma:** Not Applicable
**Length of Program:** Prerequisite:

**Certificate:** Fire Protection Technology Certificate (C55240C1)
**Length of Program:** 2 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Certificate:** Fundamentals of Arson Certificate (C55240C2)
**Length of Program:** 2 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

Work-Based Learning Requirements/Opportunities: For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

### FUNDAMENTALS OF ARSON CERTIFICATE (C55240C2)
**Effective: Spring 2016**  
**Revised: 02/11/16**

The Fundamentals of Arson certificate program provides students with a foundation to build upon within emergency services delivery programs.

Topics include Fire Services Law and Ethics, Occupational Health Standards, Dynamic environment of Fire and its characteristics, basic building construction principles, and Investigative principles for the Arson Investigator.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
This program will prepare students for entry level knowledge required for an understanding of Arson Investigations and its fundamental tenants within the Fire Services Industry.

Length: 2 Semesters.

FUNERAL SERVICE EDUCATION  A55260
The Funeral Service Education curriculum provides students with the opportunity to become proficient in basic funeral service skills.

In addition to the general education courses offered in the curriculum, technical courses such as human anatomy, embalming theory and practice, embalming chemistry, restorative arts, funeral law, and funeral home operations are taught.

Graduates of the curriculum, upon passing the state or national exam and completing an internship in a funeral home, will be qualified for employment as embalmers and/or funeral directors.

The Funeral Service Education program at Fayetteville Technical Community College has as its central aim recognition of the importance of funeral service education personnel as

1. members of a human services profession,
2. members of the community in which they serve,
3. participants in the relationship between bereaved families and those engaged in the funeral service,
4. professionals knowledgeable of and compliant with federal, state, provincial/territorial, and local regulatory guidelines (in the geographic area where the practice is) as well as
5. professionals sensitive to the responsibility for public health, safety, and welfare in caring for human remains.

The program also has the following objectives:

1. To enlarge the background and knowledge of students about the funeral service profession.
2. To educate students in every phase of funeral service to help enable them to develop the proficiency necessary for the profession, as defined in the above.
3. To educate students concerning the responsibilities of the funeral service profession to the community at large.
4. To emphasize high standards of ethical conduct.
5. To provide a curriculum at the postsecondary level of instruction.
6. To encourage student and faculty research in the field of funeral service.

Awards

Associate Degree: Funeral Service Education (A55260)
Length of Program: 6 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: N. C. Funeral Director (D55260)
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Not Applicable
Length of Program:
Prerequisite:

Work-Based Learning Requirements/Opportunities: For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

Note: Cooperative Education not available in diploma program.

License or Certification Information for Associate Degree: Students who complete the AAS degree program are eligible to take the National Board Exam for Funeral Service.

Programmatic Accreditation: The Funeral Service Education degree program at Fayetteville Technical Community College is accredited by the American Board of Funeral Service Education (ABFSE), 992 Mantua Pike, Suite 108, Woodbury Heights, NJ 08097, Telephone: (816) 233-3747, Web: ABFSE Website

License or Certification Information for N.C. Funeral Director Diploma: Graduates are eligible to take the North Carolina State Board Exam for Funeral Directing. This academic program is designed to meet specific state or professional needs. It is not accredited by the American Board of Funeral Service Education. Students graduating from this program are not eligible to take the National Board Examination or any State board examination for which graduation from an ABFSE program is required.

Work-Based Learning Option: NA

*The NC Board of Funeral Service may refuse to issue license to an individual with a conviction of a felony or a crime involving fraud or moral turpitude.

This academic program is designed to meet specific state or professional needs. It is not accredited by the American Board of Funeral Service Education owing to the fact that it does not include instruction in the following areas: Anatomy, Chemistry, Embalming, Microbiology, and Restorative Arts. Students graduating from this program are not eligible to take the National Board Examination or any state board examination for which graduation from an ABFSE accredited program is required.

GEOMATICS TECHNOLOGY
(SURVEYING) A40420

A course of study that prepares students to use mathematical and scientific principles for the delineation, determination, planning and positioning of land tracts, boundaries, contours and features applying principles of route surveying, construction surveying, photogrammetry, mapping, global positioning systems, geographical information systems, and other kinds of property description and measurement to create related maps, charts and reports. Includes instruction in applied geodesy, computer graphics, photointerpretation, plane and geodetic surveying, mensuration, traversing, survey equipment operation and maintenance, instrument calibration, and basic cartography.

Graduates should qualify for jobs as survey party chief, instrument person, surveying technician, highway surveyor, mapper, GPS technician, and CAD operator. Graduates will be prepared to pursue the requirements necessary to become a Registered Land Surveyor in North Carolina.

Awards

**TOTAL REQUIRED CREDITS.... 65**

**Work-Based Learning Option:** NA

**2+2 Transfer:** Students desiring to pursue a Bachelors of Technology should take MAT 271 and PHY 151.

**Note:** Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

**GUNSMITHING**

### A30200  
**Gunsmithing (A30200)**

The Gunsmithing curriculum is designed to provide the student with the required skills needed to refurbish metal and wood as applicable to firearms, to diagnose malfunctions for repair, and to accomplish more complex custom gunsmithing tasks.

Course work includes manufacturing of tools used in the gunsmithing trade, restoration of firearms, barrel work, repair work, and custom work. The student will accomplish this work by performing actual gunsmithing tasks in a hands-on environment.

Graduates should qualify as a professional gunsmith, able to complete any task in general gunsmithing.

Individuals wishing to enroll in the Gunsmithing program or any Gunsmithing course must provide acceptable proof of their legal authorization to possess a firearm at the time of enrollment but not later than the first day of the program or course.

**Awards**

**Associate Degree:** Gunsmithing (A30200)

**Length of Program:** 5 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent  
**Diploma:** NA  
**Length of Program:**  
**Prerequisite:**

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
**Certificate:** Basic Gunsmithing Skills Certificate (C30200C1)
**Length of Program:** 2 Semesters
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Work-Based Learning Requirements/Opportunities:** For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

**Program Information Contact:**
Curriculum Chairperson: Daniel Frick
Telephone Number: (910) 486-3969

HEALTH AND FITNESS SCIENCE  A45630
The Health and Fitness Science program is designed to provide students with the knowledge and skills necessary for employment in the fitness and exercise industry.

Students will be trained in exercise science and be able to administer basic fitness tests and health risk appraisals, teach specific exercise and fitness classes and provide instruction in the proper use of exercise equipment and facilities.

Graduates should qualify for employment opportunities in commercial fitness clubs, YMCA’s/YWCA’s, wellness programs in business and industry, Parks & Recreation Departments and other organizations implementing exercise & fitness programs.

**Awards**

Associate Degree: Health and Fitness Science (A45630)
Length of Program: 4 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Diploma: Not Applicable
Length of Program: 
Prerequisite:

Certificate: Health and Wellness Management Certificate (C45630C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Health and Fitness Science Certificate (C45630H1)
Length of Program: 2 Semesters
Prerequisite: Placement Test Equivalent

Work-Based Learning Requirements/Opportunities: For Work-Based Learning requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: Program prepares students to sit for national certification exams in the various fitness fields of study. Students with a felony conviction may have limited certification and employment opportunities.

Program Information Contact:
Curriculum Chairperson: Larzaris Butler
Telephone Number: (910) 678-8352
Office Location: Horace Sisk Building, Room 811
Email: butlerl@faytechcc.edu
Department Office: Health Technology Center, Room 169
Telephone: (910) 678-8264
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Specific health program admission requirements must be met before a student is eligible for admission.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 2; Telephone (910) 678-8242. Veterans Services, General Classroom Building, Room 202, (910) 678-8580.

HEALTHCARE MANAGEMENT TECHNOLOGY

The Healthcare Management Technology curriculum prepares individuals for employment in healthcare business and financial operations in areas such as general healthcare management, entrepreneurship, and long-term care.

Course work includes medical office management, financial management, legal aspects of healthcare, medical insurance and billing analysis, and other topics depending on the subject area selected within this curriculum.

Graduates should qualify for employment opportunities in a variety of healthcare settings including hospitals, medical offices, outpatient clinics, long-term care facilities, and insurance companies. Industry recognized certifications may be available for graduates with work experience.

Awards

Associate Degree: General Healthcare Management Technology (A25200G)
Length of Program: 5 Semesters
Prerequisite: High School Diploma & 1 Unit of Algebra, Placement Test Equivalent

Diploma: Not Applicable
Length of Program: Prerequisite:

Certificate: Not Applicable

HEALTHCARE MANAGEMENT TECHNOLOGY/GENERAL HEALTHCARE MANAGEMENT TECHNOLOGY
(A25200G)
Effective: Fall 2018
Revised: 02/07/18

Length: 5 Semesters
Prerequisites: High School Diploma & 1 Unit of Algebra, Placement Test Equivalent
Award: Associate in Applied Science
# HORTICULTURE TECHNOLOGY (A15240)

These curricula are designed to prepare individuals for various careers in horticulture. Classroom instruction and practical laboratory applications of horticultural principles and practices are included in the program of study.

Course work includes plant identification, pest management, plant science and soil science. Also included are courses in sustainable plant production and management, landscaping, and the operation of horticulture businesses.

Graduates should qualify for employment in a variety of positions associated with nurseries, garden centers, greenhouses, landscape operations, governmental agencies/parks, golf courses, sports complexes, highway vegetation, turf maintenance companies, and private and public gardens. Graduates should also be prepared to take the North Carolina Pesticide Applicator’s Examination and/or the North Carolina Certified Plant Professional Examination.

Horticulture Technology is a program that focuses on the general production and management of cultivated plants, shrubs, flowers, foliage, trees, groundcovers, and related plant materials; the management of technical and business operations connected with horticultural services; and the basic scientific principles needed to understand plants and their management and care.

## Awards

- **Associate Degree**: Horticulture Technology (A15240)
- **Length of Program**: 5 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

- **Certificate**: Basic Landscape Maintenance (C15240C1)
- **Length of Program**: 3 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

- **Certificate**: Viticulture Certificate (C15240C3)
- **Length of Program**: 2 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

- **Certificate**: Basic Horticulture Certificate (C15240H1)
- **Length of Program**: 2 Semesters
- **Prerequisite**: Placement Test Equivalent

**Work-Based Learning Requirements/Opportunities**: For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information**: None Required

Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

Horticulture Technology
Basic Landscape Maintenance Certificate (C15240C1)
Effective: Fall 2018
Revised: 12/06/17

This certificate program is designed to prepare individuals for entry-level positions in the installation and maintenance of landscapes. Instruction in plant identification, plant installation, care and pruning, and pest identification and control is emphasized in the course work.

Completers will be prepared for employment as entry-level maintenance staff.

Courses in this program can be transferred directly into the Horticulture Technology associate degree curriculum.

HOSPITALITY MANAGEMENT

A25110

This curriculum prepares individuals to understand and apply the administrative and practical skills needed for supervisory and managerial positions in hotels, motels, resorts, inns, restaurants, institutions, and clubs.

Course work includes guest services, leadership, management, restaurant operations, lodging operations, marketing, sanitation, food preparation, food and beverage management and other critical areas.

Graduates should qualify for management or entry-level supervisory positions in food and lodging operations, including restaurants, foodservice, beverage service, catering, front office, reservations and housekeeping. Opportunities are also available in product services, and technology support and sales.

INDUSTRIAL SYSTEMS TECHNOLOGY A50240

The Industrial Systems Technology curriculum is designed to prepare or upgrade individuals to safely service, maintain, repair, or install equipment. Instruction includes theory and skill training needed for inspecting, testing, troubleshooting, and diagnosing industrial systems.

Students will learn multi-craft technical skills in print reading, mechanical systems maintenance, electricity, hydraulics/pneumatics, welding, machining or fabrication, and includes various diagnostic and repair procedures. Practical application in these industrial systems will be emphasized and additional advanced course work may be offered.

Upon completion of this curriculum, graduates should be able to individually, or with a team, safely install, inspect, diagnose, repair, and maintain industrial process and support equipment. Students will also be encouraged to develop their skills as life-long learners.

*Prospective child care providers must furnish criminal record history, a health card, and physical examination prior to employment in child care.

**INFORMATION TECHNOLOGY**  
**A25590**

The Information Technology (IT) curriculum prepares graduates for employment in the technology sector as designers, testers, support technicians, system administrators, developers, or programmers who use computer software and/or hardware to design, process, implement, and manage information systems in specialties such as database services, security, business intelligence, healthcare informatics and others depending on the technical path selected within this curriculum.

Course work includes development of a student’s ability to create, store, communicate, exchange and use information to solve technical issues related to information support and services, interactive media, network systems, programming and software development, information security and other emerging technologies based on the selected area of study.

Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to design and manage information. The program will incorporate the competencies of industry-recognized certification exams.

**Awards**

**Associate Degree:** IT/Database Management (A25590B)  
**Length of Program:** 5 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Associate Degree:** IT/Computer Programming & Development (A25590C)  
**Length of Program:** 5 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Associate Degree:** IT/Digital Media Technology (A25590D)  
**Length of Program:** 5 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

**Associate Degree:** IT/Game and Interactive Programming (A25590G)  
**Length of Program:** 5 Semesters  
**Prerequisite:** High School Diploma, Placement Test Equivalent

### INFORMATION TECHNOLOGY/ DIGITAL MEDIA TECHNOLOGY (A25590D)

*Effective: Fall 2018  
Revised: 02/07/18*

The Information Technology/Digital Media Technology (DME) curriculum prepares graduates for employment in the digital design and multimedia industry. Course work includes 2D and 3D animation, motion graphics, digital composting, web design, multimedia scripting, audio and video editing, and interactive technologies.

Graduates should qualify for employment as animators, web designers, graphic artists/designers, multimedia specialists, digital technicians, and many new jobs yet to be defined in this expanding field.

Length: 5 Semesters  
Prerequisite: High School Diploma, Placement Test Equivalent Award: Associate in Applied Science

*Note:* Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

### INFORMATION TECHNOLOGY/ GAME AND INTERACTIVE PROGRAMMING (A25590G)

*Effective: Fall 2018  
Revised: 02/07/18*

The Information Technology/Game and Interactive Programming curriculum prepares graduates for employment in the gaming and interactive applications industries. Course work includes game programming, multimedia scripting, app development, and interactive programming.

Graduates should qualify for employment as game programmers, game app developers, and interactive programmers.

Length: 5 Semesters  
Prerequisite: High School Diploma, Placement Test Equivalent Award: Associate in Applied Science

**INFORMATION TECHNOLOGY/ JAVA PROGRAMMING CERTIFICATE (C25590C1)**
**Effective:** Fall 2018
**Revised:** 02/07/18

The JAVA Programming certificate is designed to prepare individuals for employment as programmers in JAVA through study and applications in computer concepts, logic, and programming procedures using the JAVA programming language.

Students will solve business computer problems through programming techniques and procedures using the JAVA language.

Upon completion of this program, a student will have the necessary JAVA skills for an entry-level programming position in business, industry, and government organizations.

Length: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent Award: Certificate

Effective: Fall 2018
Revised: 02/07/18

In the Web Management certificate students learn the basics of working with Content Management Systems and using analytics to check on their websites. They are introduced to various CMS platforms and the business concepts for analyzing web traffic.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
INTELLIGENCE STUDIES

The Intelligence Studies curriculum is designed to provide students with the knowledge and skills necessary for employment and growth in the intelligence profession.

Course work includes various subject areas related to intelligence studies involving information systems, military and criminal intelligence, intelligence operations, intelligence collection methods, intelligence research, cybercrime intelligence, geospatial intelligence and counterintelligence.

Graduates may qualify for entry-level intelligence positions in the public and private sectors. Occupations may include positions specific to the military, intelligence agencies, cybersecurity, counterterrorism and homeland security.

Awards

Associate Degree: Criminal Intelligence (A25700A)
Length of Program: 5 Semesters
Prerequisite: High School Diploma & Algebra I, Placement Test Equivalent

Certificate: Intelligence Operations Certificate (C25700C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Geospatial Intelligence Certificate (C25700C2)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Criminal Intelligence Certificate (C25700C3)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Human Intelligence Certificate (C25700C4)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Intelligence Analysis Certificate (C25700C5)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Work-Based Learning Requirements/Opportunities: For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

Program Information Contact:
Curriculum Chairperson: Kenneth Buckey
Telephone Number: (910) 678-0046
Office Location: Horace Sisk, Room 633F
Email: buckeyk@faytechcc.edu

Application Deadlines: None

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 2; Telephone (910) 678-8242. Veterans Services, General Classroom Building, Room 202, (910) 678-8580.

Child Care Financial Assistance Information:
See Child Care Associate, Early Childhood Center, Room 210, Telephone: (910) 678-8468

Revised: 08/15/17

INTELLIGENCE STUDIES/ CRIMINAL INTELLIGENCE (A25700A)
Effective: Spring 2017
Revised: 11/16/16

Length: 5 Semesters
Prerequisite: High School Diploma & Algebra I
Award: Associate in Applied Science

**TOTAL REQUIRED CREDITS:** 64

Students with a felony conviction may have limited Emergency Preparedness employment opportunities.

**Work-Based Learning Option:** Qualified students may elect to take up to three (3) credit hours of Work-Based Learning in lieu of a Major elective provided they acquire approval from the Work-Based Learning Coordinator and the Department Chairperson.

**Note:** Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

*Note:* The acceptance of transfer credit is ultimately up to the receiving institution. Where choices are available it is best to contact the institution you plan to attend to maximize your selection. See your advisor for assistance in selecting courses.

**INTELLIGENCE STUDIES/GEOSPATIAL INTELLIGENCE (A25700B)**

Effective: Spring 2017
Revised: 11/16/16

### INTELLIGENCE STUDIES/ INTELLIGENCE OPERATIONS CERTIFICATE (C25700C1)

*Effective: Spring 2017  
Revised: 12/08/16*

The Intelligence Operations certificate program provides students with a foundation to build upon within Intelligence Studies delivery programs.

Topics include Threat Analysis, Signal Intel Operation, Human Intelligence, Counter Intelligence, and Public Speaking.

This program will prepare students for entry level knowledge required for an understanding of Intelligence Operations and its fundamental tenants within the Intelligence Community.

Length: 2 Semesters  
Prerequisite: High School Diploma, Placement Test Equivalent  
Award: Certificate

MAMMOGRAPHY C45830

The Mammography curriculum provides registered radiologic technologists the didactic and clinical experience necessary to become registered mammographers.

Course work includes clinical rotations to mammography facilities, breast anatomy/physiology, patient preparation/education, mammographic procedures, interventional procedures, image analysis, mammographic instrumentation, physics, quality control, and quality assurance.

Graduates will meet the Mammography Quality Standards Act initial training requirements for mammography and may be eligible to apply to take the American Registry of Radiologic Technologists (ARRT) post primary certification in Mammography.

Awards

Associate Degree: N/A
Length of Program: 
Prerequisite: 

Diploma: N/A
Length of Program: 
Prerequisite: 

Certificate: Mammography Certificate (C45830)
Length of Program: 2 Semester
Prerequisite: American Registry of Radiologic Technologist (ARRT) certified in Radiography

Work-Based Learning Requirements/Opportunities: For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

Certification Information: Graduates may be eligible take the ARRT post primary certification in Mammography.
AART, 1255 Northland Drive, St. Paul, MN 55120, (651) 687-0048
Website: www.arrt.org

Program Information Contact:
Department Chair: Michelle Walden
Telephone Number: (910) 678-8533
Office Location: Health Technologies Center, Room 169-H
Email: waldenm@faytechcc.edu
Department Office: Health Technologies Center, Room 169
Telephone: (910) 678-8264
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall or spring semester. Specific health program admission requirements must be met before student is eligible for admission.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 2; Telephone (910) 678-8242. Veterans Services, General Classroom Building, Room 202, (910) 678-8580.

Child Care Financial Assistance Information:
See Child Care Associate, Early Childhood Center, Room 210, Telephone: (910) 678-8486

MAMMOGRAPHY CERTIFICATE (C45830)

Effective: Fall 2016
Revised: 02/06/17

Length: 2 Semester
Prerequisite: American Registry of Radiologic Technologist (ARRT) registered in Radiography
Award: Certificate

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
MANICURING/NAIL TECHNOLOGY  

The Manicuring/Nail Technology curriculum provides competency-based knowledge, scientific/artistic principles, and hands-on fundamentals associated with the nail technology industry. The curriculum provides a simulated salon environment which enables students to develop manipulative skills.

Course work includes instruction in all phases of professional nail technology, business/computer principles, product knowledge, and other related topics.

Graduates should be prepared to take the North Carolina Cosmetology State Board Licensing Exam and upon passing be licensed and qualify for employment in beauty and nail salons, as a platform artist, and in related businesses.

Awards

Associate Degree: Not Applicable
Length of Program:
Prerequisite:
Diploma: Not Applicable
Length of Program:
Prerequisite:
Certificate: Manicuring/Nail Technology Certificate (C55400)
Length of Program: 2 Semesters (day or evening program)
Prerequisite: High School Diploma, Placement Test Equivalent
Certificate: Manicuring/Nail Technology Certificate (C55400H1)
Length of Program: 1 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Work-Based Learning Requirements/Opportunities: For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: Graduates are eligible to take the North Carolina State Board of Cosmetic Arts exam

Revised: 08/22/17
MEDICAL OFFICE ADMINISTRATION  A25310
The Medical Office Administration curriculum prepares individuals for employment as medical administrative personnel in the areas of medical office, medical billing and coding, dental office, patient services, and medical documents.

Course work includes medical terminology, computer applications, medical office management, medical coding, medical insurance and billing, medical legal and ethical issues, oral and written communication, and other topics depending on the subject area selected within this curriculum.

Graduates should qualify for employment opportunities in a variety of medical office positions in medical and dental offices, hospitals, insurance companies, laboratories, medical supply companies, and other healthcare related organizations. Upon graduation, students may be eligible to sit for industry recognized certification exams.

Awards

Associate Degree: Medical Office Professional (A25310M)
Length of Program: 5 Semesters
Prerequisite: High School Diploma and 1 unit of Algebra, Placement Test Equivalent

Certificate: Medical Coding Specialist Certificate (C25310C2)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Dental Office Specialist Certificate (C25310C3)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Patient Services Representative Certificate (C25310C5)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Healthcare Customer Service Certificate (C25310H2)
Length of Program: 2 Semesters
Prerequisite: Placement Test Credit Equivalent

Work-Based Learning Requirements/Opportunities: For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

### MEDICAL OFFICE ADMINISTRATION/ MEDICAL CODING SPECIALIST (C25310C2)

**Effective Date:** Fall 2018  
**Revised:** 02/07/18  
**Day and Evening**

The Medical Coding Specialist certificate is designed to prepare individuals for employment in a medical office or other healthcare related business.

The certificate program covers medical terminology, medical insurance/billing, procedure and diagnostic coding and medical coding certification prep. Students will learn accurate coding processes and develop skills applicable in the medical coding and billing field.

Upon completion of this program, students would be able to perform the necessary coding skills required in today’s medical office or transfer the course credits to one of the Medical Office Administration programs for an Associate of Applied Science degree.

Length: 2 Semesters  
Prerequisite: High School Diploma, Placement Test Equivalent  
Award: Certificate

NURSE AIDE

D45970

This Nurse Aide curriculum is designed to prepare students for careers in the Health Sciences.

Students will complete general education courses that provide a foundation for success in nursing and allied health curricula. Students may select a career pathway that will prepare them for an entry level position in health care. Courses may also provide foundational knowledge needed in the pursuit of advanced health science degrees or programs.

The Nurse Aide curriculum prepares individuals to work under the supervision of licensed nursing professionals in performing nursing care and services for persons of all ages. Topics include growth and development, personal care, vital signs, communication, nutrition, medical asepsis, therapeutic activities, accident and fire safety, household environment and equipment management, family resources and services, and employment skills.

Graduates of this program may be eligible to be listed on the Division of Health Service Regulation (DHSR) Nurse Aide registry as a Nurse Aide I and the N. C. Board of Nursing Nurse Aide II registry as a Nurse Aide II. They may be employed in home health agencies, hospitals, clinics, nursing homes, extended care facilities, and doctors’ offices.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.

Work-Based Learning Option: NA

Note: To progress to NAS-102 students must:
• Successfully complete NAS-101 and
• Successfully test and be listed on the NA I registry with no substantial findings prior to the 10% date for the term that the NAS-102 course is taken.

Students with a felony conviction may have limited certification and employment opportunities.

OFFICE ADMINISTRATION A25370

The Office Administration curriculum prepares individuals for employment as administrative office personnel who use skills in the areas of office management, office finance, legal office, virtual office, customer service, and office software.

Course work includes computer applications, oral and written communication, analysis and coordination of office tasks and procedures, records management, and other topics depending on the subject area selected within this curriculum.

Graduates should qualify for employment opportunities in a variety of office positions in business, government, and industry. Upon graduation, students may be eligible to sit for industry recognized certification exams.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.

**OFFICE ADMINISTRATION/ BASIC OFFICE ADMINISTRATION CERTIFICATE**

(C25370C1)

Effective: Fall 2018
Revised: 03/14/18

The Basic Office Administration certificate is designed to give individuals the opportunity to acquire basic skills necessary for entry-level employment in today’s modern office.

This certificate program covers keyboarding, customer service, records management, office procedures, and office software applications.

Upon completion of this program, students should be able to use these basic skills for entry-level employment or transfer the course credits to the Office Administration program for an Associate of Applied Science degree.

Length: 1 Semester
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

**OFFICE ADMINISTRATION/ OFFICE DOCUMENTS SPECIALIST CERTIFICATE**

(C25370C3)

Effective: Fall 2018
Revised: 03/14/18

The Office Documents Specialist certificate is designed to give individuals the opportunity to acquire basic skills necessary for entry-level employment in today’s modern office.

This certificate program covers keyboarding, basic and advanced Microsoft Office Word, Access, and Excel.

Upon completion of this program, students should be able to use these basic skills for entry-level employment or transfer the course credits to the Office Administration program for an Associate of Applied Science degree.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

PARALEGAL TECHNOLOGY A25380
The Paralegal Technology curriculum prepares individuals to work under the supervision of attorneys by performing routine legal tasks and assisting with substantive legal work. A paralegal/legal assistant may not practice law, give legal advice, or represent clients in a court of law.

Course work includes substantive and procedural legal knowledge in the areas of civil litigation, legal research and writing, real estate, family law, wills, estates, trusts, and commercial law. Required courses also include subjects such as English, mathematics, and computer utilization.

Graduates are trained to assist attorneys in probate work, investigations, public records search, drafting and filing legal documents, research, and office management. Employment opportunities are available in private law firms, governmental agencies, banks, insurance agencies, and other business organizations.

### PHARMACY TECHNOLOGY  A45580

The Pharmacy Technology Program prepares individuals to assist the pharmacist in duties that a technician can legally perform and to function within the boundaries prescribed by the pharmacist and the employment agency.

Students will prepare prescription medications, mix intravenous solutions and other specialized medications, update patient profiles, maintain inventories, package medications in unit-dose or med-card form, and gather data used by pharmacists to monitor drug therapy.

Employment opportunities include retail, hospitals, nursing homes, research laboratories, wholesale drug companies, and pharmaceutical manufacturing facilities. Graduates from the program may be eligible to take the National Certification Examination to become a certified pharmacy technician.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).

### PHYSICAL THERAPIST ASSISTANT A45620

The Physical Therapist Assistant curriculum prepares graduates to work in direct patient care settings under supervision of physical therapists. Assistants work to improve or restore function by alleviation or prevention of physical impairment and perform other essential activities in a physical therapy department.

Course work includes normal human anatomy and physiology, the consequences of disease or injury, and physical therapy treatment of a...
variety of patient conditions affecting humans throughout the life span.

The Fayetteville Technical Community College Physical Therapist Assistant program is accredited by the Commission on Accreditation in Physical Therapy Education of the American Physical Therapy Association. Upon receiving your Associate of Applied Science degree from the college, the graduate may be eligible to sit for the Physical Therapist Assistant licensure examination. Successfully meeting licensure requirements allows the graduate to work as a Physical Therapist Assistant. Employment is available in general hospitals, rehabilitation centers, extended care facilities, specialty hospitals, home health agencies, private clinics, and public school systems.

**Awards**

**Associate Degree:** Physical Therapist Assistant (A45620)

**Length of Program:** 5 Semesters

**Prerequisite:** High School Diploma: satisfactory completion of 2 units of algebra, 1 unit of biology and chemistry

**Diploma:** None

**Length of Programs:**

**Prerequisite:**

**Certificate:** None

**Length of Program**

**Prerequisite**

**Work-Based Learning Requirements/Opportunities:** For Work-Based Learning requirements/opportunities please see the appropriate Program Sequencing sheet.

**N C License or Certification Information:** Licensure required. Graduates may be eligible to take the licensure examination administered by the NC Board of Physical Therapy Examiners. [A student with a felony conviction may not be eligible for licensure or employment.]

**Programmatic Accreditation:** The Physical Therapist Assistant program at Fayetteville Technical Community College is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 1111 North Fairfax Street, Alexandria, Virginia 22314; telephone: 703-706-3245; email: accreditation@apta.org; website: CAPTE Website.

PLUMBING/BASIC PLUMBING CERTIFICATE (C35300C1)
Evening/Weekend Program
Effective: Fall 2015
Revised: 12/11/14

This evening certificate program is designed to prepare individuals for entry-level positions in plumbing. Course work includes fundamental practices in plumbing assembly and repair and in basic plumbing codes. Opportunities for employment as plumbing assistants and as parts supply clerks exist throughout the area.

Courses in this program can be transferred directly into the Plumbing diploma curriculum.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

### RAD271 Radiography Capstone

- Humanities/Fine Arts Elective

### TOTAL REQUIRED CREDITS

74

**Work-Based Learning Option: NA**

Students with a felony conviction may have limited certification and employment opportunities.

*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.*

### RESPIRATORY THERAPY A45720

The Respiratory Therapy curriculum prepares individuals to function as respiratory therapists. In these roles, individuals perform diagnostic testing, treatment, and management of patients with heart and lung diseases.

Students will master skills in patient assessment and treatment of cardiopulmonary diseases. These skills include life support, monitoring, drug administration, and treatment of patients of all ages in a variety of settings.

Graduates of accredited programs may be eligible to take entry-level examinations from the National Board of Respiratory Care. Therapy graduates may also take the Advanced Practitioner Examination.

Graduates may be employed in hospitals, clinics, nursing homes, education, industry, and home care.

**Awards**

**Associate Degree**: Respiratory Therapy (A45720)

**Length of Program**: 5 Semesters

**Prerequisites**: 1 Unit of Algebra, 1 Unit of Biology and 1 Unit of Chemistry. For the advanced placement option, a student must have military training as a respiratory specialist or have a current unrestricted CRT certification with evidence of 3600 hours of clinical experience as a CRT within the past 4 years.

**Diploma**: None

**Length of Program**: N/A

**Prerequisite**: None

**Certificate**: None

**Length of Program**: N/A

**Prerequisite**: None

**Work-Based Learning Requirements/Opportunities**: For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information Contact**:

TOTAL REQUIRED CREDITS.... 69

Work-Based Learning Option: NA

Students with a felony conviction may have limited certification and employment opportunities.

*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

SCHOOL-AGE EDUCATION A55440

This curriculum prepares individuals to work with children in elementary through middle grades in diverse learning environments. Students will combine learned theories with practice in actual settings with school-age children under the supervision of qualified teachers.

Course work includes child growth/development; computer technology in education; physical/nutritional needs of school-age children; care and guidance of school-age children; and communication skills with families and children. Students will foster the cognitive/language, physical/motor, social/emotional, and creative development of school-age populations.

Graduates are prepared to plan and implement developmentally appropriate programs in school-aged environments. Employment opportunities include school-age teachers in child care programs,

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
before/after-school programs, paraprofessional positions in public/private schools, recreational centers, and other programs that work with school-age populations.

**Awards**

**Associate Degree:** School-Age Education (A55440)  
**Length of Program:** 5 Semesters  
**Prerequisite:** High School Diploma & Algebra I, Placement Test Equivalent

**Diploma:** School-Age Education Diploma (D55440)

**ADDITIONAL INFORMATION**

Work-Based Learning Option: NA

*Prospective childcare providers must furnish criminal record history, a health card, and physical examination prior to employment in childcare.

**Simulation and Game Development A25450**

The Simulation and Game Development Curriculum provides a broad background in simulation and game development with practical applications in creative arts, visual arts, audio/video technology, creative writing, modeling, design, programming and management.

Students will receive hands-on training in design, 3D modeling, software engineering, database administration and programming for the purpose of creating simulations and games.

Graduates should qualify for employment as designers, artists, animators, programmers, database administrators, testers, quality assurance analysts, engineers and administrators in the entertainment industry, the health care industry, engineering, forensics, education, NASA and government agencies.

**Awards**

- **Associate Degree**: Simulation and Game Development (A25450)
- **Length of Program**: 5 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

**Diploma**: 3D Modeling and 3D Printing Diploma (D25450D1)
- **Length of Program**: 3 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

**Diploma**: SG Design and Development Diploma (D25450D2)
- **Length of Program**: 3 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

**Certificate**: SGD Basics Certificate (C25450C1)
- **Length of Program**: 1 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

**Certificate**: Interactive 3D Certificate (C25450C2)
- **Length of Program**: 3 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

**Certificate**: SG Programming Certificate (C25450C3)
- **Length of Program**: 3 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

Office Location: ATC 113D
Email: umlands@faytechcc.edu
Department Office: Advanced Technology Center, Room 113
Telephone: (910) 678-8347
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 2; Telephone (910) 678-8242. Veterans Services, General Classroom Building, Room 202, (910) 678-8580.

Child Care Financial Assistance Information:
See Child Care Associate, Early Childhood Center, Room 210, Telephone: (910) 678-8486

Revised: 12/19/17

TOTAL REQUIRED CREDITS: 66

Work-Based Learning Option: Qualified students may elect to take up to three (3) credit hours of Work-Based Learning in lieu of a Major elective provided they acquire approval from the Work-Based Learning Coordinator and the Department Chairperson. See your advisor for assistance in selecting courses.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/
*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

Note: The acceptance of transfer credit is ultimately up to the receiving institution. Where choices are available it is best to contact the institution you plan to attend to maximize your selection. See your advisor for assistance in selecting courses.

SIMULATION AND GAME DEVELOPMENT/ 3D MODELING AND 3D PRINTING DIPLOMA (D25450D1)

Effective: Fall 2018
Revised: 12/19/17

Length: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Diploma

TOTAL REQUIRED CREDITS.... 39

Work-Based Learning Option: Qualified students may elect to take up to three (3) credit hours of Work-Based Learning in lieu of a Major elective provided they acquire approval from the Work-Based Learning Coordinator and the Department Chairperson.

TOTAL REQUIRED CREDITS.... 36

Work-Based Learning Option: Qualified students may elect to take up to three (3) credit hours of Work-Based Learning in lieu of a Major elective provided they acquire approval from the Work-Based Learning Coordinator and the Department Chairperson.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
TOTAL REQUIRED CREDITS.... 12

Work-Based Learning Option: NA

SIMULATION AND GAME DEVELOPMENT/ INTERACTIVE 3D CERTIFICATE (C25450C2)
Effective: Fall 2018
Revised: 12/19/17

Students learn the basics of Interactive 3D. They are taught the principles of 3D modeling, Drafting, and programming. They are introduced to 2D and 3D editing software, and programming tools.

Length: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

FALL SEMESTER 1
Prefix No. Title Class Lab Clinical Credit
SGD114 3D Modeling 2 3 0 3
SGD117 Art for Games 2 3 0 3

Totals 4 6 0 6

SPRING SEMESTER 1

SGD116 Graphic Design Tools 2 2 0 3
SGD162 SG 3D Animation 2 3 0 3

Totals 4 5 0 6

FALL SEMESTER 2
Prefix No. Title Class Lab Clinical Credit
SGD172 Virtual SG Environments 2 3 0 3
SGD214 3D Modeling II 2 3 0 3

Totals 4 6 0 6

TOTAL REQUIRED CREDITS.... 18

Work-Based Learning Option: NA

SIMULATION AND GAME DEVELOPMENT/ SG DESIGN FUNDAMENTALS CERTIFICATE (C25450C4)
Effective: Fall 2018
Revised: 12/19/17

Students learn simulation design principles and techniques. They are taught level design, audio design, and video design. They are introduced to level indicators and game engines.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

FALL SEMESTER 1
Prefix No. Title Class Lab Clinical Credit
SGD111 Introduction to SGD 2 2 0 3
SGD112 SGD Design 2 3 0 3
SGD114 3D Modeling 2 3 0 3

SGD174 SG Level Design 2 3 0 3

Totals 7 6 0 9

TOTAL REQUIRED CREDITS.... 18

Work-Based Learning Option: NA

SIMULATION AND GAME DEVELOPMENT/ 3D PRINTING CERTIFICATE (C25450C5)
Effective: Fall 2018
Revised: 12/19/17

Students learn the basics of 3D Modeling and texturing. Students apply 3D digital art and modeling to 3D, and gain experience with 3D printers.

Length: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

FALL SEMESTER 1
Prefix No. Title Class Lab Clinical Credit
SGD114 3D Modeling 2 3 0 3
TDP110 Introduction to 3D Printing 2 3 0 3

Totals 4 6 0 6

### SPEECH-LANGUAGE PATHOLOGY ASSISTANT A45730

The Speech-Language Pathology Assistant curriculum prepares graduates to work under the supervision of a licensed Speech-Language Pathologist, who evaluates, diagnosis, and treats individuals with various communication disorders.

Courses provide instruction in methods of screening for speech, language, and hearing disorders and in following written protocols designed to remediate individual communication problems. Supervised field experience includes working with patients of various ages and various disorders.

Graduates may be eligible for registration with the North Carolina Board of Examiners for Speech-Language Pathologist and Audiologist and must be supervised by a licensed Speech-Language Pathologist. They may be employed in healthcare or education settings.

**Awards**

**Associate Degree**: Associate in Applied Science (A45730)  
**Length of Program**: 5 Semesters  
**Prerequisite**: Algebra I & 1 Unit of Biology, Placement Test Equivalent  
**Diplomas**: Not Applicable  
**Length of Program**:  
**Prerequisite**:  
**Certificate**: Not Applicable  
**Length of Program**:  
**Prerequisite**:  

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
**Work-Based Learning Requirements/Opportunities:** For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

**License or Certification Information:** None Required

**Program Information Contact:**
Curriculum Chairperson: Charisse Gainey
Telephone Number: (910) 678-8492
Office Location: Early Childhood Center, Room 208
Email: gaineyc@faytechcc.edu
Department Office: Health Technology Center, Room 169
Telephone: (910) 678-8264
FTCC Web Site: www.faytechcc.edu

**Application Deadlines:** The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson. Students should apply by January 30th. Specific health program admission requirements must be met before a student is eligible for admission.

**Scholarship/Title IV Financial Aid/VA Services:** Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 2; Telephone (910) 678-8242. Veterans Services, General Classroom Building, Room 202, (910) 678-8580.

**Child Care Financial Assistance Information:**

**TOTAL REQUIRED CREDITS:** 68

**Work-Based Learning Option:** NA

Students with a felony conviction may have limited licensure and employment opportunities.

*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

**SUPPLY CHAIN MANAGEMENT**

The Supply Chain Management curriculum prepares individuals for a multitude of career opportunities in distribution, transportation, warehousing, trucking operations, supply chain, and manufacturing organizations.

Course work includes the international and domestic movement of goods from the raw materials source(s) through production and ultimately to the consumer. Courses in economics and finance, transportation, warehousing, inventory control, material handling, purchasing, computerization, supply chain operations, federal transportation and safety regulations are emphasized.

Graduates should qualify for positions in a wide range of supply chain and logistics positions in government agencies, manufacturing, and service organizations. Employment opportunities include entry-level distribution, planning, material management, warehousing, inventory, transportation, trucking operations, international freight, and logistics.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
### Awards

**Associate Degree**: Distribution Management (A25620D)
- **Length of Program**: 5 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

**Associate Degree**: Global Logistics Technology (A25620G)
- **Length of Program**: 5 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

**Associate Degree**: Trucking Operations Management (A25620T)
- **Length of Program**: 5 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

**Certificate**: Logistics and Distribution Management Certificate (C25620C1)
- **Length of Program**: 2 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

**Certificate**: Trucking Logistics Foundations Management Certificate (C25620C2)
- **Length of Program**: 2 Semesters
- **Prerequisite**: High School Diploma, Placement Test Equivalent

SUPPLY CHAIN MANAGEMENT/
LOGISTICS AND DISTRIBUTION MANAGEMENT CERTIFICATE (C25620C1)
Effective: Fall 2018
Revised: 02/07/18

The Logistics and Distribution Principles Certificate introduces the concepts of logistics and distribution. The management of resources and processes used to deliver a product from raw materials to the end user has become more complex both in domestic and international operations. Individuals in this field work in a multitude of positions in distribution, transportation, warehousing, supply chain, and manufacturing organizations.

Course work includes logistics, transportation, supply chain operations, and distribution. Credit obtained in these courses transfers directly into the FTCC Associate Degree in Supply Chain Management program.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

SUPPLY CHAIN MANAGEMENT/
TRUCKING LOGISTICS FOUNDATION CERTIFICATE
(C25620C2)
Effective: Fall 2018
Revised: 02/07/18

The Trucking Logistics Foundation Certificate introduces the concepts of trucking operations. The management of trucking operations focuses on basic trucking management principles to include modes of transportation, dispatch functions, customer service, industry technology, human resources, driver requirements, safety functions, regulatory requirements, freight brokerage and routing.

Individuals in this field work in a multitude of positions in distribution, transportation, warehousing, trucking, supply chain, and manufacturing organizations.

Course work includes logistics, transportation, supply chain operations. Credit obtained in these courses transfers directly into the FTCC Associate Degree in Supply Chain Management program.

Length: 2 Semesters

SUGICAL FIRST ASSISTANT C45870

The Surgical First Assistant curriculum is designed to prepare qualified Surgical Technology students and other surgical professionals with the educational preparation necessary to assume the role of the Surgical First Assistant.
First Assistant during operative and other invasive procedures.

Students will learn to apply didactic knowledge to the care of the surgical patient and provide assistance in exposure, hemostasis, and other technical functions that will assist the surgeon in performing a safe operation with optimal results for the patient.

Graduates of an accredited Commission on Accreditation of Allied Health Education Program (CAAHEP) program may be eligible to test with one of the following organizations: National Board of Surgical Technology and Surgical Assisting (NBSTSA), National Surgical Assistant Association (NSAA) and the American Board of Surgical Assisting (ABSA). Employment opportunities include hospitals, clinics, educational institutions, and self-employment.

Note: Programmatic accreditation pending

**Work-Based Learning Option:** Students are required to take two (2) credit hours of work-based learning, WBL-111 Work-Based Learning I (Clinical Preceptorship I) and WBL-121 Work-Based Learning II (Clinical Preceptorship II).

Students with a felony conviction may have limited certification and employment opportunities.

**Surgical Technology**

**A45740**

The Surgical Technology curriculum prepares individuals to assist in the care of the surgical patient in the operating room and to function as a member of the surgical team.

Students will apply theoretical knowledge to the care of patients undergoing surgery and develop skills necessary to prepare supplies, equipment, and instruments; maintain aseptic conditions; prepare patients for surgery; and assist surgeons during operations.

Students of CAAHEP (Commission on Accreditation of Allied Health Education Programs) accredited program are required to take the national certification exam administered by the NBSTSA (National Board on Certification in Surgical Technology and Surgical Assisting) within

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
a four week period to or after graduation. Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians’ offices, and central supply processing units.

**Awards**

*Student Completed Accredited Surgical Technology Program.
**Certified Surgical Technologist may be given credit for these courses.

Students with a felony conviction may have limited certification and employment opportunities.

Note: The Advanced SUR courses are individually tailored for surgical/special areas of concentration. Completion of this advanced clinical degree is recommended for advanced placement in the surgical arena. These considerations are for this program only.

*Note: Students may not take an introductory foreign language to fulfill the Humanities/Fine Arts requirement.

SURGICAL TECHNOLOGY AAD BRIDGE PROGRAM (D45740B)
Effective: Fall 2016
Revised: 10/18/16

The Accelerated Alternate Delivery (AAD) Program was developed to assist non-certified currently practicing Surgical Technologists obtain the educational background required to sit for the Certification Examination with the NBSTSA (National Board of Surgical Technology and Surgical Assisting).

Surgical Technologists interested in this program must fit into one of the following categories:

1. On the job trained Surgical Technologists.
2. Formerly trained Surgical Technologists who completed their education from a non-Commission on Accreditation of the Allied Health Programs (CAAHEP) accredited program in Surgical Technology.

Students of CAAHEP (Commission on Accreditation of Allied Health Education Programs) accredited program are required to take the national certification exam administered by the NBSTSA (National Board on Certification in Surgical Technology and Surgical Assisting) within a four week period to or after graduation. Employment opportunities include labor/delivery/emergency departments, inpatient/outpatient surgery centers, dialysis units/facilities, physicians' offices, and central supply processing units.

Length: 2 Semesters
Prerequisite: Departmental Approval, Placement Test Equivalent, Current Surgical Technologist, Documented 1000 hours working experience as a Surgical Technologist, Documentation of having independently scrubbed on 120 surgical cases, 2 Letters of Recommendation from former and/or current supervisors.
Award: Diploma

TOTAL REQUIRED CREDITS.... 48

Work-Based Learning Option: NA

**All surgical courses (SUR) are taught online.

Must be a working Surgical Technologist with 1000 hours or more of work experience. Documented scrub on 120 surgical cases.

Note: Need two letters of recommendation from former and/or current supervisor.

*Work experience will be applied for lab/clinical experience. (SUR123, SUR 135, and SUR 137)

Students with a felony conviction may have limited certification and employment opportunities.

WELDING TECHNOLOGY D50420
The Welding Technology curriculum provides students with a sound understanding of the science, technology and applications essential for successful employment in the welding and metal industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses in math, blueprint reading, metallurgy, welding inspection, and destructive and non-destructive testing provide the student with industry-standard skills developed through classroom training and practical application.

Successful graduates of the Welding Technology curriculum may be
employed as entry-level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.

Awards

Associate Degree: Not Applicable
Length of Program: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Welding Technology Certificate (C50420C1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Certificate: Basic Welding Technology Certificate (C50420H1)
Length of Program: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent

Work-Based Learning Requirements/Opportunities: For Work-Based Learning education requirements/opportunities please see the appropriate Program Sequencing sheet.

License or Certification Information: None Required

Program Information Contact:
Curriculum Chairperson: Steven Scott
Telephone Number: (910) 678-8460
Office Location: Lafayette Hall, Room 148A
Email: scotts@faytechcc.edu
Department Office: Cumberland Hall, Room 334
Telephone: (910) 678-8357
FTCC Web Site: www.faytechcc.edu

Application Deadlines: The program is designed for a student to enter during the fall semester. A student may enter at other times with approval of the Department Chairperson.

Scholarship/Title IV Financial Aid/VA Services: Scholarships/Title IV Financial Aid/Veteran’s assistance may be available for associate degrees. Certificates and diplomas that fall under this program/area of study may or may not be eligible for Scholarship/Title IV Financial Aid/VA Services. Please contact the Financial Aid Office, Student Center, Room 2; Telephone (910) 678-8242. Veterans Services, General Classroom Building, Room 202, (910) 678-8580.

Child Care Financial Assistance Information:
See Child Care Associate, Early Childhood Center, Room 210, Telephone: (910) 678-8486

Revised: 10/06/17

WELDING TECHNOLOGY (D50420)
Effective: Fall 2015
Revised: 11/14/14

Length: 3 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Diploma

Work-Based Learning Option: Qualified students may elect to take up to two (2) credit hours of Work-Based Learning in lieu of WLD-261 provided they acquire approval from the Work-Based Learning Coordinator and the Department Chairperson.

*ENG-101 will not transfer to Associate Degree program.

WELDING TECHNOLOGY/ BASIC WELDING TECHNOLOGY CERTIFICATE (C50420C1)
Evening/Weekend Program
Effective: Fall 2015
Revised: 11/14/14

This evening certificate program is designed to give individuals the opportunity to acquire fundamental skills in welding. Coursework includes electrode welding and cutting processes and welding symbols and specifications.

Excellent employment opportunities as entry-level welding apprentices in industry, manufacturing and construction exist throughout the region. Courses in this program can be transferred directly into the Welding Technology diploma program.

Length: 2 Semesters
Prerequisite: High School Diploma, Placement Test Equivalent
Award: Certificate

| ACC 140 Payroll Accounting        | 01        | 03      | 00         | 02         |
| Prerequisites: Take ACC 115 or ACC 120 |
| Corequisites: None                |           |         |            |            |
| Component: None                   |           |         |            |            |
| This course covers federal and state laws pertaining to wages, payroll taxes, payroll tax forms, and journal and general ledger transactions. Emphasis is placed on computing wages; calculating social security, income, and unemployment taxes; preparing appropriate payroll tax forms; and journalizing/posting transactions. Upon completion, students should be able to analyze data, make appropriate computations, complete forms, and prepare accounting entries using appropriate technology. This course is also available through the Virtual Learning Community (VLC). |

| ACC 149 Intro to Acc Spreadsheets | 01        | 03      | 00         | 02         |
| Prerequisites: Take One: ACC-115 or ACC-120 |
| Corequisites: None                |           |         |            |            |
| Component: None                   |           |         |            |            |
| This course provides a working knowledge of computer spreadsheets and their use in accounting. Topics include pre-programmed problems, model-building problems, beginning-level macros, graphics, and what-if analysis enhancements of template problems. Upon completion, students should be able to use a computer spreadsheet to complete many of the tasks required in accounting. |

| ACC 150 Acct Software Appl        | 01        | 03      | 00         | 02         |
| Prerequisites: Take ACC 115 or ACC 120 |
| Corequisites: None                |           |         |            |            |
| Component: None                   |           |         |            |            |
| This course introduces microcomputer applications related to accounting systems. Topics include general ledger, accounts receivable, accounts payable, inventory, payroll, and correcting, adjusting, and closing entries. Upon completion, students should be able to use a computer accounting package to accurately solve accounting problems. |

| ACC 151 Acct Spreadsheet Appl     | 01        | 03      | 00         | 02         |
| Prerequisites: Take ACC 149      |           |         |            |            |
| Corequisites: None                |           |         |            |            |
| Component: None                   |           |         |            |            |
| This course is designed to facilitate the use of spreadsheet technology as applied to accounting principles. Emphasis is placed on using spreadsheet software as a problem-solving and decision-making tool. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered. |

| ACC 180 Practices in Bookkeeping  | 03        | 00      | 00         | 03         |
| Prerequisites: Take ACC 120      |           |         |            |            |
| Corequisites: None                |           |         |            |            |
| Component:                       |           |         |            |            |
| This course provides advanced instruction in bookkeeping and record-keeping functions. Emphasis is placed on mastering adjusting entries, correction of errors, depreciation, payroll, and inventory. Upon completion, students should be able to conduct all key bookkeeping functions for small businesses. |

| ACC 220 Intermediate Accounting I | 03        | 02      | 00         | 04         |
| Prerequisites: Take ACC 120      |           |         |            |            |
| Corequisites: None                |           |         |            |            |
| Component: None                   |           |         |            |            |
| This course is a continuation of the study of accounting principles with in-depth coverage of theoretical concepts and financial statements. Topics include generally accepted accounting principles and an extensive analyses of financial statements. Upon completion, students should be able to demonstrate competence in the conceptual framework underlying financial accounting, including the application of financial standards. This course is also available through the Virtual Learning Community (VLC). |

| ACC 221 Intermediate Accounting II| 03        | 02      | 00         | 04         |
| Prerequisites: Take ACC 220      |           |         |            |            |
| Corequisites: None                |           |         |            |            |
| Component: None                   |           |         |            |            |
| This course is a continuation of ACC 220. Emphasis is placed on special problems which may include leases, bonds, investments, ratio analyses, present value applications, accounting changes, and corrections. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered. |

| ACC 225 Cost Accounting          | 03        | 00      | 00         | 03         |
| Prerequisites: Take ACC 121      |           |         |            |            |
| Corequisites: None                |           |         |            |            |
| Component: None                   |           |         |            |            |
| This course introduces the nature and purposes of cost accounting as an information system for planning and control. Topics include direct materials, direct labor, factory overhead, process, job order, and standard cost systems. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered. |

| ACC 226 Adv Managerial Acct       | 03        | 00      | 00         | 03         |
| Prerequisites: Take ACC 121      |           |         |            |            |
| Corequisites: None                |           |         |            |            |
| Component: None                   |           |         |            |            |
| This course is designed to develop an appreciation for the uses of cost information in the administration and control of business organizations. Emphasis is placed on how accounting data can be interpreted and used by management in planning and controlling business activities. Upon completion, students should be able to analyze and interpret cost information and present this information in a form that is usable by management. |

| ACC 240 Governmental & Not-for-Profit Accounting | 03 | 00 | 00 | 03 |
| Prerequisites: Take ACC 121 |
| Corequisites: None |
| Component: None |
| This course introduces principles and procedures applicable to governmental and not-for-profit organizations. Emphasis is placed on various budgetary accounting procedures and fund accounting. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered. |

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
This course introduces the basic refrigeration process used in mechanical refrigeration and air conditioning systems. Topics include terminology, safety, and identification and function of components; refrigeration cycle; and tools and instrumentation used in mechanical refrigeration systems. Upon completion, students should be able to identify refrigeration systems and components, explain the refrigeration process, and use the tools and instrumentation of the trade.

AHR 111 HVACR Electricity  02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces electricity as it applies to HVACR equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.

AHR 112 Heating Technology  02 04 00 04
Prerequisites: Take AHR 110
Corequisites: None
Component: None
This course introduces electricity as it applies to HVACR equipment. Emphasis is placed on power sources, interaction of electrical components, wiring of simple circuits, and the use of electrical test equipment. Upon completion, students should be able to demonstrate good wiring practices and the ability to read simple wiring diagrams.

AHR 113 Comfort Cooling  02 04 00 04
Prerequisites: None
Corequisites: None
Component: None
This course covers the installation procedures, system operations, and maintenance of residential and light commercial comfort cooling systems. Topics include terminology, component operation, and testing and repair of equipment used to control and produce assured comfort levels. Upon completion, students should be able to use psychrometrics, manufacturer specifications, and test instruments to determine proper system operation.

