

Refrigeration Technician

Description

The purpose of the Refrigeration Technician is to maintain refrigeration equipment, identify repair and/or replacement needs, provide necessary information on the proper uses of the equipment, and assist other skilled trades as required.

Duties

- Installs refrigeration equipment and systems.
- Inspects refrigeration systems and their components for the purpose of identifying necessary repairs and providing an ongoing program of preventive maintenance.
- Diagnoses problems and/or failures in refrigeration systems for the purpose of identifying equipment and/or systems repair and replacement needs.
- Performs routine and preventive maintenance as needed and/or assigned for the purpose of ensuring the ongoing functioning of refrigeration systems.
- Prepares documentation (e.g. records of refrigerants, paperwork, logs, time and materials, specifications, etc.) for the purpose of providing written support in compliance with regulations and/or conveying information.
- Repairs various items, systems and/or components for the purpose of ensuring that items are available and in safe working condition.
- Requests equipment and supplies for the purpose of maintaining inventory and ensuring availability of required items to complete the necessary installation/repair.
- Coordinates with administration and other trades for the purpose of completing projects/work orders efficiently.
- Informs personnel regarding procedures and/or status of work orders for the purpose of providing information for making decisions, taking appropriate action and/or complying with health and safety regulations.
- Assists other trades personnel as may be required for the purpose of supporting them in the completion of their work activities.
- Maintains tools and/or equipment for the purpose of ensuring the availability of equipment in safe operating condition.
- Responds to emergency situations during or after hours for the purpose of resolving immediate safety concerns.
- Transports various items (e.g. tools, equipment, supplies, etc.) for the purpose of ensuring the availability of materials required at job site.
- Performs other related duties, as assigned, for the purpose of ensuring an efficient and effective work environment.

Qualifications

3-5+ years of refrigeration equipment maintenance.
