Corporate & Continuing Education

WELCOME FROM THE PRESIDENT

VISIT OUR CAMPUS

Moment by moment, our experiences etch the memories we gather during a lifetime. Great educational experiences—ones that enrich our lives and help us reimagine our futures—are important components of these special times.

Fayetteville Technical Community College has been a part of our community for over sixty years, helping students pursue their dreams and offering the promise of new opportunities for a better tomorrow through the pathway of education. This Class Schedule provides a snapshot of the place “where education never stops.” Thank you for choosing FTCC, and enjoy your journey to the discovery of new treasures through learning.

Sincerely,

Dr. Mark Sorrells, President

OFFICE HOURS

Monday-Friday • 8:00am-5:00pm

Registration/Records Office

Moving to Tony Rand Student Center
Building 7 — Room 134, 2220 Hull Road

HOW TO REGISTER

3 Ways to Register:

Online

Walk-In

Mail-In

Online registration is available for *select* classes marked with the  symbol.
See additional instructions on page 47.

PRE-REGISTRATION IS ENCOURAGED!

You may register for Corporate & Continuing Education classes on a first-come, first-served basis. Please register well before the beginning date of your class. We encourage pre-registrations to be in a week before the start date (applies to all methods of registration). If you wait, your class may either be full or canceled due to low enrollment.

IF YOU REGISTER ONLINE, please update your contact information so that we may provide you with updates or changes (to include cancellations) regarding your classes. Go to <https://selfserv.faytechcc.edu/Student/InstantEnrollment/> to update your information. The form is available in the Self-Service Online Registration process.

Additional Information

REFUNDS

- The refund policy for Fayetteville Technical Community College's Corporate & Continuing Education Division was established by the North Carolina Department of Community Colleges in Raleigh on October 15, 1993 and updated April 1, 2020. The full refund policy is listed in the State Board of Community Colleges Code 1E SBCCC 900.2 with a brief statement of the policy made available on the FTCC website.

Please view the policy by visiting: www.faytechcc.edu/corporate-continuing-education/

- Choose 'How to Register'
- The refund policy is listed under 'Registration Instructions'.

GENERAL INFORMATION

- **COURSE START DATES:** Corporate & Continuing Education classes begin in different weeks and months. Check start dates to be sure you won't miss a course.
- **DISABILITY SUPPORT SERVICES:** Any student wishing to request academic accommodations due to a disability must make their request to the Office of Disability Support Services. Requests for accommodations may be made at anytime, but requests made at least two weeks before the beginning of any class are appreciated. Disability Support Services for continuing education classes can be reached at (910) 678-8479.
- **INDUSTRY STANDARD PHYSICAL REQUIREMENTS:** Some classes may require that students perform physical activity in class in order to meet the objectives of the course. None of these requirements will exceed industry standards. Please contact the program coordinator associated with your program by calling 910-678-8432 to determine what physical requirements may apply to the program in which you are interested.
- **PARKING:** Students enrolled in Corporate & Continuing Education classes will need a temporary parking decal to park on the **Fayetteville campus**. These temporary passes are free to current students, and are available from the Registration and Records Office in the Neill Currie Building. The pass should be placed on the dashboard of the vehicle. Designated parking for students includes spaces with white lines. If you register online, please request a pass from the Registration and Records Office in the Neill Currie Building.
- **POLICY ON THE NOTICE OF THE ANNUAL SECURITY REPORT AVAILABILITY:** Fayetteville Technical Community College's annual security report is available on the FTCC website. This report is required by federal law and contains policy statements and crime statistics for the College. The policy statement addresses the school's policies, procedures and programs concerning safety and security, for example, policies for responding to emergency situations and sexual offenses. Three years' worth of statistics are included for certain types of crimes that were reported and occurred on College property, in or on off-campus buildings or property owned or controlled by the College and on public property immediately adjacent to one of the campuses. This report is available online at <https://www.faytechcc.edu/campus-offices-public-safety-security/>. This Annual Security Report can also be accessed by clicking on the Campus Safety and Security link under "Quick Links" at the FTCC Webpage or go to the www.faytechcc.edu click on Security at the bottom of the page, then click on the Annual Campus Crime Report. You may also request a paper copy from the Public Safety & Security Department located in the General Classroom Building, Room 102.

NOTE: *Only current FTCC registered students are permitted into the classrooms, and small children are not to sit in on classes, labs, or in the libraries. Minors are not to be left unattended anywhere on campus.*

- GTAW (Gas Tungsten Arc Welding) – Tig, Part II
- Industrial Wire Fed: GMAW (MIG) FCAW/Plate
- Introduction to Welding
- Stick Welding: SMAW Plate
- Structural Welding

See page 29 for class details.

CAREER/ JOB TRAINING

SARA indicates the training program prepares students for an industry credential. See FTCC website for details.

The courses included in this section will provide you with training to upgrade your work skills or qualifications and assist you in preparing for a new career.

AUTOMOTIVE/MOTORCYCLE

AUTO DEALER'S 12-HOUR PRE-LICENSING COURSE – ONLINE **SARA**

This course provides prospective auto dealers with the 12 hours of authorized pre-licensing training required by the Department of Motor Vehicles to be licensed as a North Carolina independent auto dealer. Topics include dealer laws and regulations, DMV regulations, federal laws and rules, and proper recordkeeping. **Supplies:** Students must have access to a computer or tablet with a microphone and camera. **NOTE: Course workbook is included in the registration fee. This is a self-supporting course; fee-exempt status does not apply.** To register for this course, please visit www.LearnFTCC.com. **PRE-REGISTRATION IS DUE BY 4:45 PM TWO BUSINESS DAYS BEFORE THE CLASS START DATE.** When registering, please check that your name is spelled correctly and matches your ID. For more information, please call (910) 678-8309.

W-F	5:00pm-9:00pm	Jan 08-Jan 10	Fee: \$180	12 hrs	91670	online
M-W	9:00am-1:00pm	Mar 03-Mar 05	Fee: \$180	12 hrs	91671	online
W-F	5:00pm-9:00pm	May 07-May 09	Fee: \$180	12 hrs	91674	online

AUTO DEALER'S RENEWAL TRAINING – ONLINE

All auto dealers (under the age of 65) are required to attend this training in order to renew their license. The law requires that the person whose name is on your auto dealer's license must attend this training, although it would be helpful for anyone working in independent auto sales to attend. Failure to attend and complete this six-hour requirement will result in a revocation of your dealer license. The intent of this training is to provide annual updates to all independent dealers on contemporary issues. At the conclusion of this class, you will receive a certificate of completion. **Supplies:** Students must have access to a computer or tablet with a microphone and camera. **NOTE: Course workbook is included in the registration fee. This is a self-supporting course; fee-exempt status does not apply.** To register for this course, please visit www.LearnFTCC.com. **PRE-REGISTRATION IS DUE BY 4:45 PM TWO BUSINESS DAYS BEFORE THE CLASS START DATE.** When registering, please check that your name is spelled correctly and matches your ID. For more information, please call (910) 678-8309.

