

## **Paramedic**

- Starting Pay \$29.62 (does not include education or prior experience)

### **Job Description:**

Paramedics are the primary provider of prompt, compassionate and clinically excellent emergency medical care to the sick and injured residents of and visitors to Wake County.

### **Qualifications:**

- Paramedics are responsible for the operation of emergency vehicles, biomedical equipment and other equipment necessary to provide patient and situational assessment, treatment and transport in an emergency setting.
- Paramedics are required to effectively interact and communicate with individuals and groups of individuals from all education levels, cultural backgrounds, belief structures, and states of health.
- Paramedics are also responsible for performing routine cleaning and basic maintenance of equipment, facilities and vehicles. They will also participate in community outreach and public education opportunities.
- A successful candidate is someone with a high level of communication and problem-solving skills that either currently holds a North Carolina Paramedic certification or is eligible to receive a North Carolina paramedic certification.
- This candidate is expected to understand scene management and be able to effectively operate within an Incident Command System.
- The successful candidate will also be able to demonstrate the ability to calmly and effectively work in high stress and emotionally charged situations.
