## PROGRAM FACT SHEET INFORMATION TECHNOLOGY/ NETWORK ADMINISTRATION (A25590A)

### Course Work

Network Administration is a concentration under the Information Technology program. The curriculum prepares students to install, configure, monitor, optimize,

and troubleshoot enterprise grade routers and switches as well as Windows client workstations and servers, and manage their operations on a network. Students will develop strong analytical skills and extensive computer knowledge. Course work includes extensive hands-on experience with client and server machines in the Windows environment and configuration of Cisco routers and switches.

### Career Paths

Graduates should qualify for employment in business, educational systems, and governmental agencies which rely on Microsoft computer systems to manage information. The program will incorporate the competencies of industry-recognized certification exams from Microsoft, Cisco (CCNA), CompTIA, and others.

The Information Technology (IT) curriculum prepares graduates for employment in the technology sector as designers, testers, support technicians, system administrators, developers, or programmers who use computer software and/or hardware to design, process, implement, and manage information systems in specialties such as database services, security, business intelligence, healthcare informatics and others depending on the technical path selected within this curriculum.

Course work includes development of a student's ability to create, store, communicate, exchange and use information to solve technical issues related to information support and services, interactive media, network systems, programming and software development, information security and other emerging technologies based on the selected area of study.

Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to design and manage information. The program will incorporate the competencies of industry-recognized certification exams.