MOTORCYCLE REPAIR & MAINTENANCE

With the popularity of motorcycles and ATVs comes the opportunity to earn a living in motorcycle repair and maintenance. Maybe you already have some automotive repair experience and want to see if this is something that might interest you. During this hands-on class, emphasis will be placed upon two-and four-stroke engines, calibration and synchronization of carburetors, braking system safety and maintenance, what to do when the lights and power fails, repair of frame and suspension, and which oils are best at preventing damage. This course is also open to those who own a motorcycle or are considering buying one and want to learn how to do some of their own repair and maintenance.

SMALL GAS ENGINE REPAIR

Have you ever wanted to learn how to service and repair various types of engines? In this class you will learn the basics and some intermediate level repairs from lawn mowers to two-and four-cylinder engines. This is an excellent course for those training to work in the small engine mechanic industry. **Supplies:** You may need to purchase basic hand tools if you do not have what is necessary at home. A list of tools will be provided the first day.

PRE-REGISTRATION IS REQUIRED. For more information please call (910) 678-8494.

COLLISION REPAIR & REFINISHING TECHNOLOGY

AUTOMOTIVE RESTORATION & PANEL REPAIR TRAINING

The course is designed to provide training for the hobbyist or DIY individuals interested in methods, techniques and tools used for restoring older vehicles and fabricating repair panels to repair rusted body parts. Training will include the use of state-of-the-art equipment used by the automotive collision industry in repair of damaged and rusted body parts as well as historical methods of repair used to restore older vehicles. This course will cover instruction in the areas of methods of repairs, usage of tools and materials of the trade. Practical exercises will support and reinforce lecture topics. The student will learn to repair panels using the proper methods and techniques as well as determining whether to repair or replace a panel based on the extent of damage. No refinishing will be done in this class. **NOTE:** Students will be responsible for Personal Protection Equipment (PPE) including safety glasses, mechanic's gloves, and appropriate clothing and footwear. Students will also need to bring their own hand tools such as wrenches, screwdrivers, sockets, etc. FTCC will provide all specialty tools for the course including hammers and dollies.

For more information please call (910) 678-8494 or email figueromi@faytechcc.edu.

Instructor: Antonio Rojas

ESTIMATING, INSURANCE, AND BODY SHOP BUSINESS

The course was designed to meet the increasing need for trained personnel with these skills. This course will provide training for auto insurance estimators and Collision Repair shop front office staff in the areas of damaged vehicles. Topic areas will include vehicle inspection, accessing repair costs, training in the latest auto body repair technology and trends as well as understanding of the auto insurance policy and North Carolina Motor Vehicle Repair Act, Article 15B. Students will be trained in all facets of collision estimating and practical exercises will supplement all lecture material. **NOTE:** Student will be responsible for Personal Protection Equipment (PPE) including safety glasses.

For more information please call (910) 678-8494 or email figueromi@faytechcc.edu.

Instructor: Doug Irish

NON-STRUCTURAL ALUMINUM WELDING FOR AUTOBODY REPAIR TRAINING

The course is designed to provide training for auto body technicians in all facets of non-structural aluminum welding repairs for automotive repair. Training will include the use of state-of-the-art welding equipment used by the collision industry in the repair of damaged aluminum panels. This course will offer instruction in the areas of damage assessment, method of repairs, and usage of tools and materials of the trade. Practical exercises will support and reinforce lecture topics. The student will learn to repair Aluminum non-structural panels and determine whether to repair or replace a panel based on the extent of damage. **NOTE:** Students will be responsible for Personal Protection Equipment (PPE) including safety glasses and welding respirator.

For more information please call (910) 678-8494 or email figueromi@faytechcc.edu.

AVIATION

AIRFRAME AND POWERPLANT LICENSE PREP COURSE **SARA**

The Airframe and Powerplant preparatory course provides a 128-hour self-paced program of study with a certified FAA Airframe and Powerplant facilitator. It will prepare the student for the three written tests, and the oral and practical test of the FAA Airframe & Powerplant Certificate.

Students are required to provide two signed copies of the FAA 8610-2 form documenting at least 30 concurrent months of work experience in both Airframe and Powerplant prior to course registration.

PRE-REGISTRATION IS REQUIRED. Contact Dr. Waleed Mohamed at (910) 678-8494 for information about these forms or for any information.

Instructor: Cape Fear Aviation Maintenance

Sat	8:00am-5:00pm			

DRONE TRAINING, PART I **SARA**

Unmanned Aircraft Systems (UAS) are commonly known as Drones, and these flying systems are flown without a human pilot aboard. However, a properly trained human operator is still required. During this course, students will gain the knowledge needed to pass the initial aeronautical exam known as the FAA Knowledge 107 Test for UAS Operators. The topics of this course include aerospace history, weather, navigation, instruments, preflight planning, computer and wind triangles, regulations, radio communications, the aviation field and procedures necessary to become a safe private pilot and/or drone pilot.

Instructor: Flying Over U

Sat	9:00am-1:00pm	Mar 01-Apr 05	Fee: \$70	24 hrs	90446	HOS 625
-----	---------------	---------------	-----------	--------	-------	---------

DRONE TRAINING, PART II **SARA**

Continue your drone training in this course to increase your knowledge to pass the FAA 107 Knowledge Test for UAS Operators and brush up on flying skills. Emphasis will be placed upon flight training of drones, aerospace history, weather, navigation, instruments, pre-flight planning, computer and wind triangles, regulations, radio communications, the aviation field and procedures necessary to become a safe private pilot and/or drone pilot. **Supplies:** You will need to bring your own drone to class.

Instructor: Flying Over U

CLASES DE ELECTRICIDAD -RESIDENCIAL Y COMERCIAL

Este curso está diseñado para que aprendamos los principios del cableado eléctrico que se usa en centros comerciales, y en residencias. Le daremos énfasis a las leyes de corriente alterna y continua, circuitos en serie, en paralelo, uso de herramientas, equipos eléctricos, materiales de cableado y conceptos de electricidad. Aprenderemos la importancia del mantenimiento preventivo, solución de problemas técnicos y el Código Eléctrico Nacional.

Esta clase de electricidad consta de diferentes niveles. Para tomar estas clases y obtener la certificación total de NCCER las clases deben ser tomadas en el siguiente orden:

1. Introducción a la seguridad en el Lugar de trabajo.
2. Introducción al cableado eléctrico
3. Cableado residencial
4. Cableado comercial
5. Cableado comercial/industrial Avanzado

Se requiere que se inscriba antes del inicio de la clase. Para más información llame a Miguel Figueroa, 910-678-8430 or email figueromi@faytechcc.edu.

Se puede aprobar crédito curricular por aprendizaje previo para este programa al inscribirse en un programa de grado asociado o certificado con FTCC.

ELECTRICAL – BASIC ELECTRICAL WIRING (RESIDENTIAL)

This course will provide an overview of electrical wiring techniques and is suitable for students with no prior knowledge of electrical theory or installation. While electrical fundamentals such as Ohm's law will be examined, emphasis will be placed on the design and installation of residential electrical systems. Topics will include an overview of home electrical systems, circuit design, electrical tools and test equipment, cable and wire types, calculation of circuit capacity, mapping and tracing circuits, troubleshooting, and electrical inspections. ***This course provides hands-on training.***

PRE-REGISTRATION IS REQUIRED. For more information please call (910) 678-8494 or email figueromi@faytechcc.edu.