AHR 114 Heat Pump Technology  02 04 00 04
Prerequisites: Take AHR 110 and AHR 113
Corequisites: None
Component: None
This course covers the principles of air source and water source heat pumps. Emphasis is placed on safety, modes of operation, defrost systems, refrigerant charging, and system performance. Upon completion, students should be able to understand and analyze system performance and perform routine service procedures.

AHR 115 Refrigeration Systems  01 03 00 02
Prerequisites: Take AHR 110, AHR 112, AHR-114, and AHR 130
Corequisites: None
Component: None
This course introduces refrigeration systems and applications. Topics include defrost methods, safety and operational control, refrigerant piping, refrigerant recovery and charging, and leak testing. Upon completion, students should be able to assist in installing and testing refrigeration systems and perform simple repairs.

AHR 120 HVACR Maintenance  01 03 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic principles of industrial air conditioning and heating systems. Emphasis is placed on preventive maintenance procedures for heating and cooling equipment and related components. Upon completion, students should be able to perform routine preventive maintenance tasks, maintain records, and assist in routine equipment repairs.

AHR 130 HVAC Controls  02 02 00 03
Prerequisites: Take AHR 110, AHR 111, and AHR 113
Corequisites: None
Component: None
This course covers the types of controls found in residential and commercial comfort systems. Topics include electrical and electronic controls, control schematics and diagrams, test instruments, and analysis and troubleshooting of electrical systems. Upon completion, students should be able to diagnose and repair common residential and commercial comfort system controls.

AHR 133 HVAC Servicing  02 06 00 04
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 113, AHR 114, and AHR 130
Corequisites: None
Component: None
The course covers the maintenance and servicing of HVAC equipment. Topics include testing, adjusting, maintaining, and troubleshooting HVAC equipment and record keeping. Upon completion, students should be able to adjust, maintain, and service HVAC equipment.

AHR 160 Refrigerant Certification  01 00 00 01
Prerequisites: None
Corequisites: None
Component: None
This course covers the requirements for the EPA certification examinations. Topics include small appliances, high pressure systems, and low pressure systems. Upon completion, students should be able to demonstrate knowledge of refrigerants and be prepared for the EPA certification examinations.

AHR 180 HVACR Customer Relations  01 00 00 01
Prerequisites: None
Corequisites: None
Component: None
This course introduces common business and customer relation practices that may be encountered in HVACR. Topics include business practices, appearance of self and vehicle, ways of handling customer complaints, invoices, telephone communications, and warranties. Upon completion, students should be able to present themselves to customers in a professional manner, understand how the business operates, complete invoices, and handle complaints.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
AHR 211 Residential System Design
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 113, AHR 114, and AHR 130
Corequisites: None
Component: None
This course introduces the principles and concepts of conventional residential heating and cooling system design. Topics include heating and cooling load estimating, basic psychrometrics, equipment selection, duct system selection, and system design. Upon completion, students should be able to design a basic residential heating and cooling system.

AHR 212 Advanced Comfort Systems
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 113, AHR 114, AHR 130, and AHR 151
Corequisites: None
Component: None
This course covers water-cooled comfort systems, water-source/ geothermal heat pumps, and high efficiency heat pump systems including variable speed drives and controls. Emphasis is placed on the application, installation, and servicing of water-source systems and the mechanical and electronic control components of advanced comfort systems. Upon completion, students should be able to test, analyze, and troubleshoot water-cooled comfort systems, water-source/geothermal heat pumps, and high efficiency heat pumps.

AHR 213 HVAC Building Code
Prerequisites: None
Corequisites: None
Component: None
This course covers the North Carolina codes that are applicable to the design and installation of HVACR systems. Topics include current North Carolina codes as applied to HVACR design, service, and installation. Upon completion, students should be able to demonstrate the correct usage of North Carolina codes that apply to specific areas of the HVACR trade.

AHR 215 Commercial HVAC Controls
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 113, AHR 114, and AHR 130
Corequisites: None
Component: None
This course introduces HVAC control systems used in commercial applications. Topics include electric/electronic control systems, pneumatic control systems, DDC temperature sensors, humidity sensors, pressure sensors, wiring, controllers, actuators, and controlled devices. Upon completion, students should be able to verify or correct the performance of common control systems with regard to sequence of operation and safety.

AHR 240 Hydronic Heating
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 114, and AHR 130
Corequisites: None
Component: None
This course covers the accepted procedures for proper design, installation, and balance of hydronic heating systems for residential or commercial buildings. Topics include heating equipment; pump, terminal unit, and accessory selection; piping system selection and design; and piping sizing and troubleshooting. Upon completion, students should be able to assist with the proper design, installation, and balance of typical hydronic systems.

AHR 245 Chiller Systems
Prerequisites: Take AHR 110, AHR 111, AHR 112, AHR 113, AHR 114, and AHR 130
Corequisites: None
Component: None
This course introduces the fundamentals of liquid chilling equipment. Topics include characteristics of water, principles of water chilling, the chiller, the refrigerant, water and piping circuits, freeze prevention, purging, and equipment flexibility. Upon completion, students should be able to describe the components, controls, and overall operation of liquid chilling equipment and perform basic maintenance tasks.

AHR 250 HVAC System Diagnostics
Prerequisites: AHR 133
Corequisites: None
Component: None
This course is a comprehensive study of air conditioning, heating, and refrigeration system diagnostics and corrective measures. Topics include advanced system analysis, measurement of operating efficiency, and inspection and correction of all major system components. Upon completion, students should be able to restore a residential or commercial AHR system so that it operates at or near manufacturers’ specifications.

ANT 210 General Anthropology
Prerequisites: Take ENG-111
Corequisites: None
Component: None
This course introduces the physical, archaeological, linguistic, and ethnological fields of anthropology. Topics include human origins, genetic variations, archaeology, linguistics, primatology, and contemporary cultures. Upon completion, students should be able to demonstrate an understanding of the four major fields of anthropology. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

ANT 220 Cultural Anthropology
Prerequisites: Take ENG-111
Corequisites: None
Component: None
This course introduces the nature of human culture. Emphasis is placed on cultural theory, methods of fieldwork, and cross-cultural comparisons in the areas of ethnology, language, and the cultural past. Upon completion, students should be able to demonstrate an understanding of basic cultural processes and how cultural data are collected and analyzed. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

ANT 221 Comparative Cultures
Prerequisites: Take ENG-111
Corequisites: None
Component: None
This course provides an ethnographic survey of societies around the world covering their distinctive cultural characteristics and how these relate to cultural change. Emphasis is placed on the similarities and differences in social institutions such as family, economics, politics, education, and religion. Upon completion, students should be able to demonstrate knowledge of a variety of cultural adaptive strategies. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course introduces basic architectural drafting techniques, lettering, use of architectural and engineer scales, and sketching. Topics include orthographic, axonometric, and oblique drawing techniques using architectural plans, elevations, sections, and details; reprographic techniques; and other related topics. Upon completion, students should be able to prepare and print scaled drawings within minimum architectural standards.

**ARC 12 Constr Mats & Methods**

Prerequisites: None
Corequisites: None
Component: None
This course introduces construction materials and methodologies. Topics include construction terminology, traditional and alternative materials and their properties, manufacturing processes, construction techniques, and other related topics. Upon completion, students should be able to detail construction assemblies and identify construction materials and properties.

**ARC 13 Residential Architectural Tech**

Prerequisites: Take ARC 111
Corequisites: Take ARC 112
Component: None
This course covers intermediate residential working drawings. Topics include residential plans, elevations, sections, details, schedules, and other related topics. Upon completion, students should be able to prepare a set of residential working drawings that are within accepted architectural standards.

**ARC 14 Architectural CAD**

Prerequisites: None
Corequisites: Take ARC 114
Component: None
This course provides a laboratory setting to enhance architectural CAD skills. Emphasis is placed on further development of commands and system operation. Upon completion, students should be able to prepare and plot architectural drawings to scale within accepted architectural standards.

**ARC 14A Architectural CAD Lab**

Prerequisites: None
Corequisites: Take ARC 114
Component: None
This course provides a laboratory setting to enhance architectural CAD skills. Emphasis is placed on further development of commands and system operation. Upon completion, students should be able to prepare and plot architectural drawings to scale within accepted architectural standards.

**ARC 131 Building Codes**

Prerequisites: Take ARC 112 or CAR 111
Corequisites: None
Component: None
This course covers the methods of researching building codes for specific projects. Topics include residential and commercial building codes. Upon completion, students should be able to determine the code constraints governing residential and commercial projects.

**ARC 132 Specifications & Contracts**

Prerequisites: Take ARC 112
Corequisites: None
Component: None
This course covers the development of written specifications and the implications of different contractual arrangements. Topics include specification development, contracts, bidding material research, and agency responsibilities. Upon completion, students should be able to write a specification section and demonstrate the ability to interpret contractual responsibilities.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
This course introduces concepts and principles related to sustainable site development and architectural design. Topics include low impact and sustainable site development, water efficiency, energy efficiency, material and resource management, indoor environmental quality, and return on investment. Upon completion, students should be able to articulate and integrate sustainable design principles into site and architectural design.

**ARC 211 Light Construction Technology** 01 06 00 03
Prerequisites: Take ARC 111
Corequisites: Take ARC 112
Component: None
This course covers working drawings for light construction. Topics include plans, elevations, sections, and details; schedules; and other related topics. Upon completion, students should be able to prepare a set of working drawings which are within accepted architectural standards.

**ARC 213 Design Project** 02 06 00 04
Prerequisites: All courses required: ARC 111, ARC 112 and ARC 114
Corequisites: None
Component: None
This course provides the opportunity to design and prepare a set of contract documents within an architectural setting. Topics include schematic design, design development, construction documents, and other related topics. Upon completion, students should be able to prepare a set of commercial contract documents.

**ARC 221 Architectural 3-D CAD** 01 04 00 03
Prerequisites: Take ARC 114
Corequisites: None
Component: None
This course introduces architectural three-dimensional CAD applications. Topics include three-dimensional drawing, coordinate systems, viewing, rendering, modeling, and output options. Upon completion, students should be able to prepare architectural three-dimensional drawings and renderings.

**ARC 230 Environmental Systems** 03 03 00 04
Prerequisites: Take ARC 111 and MAT 121 or MAT 171
Corequisites: None
Component: None
This course introduces plumbing, mechanical (HVAC), and electrical systems for the architectural environment. Topics include basic plumbing, mechanical, and electrical systems for residential and/or commercial buildings with an introduction to selected code requirements. Upon completion, students should be able to develop schematic drawings for plumbing, mechanical, and electrical systems and perform related calculations.

**ARC 231 Architectural Presentations** 02 04 00 04
Prerequisites: Take ARC 111
Corequisites: None
Component: None
This course introduces architectural presentation techniques. Topics include perspective drawing, shadow projection, texturization, rendered plans, elevations, and other related topics. Upon completion, students should be able to present ideas graphically and do rendered presentation drawings.

**ARC 235 Architectural Portfolio** 02 03 00 03
Prerequisites: Take ARC 221
Corequisites: None
Component: None
This course covers the methodology for the creation of an architectural portfolio. Topics include preparation of marketing materials and a presentation strategy using conventional and/or digital design media. Upon completion, students should be able to produce an architectural portfolio of selected projects.

**ARC 240 Site Planning** 02 02 00 03
Prerequisites: Take ARC 111
Corequisites: None
Component: None
This course introduces the principles of site planning, grading plans, and earthwork calculations. Topics include site analysis, site work, site utilities, cut and fill, soil erosion control, and other related topics. Upon completion, students should be able to prepare site development plans and details and perform cut and fill calculations.

**ARC 250 Survey of Architecture** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the historical trends in architectural form. Topics include historical and current trends in architecture. Upon completion, students should be able to demonstrate an understanding of significant historical and current architectural styles.

**ARC 261 Solar Technology** 01 02 00 02
Prerequisites: Take ARC 111
Corequisites: None
Component: None
This course introduces passive and active solar design theory and application. Topics include passive solar design, active solar theory, heat loss analysis, and other related topics. Upon completion, students should be able to design a passive solar system.

**ART 111 Art Appreciation** 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms including but not limited to sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

**ART 113 Art Methods and Materials** 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of media and techniques. Emphasis is placed on exploration and manipulation of materials. Upon completion, students should be able to demonstrate familiarity with a variety of methods, materials, and processes. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
ART 115 Art History Survey II
Prerequisites: None
Corequisites: None
Component: None
This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

ART 116 Survey of American Art 03 00 00 03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the development of American art forms from colonial times to the present. Emphasis is placed on architecture, painting, sculpture, graphics, and the decorative arts. Upon completion, students should be able to demonstrate understanding of the history of the American creative experience. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

ART 117 Non-Western Art History 03 00 00 03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces non-Western cultural perspectives. Emphasis is placed on, but not limited to, African, Oriental, and Oceanic art forms throughout history. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of non-Western social and cultural development. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

ART 118 Art by Women 03 00 00 03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an analytical study of the works of representative female artists. Emphasis is placed on the historical and cultural contexts, themes, and aesthetic features of individual works. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 120 3D Printing for the Artist 02 03 00 03
Prerequisites: Take TDP 110
Corequisites: None
Component: This course provides an introduction to three-dimensional design principles using the basic techniques surrounding 3D Printing. Emphasis is placed on creating expressive works using 3D printing. Upon completion, students should be able to demonstrate an understanding of three-dimensional design as well as demonstrate an ability to create and print an advanced creative project.

ART 122 Three-Dimensional Design 00 06 00 03
Prerequisites: Take ART 121
Corequisites: None
Component: None
This course introduces basic studio problems in three-dimensional visual design. Emphasis is placed on the structural elements and organizational principles as applied to mass and space. Upon completion, students should be able to apply three-dimensional design concepts. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 131 Drawing I 00 06 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the language of drawing and the use of various drawing materials. Emphasis is placed on drawing techniques, media, and graphic principles. Upon completion, students should be able to demonstrate competence in the use of graphic form and various drawing processes. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 132 Drawing II 00 06 00 03
Prerequisites: Take ART 131
Corequisites: None
Component: None
This course continues instruction in the language of drawing and the use of various materials. Emphasis is placed on experimentation in the use of drawing techniques, media, and graphic materials. Upon completion, students should be able to demonstrate increased competence in the expressive use of graphic form and techniques. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 135 Figure Drawing I 00 06 00 03
Prerequisites: Take ART 131
Corequisites: None
Component: None
This course introduces rendering the human figure with various drawing materials. Emphasis is placed on the use of the visual elements, anatomy, and proportion in the representation of the draped and undraped figure. Upon completion, students should be able to demonstrate competence in drawing the human figure. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 171 Computer Art I 00 06 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the use of the computer as a tool for solving visual problems. Emphasis is placed on fundamentals of computer literacy and design through bit-mapped image manipulation. Upon completion, students should be able to demonstrate an understanding of paint programs, printers, and scanners to capture, manipulate, and output images. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
ART 212 Gallery Assistantship I
Prerequisites: None
Corequisites: None
Component: None
This course covers the practical application of display techniques. Emphasis is placed on preparation of artwork for installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate basic gallery exhibition skills. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 213 Gallery Assistantship II
Prerequisites: Take ART 212
Corequisites: None
Component: None
This course provides additional experience in display techniques. Emphasis is placed on preparation of artwork for exhibition, alternative methods of installation, hardware systems, and exhibition graphics. Upon completion, students should be able to demonstrate independent decision-making, and exhibition expertise. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 214 Portfolio and Résumé
Prerequisites: None
Corequisites: None
Component: None
This course covers résumé writing, interview skills, and the preparation and presentation of an art portfolio. Emphasis is placed on the preparation of a portfolio of original artwork, the preparation of a photographic portfolio, approaches to résumé writing, and interview techniques. Upon completion, students should be able to mount original art for portfolio presentation, photograph and display a professional slide portfolio, and write an effective résumé. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 222 Wood Design I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the historical and contemporary design concepts and their application to the construction of functional and sculptural wood forms. Emphasis is placed on the mastery of hand and power tools. Upon completion, students should be able to demonstrate appropriate use of tools to create unique designs. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ART 231 Printmaking I
Prerequisites: None
Corequisites: None
Component: None
This course introduces printmaking: its history, development techniques, and processes. Emphasis is placed on basic applications with investigation into image source and development. Upon completion, students should be able to produce printed images utilizing a variety of methods. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.
**ART 244 Watercolor**  
Prerequisites: None  
Component: None  
This course introduces basic methods and techniques used in watercolor. Emphasis is placed on application, materials, content, and individual expression. Upon completion, students should be able to demonstrate a variety of traditional and nontraditional concepts used in watercolor media. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ART 245 Metals I**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces basic metal design in traditional and contemporary art forms using brass, copper, and silver. Emphasis is placed on designing and fabricating jewelry, small sculptures, and utilitarian objects. Upon completion, students should be able to design and produce small art objects. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ART 246 Metals II**  
Prerequisites: Take ART 245  
Corequisites: None  
Component: None  
This course provides a continuation of metal design utilizing basic methods of casting and other processes. Emphasis is placed on individualized design. Upon completion, students should be able to design and produce expressive forms. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ART 247 Jewelry I**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces a basic understanding of the design and production of jewelry. Emphasis is placed on concepts and techniques using metals and other materials. Upon completion, students should be able to demonstrate an ability to use appropriate methods to create unique jewelry. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ART 248 Jewelry II**  
Prerequisites: Take ART 247  
Corequisites: None  
Component: None  
This course is a continuation of the skills learned in ART 247. Emphasis is placed on the creation of individual designs that utilize a variety of techniques such as casting, cloisonne, and plique-a-jour. Upon completion, students should be able to create jewelry which demonstrates originality. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ART 250 Surface Design: Textiles**  
Prerequisites: None  
Corequisites: None

This course introduces the basic principles and elements of art as applied to textile surfaces. Emphasis is placed on direct, top-dyed processes that utilize both synthetic and natural dyes, and techniques such as batiking, stenciling, and stamping. Upon completion, students should be able to demonstrate a basic understanding of appropriate materials and techniques as they apply to original design on a variety of textile surfaces. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ART 251 Weaving I**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides a basic understanding of the design and production of constructed textiles. Emphasis is placed on traditional weaving techniques. Upon completion, students should be able to warp and dress the loom and use appropriate techniques for the creation of unique woven fabrics. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ART 252 Weaving II**  
Prerequisites: Take ART 251  
Corequisites: None  
Component: None  
This course furthers an exploration of creative design as it relates to manipulated fiber construction. Emphasis is placed on traditional and experimental methods. Upon completion, students should be able to create fiber constructions that utilize appropriate techniques for individual expressive designs. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ART 260 Photography Appreciation**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the origins and historical development of photography. Emphasis is placed on the study of composition and history of photography as an art form. Upon completion, students should be able to recognize and produce, using color transparencies, properly exposed, well-composed photographs. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ART 261 Photography I**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces photographic equipment, theory, and processes. Emphasis is placed on camera operation, composition, darkroom technique, and creative expression. Upon completion, students should be able to successfully expose, develop, and print a well-conceived composition. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
This course covers advanced hand building and wheel techniques. Emphasis is placed on creative expression, surface design, sculptural quality, and glaze effect. Upon completion, students should be able to demonstrate a high level of technical competence in forming and glazing with a development of three-dimensional awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ART 286 Ceramics IV**
Prerequisites: Take ART 285
Corequisites: None
Component: None
This course provides the opportunity for self-determined work in sculptural and functional ceramics. Emphasis is placed on developing the technical awareness of clay bodies, slips, engobes, and firing procedures necessary to fulfill the student’s artistic goals. Upon completion, students should be able to demonstrate a knowledge of materials and techniques necessary to successfully create original projects in the clay medium. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ART 288 Studio**
Prerequisites: None
Corequisites: None
Component: None
This course provides the opportunity for advanced self-determined work beyond the limits of regular studio course sequences. Emphasis is placed on creative self-expression and in-depth exploration of techniques and materials. Upon completion, students should be able to create original projects specific to media, materials, and techniques. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ASL 111 Elementary ASL I**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental elements of American Sign Language within a cultural context. Emphasis is placed on the development of basic expressive and receptive skills. Upon completion, students will be able to comprehend and respond with grammatical accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts.

**ASL 112 Elementary ASL II**
Prerequisites: Take ASL 111
Corequisites: None
Component: None
This course is a continuation of ASL 111 focusing on the fundamental elements of American Sign Language. Emphasis is placed on the progressive development of expressive and receptive skills. Upon completion, the students should be able to comprehend and respond with increasing accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**ASL 181 ASL Lab 1**
Prerequisites: Take ASL 181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of American Sign Language. Emphasis is placed on the progressive development of basic expressive and receptive skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ASL 182 ASL Lab 2**
Prerequisites: Take ASL 181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of American Sign Language. Emphasis is placed on the progressive development of basic expressive and receptive skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing accuracy to expressive American Sign Language and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ASL 211 Intermediate ASL I**
Prerequisites: Take ASL 112
Corequisites: None
Component: None
This course provides a review and expansion of the essential skills of American Sign Language. Emphasis is placed on the progressive development of expressive and receptive skills, study of authentic and representative literacy and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively using American Sign Language about the past, present, and future. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course provides an overview of modern astronomy. Topics include an overview of the solar system, the sun, stars, galaxies, and the larger universe. Upon completion, students should be able to demonstrate an understanding of the universe around them. This course has been approved for transfer under the CAA as a general education course in Natural Science.

AST 152A General Astronomy II Lab 00 02 00 01
Prerequisites: Take AST 151
Corequisites: Take AST 152A
Component: None
The course is a laboratory to accompany AST 152. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 152 and provide practical experience. Upon completion, students should be able to demonstrate a working knowledge of astronomy. This course has been approved for transfer under the CAA as a general education course in Natural Science.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course provides the operational characteristics of robots and programming in their respective languages. Topics include robot programming, teach pendants, PLC integration, operator interfaces, the interaction of external sensors, machine vision, network systems, and other related devices. Upon completion, students should be able to program and demonstrate the operation of various robots.

This course covers the operation of industrial robots. Topics include the classification of robots, activators, grippers, work envelopes, computer interfaces, overlapping work envelopes, installation, and programming. Upon completion, students should be able to install, program, and troubleshoot industrial robots.

This course covers emerging technologies in the automotive industry and diagnostic procedures associated with those technologies. Topics include exploring new technologies, diagnostic tools, methods and repairs. Upon completion, students should be able to demonstrate practical skills applicable to emerging automotive technologies.

This course introduces the proper procedures for using automotive refinishing equipment and materials in surface preparation and application. Topics include federal, state, and local regulations, personal safety, refinishing equipment and materials, surface preparation, masking, application techniques, and other related topics. Upon completion, students should be able to identify and use proper equipment and materials in refinishing following accepted industry standards.

This course covers advanced painting techniques and technologies with an emphasis on identifying problems encountered by the refinishing technician. Topics include materials application, color matching, correction of refinishing problems, and other related topics. Upon completion, students should be able to perform spot, panel, and overall refinishing repairs and identify and correct refinishing problems.

This course introduces multistage finishes, custom painting, and protective coatings. Topics include base coats, advanced intermediate coats, clear coats, and other related topics. Upon completion, students should be able to identify and apply specialized finishes based on accepted industry standards.

This course introduces safety, tools, and the basic fundamentals of body repair. Topics include shop safety, damage analysis, tools and equipment, repair techniques, materials selection, materials usage, and other related topics. Upon completion, students should be able to identify and repair minor direct and indirect damage including removal/replacing of body panels to accepted standards.

This course covers safety, tools, and advanced body repair. Topics include shop safety, damage analysis, tools and equipment, advanced repair techniques, materials preparation, repair, material usage, and other related topics. Upon completion, students should be able to identify and repair or replace direct and indirect damage to accepted standards including movable glass and hardware.

This course introduces safety, equipment, structural damage analysis, and damage repairs. Topics include shop safety, design and construction, structural analysis and measurement, equipment, structural glass, repair techniques, and other related topics. Upon completion, students should be able to identify and perform repairs to a vehicle which has received light/moderate structural damage.

This course provides an in-depth study of structural damage analysis and repairs to vehicles that have received moderate to heavy structural damage. Topics include shop safety, structural analysis and measurement, equipment, structural glass, advanced repair techniques, structural component replacement and alignment, and other related topics. Upon completion, students should be able to analyze and perform repairs according to industry standards.

This course covers safety, plastic and adhesive identification, and the various repair methods of automotive plastic components. Topics include safety, identification, preparation, material usage, and damage repairs. Upon completion, students should be able to identify and repair or replace automotive plastic components in accordance with industry standards.

This course covers the basic principles of automotive mechanical and electrical components. Topics include personal and environmental safety and suspension and steering, electrical, brake, heating and air-conditioning, cooling, drive train, and restraint systems. Upon completion, students should be able to identify system components and perform basic system diagnostic checks and/or repairs according to industry standards.
AUB 160 Body Shop Operations
Prerequisites: None
Corequisites: None
Component: None
This course introduces the day-to-day operations of autobody repair facilities. Topics include work habits and ethics, customer relations, equipment types, materials cost and control, policies and procedures, shop safety and liabilities, and other related topics. Upon completion, students should be able to understand the general operating policies and procedures associated with an autobody repair facility.

AUB 162 Autobody Estimating
Prerequisites: None
Corequisites: None
Component: None
This course provides a comprehensive study of autobody estimating. Topics include collision damage analysis, industry regulations, flat-rate and estimated time, and collision estimating manuals. Upon completion, students should be able to prepare and interpret a damage report.

AUC 285 Auto Custom Design Proj
Prerequisites: None
Corequisites: None
Component: None
This course provides the opportunity to design and construct an instructor-approved project. Emphasis is placed on selection, proposal, design construction, testing, and documentation of the approved project. Upon completion, students should be able to present and demonstrate an operational project.

AUM 111 Managing Automotive Org
Prerequisites: None
Corequisites: None
Component: None
This course will cover the principles and procedures involved in managing an automotive facility. Emphasis is placed on record maintenance, facility layout, technical service training, personnel management, parts management, and computer-based shop management systems. Upon completion, students should be able to demonstrate procedures used in the day-to-day operations of an automotive facility.

AUM 112 Emerging Trends-Auto Ind
Prerequisites: None
Corequisites: None
Component: None
This course will cover emerging trends in the automotive industry. Topics will include an overview of management styles, manufacturing processes, technological advances, and current and future trends affecting the automotive industry. Upon completion, students should be able to discuss and analyze the current and future trends affecting the automotive industry.

AUT 113 Automotive Servicing 1
Prerequisites: None
Corequisites: None
Component: None
This course is a lab used as an alternative to co-op placement. Emphasis is placed on shop operations, troubleshooting, testing, adjusting, repairing, and replacing components using appropriate test equipment and service information. Upon completion, students should be able to perform a variety of automotive repairs using proper service procedures and to operate appropriate equipment.

AUT 116 Engine Repair
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: Take AUT-116A
Component: None
This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

AUT 116A Engine Repair Lab
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Credit Equivalent
Corequisites: Take AUT 116
Component: None
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

AUT 141 Suspension & Steering Systems 02
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
Corequisites: Take AUT 141A
Component: None
This course covers principles of operation, types, and diagnosis/repair of suspension and steering systems to include steering geometry. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.

AUT 141A Suspension & Steering Lab
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
Corequisites: Take AUT 141
Component: None
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.

AUT 151 Brake Systems
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
Corequisites: Take AUT 151A
Component: None
This course covers principles of operation and types, diagnosis, service, and repair of brake systems. Topics include drum and disc brakes involving hydraulic, vacuum boost, hydro-boost, electrically powered boost, and anti-lock and parking brake systems. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

Refer to the FTCC website for the most current information. Go to www.faytechec.edu/academics/.
AUT 151A Brakes Systems Lab
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
Corequisites: Take AUT 151
Component: None
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include drum and disc brakes involving hydraulic, vacuum-boost, hydram-boost, electrically powered boost, and anti-lock, parking brake systems and emerging brake systems technologies. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

AUT 163 Adv Auto Electricity Lab
Prerequisites: Take TRN 120
Corequisites: Take AUT 163
Component: None
This course covers electronic theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of electronics, lighting, gauges, horn, wiper, accessories, and body modules. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, and troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

AUT 181 Engine Performance 1
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
Corequisites: Take AUT 181A
Component: None
This course covers the introduction, theory of operation, and basic diagnostic procedures required to restore engine performance to vehicles equipped with complex engine control systems. Topics include an overview of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related drivability problems using appropriate test equipment/service information.

AUT 181A Engine Performance 1 Lab
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
Corequisites: Take AUT 181
Component: None
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include overviews of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices and emerging engine performance technologies. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related drivability problems using appropriate test equipment/service information.

AUT 183 Engine Performance 2
Prerequisites: Take AUT 181
Corequisites: None
Component: None
This course covers study of the electronic engine control systems, the diagnostic process used to locate engine performance concerns, and procedures used to restore normal operation. Topics will include currently used fuels and fuel systems, exhaust gas analysis, emission control components and systems, OBD II (on-board diagnostics) and inter-related electrical/electronic systems. Upon completion, students should be able to diagnose and repair complex engine performance concerns using appropriate test equipment and service information.

AUT 221 Auto Transm/Transaxles
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
Corequisites: Take AUT 221A
Component: None
This course covers operation, diagnosis, service, and repair of automatic transmissions/transaxles. Topics include hydraulic, pneumatic, mechanical, and electrical/electronic operation of automatic drive trains and the use of appropriate service tools and equipment. Upon completion, students should be able to explain operational theory, diagnose and repair automatic drive trains.

AUT 221A Auto Transm/Transax Lab
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
Corequisites: Take AUT 221A
Component: None
This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, and troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

AUT 231 Man Trans/Axles/Drtrains
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
Corequisites: Take AUT 231A
Component: None
This course covers the operation, diagnosis, and repair of manual transmissions/transaxles, clutches, driveshafts, axles, and final drives. Topics include theory of torque, power flow, and manual drive train service and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to explain operational theory, diagnose and repair manual drive trains.

AUT 231A Man Trans/Ax/Drtrains Lab
Prerequisites: Take DRE-097 or ENG-080 and RED-080 or Placement Test Equivalent
Corequisites: Take AUT 231A
Component: None
This course is an optional lab for the program that needs to meet NATEF hour standards but does not have a co-op component in the program. Topics include manual drive train diagnosis, service and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to diagnose and repair manual drive trains.

AUT 281 Adv Engine Performance
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course utilizes service information and specialized test equipment...
BIO 092 Basics of Cell Biology 03 02 00 04
Prerequisites: None
Corequisites: Take DRE-097 or Placement Test Credit Equivalent
Component: None
This course covers basic cell biology. Emphasis is placed on biological chemistry, cell structure and function, cellular metabolism, genetics, and other related topics. Upon completion, students should be able to demonstrate preparedness for college-level biology courses.

BIO 106 Introduction to Anat/Phys/Micro 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamental and principle concepts of human anatomy and physiology and microbiology. Topics include an introduction to the structure and function of cells, tissues, and human organ systems, and an overview of microbiology, epidemiology, and control of microorganisms. Upon completion, students should be able to identify structures and functions of the human body and describe microorganisms and their significance in health and disease. This course is intended for certificate and diploma programs.

BIO 110 Principles of Biology 03 03 00 04
Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090
Corequisites: None
Component: None
This course provides a survey of fundamental biological principles for non-science majors. Emphasis is placed on basic chemistry, cell biology, metabolism, genetics, evolution, ecology, diversity, and other related topics. Upon completion, students should be able to demonstrate increased knowledge and better understanding of biology as it applies to everyday life. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the CAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

BIO 111 General Biology I 03 03 00 04
Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090
Corequisites: None
Component: None
This course introduces the principles and concepts of biology. Emphasis is placed on basic biological chemistry, molecular and cellular biology, metabolism and energy transformation, genetics, evolution, and other related topics. Upon completion, students should be able to demonstrate understanding of life at the molecular and cellular levels. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

BIO 112 General Biology II 03 03 00 04
Prerequisites: Take BIO 111
Corequisites: None
Component: None
This course is a continuation of BIO 111. Emphasis is placed on organisms, evolution, biodiversity, plant and animal systems, ecology, and other related topics. Upon completion, students should be able to demonstrate comprehension of life at the organismal and ecological levels. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

BIO 120 Introductory Botany 03 03 00 04
Prerequisites: Take BIO 110 or BIO 111
Corequisites: None
Component: None
This course provides an introduction to the classification, relationships, structure, and function of plants. Topics include reproduction and development of seed and non-seed plants, levels of organization, form and function of systems, and a survey of major taxa. Upon completion, students should be able to demonstrate comprehension of plant form and function, including selected taxa of both seed and non-seed plants. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science.

BIO 130 Introductory Zoology 03 03 00 04
Prerequisites: Take BIO 110 or BIO 111
Corequisites: None
Component: None
This course provides an introduction to the classification, relationships, structure, and function of major animal phyla. Emphasis is placed on levels of organization, reproduction and development, comparative systems, and a survey of selected phyla. Upon completion, students should be able to demonstrate comprehension of animal form and function including comparative systems of selected groups. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science.

BIO 140 Environmental Biology 03 00 00 03
Prerequisites: None
Corequisites: Take BIO 140A
Component: None
This course introduces environmental processes and the influence of human activities upon them. Topics include ecological concepts, population growth, natural resources, and a focus on current environmental problems from scientific, social, political, and economic perspectives. Upon completion, students should be able to demonstrate an understanding of environmental interrelationships and of contemporary environmental issues. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science.

BIO 140A Environmental Biology Lab 00 03 00 01
Prerequisites: None
Corequisites: Take BIO 140
Component: None
This course provides a laboratory component to complement BIO 140. Emphasis is placed on laboratory and field experience. Upon completion, students should be able to demonstrate a practical understanding of environmental interrelationships and of contemporary environmental issues. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course introduces the biological and physical components of a field environment. Emphasis is placed on a local field environment with extended field trips to other areas. Upon completion, students should be able to demonstrate an understanding of the biological and physical components of the specific biological environment. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**BIO 143 Field Biology Minicourse**

Prerequisites: None  
Corequisites: None  
Component: None

This course provides an introduction to ecological concepts using an ecosystems approach. Topics include energy flow, nutrient cycling, succession, population dynamics, community structure, and related topics. Upon completion, students should be able to demonstrate comprehension of basic ecosystem structure and dynamics. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**BIO 145 Ecology**

Prerequisites: Take One: BIO-110 or BIO-111  
Corequisites: None  
Component: None

This course is an interdisciplinary and historical analysis of the natural resources of the region. Emphasis is placed on geology, climate, forest systems, watersheds, water resources, and fish and wildlife resources of the region. Upon completion, students should be able to demonstrate comprehension of the natural history and the integration of the natural resources of the region. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**BIO 146 Regional Natural History**

Prerequisites: None  
Corequisites: None  
Component: None

This course provides a basic survey of human biology. Emphasis is placed on the basic structure and function of body systems and the medical terminology used to describe normal and pathological states. Upon completion, students should be able to demonstrate an understanding of normal anatomy and physiology and the appropriate use of medical terminology.

**BIO 147 Basic Anatomy and Physiology**

Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090  
Corequisites: None  
Component: None

This course is the second in a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology and their interrelationships. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

**BIO 161 Intro to Human Biology**

Prerequisites: None  
Corequisites: None  
Component: None

This course provides a basic survey of human biology. Emphasis is placed on the basic structure and function of body systems and the medical terminology used to describe normal and pathological states. Upon completion, students should be able to demonstrate an understanding of normal anatomy and physiology and the appropriate use of medical terminology.

**BIO 162 Anatomy and Physiology I**

Prerequisites: None  
Corequisites: None  
Component: None

This course is the first of a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**BIO 163 Basic Anatomy and Physiology**

Prerequisites: None  
Corequisites: None  
Component: None

This course provides a basic survey of human biology. Emphasis is placed on the basic structure and function of body systems and the medical terminology used to describe normal and pathological states. Upon completion, students should be able to demonstrate an understanding of normal anatomy and physiology and the appropriate use of medical terminology.

**BIO 166 Anatomy and Physiology II**

Prerequisites: Take BIO 165  
Corequisites: None  
Component: None

This course is the second in a two-course sequence which provides a comprehensive study of the anatomy and physiology of the human body. Topics include the structure, function, and interrelationship of organ systems with emphasis on the processes which maintain homeostasis. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

**BIO 168 Anatomy and Physiology I**

Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090  
Corequisites: None  
Component: None

This course provides a comprehensive study of the anatomy and physiology of the human body. Topics include body organization, homeostasis, cytology, histology, and the integumentary, skeletal, and muscular systems. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.
BIO 169 Anatomy and Physiology II 03 03 00 04
Prerequisites: Take BIO 168
Corequisites: None
Component: None
This course provides a comprehensive study of the anatomy and physiology of the human body. Topics include the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems as well as metabolism, nutrition, acid-base balance, and fluid and electrolyte balance. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

BIO 170 General Microbiology 02 02 00 03
Prerequisites: One course required: BIO 110, BIO 111, BIO 163, BIO 165, or BIO 168
Corequisites: None
Component: None
This course covers principles of microbiology with emphasis on microorganisms and human disease. Topics include an overview of microbiology and aspects of medical microbiology, identification and control of pathogens, disease transmission, host resistance, and immunity. Upon completion, students should be able to demonstrate knowledge of microorganisms and the disease process as well as aseptic and sterile techniques. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

BIO 180 Biological Chemistry 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to basic biochemical processes in living systems. Topics include properties of carbohydrates, lipids, proteins, nucleic acids, vitamins, and buffers, with emphasis on biosynthesis, degradation, function, and equilibrium. Upon completion, students should be able to demonstrate an understanding of fundamental biochemical concepts. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

BIO 230 Entomology 03 03 00 04
Prerequisites: Take BIO 112
Corequisites: None
Component: None
This course covers the biology of insects. Topics include harmful and beneficial insects, their identification, classification, life cycles, behavior, distribution, economic importance, and the methods involved in collection and preservation. Upon completion, students should be able to identify common insects and describe their biology and ecology. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

BIO 243 Marine Biology 03 03 00 04
Prerequisites: Take BIO-110 or BIO-111
Corequisites: None
Component: None
This course covers the physical and biological components of the marine environment. Topics include major habitats, the diversity of organisms, their biology and ecology, marine productivity, and the use of marine resources by humans. Upon completion, students should be able to identify various marine habitats and organisms and to demonstrate a knowledge of their biology and ecology. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

BIO 250 Genetics 03 03 00 04
Prerequisites: Take BIO 112
Corequisites: None
Component: None
This course covers principles of prokaryotic and eukaryotic cell genetics. Emphasis is placed on the molecular basis of heredity, chromosome structure, patterns of Mendelian and non-Mendelian inheritance, evolution, and biotechnological applications. Upon completion, students should be able to recognize and describe genetic phenomena and demonstrate knowledge of important genetic principles. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

BIO 275 Microbiology 03 03 00 04
Prerequisites: One course required: BIO 110, BIO 111, BIO 163, BIO 165, or BIO 168
Corequisites: None
Component: None
This course covers principles of microbiology and the impact these organisms have on man and the environment. Topics include the various groups of microorganisms, their structure, physiology, genetics, microbial pathogenicity, infectious diseases, immunology, and selected practical applications. Upon completion, students should be able to demonstrate knowledge and skills including microscopy, aseptic technique, staining, culture methods, and identification of microorganisms. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

BPA 150 Artisan & Specialty Bread 01 06 00 04
Prerequisites: Take CUL-110 and CUL-160
Corequisites: None
Component: This course provides an advanced study in the art and craft of bread making. Topics include pertinent formulas and techniques associated with naturally leavened loaves, hearth breads, focaccia, flat breads, and other breads utilizing a variety of grains. Upon completion, students should be able to prepare artisan and specialty breads that meet or exceed the expectations of restaurant and retail publics.

BPA 210 Cake Design & Decorating 01 04 00 03
Prerequisites: Take CUL-110 and CUL-160
Corequisites: None
Component: This course covers advanced concepts in the design and decoration of wedding cakes and other specialty cakes. Topics include baking, filling, and assembling cakes; cake design; finishing techniques utilizing gum paste, fondant, and royal icing; and advanced piping skills. Upon completion, students should be able to design, create, finish and evaluate the quality of wedding and specialty cakes.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics.
and bankruptcy are examined. Upon completion, the student should be able to interpret basic prints and visualize the features of a part or system.

**BUS 115 Business Law I**
- Prerequisites: None
- Corequisites: None
- Component: None
- This course introduces the basic principles of print reading. Topics include line types, orthographic projections, dimensioning methods, and notes. Upon completion, students should be able to read, demonstrate an understanding of, and draw sketches and schematics commonly used in industry.

**BUS 116 Business Law II**
- Prerequisites: Take BUS 115
- Corequisites: None
- Component: None
- This course includes the study of the legal and ethical framework of business. Business Organizations, property law, intellectual property law, agency and employment law, consumer law, secured transactions, and bankruptcy are examined. Upon completion, the student should be able to identify legal and ethical issues that arise in business decisions and the laws that apply to them.

**BUS 121 Business Math**
- Prerequisites: Take DMA-030 or Placement Test Credit Equivalent
- Corequisites: None
- Component: None
- This course covers fundamental mathematical operations and their application to business problems. Topics include payroll, pricing, interest and discount, commission, taxes, and other pertinent uses of mathematics in the field of business. Upon completion, students should be able to apply mathematical concepts to business.

**BUS 125 Personal Finance**
- Prerequisites: Take DMA-030 or Placement Test Credit Equivalent
- Corequisites: None
- Component: None
- This course provides a study of individual and family financial decisions. Emphasis is placed on building useful skills in buying, managing finances, increasing resources, and coping with current economic conditions. Upon completion, students should be able to develop a personal financial plan.

**BUS 135 Principles of Supervision**
- Prerequisites: None
- Corequisites: None
- Component: None
- This course introduces the basic responsibilities and duties of the supervisor and his/her relationship to higher-level supervisors, subordinates, and associates. Emphasis is placed on effective utilization of the work force and understanding the role of the supervisor. Upon completion, students should be able to apply supervisory principles in the work place. This course is also available through the Virtual Learning Community (VLC).

**BUS 137 Principles of Management**
- Prerequisites: None
- Corequisites: None
- Component: None
- This course is designed to be an overview of the major functions of management. Emphasis is placed on planning, organizing, controlling, directing, and communicating. Upon completion, students should be able to work as contributing members of a team utilizing these functions of management. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**BUS 153 Human Resource Management**
- Prerequisites: None
- Corequisites: None
- Component: None
- This course introduces the functions of personnel/human resource management within an organization. Topics include equal opportunity and the legal environment, recruitment and selection, performance appraisal, employee development, compensation planning, and employee relations. Upon completion, students should be able to anticipate and resolve human resource concerns.

---

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
BUS 171 Government Contracts  
Prerequisites: Take DRE-096 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course provides an introduction to the procurement process, concepts, policies and procedures associated with government contracting. Topics include procurement requirements, work specifications, procurement requests, and acquisition work planning. Upon completion, students should be able to demonstrate an understanding of the acquisition and contract management functions.

BUS 173 Procurement Management  
Prerequisites: Take DRE-096 and DMA-030 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course examines purchasing and materials management including function, organization, quality and quantity considerations, pricing policies, supplier selection, and ethical and legal implications. Topics include purchasing procedures, value analysis, inventory control, logistics, capital equipment, budgets, and institutional and governmental purchasing practices. Upon completion, students should be able to demonstrate an understanding of the concepts and techniques of purchasing and materials management.

BUS 175 Contract Negotiations  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers theory, strategies, techniques and tactics for negotiating contracts, and principles and practices of negotiations for government, corporate or institutional procurements. Topics include preparation and conduct of negotiations and methods of dealing with situations under different types of negotiations. Upon completion, students should be able to effectively negotiate contracts.

BUS 217 Employment Law and Regulations  
Prerequisites: Take DRE-096 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces the principle laws and regulations affecting public and private organizations and their employees or prospective employees. Topics include fair employment practices, EEO, affirmative action, and employee rights and protections. Upon completion, students should be able to evaluate organization policy for compliance and assure that decisions are not contrary to law. This course is also available through the Virtual Learning Community (VLC).

BUS 225 Business Finance  
Prerequisites: Take ACC 120  
Corequisites: None  
Component: None  
This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management.

BUS 228 Business Statistics  
Prerequisites: Take DMA-050 and DRE-096 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces the use of statistical methods and tools in evaluating research data for business applications. Emphasis is placed on basic probability, measures of spread and dispersion, central tendency, sampling, regression analysis, and inductive inference. Upon completion, students should be able to apply statistical problem solving to business. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

BUS 230 Small Business Management  
Prerequisites: Take DMA-030 or Placement Test Credit Equivalent  
Corequisites: None  
Component: None  
This course introduces the challenges of entrepreneurship including the startup and operation of a small business. Topics include market research techniques, feasibility studies, site analysis, financing alternatives, and managerial decision making. Upon completion, students should be able to develop a small business plan.

BUS 234 Training and Development  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers developing, conducting, and evaluating employee training with attention to adult learning principles. Emphasis is placed on conducting a needs assessment, using various instructional approaches, designing the learning environment, and locating learning resources. Upon completion, students should be able to design, conduct, and evaluate a training program. This course is also available through the Virtual Learning Community (VLC).

BUS 240 Business Ethics  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces contemporary and controversial ethical issues that face the business community. Topics include moral reasoning, moral dilemmas, law and morality, equity, justice and fairness, ethical standards, and moral development. Upon completion, students should be able to demonstrate an understanding of their moral responsibilities and obligations as members of the workforce and society.

BUS 245 Entrepreneurship II  
Prerequisites: Take BUS-139  
Corequisites: None  
Component: None  
This course is designed to allow the student to develop a business plan. Topics include the need for a business plan, sections of the plan, writing the plan, and how to find assistance in preparing the plan. Upon completion, students should be able to design and implement a business plan based on sound entrepreneurship principles.

BUS 253 Leadership and Management Skills  
Prerequisites: None  
Corequisites: None  
Component: None  
This course includes a study of the qualities, behaviors, and personal styles exhibited by leaders. Emphasis is placed on coaching, counseling, team building, and employee involvement. Upon completion, students should be able to identify and exhibit the behaviors needed for organizational effectiveness.
BUS 255 Org Behavior in Business
Prerequisites: None
Corequisites: None
Component: None
This course covers the impact of different management practices and leadership styles on worker satisfaction and morale, organizational effectiveness, productivity, and profitability. Topics include a discussion of formal and informal organizations, group dynamics, motivation, and managing conflict and change. Upon completion, students should be able to analyze different types of interpersonal situations and determine an appropriate course of action.

BUS 256 Recruit Select & Personnel Planning
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic principles involved in managing the employment process. Topics include personnel planning, recruiting, interviewing and screening techniques, maintaining employee records; and voluntary and involuntary separations. Upon completion, students should be able to acquire and retain employees who match position requirements and fulfill organizational objectives. This course is a unique concentration requirement of the Human Resource Management concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

BUS 258 Compensation and Benefits
Prerequisites: Take DRE-096 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to study the basic concepts of pay and its role in rewarding performance. Topics include wage and salary surveys, job analysis, job evaluation techniques, benefits, and pay-for-performance programs. Upon completion, students should be able to develop and manage a basic compensation system to attract, motivate, and retain employees. This course is a unique concentration requirement of the Human Resource Management concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

BUS 259 HRM Applications
Prerequisites: All courses required: BUS 217, BUS 234, BUS 256, BUS 258
Corequisites: None
Component: None
This course provides students in the Human Resource Management concentration the opportunity to reinforce their learning experiences from preceding HRM courses. Emphasis is placed on application of day-to-day HRM functions by completing in-basket exercises and through simulations. Upon completion, students should be able to determine the appropriate actions called for by typical events that affect the status of people at work. This course is a unique concentration requirement of the Human Resource Management concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

BUS 260 Business Communication
Prerequisites: Take ENG 110 or ENG 111
Corequisites: None
Component: None
This course is designed to develop skills in writing business communications. Emphasis is placed on business reports, correspondence, and professional presentations. Upon completion, students should be able to communicate effectively in the work place.

BUS 261 Diversity in Management
Prerequisites: None
Corequisites: None
Component: None
This course is designed to help managers recognize the need to incorporate diversity into all phases of organizational management. Topics include self-evaluation, management, sexual harassment, workforce diversity, dual careers, role conflict, and communication issues. Upon completion, students should be able to implement solutions that minimize policies, attitudes, and stereotypical behaviors that block effective team building.

BUS 274 Contract Administration
Prerequisites: Take DRE-096 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the technical and fundamental procedures of contract administration. Topics include contract oversight, quality assurance, compliance, financing, cost controls, documentation, terminations and disputes, subcontract management, and audit. Upon completion, students should be able to apply the principles of administering contracts.

BUS 276 Government Contract Law
Prerequisites: Take BUS 115
Corequisites: None
Component: None
This course provides an introduction to government contract law, contract clauses and provisions, and legal aspects associated with contracting. Topics include contractual relationships with the federal government, state and municipal agencies, contract formation, governmental liability, and the dispute process. Upon completion, students should be able to apply ethical issues and laws covered to procurement and contract management decisions.

BUS 285 Business Management Issues
Prerequisites: Take ACC 120, BUS 115, BUS 137, MKT 120, and ECO 251 or ECO 252
Corequisites: None
Component: None
This course covers contemporary issues that affect successful businesses and their managers and employees. Emphasis is placed on using case studies and exercises to develop analytical and problem-solving skills, ethics, quality management concepts, team skills, and effective communication. Upon completion, students should be able to apply the specific knowledge and skills covered to become more effective managers and employees.

CAR 110 Introduction to Carpentry
Prerequisites: None
Corequisites: None
Component: None
This course introduces the student to the carpentry trade. Topics include duties of a carpenter, hand and power tools, building materials, construction methods, and safety. Upon completion, students should be able to identify hand and power tools, common building materials, and basic construction methods.

CAR 111 Carpentry I
Prerequisites: None
Corequisites: None
Component: CAR 111A, CAR 111B
This course introduces the theory and construction methods associated with the building industry, including framing, materials, tools, and equipment. Topics include safety, hand/power tool use, site preparation, measurement and layout, footings and foundations, construction framing, and other related topics. Upon completion, students should be able to safely lay out and perform basic framing skills with supervision.
This course introduces and explains the various types of offenses that qualify as cyber crime activity. Emphasis is placed on identifying cyber crime activity and the response to these problems from both the private and public domains. Upon completion, students should be able to accurately describe and define cyber crime activities and select an appropriate response to deal with the problem.

CAR 112 Carpentry II
Prerequisites: A set of courses is required: CAR 111 or CAR111AA and CAR 111BB
Corequisites: None
Component: CAR 112AB, CAR112BB
This course covers the advanced theory and construction methods associated with the building industry including framing and exterior finishes. Topics include safety, hand/power tool use, measurement and layout, construction framing, exterior trim and finish, and other related topics. Upon completion, students should be able to safely frame and apply exterior finishes to a residential building with supervision.

CAR 113 Carpentry III
Prerequisites: A set of courses is required: CAR 111 or CAR 111AB and CAR 111BB
Corequisites: None
Component: None
This course covers interior trim and finishes. Topics include safety, hand/power tool use, measurement and layout, specialty framing, interior trim and finishes, cabinetry, and other related topics. Upon completion, students should be able to safely install various interior trim and finishes in a residential building with supervision.

CAR 114 Residential Building Codes
Prerequisites: None
Corequisites: None
Component: None
This course covers building codes and the requirements of state and local construction regulations. Emphasis is placed on the minimum requirements of the North Carolina building codes related to residential structures. Upon completion, students should be able to determine if a structure is in compliance with North Carolina building codes.

CAR 115 Residential Planning/Estimating
Prerequisites: All Courses Required: BPR 130
Corequisites: None
Component: None
This course covers project planning, management, and estimating for residential or light commercial buildings. Topics include planning and scheduling, interpretation of working drawings and specifications, estimating practices, and other related topics. Upon completion, students should be able to perform quantity take-offs and cost estimates.

CAR 140 Basic Carpentry
Prerequisites: None
Corequisites: None
Component: None
This course covers the basic construction of wood structures, and installation, maintenance, and repair of the many components within these structures. Topics include safe use of tools, implementation of standard practices, appropriate use of materials, and installation/repair of components such as doors, windows, roofing, and siding. Upon completion, students should be able to construct, install/repair wooden structures and components using appropriate tools, materials and standard practices from the carpentry trade.

CCT 110 Intro to Cyber Crime
Prerequisites: None
Corequisites: None
Component: None
This course introduces and explains the various types of offenses that qualify as cyber crime activity. Emphasis is placed on identifying cyber crime activity and the response to these problems from both the private and public domains. Upon completion, students should be able to accurately describe and define cyber crime activities and select an appropriate response to deal with the problem.

CCT 112 Ethics & High Technology
Prerequisites: None
Corequisites: None
Component: None
This course covers ethical considerations and accepted standard practices applicable to technological investigations and computer privacy issues relative to the cyber crime investigator. Topics include illegal and unethical investigative activities, end-justifying-the-means issues, and privacy issues of massive personal database information gathered by governmental sources. Upon completion, students should be able to examine their own value system and apply ethical considerations in identifiable cyber crime investigations.

CCT 121 Computer Crime Invest.
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental principles of computer crime investigation processes. Topics include crime scene/incident processing, information gathering techniques, data retrieval, collection and preservation of evidence, preparation of reports and court presentations. Upon completion, students should be able to identify cyber crime activity and demonstrate proper investigative techniques to process the scene and assist in case prosecution.

CCT 231 Technology Crimes & Law
Prerequisites: None
Corequisites: None
Component: None
This course covers the applicable technological laws dealing with the regulation of cyber security and criminal activity. Topics include an examination of state, federal and international laws regarding cyber crime with an emphasis on both general and North Carolina statutes. Upon completion, students should be able to identify the elements of cyber crime activity and discuss the trends of evolving laws.

CCT 240 Data Recovery Techniques
Prerequisites: None
Corequisites: None
Component: None
This course introduces the unique skills and methodologies necessary to assist in the investigation and prosecution of cyber crimes. Topics include hardware and software issues, recovering erased files, overcoming encryption, advanced imaging, transient data, Internet issues and testimony considerations. Upon completion, students should be able to recover digital evidence, extract information for criminal investigation and legally seize criminal evidence.

CCT 241 Advanced Data Recovery
Prerequisites: Take CCT-240
Corequisites: None
Component: None
This course further explores the methodologies necessary to assist in the investigation and analysis of cyber crimes. Topics include commercial and open-source software tools for working with evidence acquisition, data recovery, and encryption. Upon completion, students should be able to perform the data recovery and analysis for a complete criminal or corporate investigation.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course introduces students to penetration testing, network vulnerabilities, and hacking. Topics include an overview of traditional network security, system hardening, and known weaknesses. Upon completion, students should be able to evaluate weaknesses of traditional and wireless network for the purpose of incident response, reconstruction, and forensic investigation.

