

2nd Act Communication

Fayetteville

Fiber Technician

- \$19.00 an hour
- Full-time

Full job description:

Overview:

We are seeking a dedicated and skilled Fiber Technician to join our team. The ideal candidate will possess a strong mechanical and electrical background, with hands-on experience in fiber splicing and field service operations. As a Fiber Technician, you will be responsible for the installation, maintenance, and troubleshooting of fiber optic systems, ensuring optimal performance and reliability.

Responsibilities:

- Perform fiber splicing and termination of optical fibers in various environments.
- Utilize hand tools, voltmeters, and ohmmeters to conduct tests and measurements on fiber optic systems.
- Install and configure EERO routers as part of network setups.
- Conduct field service visits to troubleshoot and resolve issues with fiber optic connections.
- Maintain accurate records of work performed, including service reports and inventory management.
- Collaborate with team members to ensure timely project completion and adherence to safety standards.
- Provide technical support and guidance to clients regarding fiber optic systems.

Experience:

- Proven experience as a Service Technician or in a similar role within the telecommunications industry.
- Strong mechanical knowledge with the ability to work with hand tools effectively.
- Familiarity with electrical systems and components related to fiber optics.
- Experience in telecommunication installations, including knowledge of MESH routers.
- Ability to work independently in the field while adhering to safety protocols.
- Excellent problem-solving skills with a focus on customer satisfaction.

Join our team as a Fiber Technician and contribute to delivering high-quality telecommunication services!