Instructor: Eddie Evans

T,Th	6:00pm-9:00pm	Jan 07-Jan 30	Fee: \$70	24 hrs	61020	CBI 128

Instructor: Eddie Evans or Frank Arnold

Sat 8:00am-5:00pm Apr 12 Fee: \$90 8 hrs 61026 CBI 111

ELECTRICAL LINEMAN **SARA**

The Lineworker course has been designed and coordinated with PWC to provide specific aspects of building and maintaining electrical power circuits and equipment for overhead and underground construction. This course will cover definitions, voltage ratings, pole climbing, types and use of electrical tools/equipment, electrical safety, Arc Flash Safety, material assembly, OSHA 10 Construction Certification and CPR/First Aid/AED Certifications. Human Resource Development will aid in resume writing, soft skills, and the interview process.

Students are required to purchase accident insurance for \$2, OSHA Card Certification for \$10 and CPR/First Aid/AED for \$20 which is payable at the time of registration. Students will be responsible for paying all permit cost, completing all testing at the DMV, completing a physical, and drug screening. Students will also need to go to the DMV and get a free CDL manual.

Students will be required to provide Personal Protection Equipment (PPE), more information will be provided the first day of class. This course will provide hands-on and HRD training.

Students must register at Records & Registration in the Neill Currie Building.

PRE-REGISTRATION IS REQUIRED. For more information please call (910) 678-8494 or email figueromi@faytechcc.edu.

Instructor: Jacqueline Montero

FLOOR COVERING & TILE INSTALLATION

This course is designed for those who are interested in learning elements of construction building trades, such as how to install or replace the floor coverings in homes or small commercial projects. During this course you will learn rules of safety for working on site, the appropriate hand tools to use for various jobs, how to plan, design, select materials, estimate costs, and install solid wood, laminate, tile (ceramic, porcelain, and stone), sheet vinyl, vinyl planks and tiles, and carpeting. This course serves as training for those interested in employment as flooring installers and restorers. In depth hands-on training will be provided for various types of jobs. **Supplies:** You may need to purchase basic hand tools if you do not have what is necessary at home. A list of tools will be provided the first day.

PRE-REGISTRATION IS REQUIRED. For information please call (910) 678-8294.

Instructor: Willie Simpson

UNLOCK YOUR POTENTIAL with FTCC's Digital Badges!

Earn Valuable Credentials:

At Fayetteville Technical Community College (FTCC), we're excited to introduce our new digital badges. These badges recognize your achievements and enhance your professional profile. Whether you're a student, working professional, or lifelong learner, FTCC's digital badges can boost your career prospects.

What Are FTCC's Digital Badges?

- **Verified Forklift Operator Badge:** Master the art of safe forklift operation.
- **CPR Certified Badge:** Learn life-saving CPR techniques.
- **OSHA 10-Hour General Industry Badge:** Understand workplace safety regulations.
- **OSHA 10-Hour Construction Badge:** Build a solid foundation in construction safety.
- **OSHA 30-Hour General Industry Badge:** Dive deeper into safety practices.
- **OSHA 30-Hour Construction Badge:** Elevate your construction safety expertise.
- **Lean Six Sigma Yellow Belt (LSSYB) Badge:** Gain foundational knowledge in Lean Six Sigma and improve process efficiency.
- **Lean Six Sigma Green Belt (LSSGB) Badge:** Acquire advanced Lean Six Sigma skills and lead process improvement projects.

Why Earn FTCC's Digital Badges?

- **FREE:** No additional cost! Complete the courses and claim your badge.
- **Shareable:** Showcase your accomplishments on LinkedIn, Facebook, and Twitter.
- **Professional Edge:** Add badges to your email signature and resume.
- **Industry-Recognized:** Employers value these credentials.

How to Get Started:

1. **Register for Fall 2024 Corporate and Corporate Education (CCE) Courses:**

Visit the FTCC CCE Registration website at <https://www.faytechcc.edu/corporate-continuing-education/schedules/> to secure your spot.

2. **Attend Courses:** Learn from expert instructors.
3. **Earn Badges:** Successfully complete the courses.
4. **Claim Your Digital Badges:** Receive your badges via email.

Visit Us:

Center for Business & Industry
2723 Fort Bragg Road
Fayetteville NC

NOTARY PUBLIC **SARA**

This course is required for anyone interested in becoming a Notary Public for the first time. It is recommended for all notaries as a refresher course. **NOTE: The current edition of The Notary Public Guide Book for North Carolina is required for admittance to the class and can be purchased at the FTCC bookstore.** It is strongly recommended that you study the guidebook prior to class attendance to be better prepared for the state examination given at the end of the class. NCGS 10B-5(b) provides the following requirements to be commissioned as a Notary Public in NC: 1) Be at least 18 years of age or legally emancipated as defined in Article 35 of Chapter 7B of the General Statutes; 2) Reside or have a regular place of work or business in this State; 3) Reside legally in the United States; 4) Speak, read, and write the English language; 5) Possess a high school diploma or equivalent; 6) Pass the course of instruction described in this Article, unless the person is a licensed member of the North Carolina State Bar; 7) Purchase and keep as a reference the most recent manual approved by the Secretary that describes the duties and authority of notaries public; 8) Submit an application containing no significant misstatement or omission of fact. ***This is a self-supporting class; fee-exempt status does not apply.***

PREREQUISITE: Students must provide current state or federal picture identification for admission to class. **The active duty military and civilian ID cards DO NOT meet the identification requirement.** The ID must be a valid ID with a picture of the face and either signature or physical descriptors or both. **When registering, please check that your name is spelled correctly and matches your ID. With questions, please contact (910) 678-0032.**

NOTE: Having a conviction for misdemeanor or a felony in this or any other state within ten years of your day of application for the position of Notary Public could cause denial of your commissioning application. If convicted of a crime that is a misdemeanor or felony, you must have successfully completed your sentence from the court and then had a ten-year period from successful completion of the sentence prior to applying as a notary public. If you have questions about your criminal history and the ability to be commissioned as a Notary Public please contact the Notary Public Section, the Department of the Secretary of State directly at 919-814-5400 or by email at notary@sosnc.gov before registering for the class. Refunds will not be given if a criminal history issue prevents you from being commissioned.

FOREIGN LANGUAGE

ARABIC (BEGINNING)

The need for Arabic linguists has never been greater! With Arabic the native language of over 200 million people living in 20 different countries, it is essential that more Americans develop and maintain linguistic and cultural expertise in order to build a better understanding of the Arab world. While there are many Arabic dialects, including Classical Arabic, this course will concentrate on a widely spoken, adapted dialect, known as Modern Standard Arabic. This dialect is used most often in books, newspapers, on television and radio, in political speeches, and in conversation between Arabs from different countries. Once you have learned standard Arabic, it is relatively easy to adapt to a local dialect later.

MANDARIN CHINESE (BEGINNING)

This is a beginning course in Mandarin Chinese, the official language in Mainland China. Chinese is also one of the two official languages in Hong Kong and one of the four in Singapore. According to a recent survey, it is now the fastest growing foreign language chosen for study by American college students. This course is designed for beginners with an emphasis on developing minimum communicative competence in Chinese. You will be introduced to the basics of the Chinese language – the pinyin, characters and grammar – and learn how to carry out simple conversations in Chinese on a variety of topics.