**CCT 251 Network Vulnerabilities II**  
Prerequisites: Take CCT-250  
Corequisites: None  
Component: None  
This course advances students knowledge of penetration testing, network vulnerabilities, and hacking. Topics include analyzing advanced techniques for circumventing network security hardware and software. Upon completion, students should be able to assemble test kits for multiple operating systems, scan and footprint networks, and perform advanced forensic investigation.

**CCT 260 Mobile Phone Examination**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the unique skills and methodologies necessary to assist in the investigation and prosecution of cyber crimes involving mobile phones. Topics include the basics of the cellular networks as well as data extraction from GSM, iDEN and CDMA handsets. Upon completion, students should be able to use the course processes and methodologies to obtain forensic evidence from GSM, iDEN and CDMA handsets.

**CCT 272 Forensic Password Recovery**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the unique skills and methodologies necessary to assist in the investigation and prosecution of cyber crimes involving decryption. Topics include decryption of PGP key rings, private keys, EFS hard drives, and encrypted containers. Upon completion, students will be able to use the course processes and methodologies to obtain forensic evidence from encrypted files, folders, and systems.

**CCT 273 Registry Forensics**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course provides unique skills and methodologies necessary to assist in the investigation and prosecution of cyber crimes involving the Windows registry. Forensics is placed on the processes used to locate registry artifacts, including security, SAM, software, system, and NT user data. Upon completion, students should be able to use the course processes and methodologies to obtain forensic evidence from a Windows registry.

**CCT 285 Trends in Cyber Crime**  
Prerequisites: Take CCT-110  
Corequisites: None  
Component: None  
This course covers and explores advances and developments in cyber crime technologies. Emphasis is placed on computer forensics tools, information protection and security, threat response, and professional development. Upon completion, students should be able to articulate understanding of the current state of the industry as well as emerging technologies for cyber crime technology.

---

**CEG 111 Intro to GIS and Gass**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the methods and techniques used in the Geographic Information Systems (GIS) and Global Navigation Satellite Systems (GNSS) professions. Emphasis is placed on data collection and mapping using GIS software. Upon completion, students should be able to use GNSS technologies to collect field data and create GIS maps.

**CEG 151 Cad for Engineering Technology**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces computer-aided drafting (CAD) software. Topics include file and data management, drawing, editing, dimensioning commands, plotting, and related topics. Upon completion, students should be able to create and plot basic drawings and maps using CAD software.

**CEG 210 Construction Mtls & Methods**  
Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the behavior and properties of Portland cement, asphaltic concretes, and other construction materials, including construction methods and equipment. Topics include cementing agents, aggregates, water and admixture materials with their proportions, production, placement, consolidation, curing; and their inspection. Upon completion, students should be able to proportion Portland concrete mixes to attain predetermined strengths, perform standard control tests on Portland cement concrete, identify inspection criteria for concretes, identify construction equipment and applications.

**CEG 211 Hydrology & Erosion Control**  
Prerequisites: Take MAT-121, MAT-171 or DMA-080  
Corequisites: None  
Component: None  
This course introduces basic engineering principles and characteristics of hydrology, erosion and sediment control. Topics include stormwater runoff, gravity pipe flow, open channel flow, low impact development (LID), erosion control devices and practices. Upon completion, students should be able to analyze and design gravitational drainage structures, identify LID and erosion control elements, and prepare a stormwater drainage plan.

**CEG 212 Intro to Environmental Tech**  
Prerequisites: Take CEG-211 and EGR-250  
Corequisites: None  
Component: None  
This course introduces basic engineering principles of hydraulics, and water and wastewater technologies. Topics include fluid statics, fluid dynamics, flow measurement, the collection, treatment, and distribution of water and wastewater. Upon completion, students should be able to identify water and wastewater system elements, describe water and wastewater system processes and perform basic hydraulics and treatment computations.

---

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
CET 211 Computer Upgrade/Repair I 02 03 00 03
Prerequisites: None
Corequisites: None
Component: This course covers repairing, servicing, and upgrading computers and peripherals in preparation for industry certification. Topics may include CPU/memory/bus identification, disk subsystems, hardware/software installation/configuration, common device drivers, data recovery, system maintenance, and other related topics. Upon completion, students should be able to safely repair and/or upgrade computer systems to perform within specifications.

CET 211 Computer Upgrade/Repair II 02 03 00 03
Prerequisites: None
Corequisites: None
Component: This course covers concepts of repair, service, and upgrade of computers and peripherals in preparation for industry certification. Upon completion, students should be able to identify and resolve system conflicts and optimize system performance.

CHI 181 Chinese Lab I 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the Chinese language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Chinese and demonstrate cultural awareness. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

CHI 182 Chinese Lab II 00 02 00 01
Prerequisites: Take CHI 181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the Chinese language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Chinese and demonstrate cultural awareness. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

CHM 115 Concepts in Chemistry 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic chemical concepts and their applications to daily life for non-science majors. Topics include air pollution, global warming, energy, world of polymers, water and its importance to a technological society, food, drugs, and nuclear chemistry. Upon completion, students should be able to discuss, apply, and appreciate the impact of chemistry on modern society. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

CHM 115A Concepts in Chemistry Lab 00 02 00 01
Prerequisites: None
Corequisites: Take CHM 115
Component: None
This course is a laboratory for CHM 115. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 115. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical concepts presented in CHM 115. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

CHM 130 General, Organic, & Biochemistry 03 00 00 03
Prerequisites: None
Corequisites: Take CHM 130A
Component: None
This course provides a survey of basic facts and principles of general, organic, and biochemistry. Topics include measurement, molecular structure, nuclear chemistry, solutions, acid-base chemistry, gas laws, and the structure, properties, and reactions of major organic and biological groups. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

CHM 130A General, Organic, & Biochemistry Lab 00 02 00 01
Prerequisites: None
Corequisites: Take CHM 130
Component: None
This course is a laboratory for CHM 130. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 130. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical concepts presented in CHM 130. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.
**CHM 131 Introduction to Chemistry**
Prerequisites: Take DMA-050 and DRE-098 or Placement Test Equivalent
Corequisites: Take CHM-131A
Component: None
This course introduces the fundamental concepts of inorganic chemistry. Topics include measurement, matter and energy, atomic and molecular structure, nuclear chemistry, stoichiometry, chemical formulas and reactions, chemical bonding, gas laws, solutions, and acids and bases. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science.

**CHM 131A Introduction to Chemistry Lab**
Prerequisites: None
Corequisites: Take CHM 131
Component: None
This course is a laboratory to accompany CHM 131. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 131. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM 131. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science.

**CHM 132 Organic and Biochemistry**
Prerequisites: Take CHM 131 and CHM 131A or CHM 151
Corequisites: None
Component: None
This course provides a survey of major functional classes of compounds in organic and biochemistry. Topics include structure, properties, and reactions of the major organic and biological molecules and basic principles of metabolism. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts needed to pursue studies in related professional fields. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science.

**CHM 135 Survey of Chemistry I**
Prerequisites: Take DMA 050 and DRE 098 or ENG 090, ENG-090A, MAT 070, and RED 090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an introduction to inorganic chemistry. Emphasis is placed on measurement, atomic structure, bonding, molecular geometry, nomenclature, reactions, the mole concept, stoichiometric calculations, states of matter, and the gas laws. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural sciences/mathematics.

**CHM 136 Survey of Chemistry II**
Prerequisites: Take CHM 135
Corequisites: None
Component: None
This course is a continuation of CHM 135 with further study of inorganic reactions and an introduction to organic, biological, and nuclear chemistry. Topics include solutions, acid-base theory, redox reactions, chemical kinetics, organic chemistry, biochemistry, and nuclear chemistry. Upon completion, students should be able to demonstrate a basic understanding of chemistry as it applies to other fields. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science.

**CHM 151 General Chemistry I**
Prerequisites: Take MAT 161 or MAT 171
Corequisites: None
Component: None
This course covers fundamental principles and laws of chemistry. Topics include measurement, atomic and molecular structure, periodicity, chemical reactions, chemical bonding, stoichiometry, thermodynamics, gas laws, and solutions. Upon completion, students should be able to demonstrate an understanding of fundamental chemical laws and concepts as needed in CHM 152. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

**CHM 152 General Chemistry II**
Prerequisites: Take CHM 151
Corequisites: None
Component: None
This course provides a continuation of the study of the fundamental principles and laws of chemistry. Topics include kinetics, equilibrium, ionic and redox equations, acid-base theory, electrochemistry, thermodynamics, introduction to nuclear and organic chemistry, and complex ions. Upon completion, students should be able to demonstrate an understanding of chemical concepts as needed to pursue further study in chemistry and related professional fields. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

**CHM 251 Organic Chemistry I**
Prerequisites: Take CHM 152
Corequisites: None
Component: None
This course provides a systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of hydrocarbons, alkyl halides, alcohols, and ethers; further topics include isomerization, stereochemistry, and spectroscopy. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of covered organic topics as needed in CHM 252. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**CHM 252 Organic Chemistry II**
Prerequisites: Take CHM 251
Corequisites: None
Component: None
This course provides continuation of the systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of aromatics, aldehydes, ketones, carboxylic acids and derivatives, amines and heterocyclics; multi-step synthesis will be emphasized. Upon completion, students should be able to demonstrate an understanding of organic concepts as needed to pursue further study in chemistry and related professional fields. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
CHM 263 Analytical Chemistry
Prerequisites: Take One: CHM 132 or CHM 152
Corequisites: None
Component: None
This course covers the knowledge and laboratory skills needed to perform chemical analysis. Emphasis is placed on developing laboratory techniques used in the separation, identification, and quantification of selected substances. Upon completion, students should be able to perform laboratory techniques employed in substance identification and volumetric analysis and interpret the results. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

CIS 070 Fundamentals of Computing
Prerequisites: None
Corequisites: None
Component: None
This course covers fundamental functions and operations of the computer. Topics include identification of components, overview of operating systems, and other basic computer operations. Upon completion, students should be able to operate computers, access files, print documents and perform basic applications operations.

CIS 110 Introduction to Computers
Prerequisites: None
Corequisites: None
Component: None
This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems. This course has been approved for transfer under the CAA as a general education course in Mathematics (Quantitative). This course has been approved for transfer under the ICAA as a general education course in Mathematics (Quantitative).

CIS 111 Basic PC Literacy
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of computer concepts. Emphasis is placed on the use of personal computers and software applications for personal and fundamental workplace use. Upon completion, students should be able to demonstrate basic personal computer skills. This course is also available through the Virtual Learning Community (VLC).

CIS 113 Computer Basics
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic computer usage for non-computer majors. Emphasis is placed on developing basic personal computer skills. Upon completion, students should be able to demonstrate competence in basic computer applications. This course is also available through the Virtual Learning Community (VLC).

CIS 115 Intro to Prog & Logic
Prerequisites: Take One Set: DMA-010 DMA-020 DMA-030 DMA-040 or MAT-121 or MAT-171
Corequisites: None
Component: None
This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem solving methods, algorithm design, and logic control structures. Upon completion, students should be able to use top-down algorithm design and implement algorithmic solutions in a programming language. This course has been approved for transfer under the CAA as a general education course in Mathematics (Quantitative). This course has been approved for transfer under the ICAA as a general education course in Mathematics (Quantitative).

CIV 111 Soils and Foundations
Prerequisites: Take 1 course: EGR 250, EGR 251 or MEC 210
Corequisites: None
Component: None
This course presents an overview of soil as a construction material using both analysis and testing procedures. Topics include index properties, classification, stress analysis, compressibility, compaction, dewatering, excavation, stabilization, settlement, and foundations. Upon completion, students should be able to perform basic soil tests and analyze engineering properties of soil.

CIV 215 Highway Technology
Prerequisites: Take CEG 115 or EGR 115 and MAT 121 or MAT 171
Corequisites: None
Component: None
This course introduces the essential elements of roadway components and design. Topics include subgrade and pavement construction, roadway drawings and details, traffic analysis, geometric design and other related topics. Upon completion, students should be able to interpret roadway details and specifications, and produce street and highway construction drawings.

CIV 221 Steel and Timber Design
Prerequisites: Take EGR-250, EGR-251, or MEC-210
Corequisites: None
Component: None
This course introduces the basic elements of steel and timber structures. Topics include strength of materials applications, the analysis and design of steel and timber beams, columns, and connections and concepts of structural detailing. Upon completion, students should be able to analyze, design, and draw simple plans using Computer Aided Drafting and Design software (CADD).

CIV 222 Reinforced Concrete
Prerequisites: Take EGR 250, EGR 251, or MEC 210
Corequisites: None
Component: None
This course introduces the basic elements of reinforced concrete structures. Topics include analysis and design of reinforced concrete beams, slabs, columns, footings, and retaining walls. Upon completion, students should be able to analyze and design components of a structure using reinforced concrete and draw simple plans using Computer Aided Drafting and Design software (CADD).

CIV 230 Construction Estimating
Prerequisites: One course required: CIS 110, CIS 111 or EGR 115
Corequisites: None
Component: None
This course covers quantity take-offs of labor, materials, and equipment and calculation of direct and overhead costs for a construction project. Topics include the interpretation of working drawings and specifications, types of contracts and estimates, building codes, bidding techniques and procedures, and estimating software. Upon completion, students should be able to prepare a detailed cost estimate and bid documents for a construction project.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course introduces construction planning and scheduling techniques and project management software. Topics include construction safety, operation analysis, construction scheduling, construction control systems, claims and dispute resolutions, project records, and documentation. Upon completion, students should be able to demonstrate an understanding of the roles of construction project participants, maintain construction records, and prepare construction schedules.

CJC 100 Basic Law Enforcement Training
Prerequisites: None
Corequisites: None
Component: None
This course covers the basic skills and knowledge needed for entry-level employment as a law enforcement officer in North Carolina. Topics are divided into general units of study: legal, patrol duties, law enforcement communications, investigations, practical application and sheriff-specific. Upon successful completion, the student will be able to demonstrate competence in the topics and areas required for the state comprehensive certification examination.

CJC 111 Introduction to Criminal Justice
Prerequisites: None
Corequisites: None
Component: None
This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, students should be able to define and describe the major system components and their interrelationships and evaluate career options. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CJC 112 Criminology
Prerequisites: None
Corequisites: None
Component: None
This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analysis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion, students should be able to explain and discuss various theories of crime causation and societal response.

CJC 113 Juvenile Justice
Prerequisites: None
Corequisites: None
Component: None
This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court structure/procedures, function and jurisdiction of juvenile agencies, processing/detention of juveniles, and case disposition. This course is also available through the Virtual Learning Community (VLC).

CJC 114 Investigative Photography
Prerequisites: None
Corequisites: None
Component: None
This course covers the operation of digital photographic equipment and its application to criminal justice. Topics include the use of digital cameras, storage of digital images, the retrieval of digital images and preparation of digital images as evidence. Upon completion, students should be able to demonstrate and explain the role and use of digital photography, image storage and retrieval in criminal investigations.

CJC 120 Interviews/Interrogations
Prerequisites: None
Corequisites: None
Component: None
This course covers basic and special techniques employed in criminal justice interviews and interrogations. Emphasis is placed on the interview/interrogation process, including interpretation of verbal and physical behavior and legal perspectives. Upon completion, students should be able to conduct interviews/interrogations in a legal, efficient, and professional manner and obtain the truth from suspects, witnesses, and victims.

CJC 121 Law Enforcement Operations
Prerequisites: None
Corequisites: None
Component: None
This course introduces fundamental law enforcement operations. Topics include the contemporary evolution of law enforcement operations and related issues. Upon completion, students should be able to explain theories, practices, and issues related to law enforcement operations. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CJC 122 Community Policing
Prerequisites: None
Corequisites: None
Component: None
This course covers the historical, philosophical, and practical dimensions of community policing. Emphasis is placed on the empowerment of police and the community to find solutions to problems by forming partnerships. Upon completion, students should be able to define community policing, describe how community policing strategies solve problems, and compare community policing to traditional policing.

CJC 131 Criminal Law
Prerequisites: None
Corequisites: None
Component: None
This course covers the history/evolution/principles and contemporary applications of criminal law. Topics include sources of substantive law, classification of crimes, parties to crime, elements of crimes, matters of criminal responsibility, and other related topics. Upon completion, students should be able to discuss the sources of law and identify, interpret, and apply the appropriate statutes/elements.

CJC 132 Court Procedure & Evidence
Prerequisites: None
Corequisites: None
Component: None
This course covers judicial structure/process/procedure from incident to disposition, kinds and degrees of evidence, and the rules governing admissibility of evidence in court. Topics include consideration of state and federal courts, arrest, search and seizure laws, exclusionary and statutory rules of evidence, and other related issues. Upon completion, students should be able to identify and discuss procedures necessary to establish a lawful arrest/search, proper judicial procedures, and the admissibility of evidence. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
CJC 141 Corrections
Prerequisites: None
Corequisites: None
Component: None
This course covers the history, major philosophies, components, and current practices and problems of the field of corrections. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, students should be able to explain the various components, processes, and functions of the correctional system. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

CJC 144 Crime Scene Processing
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theories and practices of crime scene processing and investigating. Topics include legal considerations at the crime scene, processing indoor and outdoor scenes, recording, note taking, collection and preservation of evidence and submission to the crime laboratory. Upon completion, the student should be able to evaluate and search various crime scenes and demonstrate the appropriate techniques.

CJC 145 Crime Scene CAD
Prerequisites: None
Corequisites: None
Component: None
This course introduces the student to CAD software for crime scenes. Topics include drawing, editing, file management and drafting theory and practices. Upon completion, students should be able to produce and plot a crime scene drawing.

CJC 146 Trace Evidence
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of trace evidence as it relates to forensic science. Topics include collection, packaging, and preservation of trace evidence from crime scenes such as bombings, fires and other scenes. Upon completion, students should be able to demonstrate the fundamental concepts of trace evidence collection, preservation and submission to the crime laboratory.

CJC 151 Introduction to Loss Prevention
Prerequisites: None
Corequisites: None
Component: None
This course introduces the concepts and methods related to commercial and private security systems. Topics include the historical, philosophical, and legal basis of security, with emphasis on security surveys, risk analysis, and associated functions. Upon completion, students should be able to demonstrate and understand security systems, risk management, and the laws relative to loss prevention.

CJC 160 Terrorism: Underlying Issu
Prerequisites: None
Corequisites: None
Component: None
This course identifies the fundamental reasons why America is a target for terrorists, covering various domestic/international terrorist groups and ideologies from a historical aspect. Emphasis is placed upon recognition of terrorist crime scene; weapons of mass destruction; chemical, biological, and nuclear terrorism; and planning considerations involving threat assessments. Upon completion, students should be able to identify and discuss the methods used in terrorists' activities and complete a threat assessment for terrorists' incidents.

CJC 161 Intro Homeland Security
Prerequisites: None
Corequisites: None
Component: None
This course introduces the historical, organizational and practical aspects of Homeland Security. Topics include a historic overview, definitions and concepts, organizational structure, communications, technology, mitigation, prevention and preparedness, response and recovery, and the future of Homeland Security. Upon completion, students should be able to explain essential characteristics of terrorism and Homeland Security, and define roles, functions and interdependency between agencies.

CJC 162 Intel Analysis & Sec Mgmt
Prerequisites: None
Corequisites: None
Component: None
This course examines intelligence analysis and its relationship to the security management of terrorist attacks and other threats to national security of the United States. Topics include a historic overview, definitions and concepts, intelligence evolution-politicization-operations-strategies, surveillance, analysis perspectives, covert action, and ethics. Upon completion, students should be able to outline intelligence policies, evaluate source information, implement intelligence techniques and analysis, identify threats, and apply ethical behaviors.

CJC 163 Trans and Border Security
Prerequisites: None
Corequisites: None
Component: None
This course provides an in-depth view of modern border and transportation security including the technologies used for detecting potential threats from terrorists and weapons. Topics include an overview of security challenges, detection devices and equipment, transportation systems, facilities, threats and counter-measures, and security procedures, policies and agencies. Upon completion, students should be able to describe border security, the technologies used to enforce it, and the considerations and strategies of border security agencies.

CJC 170 Critical Incident Mgmt Pub Saf
Prerequisites: None
Corequisites: None
Component: None
This course prepares the student to specialize in the direct response, operations, and management of critical incidents. Emphasis is placed upon the theoretical and applied models to understand and manage disasters, terrorism, and school/work place violence. Upon completion, the student should be able to identify and discuss managerial techniques legal issues, and response procedures to critical incidents.

CJC 193S Selected Topics in Criminal Justice
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

Refer to the FTCC website for the most current information. Go to www.faytechec.edu/academics/.
This course introduces the basic elements of counseling and specific techniques applicable to the criminal justice setting. Topics include observation, listening, recording, interviewing, and problem exploration necessary to form effective helping relationships. Upon completion, students should be able to discuss and demonstrate the basic techniques of counseling.

**CJC 212 Ethics & Comm Relations**
Prerequisites: Take DRE-098 or ENG-090, ENG-090A, and RED-090 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations. This course is also available through the Virtual Learning Community (VLC).

**CJC 213 Substance Abuse**
Prerequisites: None
Corequisites: None
Component: None
This course is a study of substance abuse in our society. Topics include the history and classifications of drug abuse and the social, physical, and psychological impact of drug abuse. Upon completion, students should be able to identify various types of drugs, their effects on human behavior and society, and treatment modalities.

**CJC 214 Victimology**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the study of victims. Emphasis is placed on roles/characteristics of victims, victim interaction with the criminal justice system and society, current victim assistance programs, and other related topics. Upon completion, students should be able to discuss and identify victims, the uniqueness of victims’ roles, and current victim assistance programs.

**CJC 215 Organization & Administration**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the components and functions of organization and administration as it applies to the agencies of the criminal justice system. Topics include operations/functions of organizations; recruiting, training, and retention of personnel; funding and budgeting; communications; span of control and discretion; and other related topics. Upon completion, students should be able to identify and discuss the basic components and functions of a criminal justice organization and its administrative operations.

**CJC 221 Investigative Principles**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, information gathering techniques, collection/preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report preparation, and courtroom presentation. This course is also available through the Virtual Learning Community (VLC).

**CJC 222 Criminalistics**
Prerequisites: None
Corequisites: None
Component: None
This course covers the functions of the forensic laboratory and its relationship to successful criminal investigations and prosecutions. Topics include advanced crime scene processing, investigative techniques, current forensic technologies, and other related topics. Upon completion, students should be able to identify and collect relevant evidence at simulated crime scenes and request appropriate laboratory analysis of submitted evidence.

**CJC 223 Organized Crime**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the evolution of traditional and non-traditional organized crime and its effect on society and the criminal justice system. Topics include identifying individuals and groups involved in organized crime, areas of criminal activity, legal and political responses to organized crime, and other related topics. Upon completion, students should be able to identify the groups and activities involved in organized crime and the responses of the criminal justice system.

**CJC 224 Civil Liability**
Prerequisites: None
Corequisites: None
Component: None
This course covers liability issues for the criminal justice professional. Topics include civil rights violations, tort liability, employment issues, and other related topics. Upon completion, students should be able to explain civil trial procedures and discuss contemporary liability issues.

**CJC 231 Constitutional Law**
Prerequisites: None
Corequisites: None
Component: None
The course covers the impact of the Constitution of the United States and its amendments on the criminal justice system. Topics include the structure of the Constitution and its amendments, court decisions pertinent to contemporary criminal justice issues, and other related topics. Upon completion, students should be able to identify/discuss the basic structure of the United States Constitution and the rights/procedures as interpreted by the courts. This course is also available through the Virtual Learning Community (VLC).

**CJC 232 Civil Liability**
Prerequisites: None
Corequisites: None
Component: None
This course covers liability issues for the criminal justice professional. Topics include civil rights violations, tort liability, employment issues, and other related topics. Up on completion, students should be able to explain civil trial procedures and discuss contemporary liability issues.

---

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
and usage. Upon completion, students must show an understanding of preparation, comparative analysis for valued determination rendering ridge analysis. Topics include evaluation of friction ridges, chart filing sequence, searching and referencing. Upon completion, students should be able to identify/discuss basic fingerprint technology.

**CJC 240 Law Enfor Mgt. & Supervis**
Prerequisites: Take BUS-253
Corequisites: None
Component: None
This course provides a study of the best known methods and practices of police leadership and management. Topics include the role of the manager in law enforcement, communications, time-management in law enforcement, managing problems, training and law enforcement productivity. Upon completion, students should be able to identify and discuss methods and practices capable of moving law enforcement agencies forward into the twenty-first century.

**CJC 241 Community-Based Correction**
Prerequisites: None
Corequisites: None
Component: None
This course covers programs for convicted offenders that are used both as alternatives to incarceration and in post-incarceration situations. Topics include offenders, diversion, house arrest, restitution, community service, probation and parole, including both public and private participation, and other related topics. Upon completion, students should be able to identify/discuss the various programs from the perspective of the criminal justice professional, the offender, and the community.

**CJC 244 Footwear and Tire Imprints**
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of the fundamental concepts of footwear and tire imprint evidence as related to forensic science. Topics include proper photographic recording, casting, recognition of wear patterns and imprint identification. Upon completion, the student should be able to recognize, record, photograph, and identify footwear and tire imprints.

**CJC 245 Friction Ridge Analysis**
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic elements of fingerprint technology and techniques applicable to the criminal justice field. Topics include the history and meaning of fingerprints, pattern types and classification, filing sequence, searching and referencing. Upon completion, students should be able to discuss and demonstrate the fundamental techniques of basic fingerprint technology.

**CJC 246 Adv Friction Ridge Anal**
Prerequisites: Take CJC 245
Corequisites: None
Component: None
This course introduces the theories and processes of advanced friction ridge analysis. Topics include evaluation of friction ridges, chart preparation, comparative analysis for valued determination rendering proper identification, chemical enhancement and AFIS preparation and usage. Upon completion, students must show an understanding of proper procedures for friction ridge analysis through written testing and practical exercises.

**CJC 250 Forensic Biology I**
Prerequisites: None
Corequisites: None
Component: None
This course covers important biological principles that are applied in the crime laboratory. Topics include forensic toxicology, forensic serology, microscopy, and DNA typing analysis, with an overview of organic and inorganic analysis. Upon completion, students should be able to articulate how a crime laboratory processes physical evidence submitted by law enforcement agencies.

**CJC 251 Forensic Chemistry I**
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of the fundamental concepts of chemistry as it relates to forensic science. Topics include physical and chemical properties of substances, metric measurements, chemical changes, elements, compounds, gases, and atomic structure. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of forensic chemistry.

**CJC 252 Forensic Chemistry II**
Prerequisites: Take CJC 251
Corequisites: None
Component: None
This course provides a study of specialized areas of chemistry specifically related to forensic science. Topics include properties of light, emission and absorption spectra, spectrophotometry, gas and liquid chromatography, and related topics in organic and biochemistry. Upon completion, students should be able to demonstrate an understanding of specialized concepts in forensic chemistry.

**CJC 253 Issues in Crim Justice App**
Prerequisites: Take CJC-111, CJC-221, and CJC-231
Corequisites: None
Component: None
This course covers important biological principles that are applied in the crime laboratory. Topics include forensic toxicology, forensic serology, microscopy, and DNA typing analysis, with an overview of organic and inorganic analysis. Upon completion, students should be able to articulate how a crime laboratory processes physical evidence submitted by law enforcement agencies.

**CJC 255 Issues in Crim Justice App**
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to exhibit interpersonal and technical skills required for application of criminal justice concepts in contemporary practical situations. Emphasis is placed on critical thinking and integration of theory and practical skills. Components. Upon completion, students should be able to demonstrate the knowledge required of any entry-level law enforcement officer.

**CJC 256 Forensic Surveying**
Prerequisites: None
Corequisites: None
Component: None
This course provides students with the requisite understanding and skills necessary to employ surveying equipment to position and map a crime or traffic homicide scene. Topics include triangulation and rectangular coordinate grids, polar coordinates, establishing datum points, Global Positioning Systems and total station positioning and mapping. Upon completion, students should be able to accurately use a total station system for the purpose of positioning and mapping crime or traffic homicide scenes.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
CJC 260 Threat Assessment
Prerequisites: None
Corequisites: None
Component: None
This course introduces students to the principles of high-risk protective
security and the planning associated with security during visits from
government officials and other dignitaries. Emphasis will be placed on
conducting advance surveys, residential security, restaurant and banquet
security, surveillance detection, and counter surveillance operations.
Upon completion, students should be able to demonstrate the ability
to write security plans for high-risk events.

CJC 262 High-Risk Event Planning
Prerequisites: None
Corequisites: None
Component: None
This course introduces students to the principles of high-risk executive
protection and the planning associated with security during visits from
local/state officials.

CMT 120 Codes and Inspections
Prerequisites: None
Corequisites: None
Component: None
This course covers building codes and the code inspections process used
in the design and construction of residential and commercial buildings.
Emphasis is placed on commercial, residential, and accessibility (ADA)
building codes. Upon completion, students should understand the
code inspections process and apply building code principals
and requirements to construction projects.

COM 120 Intro Interpersonal Com
Prerequisites: None
Corequisites: None
Component: None
This course introduces the practices and principles of interpersonal
communication in both dyadic and group settings. Emphasis is placed on
the communication process, perception, listening, self-disclosure,
speech apprehension, ethics, nonverbal communication, conflict, power,
and dysfunctional communication relationships. Upon completion,
students should be able to demonstrate interpersonal communication
skills, apply basic principles of group discussion, and manage conflict
in interpersonal communication situations. This course has been approved
for transfer under the CAA as a general education course in English
Composition. This course has been approved for transfer under the
IAAA as a general education course in English Composition.

COM 140 Intro Intercultural Com
Prerequisites: None
Corequisites: None
Component: This course introduces techniques of cultural research, definitions,
functions, characteristics, and impacts of cultural differences in public
address. Emphasis is placed on how diverse backgrounds influence
the communication act and how cultural perceptions and experiences
determine how one sends and receives messages. Upon completion,
students should be able to demonstrate an understanding of the principles
and skills needed to become effective in communicating outside one’s
primary culture. This course has been approved for transfer under the
IAAA as a general education course in English Composition. This course
has been approved for transfer under the ICAA as a general education
course in English Composition.

COM 231 Public Speaking
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides instruction and experience in preparation and
delivery of speeches within a public setting and group discussion.
Emphasis is placed on research, preparation, delivery, and evaluation
of informative, persuasive, and special occasion public speaking.
Upon completion, students should be able to prepare and deliver well-
organized speeches and participate in group discussion with appropriate
audiovisual support. This course has been approved for transfer under
the CAA as a general education course in English Composition. This
course has been approved for transfer under the ICAA as a premajor and/or
elective course requirement. This course is a Universal General Education
Transfer Component (UGETC) course.

COM 251 Debate I
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces the principles of debate. Emphasis is placed on
argument, refutation, research, and logic. Upon completion, students
should be able to use research skills and logic in the presentation of
ideas within the context of formal debate. This course has been
approved for transfer under the CAA as a premajor and/or elective
course requirement. This course has been approved for transfer under
the ICAA as a premajor and/or elective course requirement.

COS 111 Cosmetology Concepts I
Prerequisites: None
Corequisites: Take COS 112
Component: COS 111AB and COS 111BB
This course introduces basic cosmetology concepts. Topics include
safety, first aid, sanitation, bacteriology, anatomy, diseases and
disorders, hygiene, product knowledge, chemistry, ethics, manicures,
and other related topics. Upon completion, students should be able
to safely and competently apply cosmetology concepts in the salon setting.

COS 112 Salon I
Prerequisites: None
Corequisites: Take COS 111
Component: COS 112AB and COS 112BB
This course introduces basic salon services. Topics include scalp
treatments, shampooing, rinsing, hair color, design, haircutting,
permanent waving, pressing, relaxing, wigs, and other related topics.
Upon completion, students should be able to safely and competently
demonstrate salon services.

COS 113 Cosmetology Concepts II
Prerequisites: Take COS 111 COS 112
Corequisites: Take COS 114
Component: COS 113AB and COS 113AB
This course covers more comprehensive cosmetology concepts. Topics
include safety, product knowledge, chemistry, manicuring, chemical
restructuring, and hair coloring. Upon completion, students should
be able to safely and competently apply these cosmetology concepts in the
salon setting.

COS 114 Salon II
Prerequisites: Take COS 111, COS 112
Corequisites: Take COS 113
Component: COS 114AB and COS 114BB
This course provides experience in a simulated salon setting. Topics
include basic skin care, manicuring, nail application, scalp treatments,
shampooing, rinsing, hair color, design, haircutting, chemical
restructuring, pressing, wigs, and other related topics. Upon completion,
students should be able to safely and competently demonstrate these
cosmetology services.
COS 115 Cosmetology Concepts III
Prerequisites: Take COS 111, COS 112
Corequisites: Take COS 116
Component: COS 115AB, COS 115BB
This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, salon management, salesmanship, skin care, electricity/light therapy, wigs, thermal hair styling, lash and brow tinting, superfluous hair removal, and other related topics. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

COS 116 Salon III
Prerequisites: Take COS 111, COS 112
Corequisites: Take COS 115
Component: COS 116AB, COS 116BB
This course provides comprehensive experience in a simulated salon setting. Emphasis is placed on intermediate-level of skin care, manicuring, scalp treatments, shampooing, hair color, design, haircutting, chemical restructuring, pressing, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

COS 117 Cosmetology Concepts IV
Prerequisites: Take COS 111, COS 112, COS 113, COS 114, COS 115, COS 116
Corequisites: Take COS 118
Component: COS 117AB and COS 117BB
This course covers advanced cosmetology concepts. Topics include chemistry and hair structure, advanced cutting and design, and an overview of all cosmetology concepts in preparation for the licensing examination. Upon completion, students should be able to demonstrate an understanding of these cosmetology concepts and meet program completion requirements.

COS 118 Salon IV
Prerequisites: Take COS 111, COS 112, COS 113, COS 114, COS 115, COS 116
Corequisites: Take COS 117
Component: COS 118AB and COS 118BB
This course provides advanced experience in a simulated salon setting. Emphasis is placed on efficient and competent delivery of all salon services in preparation for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination and meet entry-level employment requirements.

COS 119 Esthetics Concepts I
Prerequisites: None
Corequisites: Take COS 120
Component: None
This course covers the concepts of esthetics. Topics include orientation, anatomy, physiology, hygiene, sterilization, first aid, chemistry, basic dermatology, and professional ethics. Upon completion, students should be able to demonstrate an understanding of the concepts of esthetics and meet course requirements.

COS 120 Esthetics Salon I
Prerequisites: None
Corequisites: Take COS 119
Component: None
This course covers the techniques of esthetics in a comprehensive experience in a simulated salon setting. Topics include client consultation, facials, body treatments, hair removal, make-up applications, and color analysis. Upon completion, students should be able to safely and competently demonstrate esthetic services on clients in a salon setting.

COS 121 Manicure/Nail Technology I
Prerequisites: None
Corequisites: None
Component: None
This course covers techniques of nail technology, hand and arm surface manipulation, and recognition of nail diseases and disorders. Topics include OSHA/safety, sanitation, bacteriology, product knowledge, salesmanship, manicures, artificial applications, pedicures, surface manipulation, and other related topics. Upon completion, students should be able to safely and competently perform nail care, including manicures, pedicures, surface manipulations, decorating and artificial applications in a salon setting.

COS 125 Esthetics Concepts II
Prerequisites: None
Corequisites: Take COS 126
Component: None
This course covers more comprehensive esthetics concepts. Topics include nutrition, business management, make-up, and color analysis. Upon completion students should be able to demonstrate an understanding of the advanced esthetics concepts and meet course requirements.

COS 126 Esthetics Salon II
Prerequisites: None
Corequisites: Take COS 125
Component: None
This course provides experience in a simulated esthetics setting. Topics include machine facials, aromatherapy, surface manipulation in relation to skin care, electricity, and apparatus. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology licensing examination for Estheticians.

COS 222 Manicure/Nail Technology II
Prerequisites: Take COS 121
Corequisites: None
Component: None
This course covers advanced techniques of nail technology and hand and arm surface manipulation. Topics include OSHA/safety, product knowledge, customer service, salesmanship, artificial applications, nail art, and other related topics. Upon completion, students should be able to demonstrate competence necessary for the licensing examination, including advanced nail care, artificial enhancements, and decorations.

COS 223 Contemp Hair Coloring
Prerequisites: Take COS 111 and COS 112
Corequisites: None
Component: None
This course covers basic color concepts, hair coloring problems, and application techniques. Topics include color theory, terminology, contemporary techniques, product knowledge, and other related topics. Upon completion, students should be able to identify a client’s color needs and safely and competently perform color applications and correct problems.

COS 224 Trichology & Chemistry
Prerequisites: Take COS 111 and COS 112
Corequisites: None
Component: None
This course is a study of hair and the interaction of applied chemicals. Emphasis is placed on pH actions and the reactions and effects of chemical ingredients. Upon completion, students should be able to demonstrate an understanding of chemical terminology, pH testing, and chemical reactions on hair.
### COS 225 Adv Contemporary Hair Coloring
Prerequisites: Take COS-223
Corequisites: None
Component: None
This course covers advanced techniques in coloring applications and problem solving situations. Topics include removing unwanted color, replacing pigment and re-coloring, removing coatings, covering grey and white hair, avoiding color fading, and poor tint results. Upon completion, students should be able to apply problem solving techniques in hair coloring situations.

### COS 240 Contemporary Design
Prerequisites: Take COS 111 and COS 112
Corequisites: None
Component: None
This course covers methods and techniques for contemporary designs. Emphasis is placed on contemporary designs and other related topics. Upon completion, students should be able to demonstrate and apply techniques associated with contemporary design.

### COS 250 Computerized Salon Ops
Prerequisites: None
Corequisites: Take COS-111
Component: None
This course introduces computer and salon software. Emphasis is placed on various computer and salon software applications. Upon completion, students should be able to utilize computer skills and software applications in the salon setting.

### COS 254 Esthetic Ins. Concepts II
Prerequisites: None
Corequisites: None
Component: None
This course covers advanced esthetic instructional concepts and skills. Topics include practical demonstrations, lesson planning, lecture techniques, development and administration of assessment tools, recordkeeping and other related topics. Upon completion, students should be able to demonstrate competencies in the areas covered by the Esthetics Instructor Licensing Examination and meet program requirements.

### COS 260 Design Applications
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of the design concepts used in cosmetology. Topics include the application of art principles and elements to artistically design hair, nails, and make-up and other related topics. Upon completion, students should be able to demonstrate knowledge and techniques associated with design concepts.

### COS 271 Instructor Concepts I
Prerequisites: None
Corequisites: Take COS 272
Component: This course introduces the basic cosmetology instructional concepts. Topics include orientation, theories of education, unit planning, daily lesson planning, laboratory management, student assessment, recordkeeping, and other related topics. Upon completion, students should be able to identify theories of education, develop lesson plans, demonstrate supervisory techniques, and assess student performance in a classroom setting.

### COS 272 Instructor Practicum I
Prerequisites: None
Corequisites: Take COS 271
Component: This course covers supervisory and instructional skills for teaching entry-level cosmetology students in a laboratory setting. Topics include demonstrations of services, supervision, and entry-level student assessment. Upon completion, students should be able to demonstrate salon services and instruct and objectively assess the entry-level student.

### COS 273 Instructor Concepts II
Prerequisites: Take COS 271 and COS 272
Corequisites: Take COS 274
Component: This course covers advanced cosmetology instructional concepts. Topics include practical demonstrations, lesson planning, lecture techniques, development and administration of assessment tools, recordkeeping, and other related topics. Upon completion, students should be able to develop lesson plans, demonstrate supervision techniques, assess student performance in a classroom setting, and keep accurate records.

### COS 274 Instructor Practicum II
Prerequisites: Take COS 271 and COS 272
Corequisites: Take COS 273
Component: This course is designed to develop supervisory and instructional skills for teaching advanced cosmetology students in a laboratory setting. Topics include practical demonstrations, supervision, and advanced student assessment. Upon completion, students should be able to demonstrate competence in the areas covered by the Instructor Licensing Examination and meet program completion requirements.

### CSC 116 Intro PC App Development
Prerequisites: None
Corequisites: None
Component: This course provides an introductory study of the principles of application development and end-user interface design principles. Emphasis is placed on tables, file management, data structures, subprograms, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design and program a PC application at the introductory level.

### CSC 120 Computing Fundamentals I
Component: This course provides the essential foundation for the discipline of computing and a program of study in computer science, including the role of the professional. Topics include algorithm design, data abstraction, searching and sorting algorithms, and procedural programming techniques. Upon completion, students should be able to solve problems, develop algorithms, specify data types, perform sorts and searches, and use an operating system. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### CSC 121 Python Programming
Prerequisites: Take CTI-110
Corequisites: None
Component: This course introduces computer programming using the Python programming language. Emphasis is placed on common algorithms and programming principles utilizing the standard library distributed with Python. Upon completion, students should be able to design, code, test, and debug Python language programs.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
CSC 122 Python Application Development
Prerequisites: None
Corequisites: None
Component:
This course introduces the use of frameworks to build web-enabled applications. Emphasis is placed on URL routing, output format templating, database manipulation and security. Upon completion, students should be able to create simple web-enabled applications with a graphical user interface using the Python language.

CSC 124 Intro to Data Science Prog.
Prerequisites: None
Corequisites: None
Component:
This course covers the key technologies used to manipulate, store and analyze big data. Topics include scripting languages, noSQL databases, database scalability, performance metrics and tuning. Upon completion, students should be able to use programming techniques to investigate data sets and algorithms.

CSC 133 C Programming
Prerequisites: Take DMA-080 or DMA-065 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces computer programming using the C programming language with structured programming principles. Topics include input/output operations, iteration, arithmetic operations, arrays, pointers, filters, and other related topics. Upon completion, students should be able to design, code, test and debug at a beginning level. This course will involve the use of algebra, trigonometry, electronic circuit theory, physics, and engineering to solve typical engineering problems.

CSC 134 C++ Programming
Prerequisites: None
Corequisites: None
Component: None
This course introduces computer programming using the C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

CSC 139 Visual BASIC Prog
Prerequisites: Take CIS 115 or CTI-110
Corequisites: None
Component: None
This course introduces computer programming using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

CSC 143 Object-Oriented Prog
Prerequisites: None
Corequisites: None
Component:
This course introduces the concepts of object-oriented programming. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, test, debug, and implement objects at the application level using the appropriate environment.

CSC 151 JAVA Programming
Prerequisites: Take CIS 115 or CTI-110
Corequisites: None
Component: None
This course introduces computer programming using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

CSC 152 SAS
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of SAS programming. Emphasis is placed on learning basic SAS commands and statements for solving a variety of data processing applications. Upon completion, students should be able to use SAS data and procedure steps to create SAS data sets, do statistical analysis, and general customized reports.

CSC 153 C# Programming
Prerequisites: Take CIS-115 or CTI-110
Corequisites: None
Component: None
This course introduces computer programming using the C# programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment at the beginning level.

CSC 163 C# Application Development
Prerequisites: None
Corequisites: None
Component: None
This course introduces the use of web-enabled applications and web services in the development of C# based applications. Emphasis is placed on creating web-enabled applications using event driven programming, graphical user interface design, database connectivity, and software development principles. Upon completion, students should be able to create web-enabled applications with a graphical user interface using the C# language.

CSC 174 Server-Side Javascript
Prerequisites: None
Corequisites: None
Component: None
This course introduces the use of JavaScript in the server environment to build server-side applications. Topics include asynchronous programming, connecting to other machines, testing, and connecting to different databases. Upon completion, students should be able to create server-side applications using JavaScript applications.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.

<tbody>
<tr>
<td>CSC 212</td>
<td>Ethical Hacking With Python II</td>
<td>3</td>
<td>This course covers advanced investigative ethical hacking techniques using the Python programming language. Emphasis is placed on advanced web attacks with Python, scanning, maintaining access, covering tracks, malware delivery, password cracking, and keylogging with Python. Upon completion, students should be able to evaluate and mitigate system vulnerabilities and threats using the Python computer programming language.</td>
</tr>
<tr>
<td>CSC 218</td>
<td>Swift Programming II</td>
<td>3</td>
<td>This course introduces advanced iOS application development using the Swift programming language. Emphasis is placed on navigation, data manipulation, web services, prototyping, debugging, and project planning. Upon completion, students should be able to develop advanced multifunctional iOS and Apple applications using the Swift programming language.</td>
</tr>
<tr>
<td>CSC 221</td>
<td>Advanced Python Programming</td>
<td>3</td>
<td>This course introduces advanced computer programming using the Python programming language. Emphasis is placed on the advanced programming concepts including advanced algorithms and programming principles utilizing standard and third party library tools. Upon completion, students should be able to design, code, test, and debug advanced Python language programs.</td>
</tr>
<tr>
<td>CSC 222</td>
<td>Eth Hack Mob Dev Using Python</td>
<td>3</td>
<td>This course introduces students to mobile ethical hacking techniques using the Python programming language. Emphasis is placed on mobile device attacks, scanning, maintaining access, covering tracks, malware delivery, password cracking, and keylogging with Python. Upon completion, students should be able to evaluate and mitigate system vulnerabilities and threats on mobile devices using the Python computer programming language.</td>
</tr>
<tr>
<td>CSC 226</td>
<td>.NET Programming</td>
<td>3</td>
<td>This course introduces the use of C# and XAML to design, develop, test and deploy .NET applications. Topics include building GUIs, data binding, Web API services, automated testing and deployment. Upon completion, students should be able to design, develop, test and deploy .NET applications.</td>
</tr>
<tr>
<td>CSC 227</td>
<td>Cloud Application Development</td>
<td>3</td>
<td>This course introduces how to build, deploy, host, and manage applications using cloud technologies. Topics include building cloud applications using cloud toolsets, defining and managing service models, storage fundamentals, secure backup system and database programming. Upon completion, students should be able to develop and host cloud applications, as well as design and develop services that access local and remote data from various data sources.</td>
</tr>
<tr>
<td>CSC 234</td>
<td>Advanced C++</td>
<td>3</td>
<td>This course is a continuation of CSC 134 using the C++ programming language with standard programming principles. Emphasis is placed on advanced arrays/tables, file management/processing techniques, data structures, sub-programs, interactive processing, sort/merge routines, and libraries. Upon completion, students should be able to design, code, test, debug and document programming solutions.</td>
</tr>
<tr>
<td>CSC 239</td>
<td>Advanced Visual BASIC</td>
<td>3</td>
<td>This course is a continuation of CSC 139 using the Visual BASIC programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.</td>
</tr>
<tr>
<td>CSC 245</td>
<td>Adv C/C++ Programming</td>
<td>3</td>
<td>This course covers additional operations using C dialects primarily relating to operating system interfacing. Topics include advanced file handling, Interprocess Communications, messages, semaphores, inter-language calls, signals, device drivers, sockets, and client/server techniques. Upon completion, students should be able to write and modify programs using advanced functions.</td>
</tr>
<tr>
<td>CSC 251</td>
<td>Advanced JAVA Programming</td>
<td>3</td>
<td>This course is a continuation of CSC 151 using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment.</td>
</tr>
<tr>
<td>CSC 253</td>
<td>Advanced C# Programming</td>
<td>3</td>
<td>This course is a continuation of CSC 153 using the C# programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment.</td>
</tr>
</tbody>
</table>

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course provides a continuing education for students to become familiar with the principles of statics and strength of materials. Emphasis is placed on forces as applied to structural building components. Topics include forces on columns, beams, girders, and footings and connection points when timber, steel, and concrete members are used. Upon completion, students should be able to identify and maintain a safe working environment based on OSHA regulations and maintain proper records and certifications.

This course introduces the basic hardware components of a personal computer workstation and their operations and interactions with software. Topics include installing and updating system software, application software programs, and device drivers. Upon completion, students should be able to perform basic tasks related to networking systems and the various implementation policies. Upon completion, students should be able to set up a workstation, install software, and establish network connectivity.

This course introduces the basic hardware and software of a personal computer, including installation, operations and interaction with popular microcomputer operating systems. Topics include components identification, memory-system, peripheral installation and configuration, preventive maintenance, hardware diagnostics/repair, installation and optimization of system software, commercial programs, system configuration, and device-drivers. Upon completion, students should be able to select appropriate computer equipment and software, upgrade/maintain existing equipment and software, and troubleshoot/repair non-functioning personal computers.

This course introduces operating system virtualization. Emphasis is placed on virtualization terminology, virtual machine storage, virtual networking and access control. Upon completion, students should be able to perform tasks related to installation, configuration and management of virtual machines.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
Hardware and software recommendations based on their evaluations. Upon completion, students should be able to determine the best technologies to support and solve actual technical support problems.

CTS 220 Adv Hard/Software Support 02 03 00 03
Prerequisites: Take CTS-120
Corequisites: None
Component: None
This course provides advanced knowledge and competencies in hardware and operating system technologies for computer technicians to support personal computers. Emphasis is placed on configuring and upgrading, diagnosis and troubleshooting; as well as preventive maintenance of hardware and system software. Upon completion, students should be able to install, configure, diagnose, perform preventive maintenance, and maintain basic networking on personal computers.

CTS 225 Spreadsheet Data Analysis 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course presents basic and advanced techniques for data analysis and management using electronic spreadsheets. Topics include an overview of spreadsheet analytics, terminology, model preparation, and analytical techniques. Upon completion, students should be able to develop reliable and effective quantitative data models and reports to support analysis and decision-making for common business systems.

CTS 230 Advanced Spreadsheet 02 02 00 03
Prerequisites: Take CTS-130
Corequisites: None
Component: None
This course covers advanced spreadsheet design and development. Topics include advanced functions and statistics, charting, macros, databases, and linking. Upon completion, students should be able to demonstrate competence in designing complex spreadsheets.

CTS 240 Project Management 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces computerized project management software. Topics include identifying critical paths, cost management, and problem solving. Upon completion, students should be able to plan a complete project and project time and costs accurately.

CTS 250 User Support & Software Eval 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to evaluate software and hardware and make recommendations to meet end-user needs. Emphasis is placed on software and hardware evaluation, installation, training, and support. Upon completion, students should be able to present proposals and make hardware and software recommendations based on their evaluations.

CTS 255 Adv Tech Support Functions 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces a variety of diagnostic and instructional tools that are used to evaluate the performance of technical support technologies. Topics include technical support management techniques, evaluation, and methods of deployment for technical support technologies. Upon completion, students should be able to determine the best technologies to support and solve more complex technical support problems.

CTS 272 Desktop Support: Applications 02 02 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is designed to prepare students for a foundation in Desktop Support certification in office productivity applications. Emphasis is placed on developing proficiency in the end-user support skills, processes, and procedures necessary to correctly support office productivity products. Upon completion, students should be able to prepare for industry-level certification and utilize advanced support tools toward resolving office productivity end-user problems.

CTS 285 Systems Analysis & Design 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces established and evolving methodologies for the analysis, design, and development of an information system. Emphasis is placed on system characteristics, managing projects, prototyping, CASE/OOM tools, and systems development life cycle phases. Upon completion, students should be able to analyze a problem and design an appropriate solution using a combination of tools and techniques.

CTS 289 System Support Project 01 04 00 03
Prerequisites: Take All: CTI-110, CTI-120, and CTS-115
Corequisites: None
Component: None
This course provides an opportunity to complete a significant support project with minimal instructor assistance. Emphasis is placed on written and oral communication skills, project definition, documentation, installation, testing, presentation, and user training. Upon completion, students should be able to complete a project from the definition phase through implementation.

CUL 110 Sanitation & Safety 02 00 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic principles of sanitation and safety relative to the hospitality industry. Topics include personal hygiene, sanitation and safety regulations, use and care of equipment, the principles of food-borne illness, and other related topics. Upon completion, students should be able to demonstrate an understanding of the content necessary for successful completion of a nationally recognized food/safety/sanitation exam.

CUL 111 Success in Hosp Studies 01 00 00 01
Prerequisites: None
Corequisites: None
Component: None
This course provides an orientation to the resources available and academic skills necessary to achieve success in a hospitality program. Emphasis is placed on technical and interpersonal skills, study skills, ethics, professionalism and time management as they relate to a hospitality field. Upon completion, students should be able to manage their learning experiences to successfully meet their educational goals.
This course covers the principles of nutrition and its relationship to the foodservice industry. Topics include personal nutrition fundamentals, weight management, exercise, nutritional adaptation/analysis of recipes/menus, healthy cooking techniques and marketing nutrition in a foodservice operation. Upon completion, students should be able to apply basic nutritional concepts to food preparation and selection.

CUL 112A Nutrition for Fdsv Lab 00 03 00 01
Prerequisites: Take CUL 112
Component: None
This course provides a laboratory experience for enhancing student skills in the principles of nutrition and its relationship to the foodservice industry. Emphasis is placed on yield tests, procurement, negotiating, inventory control, product specification, purchasing ethics, vendor relationships, food product specifications and software applications. Upon completion, students should be able to apply effective purchasing techniques based on the end-use of the product.

CUL 120 Purchasing 02 00 00 02
Prerequisites: Take DMA-030 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers purchasing for foodservice operations. Emphasis is placed on yield tests, procurement, negotiating, inventory control, product specification, purchasing ethics, vendor relationships, food product specifications and software applications. Upon completion, students should be able to apply effective purchasing techniques based on the end-use of the product.

CUL 130 Menu Design 02 00 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces menu design and its relationship to foodservice operations. Topics include layout, marketing, concept development, dietary concerns, product utilization, target consumers and trends. Upon completion, students should be able to design, create and produce menus for a variety of foodservice settings.

CUL 135 Food & Beverage Service 02 00 00 02
Prerequisites: None
Corequisites: None
Component: None
This course is designed to cover the practical skills and knowledge necessary for effective food and beverage service in a variety of settings. Topics include greeting/service of guests, dining room setup, profitability, menu sales and merchandising, service styles and reservations. Upon completion, students should be able to demonstrate competence in human relations and the skills required in the service of foods and beverages.

CUL 135A Food & Beverage Service Lab 00 02 00 01
Prerequisites: None
Corequisites: Take CUL 135
Component: None
This course provides a laboratory experience for enhancing student skills in effective food and beverage service. Emphasis is placed on practical experiences including greeting/service of guests, dining room set-up, profitability, menu sales and merchandising, service styles and reservations. Upon completion, students should be able to demonstrate practical applications of human relations and the skills required in the service of foods and beverages. 

