

Fayetteville Service Tech 1

- Full-time

Description:

Service tech will assist more experienced technicians in the installation, maintenance, and repair of cabinets ensuring they are functioning and visually appealing. Assist in the transport and unloading of cabinet materials and tools at and within the job site. Learn to diagnose and repair basic cabinet issues such as loose hinges, minor scratches, or damaged hardware. Proper use of hand and power tools commonly used for cabinet installation and repair. Take measurements and make cuts as needed to ensure accuracy in cabinet dimensions.

JOB REQUIREMENTS:

- Must be at least 21 Years old and have a valid Driver's License with no DUI/DWI.
- Knowledge of cabinet construction, materials, and installation techniques.
- Ability to safely lift 50+ pounds.
- Work efficiently as a team or independently.
- Strong attention to detail and precision in measurements and installations.
- Effective communication skills including but not limited to reading, writing, and active listening.
- Problem-solving in the field to help complete your tasks promptly.
- Quality customer service.

QUALIFICATIONS:

- (1) years of cabinetry experience preferred
- (1) year of construction experience preferred
- (5) years of licensed driving experience with no infractions required