Instructor: TBA

M 5:30pm-8:30pm Jan 13-Mar 10 Fee: \$70 24 hrs 91460 HTC 153

SPANISH (ADVANCED)

Spanish is now a prominent language used throughout the United States. In this course, you will be given fast-paced training to improve your reading, writing, and conversational skills. Take this class to improve your ability to communicate with your Spanish-speaking employees, co-workers, and customers. **PREREQUISITE:** Students must have completed Spanish (Beginning) and Spanish (Intermediate) courses or equivalent experience.

Instructor: Natalia Aguilar

W 5:30pm-8:30pm Jan 08-Feb 26 Fee: \$70 24 hrs 90456 HTC 142
Th 5:30pm-8:30pm Mar 13-May 01 Fee: \$70 24 hrs 90459 HTC 142

SPANISH (BEGINNING)

Spanish is the 2nd most used language in the United States and in today's society it is recognized as an additional skill when qualifying for promotions or a new career. In this course you will study grammar, conversation, and a touch of culture. This course is designed for those who have Spanish-speaking customers and employees, those who anticipate doing business with Spanish speakers, or those traveling to Latin America or Spain. If your workplace would benefit from your ability to speak and understand Spanish, then it will be to your advantage to enroll in this course.

Instructor: Isis Perez

Sat 9:00am-12:00N Jan 11-Mar 08 Fee: \$70 24 hrs 90454 CEC 147

Please check course descriptions for insurance requirements.*

BEHAVIOR TECHNICIAN – HYBRID **SARA**

Through the Behavior Technician program, you will receive the training needed to become a paraprofessional in the field of Autism services. This course provides an understanding of Autism Spectrum Disorder (ASD) and best practices for assisting children and adults with functional communication acquisition, social skill development, and behavior change. You will learn about Applied Behavior Analysis (ABA), an empirically validated method for changing behaviors and teaching social and adaptive living skills.

This 60-hour course includes 25 hours of live instruction and 40 hours' worth of online modules that you complete at your own pace. If you complete this course successfully, you will receive a Behavior Technician (BT) certificate and will be eligible for entry-level positions in the field. After the course, you may choose to complete additional assessments to become certified as a Registered Behavior Technician (RBT) by the Behavior Analyst Certification Board. Prevalence of Autism Spectrum Disorder and changes in insurance mandates drive high demand for ABA services and RBT recruitment.

For more information about this course and its requirements, please visit www.LearnFTCC.com. **PRE-REGISTRATION IS DUE BY 5:00 P.M. ONE WEEK BEFORE CLASS START DATE.**

Instructor: Janice Williams, Behavior Change Agents

PHLEBOTOMY SARA

This course prepares the student to draw blood specimens from patients for the purpose of testing and analyzing blood. The job of a phlebotomist includes maintenance of equipment used in obtaining blood specimens, the use of appropriate communication skills when working with patients, the selection of venipuncture sites, the care of blood specimens, the entry of the testing process into the computer, as well as clerical duties associated with record keeping of the blood tests. The course consists of theory and clinical experience in performing blood collections. Emphasis is placed on safety and proper selection of collection sites and the care of the collected specimen. Upon successful completion of this program, the student should be prepared to take the National Phlebotomy Certification Examination. The course requires the student to comply with FTCC's Immunization policy. Please note that some clinical facilities also require a criminal background check before attending clinical rotation. If a student cannot meet the criminal background check requirements, he or she will not be able to complete the program and will be dismissed from the course without a refund. This course is Hybrid (Blended) which requires students to attend the course on certain dates and complete online assignments utilizing the Blackboard platform. Clinical will be required during this course and students can expect to attend additional dates to meet this requirement. **An insurance fee of \$16.00 is due before entering the clinical site. Photocopies of the following are required: Picture ID, high school credentials, and CPR card (must be the American Heart Association's Healthcare Provider CPR card and cannot expire during class dates). SERVSAFE FOOD SAFETY TRAINING

The restaurant and food service industry's pre-eminent food safety training, the ServSafe program is recognized and accepted by more federal, state, and local jurisdictions than any other food safety program. It prepares the industry to prevent food-borne illness, reduce liability risks, lower insurance costs, and improve food quality. Effective training means your entire operation will be more efficient, profitable, and have a better understanding of health department inspections. ***ALL Food establishments are required by law to have a certified food protection manager (CFPM) at the food establishment during all hours of operation per section 2-102.12 of the NC Food Code. In order to meet this, an ANSI accredited program must be taken. Textbook Requirement: ServSafe Course Book with Online Exam Voucher.**

CAREER PATHWAYS FOR SOCIAL SERVICES CAREERS

This course is for those interested in working in the human services field. The class is taught in two phases. Phase I covers basic keyboarding skills, workplace ethics, communications skills and problem-solving strategies as well as learning how to enter client applications. Phase II is hands-on experience using the Department of Health and Human Services NC FAST System. There is a \$125 fee for each phase. Call 678-8495 to ask about schedules, registration, class locations and fee waivers.

CAREER PLANNING AND ASSESSMENT

This course is designed to assess the interests, attitudes, aptitudes and readiness as it relates to career, employment and or educational goals. The class focuses on the following topics: personal development, career exploration, goal setting and the development of a written plan of action. **For more information and to inquire about Fee Waiver Requirements, call HRD at (910) 678-8495.**

M-Th 8:00am-5:00pm Jan-May (Open Enrollment) Fee: \$180 LRC 203

CAREER READINESS/PATHWAYS

This course is an open employability lab designed to address one or more of the following topics: career exploration, job seeking and keeping strategies, entry-level skill awareness and development and training success strategies including note-taking, test-taking strategies, reducing test anxiety and preparing for certification exams and placement tests. **For more information and to inquire about Fee Waiver Requirements, call HRD at (910) 678-8495.**

M-Th 8:00am-5:00pm Jan-May (Open Enrollment) Fee: \$180 LRC 203

ECONOMIC LITERACY **SARA**

This course is designed to help students understand real-life economic concepts and economic ways of thinking that will enable them to make better-informed decisions related to their role as a member of the workforce. Topics include, but are not limited to, wage improvement plans, workplace business concepts and basic economic literacy concepts. **For more information and to inquire about Fee Waiver Requirements, call HRD at (910) 678-8495.**

M-Th 8:00am-5:00pm Jan-May (Open Enrollment) Fee: \$180 LRC 203

EMPLOYABILITY LAB

This course is required for those individuals interested in taking the ACT WorkKeys Test to get a Career Readiness Certificate (CRC). Prior to registering for the official test, students must first take an assessment to demonstrate readiness. Students who have successfully completed assessment will then be required to pay a testing fee of \$36 prior to being officially registered for the CRC Test. **PRE-REGISTRATION FOR THE LAB IS NOT REQUIRED. For more information, call HRD at (910) 678-0055. Ask about Fee Waiver requirements.**