CUL 140 Basic Culinary Skills 02 06 00 05
Prerequisites: Take DMA-030 or Placement Test Credit Equivalent
Corequisites: Take CUL 110
Component: None
This course introduces the fundamental concepts, skills and techniques in basic cookery, and moist, dry and combination heat. Emphasis is placed on recipe conversion, measurements, terminology, classical knife cuts, safe food/equipment handling, flavorings/seasonings, stocks/sauces/soups, and related topics. Upon completion, students should be able to exhibit the basic cooking skills used in the foodservice industry.

CUL 150 Food Science 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course covers the chemical and physical changes in foods that occur with cooking, handling, and processing. Emphasis is placed on practical application of heat transfer and its effect on color/flavor/texture, protein coagulation, emulsification, gel formation. Upon completion, students should be able to demonstrate an understanding of these principles as they apply to food preparation in an experimental setting.

CUL 160 Baking I 01 04 00 03
Prerequisites: Take CUL 110 and CUL 140
Corequisites: None
Component: None
This course covers basic ingredients, techniques, weights and measures, baking terminology and formula calculations. Topics include yeast/chemically leavened products, laminated doughs, pastry dough batter, pies/tarts, meringue, custard, cakes and cookies, icings, glazes and basic sauces. Upon completion, students should be able to demonstrate proper scaling and measurement techniques, and prepare and evaluate a variety of bakery products.

CUL 170 Garde Manager I 01 04 00 03
Prerequisites: Take CUL-140
Corequisites: Take CUL 110
Component: None
This course introduces basic cold food preparation techniques and pantry production. Topics include salads, sandwiches, appetizers, dressings, basic garnishes, cheeses, cold sauces, and related food items. Upon completion, students should be able to present a cold food display and exhibit an understanding of the cold kitchen and its related terminology.

CUL 185 Nutritional Cuisine 01 08 00 05
Prerequisites: Take CUL 110 CUL 140
Corequisites: None
Component: None
This course introduces students to a healthful approach to food preparation by choosing techniques, ingredients, and portion sizes that have positive health benefits. Topics include food/flavoring, and preparation of quality ingredients incorporating plant based foods and flavor enhancers to preserve flavor, texture, appearance and nutritional value. Upon completion, students should be able to demonstrate the integration of culinary tradition and nutritional science for healthful cooking.

CUL 214 Wine Appreciation 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to information about wine from all the major wine producing regions. Emphasis is placed on the history of wine, production, characteristics, wine list development, laws, purchasing and storing requirements. Upon completion, students should be able to evaluate varietal wines and basic food pairings.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
CUL 230 Global Cuisines
Prerequisites: Take CUL 110 and CUL 140
Corequisites: None
Component: None
This course provides practical experience in the planning, preparation, and presentation of representative foods from a variety of world cuisines. Emphasis is placed on indigenous ingredients and customs, nutritional concerns, and cooking techniques. Upon completion, students should be able to research and execute a variety of international and domestic menus.

CUL 230A Global Cuisines Lab
Prerequisites: Take CUL 110 and CUL 140
Corequisites: Take CUL 230
Component: None
This course provides a laboratory experience for enhancing student skills with cuisines from around the world. Emphasis is placed on production of global cuisines based on historical and geographical influences, ingredients, customs, and cooking techniques. Upon completion, students should be able to exhibit an understanding of the culinary practices and techniques of specific countries.

CUL 240 Culinary Skills II
Prerequisites: Take one set: Set 1: CUL-110 and CUL-140 Set 2: CUL-110, CUL-142, and CUL-170
Corequisites: None
Component: None
This course is designed to further students’ knowledge of the fundamental concepts, skills, and techniques involved in basic cookery. Emphasis is placed on meat identification/fabrication, butchery and cooking techniques/methods; appropriate vegetable/starch accompaniments; compound sauces; plate presentation; breakfast cookery; and quantity food preparation. Upon completion, students should be able to plan, execute, and successfully serve entrees with complementary side items.

CUL 245 Contemporary Cuisines
Prerequisites: Take CUL-110 and CUL-140
Corequisites: None
Component: None
This course introduces students to current culinary trends which include a variety of preparation methods. Topics include current and developing trends such as adaptation of native/regional ingredients and preparation methods into contemporary cuisines. Upon completion, students should be able to demonstrate knowledge of a variety of contemporary cuisines.

CUL 250 Classical Cuisine
Prerequisites: Take CUL 110, CUL 140 and CUL 240
Corequisites: None
Component: None
This course is designed to reinforce the classical culinary kitchen. Topics include the working Grand Brigade of the kitchen, signature dishes and classical banquets. Upon completion, students should be able to demonstrate competence in food preparation in a classical/upscale restaurant or banquet setting.

CUL 260 Baking II
Prerequisites: Take CUL 110 and CUL 160
Corequisites: None
Component: None
This course is designed to further students’ knowledge in ingredients, weights and measures, baking terminology and formula calculation. Topics include classical desserts, frozen desserts, cake and torte production, decorating and icings/glazes, dessert plating and presentation. Upon completion, students should be able to demonstrate pastry preparation, plating, and dessert buffet production skills.

CUL 270 Garde Manager II
Prerequisites: Take CUL 110, CUL 140 and CUL 170
Corequisites: None
Component: None
This course is designed to further students’ knowledge in basic cold food preparation techniques and pantry production. Topics include pâtés, terrines, galantines, decorative garnishing skills, carving, charcuterie, smoking, canapés, hors d’oeuvres, and related food items. Upon completion, students should be able to design, set up, and evaluate a catering/event display to include a cold buffet with appropriate showpieces.

CUL 270A Garde Manager II Lab
Prerequisites: Take CUL 110, CUL 140 and CUL 170
Corequisites: Take CUL 270
Component: None
This course provides a laboratory experience for enhancing student skills in basic cold food preparation techniques and pantry production. Emphasis is placed on practical experiences with pâtés, terrines, galantines, decorative garnishing skills, carving, charcuterie, smoking, canapés, hors d’oeuvres, and related food items. Upon completion, students should be able to demonstrate proficiency in the design/technical applications of advanced garde manger work including classical cold buffets incorporating appropriate showpieces.

CUL 273 Career Development
Prerequisites: None
Corequisites: None
Component: None
This course introduces students to career planning/management practices that serve as a foundation for success in the hospitality industry. Emphasis is placed on self assessment, goal/career pathway development and employment strategies such as résumé preparation, interviewing techniques, and developing/utilizing the portfolio as a credential. Upon completion, students should be able to develop a career path leading to an effective job search.

CUL 275 Catering Cuisine
Prerequisites: Take CUL 110, CUL 140, and CUL 240
Corequisites: None
Component: None
This course covers the sequential steps to successful catering that include sales, client needs, menu planning, purchasing, costing, event pricing, staffing and sanitation concerns. Emphasis is placed on new culinary competencies and skills specific to catering preparation, presentation, and customer service. Upon completion, students should be able to demonstrate proficiency in the successful design and execution of various types of catering events.

CUL 280 Pastry & Confections
Prerequisites: Take CUL 110, CUL 140, CUL 160, and CUL 260
Corequisites: None
Component: None
This course includes confections and candy, chocolate techniques, transfer sheets, pulled and bloomed sugar, pastillage, marzipan and custom silicon molding. Emphasis is placed on showpieces, pre-set molding, stencil cutouts, pattern tracing and/or free-hand shaping. Upon completion, students should be able to design and produce centerpieces and showpieces.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course provides a laboratory experience for enhancing student skills in confections/candy, chocolate techniques, transfer sheets, pulled/blown sugar, pastillage, marzipan and custom silicon molding. Emphasis is placed on practical experiences with showpieces, pre-set molding, stencil cutouts, pattern tracing and/or free-hand shaping. Upon completion, students should be able to demonstrate proficiency in the execution of plated desserts, dessert platters and showpieces.

CUL 283 Farm-To-Table
Prerequisites: Take CUL 110 and CUL 140
Component: None
This course introduces students to the cooperation between sustainable farmers and foodservice operations. Emphasis is placed on environmental relationships, including how foods are grown, processed, and distributed, as well as related implications on quality and sustainability. Upon completion, students should be able to demonstrate an understanding of environmental stewardship and its impact on cuisine.

CUL 285 Competition Fundamentals
Prerequisites: Take One: CUL-110, CUL-110A, CUL-140, or CUL-160
Component: None
This course provides practical experience in planning, techniques, and procedures required for culinary competitions and exhibitions. Emphasis is placed on competition strategies including menu planning, teamwork, plate design, flavor profiles, recipe development, nutrition, advanced knife/culinary skills, professionalism, and portfolio development. Upon completion, students should be able to apply competition/exhibition skills and standards in the competition arena and professional kitchen.

DAN 110 Dance Appreciation
Prerequisites: None
Component: None
This course for non-dance majors surveys diverse dance forms and the religious and cultural values that shape them. Topics include dances from Europe, Africa, Asia, and America. Upon completion, students should be able to demonstrate an understanding of the diverse forms and values that dance embraces. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

DBA 110 Database Concepts
Prerequisites: None
Component: None
This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms.

DBA 112 Database Utilization
Prerequisites: None
Component: None
This course introduces basic database functions and uses. Emphasis is placed on database manipulation with queries, reports, forms, and some table creation. Upon completion, students should be able to enter and manipulate data from the end user mode.

DBA 115 Database Applications
Prerequisites: Take DBA-110
Component: None
This course applies concepts learned in DBA 110 to a specific DBMS. Topics include manipulating multiple tables, advanced queries, screens and reports, linking, and command files. Upon completion, students should be able to create multiple table systems that demonstrate updates, screens, and reports representative of industry requirements.

DBA 120 Database Programming I
Prerequisites: Take DBA-110
Component: None
This course is designed to develop SQL programming proficiency. Emphasis is placed on data definition, data manipulation, and data control statements as well as on report generation. Upon completion, students should be able to write programs which create, update, and produce reports.

DBA 125 Database Reporting
Prerequisites: None
Component: None
This course provides a survey of the tools used in designing, creating and publishing database reports. Topics include both relational and XML datasets. Upon completion, students should be able to demonstrate an understanding of the different tools and frameworks used for database reporting.

DBA 130 Intro to noSQL Databases
Prerequisites: None
Component: None
This course introduces large scale data oriented web solutions on noSQL Databases. Topics include the advantages of developing and implementing noSQL Database systems. Upon completion, students should be able to design, develop, implement, and administer noSQL Database structures on business environments.

DBA 210 Database Administration
Prerequisites: None
Component: None
This course covers database administration issues and distributed database concepts. Topics include database administrator (DBA) goals and functions, backup and recovery, standards and procedures, training, and database security and performance evaluations. Upon completion, students should be able to produce functional DBA documentation and administer a database.

DBA 220 Oracle DB Programming II
Prerequisites: Take DBA 120
Component: None
This course is designed to enhance programming skills developed in DBA 120. Topics include application development with GUI front-ends and embedded programming. Upon completion, students should be able to develop an Oracle DBMS application which includes a GUI front-end and report generation.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course examines advanced SQL Server database administration issues and distributed database concepts. Topics include backup and recovery, transporting of data between databases, database networking concepts, and resolution of database networking issues. Upon completion, students should be able to manage backup recovery and implement networked database solutions.

DBA 270 Oracle Performance Tuning
Prerequisites: None
Corequisites: None
Component: This course covers Oracle performance tuning concepts and techniques. Topics include database tuning and Oracle performance tools. Upon completion, students should be able to configure and diagnose an Oracle database for optimal performance.

DBA 271 SQL Server Perf Tuning
Prerequisites: None
Corequisites: None
Component: This course covers SQL Server performance tuning concepts and techniques. Topics include database tuning and SQL Server performance tools. Upon completion, students should be able to configure and diagnose an SQL Server database for optimal performance.

DBA 273 MySQL Performance Tuning
Prerequisites: None
Corequisites: None
Component: This course covers MySQL performance tuning concepts and techniques. Topics include database tuning and MySQL performance tools. Upon completion, students should be able to configure and diagnose a MySQL database for optimal performance.

DBA 285 Data Warehousing and Mining
Prerequisites: None
Corequisites: None
Component: This course introduces data warehousing and data mining techniques. Emphasis is placed on data warehouse design, data transference, data cleansing, retrieval algorithms, and mining techniques. Upon completion, students should be able to create, populate, and mine a data warehouse.

DBA 289 Database Project
Prerequisites: Take All: CTI-110, CTI-120, and CTS-115
Corequisites: None
Component: This course provides an opportunity to complete a significant database systems project with minimal instructor support. Emphasis is placed on written and verbal communication skills, documentation, presentation, and user training. Upon completion, students should be able to present an operational database system which they have created.

DEA 111 Introduction to DEAT
Prerequisites: None
Corequisites: None
Component: This course is an overview of the digital effects and animation technology field from the most simple processes to the most complex. Topics covered include digitizing existing images, creating digital images, manipulation of images and various forms of computer animation. Upon completion, students should be able to demonstrate a vocabulary of the digital effects and animation field and a knowledge of outstanding examples of work in the field.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
DEA 112 2D Design and Animation I
Prerequisites: Take DEA-111
Corequisites: None
Component:
This course covers the process of creating still graphics and 2D animations for use in video, film or web applications. Topics include multilayering, color correction, alpha channel creation, masking, and keyframing. Upon completion, students should be able to demonstrate basic knowledge of 2D animation and add simple special effects and flying text to video, film or web applications.

DEA 212 2D Design & Animation II
Prerequisites: Take DEA-112
Corequisites: None
Component:
This course covers relatively complex applications of 2D design and animation for use in video, film or web applications. Topics will include designing animation that is true to the physics of movement, realism in the movements of animals and people, and combining elements of animation. Upon completion, students should be able to produce a short professional level project in 2D animation.

DEA 213 3D Design and Animation I
Prerequisites: Take DEA-111
Corequisites: None
Component:
This course provides in-depth demonstration and practice in modeling and texturing in a 3D environment for use in film, video and web applications. Emphasis is placed on understanding the process and various steps involved in the creation of 3D models and text elements for use in 3D animations. Upon completion, students should be able to create, import and manipulate objects in order to demonstrate an understanding of the basics in 3D animation.

DEA 214 3D Design & Animation II
Prerequisites: Take DEA-213
Corequisites: None
Component:
This course covers animation techniques, morphing and special effects used to complete 3D animatin for use in film, video and web application. Emphasis is placed on the knowledge, appropriate use, and application of the animation industry’s latest tools for 3D animation. Upon completion, students should have rendered an entire 3D scene using models and animations created in 3D Animation I.

DEA 215 3D Design & Environments
Prerequisites: Take DEA-111
Corequisites: None
Component:
This course covers animation techniques, and special effects used to complete physical environments. Emphasis is placed on the building of architectural and geographical features and environments for animation. Upon completion, students should have created and rendered an architectural or geographical environmental scene using modeling and rendering techniques.

DEA 220 DEAT Compositing
Prerequisites: Take DEA-112
Corequisites: Take DEA-212
Component:
This course covers the process of combining digital elements to create or enhance scenes. Topics include keying techniques, rotoscoping, motion tracking and the use of alpha channels. Upon completion, students should have an understanding and experience in combining elements from both 2D and 3D applications into one scene.

DEA 100 Basic Orofacial Anatomy
Prerequisites: None
Corequisites: None
Component: None
This course provides a basic introduction to the structures of the head, neck, and oral cavity. Topics include tooth morphology, head and neck anatomy, histology, and embryology. Upon completion, students should be able to demonstrate knowledge of normal structures and development and how they relate to the practice of dental assisting. This course is intended for certificate and diploma programs.

DEA 103 Dental Sciences
Prerequisites: None
Corequisites: None
Component: None
This course provides instruction in the structures of the head, neck, and oral cavity. Topics include etiology of dental diseases, preventive procedures, and patient education theory and practice. Upon completion, students should be able to demonstrate proficiency in clinical dental assisting procedures. This course is intended for certificate and diploma programs.

DEA 102 Dental Materials
Prerequisites: Department Approval
Corequisites: Take DEN 102 and DEN 111
Component: None
This course provides instruction in procedures for the clinical dental assistant as specified by the North Carolina Dental Practice Act. Emphasis is placed on orientation to the profession, infection control techniques, instruments, related expanded functions, and diagnostic, operative, and specialty procedures. Upon completion, students should be able to demonstrate proficiency in clinical dental assisting procedures. This course is intended for certificate and diploma programs.

DEA 104 Dental Health Education
Prerequisites: A set of courses is required: DEN 101 and DEN 111
Corequisites: Take DEN 106
Component: None
This course covers the study of preventive dentistry to prepare dental assisting students for the role of dental health educator. Topics include etiology of dental diseases, preventive procedures, and patient education theory and practice. Upon completion, students should be able to demonstrate proficiency in patient counseling and oral health instruction in private practice or public health settings. This course is intended for certificate and diploma programs.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
DEN 105 Practice Management
Prerequisites: None
Corequisites: Take DEN 106
Component: None
This course provides a study of principles and procedures related to management of the dental practice. Emphasis is placed on maintaining clinical and financial records, patient scheduling, and supply and inventory control. Upon completion, students should be able to demonstrate fundamental skills in dental practice management. This course is intended for certificate and diploma programs.

DEN 106 Clinical Practice I
Prerequisites: All courses required: DEN 101, DEN 102 and DEN 111
Corequisites: All courses required: DEN 104, DEN 105 and DEN 112
Component: None
This course is designed to provide experience assisting in a clinical setting. Emphasis is placed on the application of principles and procedures of four-handed dentistry and laboratory and clinical support functions. Upon completion, students should be able to utilize classroom theory and laboratory and clinical skills in a dental setting. This course is intended for certificate and diploma programs.

DEN 107 Clinical Practice II
Prerequisites: Take DEN 106
Corequisites: None
Component: None
This course is designed to increase the level of proficiency in assisting in a clinical setting. Emphasis is placed on the application of principles and procedures of four-handed dentistry and laboratory and clinical support functions. Upon completion, students should be able to combine theoretical and ethical principles necessary to perform entry-level skills including functions delegable to a DA II. This course is intended for certificate and diploma programs.

DEN 110 Orofacial Anatomy
Prerequisites: Requires enrollment in the Dental Assisting or Dental Hygiene program.
Corequisites: Take BIO 163
Component: None
This course introduces the structures of the head, neck, and oral cavity. Topics include tooth morphology, head and neck anatomy, histology, and embryology. Upon completion, students should be able to relate the identification of normal structures and development to the practice of dental assisting and dental hygiene.

DEN 111 Infection/Hazard Control
Prerequisites: None
Corequisites: None
Component: None
This course introduces the infection and hazard control procedures necessary for the safe practice of dentistry. Topics include microbiology, practical infection control, sanitation and sterilization, chemical disinfectants, aseptic technique, infectious diseases, OSHA standards, and applicable North Carolina laws. Upon completion, students should be able to understand infectious diseases, disease transmission, infection control procedures, biohazard management, OSHA standards, and applicable North Carolina laws.

DEN 112 Dental Radiography
Prerequisites: Enrollment in Dental Assisting or Dental Hygiene Program
Corequisites: Take DEN 100 or DEN 110 and DEN 111
Component: None
This course provides a comprehensive view of the principles and procedures of radiology as they apply to dentistry. Topics include techniques in exposing, processing, and evaluating radiographs, as well as radiation safety, quality assurance, and legal issues. Upon completion, students should be able to demonstrate proficiency in the production of diagnostically acceptable radiographs using appropriate safety precautions.

DEN 120 Dental Hygiene Preclinical Lecture
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: Take DEN 121
Component: None
This course introduces preoperative and clinical dental hygiene concepts. Emphasis is placed on the assessment phase of patient care as well as the theory of basic dental hygiene instrumentation. Upon completion, students should be able to collect and evaluate patient data at a basic level and demonstrate knowledge of dental hygiene instrumentation.

DEN 121 Dental Hygiene Preclinical Lab
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: Take DEN 120
Component: None
This course provides the opportunity to perform clinical dental hygiene procedures discussed in DEN 120. Emphasis is placed on clinical skills in patient assessment and instrumentation techniques. Upon completion, students should be able to demonstrate the ability to perform specific preclinical procedures.

DEN 123 Nutrition/Dental Health
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: Take DEN 220
Component: None
This course introduces basic principles of nutrition with emphasis on nutritional requirements and their application to individual patient needs. Topics include the study of Federal Nutritional Guidelines, nutrient functions, Recommended Daily Allowances, Adequate Intake, Tolerable Upper Intake Level, Estimated Average Requirement, and related psychological principles. Upon completion, students should be able to recommend and counsel individuals on their food intake as related to their dental health.

DEN 124 Periodontology
Prerequisites: Enrollment in Dental Hygiene Program and DEN 110
Corequisites: Take DEN 130
Component: None
This course provides an in-depth study of the periodontium, periodontal pathology, periodontal monitoring, and the principles of periodontal therapy. Topics include periodontal anatomy and a study of the etiology, classification, and treatment modalities of periodontal diseases. Upon completion, students should be able to describe, compare, and contrast techniques involved in periodontal/maintenance therapy, as well as patient care management.

DEN 125 Dental Office Emergencies
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: Take DEN 140
Component: None
This course provides a study of the management of dental office emergencies. Topics include methods of prevention, necessary equipment/drugs, medicolegal considerations, recognition and effective initial management of a variety of emergencies. Upon completion, the student should be able to recognize, assess and manage various dental office emergencies and activate advanced medical support when indicated.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
**DEN 130 Dental Hygiene Theory I**  
02 00 00 02  
Prerequisites: Enrollment in Dental Hygiene and DEN 120  
Corequisites: Take DEN 131  
Component: None  
This course is a continuation of the didactic dental hygiene concepts necessary for providing an oral prophylaxis. Topics include deposits/removal, instrument sharpening, patient education, fluorides, planning for dental hygiene treatment, charting, and clinical records and procedures. Upon completion, students should be able to demonstrate knowledge needed to complete a thorough oral prophylaxis.  
Corequisites: Take DEN 130  
Component: None  
This course provides a general knowledge of oral pathological manifestations associated with selected systemic and oral diseases. Topics include developmental and degenerative diseases, selected microbial diseases, specific and nonspecific immune and inflammatory responses with emphasis on recognizing abnormalities. Upon completion, students should be able to differentiate between normal and abnormal tissues and refer unusual findings to the dentist for diagnosis.  
Corequisites: Take DEN 230 and BIO 163  
Component: None  
This course provides basic drug terminology, general principles of drug actions, dosages, routes of administration, adverse reactions, and basic principles of anesthesiology. Emphasis is placed on knowledge of drugs in overall understanding of patient histories and health status. Upon completion, students should be able to recognize that each patient’s general health or drug usage may require modification of the treatment procedures.  
Corequisites: Take DEN 231  
Component: None  
This course introduces advanced principles of patient care. Topics include advanced periodontal debridement, subgingival irrigation, air polishing, special needs and case presentations. Upon completion, students should be able to demonstrate knowledge of methods of treatment and management of periodontally compromised and special needs patients.  
Corequisites: Take DEN 220  
Component: None  
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with moderate to advanced/refractory periodontal disease. Upon completion, students should be able to assess these patients’ needs and complete the necessary dental hygiene treatment.  
Corequisites: Take DEN 232  
Component: None  
This course provides a general knowledge of oral pathological manifestations associated with selected systemic and oral diseases. Topics include developmental and degenerative diseases, selected microbial diseases, specific and nonspecific immune and inflammatory responses with emphasis on recognizing abnormalities. Upon completion, students should be able to differentiate between normal and abnormal tissues and refer unusual findings to the dentist for diagnosis.  
Corequisites: Take DEN 240  
Component: None  
This course introduces principles in treatment modification. Topics include modification of treatment for pain management and advanced radiographic interpretation. Upon completion, students should be able to differentiate necessary treatment modifications and radiographic abnormalities. Topic information is expanded to include an introduction to the concept of power driven scalers and modification of treatment for specific needs patients.  
Corequisites: Take DEN 221  
Component: None  
This course provides an introduction to the principles and methods used in assessing, planning, implementing, and evaluating community dental health programs. Topics include epidemiology, research methodology, biostatistics, preventive dental care, dental health education, program planning, and financing and utilization of dental services. Upon completion, students should be able to assess these patients’ needs and complete the necessary dental hygiene treatment.  
Corequisites: Take DEN 242  
Component: None  
This course introduces the physical properties of materials and related procedures used in dentistry. Topics include restorative and preventive materials, fabrication of casts and appliances, and chairside functions of the dental hygienist. Upon completion, students should be able to demonstrate proficiency in the laboratory and/or clinical application of routinely used dental materials and chairside functions.  
Corequisites: Take DEN 222 General & Oral Pathology  
Component: None  
This course continues skill development in providing an oral prophylaxis. Emphasis is placed on treatment of patients with moderate to advanced periodontal involvement and moderate deposits. Upon completion, students should be able to assess these patients’ needs and complete the necessary dental hygiene treatment.  
Prerequisites: Enrollment in Dental Hygiene Program and BIO 163 or BIO 163C and BIO 163L  

---

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
DEN 233 Professional Development
Prerequisites: Enrollment in Dental Hygiene Program
Corequisites: Take DEN 230
Component: None
This course includes professional development, ethics, and jurisprudence with applications to practice management. Topics include conflict management, state laws, resumes, interviews, and legal liabilities as health care professionals. Upon completion, students should be able to demonstrate the ability to practice dental hygiene within established ethical standards and state laws.

DFT 119 Basic CAD
Prerequisites: None
Corequisites: None
Component: None
This course introduces computer-aided drafting software for specific technologies to non-drafting majors. Emphasis is placed on understanding the software command structure and drafting standards for specific technical fields. Upon completion, students should be able to create and plot basic drawings.

DFT 151 CAD I
Prerequisites: None
Corequisites: None
Component: None
This course introduces CAD software as a drawing tool. Topics include drawing, editing, file management, and plotting. Upon completion, students should be able to produce and plot a CAD drawing.

DFT 152 CAD II
Prerequisites: Take DFT-151
Corequisites: None
Component: None
This course introduces extended CAD applications. Emphasis is placed upon intermediate applications of CAD skills. Upon completion, students should be able to use extended CAD applications to generate and manage drawings.

DFT 170 Engineering Graphics
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic engineering graphics skills and applications. Topics include sketching, selection and use of current methods and tools, and the use of engineering graphics applications. Upon completion, students should be able to demonstrate an understanding of basic engineering graphics principles and practices. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DMA 010 Operations With Integers
Prerequisites: None
Corequisites: None
Component: None
This course provides a conceptual study of integers and integer operations. Topics include integers, absolute value, exponents, square roots, perimeter and area of basic geometric figures, Pythagorean theorem, and use of the correct order of operations. Upon completion, students should be able to demonstrate an understanding of pertinent concepts and principles and apply this knowledge in the evaluation of expressions.

DMA 020 Fractions and Decimals
Prerequisites: Take DMA-010
Corequisites: None
This course provides a conceptual study of the relationship between fractions and decimals and covers related problems. Topics include application of operations and solving contextual application problems, including determining the circumference and area of circles with the concept of pi. Upon completion, students should be able to demonstrate an understanding of the connections between fractions and decimals.

DMA 025 Applications With Real Numbers
Prerequisites: None
Corequisites: None
Component: None
This course provides a conceptual study of integers, integer operations, the relationship between fractions and decimals, rates, ratios, percents, proportions and related problems. Topics include integer operations and rational numbers, geometric applications, absolute value, exponents, square roots, Pythagorean Theorem, order of operations, rates, ratios, percents, proportions, conversion of English and Metric units, and applications of the geometry of similar triangles. Upon completion, students should be able to demonstrate an understanding of pertinent concepts and principles, apply the knowledge of the relationships between decimals, fractions, and percents, and use their understanding to solve conceptual application problems.

DMA 030 Propor/Ratio/Rate/Percent
Prerequisites: Take DMA 010 and DMA 020
Corequisites: None
Component: None
This course provides a conceptual study of the problems that are represented by rates, ratios, percent, and proportions. Topics include rates, ratios, percent, proportion, conversion of English and metric units, and applications of the geometry of similar triangles. Upon completion, students should be able to use their understanding to solve conceptual application problems.

DMA 040 Express/Lin Equat/Inequal
Prerequisites: Take DMA 010, DMA 020, and DMA 030 or MAT 060
Corequisites: None
Component: None
This course provides a conceptual study of problems involving linear expressions, equations, and inequalities. Emphasis is placed on solving contextual application problems. Upon completion, students should be able to distinguish between simplifying expressions and solving equations and apply this knowledge to problems involving linear expressions, equations, and inequalities.

DMA 045 Linear Equations/Inequalities
Prerequisites: Take one set: Set 1: DMA-010, DMA-020, and DMA-030 Set 2: DMA-025 Set 3: MAT-060
Corequisites: None
Component: None
This course provides a conceptual study of problems involving linear expressions, equations, inequalities, and graphic and algebraic representations of lines. Topics include solving equations, slope, equations of lines, interpretation of basic graphs, linear modeling, and contextual application problems. Upon completion, students should be able to simplify expressions, solve equations and inequalities, create and interpret graphical representation of equations, inequalities, and real world data, and apply this knowledge to real world situations.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
DMA 050 Graphs/Equations of Lines  .75 .50 00 01
Prerequisites: Take DMA 010, DMA 020, DMA 030, and DMA 040 or DMA 040 and MAT 060
Corequisites: None
Component: None
This course provides a conceptual study of problems involving graphic and algebraic representations of lines. Topics include slope, equations of lines, interpretation of basic graphs, and linear modeling. Upon completion, students should be able to solve contextual application problems and represent real-world situations as linear equations in two variables.

DMA 060 Polynomial/Quadratic Appl  .75 .50 00 01
Prerequisites: Take DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050 or MAT 060 and MAT 070
Corequisites: None
Component: None
This course provides a conceptual study of problems involving graphic and algebraic representations of quadratics. Topics include basic polynomial operations, factoring polynomials, and solving polynomial equations by means of factoring. Upon completion, students should be able to find algebraic solutions to contextual problems with quadratic applications.

DMA 065 Algebra for Precalculus  1.5 1 00 02
Prerequisites: Take All: DMA-010 DMA-020 DMA-030 DMA-040 and DMA-050
Corequisites: None
Component: None
This course provides a study of problems involving algebraic representations of quadratic, rational, and radical equations. Topics include simplifying polynomial, rational, and radical expressions and solving quadratic, rational, and radical equations. Upon completion, students should be able to find algebraic solutions to contextual problems with quadratic and rational applications.

DMA 070 Rational Express/Equation  .75 .50 00 01
Prerequisites: Take DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, and DMA 060 or DMA 060, MAT 060 and MAT 070
Corequisites: None
Component: None
This course provides a conceptual study of problems involving graphic and algebraic representations of rational equations. Topics include simplifying and performing operations with rational expressions and equations, understanding the domain, and determining the reasonableness of an answer. Upon completion, students should be able to find algebraic solutions to contextual problems with rational applications.

DMA 080 Radical Express/Equations  .75 .50 00 01
Prerequisites: Take DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, DMA 060 and DMA 070 or DMA 060, DMA 070, MAT 060 and MAT 070
Corequisites: None
Component: None
This course provides a conceptual study of the manipulation of radicals and the application of radical equations to real-world problems. Topics include simplifying and performing operations with radical expressions and rational exponents, solving equations, and determining the reasonableness of an answer. Upon completion, students should be able to find algebraic solutions to contextual problems with radical applications.

DME 110 Intro to Digital Media  02 02 00 03
Prerequisites: None
Corequisites: None
Component:
This course introduces students to key concepts, technologies, and issues related to digital media. Topics include emerging standards, key technologies and related design issues, terminology, media formats, career paths, and ethical issues. Upon completion, students should be able to demonstrate the various media formats that are used in digital media technology.

DME 115 Graphic Design Tools  02 02 00 03
Prerequisites: None
Corequisites: None
Component:
This course provides students with an introduction to creative expression and art/design techniques in a digital environment. Emphasis is placed on designing, creating, editing and integrating visual components consisting of bit-mapped and vector-based images, drawings, banners, text, simple animations, and multiple layers. Upon completion, students should be able to design and produce a range of visual products using digital processing techniques.

DME 120 Intro to Multimedia Appl  02 02 00 03
Prerequisites: Take DME-110
Corequisites: None
Component:
This course introduces storyboarding and multimedia application design. Topics include vector and bit-mapped graphics, interactive multimedia interfaces, layering techniques, image and animation libraries, and scripting. Upon completion, students should be able to produce basic high-quality interactive multimedia applications.

DME 130 Digital Animation I  02 02 00 03
Prerequisites: Take DME-110
Corequisites: None
Component:
This course introduces concepts for planning and developing animation sequences. Emphasis will be placed on review of digital animation concepts and exploration of various animation software packages. Upon completion, students should be able to produce simple animations.

DME 140 Intro to Audio/Video Media  02 02 00 03
Prerequisites: Take DME-110
Corequisites: None
Component:
This course is designed to teach students how to manipulate digital and audio content for multimedia applications. Topics include format conversion and a review of current technologies and digital formats. Upon completion, students should be able to modify existing audio and video content to meet a range of production requirements associated with digital media applications.

DME 215 Adv Graphic Design Tools  02 02 00 03
Prerequisites: Take DME-115
Corequisites: None
Component:
This course provides students with advanced design techniques in a digital environment. Emphasis is placed on understanding principles of design and typography, and applying them effectively in projects. Upon completion, students should be able to design and produce a range of visual products using advanced digital design techniques and principles.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course provides an opportunity to customize developmental math content in specific developmental math areas. Content will be two DMA modules appropriate to the required level of the student. Upon completion, students should be able to demonstrate an understanding of their specific developmental math area of content.

DMS 003 Developmental Math Shell 3 2.25 1.50 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to customize developmental math content in specific developmental math areas. Content will be three DMA modules appropriate to the required level of the student. Upon completion, students should be able to demonstrate an understanding of their specific developmental math area of content.

DMS 004 Developmental Math Shell 4 03 02 00 04
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to customize developmental math content in specific developmental math areas. Content will be four DMA modules appropriate to the required level of the student. Upon completion, students should be able to demonstrate an understanding of their specific developmental math area of content.

DRA 111 Theater Appreciation 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of the art, craft, and business of the theater. Emphasis is placed on the audiences appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theater terms and to recognize the contributions of various theater artists. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

DRA 112 Literature of the Theater 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides a survey of dramatic works from the classical Greek through the present. Emphasis is placed on the language of drama, critical theory, and background as well as on play reading and analysis. Upon completion, students should be able to articulate, orally and in writing, their appreciation and understanding of dramatic works. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

DRA 115 Theater Criticism 03 00 00 03
Prerequisites: Take DRA 111
Corequisites: None
Component: None
This course is designed to develop a critical appreciation of the theater from the viewpoint of the audience/consumer. Emphasis is placed on viewing, discussing, and evaluating selected theater performance, either live or on film/video. Upon completion, students should be able to express their critical judgments both orally and in writing. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.
DRA 120 Voice for Performance
Prerequisites: None
Corequisites: None
Component: None
This course provides guided practice in the proper production of speech for the theatre. Emphasis is placed on improving speech, including breathing, articulation, pronunciation, and other vocal variables. Upon completion, students should be able to demonstrate effective theatrical speech. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 122 Oral Interpretation
Prerequisites: None
Corequisites: None
Component: None
This course introduces the dramatic study of literature through performance. Emphasis is placed on analysis and performance of poetry, drama, and prose fiction. Upon completion, students should be able to embody and discuss critically the speakers inherent in literature. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

DRA 124 Readers Theatre
Prerequisites: None
Corequisites: None
Component: None
This course provides a theoretical and applied introduction to the medium of readers theatre. Emphasis is placed on the group performance considerations posed by various genres of literature. Upon completion, students should be able to adapt and present a literary script following the conventions of readers theatre. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 126 Storytelling
Prerequisites: None
Corequisites: None
Component: None
This course introduces the art of storytelling and the oral traditions of folk literature. Topics include the history of storytelling, its value and purpose, and methods of collecting verbal art. Upon completion, students should be able to present and discuss critically stories from the world’s repertory of traditional lore. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

DRA 128 Children’s Theatre
Prerequisites: None
Corequisites: None
Component: None
This course introduces the philosophy and practice involved in producing plays for young audiences. Topics include the selection of age-appropriate scripts and the special demands placed on directors, actors, designers, and educators in meeting the needs of young audiences. Upon completion, students should be able to present and critically discuss productions for children. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 130 Acting I
Prerequisites: None
Corequisites: None
Component: None
This course provides an applied study of the actor’s craft. Topics include role analysis, training the voice, and body concentration, discipline, and self-evaluation. Upon completion, students should be able to explore their creativity in an acting ensemble. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 131 Acting II
Prerequisites: Take DRA 130
Corequisites: None
Component: None
This course provides additional hands-on practice in the actor’s craft. Emphasis is placed on further analysis, characterization, growth, and training for acting competence. Upon completion, students should be able to explore their creativity in an acting ensemble. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 132 Stage Movement
Prerequisites: None
Corequisites: Take DRA 111
Component: None
This course provides an applied study of selected principles of stage movement for actors. Topics include improvisation, mime, stage combat, clowning, choreography, and masks. Upon completion, students should be able to focus properly on stage, to create characters, and to improvise scenes, perform mimes, fight, clown, juggle, and waltz. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 135 Acting for the Camera I
Prerequisites: None
Corequisites: None
Component: None
This course provides additional hands-on study of the camera actor’s craft. Topics include commercial, dramatic, and print performance styles. Upon completion, students should be able to explore their creativity in on-camera performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 136 Acting for the Camera II
Prerequisites: Take DRA 135
Corequisites: None
Component: None
This course provides additional hands-on study of the camera actor’s craft. Emphasis is placed on more advanced camera acting theories, auditioning techniques, daytime drama, feature film, and print advertisement performance styles. Upon completion, students should be able to explore their creativity in on-camera performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
DRA 140 Stagecraft I
Prerequisites: None
Corequisites: None
Component: None
This course introduces the theory and basic construction of stage scenery and properties. Topics include stage carpentry, scene painting, stage electrics, properties, and backstage organization. Upon completion, students should be able to pursue vocational and avocational roles in technical theatre. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 141 Stagecraft II
Prerequisites: Take DRA 140
Corequisites: None
Component: None
This course provides additional hands-on practice in the elements of stagecraft. Emphasis is placed on the design and implementation of the arts and crafts of technical theatre. Upon completion, students should be able to pursue vocational or avocational roles in technical theatre. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 142 Costuming
Prerequisites: None
Corequisites: None
Component: None
This course covers the techniques of costume construction and crafts processes. Emphasis is placed on learning costuming techniques, using equipment and materials, and finishing production-appropriate costumes. Upon completion, students should be able to demonstrate an understanding of pattern drafting, construction techniques, and costume fitting procedures. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 145 Stage Make-up
Prerequisites: None
Corequisites: None
Component: None
This course covers the research, design, selection of materials, and application of stage make-up, prosthetics, wigs, and hairpieces. Emphasis is placed on the development of techniques, style, and presentation of the finished make-up. Upon completion, students should be able to create and apply make-up, prosthetics, and hairpieces. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 170 Play Production I
Prerequisites: None
Corequisites: None
Component: None
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 175 Teleplay Production I
Prerequisites: None
Corequisites: None
Component: None
This course provides an applied laboratory study of the processes involved in production of a dramatic television program. Emphasis is placed on the fundamental practices, principles, and techniques associated with producing dramatic television programming. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

DRA 211 Theatre History I
Prerequisites: None
Corequisites: None
Component: None
This course covers the development of theater from its origin to the closing of the British theater in 1642. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theater and recognize the styles and types of world drama. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

DRA 212 Theatre History II
Prerequisites: None
Corequisites: None
Component: None
This course covers the development of theater from 1660 through the diverse influences which shaped the theater of the twentieth century. Topics include the history, aesthetics, and representative dramatic literature of the period. Upon completion, students should be able to trace the evolution of theater and recognize the styles and types of world drama. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

DRA 240 Lighting for the Theatre
Prerequisites: None
Corequisites: None
Component: None
This course is an applied study of theatre lighting and is designed to train theatre technicians. Emphasis is placed on lighting technology including the mechanics of lighting and light control equipment by practical work with lighting equipment. Upon completion, students should be able to demonstrate competence with lighting equipment. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
DRA 260 Directing
Prerequisites: Take DRA 130
Corequisites: Take DRA 140
Component: None
This course provides an analysis and application of the techniques of theatrical directing. Topics include script selection, analysis, casting, rehearsal planning, blocking, stage business, tempo, and technical considerations. Upon completion, students should be able to plan, execute, and critically discuss a student-directed production. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

DRA 270 Play Production III
Prerequisites: Take DRA-171
Corequisites: None
Component: None
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement

DRA 271 Play Production IV
Prerequisites: Take DRA-270
Corequisites: None
Component: None
This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement

DRE 096 Integrated Reading and Writing 2.5
Prerequisites: None
Corequisites: None
Component: None
This course is designed to develop proficiency in specific integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; these topics are primarily taught at the introductory level using texts primarily in a Lexile® range of 960 to 1115. Upon completion, students should be able to apply these skills toward understanding a variety of texts at the career and college ready level and toward composing a documented essay.

DRE 098 Integrated Reading Writing III 2.5
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; these topics are taught using texts primarily in the Lexile® range of 1185 to 1385. Upon completion, students should be able to apply those skills toward understanding a variety of texts at the career and college ready level and toward composing a documented essay.

DRE 099 Integrated Reading Writing III 02
Prerequisites: Take DRE-097
Corequisites: Take ENG-111
Component: None
This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies by complementing, supporting and reinforcing material covered in ENG 111. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; except where noted, these topics are taught using texts primarily in the Lexile (TM) range of 1185 to 1385. Upon completion, students should be able to apply those skills toward understanding a variety of texts at the career and college ready level and toward composing a documented essay. Note: (TM) represents registered trademark.

ECM 210 Intro. to E-Commerce
Prerequisites: None
Corequisites: None
Component: None
This course introduces the concepts and tools to implement electronic commerce via the Internet. Topics include application and server software selection, securing transactions, use and verification of credit cards, publishing of catalogs, and site administration. Upon completion, students should be able to setup a working e-commerce Internet web site. This course is also available through the Virtual Learning Community (VLC).

ECO 151 Survey of Economics
Prerequisites: Take DMA-050 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course, for those who have not received credit for ECO 251 or 252, introduces basic concepts of micro- and macroeconomics. Topics include supply and demand, optimizing economic behavior, prices and wages, money, interest rates, banking system, unemployment, inflation, taxes, government spending, and international trade. Upon completion, students should be able to explain alternative solutions for economic problems faced by private and government sectors This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course covers the development of partnerships between culturally, linguistically and ability diverse families, children, schools and communities through the use of evidence-based strategies. Emphasis is placed on developing skills and identifying benefits for establishing, supporting, and maintaining respectful, collaborative relationships between diverse families, programs/schools, and community agencies/resources reflective of the NAECY Code of Ethical Conduct. Upon completion, students should be able to identify appropriate relationship building strategies between diverse families, children, schools, and communities and demonstrate a variety of communication skills including appropriate use of technology to support every child.

**EDU 144 Child Development I**  
Prerequisites: Take DRE-097  
Corequisites: None  
Component: None  
This course includes the theories of child development, observation and assessment, milestones, and factors that influence development, from conception through approximately 36 months. Emphasis is placed on knowledge, observation and assessment of developmental sequences in approaches to play/learning, emotional/social, health/physical, language/communication and cognitive domains. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain biological and environmental factors that impact development, and identify evidence-based strategies for enhancing development for children that are culturally, linguistically, and ability diverse. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**EDU 145 Child Development II**  
Prerequisites: Take DRE-097  
Corequisites: None  
Component: None  
This course includes the theories of child development, observation and assessment, milestones, and factors that influence development, from preschool through middle childhood. Emphasis is placed on knowledge, observation and assessment of developmental sequences in approaches to play/learning, emotional/social, health/physical, language/communication and cognitive domains. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain biological and environmental factors that impact development, and identify evidence-based strategies for enhancing development for children that are culturally, linguistically, and ability diverse. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**EDU 146 Child Guidance**  
Prerequisites: Take DRE-097  
Corequisites: None  
Component: None  
This course introduces evidence-based strategies to build nurturing relationships with each child by applying principles and practical techniques to facilitate developmentally appropriate guidance. Topics include designing responsive/supportive learning environments, cultural, linguistic and socio-economic influences on behavior, appropriate expectations, the importance of communication with children/families including using technology and the use of formative assessments in establishing intentional strategies for children with unique needs. Upon completion, students should be able to demonstrate direct/indirect strategies to encourage social skills, self-regulation, emotional expression and positive behaviors while recognizing the relationship between children’s social, emotional and cognitive development.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
This course introduces developmentally supportive creative learning environments with attention to divergent thinking, creative problem-solving, evidence-based teaching practices, and open-ended learning materials while applying NC Foundations for Early Learning and Development. Emphasis is placed on observation of process driven learning experiences in art, music, creative movement, dance, and dramatics for every young child age birth through eight, integrated through all domains and academic content. Upon completion, students should be able to examine, create, and adapt developmentally creative learning materials, experiences, and environments for children that are culturally, linguistically, and ability diverse.

EDU 151A Creative Activities Lab 00 02 00 01
Prerequisites: None
Component: None
This course provides a laboratory component to complement EDU 151. Emphasis is placed on practical experiences that enhance concepts introduced in the classroom. Upon completion, students should be able to demonstrate a practical understanding of the development and implementation of appropriate creative activities.

EDU 153 Health, Safety and Nutrition 03 00 00 03
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course covers promoting and maintaining the health and well-being of every child. Topics include health and nutritional guidelines, common childhood illnesses, maintaining safe and healthy learning environments, health benefits of active play, recognition and reporting of abuse/neglect, and state regulations. Upon completion, students should be able to apply knowledge of NC Foundations for Early Learning and Development for health, safety, nutritional needs and safe learning environments.

EDU 157 Active Play 02 02 00 03
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course introduces physical activities to promote the development of the whole child, birth through middle childhood. Topics include active play, outdoor learning, design of the environment, development of play skills, loose parts play, nature play, risk benefit assessment, advocacy, and family/community connection. Upon completion, students should be able to discuss the stages of play, the role of teachers in play, active play environments, advocate for the child’s right to play, and plan and assess appropriate experiences using NC Foundations for Early Learning and Development.

EDU 162 Observe & Assess in ECE 03 00 00 03
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course introduces the research, benefits, goals, and ethical considerations associated with observation and formative assessment in early childhood education. Emphasis is placed on the implementation of multiple observation/assessment strategies including anecdotal records, event samples, rating scales, and portfolios to create appropriate learning experiences. Upon completion, students should be able to practice responsible assessment and effectively use tools to assess the child, teacher practices and indoor and outdoor environments to enhance programming; and explain the importance of assessment partnerships with families and other professionals.

EDU 163 Classroom Mgmt and Instruction 03 00 00 03
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course examines classroom management and evidence-based instructional strategies that create supportive learning environments to provide developmentally appropriate guidance for school-age populations. Topics include classroom management and organization, teaching strategies, individual student differences and learning styles, ongoing systematic observation, and developmentally appropriate classroom guidance techniques. Upon completion, students should be able to utilize developmentally appropriate behavior management and high quality instructional strategies that enhance the teaching/learning process and promote students’ academic success.

EDU 188 Issues in Early Childhood Education 02 00 00 02
Prerequisites: Take DRE-097
Corequisites: None
Component: None
This course covers topics and issues in early childhood education. Emphasis is placed on current advocacy issues, emerging technology, professional growth experiences, and other related topics. Upon completion, students should be able to list, discuss, and explain current topics and issues in early childhood education.

EDU 216 Foundations of Education 03 00 00 03
Prerequisites: Take DRE-098
Corequisites: None
Component: None
This course introduces the examination of the American educational systems and the teaching profession. Topics include the historical and philosophical influences on education, various perspectives on educational issues, and experiences in birth through grade 12 classrooms. Upon completion, students should be able to reflect on classroom observations, analyze the different educational approaches, including classical/traditional and progressive, and have knowledge of the various roles of educational systems at the federal, state and local level. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

EDU 220 Prog Poli in Early Interv 03 00 00 03
Prerequisites: Take EDU-144 and DRE-098
Corequisites: None
Component: None
This course covers program policies, issues, legislation, and service delivery models included in early intervention. Emphasis is placed on trends and policies in early intervention relating to programs for infants and young children with disabilities, family roles, and research outcomes. Upon completion, students should be able to identify roles and responsibilities, describe the referral and placement options and explain the different service delivery models.
EDU 221 Children with Exceptionalities 03 00 00 03
Prerequisites: Take EDU 144, EDU 145, and DRE 098
Corequisites: None
Component: None
This course covers atypical patterns of child development, inclusive/diverse settings, evidenced-based educational/family plans, differentiated instruction, adaptive materials, and assistive technology. Emphasis is placed on the characteristics of exceptionalities and delays, early intervention/special education, transitions, observation, developmental screening, formative assessment of children, and collaborating with families and community partners. Upon completion, students should be able to recognize diverse abilities, describe the referral process, identify community resources, explain the importance of collaboration with families/professionals, and develop appropriate strategies/adaptations to support children in all environments with best practices as defined by laws, policies and the NC Foundations for Early Learning and Development. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

EDU 222 Learners W/ Behavior Disorders 03 00 00 03
Prerequisites: Take EDU-144, EDU-145 and DRE-098
Corequisites: None
Component: None
This course provides a comprehensive study of learners with behavioral disorders encompassing characteristics, assessments, placement alternatives, inclusive environments and family interventions. Topics include etiology of behavior disorders, appropriate intervention strategies, early intervention/special education referral processes, family and community partnerships, inclusive environments, and legislative mandates. Upon completion, students should be able to identify characteristics of behavior for which additional supports are needed, describe the referral processes, identify community resources, and the importance of collaboration with families/professionals, and recognize appropriate intervention strategies in inclusive environments.

EDU 223 Specific Learning Disab 03 00 00 03
Prerequisites: Take EDU-144, EDU-145, and DRE-098
Corequisites: None
Component: None
This course provides a comprehensive study of characteristics, alternative assessments, teaching strategies, placement options, inclusion, and family intervention for children with specific learning disabilities. Topics include causes, assessment instruments, learning strategies, and collaborative/inclusion methods for children with specific learning disabilities. Upon completion, students should be able to assist in identifying, assessing, and providing educational interventions for children with specific learning disabilities and their families.

EDU 234 Infants, Toddlers, and Twos 03 00 00 03
Prerequisites: Take EDU-119 and DRE-098
Corequisites: None
Component: None
This course covers the development of high-quality, individualized, responsive/engaging relationships and experiences for infants, toddlers, and twos. Emphasis is placed on typical and atypical child development, positive early learning experiences, supporting and engaging diverse families, providing safe, warm and nurturing interactions, and the application of the NC Foundations for Early Learning and Development. Upon completion, students should be able to demonstrate responsive planning, respectful relationships and exposure to a variety of developmentally appropriate experiences/materials that support a foundation for healthy development and growth of culturally, linguistically and ability diverse children birth to 36 months.

EDU 235 School-Age Develop & Programs 03 00 00 03
Prerequisites: Take DRE 098
Corequisites: None
Component: None
This course includes developmentally appropriate practices in group settings for school-age children. Emphasis is placed on principles of development, environmental planning, and positive guidance techniques and program development. Upon completion, students should be able to discuss developmental principles for culturally, linguistically, and ability diverse children ages five to twelve and plan and implement developmentally appropriate programs and activities.

EDU 243 Learning Theory 03 00 00 03
Prerequisites: Take DRE 098
Corequisites: None
Component: None
This course provides lateral entry teachers an introduction to learning theory, various styles of learning, and motivational factors involved in the learning process. Emphasis is placed on the development of cognitive skills using the eight types of intelligence and applying these to practical classroom situations. Upon completion, students should be able to describe theories and styles of learning and discuss the relationship between different types of intelligence to learning motivation.

EDU 245 Policies and Procedures 03 00 00 03
Prerequisites: Take DRE 098
Corequisites: None
Component: None
This course is designed to introduce new lateral entry teachers to the policies and procedures established by the local education agency. Topics include emergency situation procedures, acceptable discipline, chain of command, role of mentors, evaluation procedures, employment requirements, dress codes, and other policies and procedures. Upon completion, students should be able to explain the policies and procedures to students, parents, or others and discuss the purpose of each policy category.

EDU 247 Sensory & Physical Disab 03 00 00 03
Prerequisites: Take EDU-144, EDU-145 and DRE 098
Corequisites: None
Component: None
This course covers characteristics, intervention strategies, assistive technologies, and inclusive practices for children with sensory and physical disabilities. Topics include inclusive placement options, utilization of support services, other health impairments and family involvement for children with sensory and physical disabilities. Upon completion, students should be able to identify and utilize intervention strategies and service delivery options for those specific disabilities.

EDU 248 Developmental Delays 03 00 00 03
Prerequisites: Take EDU-144, EDU-145 and DRE 098
Corequisites: None
Component: None
This course covers the causes and assessment of developmental delays and individualized instruction and curriculum for children with developmental delays. Emphasis is placed on definition, characteristics, assessment, educational strategies, inclusion, family involvement, and services for children with developmental delays. Upon completion, students should be able to identify, assess, and plan educational intervention strategies for children with developmental delays and their families.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
EDU 259 Curriculum Planning 03 00 00 03
Prerequisites: Take EDU-119 and DRE-098
Corequisites: None
Component: None
This course is designed to focus on using content knowledge to build developmentally effective approaches for culturally/linguistically/ability diverse young children. Topics include components of curriculum, a variety of curriculum models, authentic observation and assessment, and planning developmentally appropriate experiences aligned with the NC Foundations for Early Learning and Development. Upon completion, students should be able to understand, evaluate, and use curriculum to plan for individual/group needs.

EDU 260 Teacher Licensure Preparation 03 00 00 03
Prerequisites: Take ENG-111 and MAT-143 or MAT-152 or MAT-171
Corequisites: None
Component: None
This course provides information and strategies necessary for transfer to a teacher licensure program at a senior institution. Topics include entry level teacher licensure exam preparation, performance based assessment systems, requirements for entry into teacher education programs, the process to become a licensed teacher in North Carolina, and professionalism including expectations within the field of education. Upon completion, students should be able to utilize educational terminology and demonstrate knowledge of teacher licensure processes including exam preparation, technology based portfolio assessment, and secondary admissions processes to the school of education at a senior institution.

EDU 265 Inst Strategies/Science 02 02 00 03
Prerequisites: Take DRE 098
Corequisites: None
Component: None
This course covers objectives, content, materials, and instructional approaches to social studies. Topics include the integration of history, geography, economics, and government materials; research/study techniques; and critical thinking. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate experiences as it relates to the NC Standard Course of Study.