M-Th 8:00am-5:00pm Jan-May (Open Enrollment) Fee: \$180 LRC 203

EMPLOYMENT ESSENTIAL SKILLS

This course is designed to promote the development and improvement of employability skills needed for success in the workplace. Through the completion of this course, the learner will be introduced to critical and analytical thinking, problem solving and decision making, cultural sensitivity, interpersonal skills, communication, reliability and dependability, time and resource management, and teamwork. No matter who you are and what level of experience you possess, this is a self-paced course that will prove to be beneficial for gaining, sustaining, and/or increasing your employability skills. This course is offered in a lab setting with open enrollment. **PRE-REGISTRATION FOR THE LAB IS NOT REQUIRED. For more information, call (910) 678-8495 or (910) 678-0055. Don't forget to ask about a Fee Waiver.**

M-Th 8:00am-5:00pm Jan-May (Open Enrollment) Fee: \$180 LRC 203

JOB READY

This course is designed to prepare the learner for what is required to enter and succeed in the workplace. During the instruction of the course the student will learn about employer expectations and standards prior to entering the workplace; essential skills required to sustain employment; desirable traits and skills necessary to blossom thrive in the workplace. Through the completion of this course the student will be introduced to eight critical skills fundamental to entering and maintaining employment in any workplace. This course is offered in a lab setting where students receive individual assistance based on their needs. Students may register throughout the semester for the open, drop-in lab. **PRE-REGISTRATION IS NOT REQUIRED. For more information, call (910) 678-8495 or (910) 678-0055. Fee Waivers and Scholarships are available for the registration fee.**

M-Th 8:00am-5:00pm Jan-May (Open Enrollment) Fee: \$180 LRC 203

VIRTUAL HRD CLASSROOM

This course is designed to prepare the learner for what is required to enter the workplace. During the instruction of the course the student will learn about developing a resume, cover letter and honing their interview skills. This course is offered in a virtual setting where students receive individual assistance based on their needs. Students may register throughout the semester for the open, drop-in lab. **PRE-REGISTRATION IS NOT REQUIRED. For more information, call (910) 678-8495 or (910) 678-0055. Fee Waivers and Scholarships are available for the registration fee.**

M-Th 8:00am-5:00pm Jan-May (Open Enrollment) Fee: \$180 online

WORKPLACE TECHNOLOGY **SARA**

This course is designed to introduce computers and computer terms, develop a moderate comfort level of basic computer-use skills, introduce the internet, develop email capabilities, and develop skills in navigating the internet and using search engines. The class will focus on the following topics: using the computer to search for jobs and occupational information, compiling employment-related documents (resume, cover letters and applications), accessing governmental and educational resources and emphasizing the role of information technology in the world of work. **For more information and to inquire about Fee Waiver requirements, call HRD at (910) 678-8495.**

M-Th 8:00am-5:00pm Jan-May (Open Enrollment) Fee: \$180 LRC 203

INDUSTRIAL SEWING

The Furniture Upholstery classes are offered to provide training to students that will allow them to increase their skills from novice to professional. For additional information, please call (910) 678-8431.

FURNITURE UPHOLSTERY (BEGINNING)

Do you have a desire to learn how to restore furniture by replacing the upholstery? During this course you will be given an introduction to the safe use of inside and outside upholstery tools, materials and techniques to re-upholster small seats on chairs, footstools and small pieces of furniture. Students may progress to sewing additional types of covers for re-upholstery, how to re-tie and tie springs, brace the frame and how to secure the webbing – all part of the upholstery process. Upon completion, students should understand techniques of upholstering small pieces of furniture. **Supplies:** Please bring the following tools the first day of class: tape measure, fabric scissors, needle-nosed pliers, wire cutters, upholstery nail remover, tack remover. **NOTE:** Students who have not sewn on the industrial machines will need to start with a small cushion, pillow, bench cushion or wingback chair in order to gain the basic skills. **Please bring your project to the first day of class and contact the instructor with questions before by calling (910) 494-5468.**

Instructor: Milagros Whitted

SIGN LANGUAGE TRAINING

SIGN LANGUAGE I

This course is foundational in that it lays the groundwork for becoming a fluent signer. In this class you will learn fingerspelling, ABCs, and vocabulary (179+ signs). Additionally, you will be introduced to glossing, classifiers, and the five parameters of signs. The deaf culture, history of the Deaf community, and the beginnings of American Sign Language in America will also be covered. **Textbook Requirement: Signs of the Times** by Edgar H. Sroyer

Instructor: Glenna Hendrickson						
T,Th	5:30pm-8:30pm	Mar 11-May 01	Fee: \$125	48 hrs	33520	HTC 143

SIGN LANGUAGE II

In this class you will gain a deeper understanding of American Sign Language (ASL) and sentence structure. You will increase your expressive and receptive skills in order to become a more fluent signer and fingerspeller. In addition to learning more about Deaf history and culture, you will learn 172+ vocabulary terms and be given opportunities to use your skills with and Hard of Hearing friends from the local Deaf community. Continue your practice of ASL in this intermediate-level class. **PREREQUISITE: Sign Language I or equivalent experience. Textbook Requirement: Signs of the Times** by Edgar H. Sroyer

Instructor: Glenna Hendrickson						
Sat	9:00am-1:00pm	Jan 11-Mar 29	Fee: \$125	48 hrs	33518	HTC 143
T,Th	5:30pm-8:30pm	May 06-Jun 26	Fee: \$125	48 hrs	33519	HTC 143

SIGN LANGUAGE III

This final class will take you into the world of communicating through ASL with clarity. This course is an advanced level of sign language focusing on ASL structure and grammar, how to gloss complete sentences and express them, 173+ vocabulary terms, how to set up a room in space and share what it looks like with others and experience what it feels like to be Deaf or Hard of Hearing. This final class along with Sign Language I and Sign Language II will aid in preparing the student to enter an advanced study program of ASL or take Interpreter Education for higher education programs. **PREREQUISITE: Sign Language I and II or equivalent experience.**

Instructor: Glenna Hendrickson						
T,Th	5:30pm-8:30pm	Jan 14-Mar 06	Fee: \$125	48 hrs	33516	HTC 143
Sat	9:00am-1:00pm	Apr 05-Jun 28	Fee: \$125	48 hrs	33517	HTC 143

TEACHER TRAINING

EFFECTIVE TEACHING TRAINING & CCS SUBSTITUTE TEACHER ORIENTATION

Would you like to be a substitute teacher, but you have never had any training? This course will provide training in instructional feedback, presentation skills, learning expectations, monitoring students' interactions, appropriate social interactions, time management, non-instructional duties, and evaluations. Information specific to Cumberland County Schools will be presented as this course is the first step in applying to be a substitute teacher for Cumberland County Schools.

TRANSPORTATION

The FTCC CDL Program is registered by the Federal Motor Carrier Safety Administration (FMCSA) and certified as a Training Provider.

CDL TRAINING CLASS B W/P

Would you be interested in a career as a city bus driver or a tour bus driver? Or would you like to be authorized to drive other class B vehicles such as a dump truck or box truck? If so, this course will teach all facets of knowledge and provide practical skills and opportunities to pass the Commercial Driver License examination. During instruction, subject material will include Hours of Service reporting, Pre-Trip/Post-Trip inspections, Driving practice, Trip-Planning, and DMV testing. Additional topics are also included to ensure the student's success in the transportation industry.