EDU 266 Inst Strategies/Math 02 02 00 03
Prerequisites: Take One Set: DMA-010, DMA-020, and DMA-030 or DMA-025
Corequisites: Take DRE-098
Component: None
This course covers concepts, activities, methods, and materials for teaching mathematics in elementary through middle school grades. Topics include individual instruction, developmental skill building, manipulatives, problem solving, critical thinking and numerical concepts. Upon completion, students should be able to assess, plan, implement and evaluate developmentally appropriate math experiences relating to the NC Standard Course of Study.

EDU 267 Inst Strategies/Social Studies 02 02 00 03
Prerequisites: Take DRE-098
Corequisites: None
Component: None
This course covers objectives, content, materials, and instructional approaches to natural sciences for elementary through middle grades. Topics include classroom and laboratory science experiences, research/study techniques, and critical thinking. Upon completion, students should be able to assess/plan/implement/evaluate developmentally appropriate science experiences as it relates to the North Carolina Standard Course of Study.

EDU 268 Inst Strategies/Science 02 02 00 03
Prerequisites: Take DRE-098
Corequisites: None
Component: None
This course covers objectives, content, materials, and instructional approaches to social studies. Topics include the integration of history, geography, economics, and government materials; research/study techniques; and critical thinking. Upon completion, students should be able to assess, plan, implement, and evaluate developmentally appropriate experiences as it relates to the NC Standard Course of Study.

EDU 275 Effective Teacher Training 02 00 00 02
Prerequisites: Take DRE-098
Corequisites: None
Component: None
This course provides specialized training using an experienced-based approach to learning. Topics include instructional preparation and presentation, student interaction, time management, learning expectations, evaluation, and curriculum principles and planning. Upon completion, students should be able to prepare and present a six-step lesson plan and demonstrate ways to improve students’ time-on-task.

EDU 276 School-Age Program Admin 02 00 00 02
Prerequisites: Take DRE-098
Corequisites: None
Component: None
This course introduces the methods and procedures for development and administration of school-age programs in the public or proprietary setting. Emphasis is placed on the construction and organization of the physical environment. Upon completion, students should be able to plan, develop and administer a quality school-age program.

EDU 277 Educational Technology 02 02 00 03
Prerequisites: Take DRE-098
Corequisites: None
Component: None
This course introduces the ethical use of technology to enhance teaching and learning in all educational settings. Emphasis is placed on technology concepts, ethical issues, digital citizenship, instructional strategies, assistive technology, and the use of technology for professional development and communication. Upon completion, students should be able to discuss technology concepts, ethically use a variety of technology resources, demonstrate appropriate technology skills in educational environments, and identify assistive technology.

EDU 278 Early Childhood Administration I 03 00 00 03
Prerequisites: Take DRE-098
Corequisites: Take EDU 119
Component: None
This course introduces principles and practices essential to preparing and supporting child care administrators. Topics include program philosophy, policies and procedures, NC Child Care Law and Rules, business planning, personnel and fiscal management, and NAEYC Code of Ethical Conduct Supplement for Early Childhood Program Administration. Upon completion, students should be able to articulate a developmentally appropriate program philosophy, locate current state licensing regulations, analyze a business plan and examine comprehensive program policies and procedures.

EDU 279 Early Childhood Administration II 03 00 00 03
Prerequisites: Take EDU-119, EDU-261, and DRE-098
Corequisites: None
Component: None
This course focuses on advocacy/leadership, public relations/ community outreach and program quality/evaluation for diverse early childhood programs. Topics include program evaluation/accreditation, involvement in early childhood professional organizations, leadership/mentoring, family, volunteer and community involvement and early childhood advocacy. Upon completion, students should be able to define and evaluate all components of early childhood programs, develop strategies for advocacy and integrate community into programs.

EDU 280 Early Childhood Administration III 03 00 00 03
Prerequisites: Take DRE-098
Corequisites: None
Component: None
This course introduces the ethical use of technology to enhance teaching and learning in all educational settings. Emphasis is placed on technology concepts, ethical issues, digital citizenship, instructional strategies, assistive technology, and the use of technology for professional development and communication. Upon completion, students should be able to discuss technology concepts, ethically use a variety of technology resources, demonstrate appropriate technology skills in educational environments, and identify assistive technology.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course provides evidence-based strategies for enhancing language and literacy experiences that align with NC Foundations for Early Learning and Development. Topics include developmental sequences for children’s emergent receptive and expressive language, print concepts, appropriate observations/assessments, literacy enriched environments, quality selection of diverse literature, interactive media, and inclusive practices. Upon completion, students should be able to select, plan, implement and evaluate developmentally appropriate language and literacy experiences for children who are culturally, linguistically and ability diverse.

EDU 280 Language/Literacy Experiences
Prerequisites: Take DRE-098
Corequisites: None
Component: None
This course covers concepts, resources, and methods for teaching reading and writing to elementary through middle-grade children. Topics include the importance of literacy, learning styles, skills assessment, various reading and writing approaches and instructional strategies. Upon completion, students should be able to assess, plan, implement and evaluate school-age literacy experiences as related to the North Carolina Standard Course of Study. This course is also available through the Virtual Learning Community (VLC).

EDU 281 Instruct Strat/Read & Writ
Prerequisites: Take DRE-098
Corequisites: None
Component: None
This course covers the history, selection, and integration of literature and language in the early childhood curriculum. Topics include the history and selection of developmentally appropriate children’s literature and the use of books and other media to enhance language and literacy in the classroom. Upon completion, students should be able to select appropriate books for storytelling, reading aloud, puppetry, flannel board use, and other techniques for children who are culturally, linguistically, and ability diverse.

EDU 282 Early Childhood Literature
Prerequisites: Take DRE-098
Corequisites: None
Component: None
This course covers the history, selection, and integration of literature and language in the early childhood curriculum. Topics include the history and selection of developmentally appropriate children’s literature and the use of books and other media to enhance language and literacy in the classroom. Upon completion, students should be able to select appropriate books for storytelling, reading aloud, puppetry, flannel board use, and other techniques for children who are culturally, linguistically, and ability diverse.

EDU 284 Early Child Capstone Prac
Prerequisites: Take EDU 119, EDU 144, EDU 145, EDU 146, EDU 151 and DRE-098
Corequisites: None
Component: None
This course is designed to allow students to demonstrate acquired skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/engaging families; and modeling reflective and professional practices based on national and state guidelines. Upon completion, students should be able to demonstrate developmentally appropriate lesson plans/assessments, appropriate guidance techniques, ethical/professional behaviors including the use of appropriate technology, as indicated by assignments and onsite faculty visits.

EDU 285 Internship Exp-School Age
Prerequisites: Take EDU-118, EDU-144, EDU-145, EDU-163 and DRE-098
Corequisites: None
Component: None
This course is designed to allow students to demonstrate acquired skills in a quality public or private school environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/engaging families; and modeling reflective and professional practices based on national and state guidelines. Upon completion, students should be able to demonstrate developmentally appropriate lesson plans/assessments, appropriate guidance techniques, ethical/professional behaviors including the use of appropriate technology, as indicated by assignments and onsite faculty visits.

EDU 289 Adv Issues/School Age
Prerequisites: Take DRE-098
Corequisites: None
Component: None
This course covers advanced topics and issues that relate to school-age programs. Emphasis is placed on current advocacy issues, emerging technology, professional growth, ethics, and organizations for providers/teachers working with school-age populations. Upon completion, students should be able to list, discuss, and explain advanced current topics and issues surrounding school-aged populations.

EDU 298 Seminar in Early Childhood
Prerequisites: Enrollment in program
Corequisites: None
Component: None
This course provides an opportunity to explore topics of current interest. Emphasis is placed on the development of critical listening skills and the presentation of seminar topics. Upon completion, students should be able to critically analyze issues and establish informed opinions.

EGR 115 Introduction to Technology
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic skills and career fields for technicians. Topics include career options, technical vocabulary, dimensional analysis, measurement systems, engineering graphics, calculator applications, professional ethics, safety practices, and other related topics. Upon completion, students should be able to demonstrate an understanding of the basic technologies, prepare drawings and sketches, and perform computations using a scientific calculator.

EGR 120 Eng and Design Graphics
Prerequisites: None
Corequisites: None
Component: None
This course introduces the graphical tools for engineering and design communications. Emphasis is placed upon selecting the appropriate methods and tools and conveying ideas using sketches, orthographic views and projections, and computer graphics applications. Upon completion, students should be able to communicate essential features or two-dimensional and three-dimensional objects using the proper tools and methods. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

This course is an overview of the engineering profession. Topics include goal setting and career assessment, ethics, public safety, the engineering method and design process, written and oral communication, interpersonal skills and team building, and computer applications. Upon completion, students should be able to understand the engineering process, the engineering profession, and utilize college resources to meet their educational goals. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

This course provides an introduction to digital circuits and analysis. Topics include Boolean Algebra; mixed logic; design of combinational circuits; introduction to sequential systems; and MSI building blocks. Upon completion, students should be able to analyze digital circuits and systems. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

This course introduces the concepts of engineering based on forces in equilibrium. Topics include concentrated forces, distributed forces, forces due to friction, and inertia as they apply to machines, structures, and systems. Upon completion, students should be able to solve problems which require the ability to analyze systems of forces in static equilibrium. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

This course provides an introduction to Kirchoff’s laws and terminal equations, circuit analysis techniques and network theorems, transient and natural response, and state variable analysis. Topics include Kirchoff’s laws, Ohm’s law, circuit analysis techniques, Network theorems, singularity functions, transient and natural responses, power, and state variable analysis. Upon completion, students should be able to analyze electric circuits involving capacitors, inductors, and resistors to determine required parameters. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

This course provides laboratory experiments in network measurements and logic design and laboratory equipment and techniques. Topics include network measurement and applications, experimental logic design and introduction to laboratory equipment and techniques. Upon completion, students should be able to complete network measurement logic design and be able to use laboratory equipment with proper techniques. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

This course includes vector analysis, equilibrium of force systems, free-body diagrams, shear and moment diagrams, trusses, frames, beams, columns, connections, and combined stresses. Upon completion, students should be able to analyze solids subject to various forces and design systems using a variety of materials. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

This course provides an introduction to engineering theory of deformable solids and applications. Topics include stress and deformation resulting from axial, torsion, and bending loads; shear and moment diagrams; Mohr’s circle of stress; and strain and buckling of columns. Upon completion, students should be able to analyze solids subject to various forces and design systems using a variety of materials. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

This course introduces the concepts of engineering based on the analysis of motion in Cartesian, cylindrical, and spherical coordinate systems. Topics include the two and three dimensional motion of particles and rigid bodies, the forces associated with that motion, and relative motion between coordinate systems. Upon completion, students should be able to solve problems which require the ability to analyze the motion and forces involved in a dynamic system. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
ELC 112 DC/AC Electricity
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental concepts of and computations related to DC/AC electricity. Emphasis is placed on DC/AC circuits, components, operation of test equipment; and other related topics. Upon completion, students should be able to construct, verify, and analyze simple DC/AC circuits.

ELC 113 Residential Wiring
Prerequisites: None
Corequisites: None
Component: None
This course introduces the care/usage of tools and materials used in residential electrical installations and the requirements of the National Electrical Code. Topics include NEC, electrical safety, and electrical print reading; planning, layout; and installation of electrical distribution equipment; lighting; overcurrent protection; conductors; branch circuits; and conduits. Upon completion, students should be able to properly install conduits, wiring, and electrical distribution equipment associated with residential electrical installations.

ELC 114 Commercial Wiring
Prerequisites: None
Corequisites: None
Component: None
This course provides instruction in the application of electrical tools, materials, and test equipment associated with commercial electrical installations. Topics include the NEC; safety; electrical blueprints; planning, layout, and installation of equipment and conduits; and wiring devices such as panels and overcurrent devices. Upon completion, students should be able to properly install equipment and conduit associated with commercial electrical installations.

ELC 117 Motors and Controls
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamental concepts of motors and motor controls. Topics include ladder diagrams, pilot devices, contactors, motor starters, motors, and other control devices. Upon completion, students should be able to properly select, connect, and troubleshoot motors and control circuits.

ELC 118 National Electrical Code
Prerequisites: None
Corequisites: None
Component: None
This course covers the use of the current National Electrical Code. Topics include the NEC history, wiring methods, overcurrent protection, materials, and other related topics. Upon completion, students should be able to effectively use the NEC.

ELC 119 NEC Calculations
Prerequisites: None
Corequisites: None
Component: None
This course covers branch circuit, feeder, and service calculations. Emphasis is placed on sections of the National Electrical Code related to calculations. Upon completion, students should be able to use appropriate code sections to size wire, conduit, and overcurrent devices for branch circuits, feeders, and service.

ELC 121 Electrical Estimating
Prerequisites: None
This course covers the principles involved in estimating electrical projects. Topics include take-offs of materials and equipment, labor, overhead, and profit. Upon completion, students should be able to estimate simple electrical projects.

ELC 128 Intro to PLC
Prerequisites: None
Corequisites: None
Component: None
This course introduces the programmable logic controller (PLC) and its associated applications. Topics include ladder logic diagrams, input/output modules, power supplies, surge protection, selection/installation of controllers, and interfacing of controllers with equipment. Upon completion, students should be able to understand basic PLC systems and create simple programs.

ELC 131 Circuit Analysis I
Prerequisites: Take DMA-080 or DMA-065 or Placement Test Credit Equivalent.
Corequisites: Take ELC-131A
Component: None
This course introduces DC and AC electricity with an emphasis on circuit analysis, measurements, and operation of test equipment. Topics include DC and AC principles, circuit analysis laws and theorems, components, test equipment operation, circuit simulation, and other related topics. Upon completion, students should be able to interpret circuit schematics; design, construct, verify, and analyze DC/AC circuits; and properly use test equipment.

ELC 131A Circuit Analysis I Lab
Prerequisites: None
Corequisites: Take ELC 131
Component: None
This course provides laboratory assignments as applied to fundamental principles of DC/AC electricity. Emphasis is placed on measurements and evaluation of electrical components, devices and circuits. Upon completion, the students will gain hands-on experience by measuring voltage, current, and opposition to current flow utilizing various meters and test equipment.

ELC 220 Photovoltaic Sys Tech
Prerequisites: None
Corequisites: None
Component: None
This course introduces the concepts, tools, techniques, and materials needed to understand systems that convert solar energy into electricity with photovoltaic (pv) technologies. Topics include site analysis for system integration, building codes, and advances in photovoltaic technology. Upon completion, students should be able to demonstrate an understanding of the principles of photovoltaic technology and current applications.

ELC 221 Adv PV Sys Designs
Prerequisites: Take ELC-220
Corequisites: None
Component: None
This course introduces specific elements in photovoltaic (pv) systems technologies including efficiency, modules, inverters, charge controllers, batteries, and system installation. Topics include National Electrical Code (NEC), electrical specifications, photovoltaic system components, array design and power integration requirements that combine to form a unified structure. Upon completion, students should be able to demonstrate an understanding of various photovoltaic designs and proper installation of NEC compliant solar electric power systems.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
ELC 228 PLC Applications
Prerequisites: None
Corequisites: None
Component:
This course covers programming and applications of programmable logic controllers. Emphasis is placed on programming techniques, networking, specialty I/O modules, and system troubleshooting. Upon completion, students should be able to specify, implement, and maintain complex PLC controlled systems.

ELC 229 Applications Project
Prerequisites: None
Corequisites: None
Component: None
This course provides an individual and/or integrated team approach to a practical project as approved by the instructor. Topics include project selection and planning, implementation and testing, and a final presentation. Upon completion, students should be able to plan and implement an applications-oriented project.

ELC 230 Wind & Hydro Power Sys
Prerequisites: Take ELN-249, ELN-260, and CSC-233 or CSC-245
Corequisites: None
Component: None
This course introduces concepts, designs, tools, techniques, and material requirements for systems that convert wind and water into usable energy. Topics include the analysis, measurement, and estimation of potential energy of wind and water systems. Upon completion, students should be able to demonstrate an understanding of the technologies associated with converting wind and water into a viable energy source.

ELC 231 Electric Power Systems
Prerequisites: Take ELN 131, ELN 133, CSC-133, and EGR-120
Corequisites: None
Component: None
This course covers the basic principles of electric power systems, including transmission lines, generator and transformer characteristics, and fault detection and correction. Emphasis is placed on line diagrams and per unit calculations for circuit performance analysis in regards to voltage regulation, power factor, and protection devices. Upon completion, students should be able to analyze simple distribution subsystems, calculate fault current, and determine the size and type of circuit protection devices.

ELN 131 Analog Electronics I
Prerequisites: Take ELC 131
Corequisites: None
Component: None
This course introduces the characteristics and applications of semiconductor devices and circuits. Emphasis is placed on analysis, selection, biasing, and applications. Upon completion, students should be able to construct, analyze, verify, and troubleshoot analog circuits using appropriate techniques and test equipment.

ELN 132 Linear IC Applications
Prerequisites: Take ELN 131
Corequisites: None
Component: None
This course introduces the characteristics and applications of linear integrated circuits. Topics include op-amp circuits, waveform generators, active filters, IC voltage regulators, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot linear integrated circuits using appropriate techniques and test equipment.

ELN 133 Digital Electronics
Prerequisites: Take ELC 131
Corequisites: None
Component: None
This course covers combinational and sequential logic circuits. Topics include number systems, Boolean algebra, logic families, medium scale integration (MSI) and large scale integration (LSI) circuits, analog to digital (AD) and digital to analog (DA) conversion, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot digital circuits using appropriate techniques and test equipment.

ELN 150 CAD for Electronics
Prerequisites: Take CIS 111 or CIS 110
Corequisites: None
Component: None
This course introduces computer-aided drafting (CAD) with an emphasis on applications in the electronics field. Topics include electronics industry standards (symbols, schematic diagrams, layouts); drawing electronic circuit diagrams; and specialized electronic drafting practices and components such as resistors, capacitors, and ICs. Upon completion, students should be able to prepare electronic drawings with CAD software.

ELN 152 Fabrication Techniques
Prerequisites: Take ELC-231 and ELN-232
Corequisites: Take ELN-249
Component: None
This course covers the fabrication methods required to create a prototype product from the initial circuit design. Topics include CAD, layout, sheet metal working, component selection, PC board layout and construction, reverse engineering, soldering, and other related topics. Upon completion, students should be able to design and construct an electronic product with all its associated documentation.

ELN 232 Intro to Microprocessors
Prerequisites: Take CSC 133, ELN 131, and ELN 133
Corequisites: None
Component: None
This course introduces microprocessor architecture and microcomputer systems including memory and input/output interfacing. Topics include low-level language programming, bus architecture, I/O systems, memory systems, interrupts, and other related topics. Upon completion, students should be able to interpret, analyze, verify, and troubleshoot fundamental microprocessor circuits and programs using appropriate techniques and test equipment.

ELN 235 Data Communication Sys
Prerequisites: Take ELN-232 and CSC-233 or CSC-245
Corequisites: None
Component: None
This course covers data communication systems and the transmission of digital information from source to destination. Topics include data transmission systems, interfaces and modems, protocols, networks, and other related topics. Upon completion, students should be able to demonstrate knowledge of the concepts associated with data communication systems. This course will include Internet/Socket programming in C/C++ on the pc as well as Microchip ASM programming on the PIC Microcontroller.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
ELN 249 Digital Communication  02  03  00  03
Prerequisites: Take CSC-133, ELC-231, ELN-232, and EGR-120
Corequisites: None
Component: None
This course covers the core processes and applications associated with digital communication techniques. Topics include the characteristics of RF circuits, modulation, transmitters and receivers, electromagnetic transmission, antennas, and related applications. Upon completion, students should be able to demonstrate knowledge of the concepts associated with digital communication systems.

ELN 260 Prog Logic Controllers  03  03  00  04
Prerequisites: Take CSC-133, ELC-231, and ELN-232
Corequisites: None
Component: None
This course provides a detailed study of PLC applications, with a focus on design of industrial controls using the PLC. Topics include PLC components, memory organization, math instructions, documentation, input/output devices, and applying PLCs in industrial control systems. Upon completion, students should be able to select and program a PLC system to perform a wide variety of industrial control functions.

EMS 110 EMT  06  06  00  08
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course introduces basic emergency medical care. Topics include preparatory, airway, patient assessment, medical emergencies, trauma, infants and children, and operations. Upon completion, students should be able to demonstrate the knowledge and skills necessary to achieve North Carolina State or National Registry EMT certification.

EMS 115 Defense Tactics for EMS  01  03  00  02
Prerequisites: Department Approval
Corequisites: None
Component: None
This course is designed to provide tactics that can be used for self-protection in dangerous and violent situations. Emphasis is placed on prediction, recognition, and response to dangerous and violent situations. Upon completion, students should be able to recognize potentially hostile situations and protect themselves during a confrontation.

EMS 122 EMS Clinical Practicum I  00  00  03  01
Prerequisites: Take EMS-110
Corequisites: Take EMS-130
Component: None
This course provides the introductory hospital clinical experience for the paramedic student. Emphasis is placed on mastering fundamental paramedic skills. Upon completion, students should be able to demonstrate competence with fundamental paramedic level skills.

EMS 125 EMS Instructor Methodology  01  02  00  02
Prerequisites: None
Corequisites: None
Component: None
This course covers the information needed to develop and instruct EMS courses. Topics include instructional methods, lesson plan development, time management skills, and theories of adult learning. Upon completion, students should be able to teach EMS courses and meet the North Carolina EMS requirements for instructor methodology.

EMS 130 Pharmacology  03  03  00  04
Prerequisites: Take EMS 110
Corequisites: Take EMS-122
Component: None
This course introduces the fundamental principles of pharmacology and medication administration and is required for paramedic certification.

Topics include medical terminology, pharmacological concepts, weights, measures, drug calculations, vascular access for fluids and medication administration and legislation. Upon completion, students should be able to accurately calculate drug dosages, properly administer medications, and demonstrate general knowledge of pharmacology.

EMS 131 Advanced Airway Management  01  02  00  02
Prerequisites: Take EMS 110
Corequisites: None
Component: None
This course is designed to provide advanced airway management techniques and is required for paramedic certification. Topics include respiratory anatomy and physiology, airway/ventilation, adjuncts, surgical intervention, and rapid sequence intubation. Upon completion, students should be able to properly utilize all airway adjuncts and pharmacology associated with airway control and maintenance.

EMS 140 Rescue Scene Management  01  03  00  02
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course introduces rescue scene management. Topics include response to hazardous material conditions, incident command, and extraction of patients from a variety of situations. Upon completion, students should be able to recognize and manage rescue operations based upon initial and follow-up scene assessment.

EMS 140 Cardiology I  01  03  00  02
Prerequisites: Take EMS-110
Corequisites: None
Component: None
This course introduces the study of cardiovascular emergencies and is required for paramedic certification. Topics include anatomy and physiology, pathophysiology, electrophysiology, and basic rhythm interpretation in the monitoring leads. Upon completion, students should be able to recognize and interpret basic rhythms.

EMS 220 Cardiology II  02  03  00  03
Prerequisites: All courses required: EMS-122, EMS-130, and EMS-160
Corequisites: None
Component: None
This course provides an in-depth study of cardiovascular emergencies and is required for paramedic certification. Topics include assessment and treatment of cardiac emergencies, application and interpretation of advanced electrocardiography utilizing the twelve-lead ECG, cardiac pharmacology, and patient care. Upon completion, students should be able to assess and treat patients utilizing American Heart Association guidelines.

EMS 221 EMS Clinical Practicum II  00  00  06  02
Prerequisites: Take All: EMS-122 and EMS-130
Corequisites: None
Component: None
This course provides clinical experiences in the hospital and/or field. Emphasis is placed on increasing the proficiency of students’ skills and abilities in patient assessments and the delivery of care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care.

EMS 231 EMS Clinical Practicum III  00  00  09  03
Prerequisites: Take All: EMS-130 and EMS-221
Corequisites: None
Component: None
This course provides clinical experiences in the hospital and/or field. Emphasis is placed on enhancing the students’ skills and abilities in providing advanced-level care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
EMS 235 EMS Management
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course stresses the principles of managing a modern emergency medical service system. Topics include structure and function of municipal governments, EMS grantmanship, finance, regulatory agencies, system management, legal issues, and other topics relevant to the EMS manager. Upon completion, students should be able to understand the principles of managing emergency medical service delivery systems.

EMS 240 Special Needs Patients
Prerequisites: Take All: EMS-122 and EMS-130
Corequisites: None
Component: None
This course includes concepts of crisis intervention and techniques of interacting with patients with special challenges and is required for paramedic certification. Topics include appropriate intervention and interaction for neglected, abused, terminally ill, chronically ill, technology assisted, bariatric, physically challenged, mentally challenged, or assaulted patients as well as behavioral emergencies. Upon completion, students should be able to recognize and manage the care of patients with special challenges.

EMS 241 EMS Clinical Practicum IV
Prerequisites: Take All: EMS-130 and EMS-231
Corequisites: None
Component: None
This course provides clinical experiences in the hospital and/or field. Emphasis is placed on mastering the skills/competencies required of the paramedic providing advanced-level care. Upon completion, students should be able to provide advanced-level patient care as an entry-level paramedic.

EMS 250 Advanced Medical Emergency
Prerequisites: Take All: EMS-122 and EMS-130
Corequisites: None
Component: None
This course provides an in-depth study of medical conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include appropriate interventions/treatments for disorders/diseases/injuries affecting the following systems: respiratory, neurological, abdominal/gastrointestinal, endocrine, genitourinary, musculoskeletal, and immunological as well as toxicology, infectious diseases and diseases of the eyes, ears, nose and throat. Upon completion, students should be able to recognize, assess and manage the care of frequently encountered medical conditions based upon initial patient assessment.

EMS 260 Advanced Trauma Emergencies
Prerequisites: Take All: EMS-122 and EMS-130
Corequisites: None
Component: None
This course provides in-depth study of trauma including pharmacological interventions for conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include an overview of thoracic, abdominal, genitourinary, orthopedic, neurological, and multi-system trauma, soft tissue trauma of the head, neck, and face as well as environmental emergencies. Upon completion, students should be able to recognize and manage trauma situations based upon patient assessment and should adhere to standards of care.

EMS 270 Life Span Emergencies
Prerequisites: Take All: EMS-122 and EMS-130
Corequisites: None
Component: None
This course covers medical/ethical/legal issues and the spectrum of age-specific emergencies from conception through death required for paramedic certification. Topics include gynecological, obstetrical, neonatal, pediatric, and geriatric emergencies and pharmacological therapeutics. Upon completion, students should be able to recognize and treat age-specific emergencies.

EMS 280 EMS Bridging Course
Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course is designed to bridge the knowledge gained in a continuing education paramedic program with the knowledge gained in an EMS curriculum program. Emphasis is placed on patient assessment, advanced electrocardiography utilizing the twelve-lead ECG, advanced pharmacology, the appropriate intervention and treatment of multi-system injuries/disorders, ethics, and NC laws and rules. Upon completion, students should be able to perform advanced patient assessment and practice skills.

EMS 285 EMS Capstone
Prerequisites: All courses required: EMS 220, EMS 250 and EMS 260
Corequisites: None
Component: None
This course provides an opportunity to demonstrate problem-solving skills as a team leader in simulated patient scenarios and is required for paramedic certification. Emphasis is placed on critical thinking, integration of didactic and psychomotor skills, and effective performance in simulated emergency situations. Upon completion, students should be able to recognize and appropriately respond to a variety of EMS-related events.

ENG 101 Applied Communications I
Prerequisites: None
Corequisites: None
Component: None
This course is designed to develop informative and business writing skills. Emphasis is placed on logical organization of writing, including effective introductions and conclusions, precise use of grammar, and appropriate selection and use of sources. Upon completion, students should be able to produce clear, concise, well-organized short writings appropriate to the workplace. This course is intended for certificate and diploma programs.

ENG 110 Freshman Composition
Prerequisites: Take All: DRE-097
Corequisites: None
Component: None
This course is designed to develop informative and business writing skills. Emphasis is placed on logical organization of writing, including effective introductions and conclusions, precise use of grammar, and appropriate selection and use of sources. Upon completion, students should be able to produce clear, concise, well-organized short papers.

ENG 111 Writing and Inquiry
Prerequisites: Take DRE-098 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course is designed to develop the ability to produce clear writing in a variety of genres and formats using a recursive process. Emphasis includes inquiry, analysis, effective use of rhetorical strategies, thesis development, audience awareness, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. This course has been approved for transfer under the CAA as a general education course in English Composition. This course has been approved for transfer under the ICAA as a general education course in English Composition. This is a Universal General Education Transfer Component (UGETC) course.

ENG 125 Creative Writing I 03 00 00 03
Prerequisites: Take ENG 111
Corequisites: None
Component: None
This course is designed to provide students with the opportunity to practice the art of creative writing. Emphasis is placed on writing, fiction, poetry, and sketches. Upon completion, students should be able to craft and critique their own writing and critique the writing of others. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ENG 126 Creative Writing II 03 00 00 03
Prerequisites: Take ENG 125
Corequisites: None
Component: None
This course is designed as a workshop approach for advancing imaginative and literary skills. Emphasis is placed on the discussion of style, techniques, and challenges for first publications. Upon completion, students should be able to submit a piece of their writing for publication. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

ENG 131 Introduction to Literature 03 00 00 03
Prerequisites: Take ENG 111
Corequisites: One course required: ENG 112, ENG 113, or ENG 114
Component: None
This course introduces the principal genres of literature. Emphasis is placed on literary terminology, devices, structure, and interpretation. Upon completion, students should be able to analyze and respond to literature. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

ENG 231 American Literature I 03 00 00 03
Prerequisites: One course required: ENG 112, ENG 113, or ENG 114
Corequisites: None
Component: None
This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to analyze and interpret literary works in their historical and cultural contexts. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

ENG 232 American Literature II 03 00 00 03
Prerequisites: Take one: ENG 112, ENG 113 or ENG 114
Corequisites: None
Component: None
This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to analyze and interpret literary works in their historical and cultural contexts. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

**ENG 233 Major American Writers**  
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Corequisites: None  
Component: None  
This course provides an intensive study of the works of several major American authors. Emphasis is placed on American history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**ENG 241 British Literature I**  
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Corequisites: None  
Component: None  
This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

**ENG 242 British Literature II**  
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Corequisites: None  
Component: None  
This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

**ENG 243 Major British Writers**  
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Corequisites: None  
Component: None  
This course provides an intensive study of the works of several major British authors. Emphasis is placed on British history, culture, and the literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**ENG 251 Western World Literature I**  
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Corequisites: None  
Component: None  
This course provides a survey of selected European works from the Classical period through the Renaissance. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**ENG 252 Western World Literature II**  
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Corequisites: None  
Component: None  
This course provides a survey of selected European works from the Neoclassical period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**ENG 253 The Bible as Literature**  
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Corequisites: None  
Component: None  
This course introduces the Hebrew Old Testament and the Christian New Testament as works of literary art. Emphasis is placed on the Bible’s literary aspects including history, composition, structure, and cultural contexts. Upon completion, students should be able to identify and analyze selected books and passages using appropriate literary conventions. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**ENG 261 World Literature I**  
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Corequisites: None  
Component: None  
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from their literary beginnings through the seventeenth century. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**ENG 262 World Literature II**  
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Corequisites: None  
Component: None  
This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from the eighteenth century to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**ENG 263 Contemporary Literature**  
Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Corequisites: None  
Component: None  
This course includes a study of contemporary literature. Emphasis is placed on literary and cultural trends of selected texts. Upon completion, students should be able to interpret, analyze, and respond to the literature. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.
### ENG 272 Southern Literature

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Corequisites: None  
Component: None  
This course provides an analytical study of the works of several Southern authors. Emphasis is placed on the historical and cultural contexts, themes, aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### ENG 273 African-American Literature

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Corequisites: None  
Component: None  
This course provides a survey of the development of African-American literature from its beginnings to the present. Emphasis is placed on historical and cultural context, themes, literary traditions, and backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and respond to selected texts. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### ENG 274 Literature by Women

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Corequisites: None  
Component: None  
This course provides an analytical study of the works of several women authors. Emphasis is placed on the historical and cultural contexts, themes, and aesthetic features of individual works, and biographical backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and discuss selected works. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### ENG 275 Science Fiction

Prerequisites: One course required: ENG 112, ENG 113 or ENG 114  
Corequisites: None  
Component: None  
This course covers the relationships between science and literature through analysis of short stories and novels. Emphasis is placed on scientific discoveries that shaped Western culture and our changing view of the universe as reflected in science fiction literature. Upon completion, students should be able to trace major themes and ideas and illustrate relationships between science, world view, and science fiction literature. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### EPT 120 Sociology of Disaster

Prerequisites: None  
Corequisites: None  
Component: None  
This course is designed to overview sociological disaster research, disaster systems, and alternative research approaches. Topics include human and organizational behaviors, long term disaster impact on communities, disaster warning, and evacuation considerations. Upon completion, students should be able to assess and predict the impact of disaster-related human behavior.

### EPT 124 EM Services Law & Ethics

Prerequisites: None  
Corequisites: None  
Component: None  
This course covers federal and state laws that affect emergency service personnel in the event of a natural disaster or terrorist incident. Topics include initial response and long-term management strategies, with an emphasis on legal and ethical considerations and coordination between local, state, and federal agencies. Upon completion, students should have an understanding of the role of private industry, government agencies, public policies, and federal/state declarations of disasters in emergency situations.

### EPT 130 Mitigation & Preparedness

Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the mitigation and preparation techniques and methods necessary to minimize the impact of natural, technological, and man-made disasters. Topics include hazard identification and mapping, design and construction applications, financial incentives, insurance, structural controls, preparation, planning, assessment, implementation, and exercises. Upon completion students should be able to develop a mitigation and preparedness plan.

### EPT 140 Emergency Management

Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the four phases of emergency management: mitigation, preparedness, response, and recovery. Topics include organizing for emergency management, coordinating for community resources, public sector liability, and the roles of government agencies at all levels. Upon completion, students should be able to demonstrate an understanding of comprehensive emergency management and the integrated emergency management system.

### EPT 150 EMS Incident Management

Prerequisites: None  
Corequisites: None  
Component: None  
This course covers the fully integrated incident management system for EMS response to high impact incidents. Topics include mass casualty incidents, terrorists events, communications, training, triage, law and fire incident command. Upon completion, students should be able to implement and operate within the National Incident Management System.

### EPT 210 Response & Recovery

Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the basic concepts, operational procedures, and authorities involved in response and recovery efforts to major disasters. Topics include federal, state, and local roles and responsibilities in major disaster response and recovery work, with an emphasis on governmental coordination. Upon completion, students should be able to implement a disaster response plan and assess the needs of those involved in a major disaster.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
EPT 220 Terrorism and Emer. Mgt. 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers preparing for, responding to, and safely mitigating terrorism incidents. Topic include the history of terrorism, scene hazards, evidence preservation, risk assessment, roles and responsibilities, explosive recognition, and terrorism planning. Upon completion, students should be able to recognize the threat of terrorism and operate within the emergency management framework at a terrorism incident.

EPT 275 Emergency OPS Center Mgt 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides students with the knowledge and skills to effectively manage and operate an EOC during crisis situations. Topics include properly locating and designing an EOC, staffing, training and briefing EOC personnel, and how to operate an EOC. Upon completion, students should be able to demonstrate how to set up and operate an effective emergency operations center.

ETR 215 Law for Entrepreneurs 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces students to basic legal concepts specifically relevant to a business start-up venture. Topics include bailments and documents of title, nature and form of sales, risk and property rights, obligations and performance, business organizations, and agency and employment. Upon completion, students should be able to assess the legal responsibilities of a business start-up.

ETR 220 Innovation and Creativity 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides a study of developing and enhancing individual and organizational creativity and innovation. Topics include that innovation needs to be applied to products, services, and processes to increase competitive advantages and add value to businesses. Upon completion, students should be able to apply innovation and creativity principles in the work place.

ETR 230 Entrepreneur Marketing 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the techniques to correctly research and define the target market to increase sales for start up businesses or to expand current businesses. Topics include how to target market and meet customers’ needs with a limited budget in the early stages of the life of a start up business. Upon completion, students should be able to demonstrate an understanding of how to correctly target market for a start-up business with limited resources.

ETR 240 Funding for Entrepreneurs 03 00 00 03
Prerequisites: Take ACC 120
Corequisites: None
Component: None
This course provides a focus on the financial issues and needs confronting entrepreneurs attempting to grow their businesses by attracting startup and growth capital. Topics include sources of funding including: angel investors, venture capital, IPO’s, private placement, banks, suppliers, buyers, partners, and the government. Upon completion, students should be able to demonstrate an understanding of how to effectively finance a business venture.

ETR 270 Entrepreneurship Issues 03 00 00 03
Prerequisites: Take BUS-245
Corequisites: None
Component: None
This course introduces current and emerging entrepreneurship issues and opportunities. Topics include franchising, import/export, small business taxes, legal structures, negotiations, contract management, and time management. Upon completion, students should be able to apply a variety of analytical and decision-making requirements to start a new business.

FIP 120 Intro to Fire Protection 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of the development, methods, systems and regulations that apply to the fire protection field. Topics include history, evolution, statistics, suppression, organizations, careers, curriculum, and related subjects. Upon completion, students should be able to demonstrate a broad understanding of the fire protection field.

FIP 124 Fire Prevention & Public Ed 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces fire prevention concepts as they relate to community and industrial operations referenced in NFPA standard 101. Topics include the development and maintenance of fire prevention programs, educational programs, and inspection programs. Upon completion, students should be able to research, develop, and present a fire safety program to a citizens or industrial group.

FIP 128 Detection & Investigation 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers procedures for determining the origin and cause of accidental and incendiary fires referenced in NFPA standard 921. Topics include collection and preservation of evidence, detection and determination of accelerants, courtroom procedure and testimony, and documentation of the fire scene. Upon completion, students should be able to conduct a competent fire investigation and present those findings to appropriate officials or equivalent. This course is also available through the Virtual Learning Community (VLC).

FIP 132 Building Construction 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the principles and practices reference in NFPA standard 220 related to various types of building construction, including residential and commercial, as impacted by fire conditions. Topics include types of construction and related elements, fire resistive aspects of construction materials, building codes, collapse, and other related topics. Upon completion, students should be able to understand and recognize various types of construction and their positive or negative aspects as related to fire conditions.

FIP 136 Inspections & Codes 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course covers the fundamentals of fire and building codes and procedures to conduct an inspection referenced in NFPA standard 1730. Topics include review of fire and building codes, writing inspection reports, identifying hazards, plan reviews, site sketches, and other related topics. Upon completion, students should be able to conduct a fire code compliance inspection and produce a written report.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
FIP 140 Industrial Fire Protect
Prerequisites: None
Corequisites: None
Component: None
This course covers fire protection systems in industrial facilities referenced in NFPA standard 1. Topics include applicable health and safety standards, insurance carrier regulations, other regulatory agencies, hazards of local industries, fire brigade operation, and loss prevention programs. Upon completion, students should be able to plan and evaluate an industrial facility’s fire protection program.

FIP 152 Fire Protection Law
Prerequisites: None
Corequisites: None
Component: None
This course covers fire protection law as referenced in NFPA standard 1. Topics include legal terms, contracts, liability, review of case histories, and other related topics. Upon completion, students should be able to discuss laws, codes, and ordinances as they relate to fire protection.

FIP 164 OSHA Standards
Prerequisites: None
Corequisites: None
Component: None
This course covers public and private sector OSHA work site requirements referenced in NFPA standard 1250. Emphasis is placed on accident prevention and reporting, personal safety, machine operations, and hazardous material handling. Upon completion, students should be able to analyze and interpret specific OSHA regulations and write workplace policies designed to achieve compliance.

FIP 220 Fire Fighting Strategies
Prerequisites: None
Corequisites: None
Component: None
This course provides preparation for command of initial incident operations involving emergencies within both the public and private sector referenced in NFPA standards 1561, 1710, and 1720. Topics include incident management, fire-ground tactics and strategies, incident safety, and command/control of emergency operations. Upon completion, students should be able to describe the initial incident system as it relates to operations involving various emergencies in fire and non-fire situations.

FIP 221 Adv Fire Fighting Strat
Prerequisites: Take FIP 220
Corequisites: None
Component: None
This course covers command-level operations for multi-company/agency operations involving fire and non-fire emergencies. Topics include advanced use of the Incident Command System (ICS), advanced incident analysis, command-level fire operations, and control of both man made and natural major disasters. Upon completion, students should be able to describe proper and accepted systems for the mitigation of emergencies at the level of overall scene command.

FIP 224 Instructional Methodology
Prerequisites: None
Corequisites: None
Component: None
This course covers the knowledge, skills, and abilities needed to train others in fire service operations. Topics include planning, presenting, and evaluating lesson plans, learning styles, use of media, communication, and other related topics. Upon completion, students should be able to meet the requirements of the Fire Instructor I and II objectives from National Fire Protection Association (NFPA) 1041.

FIP 228 Local Govt Finance
Prerequisites: None
Corequisites: None
Component: None
This course introduces local governmental financial principles and practices. Topics include budget preparation and justification, revenue policies, statutory requirements, audits, and the economic climate. Upon completion, students should be able to comprehend the importance of finance as it applies to the operations of a department.

FIP 229 Fire Dynamics and Combust
Prerequisites: None
Corequisites: None
Component: None
This course covers the theories and fundamentals of how and why fires start and spread, and how they are safely controlled referenced in NFPA standard 1001. Topics include components of fire, fire sources, fire behavior, properties of combustible solids, classification of hazards, and the use of fire extinguishing agents. Upon completion, students should be able to describe the properties of matter and dynamics of fire, identify fuel sources, and compare suppressants and extinguishment techniques.

FIP 230 Chem of Hazardous Mat 1
Prerequisites: None
Corequisites: None
Component: None
This course covers the evaluation of hazardous materials referenced in NFPA standard 1072. Topics include use of the periodic table, hydrocarbon derivatives, placards and labels, parameters of combustion, and spill and leak mitigation. Upon completion, students should be able to demonstrate knowledge of the chemical behavior of hazardous materials.

FIP 232 Hydraulics & Water Dist
Prerequisites: None
Corequisites: None
Component: None
This course covers the flow of fluids through fire hoses, nozzles, appliances, pumps, standpipes, water mains, and other devices referenced in NFPA standard 25. Emphasis is placed on supply and delivery systems, fire flow testing, hydraulic calculations, and other related topics. Upon completion, students should be able to perform hydraulic calculations, conduct water availability tests, and demonstrate knowledge of water distribution systems.

FIP 240 Fire Service Supervision
Prerequisites: None
Corequisites: None
Component: None
This course covers supervisory skills and practices in the fire protection field. Topics include the supervisor’s job, supervision skills, the changing work environment, managing change, organizing for results, discipline and grievances, and safety. Upon completion, students should be able to demonstrate an understanding of the roles and responsibilities of effective fire service supervision, meeting elements of NFPA 1021.

FIP 248 Fire Svc Personnel Adm
Prerequisites: None
Corequisites: None
Component: None
This course covers the basics of setting up and administering the personnel functions of fire protection organizations referenced in NFPA standard 1021. Emphasis is placed on human resource planning, classification and job analysis, equal opportunity employment, affirmative action, recruitment, retention, development, performance evaluation, and assessment centers. Upon completion, students should be able to demonstrate knowledge of the personnel function as it relates to managing fire protection.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
FIP 256 Munic Public Relations 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is a general survey of municipal public relations and their effect on the governmental process referenced in NFPA standard 1035. Topics include principles of public relations, press releases, press conferences, public information officers, image surveys, and the effects of perceived service on fire protection delivery. Upon completion, students should be able to manage public relations functions of organizations which meet elements of NFPA 1021 for Fire Officer I and II.

FIP 276 Managing Fire Services 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of fire department operative services referenced in NFPA standard 1021. Topics include finance, staffing, equipment, code enforcement, management, information, specialized services, legal issues, planning, and other related topics. Upon completion, students should be able to understand concepts and apply fire department management and operations principles.

FLO 189 Basic Floral Design 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course provides general knowledge of floral design on a non-commercial level. Topics include simple corsage work, vase arrangements, and holiday novelty items. Upon completion, students should be able to tie a bow and construct simple corsages, bud vases, and holiday items.

FRE 111 Elementary French I 03 00 00 03
Prerequisites: Take DRE-096 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces the fundamental elements of the French language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written French and demonstrate further cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

FRE 112 Elementary French II 03 00 00 03
Prerequisites: Take FRE 111
Corequisites: None
Component: None
This course is a continuation of FRE 111 focusing on the fundamental elements of the French language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written French and demonstrate further cultural awareness. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts.

FRE 181 French Lab 1 00 02 00 01
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the French language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written French and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

FRE 182 French Lab 2 00 02 00 01
Prerequisites: Take FRE 181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the French language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written French and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

FRE 211 Intermediate French I 03 00 00 03
Prerequisites: Take FRE 112
Corequisites: None
Component: None
This course provides a review and expansion of the essential skills of the French language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

FRE 212 Intermediate French II 03 00 00 03
Prerequisites: Take FRE 211
Corequisites: None
Component: None
This course is a continuation of FRE 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
FSE 210 Embalming Theory I 03 00 00 03
Prerequisites: Take FSE 118
Component: None
This course introduces various embalming procedures and the purpose, history, and need for embalming. Emphasis is placed on laboratory equipment, post mortem changes, and the proper use of embalming chemicals. Upon completion, students should be able to identify various instruments and relate theoretical case analysis to embalming procedures used in the funeral home.

FSE 211 Embalming Lab I 00 02 00 01
Prerequisites: None
Component: None
This course provides hands-on experience with general embalming techniques. Emphasis is placed on preparation of human remains in the embalming laboratory. Upon completion, students should be able to utilize sanitation and disinfection procedures correctly and properly prepare human remains for burial.

FSE 212 Embalming Theory II 03 00 00 03
Prerequisites: Take a course from each set: FSE 210 and FSE 211 or WBL-111
Corequisites: Take FSE 213 or WBL-121
Component: None
This course is a continuation of FSE 210 and covers more detailed embalming procedures. Topics include anatomical consideration for embalming, case analysis, positioning features, arterial injection, cavity treatment, autopsies, and other post mortem conditions. Upon completion, students should be able to demonstrate knowledge of embalming theory and sanitation to protect the public health.
### FSE 213 Embalming Lab II
- **Prerequisites:** Take FSE 210 and FSE 211 or WBL 111
- **Corequisites:** Take FSE 212
- **Component:** None

This course provides hands-on experience in more advanced embalming skills. Emphasis is placed on preparation of human remains in the embalming laboratory. Upon completion, students should be able to determine the proper techniques to be utilized in each particular embalming situation.

### FSE 214 Pathology
- **Prerequisites:** Take BIO 092, ENG-111 and FSE 112
- **Corequisites:** None

This course is a general survey of the disease process. Topics include pathological terminology, basic body functions, trauma, disease process, and etiology. Upon completion, students should be able to recognize medical terminology used in completing death certificates and understand the disease process.

### FSE 215 Funeral Home Operations
- **Prerequisites:** Take BUS 230
- **Corequisites:** None

This course covers funeral home operations, including business techniques and effective counseling skills. Topics include establishing a funeral home, choosing and financing a location, building, merchandising, caskets, vaults, planning, and counseling techniques and philosophies. Upon completion, students should be able to understand the proper procedures for operating a funeral home and relate more effectively to those experiencing grief.

### FSE 216 Restorative Arts
- **Prerequisites:** Take FSE-118
- **Corequisites:** None

This course covers the terminology used and pathological conditions observed during the restoration process. Topics include basic restoration, anatomical modeling, expression, use of photographs, legal aspects, pathological discoloration, cosmetics, and solvents. Upon completion, students should be able to utilize materials and techniques in the restoration of human remains.

### FSE 217 Funeral Service Projects
- **Prerequisites:** Take FSE 212, FSE 216 and Department Chairperson approval
- **Corequisites:** None

This course provides an overview of funeral service practices and procedures, including computer software used in the funeral service profession. Emphasis is placed on utilizing funeral service software and on topics required for licensure. Upon completion, students should be able to enter information, generate documents, and demonstrate knowledge of the topics covered on state or national licensure exams.

### GEL 113 Historical Geology
- **Prerequisites:** Take GEL 111 or GEL 120
- **Corequisites:** None
- **Component:** None

This course covers the geological history of the earth and its life forms. Emphasis is placed on the study of rock strata, fossil groups, and geological time. Upon completion, students should be able to identify major fossil groups and associated rock strata and approximate ages of geological formations. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science.

### GEL 120 Physical Geology
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course provides a study of the structure and composition of the earth’s crust. Emphasis is placed on weathering, erosional and depositional processes, mountain building forces, rocks and minerals, and structural changes. Upon completion, students should be able to explain the structure, composition, and formation of the earth’s crust. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science.

### GEL 230 Environmental Geology
- **Prerequisites:** Take GEL 111, GEL 120 or PHS 130
- **Corequisites:** None

This course provides insights into geologic forces that cause environmental changes influencing man’s activities. Emphasis is placed on natural hazards and disasters caused by geologic forces. Upon completion, students should be able to relate major hazards and disasters to the geologic forces responsible for their occurrence. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science.

### GEO 110 Introduction to Geography
- **Prerequisites:** Take DRE-097 or Placement Test Credit Equivalent
- **Corequisites:** None

This course introduces map reading skills and the physical and cultural features of different areas of the earth. Topics include spatial association, the importance of location, physical characteristics of the earth, and the impact of humans on the environment. Upon completion, students should be able to demonstrate an ability to read a map and describe physical and cultural features of different regions. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### GEO 111 World Regional Geography
- **Prerequisites:** Take DRE-097 or Placement Test Credit Equivalent
- **Corequisites:** None

This course introduces the regional concept which emphasizes the spatial association of people and their environment. Emphasis is placed on the physical, cultural, and economic systems that interact to produce the distinct regions of the earth. Upon completion, students should be able to describe variations in physical and cultural features of a region and demonstrate an understanding of their functional relationships. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
GEO 112 Cultural Geography
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is designed to explore the diversity of human cultures and to describe their shared characteristics. Emphasis is placed on the characteristics, distribution, and complexity of earth's cultural patterns. Upon completion, students should be able to demonstrate an understanding of the differences and similarities in human cultural groups. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

GEO 113 Economic Geography
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course covers the patterns and networks of economic interdependence and how they affect human populations. Emphasis is placed on the economic aspects of the production and distribution of goods and services and their impact on the quality of human life. Upon completion, students should be able to describe different economic systems and demonstrate an understanding of the variables that influence economic development. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in social/behavioral sciences.

GEO 121 North Carolina Geography
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course is a survey of the physical and cultural landscapes of North Carolina. Topics include physical characteristics of North Carolina, settlement patterns, resource use, and cultural variations. Upon completion, students should be able to demonstrate knowledge of the distinct physical and cultural features of North Carolina. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

GEO 130 General Physical Geography
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces both the basic physical components that help shape the earth and the study of minerals, rocks, and evolution of landforms. Emphasis is placed on the geographic grid, cartography, weather, climate, mineral composition, fluvial processes, and erosion and deposition. Upon completion, students should be able to identify these components and processes and explain how they interact. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

GEO 131 Physical Geography I
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces the basic physical components that help shape the earth. Emphasis is placed on the geographic grid, cartography, weather, climate, biogeography, and soils. Upon completion, students should be able to identify these components and explain how they interact. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

GEO 132 Physical Geography II
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces the study of minerals, rocks, evolution of landforms, and consequences of landscape change. Emphasis is placed on mineral composition, fluvial processes, erosion and deposition, glaciers, and coastal processes. Upon completion, students should be able to identify these components and processes and to explain how they interact. This course has been approved to satisfy the Comprehensive Articulation Agreement pre-major and/or elective course requirement.

GER 111 Elementary German I
Prerequisites: Take DRE-096 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course introduces the fundamental elements of the German language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written German and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

GER 112 Elementary German II
Prerequisites: Take GER 111
Corequisites: None
Component: None
This course is a continuation of GER 111 focusing on the fundamental elements of the German language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written German and demonstrate further cultural awareness. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

GER 181 German Lab 1
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the German language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written German and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

GER 182 German Lab 2
Prerequisites: Take GER 181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the German language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written German and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

This course covers the creative manipulation of images utilizing digital techniques of masking, layering, airbrushing, and painting. Topics include the aesthetic analysis of visual imagery as well as the legalities of manipulating images. Upon completion, students should be able to utilize software applications to creatively manipulate and illustratively build digital images which accomplish design objectives.

This course introduces the fundamentals of multimedia design and production for computer-related presentations. Topics include interface design, typography, storyboarding, scripting, simple animation, graphics, digital audio/video, and copyright issues. Upon completion, students should be able to design and produce multimedia presentations.

This course covers the organization and presentation of a design/advertising or graphic art portfolio and appropriate related materials. Emphasis is placed on development and evaluation of the portfolio, design and production of a resume and self-promotional materials, and interview techniques. Upon completion, students should be able to prepare and professionally present an effective portfolio and related self-promotional materials.

This course covers copywriting for print, electronic, and broadcast advertising and promotion. Topics include advertising strategies, proposals, headlines, slogans, and text copy for various types of advertising. Upon completion, students should be able to write and articulate advertising proposals and understand the ethical and regulatory environment for advertising.

This course covers the advanced use of graphic design principles in front-end design for the multi-page websites. Emphasis is placed on online branding, responsive design, project management, UI/UX, web design using current web standards, and designing for content management systems. Upon completion, students should be able to employ the principles of design in the creation of websites across multiple platforms and devices.

HFS 116 Pnt & Care Exer Injuries 02 02 00 03
Prerequisites: None
Corequisites: None
Component: This course provides information about the care and prevention of exercise injuries. Topics include proper procedures, prevention techniques, and on-site care of injuries. Upon completion, students should be able to demonstrate the knowledge and skills necessary to prevent and care for exercise related injuries.

HFS 118 Fitness Facility Mgmt 04 00 00 04
Prerequisites: None
Corequisites: None
Component: This course provides information about the management and operation of health and fitness facilities and programs. Topics include human resources, sales and marketing, member retention, financial management, facility design and maintenance, and risk management. Upon completion, students should be able to demonstrate the knowledge and skills necessary to effectively manage a fitness facility.

HFS 120 Group Exer Instruction 02 02 00 03
Prerequisites: Take HFS-110
Corequisites: None
Component: This course introduces the concepts and guidelines of instructing exercise classes. Topics include program designs, working with special populations, and principles of teaching and monitoring physical activity. Upon completion, students should be able to demonstrate basic skills in instructing an exercise class and monitoring workout intensity.

HFS 210 Personal Training 02 02 00 03
Prerequisites: Take All: HFS-110 and HFS-111
Corequisites: None
Component: This course introduces the student to the aspects of personal (one-on-one) training. Topics include training systems, marketing, and program development. Upon completion, students should be able to demonstrate personal training techniques and competencies of same.

HFS 212 Exercise Programming 02 02 00 03
Prerequisites: Take HFS-110
Corequisites: None
Component: This course provides information about organizing, scheduling, and implementation of physical fitness programs. Topics include programming for various age groups, competitive activities and special events, and evaluating programs. Upon completion, students should be able to organize and implement exercise activities in a competent manner.

HFS 218 Lifestyle Chng & Wellness 03 02 00 04
Prerequisites: None
Corequisites: None
Component: This course introduces health risk appraisals and their application to lifestyle changes. Topics include nutrition, weight control, stress management, and the principles of exercise. Upon completion, students should be able to conduct health risk appraisals and apply behavior modification techniques in a fitness setting.

HIS 111 World Civilizations I 03 00 00 03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: This course introduces world history from the dawn of civilization to the early modern era. Topics include Eurasian, African, American, and Greco-Roman civilizations and Christian, Islamic and Byzantine cultures. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in pre-modern world civilizations. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

HIS 112 World Civilizations II 03 00 00 03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces world history from the early modern era to the present. Topics include the cultures of Africa, Europe, India, China, Japan, and the Americas. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern world civilizations. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

HIS 115 Introduction to Global History 03 00 00 03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the study of global history. Emphasis is placed on topics such as colonialism, industrialism, and nationalism. Upon completion, students should be able to analyze significant global historical issues. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

HIS 116 Current World Problems 03 00 00 03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers current world events from an historical perspective. Topics include regional problems as well as international concerns. Upon completion, students should be able to analyze significant current world problems from an historical perspective. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

HIS 121 Western Civilization I 03 00 00 03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces western civilization from pre-history to the early modern era. Topics include ancient Greece, Rome, and Christian institutions of the Middle Ages and the emergence of national monarchies in western Europe. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early western civilization. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

### HIT 215 Reimbursement Methodology

**Prerequisites:** Take HIT 211  
**Corequisites:** None  
**Component:** None  

This course covers reimbursement methodologies used in all healthcare settings as they relate to national billing, compliance, and reporting requirements. Topics include prospective payment systems, billing process and procedures, chargemaster maintenance, regulatory guidelines, reimbursement monitoring, and compliance strategies and reporting. Upon completion, students should be able to perform data quality reviews to validate code assignment and comply with reimbursement and reporting requirements. In addition, a review of the hospital coding exam will be administered in preparation to sit for the AAPC CPC-H certification exam.

### HMT 110 Intro to Healthcare Mgt

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course introduces the functions, practices, organizational structures, and professional issues in healthcare management. Emphasis is placed on planning, controlling, directing, and communicating within health and human services organizations. Upon completion, students should be able to apply the concepts of management within a healthcare service environment.

### HMT 210 Medical Insurance

**Prerequisites:** Take MED-122 or OST 142  
**Corequisites:** None  
**Component:** None  

This course introduces the concepts of medical insurance. Topics include types and characteristics of third-party payers, coding concepts, payment systems, and manual/electronic claims form preparation. Upon completion, students should be able to process third-party claims forms.

### HMT 211 Long-Term Care Admin

**Prerequisites:** Take HMT 110  
**Corequisites:** None  
**Component:** None  

This course introduces the administration of long-term care facilities and services. Emphasis is placed on nursing home care, home health care, hospice, skilled nursing facilities, and other long-term care services. Upon completion, students should be able to administer state and national standards and regulations as they apply to long-term care.

### HMT 212 Mgt of Healthcare Org

**Prerequisites:** Take HMT 110  
**Corequisites:** None  
**Component:** None  

This course examines current issues affecting the management of healthcare delivery systems. Topics include current problems, changes, and challenges in the healthcare environment. Upon completion, students should be able to identify current health care issues and their impact on healthcare management.

### HMT 215 Legal Asp of Healthcare Admin

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course provides a practical examination of healthcare law from the administrative perspective. Emphasis is placed on healthcare law with a working knowledge of ways to improve quality and the legal delivery of healthcare. Upon completion, students should be able to understand and apply healthcare laws as they relate to the financing, delivery, privacy, and malpractice of healthcare organizations.

### HMT 220 Healthcare Financial Mgmt

**Prerequisites:** Take HMT 110 and ACC 121  
**Corequisites:** None  
**Component:** None  

This course covers the methods and techniques utilized in the financial management of healthcare programs. Topics include cost determination, pricing of services, financial statement analysis, forecasting/projections, third-party billing, reimbursement, Medicare, Medicaid, and budgeting. Upon completion, students should be able to interpret and apply the principles of financial management in a healthcare environment.

### HMT 225 Practice Mgmt. Simulation

**Prerequisites:** Take HMT-210  
**Corequisites:** Take HMT-220  
**Component:** None  

This course introduces medical systems used to process and analyze information in the automated office. Emphasis is placed on daily processing of patient services, management reporting used to monitor productivity, and interactive database reporting and analysis. Upon completion, students should be able to process daily services, generate and interpret management reports and utilize key indicators for monitoring practice productivity.

### HOR 110 Introduction to Landscaping

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course introduces the basic skills and concepts of drafting and surveying necessary to complete landscape site analysis and topographical drawings. Emphasis is placed on proper use of drafting and survey equipment. Upon completion, students should be able to draw a site analysis drawing with topographical lines.

### HOR 112 Landscape Design I

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course covers landscape principles and practices for residential and commercial sites. Emphasis is placed on drafting, site analysis, and common elements of good design, plant material selection, and proper plant utilization. Upon completion, students should be able to read, plan, and draft a landscape design.

### HOR 114 Landscape Construction

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course introduces the design and fabrication of landscape structures/features. Emphasis is placed on safety, tool identification and use, material selection, construction techniques, and fabrication. Upon completion, students should be able to design and construct common landscape structures/features.

### HOR 116 Landscape Management I

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course covers information and skills necessary to analyze a property and develop management schedules, and implement practices based on client needs.
HOR 118 Equipment Operation & Maintenance
Prerequisites: None
Corequisites: None
Component: None
This course covers the proper operation and maintenance of selected equipment used in horticulture. Emphasis is placed on the maintenance, minor repairs, safety devices, and actual operation of selected equipment. Upon completion, students should be able to design a maintenance schedule, service equipment, and demonstrate safe operation of selected equipment.

HOR 124 Nursery Operations
Prerequisites: None
Corequisites: None
Component: None
This course covers nursery site and crop selection, cultural practices, and production and marketing methods. Topics include site considerations, water availability, equipment, irrigation, fertilization, containers, media, and pest control. Upon completion, students should be able to design and implement a nursery operation and grow and harvest nursery crops.

HOR 134 Greenhouse Operations
Prerequisites: None
Corequisites: None
Component: None
This course covers the principles and procedures involved in the operation and maintenance of greenhouse facilities. Emphasis is placed on the operation of greenhouse systems, including the environmental control, record keeping, scheduling, and production practices. Upon completion, students should be able to demonstrate the ability to operate greenhouse systems and facilities to produce greenhouse crops.

HOR 142 Fruit & Vegetable Production
Prerequisites: None
Corequisites: None
Component: None
This course introduces the principles and techniques of growing fruits and field-grown vegetables. Topics include site selection, proper varietal selection, nutritional values, cultural techniques, harvesting and marketing, and insect and disease control. Upon completion, students should be able to demonstrate an understanding of the principles related to the production of selected fruits and vegetables.

HOR 150 Introduction to Horticulture
Prerequisites: None
Corequisites: None
Component: None
This course covers the history, development, and basic techniques of horticulture. Topics include propagation techniques, planting procedures, watering and fertility, plant growth, pest and disease control, and garden design and history. Upon completion, students should be able to demonstrate an understanding of the basic principles of horticulture.

HOR 152 Horticultural Practices
Prerequisites: None
Corequisites: None
Component: None
This course covers the maintenance of ornamental landscape gardens, greenhouses, and container and field nursery stock using sound horticultural practices. Upon completion, students should be able to apply the principles and practices of maintaining ornamental landscape plantings.

HOR 160 Plant Materials I
Prerequisites: None
Corequisites: None
Component: None
This course covers identification, culture, characteristics, and use of plants. Emphasis is placed on nomenclature, identification, growth requirements, cultural requirements, soil preferences, and landscape applications. Upon completion, students should be able to demonstrate knowledge of the proper selection and utilization of plant materials. This course is also available through the Virtual Learning Community (VLC).

HOR 161 Plant Materials II
Prerequisites: None
Corequisites: None
Component: None
This course provides a supplementary opportunity to cover identification, culture, characteristics, and use of plants in a sustainable landscape, giving students a broader knowledge of available landscape plants for utilization in landscapes and plant production. Emphasis is placed on nomenclature, identification, growth requirements, cultural requirements, soil preferences, landscape applications and expansion of the plant palette. Upon completion, students should be able to demonstrate knowledge of the proper selection and utilization of plant materials, including natives and invasive plants.

HOR 162 Applied Plant Science
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic concepts of botany as they apply to horticulture. Topics include nomenclature, physiology, morphology, and anatomy as they apply to plant culture. Upon completion, students should be able to apply the basic principles of botany to horticulture.

HOR 164 Horticultural Pest Management
Prerequisites: None
Corequisites: None
Component: None
This course covers the identification and control of plant pests including insects, diseases, and weeds. Topics include pest identification and chemical regulations, safety, and pesticide application. Upon completion, students should be able to meet the requirements for North Carolina Commercial Pesticide Ground Applicators license.

HOR 166 Soils & Fertilizers
Prerequisites: None
Corequisites: None
Component: None
This course covers the physical and chemical properties of soils and soil fertility and management. Topics include soil formation, classification, physical and chemical properties, testing, fertilizer application, and other amendments. Upon completion, students should be able to analyze, evaluate, and properly amend soils/media.

HOR 168 Plant Propagation
Prerequisites: None
Corequisites: None
Component: None
This course is a study of sexual and asexual reproduction of plants. Emphasis is placed on seed propagation, grafting, stem and root propagation, micro-propagation, and other propagation techniques. Upon completion, students should be able to successfully propagate ornamental plants.
### HOR 170 Horticultural Computer Apps
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course introduces computer programs as they apply to the horticulture industry. Emphasis is placed on applications of software for plant identification, design, and irrigation. Upon completion, students should be able to use computer programs in horticultural situations.

### HOR 257 Arboriculture Practices
- **Prerequisites:** Take HOR 160 or LSG 111
- **Corequisites:** None

This course covers the culture and maintenance of trees and shrubs. Topics include fertilization, pruning, approved climbing techniques, pest control, and equipment use and safety. Upon completion, students should be able to properly prune trees and shrubs and perform arboricultural practices.

### HOR 265 Advanced Plant Materials
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course covers important landscape plants. Emphasis is placed on identification, plant nomenclature, growth characteristics, cultural requirements, and landscape uses. Upon completion, students should be able to correctly select plants for specific landscape uses.

### HOR 277 Horticulture Sales & Services
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course introduces various strategies for marketing horticulture products and services. Topics include wholesale, retail, and consignment sales; advertising media; costing products and services; preparing estimates, bids, and proposals; and consumer relations. Upon completion, students should be able to develop a marketing strategy for various horticulture products and services.

### HOR 278 Horticulture Business
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course introduces starting and/or managing a horticulture business operation. Emphasis is placed on types of business ownership, legal aspects of licenses, worker safety and facility criteria, and creating inventories, schedules, and financial statements. Upon completion, students should be able to prepare appropriate schedules and financial statements and demonstrate knowledge of legal standards for equipment and personnel.

### HRM 110 Intro to Hosp & Tourism
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course covers the growth and progress of the hospitality industry. Topics include tourism, lodging, resorts, gaming, restaurants, foodservice and clubs. Upon completion, students should be able to demonstrate an understanding of the background, context, and career opportunities that exist within the hospitality industry.

### HRM 120 Front Office Procedures
- **Prerequisites:** None
- **Corequisites:** None
- **Component:** None

This course introduces a systematic approach to lodging front office procedures. Topics include reservations, registration, guest satisfaction, occupancy and revenue management, security, interdepartmental communications, and related guest services. Upon completion, students should be able to demonstrate a basic understanding of current front office operating systems, including efficient and courteous guest services.

HRM 124 Guest Service Management
Prerequisites: None
Corequisites: None
Component: None
This course is designed to provide an introduction to the culture of dining room service management. Emphasis is placed on the dignity and psychology of service work, dining room organization/infrastructure, service delivery, and modeling management roles in a dining room environment. Upon completion, students should be able to demonstrate an understanding of the guest/server dynamic and apply these principles in a dining room setting.

HRM 125 Etiquette for Hospitality
Prerequisites: None
Corequisites: None
Component: None
This course covers social skills needed to effectively interact within organizational and customer situations. Topics include general social manners, personal appearance, table manners, restaurant and meeting etiquette, and business interaction. Upon completion, students should be able to function with confidence in various social, cultural, and professional situations.

HRM 135 Facilities Management
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic elements of planning and designing hospitality facilities including environmental impacts, maintenance, and upkeep. Topics include equipment and plant preventive maintenance, engineering, interior design, space utilization, remodeling and expansion, and traffic and work flow patterns. Upon completion, students should be able to demonstrate an understanding of the planning, design, national certification, and maintenance of hospitality physical plants and equipment.

HRM 140 Legal Issues-Hospitality
Prerequisites: None
Corequisites: None
Component: None
This course covers the rights and responsibilities that the law grants to or imposes upon the hospitality industry. Topics include federal and state regulations, historical and current practices, safety and security, risk management, loss prevention, relevant torts, and contracts. Upon completion, students should be able to demonstrate an understanding of the legal system and the concepts necessary to prevent or minimize organizational liability.

HRM 210 Meetings & Event Planning
Prerequisites: None
Corequisites: None
Component: None
This course introduces concepts related to the planning and operation of conventions, trade shows, professional meetings, and foodservice events. Emphasis is placed on methods of marketing, selling, organizing, and producing conventions, events, and trade shows that will increase financial and environmental value. Upon completion, students should be able to demonstrate an understanding of management principles for multi-function, multi-day conferences and events.

HRM 215 Restaurant Management
Prerequisites: Take CUL-135 or HRM-124. Take DMA-030 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of the responsibilities and activities encountered in managing a food and beverage operation. Topics include planning, organization, accounting, marketing, trends, and human resources from an integrated managerial viewpoint. Upon completion, students should be able to demonstrate an understanding of the operation of a restaurant.

HRM 220 Cost Control-Food & Bev
Prerequisites: Take DMA-030 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces controls and accounting procedures as applied to costs in the hospitality industry. Topics include reports, cost control, planning and forecasting, control systems, financial statements, operational efficiencies, labor controls and scheduling. Upon completion, students should be able to demonstrate an understanding of food, beverage, and labor cost control systems for operational troubleshooting and problem solving.

HRM 230 Club & Resort Management
Prerequisites: None
Corequisites: None
Component: None
This course introduces specific principles of managing a hospitality operation in a resort or club setting. Topics include operational efficiencies, resort and club marketing, recreational and sport activity management, and retail management. Upon completion, students should be able to demonstrate an understanding of the specialized skills involved in resort and club management.

HRM 240 Marketing for Hospitality
Prerequisites: None
Corequisites: None
Component: None
This course covers planning, organizing, directing, and analyzing the results of marketing programs for the hospitality industry. Emphasis is placed on target marketing, marketing mix, analysis, product and image development, use of current media, sales planning, advertising, public relations, and collateral materials. Upon completion, students should be able to apply the marketing process as it relates to the hospitality industry.

HRM 245 Human Resource Mgmt-Hosp
Prerequisites: None
Corequisites: None
Component: None
This course introduces a systematic approach to human resource management in the hospitality industry. Topics include training/development, staffing, selection, hiring, recruitment, evaluation, benefit administration, employee relations, labor regulations/laws, discipline, motivation, productivity, shift management, contract employees and organizational culture. Upon completion, students should be able to apply human resource management skills for the hospitality industry.

HRM 280 Mgmt Problems-Hospitality
Prerequisites: Take HRM-110, HRM-140, HRM-240, and HRM-245
Corequisites: None
Component: None
This course is designed to introduce students to timely issues within the hospitality industry and is intended to move students into a managerial mindset. Emphasis is placed on problem-solving skills using currently available resources. Upon completion, students should be able to demonstrate knowledge of how hospitality management principles may be applied to real challenges facing industry managers.

This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

HUM 220 Human Values and Meaning 03 00 00 03
Prerequisites: Take ENG 111
Component: None
This course presents some major dimensions of human experience as reflected in art, music, literature, philosophy, and history. Topics include the search for identity, the quest for knowledge, the need for love, the individual and society, and the meaning of life. Upon completion, students should be able to recognize interdisciplinary connections and distinguish between open and closed questions and between narrative and scientific models of understanding. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

HUM 230 Leadership Development 03 00 00 03
Prerequisites: Take ENG 111
Component: None
This course explores the theories and techniques of leadership and group process. Emphasis is placed on leadership styles, theories of group dynamics, and the moral and ethical responsibilities of leadership. Upon completion, students should be able to identify and analyze a personal philosophy and style of leadership and integrate these concepts in various practical situations. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

HYD 110 Hydraulics/Pneumatics I 02 03 00 03
Prerequisites: None
Component: None
This course introduces the basic components and functions of hydraulic and pneumatic systems. Topics include standard symbols, pumps, control valves, control assemblies, actuators, FRL, maintenance procedures, and switching and control devices. Upon completion, students should be able to understand the operation of a fluid power system, including design, application, and troubleshooting.

INT 110 International Business 03 00 00 03
Prerequisites: None
Component: None
This course provides an overview of the environment, concepts, and basic differences involved in international business. Topics include forms of foreign involvement, international trade theory, governmental influences on trade and strategies, international organizations, multinational corporations, personnel management, and international marketing. Upon completion, students should be able to describe the foundation of international business.

INT 230 International Law 03 00 00 03
Prerequisites: Take BUS-115
Component: None
This course is designed to develop an understanding of the different major organizations in international trade, establishment of treaties, governmental influences on trade and strategies, establish international, multinational corporations, personnel management, and international marketing. Upon completion, students should be able to apply theories and concepts to international trade and transactions.

ISC 110 Workplace Safety 01 00 00 01
Prerequisites: None
Component: None
This course introduces the basic concepts of workplace safety. Topics include fire, ladders, lifting, lock-out/tag-out, personal protective devices, and other workplace safety issues related to OSHA compliance. Upon completion, students should be able to demonstrate an understanding of the components of a safe workplace.

ISC 112 Industrial Safety 02 00 00 02
Prerequisites: None
Component: None
This course introduces the principles of industrial safety. Emphasis is placed on industrial safety and OSHA regulations. Upon completion, students should be able to demonstrate knowledge of a safe working environment and OSHA compliance.
This course introduces the basic concepts of construction site safety. Topics include ladders, lifting, lock-out/tag-out, personal protective devices, scaffolds, and above/below ground work based on OSHA regulations. Upon completion, students should be able to demonstrate knowledge of applicable safety regulations and safely participate in construction projects.

ISC 121 Envir Health & Safety
Prerequisites: None
Corequisites: None
Component: None
This course covers workplace environmental, health, and safety issues. Emphasis is placed on managing the implementation and enforcement of environmental health and safety regulations and on preventing accidents, injuries, and illnesses. Upon completion, students should be able to demonstrate an understanding of basic concepts of environmental, health, and safety issues.

ISC 131 Quality Management
Prerequisites: None
Corequisites: None
Component: None
This course provides a study and analysis of the aspects and implications of quality management that lead to customer satisfaction through continuous quality improvement. Topics include Total Quality Management, ISO 9000, organizing for quality, supplier/vendor relationships, and the role of leadership in quality management. Upon completion, students should be able to demonstrate an understanding of quality management concepts and techniques.

ISC 210 Oper & Prod Planning
Prerequisites: Take DMA-030 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course includes the fundamentals of operations and production planning, forecasting, and scheduling. Topics include demand management, production planning and control, scheduling, and budgeting. Upon completion, students should be able to demonstrate an understanding of the concepts and techniques involved in operations and production planning.

ITA 111 Elementary Italian I
Prerequisites: Take DRE-096 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the fundamental elements of the Italian language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Italian and demonstrate further cultural awareness. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

ITA 112 Elementary Italian II
Prerequisites: Take ITA 111
Corequisites: None
Component: None
This course is a continuation of ITA 111 focusing on the fundamental elements of the Italian language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Italian and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

ITA 181 Italian Lab 1
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the Italian language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written Italian and demonstrate cultural awareness. This course has been approved for transfer under the ICAA as a pre-major and/or elective course requirement. This course has been approved for transfer under the ICAA as a pre-major and/or elective course requirement.

ITA 182 Italian Lab 2
Prerequisites: Take ITA 181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of the Italian language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Italian and demonstrate cultural awareness. This course has been approved for transfer under the ICAA as a pre-major and/or elective course requirement. This course has been approved for transfer under the ICAA as a pre-major and/or elective course requirement.

ITA 211 Intermediate Italian I
Prerequisites: Take ITA 112
Corequisites: None
Component: None
This course provides a review and expansion of the essential skills of the Italian language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

ITA 212 Intermediate Italian II
Prerequisites: Take ITA 211
Corequisites: None
Component: None
This course provides a continuation of ITA 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course provides an opportunity for intensive communication in spoken Italian. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, express ideas and opinions clearly, and engage in formal and informal conversations. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

This course introduces the history and evolution of Intelligence and focuses on the framework, agencies, roles and responsibilities of the U.S. Intelligence Community and how the Intelligence Community addresses national security requirements. Emphasis is placed on intelligence support for the production of public policy, intelligence support for military operations and law enforcement implementation, and how intelligence can affect the private corporate space. Upon completion, students should be able to identify what type of intelligence jobs exist along with the requisite skills required for the myriad intelligence activities at the state, national, military, and corporate spaces.

This course introduces the principles of Intelligence Collection and the five intelligence collection disciplines: Human Intelligence (HUMINT), Geospatial Intelligence (GEOINT), Signals Intelligence (SIGINT), Measurement and Signature Intelligence (MASINT), and Counterintelligence (CI). Topics include the organizations, missions, and functions of international intelligence and security services. Upon completion, students should be able to demonstrate an understanding of the most current knowledge, skills and resources available in the intelligence community.
**ITL 225 SIGINT Operations**
Prerequisites: None
Corequisites: Take ITL 220
Component:
This course examines Signals Intelligence (SIGINT). Emphasis is placed on the various methods and modes of intelligence collection by electronic means for the use of strategic and operational level communications. Upon completion, students should be able to integrate current and emerging national capabilities into the tactical decision-making process.

**ITL 235 Human Intelligence**
Prerequisites: None
Corequisites: Take ITL 220
Component:
This course provides an overview of Human Intelligence (HUMIT). Topics include the various tactics, techniques and procedures for HUMINT collection and how it can be integrated with the other intelligence disciplines. Upon completion, students should be able to demonstrate a familiarity with the functions of controlled HUMINT collection.

**ITL 240 CI Operations**
Prerequisites: None
Corequisites: Take ITL 220
Component:
This course introduces students to counterintelligence operations and techniques. Topics include passive and active counterintelligence measures, as well as principles and processes of counterintelligence operations. Upon completion, students should be able to demonstrate an understanding of the application of counterintelligence.

**ITL 245 Geospatial Intelligence**
Prerequisites: None
Corequisites: Take ITL 220
Component:
This course introduces the geographic foundations of geospatial intelligence and its applications in national security. Topics include the various aspects of imagery and geospatial information and services (GI&S). Upon completion, students should be able to understand the role that GEOINT plays in the intelligence community and how it supports intelligence and national security operations.

**ITN 150 Internet Protocols**
Prerequisites: Take DRE-096 and DMA-040 or ENG-070, RED-070 and MAT-070 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the student to the application protocols used on the Internet. Topics include HTTP, Secure HTTP, TCP/IP, and related applications such as FTP, TELNET, and PING. Upon completion, students should be able to use the protocols as they pertain to the Internet, as well as, setup and maintain these protocols. This course is also available through the Virtual Learning Community (VLC).

**LAT 141 Culture and Civilization**
Prerequisites: Take All: LAT-212 and LAT-282
Corequisites: None
Component:
This course provides an opportunity to explore issues related to the Roman World. Emphasis is placed on a critical appreciation of the Pro Caelio as a rhetorical speech by demonstrating the ability to translate literally, to analyze and interpret, and to understand the figures of speech in Cicero's prose composition. Upon completion, students should be able to demonstrate an increased proficiency in reading and writing Latin and demonstrate cultural awareness of Late Republican political history, institutions, and laws. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**LAT 142 Lit. & the Roman Republic**
Prerequisites: Take LAT-141
Corequisites: None
Component:
This course provides an opportunity to refine and expand skills in Latin with emphasis on original authors and texts as well as the history of the late Roman Republic. Topics include original works of selected poems from Catullus and selected Odes from Horace. Upon completion, students should be able to demonstrate an increased proficiency in reading and writing Latin and demonstrate an understanding of Roman social structures and thoughts. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**LAT 181 Latin Lab I**
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of Latin. Emphasis is placed on the progressive development of basic reading and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with grammatical accuracy to written Latin and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**LAT 182 Latin Lab II**
Prerequisites: Take LAT 181
Corequisites: None
Component: None
This course provides an opportunity to enhance acquisition of the fundamental elements of Latin. Emphasis is placed on the progressive development of basic reading and writing skills through the use of supplementary learning media and materials. Upon completion, students should be able to demonstrate increasing proficiency in reading and writing Latin and demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**LAT 231 Reading and Composition**
Prerequisites: Take LAT-142
Corequisites: None
Component:
This course provides an opportunity for intensive reading and composition in Latin with emphasis on original authors to enhance and expand Latin reading and writing skills. Topics include original works such as selected Eclogues and Georgics from Vergil. Upon completion, students should be able to demonstrate in writing an in-depth understanding of the reading. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.
LEX 120 Legal Research/Writing I 02 02 00 03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent Corequisites: None
Component: None
This course introduces the techniques of legal research and writing. Emphasis is placed on locating, analyzing, applying, and updating sources of law; effective legal writing, including proper citation; and the use of electronic research methods. Upon completion, students should be able to perform legal research and writing assignments using techniques covered in the course. This course is also available through the Virtual Learning Community (VLC).

LEX 130 Civil Injuries 03 00 00 03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent Corequisites: None
Component: None
This course covers traditional tort concepts and the evolving body of individual rights created by statute. Topics include intentional and non-intentional torts with emphasis on negligence, strict liability, civil rights, workplace and environmental liability, remedies, and damages. Upon completion, students should be able to recognize, explain, and evaluate elements of civil injuries and related defenses. This course is also available through the Virtual Learning Community (VLC).

LEX 140 Civil Litigation I 03 00 00 03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent Corequisites: None
Component: None
This course introduces the structure of the legal system and the rules governing civil litigation. Topics include jurisdiction and the state and federal rules of civil procedure and evidence. Upon completion, students should be able to assist an attorney in pre-litigation matters and preparation of pleadings and motions. This course is also available through the Virtual Learning Community (VLC).

LEX 141 Civil Litigation II 02 02 00 03
Prerequisites: Take LEX 140 Corequisites: None
Component: None
This course covers advanced topics in the civil litigation process. Topics include motions, discovery, and trial and appellate procedures. Upon completion, students should be able to assist an attorney in preparing and organizing documents for trial, settlement and post-trial practice.

LEX 150 Commercial Law I 02 02 00 03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent Corequisites: None
Component: None
This course covers legally enforceable agreements, forms of organization, and selected portions of the Uniform Commercial Code. Topics include drafting and enforcement of contracts, leases, and related documents and selection and implementation of business organization forms, sales, and commercial papers. Upon completion, students should be able to apply the elements of a contract, prepare various business documents, and understand the role of commercial paper. This course is also available through the Virtual Learning Community (VLC).

LEX 160 Criminal Law & Procedure 02 02 00 03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent Corequisites: None
Component: None
This course introduces substantive criminal law and procedural rights of the accused. Topics include elements of state/federal crimes, defenses, constitutional issues, pre-trial and trial process, and other related topics. Upon completion, students should be able to explain elements of specific crimes and assist an attorney in preparing a criminal case.

LEX 180 Case Analysis & Reasoning 01 02 00 02
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent Corequisites: LEX 120 Component: None
This course covers the techniques of reading and applying legal opinions and the skills of case analysis. Emphasis is placed on the components of opinions and on types of legal writing. Upon completion, students should be able to read, analyze, and brief opinions and prepare legal memoranda, briefs, and other legal documents.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
LEX 210 Real Property I
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course introduces the study of real property law. Topics include the distinction between real and personal property, various estates, mechanics of conveyance and encumbrance, recordation, special proceedings, and other related topics. Upon completion, students should be able to identify estates, forms of deeds, requirements for recording, and procedures to enforce rights to real property. This course is also available through the Virtual Learning Community (VLC).

LEX 211 Real Property II
Prerequisites: Take LEX 210
Corequisites: None
Component: None
This course continues the study of real property law relating to title examination and preparation of closing documents. Topics include use of courthouse and other public records in title examination and preparation of documents required in real estate transactions and closings. Upon completion, students should be able to plot/draft a description, perform complete title examination, draft closing documents including title insurance forms, and prepare disbursement reconciliation.

LEX 240 Family Law
Prerequisites: Take DRE-097 and DMA-030 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers laws governing domestic relations. Topics include marriage, separation, divorce, child custody, support, property division, adoption, domestic violence, and other related topics. Upon completion, students should be able to interview clients, gather information, and draft documents related to family law. This course is also available through the Virtual Learning Community (VLC).

LEX 250 Wills, Estates, & Trusts
Prerequisites: Take DRE-097 and DMA-030 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers various types of wills, trusts, probate, estate administration, and intestacy. Topics include types of wills and execution requirements, caveats and dissent, intestate succession, inventories and accountings, distribution and settlement, and other related topics. Upon completion, students should be able to draft simple wills, prepare estate forms, understand administration of estates including taxation, and explain terms regarding trusts. This course is also available through the Virtual Learning Community (VLC).

LEX 260 Bankruptcy & Collections
Prerequisites: Take DRE-097 and DMA-030 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course provides an overview of the laws of bankruptcy and the rights of creditors and debtors. Topics include bankruptcy procedures and estate management, attachment, claim and delivery, repossession, foreclosure, collection, garnishment, and post-judgment collection procedure. Upon completion, students should be able to prepare and file bankruptcy forms, collection letters, statutory liens, and collection of judgments.

LEX 270 Law Office Management/Technology
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
This course provides an overview of law office management and organization. Topics include office forms, filing systems, billing/time keeping, computer systems, calendar systems, library administration, case management, office/personnel procedures, ethics, and technology. Upon completion, students should be able to establish and maintain various law office systems, monitor case progress, and supervise non-lawyer personnel.

LEX 283 Investigation
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers various aspects of civil and criminal investigation. Topics include locating witnesses, interviewing techniques, obtaining records, sketching and photographing accident scenes, collecting and preserving evidence, and preparation of exhibits for trial. Upon completion, students should be able to locate witnesses, prepare questionnaires, interview witnesses, obtain criminal/motor vehicle/medical/accident records, sketch scenes, and prepare exhibits.

LEX 285 Workers' Comp Law
Prerequisites: Take DRE-097 and DMA-030 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course covers the process of initiating and handling workers’ compensation claims. Emphasis is placed on reviewing and drafting relevant Industrial Commission forms. Upon completion, students should be able to interview clients, gather information, and draft documents related to workers’ compensation claims.

LOG 110 Introduction to Logistics
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of logistics. Topics include traffic management, warehousing, inventory control, material handling, global logistics, and the movement and storage of goods from raw materials sources to end consumers. Upon completion, students should be able to identify the different segments of logistics and use the terminology of the industry. This course is also available through the Virtual Learning Community (VLC).

LOG 120 Global Logistics
Prerequisites: Take LOG-110
Corequisites: None
Component: None
This course examines logistics operations, processes, and modes of transportation in an interdependent world economy. Emphasis is placed on freight forwarding operations, analyzing and selecting transportation modes, and processing of import/export documentation. Upon completion, students should be able to arrange and coordinate the transportation of products globally.

LOG 125 Transportation Logistics
Prerequisites: None
Corequisites: None
Component: None
This course covers the role and importance of the transportation industry. This is an overview of transportation emphasizing its environmental and sociological aspects, economic impact, services, regulatory guidelines, policies, and its future. Upon completion, students should be able to identify modes of transportation, interpret governing regulations, and describe the principles and terminology used in the transportation industry.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
LOG 201 Fleet Management
Prerequisites: Take LOG-110
Corequisites: None
Component: None
This course covers the management of transportation, fleet operations, and safety. Emphasis is placed on DOT safety regulations in the hiring, training, and supervision of drivers in transportation. Upon completion, students should be able to write a safety program for drivers involved in interstate commerce following DOT regulations.

LOG 211 Distribution Management
Prerequisites: Take LOG-110
Corequisites: None
Component: None
This course covers the functions, techniques, and tools utilized in warehousing and distribution centers and their role in business and logistics. Emphasis is placed on warehouse and distribution center management, operations, productivity, software systems, picking, automation, cross docking, safety, security, material handling, benchmarking, and cost. Upon completion, students should be able to describe the role of warehouses and distribution centers, apply industry principles and terminology, and understand distribution productivity measures.

LOG 215 Supply Chain Management
Prerequisites: Take LOG-110
Corequisites: None
Component: None
This course covers all activities involved in the flow of products and information between the suppliers, customers, producers, and service providers. Topics include acquiring, purchasing, manufacturing, assembling, and distributing goods and services throughout the supply chain organizations. Upon completion, students should be able to identify the supply chain units, describe the materials management processes, and prepare for the APICS CPIM examination.

LOG 220 Logistics Management
Prerequisites: Take LOG-110
Corequisites: None
Component: None
This course covers the management of the movement and storage of goods and analysis of total costs involved. Emphasis is placed on the monitoring of inventory using automated systems, managing the storage function, warehousing, and distribution. Upon completion, students should be able to describe warehousing and facility layouts, identify material handling methods, and apply inventory control procedures.

LOG 230 Transportation Management
Prerequisites: Take LOG-110
Corequisites: None
Component: None
This course covers the function of shippers and carriers in the transportation industry. Emphasis is placed on negotiating price and service requirements in the movement of goods, identifying areas of carrier liability, and the methods for processing claims. Upon completion, students should be able to compare common carriers and company operated transportation for service and cost, interpret pricing structures, and determine carrier liability.

LOG 235 Import/Export Management
Prerequisites: Take LOG-125
Corequisites: None
Component: None
This course introduces the elements of import and export operations, from transportation to documentation, finance, and security and the effects on the global supply chain. Emphasis is placed on existing import/export regulations, customs documentation, intermodal transportation, foreign freight forwarders, global technology, and homeland security initiatives. Upon completion, students should be able to perform import/export operations, channels of distribution, implemented technologies, and associate with operating a secure supply chain.

LOG 240 Purchasing Logistics
Prerequisites: Take LOG-110
Corequisites: None
Component: None
This course introduces the various aspects of purchasing, and their impact on materials management, supply chain, transportation, and global logistics processes. Emphasis is placed on the different methods of electronic sourcing, negotiating and pricing principles, and on the internal and external considerations associated with international logistics. Upon completion, students should be able to describe and apply the principles and terminology used in procurement including electronic data interchange services, purchasing and logistics systems.

LOG 245 Logistics Security
Prerequisites: Take LOG-110
Corequisites: None
Component: None
This course covers the role and importance of securing the domestic and global transportation and supply chain networks. Emphasis is placed on Customs and Border Protection, Department of Homeland Security, the Transportation Security Agency and how they affect businesses, logistics and transportation processes. Upon completion, students should be able to apply the principles and terminologies used in securing the logistics and transportation networks and identify potential threats.

LOG 250 Advanced Global Logistics
Prerequisites: Take LOG-125
Corequisites: None
Component: None
This course covers the advanced application of global operations and logistics strategies, planning, technology, risk, and management necessary to cope with the global business environment. Emphasis is placed on an in-depth understanding of global sourcing, shipping, tracking, and e-logistics systems necessary to operate inbound/outbound logistics in a global market. Upon completion, students should be able to identify the different global markets and logistics technology available to process international inbound/outbound logistics transactions.

LSG 111 Basic Landscape Technology
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic principles essential to landscape gardening. Topics include soils, propagation, watering, fertilizing, pruning, pest control, and planting. Upon completion, students should be able to perform basic gardening techniques essential to maintaining a landscape.

LSG 121 Fall Gardening Lab
Prerequisites: None
Corequisites: None
Component: None
This course provides basic hands-on experience in fall gardening techniques. Emphasis is placed on pruning, irrigation, planting, fertilizing, pest control, equipment operation, and turf maintenance. Upon completion, students should be able to perform various techniques essential to maintaining the fall landscape.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course provides familiarization with basic gardening techniques by performing practical hands-on exercises required for the spring season. Emphasis is placed on pruning, irrigation, planting, fertilizing, pest control, equipment operation, turf maintenance, and landscape construction. Upon completion, students should be able to satisfactorily perform various practices essential to maintaining the landscape in the spring season.

**LSG 123 Summer Gardening Lab**

Prerequisites: None  
Corequisites: None  
Component: None

This course provides basic hands-on experience in summer gardening techniques. Emphasis is placed on pruning, irrigation, planting, fertilizing, pest control, equipment operation, turf maintenance, landscape construction, and maintaining fruits and vegetables. Upon completion, students should be able to perform various techniques essential to maintaining the summer landscape.

**LSG 231 Landscape Supervision**

Prerequisites: Take LSG 123 and HOR 161  
Corequisites: None  
Component: None

This course provides experience in planning, implementing, and supervising various landscape management projects. Emphasis is placed on supervisory skills, organizing, and scheduling. Upon completion, students should be able to supervise employees in various landscape management jobs.

**LSG 232 Garden Management**

Prerequisites: Take LSG 123 and HOR 161  
Corequisites: None  
Component: None

This course covers the implementation of knowledge gained in previous landscape gardening courses. Emphasis is placed on scheduling, designing, renovation, and plant management. Upon completion, students should be able to collate the material learned in the Landscape Gardening curriculum and apply it to various landscape gardening situations.

**MAC 111 Machining Technology I**

Prerequisites: None  
Corequisites: None  
Component: None

This course introduces machining operations as they relate to the metalworking industry. Topics include machine shop safety, measuring tools, lathes, drilling machines, saws, milling machines, bench grinders, and layout instruments. Upon completion, students should be able to safely perform the basic operations of measuring, layout, drilling, sawing, turning, and milling.

**MAC 112 Machining Technology II**

Prerequisites: Take MAC 111  
Corequisites: None  
Component: None

This course provides additional instruction and practice in the use of precision measuring tools, lathes, milling machines, and grinders. Emphasis is placed on setup and operation of machine tools including the selection and use of work holding devices, speeds, feeds, cutting tools, and coolants. Upon completion, students should be able to perform basic procedures on precision grinders and advanced operations of measuring, layout, drilling, sawing, turning, and milling.

**MAC 113 Machining Technology III**

Prerequisites: MAC 241  
Corequisites: None  
Component: None

This course provides an introduction to advanced and special machining operations. Emphasis is placed on working to specified tolerances with special and advanced setups. Upon completion, students should be able to produce a part to specifications.

**MAC 114 Introduction to Metrology**

Prerequisites: None  
Corequisites: Take MAC 111  
Component: None

This course introduces the care and use of precision measuring instruments. Emphasis is placed on the inspection of machine parts and use of a wide variety of measuring instruments. Upon completion, students should be able to demonstrate the correct use of measuring instruments.

**MAC 118 Machine Shop Basic**

Prerequisites: None  
Corequisites: None  
Component: None

This course will introduce the fundamentals of measuring tools, tolerances and the basic set-up and operations of drill presses, lathes, and milling machines. Emphasis is placed on manufacturing standards and procedures used in welding, automotive, and engineering environments. Upon completion, students should be able to use measuring tools, perform basic machine operations, and apply manufacturing standards.

**MAC 121 Introduction to CNC**

Prerequisites: Take MAC 112, MAC 132, and MAC 152  
Corequisites: None  
Component: None

This course introduces the concepts and capabilities of computer numerical control machine tools. Topics include setup, operation, and basic applications. Upon completion, students should be able to explain operator safety, machine protection, data input, program preparation, and program storage.

**MAC 122 CNC Turning**

Prerequisites: Take MAC 228  
Corequisites: None  
Component: None

This course introduces the programming, setup, and operation of CNC turning centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC turning centers.

**MAC 124 CNC Milling**

Prerequisites: Take MAC 121  
Corequisites: None  
Component: None

This course introduces the manual programming, setup, and operation of CNC machining centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC machining centers.

**MAC 131 Blueprint Reading/Mach I**

Prerequisites: None  
Corequisites: None  
Component: None

This course covers the basic principles of blueprint reading and sketching. Topics include multi-view drawings; interpretation of conventional lines; and dimensions, notes, and thread notations. Upon completion, students should be able to interpret basic drawings, visualize parts, and make pictorial sketches.
MAC 132 Blueprint Reading/Mach II 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces more complex industrial blueprints. Emphasis is placed on auxiliary views, section views, violations of true project, special views, applications of GD & T, and interpretation of complex parts. Upon completion, students should be able to read and interpret complex industrial blueprints.

MAC 141 Machining Applications I 02 06 00 04
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to a variety of material-working processes that are common to the machining industry. Topics include safety, process-specific machining equipment, measurement devices, setup and layout instruments, and common shop practices. Upon completion, students should be able to safely demonstrate basic machining operations, accurately measure components, and effectively use layout instruments.

MAC 151 Machining Calculations 01 02 00 02
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic calculations as they relate to machining occupations. Emphasis is placed on basic calculations and their applications in the machine shop. Upon completion, students should be able to perform basic shop calculations.

MAC 152 Adv Machining Calc 01 02 00 02
Prerequisites: Take MAC 151
Corequisites: None
Component: None
This course combines mathematical functions with practical machine shop applications and problems. Emphasis is placed on gear ratios, lead screws, indexing problems, and their applications in the machine shop. Upon completion, students should be able to calculate solutions to machining problems.

MAC 224 Advanced CNC Milling 01 03 00 02
Prerequisites: Take MAC 124
Corequisites: None
Component: None
This course covers advanced methods in setup and operation of CNC machining centers. Emphasis is placed on programming and production of complex parts. Upon completion, students should be able to demonstrate skills in programming, operations, and setup of CNC machining centers.

MAC 228 Advanced CNC Processes 02 03 00 03
Prerequisites: Take MAC 121
Corequisites: None
Component: None
This course covers advanced programming, setup, and operation of CNC turning centers and CNC milling centers. Topics include advanced programming formats, control functions, program editing, and part production and inspection. Upon completion, students should be able to manufacture complex parts using CNC turning and milling centers.

MAC 233 Appl in CNC Machining 02 12 00 06
Prerequisites: Take MAC 228
Corequisites: None
Component: None
This capstone course provides students the opportunity to apply skills learned throughout the curriculum. Emphasis is placed on production of parts and assemblies using modern CNC machine tools. Upon completion, students should be able to manufacture complex parts using a variety of CNC machine tools.

MAC 241 Jigs & Fixtures I 02 06 00 04
Prerequisites: Take MAC 112, MAC 132, and MAC 152
Corequisites: None
Component: None
This course introduces the application and use of jigs and fixtures. Emphasis is placed on design and manufacture of simple jigs and fixtures. Upon completion, students should be able to design and build simple jigs and fixtures.

MAM 101 Mam Proc & Image Analysis 03 03 00 04
Prerequisites: None
Corequisites: None
Component: None
This course provides the fundamentals of mammography positioning, patient care, and image analysis. Topics include breast anatomy, physiology, pathology and treatment of breast disease, patient preparation/education, mammographic procedures, and interventional procedures. Upon completion, students should be able to demonstrate competence in these areas.

MAM 102 Mam Instrumentation & Qa 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course is a comprehensive study of digital mammography equipment, quality assurance, and quality control.

MAM 103 Digital Mammography 01 00 00 01
Prerequisites: None
Corequisites: None
Component: None
This course provides the fundamentals of mammography positioning, patient care, and image analysis. Topics include breast anatomy, physiology, pathology and treatment of breast disease, patient preparation/education, mammographic procedures, and interventional procedures. Upon completion, students should be able to demonstrate an understanding of mammographic equipment, quality assurance, and quality control.

MAM 104 Digital Breast Tomosynthesis 01 00 00 01
Prerequisites: None
Corequisites: None
Component: None
This course is a comprehensive study of digital breast tomosynthesis (DBT). Topics include the technology of DBT, application of DBT in the clinic setting, digital detector technology, the role of DBT in detecting breast cancer, and performing quality control procedures. Upon completion, students should be able to demonstrate the concepts of digital breast tomosynthesis, understand the application and role of DBT in the clinic setting, and perform quality control procedures.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
MAM 105 Mammography Clinical Ed
Prerequisites: None
Corequisites: None
Component: None
This course provides the opportunity to apply knowledge gained from classroom instruction to the mammography clinical setting. Emphasis is placed on patient care and positioning, mammographic procedures, interventional/special examinations, image analysis, and quality control testing. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

MAM 109 Mammography Capstone
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of mammographic topics as practiced in the didactic and clinical settings. Emphasis is placed on critical thinking and integration of didactic and clinical components. Upon completion, students should be able to demonstrate the comprehensive knowledge required of an entry-level mammographer.

MAT 101 Applied Mathematics I
Prerequisites: Take One Set: Set 1: DMA-010, DMA-020, and DMA-030 Set 2: MAT-060 Set 3: MAT-070 Set 4: MAT-080 Set 5: MAT-090 Set 6: MAT-095 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course is a comprehensive review of arithmetic with basic algebra designed to meet the needs of certificate and diploma programs. Topics include arithmetic and geometric skills used in measurement, ratio and proportion, exponents and roots, applications of percent, linear equations, formulas, and statistics. Upon completion, students should be able to solve practical problems in their specific areas of study. This course is intended for diploma programs.

MAT 110 Math Measurement & Literacy
Prerequisites: Take All: DMA-010, DMA-020, and DMA-030 or Placement Test Equivalent
Corequisites: None
Component: None
This course provides an activity-based approach that develops measurement skills and mathematical literacy using technology to solve problems for non-math intensive programs. Topics include unit conversions and estimation within a variety of measurement systems; ratio and proportion; basic geometric concepts; financial literacy; and statistics including measures of central tendency, dispersion, and charting of data. Upon completion, students should be able to solve practical problems in their specific areas of study. This course is intended for diploma programs.

MAT 121 Algebra/Trigonometry I
Prerequisites: Take One Set: Set 1: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and DMA-060 Set 2: DMA-010, DMA-020, DMA-030, DMA-045 and DMA-060 Set 3: DMA-025, DMA-040, DMA-050, and DMA-060 Set 4: DMA-025, DMA-045, and DMA-060 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an integrated approach to technology and the skills required to manipulate, display, and interpret mathematical functions and formulas used in problem solving. Topics include the properties of plane and solid geometry, area and volume, and basic proportion applications; simplification, evaluation, and solving of algebraic equations and inequalities and radical functions; complex numbers; right triangle trigonometry; and systems of equations. Upon completion, students will be able to demonstrate the ability to use mathematics and technology for problem-solving, analyzing and communicating results.

MAT 143 Quantitative Literacy
Prerequisites: Take All One Set: Set 1: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and DRE-098 Set 2: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and ENG-095* Set 3: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and ENG-090* and RED-090* or Placement Test Equivalent
Corequisites: None
Component: None
This course is designed to engage students in complex and realistic situations involving the mathematical phenomena of quantity, change and relationship, and uncertainty through project- and activity-based assessment. Emphasis is placed on authentic contexts which will introduce the concepts of numeracy, proportional reasoning, dimensional analysis, rates of growth, personal finance, consumer statistics, practical probabilities, and mathematics for citizenship. Upon completion, students should be able to utilize quantitative information as consumers and to make personal, professional, and civic decisions by decoding, interpreting, using, and communicating quantitative information found in modern media and encountered in everyday life. This course has been approved for transfer under the CAA as a general education course in Mathematics (Quantitative). This is a Universal General Education Transfer Component (UGETC) course.

MAT 152 Statistical Methods I
Prerequisites: Take One Set: Set 1: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and DRE-098 Set 2: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and ENG-095* Set 3: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and ENG-090* and RED-090* or Placement Test Equivalent
Corequisites: None
Component: None
This course provides a project-based approach to introductory statistics with an emphasis on using real-world data and statistical literacy. Topics include descriptive statistics, correlation and regression, basic probability, discrete and continuous probability distributions, confidence intervals and hypothesis testing. Upon completion, students should be able to use appropriate technology to describe important characteristics of a data set, draw inferences about a population from sample data, interpret and communicate results. This course has been approved for transfer under the CAA as a general education course in Mathematics (Quantitative). This course has been approved for transfer under the ICAA as a general education course in Mathematics (Quantitative). This is a Universal General Education Transfer Component (UGETC) course.

MAT 167 Discrete Mathematics
Prerequisites: Take MAT 121 or MAT 171
Corequisites: None
Component: None
This course is designed to develop problem-solving and reasoning skills using an algorithmic approach. Topics include sets, number theory, numeration systems, linear programming, traditional and propositional logic, truth tables, Venn diagrams, elementary proofs, and Boolean algebra. Upon completion, students should be able to apply logic and other mathematical concepts to solve a variety of problems. This course is designed to engage students in complex and realistic situations involving the mathematical phenomena of quantity, change and relationship, and uncertainty through project- and activity-based assessment. Emphasis is placed on authentic contexts which will introduce the concepts of numeracy, proportional reasoning, dimensional analysis, rates of growth, personal finance, consumer statistics, practical probabilities, and mathematics for citizenship. Upon completion, students should be able to utilize quantitative information as consumers and to make personal, professional, and civic decisions by decoding, interpreting, using, and communicating quantitative information found in modern media and encountered in everyday life. This course has been approved for transfer under the CAA as a general education course in Mathematics (Quantitative). This course has been approved for transfer under the ICAA as a general education course in Mathematics (Quantitative). This is a Universal General Education Transfer Component (UGETC) course.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
MAT 171 Precalculus Algebra
Prerequisites: Take One Set: Set 1: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, DMA-060, DMA-070, and DMA-080 Set 2: DMA-010, DMA-020, DMA-030, DMA-040, DMA-050, and DMA-065 Set 3: MAT-121 or Placement Test Equivalent
Corequisites: Component: None
This course is designed to develop topics which are fundamental to the study of Calculus. Emphasis is placed on solving equations and inequalities, solving systems of equations and inequalities, and analysis of functions (absolute value, radical, polynomial, rational, exponential, and logarithmic) in multiple representations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to algebra-related problems with and without technology. This course has been approved for transfer under the CAA as a general education course in Mathematics. This course has been approved for transfer under the ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 172 Precalculus Trigonometry
Prerequisites: Take MAT 171
Corequisites: Component: None
This course is designed to develop an understanding of topics which are fundamental to the study of Calculus. Emphasis is placed on the analysis of trigonometric functions in multiple representations, right and oblique triangles, vectors, polar coordinates, conic sections, and parametric equations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to trigonometry-related problems with and without technology. This course has been approved for transfer under the CAA as a general education course in Mathematics. This course has been approved for transfer under the ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 263 Brief Calculus
Prerequisites: Take MAT 171
Corequisites: None Component: None
This course is designed to introduce concepts of differentiation and integration and their applications to solving problems. Topics include graphing, differentiation, and integration with emphasis on applications drawn from business, economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results. This course has been approved for transfer under the CAA as a general education course in Mathematics. This course has been approved for transfer under the ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 271 Calculus I
Prerequisites: Take MAT 172
Corequisites: None Component: None
This course is designed to develop the topics of differential and integral calculus. Emphasis is placed on limits, continuity, derivatives and integrals of algebraic and transcendental functions of one variable. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to derivative-related problems with and without technology. This course has been approved for transfer under the CAA as a general education course in Mathematics. This course has been approved for transfer under the ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 272 Calculus II
Prerequisites: Take MAT 271
Corequisites: None Component: None
This course is designed to develop advanced topics of differential and integral calculus. Emphasis is placed on the applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to integral-related problems with and without technology. This course has been approved for transfer under the CAA as a general education course in Mathematics. This course has been approved for transfer under the ICAA as a general education course in Mathematics. The Transfer Advisory Committee changed the status of this course from General Education: Math/AS to Universal General Education Transfer Component (UGETC): Math/AS on December 2, 2015.

MAT 273 Calculus III
Prerequisites: Take MAT 272
Corequisites: None Component: None
This course is designed to develop the topics of multivariate calculus. Emphasis is placed on multivariate functions, partial derivatives, multiple integration, solid analytical geometry, vector valued functions, and line and surface integrals. Upon completion, students should be able to select and use appropriate models and techniques for finding the solution to multivariate-related problems with and without technology. This course has been approved for transfer under the CAA as a general education course in Mathematics.

MAT 280 Linear Algebra
Prerequisites: Take MAT 271
Corequisites: None Component: None
This course provides an introduction to linear algebra topics. Emphasis is placed on the development of abstract concepts and applications for vectors, systems of equations, matrices, determinants, vector spaces, multi-dimensional linear transformations, eigenvectors, eigenvalues, diagonalization and orthogonality. Upon completion, students should be able to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to linear algebra-related problems with and without technology. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MAT 285 Differential Equations
Prerequisites: Take MAT 272
Corequisites: None Component: None
This course provides an introduction to topics involving ordinary differential equations. Emphasis is placed on the development of abstract concepts and applications for first-order and linear higher-order differential equations, systems of differential equations, numerical methods, series solutions, eigenvalues and eigenvectors, and LaPlace transforms. Upon completion, students should be able to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to differential equations-related problems with and without technology. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

This course covers the elements of advertising and sales promotion in the business environment. Topics include advertising and sales promotion appeals, selection of media, use of advertising and sales promotion as a marketing tool, and means of testing effectiveness. Upon completion, students should be able to demonstrate an understanding of the concepts covered through application.

This course introduces basic anatomy and physiology. Emphasis is placed on the relationship between body structure and function and the procedures common to health care. Upon completion, students should be able to identify body system components and functions relating this knowledge to the delivery of health care.

This course introduces the vocabulary, abbreviations, and symbols used in the language of medicine. Emphasis is placed on building medical terms using prefixes, suffixes, and word roots. Upon completion, students should be able to pronounce, spell, and define accepted medical terms.