NOTE: All training will be done on a Transit Bus, but successful completion of this course will qualify you to drive any Class B vehicle, except school Buses. This class DOES NOT equip you to drive a school bus. For more information on school bus driver training, please visit <https://www.ncbussafety.org/busdrivers.html>. **Maintenance Fee: \$50 required to be paid at the time of registration. Students are also responsible for estimated out of pocket expenses (prior to class starting) including: DOT Physical & Drug screening \$125.00; Driving history \$12.75; Class B w/P CDL Permit \$77.00; Class B w/P CDL License \$127.50 (upon completion of class)**

For more information email Eric Smith at smither@faytechcc.edu.

WEDDING/EVENT PLANNING

EVENT PLANNING: WEDDINGS, CORPORATE AND SOCIAL EVENTS

If you enjoy working with people, are detail-oriented, have good communication skills, and a lot of patience, this may be the ideal business for you! Whether you are interested in establishing a home-based business, working part time or launching a new career, or want to gain training to become a certificate-holding professional; this course may afford you many opportunities to earn supplemental income. From unique history and traditions, to working with clients, how to plan weddings and events, working with budgets, executing plans and how to charge for your services. You will also cover choosing a name for your business, branding and marketing concepts and how to take the next steps in legalizing your business structure. Your instructor will help you develop a philosophy of success that will prepare you to start an organized, professional wedding/event planning business or elevate your current business.

PERSONAL INTEREST

Fayetteville Technical Community College has a genuine commitment to serving the educational needs of the entire community. The courses included in this section have been designed to encourage lifelong learning by providing you with a means to express your creative, cultural, civic, and leisure interests.

ART

ACRYLIC PAINTING (BEGINNING)

This course is designed to introduce the basic elements of acrylic painting to students with little or no experience. Students will work with acrylic colors and explore the many ways acrylic paint can be used. Basic care and handling of materials will be covered as well as studio safety. Instruction will be done on a variety of materials, and specific exercises will be given so that students can explore color, light, texture, transparency/impasto and composition. The class projects will concentrate on developing technical skills and aesthetic goals in regards to handling acrylic painting media. Special emphasis will be given to personal style development while adhering to proper technique. **Supplies:** Students will need to purchase some supplies and may request this list by emailing the Instructor at stouta@faytechcc.edu.

Instructor: Angela Stout

M	6:00pm-9:00pm	Jan 06-Mar 03	Fee: \$85	24 hrs	90473	CEC 139
M	1:00pm-4:00pm	Mar 17-May 05	Fee: \$85	24 hrs	90474	CEC 139

ACRYLIC PAINTING (INTERMEDIATE)

This course is designed for students who have completed a beginning level acrylic painting course or have equivalent experience. For those who have not painted in a while, your instructor will review some of the basics and move into choosing subjects, setting up a still life, painting from life and photographs, and landscapes. **Supplies:** Students will need to purchase some supplies and may request this list by emailing the Instructor at stouta@faytechcc.edu.

Instructor: Angela Stout

DRAWING AND PAINTING WITH COLORED PENCILS

Wake up! You know what? It is time to draw! Yes, draw and paint and find out what your inner self looks like. What is the picture of you? Come on, give it a try! 100% of those before you couldn’t believe what they could create with colored pencils and a blank sheet of paper. They all said they couldn’t even draw a stick figure. Boy, were they wrong. Design your own Christmas cards, get them copied, and give them to your friends this Christmas! You didn’t know it, but you are an artist! **Supplies:** Colored pencils and drawing paper of your choice.

JEWELRY MAKING AND SILVERSMITHING (BEGINNING)

Learning to create jewelry through the technique of silversmithing is one of the most rewarding methods to create a one-of-a-kind work of art. This course is designed to cover the fundamentals of silversmithing to include silver soldering, sawing, forming, filing, and texture creation. While this course is designed for the beginning student, your instructor will work to meet the needs of students from a variety of jewelry making backgrounds. Emphasis will be placed upon soldering techniques as you work on various projects. **Supplies:** You will be provided with the basic copper and wire needed to practice the metalsmithing skills on your first project; however, please be prepared to spend between \$60-\$150 in supplies, depending on the project you choose to complete. You are also welcome to provide your own metal of choice at your cost if you prefer not to use the provided copper. Basic hand tools are available in the FTCC studio for novice students.

Instructor: Gail Ferguson

M	2:00pm-5:00pm	Jan 13-Mar 10	Fee: \$90	24 hrs	90420	CEC 145

PAINTING WHAT YOU SEE

Painting a lasting piece of artwork is a process and, in this class, we will explore the steps within that process to guide you from concept to creation and the final step of preserving your work of art. "Seeing" is step one, followed by learning to develop a pleasing composition. During this class, we will focus on preparing your canvas, then applying your composition to that surface, while also exploring color, color theory, color harmony, complimentary colors and identifying the color of your light and shadows. There are many other factors which will impact the result in your artwork to include the edges, different mediums, quality paint brushes and paint to apply to the canvas. Join us as we create timeless art pieces to preserve and enjoy together!

Instructor: Talmadge Potter

POTTERY (BEGINNING)

If you have always been fascinated watching potters and thought it looked like fun, come and learn just how much fun it really is. Pottery is not difficult to learn, but it takes patience and the willingness to get a little dirty. As a beginning student, you will learn basic throwing techniques with emphasis on making functional forms such as mugs, bowls, and vases. You will learn how to trim, decorate (if desired), and glaze your pieces. If you are interested, you can also work on hand-built pieces. **Supplies:** Students will need to purchase their own clay (available from FTCC bookstore). Glazes are provided.

Instructor: TBA

T	6:00pm-9:00pm	Jan 21-Apr 29	Fee: \$125	45 hrs	90494	HOS 627

POTTERY OPEN STUDIO

Our pottery open studio time is available to experienced potters and potters of varying skill levels. We recommend this course for those with any basic level of prior pottery experience that would like to continue practicing with wheel-thrown or hand-built work under the supervision of an experienced instructor. Pursue working on existing projects or start something new! This course provides access to wheels, various tools for wheel-thrown and hand-built work, as well as underglazes, and mid-range firing glazes. Mid-range, Cone 6 clays are available for purchase in the FTCC bookstore.

Instructor: Tina Wilson

----	---------------	---------------	------------	--------	-------	---------

STONE CUTTING: BASIC CABOCHONS

Cabochons are gems that have been cut and polished but not faceted into the setting. Adding gems to your jewelry brings your designs to the next level and will allow you to incorporate even more unique characteristics to your designs! During this class you will be introduced to the process of cutting and polishing stones, and how to determine the best shape that is appropriate for your custom jewelry design. Using our trim saw and CabKing capping machine, you will learn safety procedures and steps to operating the equipment for best results. **PREREQUISITE:** Completion of Jewelry Making & Silversmithing (Beginning) or equivalent experience. **Supplies:** You will be provided with the basic copper and wire needed to practice the metalsmithing skills on your first project; however, please be prepared to spend between \$60-\$150 in supplies depending on the project you choose to complete.