This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making.

This course examines the role of retailing in the economy. Topics include the development of present retail structure, functions performed, effective operations, and managerial problems resulting from current economic and social trends. Upon completion, students should be able to demonstrate an understanding of the principles of retailing.

This course introduces basic layout design and commercial display in retail and service organizations. Topics include an analysis of display as a visual merchandising medium and an examination of the principles and applications of display and design. Upon completion, students should be able to plan, build, and evaluate designs and displays. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program.

This course is designed to describe consumer behavior as applied to the exchange processes involved in acquiring, consuming, and disposing of goods and services. Topics include an analysis of basic and environmental determinants of consumer behavior with emphasis on the decision-making process. Upon completion, students should be able to analyze concepts related to the study of the individual consumer.

This course stresses the importance of customer relations in the business world. Emphasis is placed on learning how to respond to complex customer requirements and to efficiently handle stressful situations. Upon completion, students should be able to demonstrate the ability to handle customer relations. This course is also available through the Virtual Learning Community (VLC).

This course provides information for decision making by providing guidance in developing, analyzing, and using data. Emphasis is placed on marketing research as a tool in decision making. Upon completion, students should be able to design and conduct a marketing research project and interpret the results. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program. This course is also available through the Virtual Learning Community (VLC).

This course extends the study of diverse marketing strategies. Emphasis is placed on case studies and small-group projects involving research or planning. Upon completion, students should be able to effectively participate in the formulation a marketing study. This course is a unique concentration requirement of the Marketing and Retailing concentration in the Business Administration program.

This course introduces public relations as it affects communications, strategic planning, and management of the organization. Topics include basic principles and functions of management that guide public relations activities as applied to businesses, services, institutions, and associations. Upon completion, students should be able to perform the communications, evaluation, planning, and research activities of the public relations professional.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
MKT 231 Health Care Marketing
Prerequisites: Take MKT-120
Corequisites: None
Component: None
This course is designed to help students gain an understanding of how the principles of marketing are used in a health care setting. Topics include market development, market segmentation, market research, advertising and promotion, and service development for health care marketing. Upon completion, students should be able to plan, develop, and implement a basic marketing plan for an institution within the health care industry.

MKT 232 Social Media Marketing
Prerequisites: None
Corequisites: None
Component: None
This course is designed to build students’ social media marketing skills by utilizing projects that give students hands on experience implementing social media marketing strategies. Topics include integrating different social media technologies into a marketing plan, creating social media marketing campaigns, and applying appropriate social media tools. Upon completion, students should be able to use social media technologies to create and improve marketing efforts for businesses.

MNT 110 Intro to Maint Procedures
Prerequisites: None
Corequisites: None
Component: None
This course covers basic maintenance fundamentals for power transmission equipment. Topics include equipment inspection, lubrication, alignment, and other scheduled maintenance procedures. Upon completion, students should be able to demonstrate knowledge of accepted maintenance procedures and practices according to current industry standards.

MNT 111 Maintenance Practices
Prerequisites: None
Corequisites: None
Component: None
This course provides in-depth theory and practical applications relating to predictive and preventive maintenance programs. Emphasis is placed on equipment failure analysis, maintenance management software, and techniques such as vibration and infrared analysis. Upon completion, students should be able to demonstrate an understanding of modern analytical and documentation methods.

MNT 220 Rigging and Moving
Prerequisites: None
Corequisites: None
Component: None
This course covers the principles of safe rigging practices for handling, placing, installing, and moving heavy machinery and equipment. Topics include safety, weight and dimensional estimation, positioning of equipment slings, rollers, jacks, levers, dollies, ropes, chains, padding, and other related topics. Upon completion, students should be able to safely relocate and set up equipment using accepted rigging practices.

MNT 230 Pumps & Piping Systems
Prerequisites: None
Corequisites: None
Component: None
This course covers pump installation and maintenance and related valves and piping systems. Topics include various types of pump systems and their associated valves, piping requirements, and other related topics. Upon completion, students should be able to select and install pump and piping systems and demonstrate proper maintenance and troubleshooting procedures.

MSI 110 Military Science I
Prerequisites: None
Corequisites: None
Component: None
This course introduces military-style training and confidence building, including military weapons firing, rappelling, and other related material. Emphasis is placed on US Army and ROTC organization, leadership and management techniques, principles of war, evolution of weapons, and military tactics. Upon completion, students should be able to identify and explain the basics of military science and put into practice the art of organizing, motivating, and leading others.

MSI 120 Military Science II
Prerequisites: None
Corequisites: None
Component: None
This course covers the use of maps and compasses for land navigation, leadership principles and techniques, and military written and oral communication. Topics include orienteering compass techniques, assault boat training, time management, military briefings, and basic survival skills. Upon completion, students should be able to fulfill requirements for entry into the ROTC advanced program and compete for continuing ROTC scholarships.

MSI 210 Military Science III
Prerequisites: None
Corequisites: None
Component: None
This course emphasizes basic concepts in leadership, team building, and management. Topics include land navigational skills, basic first aid, oral communication, military briefings and personal management skills. Upon completion, students should be able to manage and communicate effectively in a small team environment.

MSI 220 Military Science IV
Prerequisites: None
Corequisites: None
Component: None
This course completes the preparation for accession into the ROTC advanced program. Topics include introduction to the Leadership Development Program (LDP), operation orders, advance land navigation techniques, small unit tactics, and physical training. Upon completion, students will be eligible to apply for entry into the ROTC Advanced Program.

MUS 110 Music Appreciation
Prerequisites: None
Corequisites: None
Component: None
This course is a general education course in Humanities/Fine Arts. This course is a general education course in Humanities/Fine Arts. This course is a general education course in Humanities/Fine Arts. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course is a General Education Transfer Component (UGETC) course.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
MUS 112 Introduction to Jazz
Prerequisites: None
Corequisites: None
Component: None
This course introduces the origins and musical components of jazz and the contributions of its major artists. Emphasis is placed on the development of discriminating listening habits, as well as the investigation of the styles and structural forms of the jazz idiom. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

MUS 113 American Music
Prerequisites: None
Corequisites: None
Component: None
This course introduces various musical styles, influences, and composers of the United States from pre-Colonial times to the present. Emphasis is placed on the broad variety of music particular to American culture. Upon completion, students should be able to demonstrate skills in basic listening and understanding of American music. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

MUS 114 Non-Western Music
Prerequisites: None
Corequisites: None
Component: None
This course provides a basic survey of the music of the non-Western world. Emphasis is placed on non-traditional instruments, sources, and performing practices. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of non-Western music. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

MUS 121 Music Theory I
Prerequisites: None
Corequisites: None
Component: None
This course provides an in-depth introduction to melody, rhythm, and harmony. Emphasis is placed on fundamental melodic, rhythmic, and harmonic analysis, introduction to part writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 122 Music Theory II
Prerequisites: Take MUS 121
Corequisites: None
Component: None
This course is a continuation of studies begun in MUS 121. Emphasis is placed on advanced melodic, rhythmic, and harmonic analysis and continued studies in part-writing, ear-training, and sight-singing. Upon completion, students should be able to demonstrate proficiency in the recognition and application of the above. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 123 Music Composition
Prerequisites: Take One: MUS-111 or MUS-121
Corequisites: None
Component: None
This course provides a study of elementary forms and traditional approaches to the organization of melody, harmony, rhythm, etc. in musical composition. Emphasis is placed on using musical notation to create new musical works. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 131 Chorus I
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity to gain experience singing in a chorus. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 132 Chorus II
Prerequisites: Take MUS-131
Corequisites: None
Component: None
This course provides a continuation of studies begun in MUS 131. Emphasis is placed on vocal techniques and the study and performance of a variety of styles and periods of choral literature. Upon completion, students should be able to demonstrate skills needed to participate in choral singing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 133 Band I
Prerequisites: None
Corequisites: None
Component: None
This course provides an opportunity for those who play a band instrument to gain experience playing in an ensemble. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 134 Band II
Prerequisites: Take MUS 133
Corequisites: None
Component: None
This course is a continuation of MUS 133. Emphasis is placed on band techniques and the study and performance of a variety of styles and periods of band literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

This course is a survey of Rock music from the early 1950's to the present. Emphasis is placed on musical groups, soloists, and styles related to the evolution of this idiom and on related historical and social events. Upon completion, students should be able to identify specific styles and to explain the influence of selected performers within their respective eras. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

MUS 211 History of Country Music

Prerequisites: None
Corequisites: None
Component: None
This course introduces the varied origins of country music and the commercialization of this art form. Emphasis is placed on historical, sociocultural, and stylistic factors related to country music and musicians. Upon completion, students should be able to identify specific styles and explain the influence of pop culture on the development of country music. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

MUS 212 American Musical Theatre

Prerequisites: None
Corequisites: None
Component: None
This course covers the origins and development of the musical from Show Boat to the present. Emphasis is placed on the investigation of the structure of the musical and its components through listening and analysis. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

MUS 213 Opera and Musical Theatre

Prerequisites: None
Corequisites: None
Component: None
This course covers the origins and development of opera and musical theater from the works of Claudio Monteverdi to the present. Emphasis is placed on how the structure and components of opera and musicals reflect dramaturgy through listening examples and analysis. Upon completion, students should be able to demonstrate analytical and listening skills in understanding both opera and the musical. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

MUS 214 Country Music

Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic patterns and skills for conducting instrumental and vocal groups. Emphasis is placed on conducting beat patterns, expressive gestures, fermatas, accents, tempos, and rehearsal techniques. Upon completion, students should be able to demonstrate the above skills by conducting vocal and/or instrumental groups. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
This course is a continuation of MUS 142. Emphasis is placed on the development of performance skills and the study of styles and periods of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 242 Ensemble IV
Prerequisites: Take MUS 241
Corequisites: None
Component: None
This course is a continuation of MUS 241. Emphasis is placed on the development of performance skills and the study of styles of ensemble literature. Upon completion, students should be able to demonstrate skills needed to participate in ensemble playing leading to performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 253 Big Band
Prerequisites: None
Corequisites: None
Component: None
This course includes the Big Band instrumentation of five saxes, four trumpets, four trombones, and four-piece rhythm section (bass, piano, drums, and guitar). Emphasis is placed on learning the repertoire specifically written for Big Band instrumentation. Upon completion, students should be able to demonstrate skills needed to participate in performance of Big Band music. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 261 Applied Music III
Prerequisites: Take MUS 162
Corequisites: None
Component: None
This course is a continuation of MUS 162. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 262 Applied Music IV
Prerequisites: Take MUS 261
Corequisites: None
Component: None
This course is a continuation of MUS 261. Emphasis is placed on techniques and styles and the exploration and study of appropriate literature. Upon completion, students should be able to demonstrate proficiency in the studied skills and repertoire through performance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 273 Opera Production III
Prerequisites: Take MUS-174
Corequisites: None
Component: This course provides an applied laboratory study of the processes involved in the production of an opera. Topics include fundamental practices, principles, and techniques associated with producing operas of various musical periods with an emphasis on stagecraft. Upon completion, students should be able to participate in an assigned position in a college opera production. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

MUS 274 Opera Production IV
Prerequisites: Take MUS-273
Corequisites: None
Component: This course provides an applied laboratory study of the processes involved in the production of an opera. Topics include fundamental practices, principles, and techniques associated with producing operas of various musical periods with an emphasis on rehearsal and performance techniques. Upon completion, students should be able to participate in an assigned position in a college opera production. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

NAS 101 Nurse Aide I
Prerequisites: None
Corequisites: None
Component: None
This course includes basic nursing skills required to provide safe, competent personal care for individuals. Emphasis is placed on person-centered care, the aging process, communication, safety/emergencies, infection prevention, legal and ethical issues, vital signs, height and weight measurements, elimination, nutrition, basic restorative care/rehabilitation, dementia, mental health and end-of-life care. Upon completion, students should be able to demonstrate knowledge and skills and be eligible to test for listing on the North Carolina Nurse Aide I Registry.

NAS 102 Nurse Aide II
Prerequisites: Take NAS 101
Corequisites: None
Component: None
This course provides training in Nurse Aide II tasks. Emphasis is placed on the role of the Nurse Aide II, sterile technique and specific tasks such as urinary catheterization, wound care, respiratory procedures, ostomy care, peripheral IV assistive activities, and alternative feeding methods. Upon completion, students should be able to demonstrate knowledge and skills and safe performance of skills necessary to be eligible for listing on the North Carolina Nurse Aide II Registry.

NET 110 Networking Concepts
Prerequisites: None
Corequisites: None
Component: None
This course introduces students to the networking field. Topics include network terminology and protocols, local-area networks, wide-area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols. This course is also available through the Virtual Learning Community (VLC).

Refer to the FTCC website for the most current information. Go to www.faytechec.edu/academics/.

<tbody>
<tr>
<td>NET 125</td>
<td>Networking Basics</td>
<td>None</td>
<td>None</td>
<td>None</td>
<td>This course introduces the architecture, structure, functions, components, and models of the Internet and computer networks. Topics include introduction to the principles of IP addressing and fundamentals of Ethernet concepts, media, and operations. Upon completion, students should be able to build simple LANs, perform basic configurations for routers and switches, and implement IP addressing schemes.</td>
</tr>
<tr>
<td>NET 126</td>
<td>Routing Basics</td>
<td>Take NET-125</td>
<td>None</td>
<td>None</td>
<td>This course focuses on initial router configuration, router software management, routing protocol configuration, TCP/IP, access control lists (ACLs). Emphasis will be placed on the fundamentals of router configuration, managing router software, routing protocol, and access lists. Upon completion, students should have an understanding of routers and their role in WANs, router configuration, routing protocols, TCP/IP, troubleshooting, and ACLs.</td>
</tr>
<tr>
<td>NET 135</td>
<td>Data Center Networking</td>
<td>None</td>
<td>None</td>
<td>None</td>
<td>This course introduces the field of data center network administration. Emphasis is placed on foundational data center concepts such as designing, implementing and troubleshooting data center technologies. Upon completion, students will be able to enter the field of data center network administration.</td>
</tr>
<tr>
<td>NET 175</td>
<td>Wireless Technology</td>
<td>None</td>
<td>None</td>
<td>None</td>
<td>This course introduces the student to wireless technology and interoperability with different communication protocols. Topics include Wireless Application Protocol (WAP), Wireless Mark-up language (WML), link manager, service discovery protocol, transport layer and frequency band. Upon completion, students should be able to discuss in written and oral form protocols and procedures required for different wireless applications.</td>
</tr>
<tr>
<td>NET 225</td>
<td>Routing &amp; Switching I</td>
<td>Take NET-126</td>
<td>None</td>
<td>None</td>
<td>This course focuses on advanced IP addressing techniques, intermediate routing protocols, command-line interface configuration of switches, Ethernet switching, VLANs, STP, and VTP. Emphasis will be placed on application and demonstration of skills acquired in pre-requisite courses. Upon completion, students should be able to perform tasks related to VLAN, routing protocols, switching concepts and configuration, STP, VLANs, and VTP.</td>
</tr>
<tr>
<td>NET 226</td>
<td>Routing &amp; Switching II</td>
<td>Take NET-225</td>
<td>None</td>
<td>None</td>
<td>This course introduces WAN theory and design, WAN technology, PPP, Frame Relay, ISDN, and additional case studies. Topics include network congestion problems, TCP/IP transport and network layer protocols, advanced routing and switching configuration, ISDN protocols, PPP encapsulation operations on a router. Upon completion, students should be able to provide solutions for network routing problems, identify ISDN protocols, and describe the Spanning Tree protocol.</td>
</tr>
<tr>
<td>NET 289</td>
<td>Networking Project</td>
<td>Take All: CTI-110, CTI-120, and CTS-115</td>
<td>None</td>
<td>None</td>
<td>This course provides an opportunity to complete a significant networking project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete a project from the definition phase through implementation.</td>
</tr>
<tr>
<td>NOS 110</td>
<td>Operating System Concepts</td>
<td>None</td>
<td>None</td>
<td>None</td>
<td>This course introduces students to a broad range of operating system concepts, including installation and maintenance. Emphasis is place on operating system concepts, management, maintenance, and resources required. Upon completion of this course, students will have an understanding of OS concepts, installation, management, maintenance, using a variety of operating systems.</td>
</tr>
<tr>
<td>NOS 120</td>
<td>Linux/UNIX Single User</td>
<td>None</td>
<td>None</td>
<td>None</td>
<td>This course develops the necessary skills for students to develop both GUI and command line skills for using and customizing a Linux workstation. Topics include Linux file system and access permissions, GNOME Interface, VI editor, X Window System expression pattern matching, I/O redirection, network and printing utilities. Upon completion, students should be able to customize and use Linux systems for command line requirements and desktop productivity roles.</td>
</tr>
<tr>
<td>NOS 125</td>
<td>Linux/Unix Scripting</td>
<td>Take NOS-120</td>
<td>None</td>
<td>None</td>
<td>This course covers the concepts and features of shell scripting. Topics include process control, shell scripting, advanced search techniques and power user utilities. Upon completion, students should be able to successfully perform various shell scripting tasks.</td>
</tr>
<tr>
<td>NOS 130</td>
<td>Windows Single User</td>
<td>Take NOS-110</td>
<td>None</td>
<td>None</td>
<td>This course introduces operating system concepts for single-user systems. Topics include hardware management, file and memory management, system configuration/optimization, and utilities. Upon completion, students should be able to perform operating systems functions at the support level in a single-user environment.</td>
</tr>
<tr>
<td>NOS 160</td>
<td>Mobile Operating Systems</td>
<td>None</td>
<td>None</td>
<td>None</td>
<td>This course examines operating system features and applications common to mobile operating systems. Topics include implementation, applications, file and memory management, system configuration, utilities and security features. Upon completion, students should be able to configure and manage mobile operating system implementations.</td>
</tr>
</tbody>
</table>

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
NOS 220 Linux/UNIX Admin I
Prerequisites: Take NOS 120
Corequisites: None
Component: None
This course introduces the Linux file system, group administration, and system hardware controls. Topics include installation, creation and maintaining file systems, NIS client and DHCP client configuration, NFS, SMB/Samba, Configure X, Gnome, KDE, basic memory, processes, and security. Upon completion, students should be able to perform system administration tasks including installation, configuring and attaching a new Linux workstation to an existing network.

NOS 230 Windows Administration I
Prerequisites: Take NOS-110
Corequisites: None
Component: None
This course covers the installation and configuration of a Windows Server operating system. Emphasis is placed on the basic configuration of core network services, Active Directory and group policies. Upon completion, students should be able to install and configure a Windows Server operating system.

NOS 231 Windows Administration II
Prerequisites: Take NOS-230
Corequisites: None
Component: None
This course covers the management of a Windows Server operating system. Emphasis is placed on the deployment of print services, network services, Active Directory, group policies and access controls. Upon completion, students should be able to deploy and manage services on a Windows Server operating system.

NOS 232 Windows Administration III
Prerequisites: Take NOS-230
Corequisites: None
Component: None
This course covers management and configuration of a highly available Windows Server operating system. Emphasis is placed on the implementation of business continuity and disaster recovery procedures for network services and access controls. Upon completion, students should be able to manage and configure a highly available Windows Server operating system.

NOS 233 Windows Administration IV
Prerequisites: Take NOS-230
Corequisites: None
Component: None
This course covers the design of a Windows Server operating system. Emphasis is placed on the design of network infrastructure, Active Directory, group policies and access controls. Upon completion, students should be able to design and manage services on a Windows Server operating system.

NOS 250 Enterprise Database Servers
Prerequisites: None
Corequisites: None
Component: None
This course is designed to teach the installation and configuration of enterprise database server systems. Emphasis is placed on the installation, configuration and management of enterprise database environments. Upon completion, students should be able to install, configure and maintain enterprise level database server systems.

NPO 110 Intro to Nonprofit Mgmt
Prerequisites: None
Corequisites: None
Component: None
This course provides an overview of the nonprofit sector and its role in society. Topics include growth and development, organizational structure, and working with diverse communities. Upon completion, students should be able to demonstrate an understanding of the nonprofit sector and its impact on communities.

NPO 111 Governance & Leadership
Prerequisites: Take NPO 110
Corequisites: None
Component: None
This course introduces leadership roles and their relation to governance issues in nonprofit organizations. Topics include board interactions with staff, shared governance, and stewardship. Upon completion, students should be able to identify and assess the leader’s role in bringing about significant organizational and societal changes through non-profit organizations.

NPO 120 Fundraising/Stewardship
Prerequisites: None
Corequisites: None
Component: None
This course introduces the principles, strategies, and practice of fundraising and stewardship in nonprofit organizations. Topics include private/public donor cultivation and research, donor database management, special events, planned giving, annual and capital campaigns and software and tracking mechanisms. Upon completion, students should be able to assist in the development of relationship-building strategies and funding plans.

NUR 101 Practical Nursing I
Prerequisites: Departmental Approval
Corequisites: Take BIO 163
Component: None
This course introduces the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts within each domain including assessment, clinical decision making, professional behaviors, caring interventions, biophysical and psychosocial concepts, communication, collaboration, teaching/learning, safety, ethical principles, legal issues, informatics, and evidence-based practice. Upon completion, students should be able to provide safe nursing care across the lifespan incorporating the concepts identified in this course.

NUR 102 Practical Nursing II
Prerequisites: Take BIO-163 and NUR-101
Corequisites: None
Component: None
This course is designed to further develop the concepts within the three domains of the individual, nursing, and healthcare. Emphasis is placed on the concepts within each domain including clinical decision making, caring interventions, biophysical and psychosocial concepts, communication, collaboration, teaching and learning, accountability, safety, informatics, and evidence-based practice. Upon completion, students should be able to provide safe nursing care across the lifespan incorporating the concepts identified in this course.

NUR 103 Practical Nursing III
Prerequisites: Take ENG-111 and NUR-101
Corequisites: None
Component: None
This course is designed to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on biophysical and psychosocial concepts, professional behaviors, healthcare systems, health policy, and quality improvement. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide safe, quality, and individualized entry level nursing care.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course introduces the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts within each domain including medication administration, assessment, nutrition, ethics, interdisciplinary teams, informatics, evidence-based practice, individual-centered care, and quality improvement. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, infection, immunity, mobility, comfort, behaviors, health-wellness-illness, clinical decision-making, caring interventions, managing care, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of grief/loss, violence, health-wellness-illness, collaboration, managing care, safety, advocacy, legal issues, policy, healthcare systems, ethics, accountability, and evidence-based practice. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

This course introduces information concerning sources, effects, legality, and the safe use of medications as therapeutic agents. Emphasis is placed on nursing responsibility, accountability, pharmacokinetics, routes of medication administration, contraindications and side effects. Upon completion, students should be able to compute dosages and administer medication safely.

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, infection, immunity, mobility, comfort, behaviors, health-wellness-illness, clinical decision-making, caring interventions, managing care, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

This course covers the basic principles of materials management. Emphasis is placed on the planning, procurement, movement, and storage of materials. Upon completion, students should be able to demonstrate an understanding of the concepts and techniques related to materials management.

This course provides a foundation for creating constructive relationships and presents the processes behind problem solving for groups and individuals. Emphasis is placed on building constructive relationships, confronting issues, winning support, and the basic processes of problem solving. Upon completion, students should be able to enhance relationships with others and apply a systematic approach to problem solving.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics.
This course covers fundamental concepts associated with multi-task management and coordination. Topics include flow diagrams, process and operations charts, network scheduling, Gantt charts, and PERT and Critical Path Methods as tools in project management. Upon completion, students should be able to understand and apply project management tools and methods.

**OST 260 Issues in Operations Mgt.**

| Component: | None |

This course presents a variety of topics that highlight contemporary problems and issues related to operations management. Emphasis is placed on production and operations planning, environmental health and safety, materials management, and quality systems. Upon completion, students should be able to demonstrate the ability to make decisions and resolve problems in an operations management environment.

**OST 080 Keyboarding Literacy**

| Component: | None |

This course is designed to develop elementary keyboarding skills. Emphasis is placed on mastery of the keyboard. Upon completion, students should be able to demonstrate basic proficiency in keyboarding.

**OST 122 Office Computations**

| Component: | None |

This course introduces the keypad and the touch method using the electronic calculator. Topics include mathematical functions in business applications. Upon completion, students should be able to use the electronic calculator to solve a wide variety of problems commonly encountered in business.

**OST 130 Comprehensive Keyboarding**

| Component: | None |

This course is designed to develop keyboarding skills and introductory document formatting. Emphasis is placed on keyboarding techniques and formatting basic business documents. Upon completion, students should be able to create documents in an ever-changing workplace.

**OST 131 Keyboarding**

| Component: | None |

This course covers basic keyboarding skills. Emphasis is placed on the touch system, correct techniques, and development of speed and accuracy. Upon completion, students should be able to type at an acceptable speed and accuracy level using the touch system.

**OST 132 Keyboard Skill Building**

| Component: | None |

This course is designed to increase speed and improve accuracy in keyboarding. Emphasis is placed on diagnostic tests to identify accuracy and speed deficiencies followed by corrective drills. Upon completion, students should be able to keyboard rhythmically with greater accuracy and speed.

**OST 134 Text Entry & Formatting**

| Component: | None |

This course is designed to provide skills needed to increase speed, improve accuracy, and format documents. Topics include letters, memos, tables, and business reports. Upon completion, students should be able to produce documents and key timed writings at speeds commensurate with employability. This course is also available through the Virtual Learning Community (VLC).

**OST 135 Advanced Text Entry & Formatting**

| Component: | None |

This course is designed to incorporate computer application skills in the generation of office documents. Emphasis is placed on advanced document production with increased speed and accuracy. Upon completion, students should be able to make independent decisions regarding planning, style, and method of presentation.

**OST 136 Word Processing**

| Component: | None |

This course is designed to introduce word processing concepts and applications. Topics include preparation of a variety of documents and mastery of specialized software functions. Upon completion, students should be able to work effectively in a computerized word processing environment. This course is also available through the Virtual Learning Community (VLC).

**OST 137 Office Applications I**

| Component: | None |

This course introduces the concepts and functions of software that meets the changing needs of the community. Emphasis is placed on the terminology and use of software through a hands-on approach. Upon completion, students should be able to use software in a business environment.

**OST 138 Advanced Software Appl**

| Component: | None |

This course is designed to improve the proficiency in the utilization of software applications used in business offices through a hands-on approach. Emphasis is placed on in-depth usage of software to create a variety of documents applicable to current business environments. Upon completion, students should be able to master the skills required to design documents that can be customized using the latest software applications.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
This course uses a language-structure approach to present the terminology and vocabulary that will be encountered in medical office settings. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in approximately one-half of the systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.

This course is a continuation of OST 141 and continues the study, using a language-structure approach, of medical office terminology and vocabulary. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in the remaining systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.

This course introduces prefixes, suffixes, and word roots used in the dental office. Topics include dental anatomy and oral structures, tooth origin and formation, examination and prevention, tooth restorations, radiography, pain management and pharmacology. Upon completion, students should be able to pronounce, spell, and define dental terms as related to a dental practice.

This course introduces Current Procedural Terminology, International Classification of Diseases, and Healthcare Common Procedural Coding System coding as they apply to dental insurance and billing. Topics include Current Dental Terminology-2 Dental Codes, office collections, American Dental Association Dental Claim Form, and insurance coverage. Upon completion, students should be able to describe the steps of the total billing/collections cycle for a dental office.

This course introduces fundamentals of medical insurance and billing. Emphasis is placed on the medical billing cycle to include third party payers, coding concepts, and form preparation. Upon completion, students should be able to explain the life cycle of and accurately complete a medical insurance claim.

This course introduces the complex legal, moral, and ethical issues involved in providing health-care services. Emphasis is placed on the legal requirements of medical practices; the relationship of physician, patient, and office personnel; professional liabilities; and medical practice liability. Upon completion, students should be able to demonstrate a working knowledge of current medical law and accepted ethical behavior. This course is also available through the Virtual Learning Community (VLC).

This course introduces basic bookkeeping concepts. Topics include entering data in accounts payable and receivable, keeping petty cash records, maintaining inventory, reconciling bank statements, running payroll, and generating simple financial reports. Upon completion, students should be able to demonstrate competence in the entry and manipulation of data to provide financial solutions for the office.

This course covers the terminology appropriate to the legal profession. Topics include legal research, court systems, litigation, civil and criminal law, probate, real and personal property, contracts and leases, domestic relations, equity, and corporations. Upon completion, students should be able to spell, pronounce, define, and accurately use legal terms.

This course covers legal office functions involved in the operation of a law office. Emphasis is placed on procedures in the law office involving the court system, legal research, litigation, probate, and real estate, personal injury, criminal, and civil law. Upon completion, students should be able to demonstrate a high level of competence in performing legal office duties.

This course provides instruction on the skills and procedures needed in today’s medical office. Topics include medical data entry, medical equipment, inventory control, patient scheduling, and managing the financial aspects of a practice. Upon completion, students should be able to display skills and decision-making abilities essential in the medical office.

This course provides a comprehensive study of editing skills needed in the workplace. Emphasis is placed on grammar, punctuation, sentence structure, proofreading, and editing. Upon completion, students should be able to use reference materials to compose and edit text.

This course is designed to develop proficiency in advanced editing skills needed in the office environment. Emphasis is placed on the application of creating effective electronic office documents. Upon completion, students should be able to apply advanced editing skills to compose text.
OST 181 Office Procedures
Prerequisites: None
Corequisites: None
Component: None
This course introduces the skills and procedures needed in today’s office. Topics include effectively interacting with co-workers and the public, processing simple financial and informational documents, and performing functions typical of today’s offices. Upon completion, students should be able to display skills and decision-making abilities essential for functioning in the total office context.

OST 184 Records Management
Prerequisites: None
Corequisites: None
Component: None
This course includes the creation, maintenance, protection, security, and disposition of records stored in a variety of media forms. Topics include alphabetic, geographic, subject, and numeric filing methods. Upon completion, students should be able to set up and maintain a records management system. This course is also available through the Virtual Learning Community (VLC).

OST 223 Admin Office Transcript I
Prerequisites: Take OST 164 and OST 134 or OST 136
Corequisites: None
Component: None
This course provides experience in transcribing documents. Emphasis is placed on appropriate formatting, advanced text editing skills, and transcription techniques. Upon completion, students should be able to transcribe office documents.

OST 233 Office Publications Design
Prerequisites: Take OST 136
Corequisites: None
Component: None
This course provides entry-level skills in using software with desktop publishing capabilities. Topics include principles of page layout, desktop publishing terminology and applications, and legal and ethical considerations of software use. Upon completion, students should be able to design and produce professional business documents and publications.

OST 236 Adv Word Processing
Prerequisites: Take OST 136
Corequisites: None
Component: None
This course develops proficiency in the utilization of advanced word processing functions. Emphasis is placed on advanced word processing features. Upon completion, students should be able to produce a variety of complex business documents.

OST 238 Office Applications III
Prerequisites: Take OST-138
Corequisites: None
Component: None
This course is designed to prepare students to analyze data and prepare advanced documents and reports using office software. Emphasis is placed on in-depth usage of software to create a variety of advanced documents applicable to current business environments. Upon completion, students should be able to master the advanced skills required to design documents that can be customized using the latest software applications.

OST 241 Medical Office Transcription I
Prerequisites: Take MED 121 or OST 141
Corequisites: None
Component: None
This course introduces machine transcription techniques as applied to medical documents. Emphasis is placed on accurate transcription, proofreading, and use of reference materials as well as vocabulary building. Upon completion, students should be able to prepare accurate and usable transcripts of voice recordings in the covered specialties.

OST 242 Medical Office Transcription II
Prerequisites: Take OST 241
Component: None
This course continues building transcription techniques as applied to medical documents. Emphasis is placed on accurate transcription and text editing, efficient use of reference materials, increasing transcription speed and accuracy, and improving understanding of medical terminology. Upon completion, students should be able to display competency in accurately transcribing medical documents.

OST 243 Medical Office Simulation
Prerequisites: Take OST 148
Component: None
This course introduces medical systems used to process information in the automated office. Topics include traditional and electronic information resources, storing and retrieving information, and the billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections. This course is a unique concentration requirement in the Medical Office Systems Technology concentration in the Office Systems Technology program.

OST 244 Med Document Processing
Prerequisites: Take OST 134 or OST 136
Corequisites: None
Component: None
This course provides a hands-on approach in processing medical documents. Emphasis is placed on creating and editing medical documents. Upon completion, students should be able to prepare accurately formatted medical documents.

OST 245 Dental Office Management
Prerequisites: Take OST 147
Component: None
This course introduces the organizational structures, professional issues, and major functions of management in a dental office. Topics include communication skills, telephone techniques, patient relations, clinical records, bookkeeping procedures, office equipment, and inventory management. Upon completion, students should be able to apply the concepts of management within a dental office.

OST 246 Dental Office Simulation
Prerequisites: Take OST 147
Component: None
This course introduces dental software systems used to process information in the dental office. Topics include electronic information entering, storing, and retrieving in the dental office billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections in a dental office software system.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
### OST 247 Procedure Coding

**Prerequisites:** Take OST 141 and OST 148 or HMT 210.
**Corequisites:** None
**Component:** None

This course provides in-depth coverage of procedural coding. Emphasis is placed on CPT and HCPCS coding systems. Upon completion, students should be able to properly code procedures and services performed in a medical facility.

This course introduces the basics of weight training. Emphasis is placed on developing muscular strength, muscular endurance, and muscle tone. Upon completion, students should be able to establish and implement a personal weight training program. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**PED 110 Health and Fitness**
Prerequisites: None
Corequisites: None
Component: None

This course covers the skills necessary to participate in a developmental fitness program. Emphasis is placed on stretching, conditioning exercises, proper clothing, fluid needs, and injury prevention. Upon completion, students should be able to participate in a recreational walking program. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**PED 111 Fitness Through Walking**
Prerequisites: None
Corequisites: None
Component: None

This course introduces fitness through walking. Emphasis is placed on stretching, conditioning exercises, proper clothing, fluid needs, and injury prevention. Upon completion, students should be able to understand and appreciate the role of circuit training as a means to develop fitness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**PED 112 Self-Defense**
Prerequisites: None
Corequisites: None
Component: None

This course introduces self-defense skills developed in PED 125. Emphasis is placed on stances, blocks, punches, and kicks as well as non-physical means of self-defense. Upon completion, students should be able to demonstrate the procedures of yoga. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**PED 113 Self-Defense-Intermediate**
Prerequisites: Take PED 112
Corequisites: None
Component: None

This course introduces more detailed aspects of the discipline of yoga. Topics include breathing and physical postures, relaxation, and mental concentration. Upon completion, students should be able to demonstrate intermediate skills in self-defense. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**PED 114 Self-Defense-Advanced**
Prerequisites: Take PED 113
Corequisites: None
Component: None

This course introduces advanced procedures of yoga. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**PED 115 Self-Defense-Experts**
Prerequisites: Take PED 114
Corequisites: None
Component: None

This course introduces the sport of the triathlon. Topics include the rules, equipment, and skills necessary for the triathlon. Upon completion, students should be able to participate in a triathlon competition. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

**PED 116 Self-Defense-Experts**
Prerequisites: Take PED 115
Corequisites: None
Component: None

This course introduces the basics of weight training. Topics include proper breathing, relaxation techniques, and correct body positions. Upon completion, students should be able to demonstrate the procedures of yoga. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Corequisites: None
Component: None
This course provides practice in the basic skills of river and whitewater canoeing. Emphasis is placed on river running, safety, and care of equipment. Upon completion, students should be able to demonstrate navigation in a moving current, canoe safety, and self-rescue skills. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 165 Sport Science as a Career
Prerequisites: Take DRE-097 or ENG 090 and RED 090 or Placement Test Equivalent
Corequisites: None
Component: None
This course provides students with foundational knowledge about the study of physical activity and career opportunities within the discipline. Emphasis will be placed on the role of physical activity, the subdisciplines of the field, and possible career choices. Upon completion, students should have an understanding of the subdisciplines and employment opportunities within an Exercise and Sport Science program. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 169 Orienteering
Prerequisites: None
Corequisites: None
Component: None
This course introduces the various types of orienteering and proper orienteering techniques. Emphasis is placed on defining various types of orienteering and recognizing and drawing topographic map symbols. Upon completion, students should be able to draw topographic map symbols and negotiate a 3-5 km cross-country orienteering course in a specified time period. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 170 Backpacking
Prerequisites: None
Corequisites: None
Component: None
This course covers the proper techniques for establishing a campsite, navigating in the wilderness, and planning for an overnight trip. Topics include planning for meals, proper use of maps and compass, and packing and dressing for extended periods in the outdoors. Upon completion, students should be able to identify quality backpacking equipment, identify the principles of no-trace camping, and successfully complete a backpacking experience. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 171 Nature Hiking
Prerequisites: None
Corequisites: None
Component: None
This course provides instruction on how to equip and care for oneself and/or others, and participate in nature trail hikes. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 172 Outdoor Living
Prerequisites: None
Corequisites: None
Component: None
This course is designed to acquaint the beginning camper with outdoor skills. Topics include camping techniques such as cooking and preserving food, safety, and setting up camp. Upon completion, students should be able to successfully participate in nature trail hikes. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 173 Rock Climbing
Prerequisites: None
Corequisites: None
Component: None
This course teaches the fundamental skills and safety of rock climbing. Topics include rock climbing, bouldering, rappelling, the correct method of belaying for climbing and rappelling, and knowledge of equipment. Upon completion, students should be able to demonstrate strong and skillful techniques in climbing and rappelling. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
PED 175 Horseback Riding I
Prerequisites: None
Corequisites: None
Component: None
This course introduces beginning and non-riders to recreational horseback riding. Topics include riding skills, equipment, handling of horses, mounting, care of the horse, and coordinated horse-rider balance. Upon completion, students should be able to demonstrate riding, safety, and horse management skills. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 176 Horseback Riding II
Prerequisites: Take PED 175
Corequisites: None
Component: None
This course is designed to give advanced riding experiences in a variety of specialized situations. Emphasis is placed on the development of skills such as jumping, rodeo games, and trail riding. Upon completion, students should be able to demonstrate control and management of the horse and perform various riding techniques. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 181 Snow Skiing-Beginning
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of snow skiing. Topics include basic techniques, safety, and equipment involved in snow skiing. Upon completion, students should be able to ski a down slope, enter and exit a ski lift, and perform basic maneuvers on skis. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 183 Folk Dancing
Prerequisites: None
Corequisites: None
Component: None
This course teaches the fundamental folk dance movements along with cultural traditions from various countries. Emphasis is placed on the history and traditions of the folk dance as well as the movements and the dances themselves. Upon completion, students should be able to demonstrate folk dances as well as knowledge of their origins and cultural traditions. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 186 Dancing for Fitness
Prerequisites: None
Corequisites: None
Component: None
This course is designed to develop movement and recreational dance skills, safety, fitness, coordination, and techniques used to teach various groups. Emphasis is placed on participation and practice with adapting dances for ages and ability levels. Upon completion, students should be able to demonstrate knowledge of fitness through social, folk, and square dance participation and instruction. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 187 Social Dance-Beginning
Prerequisites: None
Corequisites: None
Component: None
This course is designed to give students an introduction to popular social dances. Emphasis is placed on the basics of social dances and a brief history of social dance. Upon completion, students should be able to demonstrate social dance skills and perform several dances. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 210 Team Sports
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of popular American team sports. Emphasis is placed on rules, equipment, and motor skills used in various sports. Upon completion, students should be able to demonstrate knowledge of the sports covered. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 211 New Games
Prerequisites: None
Corequisites: None
Component: None
This course introduces the fundamentals of popular social dances. Emphasis is placed on basic social dance techniques, dances, and a brief history of social dance. Upon completion, students should be able to demonstrate specific dance skills and perform some dances. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 217 Pilates I
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to the Pilates method of body conditioning exercise. Topics include instruction in beginning and intermediate Pilates exercises using a mat or equipment, history of the Pilates method, and relevant anatomy and physiology. Upon completion, students should be able to perform beginning and intermediate exercises, and possess an understanding of the benefits of conditioning the body’s core muscles. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PED 218 Pilates II
Prerequisites: Take PED 217
Corequisites: None
Component: None
This course provides continued instruction in the Pilates method of body conditioning exercise. Topics include instruction in intermediate and advanced Pilates exercises using a mat or equipment, relevant anatomy and physiology, and further discussion of related concepts. Upon completion, students should be able to perform intermediate and advanced exercises, and possess the autonomy to maintain their own personal Pilates practice. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
### PED 220 Exercise for Physically Challenged

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course is designed to improve physical strength, endurance, and range of motion while focusing on individual needs. Emphasis is placed on exercises which are designed and adapted to serve those with special needs. Upon completion, students should be able to show improved physical fitness, body awareness, and an appreciation for their physical well-being. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### PED 240 Advanced PE Skills

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course provides those who have mastered skills in a particular physical education area the opportunity to assist with instruction. Emphasis is placed on methods of instruction, class organization, and progressive skill development. Upon completion, students should be able to design, develop, and implement a unit lesson plan for a skill they have mastered. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### PED 252 Officiating/Baseball/Softball

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course introduces the rules and techniques for sports officiating in baseball and softball. Emphasis is placed on officiating fundamentals and responsibilities. Upon completion, students should be able to demonstrate proper mechanics and knowledge of officiating procedures in baseball and softball. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### PED 254 Coaching Basketball

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course introduces the theory and methods of coaching basketball. Emphasis is placed on rules, game strategies, and selected techniques of coaching basketball. Upon completion, students should be able to demonstrate competent coaching skills in basketball. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### PED 259 Prevention & Care of Athletic Injuries

**Prerequisites:** None  
**Corequisites:** None  
**Component:** None  

This course provides information on the prevention and care of athletic injuries. Topics include safety devices, taping, therapeutic techniques, and conditioning exercises. Upon completion, students should be able to demonstrate proper preventive measures and skills in caring for athletic injuries. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

### PHI 210 History of Philosophy

**Prerequisites:** Take ENG 111  
**Corequisites:** None  
**Component:** None  

This course introduces fundamental philosophical issues through an historical perspective. Emphasis is placed on such figures as Plato, Aristotle, Lao-Tzu, Confucius, Augustine, Aquinas, Descartes, Locke, Kant, Wollstonecraft, Nietzsche, and Sartre. Upon completion, students should be able to identify and distinguish among the key positions of the philosophers studied. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

### PHI 215 Philosophical Issues

**Prerequisites:** Take ENG 111  
**Corequisites:** None  
**Component:** None  

This course introduces fundamental issues in philosophy considering the views of classical and contemporary philosophers. Emphasis is placed on knowledge and belief, appearance and reality, determinism and free will, faith and reason, and justice and inequality. Upon completion, students should be able to identify, analyze, and critically evaluate the philosophical components of an issue. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

### PHI 220 Western Philosophy I

**Prerequisites:** Take ENG 111  
**Corequisites:** None  
**Component:** None  

This course covers Western intellectual and philosophic thought from such figures as the pre-Socratics, Plato, Aristotle, Lao-Tzu, Confucius, Augustine, Aquinas, Descartes, Locke, Kant, Wollstonecraft, Nietzsche, and Sartre. Upon completion, students should be able to trace the development of leading ideas concerning reality, knowledge, reason, and faith. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

### PHI 221 Western Philosophy II

**Prerequisites:** Take ENG 111  
**Corequisites:** None  
**Component:** None  

This course covers Western intellectual and philosophic thought from the early Greeks through the medievalists. Emphasis is placed on such figures as the pre-Socratics, Plato, Aristotle, Epicurus, Epictetus, Augustine, Suarez, Anselm, and Aquinas. Upon completion, students should be able to trace the development of leading ideas regarding reality, knowledge, reason, and faith. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.
This course introduces basic concepts and techniques for distinguishing between good and bad reasoning. Emphasis is placed on deduction, induction, validity, soundness, syllogisms, truth functions, predicate logic, analogical inference, common fallacies, and scientific methods. Upon completion, students should be able to analyze arguments, distinguish between deductive and inductive arguments, test validity, and appraise inductive reasoning. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**PHI 240 Introduction to Ethics**

Prerequisites: Take ENG 111
Corequisites: None
Component: None
This course introduces theories about the nature and foundations of moral judgments and applications to contemporary moral issues. Emphasis is placed on moral theories such as consequentialism, deontology, and virtue ethics. Upon completion, students should be able to apply various ethical theories to moral issues such as abortion, capital punishment, poverty, war, terrorism, the treatment of animals, and issues arising from new technologies. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

**PHI 230 Introduction to Logic**

Prerequisites: Take ENG 111
Corequisites: None
Component: None
This course introduces logic, reasoning, and critical thinking. Emphasis is placed on understanding and evaluating arguments, distinguishing good and bad reasoning, and improving personal reasoning. Topics include deductive logic, inductive logic, probability, and decision making. Upon completion, students should be able to demonstrate an understanding of reasoning processes, evaluate arguments, and make well-reasoned decisions. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts.

**PHI 210 Introduction to Pharmacy**

Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course provides an introduction to the role of the pharmacist in the health care system. Topics include the history of pharmacy, the regulatory environment, and the pharmacist's role in patient care. Upon completion, students should be able to describe the role of the pharmacist in the health care system and understand the importance of patient care. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

**PHI 125 Pharmacology II**

Prerequisites: None
Corequisites: None
Component: None
This course introduces the study of the properties, effects, and therapeutic value of the primary agents in the major drug categories. Topics include nutritional products, blood modifiers, hormones, diuretics, cardiovascular agents, respiratory drugs, and gastrointestinal agents. Upon completion, students should be able to place major drugs into correct therapeutic categories and identify indications, side effects, and trade and generic names.

**PHI 118 Sterile Products**

Prerequisites: Take PHM 110, PHM 111 and PHM 115
Corequisites: None
Component: None
This course provides an introduction to intravenous admixture preparation and other sterile products, including total parenteral nutrition and chemotherapy. Topics include aseptic techniques; facilities, equipment, and supplies utilized in admixture preparation; compatibility and stability; laminar flow hoods; immunizations and irrigation solutions; and quality assurance. Upon completion, students should be able to describe and demonstrate the steps involved in preparation of intermittent and continuous infusions, total parenteral nutrition, and chemotherapy.

**PHI 115 Pharmacy Calculations**

Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course provides an introduction to the metric, apothecaries', and apothecary systems of measurement and the calculations used in pharmacy practice. Topics include ratio and proportion, dosage determinations, percentage preparations, reducing and enlarging formulas, dilution and concentration, alivots, specific gravity and density, and flow rates. Upon completion, students should be able to correctly perform calculations required to properly prepare a medication order.

**PHM 110 Introduction to Pharmacy**

Prerequisites: Department Approval
Corequisites: None
Component: None
This course provides instruction in the technical procedures for preparing and dispensing drugs in the hospital and retail settings under supervision of a registered pharmacist. Topics include drug packaging and labeling, out-patient dispensing, hospital dispensing procedures, controlled substance procedures, inventory control, and non-sterile compounding. Upon completion, students should be able to perform basic supervised dispensing techniques in a variety of pharmacy settings.

**PHM 120 Pharmacology I**

Prerequisites: Take PHM 110
Corequisites: None
Component: None
This course introduces the study of the properties, effects, and therapeutic value of the primary agents in the major drug categories. Topics include autonomic and central nervous system agents, anti-inflammatory agents, and anti-infective drugs. Upon completion, students should be able to place major drugs into correct therapeutic categories and identify indications, side effects, and trade and generic names.

**PHM 115 Pharmacy Calculations**

Prerequisites: Departmental Approval
Corequisites: None
Component: None
This course provides an introduction to the metric, avoirdupois, and apothecary systems of measurement and the calculations used in pharmacy practice. Topics include ratio and proportion, dosage determinations, percentage preparations, reducing and enlarging formulas, dilution and concentration, aliquots, specific gravity and density, and flow rates. Upon completion, students should be able to correctly perform calculations required to properly prepare a medication order.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
This course provides an opportunity to work in pharmacy settings under a pharmacist’s supervision. Emphasis is placed on effective communication with personnel, developing proper employee attitude, and dispensing of medications. Upon completion, students should be able to demonstrate an understanding of pharmacy operations, utilize references, dispense medications, prepare patient charges, and efficiently operate computers.

**PHM 140 Trends in Pharmacy**
- Prerequisites: Take PHM 136
- Corequisites: Take PHM 125
- Component: None
This course covers the major issues, trends, and concepts in contemporary pharmacy practice. Topics include professional ethics, continuing education, job placement, and the latest developments in pharmacy technician practice. Upon completion, students should be able to demonstrate a basic knowledge of the topics discussed.

**PHM 150 Hospital Pharmacy**
- Prerequisites: None
- Corequisites: Take PHM-118
- Component: None
This course provides an in-depth study of hospital pharmacy practice. Topics include hospital organizational structure, committee functions, utilization of reference works, purchasing and inventory control, drug delivery systems, and intravenous admixture preparation. Upon completion, students should be able to explain hospital organization/committee functions, interpret and enter patient orders, fill unit-dose cassettes, and prepare intravenous admixtures.

**PHM 155 Community Pharmacy**
- Prerequisites: Take PHM 110, PHM 111 and PHM 115
- Corequisites: Take PHM 118, PHM 120, and PHM 136
- Component: None
This course covers the operational procedures relating to retail pharmacy. Emphasis is placed on a general knowledge of over-the-counter products, prescription processing, business/inventory management, and specialty patient services. Upon completion, students should be able to provide technical assistance and support to the retail pharmacist.

**PHM 160 Pharm Dosage Forms**
- Prerequisites: None
- Corequisites: None
- Component: None
This course is a study of pharmaceutical dosage forms and considerations in their manufacture. Topics include bioavailability, routes of administration, tablets, capsules, solutions, syrups, suspensions, elixirs, aerosols, transdermals, topicals, opthalmics,otics, and other dosage forms. Upon completion, students should be able to describe the characteristics of the major dosage forms and explain how these characteristics affect the action of the drug.

**PHM 165 Pharmacy Prof Practice**
- Prerequisites: None
- Corequisites: None
- Component: None
This course provides a general overview of all aspects of pharmacy technician practice. Emphasis is placed on pharmacy law, calculations, compounding, pharmacology, and pharmacy operations. Upon completion, students should be able to demonstrate competence in the areas required for the Pharmacy Technician Certification Examination.
This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

PHY 252 General Physics II  
Prerequisites: Take MAT 272 and PHY 251  
Corequisites: None  
Component: None  
This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved for transfer under the CAA as a general education course in Natural Science. This course has been approved for transfer under the ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
PLU 130 Plumbing Systems
Prerequisites: Take PLU 150
Corequisites: None
Component: None
This course covers the maintenance and repair of plumbing lines and fixtures. Emphasis is placed on identifying and diagnosing problems related to water, drain and vent lines, water heaters, and plumbing fixtures. Upon completion, students should be able to identify and diagnose needed repairs to the plumbing system.

PLU 140 Introduction to Plumbing Codes
Prerequisites: None
Corequisites: None
Component: None
This course covers plumbing industry codes and regulations. Emphasis is placed on North Carolina regulations and the minimum requirements for plumbing materials and design. Upon completion, students should be able to research and interpret North Carolina plumbing codes.

PLU 150 Plumbing Diagrams
Prerequisites: Take PLU 110 and PLU 140
Corequisites: None
Component: None
This course introduces sketching diagrams and interpretation of blueprints applicable to the plumbing trades. Emphasis is placed on plumbing plans for domestic and/or commercial buildings. Upon completion, students should be able to sketch plumbing diagrams applicable to the plumbing trades.

PMT 110 Intro to Project Mgmt
Prerequisites: None
Corequisites: None
Component:
This course introduces project management fundamentals and principles for organizing, planning, implementing, and controlling nonroutine activities to achieve schedule, budget and performance objectives. Topics include project life cycles; work breakdown structures; responsibility matrices; as well as planning and control methods such as PERT/CPM and Gantt charts. Upon completion, students should be able to demonstrate knowledge, strategies, and techniques needed to create and execute plans for project development and management.

PMT 111 Proj Mgmt Assessing Risk
Prerequisites: None
Corequisites: None
Component:
This course provides various ways to identify, analyze, and mitigate the full range of project risks. Topics include risk management planning, risk identification, qualitative risk analysis, quantitative risk analysis, risk response planning, as well as risk monitoring and control. Upon completion, students should be able to demonstrate knowledge of risk management processes and application of risk management techniques to case study problems.

PMT 210 Proj Mgmt Issues
Prerequisites: None
Corequisites: None
Component:
This course is designed to explore various development and management techniques and tools of integrated project schedules and plans. Emphasis is placed on project control methods from a scheduling perspective, including critical path networking, float analysis, and schedule performance predictability and accomplishment. Upon completion, students should have a clear understanding of accepted techniques for schedule development and management.

PMT 215 Proj Mgmt Leadership
Prerequisites: None
Corequisites: None
Component:
This course provides an overview of the importance of project teams and human resource management in the planning, scheduling, and controlling of multi-project programs. Topics include the role of projects in organizations; alternative organizational systems; program management methodologies; team management and leadership; legal/ethical issues; and conflict identification/resolution. Upon completion, students should be able to identify and exhibit the behaviors needed for effective project management and team leadership.

POL 110 Introduction to Political Science
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component:
This course introduces basic political concepts used by governments and addresses a wide range of political issues. Topics include political theory, ideologies, legitimacy, and sovereignty in democratic and non-democratic systems. Upon completion, students should be able to discuss a variety of issues inherent in all political systems and draw logical conclusions in evaluating these systems. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

POL 120 American Government
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component:
This course is a study of the origins, development, structure, and functions of American government. Topics include the constitutional framework, federalism, the three branches of government including the bureaucracy, civil rights and liberties, political participation and behavior, and policy process. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This is a Unive

POL 130 State & Local Government
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component:
This course includes state and local political institutions and practices in the context of American federalism. Emphasis is placed on procedural and policy differences as well as political issues in state, regional, and local governments of North Carolina. Upon completion, students should be able to identify and discuss various problems associated with intergovernmental politics and their effect on the community and the individual. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to www.faytechecc.edu/academics/.
PSY 141 Psychology of Death and Dying 03 00 00 03
Prerequisites: None
Component: None
This course presents psychological perspectives on death and dying. Topics include the culturally diverse aspects of death and the grieving process, adjustment mechanisms, interventions, and the psychological and ethical dimensions of death and dying. Upon completion, students should be able to demonstrate an understanding of the psychosocial aspects of death and dying.

PSY 150 General Psychology 03 00 00 03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

PSY 211 Psychology of Adjustment 03 00 00 03
Prerequisites: Take PSY 150
Corequisites: None
Component: None
This course introduces the study of the adjustment process focusing on contemporary challenges individuals must deal with in everyday life. Topics include theories of behavior, career choices, self-understanding, coping mechanisms, human relationships, intimacy, sociocultural factors influencing healthy personal adjustment, and other related topics. Upon completion, students should be able to demonstrate an awareness of the processes of adjustment. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PSY 237 Social Psychology 03 00 00 03
Prerequisites: Take PSY 150 or SOC 210
Corequisites: None
Component: None
This course introduces the study of individual behavior within social contexts. Topics include affiliation, attitude formation and change, conformity, altruism, aggression, attribution, interpersonal attraction, and group behavior. Upon completion, students should be able to demonstrate an understanding of the basic principles of social influences on behavior. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

PSY 239 Psychology of Personality 03 00 00 03
Prerequisites: Take PSY 150
Corequisites: None
Component: None
This course covers major personality theories and personality research methods. Topics include psychoanalytic, behavioristic, social learning, cognitive, humanistic, and trait theories including supporting research. Upon completion, students should be able to compare and contrast traditional and contemporary approaches to the understanding of individual differences in human behavior. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.
This course is a study of human growth and development. Emphasis is placed on major theories and perspectives as they relate to the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

PSY 243 Child Psychology
Prerequisites: Take PSY 150
Corequisites: None
Component: None
This course provides an overview of physical, cognitive, and psychosocial development from conception through adolescence. Topics include theories and research, interaction of biological and environmental factors, language development, learning and cognitive processes, social relations, and moral development. Upon completion, students should be able to identify typical and atypical childhood behavior patterns as well as appropriate strategies for interacting with children. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PSY 246 Adolescent Psychology
Prerequisites: Take PSY 150
Corequisites: None
Component: None
This course provides an overview of the behavior patterns, life changes, and social issues that accompany the developmental stage of adolescence. Topics include developmental theories; physical, cognitive and psychosocial growth; transitions to young adulthood; and sociocultural factors that influence adolescent roles in home, school and community. Upon completion, students should be able to identify typical and atypical adolescent behavior patterns as well as appropriate strategies for interacting with adolescents. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PSY 249 Psychology of Aging
Prerequisites: Take PSY 150
Corequisites: None
Component: None
This course covers the particular needs and behaviors of the maturing adult. Emphasis is placed on psychosocial processes; biological and intellectual aspects of aging; adjustments to retirement, dying, bereavement; and the stereotypes and misconceptions concerning the elderly. Upon completion, students should be able to show an understanding of the psychological factors related to the aging process. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PSY 254 Introduction to Exceptionality
Prerequisites: Take PSY 150
Corequisites: None
Component: None
This course introduces the psychology of the exceptional person.

Topics include theoretical perspectives, terminology, and interventions pertaining to various handicapping conditions as well as the resulting psychosocial adjustments. Upon completion, students should be able to demonstrate a basic understanding of the potentials and limitations of the exceptional person.

PSY 259 Human Sexuality
Prerequisites: Take PSY 150
Corequisites: None
Component: None
This course provides the biological, psychological, and sociocultural aspects of human sexuality and related research. Topics include reproductive biology, sexual and psychosexual development, sexual orientation, contraception, sexually transmitted diseases, sexual disorders, theories of sexuality, and related issues. Upon completion, students should be able to demonstrate an overall knowledge and understanding of human sexuality. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PSY 263 Educational Psychology
Prerequisites: Take PSY 150
Corequisites: None
Component: None
This course examines the application of psychological theories and principles to the educational process and setting. Topics include learning and cognitive theories, achievement motivation, teaching and learning styles, teacher and learner roles, assessment, and developmental issues. Upon completion, students should be able to demonstrate an understanding of the application of psychological theory to educational practice. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PSY 265 Behavioral Modification
Prerequisites: Take PSY 150
Corequisites: None
Component: None
This course is an applied study of factors influencing human behavior and strategies for behavioral change. Emphasis is placed on cognitive-behavioral theory, behavioral assessment, practical applications of conditioning techniques, and maintenance of adaptive behavior patterns. Upon completion, students should be able to implement basic learning principles to effect behavioral changes in self and others.

PSY 271 Sports Psychology
Prerequisites: Take PSY 150
Corequisites: None
Component: None
This course provides an overview of the field of sports and exercise psychology. Topics include concentration, goal setting, arousal level, exercise psychology, mental imagery, confidence, and other issues related to sport and exercise performance. Upon completion, students should be able to demonstrate a knowledge of psychological factors involved in sport and exercise. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

This course is designed to assist in the development of effective interpersonal skills in the physical therapist assistant setting. Topics include reactions to disability, the grieving process, methods of communication, motivation, health promotion, disease prevention, and aging. Upon completion, students should be able to discuss and demonstrate methods for achieving effective interaction with patients, families, the public, and other health care providers.

This course covers normal development, adult and pediatric/CNS dysfunction, spinal cord injuries, amputee rehabilitation techniques, and cardiopulmonary rehabilitation. Topics include neurology review, selected rehabilitation techniques, ADL and functional training, prosthetic and orthotic training, and environmental access. Upon completion, students should be able to demonstrate safe and correct application of selected rehabilitation techniques for neurological dysfunction, cardiopulmonary conditions, and amputations.

This course provides experience in patient management specific to selected rehabilitation techniques for neurological dysfunction, spinal cord injuries, amputee rehabilitation techniques, and cardiopulmonary rehabilitation. Topics include neurology review, selected rehabilitation techniques, ADL and functional training, prosthetic and orthotic training, and environmental access. Upon completion, students should be able to demonstrate safe and correct application of selected rehabilitation techniques for neurological dysfunction, cardiopulmonary conditions, and amputations.

This course provides an overview of the radiography profession and student responsibilities. Emphasis is placed on basic principles of patient care, radiation protection, technical factors, and medical terminology. Upon completion, students should be able to demonstrate basic skills in these areas.

This course provides an overview of the radiography profession and basic principles of patient care, radiation protection, technical factors, and medical terminology. Upon completion, students should be able to demonstrate basic skills in these areas.

This course provides the knowledge and skills necessary to perform standard radiographic procedures. Emphasis is placed on radiography of the skull, bony thorax, and gastrointestinal, biliary, and urinary systems. Upon completion, students should be able to demonstrate competence in these areas.

This course provides advanced principles of radiation characteristics and production including digital imaging and Computed Tomography (CT). Emphasis is placed on imaging equipment. Upon completion, students should be able to demonstrate an understanding of radiation characteristics and production.

**RAD 251 RAD Clinical Ed IV**
- Prerequisites: All courses required: AD 122, RAD 131, RAD 171
- Corequisites: All courses required: RAD 211, RAD 231, RAD 241
- Component: None

This course provides the opportunity to continue mastering all basic radiographic procedures and to attain experience in advanced areas. Emphasis is placed on equipment operation, pathological recognition, pediatric and geriatric variations, and a further awareness of radiation protection requirements. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

**RAD 261 RAD Clinical Ed V**
- Prerequisites: Take RAD 251
- Corequisites: All courses required: RAD 245, RAD 281
- Component: None

This course is designed to enhance expertise in all radiographic procedures, patient management, radiation protection, and image production and evaluation. Emphasis is placed on developing an autonomous approach to the diversity of clinical situations and successfully adapting to those procedures. Upon completion, students should be able to demonstrate successful completion of clinical objectives.

**RAD 271 Radiography Capstone**
- Prerequisites: Take RAD 211, RAD 231, RAD 241, RAD 251
- Corequisites: Take RAD 245, RAD 261
- Component: None

This course provides an opportunity to exhibit problem-solving skills required for certification. Emphasis is placed on critical thinking and integration of didactic and clinical components. Upon completion, students should be able to demonstrate the knowledge required of any entry-level radiographer.

**RCP 110 Introduction to Respiratory Care**
- Prerequisites: Departmental Approval
- Corequisites: None
- Component: None

This course introduces the role of the respiratory care practitioner within interprofessional teams and interacting with diverse populations. Topics include medical gas administration, basic patient assessment, infection control, and medical terminology using proper written and oral communication methods to prepare students for clinical practice. Upon completion, students should be able to demonstrate competence in respiratory therapy concepts and procedures through written and laboratory evaluations.

**RCP 111 Therapeutics/Diagnostics**
- Prerequisites: Take RCP 110
- Corequisites: None
- Component: None

This course provides emphasis on therapeutic and diagnostic procedures. Topics include applying problem solving strategies in the patient care setting, applying ethical principles in decision making, and practicing professional responsibilities, which will prepare students for clinical practice. Upon completion, students should be able to demonstrate competence in respiratory therapy concepts and procedures through written and laboratory evaluations.

**RCP 113 RCP Pharmacology**
- Prerequisites: None
- Corequisites: Take RCP 110
- Component: None

This course covers the drugs used in the treatment of cardiopulmonary diseases. Emphasis is placed on the uses, actions, indications, administration, and hazards of pharmacological agents. Upon completion, students should be able to demonstrate competence though written evaluations.

**RCP 114 C-P Anatomy & Physiology**
- Prerequisites: None
- Corequisites: None
- Component: None

This course provides a concentrated study of cardiopulmonary anatomy and physiology essential to the practice of respiratory care. Emphasis is placed on cardiovascular and pulmonary physiology, acid/base balance, and blood gas interpretation. Upon completion, students should be able to demonstrate competence in these concepts through written evaluation.

**RCP 115 C-P Pathophysiology**
- Prerequisites: Take BIO 163
- Corequisites: None
- Component: None

This course introduces the etiology, pathophysiology, clinical signs and symptoms, diagnoses, prognoses, complications, and management of cardiopulmonary diseases. Emphasis is placed on developing, evaluating, and modifying respiratory care plans based on evidence-based medicine protocols and clinical practice guidelines. Upon completion, students should be able to demonstrate competence in cardio-pulmonary disease concepts through written evaluations.

**RCP 132 RCP Clinical Practice I**
- Prerequisites: None
- Corequisites: Take RCP 110
- Component: None

This course provides entry-level clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

**RCP 143 RCP Clinical Practice II**
- Prerequisites: Take RCP 110
- Corequisites: Take RCP 111
- Component: None

This course provides entry-level clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

**RCP 152 RCP Clinical Practice III**
- Prerequisites: Take RCP-111
- Corequisites: None
- Component: None

This course provides entry-level clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course provides further refinement of acute patient care and underlying pathophysiology. Topics include a continuation in the application and management of mechanical ventilation, assessment underlying pathophysiology, and introduction of critical care monitoring. Upon completion, students should be able to demonstrate competence in respiratory therapy concepts and procedures through written, laboratory and/or clinical simulation evaluations.

This course provides advanced information gathering and decision making for the respiratory care professional using evidence-based respiratory care protocols. Topics include advanced cardiac monitoring, special procedures, respiratory care protocols, and disease management. Upon completion, students should be able to assess, recommend, and independently modify respiratory care protocols through written, laboratory and/or clinical simulation evaluations.

This course provides comprehensive coverage of the concepts of neonatal and pediatric respiratory care. Emphasis is placed on pathophysiology, patient assessment and special therapeutic needs of neonates and children based on evidence-based medicine protocols and clinical practice guidelines. Upon completion, students should be able to demonstrate competence in the neonatal and pediatric respiratory care concepts through written, laboratory and/or clinical simulation evaluations.

This course provides an overview of respiratory therapy concepts in preparation for credentialing exam. Emphasis is placed on registry preparation. Upon completion, students should be able to demonstrate a comprehensive knowledge of respiratory therapy and be prepared for successful completion of the credentialing process.

This course provides additional laboratory learning opportunities in respiratory care. Emphasis is placed on therapeutic procedures and equipment management. Upon completion, students should be able to demonstrate competence in concepts and procedures through laboratory evaluations. This course provides entry level skills in adult mechanical ventilation.

This course provides advanced practitioner clinical experience. Emphasis is placed on therapeutic and diagnostic patient care. Upon completion, students should be able to demonstrate clinical competence in required performance evaluations.

Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None

This course is a survey of the literature of first-century Christianity with readings from the gospels, Acts, and the Pauline and pastoral letters. Topics include the literary structure, audience, and religious perspective of the writings, as well as the historical and cultural context of the early Christian community. Upon completion, students should be able to use the tools of critical analysis to read and understand New Testament literature. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Prerequisites: Take DRE-096 or Placement Test Credit Equivalent
Corequisites: None
Component: None

This course introduces the fundamental elements of the Russian language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Russian and to demonstrate cultural awareness. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Prerequisites: Take RUS 111
Corequisites: None
Component: None

This course provides a continuation of RUS 111. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Russian and to demonstrate further cultural awareness. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Prerequisites: Take DRE-097 or Placement Test Equivalent
Corequisites: None
Component: None

This course provides an opportunity to enhance acquisition of the fundamental elements of the Russian language. Emphasis is placed on the progressive development of basic listening, speaking, reading, and writing skills through the use of various supplementary learning media and materials. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Russian and to demonstrate cultural awareness. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

Prerequisites: Take RUS 112
Corequisites: None
Component: None

This course provides a review and expansion of the essential skills of the Russian language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Prerequisites: Take RUS 211
Corequisites: None
Component: None

This course provides a continuation of RUS 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved for transfer under the CAA as a general education course in Humanities/Fine Arts. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Prerequisites: Take RUS Conversation
Corequisites: None
Component: None

This course provides an opportunity for intensive communication in spoken Russian. Emphasis is placed on vocabulary acquisition and interactive communication through the discussion of media materials and authentic texts. Upon completion, students should be able to discuss selected topics, to express ideas and opinions clearly, and to engage in formal and informal conversations. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).

RUS 281 Russian Lab 3
Prerequisites: Take RUS 182
Corequisites: None
Component: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the Russian language. Emphasis is placed on the study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

RUS 282 Russian Lab 4
Prerequisites: Take RUS 281
Corequisites: None
Component: None
This course provides an opportunity to enhance the review and expansion of the essential skills of the Russian language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

SEC 110 Security Concepts
Prerequisites: None
Corequisites: None
Component: None
This course introduces the concepts and issues related to securing information systems and the development of policies to implement information security controls. Topics include the historical view of networking and security, security issues, trends, security resources, and the role of policy, people, and processes in information security. Upon completion, students should be able to identify information security risks, create an information security policy, and identify processes to implement and enforce policy.

SEC 150 Secure Communications
Prerequisites: Take SEC 110
Corequisites: None
Component: None
This course provides an overview of current technologies used to provide secure transport of information across networks. Topics include data integrity through encryption, Virtual Private Networks, SSL, SSH, and IPSec. Upon completion, students should be able to implement secure data transmission technologies.

SEC 151 Intro to Protocol Analysis
Prerequisites: None
Corequisites: None
Component: None
This course introduces protocol analysis. Topics include protocol analysis tools, TCP/IP concepts, network traffic analysis, monitoring network traffic, network security protocol analysis, and understanding data flow through protocol analysis. Upon completion, students should be able to perform simple protocol analysis to determine baseline network performance and identify anomalies.

SEC 160 Security Administration I
Prerequisites: Take NET-125 SEC-110
Corequisites: None
Component: None
This course provides an overview of security administration and fundamentals of designing security architectures. Topics include networking technologies, TCP/IP concepts, protocols, network traffic analysis, monitoring, and security best practices. Upon completion, students should be able to identify normal network traffic using network analysis tools and design basic security defenses.

SEC 175 Perimeter Defense
Prerequisites: Take SEC 110
Corequisites: None
Component: None
This course introduces the principles of securing networks using routers and firewalls. Topics include networking protocols, threat mitigation, firewall configuration, authentication, authorization, intrusion detection, encryption, IPSec, VPNs, and remote access technologies. Upon completion, students should be able to secure internal networks using router and firewall technologies.

SEC 210 Intrusion Detection
Prerequisites: Take SEC 110
Corequisites: None
Component: None
This course introduces the student to intrusion detection methods in use today. Topics include the types of intrusion detection products, traffic analysis, and planning and placement of intrusion detection solutions. Upon completion, students should be able to plan and implement intrusion detection solution for networks and host-based systems.

SEC 251 Advanced Protocol Analysis
Prerequisites: Take SEC-151
Corequisites: None
Component: None
This course is designed to provide advanced understanding of protocol analysis. Topics include advanced network protocol security analysis, data parsing, monitoring scanning logs, and network intrusion identification. Upon completion, students should be able to apply best practices in protocol analysis and apply the results to IT security frameworks.

SEC 258 Security Compliance
Prerequisites: None
Corequisites: None
Component: None
This course introduces information security compliance and standards along with how they apply to corporate IT environments. Topics include ISO standards, government NIST frameworks, federal and state compliance requirements, security policies, incident response and business continuity planning. Upon completion, students should be able to apply compliance and availability requirements to corporate data enterprise scenarios.

SEC 285 Systems Security Project
Prerequisites: Take All: CTI-110, CTI-120, CTS-115, SEC-110, and SEC-175
Corequisites: None
Component: None
This course provides the student the opportunity to apply the skills and competencies acquired in the program that focus on systems security. Emphasis is placed on security policy, process planning, procedure definition, business continuity, compliance, auditing, testing procedures and systems security architecture. Upon completion, students should be able to design and implement comprehensive information security architecture from the planning and design phase through implementation.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
SFA 200 SFA Anatomy & Pathophysiology  
Prerequisites: None  
Corequisites: None  
Component:  
This course is designed to promote an understanding of surgical anatomy and pathophysiology. Emphasis is placed on the structure and function of body systems, including etiology, pathology, manifestation, treatment, and prognosis. Upon completion, students should be able to explain surgical anatomy, categorize diseases, define pathology, identify organ/body systems involved, and discuss surgical treatments and prognosis.

SFA 201 Fundamentals of SFA  
Prerequisites: None  
Corequisites: Take SFA-200 WBL-111  
Component:  
This course is designed for healthcare workers developing their competencies in the fundamentals of the theory and practice of a Surgical First Assistant. Emphasis is placed on the responsibilities of a Surgical First Assistant, perioperative monitoring equipment, diagnostic tests, and related surgical procedures. Upon completion, students should be able to explain the role of the Surgical First Assistant and demonstrate competence in basic techniques of surgical patient care.

SFA 202 Surgical Patient Management  
Prerequisites: None  
Corequisites: Take SFA-201  
Component:  
This course is designed to introduce the student on the theory and practice of caring for the surgical patient. Emphasis is placed on skills needed to manage perioperative patients. Upon completion, students should be able to manage surgical patients effectively and efficiently.

SFA 203 Advanced Surgical Pharmacology  
Prerequisites: None  
Corequisites: None  
Component:  
This course is designed to provide an in depth study of pharmacology as it relates to surgical intervention in the surgical environment. Emphasis is placed on the indications, administration, contraindication, and safety considerations of pharmacologic agents used in surgery. Upon completion, students should be able to demonstrate an understanding of the different pharmacologic agents, their methods of administration, and how the agents may impact the surgical procedure.

SFA 204 SFA Techniques  
Prerequisites: None  
Corequisites: Take SFA-201 WBL-121  
Component:  
This course is designed to familiarize the Surgical First Assistant with surgical skills and techniques utilized by the surgical assistant. Emphasis is placed on fundamental care, surgical equipment and routines which are required to ensure safe and efficient care of surgical patients. Upon completion, students should be able to demonstrate surgical techniques as they relate to the Surgical First Assistant.

SGD 111 Introduction to SGD  
Prerequisites: None  
Corequisites: None  
Component:  
This course provides students with an introduction to simulation and game development. Topics include setting, storytelling, narrative, character design, interface design, game play, internal economy, core mechanics, game genres, AI, the psychology of game design and professionalism. Upon completion, students should be able to demonstrate knowledge of the major aspects of simulation and game design and development.

SGD 112 SGD Design  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the fundamentals of simulation and game design. Topics include industry standards and design elements for simulations and games. Upon completion, students should be able to design simple simulations and/or games.

SGD 113 SGD Programming  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the fundamentals of programming languages and tools employed in simulation and game development. Emphasis is placed on programming concepts used to create simulations and games. Upon completion, students should be able to program simple games and/or simulations.

SGD 114 3D Modeling  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces the tools required to create three dimensional (3D) models. Emphasis is placed on exploring tools used to create 3D models. Upon completion, students should be able to create and animate 3D models using 3D modeling tools.

SGD 115 Physically-Based Modeling  
Prerequisites: Take One: MAT-121 OR MAT-171  
Corequisites: None  
Component: None  
This course introduces fundamental physical concepts as applied to the simulation and game design fields. Topics include hands-on programming of vectors, matrices, graphical analyses, forces, laws of motion, work, energy, momentum, properties of matter, and problem-solving methods. Upon completion, students should be able to demonstrate an understanding of the principles studied as applied to the simulation and game design fields.

SGD 116 Graphic Design Tools  
Prerequisites: Take SGD-114  
Corequisites: None  
Component: None  
This course introduces students to computer-based graphic design tools and their use within the context of simulation and game design. Topics include texture creation, map creation, and introduction to advanced level graphic design techniques. Upon completion, students should be able to competently use and explain industry-standard graphic design software.

SGD 117 Art for Games  
Prerequisites: None  
Corequisites: None  
Component: None  
This course introduces students to the basic principles of art and how they apply to simulations and games. Emphasis is placed on learning to develop industry quality concept art for characters and other assets, as well as techniques needed to create such art. Upon completion, students should be able to create their own industry standard concept art for use in SGD projects.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
SGD 135 Serious Games
Prerequisites: None
Corequisites: None
Component: None
This course provides students with an overview of serious games and their applications in immersive learning and education. Emphasis is placed on developing games for education, corporate training, and medical/military simulations. Upon completion, students should be able to design their own serious games.

SGD 158 SGD Business Management 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the business side of the interactive game industry. Emphasis will be placed on licenses, serious games, psychological profiling, publisher/developer relations, and contract negotiation skills. Upon completion, students should be able to understand how a game evolves from concept to the customer.

SGD 159 SGD Production Management 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the techniques and methods used in interactive game production and how to manage a project. Emphasis is placed on scheduling, production plans, marketing and budgeting. Upon completion, students should be able to manage a team, track production, and understand the process of project management.

SGD 162 SG 3D Animation 02 03 00 03
Prerequisites: Take SGD-114
Corequisites: None
Component: None
This course introduces the fundamental principles of 3D animation used in simulation and game development. Emphasis is placed on a historical survey of 3D animation, aspects of the 3D animation process and 3D animation techniques. Upon completion, students should be able to produce 3D character sketches, morph simple objects, create walk and run cycles and develop professional storyboards.

SGD 163 SG Documentation 02 03 00 03
Prerequisites: Take SGD-112
Corequisites: None
Component: None
This course introduces the techniques and methods used to create simulation and game production and design documents. Emphasis is placed on the design document to include scheduling, production plans, marketing and budgeting. Upon completion, students should be able to create design and produce documents for any simulation or game.

SGD 165 SG Character Development 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the concepts needed to create fictional personality for use in digital videos, animations, simulations and games. Topics include aspects of character, developing backgrounds, mannerisms and voice. Upon completion, students should be able to develop characters and backgrounds for simulations and games.

SGD 166 SG Physiology/Kinesi 03 00 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the principles of simulation and game development. Topics include analysis of the human form and other living organisms. Upon completion, students should be able to demonstrate an understanding of the physiology and kinesiology concepts related to simulation and game development.

SGD 168 Mobile SG Programming I 02 03 00 03
Prerequisites: Take SGD 113
Corequisites: None
Component: None
This course introduces the mobile simulation and game programming process. Topics include mobile simulation/game programming, performance tuning, animation, sound effects, music, and mobile networks. Upon completion, students should be able to apply simulation/game programming concepts to the creation of mobile simulations and games.

SGD 171 Flash SG Programming 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the Flash programming environment for use in simulation and game development. Topics include timeline effects, extensibility layers, alias text, globalization tools, ActionScript and lingo programming. Upon completion, students should be able to create a simple simulation or game using Flash.

SGD 172 Virtual SG Environments 02 03 00 03
Prerequisites: Take SGD-114 and SGD-116
Corequisites: None
Component: None
This course covers the use of virtual reality tools and techniques in simulation and game development. Emphasis is placed on acquiring the skills necessary to create scalable virtual characters and environments for use in simulations and games. Upon completion, students should be able to create a simple game or simulation in a virtual environment.

SGD 174 SG Level Design 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course introduces the tools used to create levels for real-time simulations and games. Topics include level design, architecture theory, modeling for 3D engines and texturing methods. Upon completion, students should be able to design simple levels using industry standard tools.

SGD 180 SGD HTML Programming I 02 03 00 03
Prerequisites: None
Corequisites: None
Component: None
This course provides an introduction to using HTML based technologies as it relates to simulation and game development presented in a browser context. Emphasis is placed on creating webpages that use HTML, CSS and Javascript to create game content that is usable in a variety of platforms. Upon completion, students should be able to design and create an HTML based games or simulations.

SGD 210 3D Data Capture 02 03 00 03
Prerequisites: Take SGD 114 and SGD-162 or DME-130
Corequisites: None
Component: None
This course introduces the tools used to capture data from a 3D environment. Emphasis is placed on capturing data from motion capture and/or 3D scanning devices for use in 3D models and animations. Upon completion, students should be able to capture data from a 3D environment and import for use in 3D models, simulations, and animations.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.

SOC 220 Social Problems  03  00  00  03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an in-depth study of current social problems. Emphasis is placed on causes, consequences, and possible solutions to problems associated with families, schools, workplaces, communities, and the environment. Upon completion, students should be able to recognize, define, analyze, and propose solutions to these problems. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

SOC 225 Social Diversity  03  00  00  03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides a comparison of diverse roles, interests, opportunities, contributions, and experiences in social life. Topics include race, ethnicity, gender, sexual orientation, class, and religion. Upon completion, students should be able to analyze how cultural and ethnic differences evolve and how they affect personality development, values, and tolerance. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

SOC 230 Race and Ethnic Relations  03  00  00  03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course includes an examination of the various aspects of race and ethnicity and how these lead to different experiences, opportunities, problems, and contributions. Topics include prejudice, discrimination, perceptions, myths, stereotypes, and intergroup relationships. Upon completion, students should be able to identify and analyze relationships among racial and ethnic groups within the larger society. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

SOC 232 Social Context of Aging  03  00  00  03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an overview of the social implications of the aging process. Emphasis is placed on the roles of older adults within families, work and economics, politics, religion, education, and health care. Upon completion, students should be able to identify and analyze changing perceptions, diverse lifestyles, and social and cultural realities of older adults. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

SOC 234 Sociology of Gender  03  00  00  03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent
Corequisites: None
Component: None
This course examines contemporary roles in society with special emphasis on recent changes. Topics include sex role socialization, myths and stereotypes, gender issues related to family, work, and power. Upon completion, students should be able to analyze modern relationships between men and women. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement.

SOC 240 Social Psychology  03  00  00  03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course examines the influence of culture and social groups on individual behavior and personality. Emphasis is placed on the process of socialization, communication, conformity, deviance, interpersonal attraction, intimacy, race and ethnicity, small group experiences, and social movements. Upon completion, students should be able to identify and analyze cultural and social forces that influence the individual in a society. This course has been approved for transfer under the CAA as a general education course in Social/Behavioral Sciences. This course has been approved for transfer under the ICAA as a general education course in Social/Behavioral Sciences.

SOC 242 Sociology of Deviance  03  00  00  03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course provides an overview of deviant behavior and the processes involved in its definition, causation, prevention, control, and treatment. Topics include theories of causation, social control, delinquency, victimization, criminality, the criminal justice system, punishment, rehabilitation, and restitution. Upon completion, students should be able to identify and analyze issues surrounding the nature and development of social responses to deviance. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

SOC 244 Sociology of Death & Dying  03  00  00  03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course presents sociological perspectives on death and dying. Emphasis is placed on analyzing the different death rates among various groups, races, and societies, as well as various types of death. Upon completion, students should be able to discuss the rituals of death, both cultural and religious, and examine current issues relating to death and dying. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

SOC 250 Sociology of Religion  03  00  00  03
Prerequisites: Take DRE-097 or Placement Test Credit Equivalent.
Corequisites: None
Component: None
This course examines religion from a sociological perspective as part and product of human society. Topics include the origins, development, and functions of belief systems; religious organizations; conversion; and interactions with politics, the economy, science, and the class system. Upon completion, students should be able to describe and analyze religious systems. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course provides an opportunity to enhance the review and expansion of the essential skills of the Spanish language. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts through the use of various supplementary learning media and materials. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

SRV 110 Surveying I
Prerequisites: None
Corequisites: Take MAT 121, MAT 171, DMA-065, or DMA-080
Component: None
This course introduces the theory and practice of plane surveying. Topics include the precise measurement of distances, angles, and elevations; bearing, azimuth and traverse computations; topography and mapping. Upon completion, students should be able to use/care for surveying equipment, collect field survey data, perform traverse computations and create a contour map.

SRV 111 Surveying II
Prerequisites: Take SRV 110
Corequisites: None
Component: None
This course introduces route surveying and roadway planning and layout. Topics include simple, compound, reverse, spiral, and vertical curves; geometric design and layout; planning of cross-section and grade line; drainage; earthwork calculations; and mass diagrams. Upon completion, students should be able to calculate and lay out highway curves; prepare roadway plans, profiles, and sections; and perform slope staking.

SRV 210 Surveying III
Prerequisites: Take SRV 110
Corequisites: None
Component: None
This course introduces boundary surveying, land partitioning, and calculations of areas. Topics include advanced traverses and adjustments, preparation of survey documents, and other related topics. Upon completion, students should be able to research, survey, and map a boundary.

SRV 220 Surveying Law
Prerequisites: Take SRV 110
Corequisites: None
Component: None
This course introduces the law as related to the practice of surveying. Topics include surveyors’ responsibilities, deed descriptions, title searches, eminent domain, easements, weight of evidence, riparian rights, and other related topics. Upon completion, students should be able to identify and apply the basic legal aspects associated with the practice of land surveying.

SRV 230 Subdivision Planning
Prerequisites: All courses required: CIV 211, SRV 111 and SRV 210
Corequisites: None
Component: None
This course covers the planning aspects of residential subdivisions from analysis of owner and municipal requirements to plat layout and design. Topics include municipal codes, lot sizing, roads, incidental drainage, esthetic considerations, and other related topics. Upon completion, students should be able to prepare a set of subdivision plans.

SRV 240 Topo/Site Surveying
Prerequisites: Take SRV 110
Corequisites: None
Component: None
This course covers topographic, site, and construction surveying. Topics include topographic mapping, earthwork, site planning, construction staking, and other related topics. Upon completion, students should be able to prepare topographic maps and site plans and locate and stake out construction projects.

SST 110 Intro to Sustainability
Prerequisites: None
Corequisites: None
Component: None
This course introduces sustainability issues and individual contributions toward environmental sustainability. Topics include management processes needed to maximize renewable/non-renewable energy resources, economics of sustainability, and reduction of environmental impacts. Upon completion, students should be able to discuss sustainability practices and demonstrate an understanding of their effectiveness and impacts.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
This course is designed to introduce the student to sustainable building design and construction principles and practices. Topics include sustainable building rating systems and certifications, energy efficiency, indoor environmental quality, sustainable building materials and water use. Upon completion, students should be able to identify the principles and practices of sustainable building design and construction.

**STP 101 Intro Sterile Processing**
Prerequisites: None
Corequisites: STP 102 and STP 103
Component: None
This course is designed to introduce the primary responsibilities of a central sterile technician. Emphasis is placed on preparation, storage, and distribution of instruments, supplies and equipment, quality assurance, and inventory management. Upon completion, students should be able to demonstrate competence in sterile processing techniques.

**STP 102 STP Clinical Practice**
Prerequisites: None
Corequisites: STP 101 and STP 103
Component: None
This course provides supervised experience in sterile processing techniques in a clinical facility. Emphasis is placed on preparation, storage, and distribution of instruments, supplies and equipment, quality assurance, and inventory management. Upon completion, students should be able to demonstrate competence in sterile processing techniques.

**STP 103 Prof Success Prep**
Prerequisites: None
Corequisites: STP 101 and STP 102
Component: None
This course provides job-seeking skills and an overview of theoretical knowledge in preparation for certification. Topics include test taking strategies, resume preparation, and interviewing techniques. Upon completion, students should be able to prepare a resume, demonstrate appropriate interview techniques, and identify strengths and weaknesses in preparation for certification. This is a diploma-level course.

**SUR 110 Introduction to Surgical Technology**
Prerequisites: Departmental Approval
Corequisites: SUR 111
Component: None
This course provides a comprehensive study of the operative environment, professional roles, moral/ethical responsibilities, and medical communications used in surgical technology. Topics include: professional behaviors, medical terminology, interdepartmental/peer/relationships, operating room environment/safety, pharmacology, anesthesia, incision sites, physiology of wound healing, and biomedical sciences. Upon completion, students should be able to apply theoretical knowledge of the course topics to the operative environment.

**SUR 111 Periop Patient Care**
Prerequisites: Department Approval
Corequisites: SUR 110
Component: None
This course provides theoretical knowledge for the application of essential operative skills during the perioperative phase. Topics include surgical asepsis, sterilization/disinfection, and perioperative patient care. Upon completion, students should be able to demonstrate the principles and practices of aseptic technique, sterile attire, basic case preparation, and other relevant skills.

**SUR 122 Surgical Procedures I**
Prerequisites: Take SUR 110 and SUR 111
Corequisites: Take SUR 123
Component: None
This course provides an introduction to selected basic and intermediate surgical specialties that students are exposed to the first clinical rotation. Emphasis is placed on related surgical anatomy, pathology, and procedures that enhance theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics to the clinical operative environment.

**SUR 123 SUR Clinical Practice I**
Prerequisites: All courses required: SUR 110, SUR 111
Corequisites: SUR 122
Component: None
This course provides clinical experience with a variety of perioperative assignments to build upon skills learned in SUR 111. Emphasis is placed on the scrub and circulating roles of the surgical technologist including aseptic technique and basic case preparation for selected surgical procedures. Upon completion, students should be able to prepare, assist with, and dismantle basic surgical cases in both the scrub and circulating roles.

**SUR 134 Surgical Procedures II**
Prerequisites: Take SUR 123
Corequisites: None
Component: None
This course provides a comprehensive study of intermediate and advanced surgical specialties that students are exposed to in the second clinical rotation. Emphasis is placed on related surgical anatomy, pathology, and procedures that enhance theoretical knowledge of patient care, instrumentation, supplies, and equipment. Upon completion, students should be able to correlate, integrate, and apply theoretical knowledge of the course topics to the clinical operative environment.

**SUR 135 SUR Clinical Practice II**
Prerequisites: Take SUR 123
Corequisites: Take SUR 134
Component: None
This course provides clinical experience with a variety of perioperative assignments to build skills required for complex perioperative patient care. Emphasis is placed on greater technical skills, critical thinking, speed, efficiency, and autonomy in the operative setting. Upon completion, students should be able to function in the role of an entry-level surgical technologist.

**SUR 137 Prof Success Preparation**
Prerequisites: None
Corequisites: None
Component: None
This course provides job-seeking skills and an overview of theoretical knowledge in preparation for certification. Topics include test taking strategies, resume preparation, and interviewing techniques. Upon completion, students should be able to prepare a resume, demonstrate appropriate interview techniques, and identify strengths and weaknesses in preparation for certification.

**SUR 210 Advanced SUR Clincial Practice**
Prerequisites: Department Approval
Corequisites: Component: None
This course is designed to provide individualized experience in advanced practice, education, circulating, and managerial skills. Emphasis is placed on developing and demonstrating proficiency in skills necessary for advanced practice. Upon completion, students should be able to assume leadership roles in a chosen specialty area.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics](http://www.faytechcc.edu/academics/).
This course covers the historical, social and ethical issues, as well as the basic techniques surrounding 3D Printing. Topics include current and historical events, social impact of the technology and basic model creation and manipulation techniques. Upon completion, students should be able to demonstrate mastery of surgical techniques in the role of the entry level surgical technologist.

TDP 140 Precision 3D Printing
Prerequisites: Take TDP 110
Corequisites: None
Component: This course provides an introduction to precision printing using the basic techniques surrounding 3D Printing. Emphasis is placed on cost-effective production methods and dimensional quality control. Upon completion, students should be able to demonstrate an understanding of three-dimensional precision printing as well as demonstrate an ability to create and print a simple project.

TDP 289 TDP Project
Prerequisites: Take ART-120 and TDP-110
Corequisites: Take TDP-140
Component: This course provides students with the opportunity to create a functional, multi-part printing project with minimal instructor support. Emphasis is placed on documentation, budgeting, and professional presentation of project. Upon completion, students should be able to design, explain, create and print an advanced multi-part project.

TOM 120 Introduction to Trucking
Prerequisites: None
Corequisites: None
Component: This course provides an introduction to the history, regulations, safety and security of the trucking industry and various regulatory agencies. Topics include the regulations of the Department of Transportation, Federal Motor Carrier Safety Administration (FMCSA), State Police, OSHA, EPA and local police as related to the trucking industry. Upon completion, students should be able to define the audit process, CSA (Compliance, Safety, Accountability) requirements, safety plans, accident investigation, hours of service, security, and the federal regulations for driving or operating a truck or a large commercial vehicle.

TOM 130 Fleet Maintenance
Prerequisites: None
Corequisites: None
Component: This course provides an overview of the fleet maintenance management operations in the trucking industry. Topics include trucking regulations, managing a maintenance shop, key performance indicators (KPI), maintenance management systems, and truck/trailer specifications. Upon completion, students should be able to define the requirements of fleet maintenance management skills in a trucking based company.

TOM 250 Operations of Trucking I
Prerequisites: None
Corequisites: None
Component: This course provides an overview of operating a trucking business. Topics include the business, marketing, economics, finance, accounting, freight brokerage and entrepreneurship aspects of operating a trucking business. Upon completion, students should be able to define the skills and personnel needed to operate a successful trucking business.

TRF 110 Intro Turfgrass Cult & ID
Prerequisites: None
Corequisites: None
Component: This course provides an in-depth study of turfgrass. Topics include principles of reproduction, growth development, species characteristics, establishment and maintenance of golf courses and sports fields, and lawn applications. Upon completion, students should be able to identify turfgrass species through characteristics and reproductive stages and develop an establishment and maintenance plan for high quality turf areas.

TRN 110 Intro to Transport Tech
Prerequisites: Take DRE-097
Corequisites: None
Component: This course covers workplace safety, hazardous materials, environmental regulations, hand tools, service information, basic concepts, vehicle systems, and common transportation industry terminology. Topics include familiarization with major vehicle systems, proper use of various hand and power tools, material safety data sheets, and personal protective equipment. Upon completion, students should be able to demonstrate appropriate safety procedures, identify and use basic shop tools, and describe government regulations regarding transportation repair facilities.

TRN 120 Basic Transp Electricity
Prerequisites: Take DMA-010 DMA-020 DMA-030 DRE-097 or DMA-025 DRE-097
Corequisites: None
Component: This course covers basic electrical theory, wiring diagrams, test equipment, and diagnosis, repair and replacement of batteries, starters, and alternators. Topics include Ohm’s Law, circuit construction, wiring diagrams, circuit testing, and basic troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair basic wiring, battery, starting, charging, and electrical concerns.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.

This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis and repair of climate control systems. Topics include diagnosis and repair of climate control components and systems, recovery/recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to diagnose and repair vehicle climate control systems.

This course provides experiences for enhancing student skills in the diagnosis and repair of transportation climate control systems. Emphasis is placed on reclaiming, recovery, recharging, leak detection, climate control components, diagnosis, air conditioning equipment, tools and safety. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information.

This course covers the terms and procedures for welding various metals used in the transportation industry with an emphasis on personal safety and environmental health. Topics include safety and precautionary measures, setup/operation of MIG equipment, metal identification methods, types of welds/joints, techniques, inspection methods, cutting processes and other related issues. Upon completion, students should be able to demonstrate a basic knowledge of welding operations and safety procedures according to industry standard.

This course covers basic knowledge necessary for gaining and maintaining employment. Topics include job search skills, work ethic, meeting employer expectations, workplace safety, and human relations. Upon completion, students should be able to successfully make the transition from school to work.

This course provides a work-based learning experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics](http://www.faytechcc.edu/academics/).
This course provides a work-based learning experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. This course provides a work-based learning experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

This course provides a work-based learning experience with a college-approved employer in an area related to the student’s program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

WEB 182 PHP Programming
Prerequisites: None
Corequisites: None
Component: None
This course introduces students to the server-side, HTML-embedded scripting language PHP. Emphasis is placed on programming techniques required to create dynamic web pages using PHP scripting language features. Upon completion, students should be able to design, code, test, debug, and create a dynamic web site using the PHP scripting language.

WEB 186 XML Technology
Prerequisites: Take CIS 115
Corequisites: None
Component: None
This course is designed to introduce students to XML and related internet technologies. Topics include extendible style language (XSL) document object model (DOM), extendible stylesheet language transformation (XSLT), and simple object access protocol (SOAP). Upon completion, students should be able to create a complex XML document.

Refer to the FTCC website for the most current information. Go to [www.faytechcc.edu/academics/](http://www.faytechcc.edu/academics/).
WEB 187 Prog for Mobile Devices
Prerequisites: Take CTI-110 or SGD-113
Corequisites: None
Component: None
This course introduces content development for mobile electronic devices with a focus on business-related, social media, and entertainment applications. Emphasis is placed on developing web content and creating applications for mobile devices, including internet/business practices and techniques for delivery on mobile platforms. Upon completion, students should be able to develop web content and business or entertainment applications for use on mobile electronic devices.

WEB 210 Web Design
Prerequisites: None
Corequisites: None
Component: None
This course introduces intermediate to advanced web design techniques. Topics include customer expectations, advanced markup language, multimedia technologies, usability and accessibility practices, and techniques for the evaluation of web design. Upon completion, students should be able to employ advanced design techniques to create high impact and highly functional web sites. This course is also available through the Virtual Learning Community (VLC).

WEB 211 Advanced Web Graphics
Prerequisites: Take WEB 111
Corequisites: None
Component: None
This course covers the advanced concepts related to the creation and manipulation of graphic images for web delivery. Topics include graphics acquisition, use of masks and channels, advanced special effects, advanced photo manipulation, and other related topics. Upon completion, students should be able to create, manipulate, and optimize web graphics with advanced techniques and maintain an online coursework portfolio.

WEB 213 Internet Mkt & Analytics
Prerequisites: None
Corequisites: None
Component: None
This course introduces students to Search Engine Optimization (SEO), Search Engine Marketing (SEM) and web analytics. Topics include Search Engine Optimization (SEO), Pay Per Click advertising (PPC), Search Engine Marketing (SEM), web analytics, eye-tracking software and email marketing. Upon completion, students should be able to set up, monitor and maintain SEO optimized websites; and develop strategies for online marketing and advertising plans.

WEB 214 Social Media
Prerequisites: None
Corequisites: None
Component: None
This course introduces students to social media for organizations. Topics include social media, marketing strategy, brand presence, blogging, social media analytics and technical writing. Upon completion, students should be able to utilize popular social media platforms as part of a marketing strategy, and work with social media analytics tools.

WEB 215 Adv Markup and Scripting
Prerequisites: Take WEB-115
Corequisites: None
Component: None
This course covers advanced programming skills required to design Internet applications. Emphasis is placed on programming techniques required to support Internet applications. Upon completion, students should be able to design, code, debug, and document Internet-based programming solutions to various real-world problems using an appropriate programming language.

WEB 225 Content Management Sys
Prerequisites: Take WEB 110
Corequisites: None
Component: None
This course introduces students to Content Management Systems (CMS) designed for the publication of Web content to Web sites. Topics include individual user accounts, administration menus, RSS-feeds, customizable layout, flexible account privileges, logging, blogging systems, creating online forums, and modules. Upon completion, students should be able to register and maintain individual user accounts and create a business website and/or an interactive community website.

WEB 240 Internet Security
Prerequisites: Take WEB 110 and SEC 110 and CIS 110 or CIS 11
Corequisites: None
Component: None
This course covers security issues related to Internet services. Topics include the operating system and the Internet service security mechanisms. Upon completion, students should be able to implement security procedures for operating system level and server level alerts.

WEB 250 Database Driven Websites
Prerequisites: None
Corequisites: None
Component: None
This course introduces dynamic (database-driven) website development. Topics include the use of basic database CRUD statements (create, read, update and delete) incorporated into web applications, as well as in software architecture principles. Upon completion, students should be able to design and develop database driven web applications according to industry standards.

WEB 251 Mobile Application Dev II
Prerequisites: Take WEB 151
Corequisites: None
Component: None
This course covers advanced applications and custom programming to develop applications for mobile devices. Topics include device capabilities, OS specific Software Development Kits (SDK), scripting for functionality and designing interactivity. Upon completion, students should be able to demonstrate effective programming techniques to develop advanced mobile applications.

WEB 253 Mobile Application Dev I
Prerequisites: None
Corequisites: None
Component: None
This course will explore, discuss, and research emerging technologies in the web arena. Emphasis is placed on exposure to up-and-coming technologies relating to the web, providing hands-on experience, and discussion of practical implications of these emerging fields. Upon completion, students should be able to articulate issues relating to these technologies.

WEB 289 Internet Technologies Project
Prerequisites: Take All: CTI-110, CTI-120. and CTS-115
Corequisites: None
Component: None
This course provides an opportunity to complete a significant Web technologies project from the design phase through implementation with minimal instructor support. Emphasis is placed on project definition, documentation, installation, testing, presentation, and training. Upon completion, students should be able to complete an Internet project from the definition phase through implementation.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.
WLD 110 Cutting Processes
Prerequisites: None
Corequisites: None
Component: None
This course introduces oxy-fuel and plasma-arc cutting systems. Topics include safety, proper equipment setup, and operation of oxy-fuel and plasma-arc cutting equipment with emphasis on straight line, curve and bevel cutting. Upon completion, students should be able to perform welds on carbon steel plate and/or pipe according to applicable codes.

WLD 112 Basic Welding Processes
Prerequisites: None
Corequisites: None
Component: None
This course introduces basic welding and cutting. Emphasis is placed on bevels applied with gases, mild steel fillers, and electrodes and the capillary action of solder. Upon completion, students should be able to set up welding and oxy-fuel equipment and perform welding, brazing, and soldering processes.

WLD 115 SMAW (Stick) Plate
Prerequisites: None
Corequisites: None
Component: None
This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, students should be able to perform SMAW fillet and groove welds on carbon plate with prescribed electrodes.

WLD 116 SMAW (Stick) Plate/Pipe
Prerequisites: Take WLD 115
Corequisites: None
Component: None
This course is designed to enhance skills with the gas tungsten arc (TIG) welding process. Topics include setup, joint preparation, and electrode selection with emphasis on manipulative skills in all welding positions on plate and pipe. Upon completion, students should be able to perform GTAW welds with prescribed electrodes and filler materials on various joint geometry.

WLD 141 Symbols & Specifications
Prerequisites: None
Corequisites: None
Component: None
This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding.

WLD 151 Fabrication I
Prerequisites: Take WLD 115, WLD 121, & WLD 131
Corequisites: None
Component: None
This course introduces the basic principles of fabrication. Emphasis is placed on safety, measurement, layout techniques, cutting, joining techniques, and the use of fabrication tools and equipment. Upon completion, students should be able to perform layout activities and operate various fabrication and material handling equipment.

WLD 261 Certification Practices
Prerequisites: All courses required: WLD 115, WLD 121 and WLD 131
Corequisites: None
Component: None
This course covers certification requirements for industrial welding processes. Topics include techniques and certification requirements for prequalified joint geometry. Upon completion, students should be able to perform welds on carbon steel plate and/or pipe according to applicable codes.

Refer to the FTCC website for the most current information. Go to www.faytechcc.edu/academics/.

Sarah Burgin, Psychology Instructor
M.A., East Carolina University

Larzaris Butler, Department Chair Health & Physical Education
B.S., North Carolina Central University
M.A., University of North Carolina at Pembroke

Olga Butorina-Langdon, Biology Instructor
B.S., Kazan V.I. Lenin State University-Russia
Ph.D., Ulyanov-Lenin State University

Anthony Cameron, Computer Programming and Development
A.A.S., Fayetteville Technical Community College
B.S., University of North Carolina at Chapel Hill
M.S., East Carolina University

Tiannamarie Campana, Welding-Pipe Fitting Instructor

Cheryl Campbell, General Business Administration/General Business Administration Instructor
B.S., University of North Carolina at Pembroke
M.B.A., Fayetteville State University

Jenne Carey, Music Instructor
M.A., Rider University

Kimberly Carlton, Cosmetology Instructor
A.A.S., Sampson Community College

Benjamin Carlucci, Biology Instructor
M.S., Bloomingburg University

Barbara Carman, College and Career Readiness Instructor
B.A., University of Hawaii at Manoa

Luiesna Carroll, Department Chair, Global Logistics & Distribution Management
B.S., Strayer University
M.B.A., Strayer University
M.A., University of Oklahoma

Darryl Carter, IT/Systems Security & Analysis Instructor
A.A.S., Fayetteville Technical Community College
A.A.S., Fayetteville Technical Community College

Donald Carter, Department Chair, Carpentry/Building Construction Technology
A.A.S., Fayetteville Technical Community College

Marie Cash, Mathematics Instructor
B.S., Methodist College
M.Ed., Campbell University

Debra Chapa, English Instructor
B.A., Tennessee Technological University
M.A., University of Hawaii at Manoa

Barbara Chapman-Nellis, Associate Degree Nursing Instructor
M.S., State University Of New York At Stoney Brook

Pushpa Chhetri, Physical Science Instructor
B.S., Panjab University
M.S., Tribhuvan University
Doctorate, University of Nevada Reno

Peter Chiodo, English Instructor
B.A., Edinboro University
M.A., Slippery Rock University

Helen Christensen, Paramedic Instructor, Emergency and Protective Services
A.A.S., Sandhills Community College
B.S., Western Carolina University

Cathy Christianson, Department Chair, Civil Engineering and Geomatics Technology
A.A.S., Fayetteville Technical Community College

Jenie Chute, Biology Instructor
B.S., Fayetteville State University
M.S., Fayetteville State University

Matthew Clark, Welding Instructor
A.G.E., Fayetteville Technical Community College

Pamela Collins, Sociology Instructor
M.A., Fayetteville State University

Carol Conklin, Developmental Math Instructor
B.S., University of Maryland

William Conklin, Student Learning Center Facilitator/Instructor
A.A.S., Fayetteville Technical Community College
A.A.S., Mt. Hood Community College
B.A., Wartburg College
M.P.A., University of North Carolina at Pembroke

Matthew Conley, Collison Repair & Refinishing Technology Instructor
Collision Repair & Refinishing/Structural Certification
I-CAR Platinum Certification
Welding Certification

John Connelly, Critical Care Paramedic and RN Instructor
B.S., Towson State University
M.B.A., Webster University

Leslie Corpening, Speech Communication Instructor
M.A., University of North Carolina at Greensboro

Ryan Costello, Business Adm/General Business Adm Instructor
M.B.A., Colorado State University

Melinda Creech, Dental Hygiene Instructor  
A.A.S., Fayetteville Technical Community College  
B.S., University of North Carolina at Chapel Hill

David Creedon, Accounting Instructor  
M. of Accounting, University of North Carolina at Chapel Hill

Jodi Crowell, Dental Hygiene Instructor  
A.A.S., Coastal Carolina Community College  
B.S., Northern Arizona University  
M.S., University of Bridgeport

Jose Cruz, Department Chair, Humanities/Foreign Language  
B.A., Queens College City of NY  
M.A., Queens College City of NY

Nakia Cummings, Information Technology/PC Support and Service Instructor  
B.S., University of Phoenix  
M.S., East Carolina University

Maggie Daingerfield, Physical Therapist Assistant Instructor  
B.S., Springfield College  
Doctorate, Springfield College

Steven Dammer, Psychology Instructor  
M.S., University of Phoenix

Sheila Darden, Program Coordinator, CE Cosmetology  
A.A.S., James Sprunt Community College  
B.A., Mt. Olive College

David Dauria, A/C, Heating & Refrigeration Instructor  
A.A.S., Fayetteville Technical Community College

Joseph Davis, Health and Fitness Physical Education Instructor  
B.S., Armstrong State University  
M.S., Armstrong State University

Denise Dedeaux, Department Chair, Medical Office Administration  
A.A.S., Tomlinson College  
B.S., Barton College  
M.B.A., Campbell University

Jeremy Derby, Information Technology/Systems Security & Analysis Instructor  
B.S., American Public University System  
M.S., American Public University System

Vicki Derka, English Instructor  
B.A., University of Arizona  
M.A., University of North Carolina at Chapel Hill

Donna DeVault, General Business Administration Instructor  
B.S., Methodist College  
M.B.A., Fayetteville State University

Joseph Devenero, CDL Instructor  
CDL Instructor certification

Socorro Diaz, Student Learning Center Facilitator/Instructor  
A.A., Taylor Business Institute  
B.S., American University of Puerto Rico

Jane Dickerhoff, Practical Nursing Instructor  
B.S.N., University of Maryland  
M.S., Central Michigan University

Carol Dickey, Paralegal Technology Instructor  
B.A., University of North Carolina at Chapel Hill  
J.D., University of North Carolina at Chapel Hill

Chrisa Dolan, Biology Instructor  
B.S., University of North Carolina - Pembroke  
M.S., Appalachian State University

Alan Dover, Culinary Arts Instructor  
A.A.S., New England Culinary Institute

Shahpour Dowlatshahi, General Business Administration Instructor  
B.A., Kingston Poly  
M.S., University of Surrey

Stephen Drew, Program Coordinator/Instructor for Fire/Rescue  
A.A.S., Pikes Peak Community College

Pia Duncan, Criminal Justice Technology Instructor  
B.A., Western Illinois University  
M.A., Western Illinois University  
E.D., Liberty University

Rita Eads, Mathematics Instructor  
B.S., University of North Carolina at Pembroke  
M.A. Ed., University of North Carolina at Pembroke

Melanie Ebbert, Associate Degree Nursing Instructor  
A.A.S., Fayetteville Technical Community College  
B.S., Kaplan University  
M.A., Duke University

Billy Eldridge, Emergency & Health Programs Instructor  
A.A.S., Guilford Technical Community College

Janice Elliott-Ingram, Associate Degree Nursing Instructor  
A.A.S., Johnston Community College  
B.S., Fayetteville State University  
B.S., Fayetteville State University  
M.S.N., University of Phoenix

Renee Ellis, Department Chair, Practical Nursing  
B.S.N., Hampton University  
M.S.N., East Carolina University

Karen Elsom, Department Chair, Accounting Instructor