Instructor: Gail Ferguson

THE ART OF PAINTING

The "Art of Painting" is a step-by-step method of oil painting that will acquaint you with materials, mediums, and tools necessary to create works of art. If you are a newcomer to the world of painting or have experience, you will benefit from this class. From concept to completion we will employ proven techniques and methods that have served to develop and enhance many artists. **NOTE:** Novice and experienced painters are welcome. **Supplies:** Please request a supply list at the time of registration, or you may wait until the first class to purchase supplies after class discussion. You may bring any oil painting supplies you have at home.

Instructor: Talmadge Potter

F	9:00am-12:00N	Jan 10-Feb 28	Fee: \$85	24 hrs	90481	CEC 139

WATERCOLOR (BEGINNING/INTERMEDIATE)

Have you always wanted to learn how to paint using watercolors but felt intimidated by the rumor that this type of painting is difficult? This is an excellent course for the beginning painter or for those who have some experience. In this course, students will learn about composition, principles of design, color harmony, and the inherent qualities of their materials. Demonstrations by the instructor will include wet-in-wet, dry-brush, and how to get rid of mistakes in watercolor techniques. Join us as we discover the beauty in painting watercolors! The instructor will also work with students at the intermediate level teaching new techniques. **Supplies:** Supplies will be discussed on the first day. Students will need to purchase some tools.

FRESH PASTA WORKSHOP

Pasta is a staple food of traditional Italian cuisine, with the first references dating back to 1154 in Sicily. In this class we will look at the equipment used to make pasta into various shapes, and the cooking techniques as well. As an alternative for those wanting a different taste, or who need to avoid products containing gluten, we will explore using different types of flour to make pasta. For this workshop we will concentrate on two different shapes, fettucine and linguine.

Instructor: Chef Cathryn Rozier

FINANCIAL PLANNING

ESTATE PLANNING

Estate planning is a subject no one likes to think about, but one that requires thoughtful consideration. If you fail to plan for the settlement of your estate, the state subjects your assets to probate, a potentially time-consuming, expensive, and public procedure that could make an already difficult time impossible for your heirs. Fortunately, good estate planning can help out during your lifetime and help your family later. Join us! Topics will include wills, gifts, and joint ownership.

FLORAL/GARDENING/LANDSCAPING

COMPOSTING WITH VERMICULTURE

Composting is the natural process of decomposition and recycling of organic material into a humus-rich soil amendment. Vermiculture is a method of composting with various species of worms who eat your decomposing food waste. Why not try both? Join Cheryl Garrett to learn how to start and enjoy the experience of doing it yourself! Learn different ways to build a "Brown & Green" composting bin and also how to set up an earth worm bin to eat your garbage and enhance your gardening soil. In this class, you will begin to see why composting in the world today is a necessity.

MOTORCYCLE

MOTORCYCLE: BASIC RIDER COURSE

Learn safe motorcycle riding under the direction of Motorcycle Safety Foundation (MSF) certified instructors. This beginning course is designed for riders with little or no experience. Based on extensive data, research, and field tests, this course combines classroom and on-bike experience to give overall understanding of motorcycling and prepares the student with basic riding skills. Motorcycles are provided. **Students will need DOT-approved helmet, gloves, eye protection, long-sleeved clothing, long pants, and sturdy, over-the-ankle, leather footwear.** You must be able to ride a bicycle and lift and keep the motorcycle upright. For registration and more information about this course, please visit www.LearnFTCC.com and search under the "Instructor Led" tab at the top of the screen. **BECAUSE CLASS SIZE IS LIMITED, PRE-REGISTRATION IS ENCOURAGED. Please call (910) 678-8488 for class availability; for all other questions please call (910) 678-8446. NOTE: The North Carolina Motorcycle Safety Education Program requires 100% attendance. You must be in attendance and in your classroom seat at 5:30pm when the first class begins. Failure to be on time will result in your slot being denied and your registration fee forfeited.**

MOTORCYCLE REPAIR & MAINTENANCE

With the popularity of motorcycles and ATVs comes the opportunity to earn a living in motorcycle repair and maintenance. Maybe you already have some automotive repair experience and want to see if this is something that might interest you. During this hands-on class, emphasis will be placed upon two-and four-stroke engines, calibration and synchronization of carburetors, braking system safety and maintenance, what to do when the lights and power fails, repair of frame and suspension, and which oils are best at preventing damage. This course is also open to those who own a motorcycle or are considering buying one and want to learn how to do some of their own repair and maintenance.

QUILTING 101

Have you been thinking about starting to quilt, but don't know where to start? Well, then look no further than our Quilting 101 class! This introductory class will give you the knowledge and skills you need to be an experienced quilter! The amount of time and effort that goes into the creation of a quilt makes these crafts a priceless family heirloom that will be passed down from generation to generation. This class is tailored for first time quilters. Please take this class before the intermediate-level courses. **NOTE:** You may bring your own machine to class along with the manual, or you may use machines provided by FTCC. **Supplies:** Supply list and pattern will be given at first class meeting. Questions regarding this class? Please call us at (910) 678-8309. Instructor: TBA

F	6:00pm-9:00pm	Jan 17-Feb 21	Fee: \$85	18 hrs	91741	CEC 144
---	---------------	---------------	-----------	--------	-------	---------

QUILTING & PIECING

Beginning quilters--this course is designed especially for you! Learn easy quilting and piecing techniques for triangles, diamonds, curves, color selection, simple drafting, and much more. We will cover the whole spectrum of quilting made easy. **Supplies:** Please ask for a supply list at the time of registration.

Instructor: Annette Ornelas

ROADSIDE SURVIVAL

Two hundred million licensed motor vehicle drivers in the US expose themselves routinely to a significant risk while betting that they will not become stranded when they drive. Would you like to become one of the drivers who has the ability to help yourself if something were to happen? If so, come join Walt as he walks you through easy solutions to many issues that may befall you as a motor vehicle operator. His experience will help you learn how to address problems such as tire blowouts, overheated engines and dead batteries. One part of the class will be spent in the classroom learning theory, and another part of the class will be spent outside with your personal vehicle putting all you have learned into action!

Instructor: Walt Brinker

PHOTOGRAPHY & GRAPHIC DESIGN

Photography is one of the most popular ways to express your creativity! Whether you enjoy capturing beautiful photos as a hobby or as a profession, our photography instructors have the experience and professional background to take you to the next level. You'll notice we offer a variety of classes that will introduce you to the basic functions of a camera, to editing the images you've captured, with tips on how to run a successful photography business. With questions regarding these classes, please call (910) 678-8431.

DIGITAL PHOTOGRAPHY FUNDAMENTALS

Would you like to have more control over your camera? Frustrated because you can't make your camera work for you? This course will expand your ability to use your DSLR (digital single lens reflex) camera. You will gain an understanding of photographic terms, expressions, and techniques. Instruction will include basic camera controls, setting your camera up for optimal quality, using your camera in a variety of situations, using various modes to capture photographs in various situations, and the use of manual controls. We also cover art and composition as well as equipment selection. **NOTE:** Not recommended for point-and-shoot cameras. You will need to bring your camera and owner's manual on the first night of class.

Instructor: Frank Galluccio

F	9:00am-12:00N	Jan 24-Mar 14	Fee: \$100	24 hrs	90428	CEC 108

DIGITAL PHOTOGRAPHY (INTERMEDIATE)

Have you ever heard someone say, "You have an eye for photography"? This is a trait that you must have, but many who are interested in photography simply were not born with the skill of finding the perfect light or angle when taking a picture. In this class, you will be given instruction on how to look for that artistic angle and capture that very moment before it passes. **PRE-REQUISITE:** Digital Photography Fundamentals or equivalent experience. **Supplies:** You will need to bring your camera on the first class meeting. A digital single-lens reflex camera is recommended, but is not required.

YOGA (BEGINNING)

Yoga has been recognized medically for the many benefits that it promotes. It is often recommended by various medical treatments to supplement medical conditions such as depression, combat stress-related conditions, arthritis, diabetes and many more. Yoga, with its gentle movements, will enhance health by strengthening your body and improving oxygen flow, promoting a healthy mind, body, and spirit. Each lesson includes deep breathing and movement exercises that can be modified to accommodate any fitness level and medical needs. Yoga provides a unique, individual experience that will develop flexibility and stamina, increase awareness to help you identify stress and coping strategies, improve balance and concentration, and promote a more healthful lifestyle. **NOTE:** Please wear comfortable clothing, socks, and bring your yoga mat, towel, and water.

COMMUNITY PARTNERSHIPS

FTCC is always excited to work with partners from the Community to find ways to work toward our common goals and strengthen economic development activities through responsive, timely and relevant workforce training and education.

To meet national and state demands for employment within the renewable energy sector, Fayetteville Technical Community College (FTCC) has formed a partnership with **Cumberland County Schools (CCS)**, Cape Fear High School, Douglas Byrd High School, E.E. Smith High School, Grays Creek High School, Jack Britt High School, Westover High School and 71st High School and two major energy industry employers (**Blue Ridge Power** and **Public Works Commission**) to implement a new pathway that will help grow the future workforce within this sector.

For details contact FTCC High School Connections at hsc@faytechcc.edu.

CareerStep and Ed2Go

We offer a variety of online course in various categories such as Certification Preparation, Computer Education & Training, Entrepreneurship, Foreign Language Training, Medical Coding & Billing, Medical Office Administration, MyCAA Approved Courses, Small Business Training, Teacher License Renewal, Writing & Publishing and many more.

To register go to: www.LearnFTCC.com.

The Army Career Skills Program (CSP) and the **Department of Defense (DoD) SkillBridge Program** are both initiatives that assist transitioning service members in gaining job skills and improving their employment prospects in the civilian work environment. These programs aid transitioning service members and veterans by allowing them to participate in civilian training, credentialing, apprenticeship, and internship programs beginning up to six months before separation from military service. Industry Employer Partners gain early access to highly skilled service members as prospective employees. These programs are offered at little to no cost to the service member.

Would you like more information? Go to the link <https://www.faytechcc.edu/military-veterans/veterans-services/ready-to-transition/skillbridge-csp/>

Military Outreach & Veterans Engagement (MOVE)

A community project workforce program between **North Carolina Biotechnology Center (NC Biotech)**, **Fort Liberty** and FTCC to ensure veterans, service members, and their spouses have the resources they need to create clear career pathways in NC's life sciences manufacturing industries. MOVE will provide two separate workforce development training programs: Life Science Manufacturing Job Training Programs and On-The-Job Training (OJT) Internships.

For details, see page 21

Blue Cross Blue Shield

FTCC and **Blue Cross and Blue Shield of North Carolina (Blue Cross NC)** have partnered to provide an insurance pre-licensing program for Cumberland County! If you're looking for a profitable, professional work opportunity and you want to enter a career field that can lead to advancement, then working as a NC Licensed Insurance Agent is a great place to start! FTCC and Blue Cross NC are making it more accessible to become a NC Licensed Insurance Agent than ever before through their sponsorship program. Through this program, you have the opportunity to apply to receive funding that will cover your course tuition, course fees and licensure upon completion of the program. Those who are not seeking financial assistance and would like to register and pay for the training program are also welcome to sign up following the steps below.

The North Carolina Department of Insurance (NCDOI) requires that individuals complete an approved and mandated pre-licensing education course. FTCC's program is offering the following training program to effectively prepare students for success in the field!

For details go to <https://www.faytechcc.edu/corporate-continuing-education/ftcc-blue-cross-nc-opportunity/> or see page 14.

Motorcycle Safety Foundation

With half a century of best practices and research under its belt, and esteemed partnerships with over 30 DMVs and the US military, the Motorcycle Safety Foundation (MSF) continues to improve the ride for riders across the nation. Education is equal parts competence and confidence, and those elements inspire freedom to command the saddle and savor the journey.

Vision: To help motorcycle riders realize their full potential, elevating awareness of motorcycling safety in order to save lives.

For details see page 40.

ENGLISH AS A SECOND LANGUAGE

English as a Second Language classes are designed for any adult who is not a native English-speaker. Reading, writing, and speaking skills are taught. Students are placed in class levels with others who have similar language needs. Those seeking to prepare to become United States citizens will also receive instruction in American civics, customs, and culture.

SPECIAL INSTRUCTIONS:

• Pre-Registration is Required!

You may register for Corporate & Continuing Education classes on a first-come, first-served basis. Please register well before the beginning date of your class. We encourage students to pre-register a week before the start date (applies to all methods of registration). If you wait, your class may either be full or canceled due to low enrollment.

• **Payment Options:** We accept Visa, MasterCard, Discover, cash, money orders, and in-state checks (check writer must reside in North Carolina). Make checks payable to FTCC, including a pre-printed in-state address and your driver's license number on the check.

• **Active-duty Military Personnel** using mail-in registration for courses marked by an asterisk (*) will show military unit rather than home address.

• **Register for online programs** through walk-in registration or at www.LearnFTCC.com.

FEES:

• Registration fees for Corporate & Continuing Education courses vary with the type of course. Note: fees are subject to change. See course listings and contact the program for current fees.

• All personal interest classes are self-supporting; no fee-exemptions apply.

• Students are responsible for buying books, supplies, and kits.

• Students may purchase accident insurance to cover class activities at the CE Records & Registration Office, located in the Tony Rand Student Center, Room 134.

POLICIES:

• Admission is open to anyone 16 years of age or older (Additional requirements for College and Career Readiness and other select programs).

• FTCC does not practice nor condone discrimination, in any form, on the basis of race, color, national origin, religion, sex, age, handicap, or political affiliation.

• FTCC reserves the right to cancel any class due to insufficient enrollment, inadequate facilities, or if qualified instructors are not available.

• CE classes are not offered for college credit and are non-transferable to Curriculum programs leading to associates degrees, diplomas, or certificates unless stated otherwise. CEUs (Cont. Edu. Units) may be awarded for successful completion of specific courses at the rate of one CEU for each ten hours of class participation.

ONLINE REGISTRATION

Search and register for select classes within minutes using our simple online registration process! Pay with your VISA or MASTERCARD. Check course listings within this catalog for the  symbol to register online.

- Visit www.faytechcc.edu
- Scroll to the bottom and click on Self-Service
- Choose "Continuing Education"
- Enter a search word from the course title

WALK-IN REGISTRATION
